Imagine your future. Design your career.®
Stevenson University admits students of any race, color, sex, religion, and national or ethnic origin to all of the rights, privileges, programs, benefits, and activities generally accorded or made available to students at the University. It does not discriminate on the basis of race, color, sex, religion, disability, and national or ethnic origin in the administration of its education policies, admission policies, scholarship and loan programs, and other university-administered programs. The University is committed to providing all students with an educational environment free of bias, discrimination, intimidation, or harassment. In this regard, Stevenson University complies with all relevant federal, state, and local laws. The University also complies with all applicable laws and federal regulations regarding prohibition of discrimination and accessibility on the basis of age, disability, veteran status, or otherwise.

Stevenson University reserves the right to add, revise, or drop programs and courses, to implement new policies and procedures, and to change published calendars as it deems necessary. Such changes will be applicable to all students who are enrolled at the time the changes occur and to those who re-enroll as well. Every effort will be made to keep inconvenience to a minimum when these changes occur.

**Summer Session 2015**

Summer sessions will be held between May and August. Multiple sessions are available. Please consult the Summer Schedule of Classes for details on the sessions and classes available or contact the Registrar’s Office at 443-334-2206.

**Catalog Information**

The University reserves the right to change at any time and without prior announcement any matter set forth in this catalog, including fees, charges, programs, policies, regulations, and requirements. The catalog is not to be regarded as a contract.
Dear Student,

Welcome to the new academic year at Stevenson. I am sure that you will find enrichment and new perspectives in the courses and programs that we offer. The 2014/2015 Stevenson University Catalog provides a detailed overview of our diverse curriculum, student services, policies, and student clubs and organizations in order to help you work with your advisor and professors to plan your year.

Our University’s tagline, Imagine Your Future. Design Your Career®, is appropriate to our mission. Stevenson offers an integration of the liberal arts, sciences, and technology with a distinctive career focus. Through a process we call Career ArchitectureSM, our dedicated faculty and staff work with students from the beginning of their freshman year to help them develop values-based decision-making and career management skills for their lifetime. We expand on the lessons of Career Architecture by helping students to enhance their education through service learning projects, study abroad, internships, and leadership experiences that broaden their traditional university experience and apply skills and knowledge gained in the classroom to real-world challenges, occupations, and communities.

Our practical approach to education has increasing relevance in today’s dynamic workplace. In fact, Stevenson continues to gain recognition as a national leader in career-focused university education. We are proud to have received the Maryland Career Development Association’s 2013 Organizational Career Planning Award for our Career Architecture process. Our approach to career education and a low student-to-faculty ratio that enhances academic quality remain hallmarks of a Stevenson education.

The past several years have seen the lively transformation of Stevenson. In addition to our original campus in the Greenspring Valley with its library, theatre, art gallery, and academic facilities, our Owings Mills campus has rapidly grown during the last decade. The campus hosts the Brown School of Business and Leadership, premier student residential housing, a sports and wellness center, dining and student life facilities, a gymnasium for sports and events, and a 3,500-seat stadium for our football team as well as men’s and women’s soccer and lacrosse and women’s field hockey. The campus recently expanded with the addition of Owings Mills North, home to our School of Design which will be joined by the School of the Sciences.

All of these developments are designed to enhance our student-centered experience, to help you achieve success in higher education, and to put you on a path to reach your future goals. As you review this catalog, I offer you my best wishes for the 2014/2015 academic year and encourage you to take full advantage of the opportunities, activities, and facilities that Stevenson offers.

Sincerely,

Kevin J. Manning, Ph.D.
President, Stevenson University

The Stevenson Approach

Imagine Your Future. Design Your Career.

Students at Stevenson University do not simply come to campus and attend classes. The hallmark of a Stevenson education takes students outside of stereotypical academic situations to allow them to learn about themselves and how their actions affect others. Visitors to the campus witness this sense of community in the classroom, at varied cultural events, or within the simple social settings of university life. Away from the physical campus, employers see the difference when they hire Stevenson graduates, and area organizations reap the benefits when students share their talents as volunteers. Stevenson University promotes living and learning by combining challenging academic courses with an invitation to explore the world outside the classroom.

Throughout their university careers, Stevenson students take part in an introspective process called Career Architecture℠. This award-winning approach seeks to align personal values with professional ambitions. Students then have the opportunity to apply their newfound knowledge to work situations through a number of internships with local companies. Finally, service projects allow students to give back to the community and study abroad programs take Stevenson ideals into the larger world.

Stevenson University combines a traditional liberal arts education with a career focus in an environment supporting a variety of student services and extracurricular opportunities. By providing motivated students with personal attention and opportunities to take leadership roles in a variety of activities, the University strives to create lifelong learners. Students have opportunities to learn in the classroom and laboratory, on the stage, and in the community. By learning beyond the classroom, Stevenson University students transform the people they meet and the places they visit.

