Freshman Applicants: Essay & Short Response (Required)

Freshman Applicants: In keeping with Stevenson University's tradition of encouraging students to learn beyond the classroom, the Admissions Committee values the opportunity to get to know you beyond traditional academic boundaries such as grades and test scores. We seek students who will enrich, enliven, and benefit from our community. We encourage you to take this essay as an opportunity to let us learn more about you in a creative and thoughtful way.

Please choose ONE of the essay topics listed below and compose a two-page (approximately 500 words) essay. Include your name and address on each page.

Essay A: Reflect upon a significant challenge, experience, event or person in your life. How has that time or that person changed, affected, or otherwise influenced you and the goals you have?

Essay B: Stevenson's career-focused curriculum is complemented by an initiative called Learning Beyond. Learning Beyond encourages our students to apply the knowledge and skills they gain inside the classroom to the outside world through internships, study abroad, service learning, and research. Why are you interested in this type of education? How do you think it would benefit you?

Short Response (Required): In addition to the essay above, provide a 100-word response to the following question. Include your name and address on your submission.

Why do you feel you will do well at Stevenson University? What do you think you can contribute to the Stevenson community?

Transfer Applicants: Short Response (Optional)

Transfer Applicants (Optional): Compose a short essay discussing your academic history and/or career goals. Include your name and address on your submission.