**Academic Coursework**

One of the strengths of Stevenson University is its ability to offer rigorous courses that provide students a strong foundation in the liberal arts and sciences, plus skills and knowledge in their major fields, in a mentoring environment of small classes and personal attention by faculty. All students must complete courses in a core curriculum that develops skills in writing, communication, and math and provides a basic understanding of the key disciplines in the liberal arts and sciences. Courses in the major provide opportunities to acquire proficiency in a specific discipline that will prepare students for employment in the chosen field of study or for graduate school.

**The Career Architecture Process**

As a result of Stevenson’s formal strategic planning process, the president, administration, and faculty of Stevenson developed and introduced the concept of Career Architecture℠ to the campus. Career Architecture℠ helps prepare students for the world of work from the beginning of their academic journey at Stevenson. Whether students are deciding upon or anticipating a specific major, Stevenson University offers a distinctive approach to explore new paths, change destinations, and map their own vision for the future. With the support of our career experts and committed faculty, the process of Career Architecture℠ helps students develop a personalized strategic plan based on motivated strengths, interests, values, and individual goals.

At SU, we strive to inspire our students through exposure to a wealth of experiences, professionals, and real-world scenarios. This invaluable framework, plus timely tools and coaching, empowers Stevenson students to imagine their future and design their careers with a competitive advantage achieved by graduation. The process is a personal exploration for students to help them design their career paths beyond their first job. Through theory, practice, and mentoring, students acquire a strategy for lifelong career management and learning that contributes to future success.

Career Architecture℠ is comprised of three elements that are introduced at various stages during students’ university years. The three elements of Career Architecture℠ are:

- **Personal direction.** We inspire our students to dream about their future and create their own journey through reflective pieces and exercises introduced to all students beginning in the freshman year. This guidance is designed to help them explore individual skills, values, and interests. One-on-one advising and career counseling assist them in developing a strategic career plan. The goal is to establish a strong foundation of increased self-awareness that leads to the creation of a personal plan for life and work.

- **Discipline expertise.** Students build the expertise and relationships that they will need to start off competitive and connected in their field. Basic career skills are learned through curricula, in-class seminars, and a wide range of university experiences and activities. Students further develop expertise through internships, service learning, leadership roles, engagement in student organizations and clubs, capstone courses, and research. The goal is to develop these skills and know how to apply them to succeed in school, work, and life.

- **Professional know-how.** Stevenson imparts the skills and tools students will need to navigate professional challenges and opportunities. This is accomplished through career and exploration events and activities, including symposia, career fairs, exploration tours, shadow days, and informational interviews. Students also engage in career strategic plan development, resume and interview preparation, video mock interviews, portfolio preparation, participation in on-campus recruiting sessions, networking support, and job search coaching. The goal is to introduce methods for each student to discover which career options are the best fit and to introduce methods and opportunities for professional career management and work after graduation.

Stevenson’s faculty, the Career Services staff, and administrators all work with members of area businesses and organizations to identify career exploration and preparation opportunities for Stevenson students from the day they arrive on campus. Some of the activities available to students include distinct freshmen seminars, targeted career symposia and seminars, career fairs and networking events, in-class seminars, on-campus interviews, employer information sessions, and networking and etiquette dinners.
College is a time for students to explore, discover, and develop life-long values, interests, and abilities. The classroom experience begins by laying the framework of knowledge and skills. Experiential learning opportunities carry students one step further by encouraging them to apply academic learning beyond the campus and bring their experience back to the classroom.

Numerous types of credit-bearing experiential learning exist for students, including study abroad, service learning, field placements, independent study and research, program-specific internships, and other experiential learning opportunities offered as part of many classes. Career Services also advertises numerous non-credit internships in all disciplines through the online recruiting system, Stevenson Career Connections. Stevenson enthusiastically supports this dynamic educational philosophy.

**Stevenson Ideals**

*Motto: “Pro Discendo, Pro Vivendo”*  
*(For Learning, For Living)*

**Mission**

The University is an innovative, coeducational, independent institution offering undergraduate and graduate students a career-focused education marked by individualized attention, civility, and respect for difference. The University blends the liberal arts with career exploration and planning, complementing a traditional education with applied learning beyond the classroom. The University meets students where they are and supports and challenges them to become reflective and accomplished individuals committed to a lifetime of learning and contribution. Students graduate with the competence and confidence needed to address creatively the opportunities and problems facing their communities, the nation, and the world.

**Vision**

The University will become a national leader in collaborative career-focused liberal arts education and will equip its graduates to visualize and achieve excellence in a dynamic global community.

**Values**

The core values of the University provide a foundation for faculty, staff, and students to fulfill the mission and achieve the vision of the institution. The values are focused on community, learning, integrity, and excellence.

Promoting a sense of community, the University embraces the common bonds and obligations within and beyond the campus while respecting individual and cultural differences.

Fostering learning, the University promotes the pursuit of theoretical and practical knowledge while encouraging a life well-lived - a lifelong philosophy of informed, critical thinking to meet evolving challenges and opportunities.

Instilling integrity, the University requires acting with dignity and honesty while adhering consistently to the University’s ethical codes.

Achieving excellence, the University lauds superior performance while recognizing the importance of persistence toward goals.

**Diversity Statement**

The University commits itself to diversity as it relates to awareness, education, respect, and practice at every level of the organization. The University embraces people of all backgrounds, defined by, but not limited to, ethnicity, culture, race, gender, class, religion, nationality, sexual orientation, gender identity or expression, age, physical ability, learning styles, and political perspectives. The University believes its core values are strengthened when all of its members have voice and representation. The resulting inclusive organizational climate promotes the development of broad-minded members of the University who positively influence their local and global communities.

**Strategies**

**Academic Affairs**

The University will support faculty and students in their pursuit of academic excellence by integrating academics with experiential learning and career preparation and by establishing a foundation of liberal arts with an emphasis on learning beyond the classroom, including civic engagement, to develop professional, personal, social, and intellectual growth.

**Student Life**

The University will engage its community in creative, intellectual, social, and athletic experiences and will foster a campus climate characterized by wellness, diversity, civility, and environmental consciousness, as well as national and global awareness.

**University**

As an emerging university, the institution will fulfill its mission, advance its vision, and integrate its values through planned growth, responsive and innovative programs, and a structure that supports community.

**Financial Resources**

The University will enhance its financial resources by increasing revenues, aligning costs with strategic initiatives, identifying additional opportunities, and responding effectively to any associated challenges.

**History of Stevenson University**

**Founding of Villa Julie College**

Villa Julie was founded by the Sisters of Notre Dame de Namur at “Seven Oaks,” the 80-acre former estate of the George Carroll Jenkins family in Greenspring Valley, Baltimore County. The School opened on October 1, 1947, which is now recognized as Founders Day. Official approval as a two-year college was granted by the Maryland State Department of Education in 1954, and a new classroom facility, Founders Hall, was opened. The School was incorporated in 1958 in the State of Maryland.

The Middle States Association of Colleges and Schools awarded Villa Julie regional accreditation in 1962. In 1967, the College became an independent institution with control vested in a newly formed Board of Trustees comprised of business, civic, and professional leaders. By the late 1960s, enrollment had increased to full capacity. In 1970–71, the College erected a multi-million dollar complex, consisting of a Library/Learning Resources Center and Administrative Wing, Art Center, and Student Center. Evening and summer sessions were inaugurated, and the number of degree programs increased. In 1972, the College became coeducational. Accreditation was reaffirmed by the Middle States Association of Colleges and Schools in 1972 and again in 1982.
Baccalaureate Degrees Granted for the First Time

In 1983, the College became the first in the region to install a campus-wide computer network. In 1984, Villa Julie became a four-year college offering the bachelor’s degree in computer information systems. In 1985, the bachelor’s degree in paralegal studies was added. The College continued to offer its two-year programs leading to the associate in arts degree in these and in all other majors.

In 1985–86, the College again responded to continually increasing student interest by constructing a new three-story classroom/laboratory building. Along with the growth of the student body and faculty through the years and the enlargement of the physical plant, the academic offerings of the College were augmented steadily to include new majors and programs. The arts and sciences continued to form the core of all curricula, as they do today. The additional major programs provided a wider choice of professional career possibilities and at the same time supported the changing requirements of the business and professional communities in the region. The concept of career education combined with the liberal arts became a hallmark of the College’s philosophy, Pro Discendo, Pro Vivendo: For Learning and For Living.

In 1988, the Middle States Association again reaffirmed the College’s accreditation, this time as a four-year college offering bachelor’s and associate’s degrees. New baccalaureate programs were added: liberal arts and technology; and business systems: administrative science, computer accounting, computer information systems, and business information systems.

For the convenience of the growing number of adults interested in completing their degrees, the College added Saturday classes to its day and evening programs. Today, a number of undergraduate degree programs may be completed either entirely or substantially during evenings and weekends, some in an accelerated, online format.

Changes Through the 1990s

In the early 1990s, the College designed and installed a sophisticated electronic networking system which enabled students and faculty to access information from any building on campus. Students and faculty with personal computers had dial-in access from their homes to all the computerized information on campus. In 1994, access to the Internet became available on the College network.

In 1991, a cooperative education program was initiated for junior and senior students, making it possible for them to experience first-hand a working environment directly related to their fields of study. Off-campus housing for students in garden-type apartments was opened a short distance from the College in 1993. The cooperative education program was also expanded and opened to all students in the baccalaureate programs. The College was awarded membership in NCAA Division III in 1994. In 1995, the College began the first phase of the construction of an Academic Center, Inscape Theatre, Student Union with gymnasium, and Science Center based on the College’s campus master plan of the early ’90s.

In 1996, the Maryland State Department of Education granted approval for programs for the preparation of elementary and early childhood teachers. This was the first Maryland education program that fulfilled the then new state (MSDE) requirements for teacher education. The College received the endorsement of the Maryland Higher Education Commission (MHEC) for a Master of Science in Advanced Information Technology in 1996.

In 1997, the College celebrated its 50th anniversary. The Academic Center, Inscape Theatre, and Art Gallery opened in August, and in November, the Student Union (including a gymnasium) opened. MHEC endorsed five new bachelor’s degree programs in biology, chemistry, English language and literature, interdisciplinary studies, and psychology.

In 1998, more than 1,000 people attended the dedication of the new buildings, including the renovated Science Center. A new bachelor’s degree program in visual communication design was also endorsed by MHEC.

In 1999, President Carolyn Manuszk and Dean Rose Dawson retired with a combined 65 years of service to Villa Julie College. MHEC approved two new bachelor’s degree programs in early childhood leadership and biotechnology.

New President Inaugurated

The new decade brought the inauguration of Villa Julie’s fourth President, Kevin J. Manning, Ph.D. The College began offering an accelerated BS/MS degree in advanced information technology, enabling students to earn both a bachelor’s and a master’s degree in five years. MHEC endorsed two new degree programs for the College: business communication and family studies (now human services). Villa Julie College and the Union Memorial Hospital announced a four-year nursing education agreement. In 2001, new master’s degrees programs in business technology management and e-commerce were approved by MHEC.

In 2002, the School of Graduate and Professional Studies was created to accommodate the needs of adult learners. Through this School, adult students could enroll in master’s degree programs, evening/weekend bachelor’s degree programs, or accelerated bachelor’s degree programs. This same year, Career Architecture™ was introduced. Career Architecture™ is a unique program for personal and professional development that helps each student to identify her or his values, skills, interests, strengths, and abilities. In September 2003, the College was proud to be recognized locally by The Daily Record, a statewide business publication, as one of the winners of Maryland’s Innovators of the Year Award for the Career Architecture™ concept.

Villa Julie Expands to Owings Mills Campus

In June 2003, the College broke ground for its first campus-owned student housing complex in nearby Owings Mills. Apartment-style housing for 550 students and a community center opened in 2004. The College also leased classroom space on the same piece of land, allowing students to live and attend classes at the same location for the first time in Villa Julie history.

At the same time the College celebrated the grand opening of the housing complex in August 2004, ground was broken for the next phase of housing, which led to three suite-style buildings opening over the next two years. Those moves, along with the purchase of the former Baltimore Ravens training facility and the office building where the College leased classroom and office space, gave Villa Julie more than 80 acres of land at the Owings Mills campus. In August 2006, the ninth residence hall opened at Owings Mills, and the resident population topped 1,000 students. The Rockland Center opened in October 2006 to provide a spacious student dining center, offices for Student Affairs, and a banquet hall for functions organized by on- and off-campus groups. In May 2007, the College broke ground on the next new building for Owings Mills, a 60,000-square-foot academic building to house the newly formed Brown School of Business and Leadership and other programs. The building was completed in fall 2008 and features a new, high-tech mock trial courtroom for the forensic studies program. The University celebrated the opening of the new Brown School of Business and Leadership in April 2009 with a visit from entrepreneur and publisher, Steve Forbes. Additional expansion of the Owings Mills campus included the University’s 11th student residence hall, Wooded Way, which opened in fall 2009 and houses specialized student learning communities as well as the Office of Career Services and Learning Beyond Center.

Villa Julie celebrated this growth throughout the 2007-08 academic year as part of its 60th anniversary celebration. The College inaugurated a new tradition on October 1, 2007, by celebrating Founders Day to commemorate the day the College
first opened. The anniversary celebration also included the announcement of a $20 million fundraising campaign to support a variety of initiatives across both campuses. The College received reaccreditation from Middle States Association of Colleges and Schools in 2008.

**Academic Programs Continue to Grow**

The development of the Brown School of Business and Leadership, which brings together faculty from information systems, legal studies, and business, provided the University with the chance to develop an entrepreneurial environment for faculty and students. This growth is the most recent step in the expansion of academic offerings at Stevenson. A bachelor’s degree in medical technology was added during the 2005–06 academic year to replace the two-year medical laboratory technology program. A bachelor’s degree in public history was also added. Stevenson was pleased to announce a new bachelor’s degree in criminal justice in August 2009. This degree was offered online to students in the School of Graduate and Professional Studies and for traditional students.

In recent years, the nursing department has received significant federal support. In December 2004, Sen. Barbara Mikulski visited the college to announce nearly $250,000 in federal funds to support distance-learning efforts utilizing the Verizon Center for Excellence in Teaching and Learning. In 2006, the College received the largest grant in its history—just over $1,000,000 to expand the nursing program. Also in 2006, the nursing department graduated the first students from the distance-learning program as students from the Eastern Shore received their bachelor’s degrees as part of a partnership with Chesapeake College. The department has partnerships with eight community colleges to bring bachelor’s degree classes to students enrolled in those schools. In August 2006, the College began offering its successful Master of Science in Forensic Studies degree online to professionals across the country. The program, launched in 2004, now trains forensic investigators in six tracks—accounting, criminalistics, computer forensics, interdisciplinary, investigation, and law. The first graduates of the program received their diplomas in May 2006.

Villa Julie took a leadership role in educating Maryland’s future teachers in March 2008 when it announced the creation of the state’s first teacher preparation program for middle school educators.

**Athletic Teams Achieve Success**

On the athletic field, the College joined its first athletic conference, the North Eastern Athletic Conference, in 2004. A year later, Villa Julie accepted an invitation into the Capital Athletic Conference. Stevenson’s men’s and women’s teams competed for conference titles in this traditionally strong conference that includes institutions from Maryland, Virginia, Delaware, and Pennsylvania. Several Stevenson teams have competed in the NCAA Championships. In 2009, 2010, 2011, and 2012 the men’s lacrosse team made it to the Division III semifinals. In 2013, the team won the NCAA National Championship game, beating the Rochester Institute of Technology’s Tigers at Philadelphia’s Lincoln Financial Field on May 26.

Many of Stevenson’s teams play and practice at the Caves Sports and Wellness Center, the new name for the facility formerly used by the Baltimore Ravens. The complex officially opened in the summer of 2006 after extensive renovations to accommodate the new Wellness Center and Mustang athletics.

**University Status and Name Change**

In 2004, the Board of Trustees began discussing the possibility of transitioning to university status because of the growth in student population and the addition of a second campus. A year later, the Board authorized the administration to study the feasibility of becoming a university and to assess whether to simultaneously change the name of the institution. Significant research followed to assess public perception of the name Villa Julie. The Board approved university status in November 2006 and later established a committee to oversee a study of name options for the institution. The entire College community had a hand in selecting the name as an online bulletin board provided a forum for suggestions. More than 80 name ideas came from that resource. Historical and legal research and surveys shortened that list to seven potential names in late 2007.

The College then started a long phase of quantitative and qualitative research to determine the best name from that group. Alumni, current students, and potential students and their families were among the groups surveyed for their opinion on the new name. On June 11, 2008, the Board voted unanimously to change the name of the institution, and the name Stevenson University was unveiled to a packed room the next morning. The Board had earlier voted to keep the Villa Julie name alive by creating the Villa Julie College of Arts and Sciences as part of Stevenson University.

**Stevenson University**

In March 2009, President Manning approved the University Restructuring Plan adopted by the Faculty Council. The plan created four schools within the Villa Julie College of Arts and Sciences: the School of Humanities and Social Sciences; the School of Design; the School of Education; and the School of the Sciences. The Brown School of Business and Leadership and the School of Graduate and Professional Studies remain as originally configured.

Exciting developments for Stevenson were in the works during the summer and fall of 2009. In June, the University announced the addition of football to its roster of 19 Division III men’s and women’s sports. In August, Stevenson was ranked as one of just 77 “Top Up-and-Coming Schools” nationally by U.S. News & World Report. The University closed the year with the completion of its historic five-year fundraising campaign—the largest in the 63-year history of the institution. Inspiring Students, Building Careers: The Campaign for Stevenson University raised more than $20.4 million in support of the Brown School of Business and Leadership, scholarship endowments, and special programs.

The start of 2010 saw the opening of the new entrance to the Owings Mills campus and the introduction of a new bachelor’s program in fashion merchandising and a master’s in nursing education and leadership. In addition, Stevenson was named to the President’s Higher Education Community Service Honor Roll, the highest federal recognition a college or university can receive for its commitment to volunteering, service learning, and civic engagement. In June 2010, the University also received a $100,000 Wal-Mart Foundation College Success grant to assist first generation college students with the transition to university life. In August, a new, updated Mustang logo was unveiled for Stevenson athletics.

In fall 2010, Stevenson welcomed the largest freshman class in its history and opened a labyrinth and meditation center on its Greenspring campus. A new 35,000-square-foot gymnasium opened to complement the Owings Mills campus sports complex. Also in fall 2010, the football team held its first developmental practice season in preparation for fall 2011 intercollegiate competition. The University also announced that it was adding women’s ice hockey to its selection of athletics programs and reinstating its track and field program for men and women.

In February 2011, President Manning was appointed to the Board of Directors of the National Association of Independent Colleges and Universities (NAICU) and in March was named an “Influential Marylander” for 2011 by The Maryland Daily Record newspaper. In April, the University hired its first band director to lead its newly created marching band in preparation for the fall season of football competition. In May, Stevenson’s Athletic Department announced that it would be leaving the Capitol Athletic Conference (CAC) in summer 2012 to join the...
Middle Atlantic Conferences (MAC), of which the football program was already an affiliate member.

The summer of 2011 was a busy time of change and preparation for the University. A new Owings Mills campus store was launched in the Boulevard Business Center just across the campus entrance drive from the new gymnasium. Two new residence halls to house an additional 500 students were opened on the Owings Mills campus, and the new 3,500-seat Mustang Stadium was opened in early September with much media attention and fanfare. On September 10, the new football team, amidst festivities that included fireworks and former NFL stars, won its first home game in exciting double-overtime play against Christopher Newport University. In addition to football, the stadium hosts men’s and women’s soccer and men’s and women’s lacrosse games.

Fall 2011 continued Stevenson’s momentum of change and growth. Stevenson launched the SU Now Portal to link faculty, staff, and students with campus news, events, and information. The portal includes Wild Stang Radio, the campus’s online digital radio station which hosts music, campus-focused news broadcasts, and student-produced programs. The University was named one of only 46 “Up-and-Comer” universities in the nation in the 2012 edition of the U.S. News & World Report college rankings. Stevenson also introduced a new fashion design program in its School of Design. In November 2011, the University concluded the purchase of the Owings Mills site of Shire Pharmaceuticals. The 28-acre site—which includes two buildings totaling 168,000 square feet under roof and a 400-space parking lot—is now the Owings Mills North campus that houses the School of Design and will ultimately house the School of the Sciences.

In February 2012, the School of Graduate and Professional Studies marked a major milestone in its growth, surpassing the 1,000 mark for its number of enrolled students. The school also received approval from the Maryland Higher Education Commission to add two new master’s programs, cyber forensics and healthcare management, both focused on areas of workforce growth. During the spring semester, the SU Now Portal focused on expanding its content by adding a new student and faculty-directed sitcom called “The University” to its featured video content. In April 2012, the School of Humanities and Social Sciences brought the prestigious International Drama Conference to Baltimore, which it will host through 2016. Also in April, the University’s Archives established the Maryland Bible Society Collection at Stevenson to house and make available for scholarly research the society’s historic 400-year-old first edition of the King James Bible, as well as numerous other books and documents. April concluded with the first fashion show hosted by the University’s new Fashion Design program.

August 19, 2012 saw the return of NFL football to the Owings Mills campus when Stevenson hosted at Mustang Stadium the Baltimore Ravens’ third open public practice of their 2012 training camp. Nearly 3,000 fans came to the site which had served as the team’s first training facility.

The fall 2012 semester began with Stevenson again recognized as one of America’s “Up and Comers”—one of only 49 colleges and universities nationwide and just 19 regional universities given this designation—in U.S. News & World Report’s 2013 college rankings. Stevenson was ranked No. 3 among the “Up-and-Comer” Regional Universities-North. In October, the University opened the seventh season of the Baltimore Speakers Series with President Bill Clinton and a sell-out crowd at the Meyerhoff. Fall also saw the launch of the women’s ice hockey team.

In November, Stevenson’s annual Career Architecture™ LEGO Challenge for first-year students was highlighted by the unveiling of a LEGO sculpture titled “Career Architecture” by internationally-renowned brick artist Nathan Sawaya. The LEGO Challenge was also featured in a 30-minute documentary called “Brick by Brick: Stevenson University’s Career Architecture™ LEGO Challenge.” Produced by Stevenson’s in-house video team, the documentary debuted to the public via WBAL TV in January 2013.

In late November 2012, Stevenson announced the hiring of Frederick H. Bealefeld, former Baltimore City Police Commissioner, to serve as Distinguished Professional in Criminal Justice and Instructor in Stevenson’s Criminal Justice program. In December, the Greenspring Valley Orchestra, conducted by Stevenson music professor Robert Suggs, celebrated its 10th Anniversary Concert.

In March 2013, the School of the Sciences hosted the inaugural Dell Lecture in honor of Stevenson trustee Samuel M. Dell III and his wife Geraldine. The lecture coincided with the awarding of the first Dell Scholarship for outstanding Stevenson seniors studying biology, chemistry, and mathematics. In April, the University announced the expansion of its degree offerings with the addition of bachelor of science programs in biochemistry and environmental science and a master of arts in teaching in biology, chemistry, and mathematics, a STEM-focused degree with secondary education certification. Later in April, the Maryland Career Development Association awarded Stevenson the MCDA Organizational Career Planning Award, recognizing the University’s excellence in career development. In May 2013, Baltimore-born actor and Hollywood director Jason Winer, best known for his work on ABC’s “Modern Family” gave the keynote address at Stevenson’s 60th Commencement ceremonies. President Manning was named chairman of the Board of Trustees of the Maryland Independent College and University Association (MICUA) in July.

In September 2013, Stevenson’s School of Graduate and Professional Studies offered its first MOOC, a free, massive open online course focusing on a Survey of Forensics. More than 700 students registered for the course. In the month, Wild Stand Radio, Stevenson’s digital online radio station, re-launched out of a new studio in Rockland Center.

Throughout the fall of 2013, Stevenson celebrated “The Year of Italian Culture in the U.S.” with record crowds attending a variety of arts and cultural events, including a photo exhibition by photographer Harry Connolly focusing on Baltimore’s Little Italy. Stevenson kicked off 2014 by unveiling a revamped and redesigned website featuring responsive design technology aimed at reaching prospective students on mobile devices and tablets. Later in January, Apple co-founder Steve Wozniak—in town for the Baltimore Speaker Series—addressed a packed crowd of more than 300 middle school, high school, and Stevenson students at the Greenspring Campus Gym. To close out a busy month, Stevenson’s men’s lacrosse team was honored on the floor of the Maryland State House for winning the 2013 Division III National Championship.

In April 2014, Stevenson unveiled a 12-foot-tall, bronze mustang statue, “Victory,” outside of Mustang Stadium. Created by nationally renowned wildlife sculptor Bart Walter, the statue represents the strength and unity of the entire Stevenson community and the spirit that drives everything from its growth to its championship athletic teams. In May, ABC News Anchor and Chief Correspondent Byron Pitts delivered the Keynote Address at Stevenson’s 61st Commencement ceremonies.

For nearly 70 years, Stevenson University remains a dynamic institution focused on developing programs and extracurricular experiences that allow students to acquire the knowledge, professional skills, and personal character traits that empower them to pursue and achieve their life and career goals.

Life at Stevenson

Student Affairs Office
The Student Affairs Office focuses on day-to-day student life from planning, coordinating, and implementing extra- and co-curricular activities to providing information on campus resources. Students are encouraged to assume leadership roles in the implementation of diverse activities. The Student Affairs Office also coordinates Residence Life, Student Activities, and the Wellness Center.

Athletics at SU

Caves Sports and Wellness Center, Owings Mills Gymnasium and Fitness Facilities
Stevenson’s athletic facilities are among the best in Division III. To accommodate its growth and expansion, the University opened its Owings Mills campus in 2004. Two years later, it acquired the former headquarters and practice facility for both the NFL’s former Baltimore Colts and two-time Super Bowl champion Baltimore Ravens.

The Caves Athletics Complex, a 60,000 square foot modern facility, is located on the Owings Mills campus and serves the needs of more than 800 student athletes as well as the general student body. On-campus facilities include the Caves Sports and Wellness Center, Owings Mills Gymnasium, and Mustang Stadium.

The first floor of the Caves Sports and Wellness Center features a fully-equipped fitness center, racquetball court, athletic offices, and athletic training room and team rooms. The second floor is dedicated to classrooms, a commuter student lounge, The John L. Stasiak Academic Link, and a student computer lab as well as faculty and staff offices. It also houses the Caves Wellness Center. The Owings Mills Gymnasium is located adjacent to the Caves Sports and Wellness Center on the Owings Mills campus. Designed to host NCAA Division III playoffs, the gym is 15,000 square feet, has a hardwood floor, and seats approximately 1,500 spectators.

There are three fitness centers available for student use, including two on the Owings Mills campus. The first is located in the Caves Sports and Wellness Center and the second is on the third floor of Mustang Stadium. The third fitness center is located on the Greenspring campus on the bottom floor of the Manuszak Student Union. To access each fitness center, students must have their SUOne card.

Intercollegiate Athletics
Stevenson University participates in NCAA Division III as a member of the Middle Atlantic Conferences (MAC) with the exception of men’s volleyball, which competes in the Continental Volleyball Conference, and women’s ice hockey, which competes as an independent. The Mustangs are also affiliated with the Eastern College Athletic Conference (ECAC).

Those interested in participating on one of Stevenson’s 23 intercollegiate athletic teams should contact the head coach of that sport using the staff directory under “Inside Athletics” on the athletics website at GoMustangSports.com. You can also find information on the paperwork required by athletic training as well as compliance information for transfers and first-year student athletes there as well.

Club Sports
Club sports have been established to promote and develop students’ interests and skills in a particular sport. Club sports feature organized and competitive teams that will compete against other universities to enhance team members’ collegiate experience and provide a vehicle for a well-rounded education through physical, social, and leadership development. Club sports are open to all from the beginner to the advanced player.

Club sports are different from intramural sports which are competitive sports played at Stevenson among other Stevenson students. No travel or practice is required for intramural sports. For more information, contact the Director of Club Sports in the athletic department.

Intramurals
The intramural program is a part of the National Intramural-Recreational Sports Association organization and provides both competitive and non-competitive sports. The program is open to all students, faculty and staff at Stevenson who are interested in friendly, competitive and on-campus recreational play. Activities offered include basketball, dodgeball, flag football, ping pong, racquetball and soccer.

For more information, contact the Coordinator of Intramurals.

Clubs and Organizations

Student Government Association
All students are members of the Student Government Association (SGA). The governing body of the SGA includes an executive board, representatives from the senior, junior, sophomore, and freshmen classes, and a senate made up of students from each of the schools as well as the resident, athletic and commuter populations. Elections for the SGA Executive Board, class officers and senators take place in the spring. The SGA believes that student participation in the conception and implementation of campus activities and policies promotes not only the intellectual development and maturation of the individual student but also cohesiveness within the campus community. Student government offers students opportunities for the practical application of professional and interpersonal skills and for the development of administrative abilities. In addition, the SGA, by supporting University traditions and serving as the voice of the student body, helps to enrich campus life, thus broadening the university experience of every student.

Student Clubs and Organizations
 Clubs are established in response to student interests and requests. The clubs are not agents of the University nor are they subject to the day-to-day direction of the administration. The following organizations are recognized by the SGA. If a club goes inactive, students can meet with the Student Activities Office and go through the process of reactivating the organization.

Accounting Association: The Accounting Association provides accounting students with the opportunity to interact with fellow accounting students and professional accountants. This club provides advice to students seeking employment and helps integrate university coursework and on-the-job experience.

Each semester members are encouraged to participate in professional,
community service, fundraising, and recreational activities. <accounting@stevenson.edu>

Active Minds: Active Minds is an organization that utilizes peer outreach to increase awareness of mental illnesses to all members of the Stevenson community. The organization sponsors educational and service events that provide a helping hand and a safe environment and are open to all participants. The organization also encourages students to seek help as soon as it is needed and to meet with counselors in the Wellness Center at Stevenson University. <activeminds@stevenson.edu>

Alpha Kappa Alpha Sorority, Incorporated (AKA): AKA is an international service organization that was founded on the campus of Howard University in Washington, D.C. in 1908. It is the oldest Greek-lettered organization established by African-American, college-educated women. Stevenson University’s undergraduate chapter of AKA, Tau Theta, was chartered on April 3, 2011. Its members are distinguished young women who boast excellent academic records, proven leadership skills, and are involved in the community through advocacy and service. <AKA@stevenson.edu>

Alpha Phi Sigma: The Alpha Phi Sigma is a criminal justice honor society that provides students with the opportunities to experience an international network of criminal justice employees and students. This organization is a certified member of The Association of College Honor Societies and affiliated with The Academy of Criminal Justice Sciences. <APS@stevenson.edu>

American Chemical Society (ACS): The American Chemical Society helps its members’ network, explore chemistry career options, and learn about science by participating in local and national American Chemical Society events. The society organizes chapter events, including research seminars, social events, community service, and more. <ACS@stevenson.edu>

Anime Club: The Anime Club promotes involvement with other students in the Stevenson community who are also interested in anime, and the Japanese culture. The club will also promote skills such as graphic design, technological skills, and artistic skills as it relates to Japanese culture. <anime@stevenson.edu>

Association of International Graphic Artists (AIGA): AIGA is a national professional association for designers. The Stevenson University AIGA Student Group, associated with the AIGA Baltimore Chapter, provides opportunities for serious art and design students to meet other students in the major, network with design professionals, and learn more about design technologies through club-sponsored workshops. Major activities include fundraising for students who cannot afford to buy art supplies for school and attending AIGA professional events around Baltimore. <AIGA@stevenson.edu>

Best Buddies: Best Buddies strives to enhance the lives of people with intellectual disabilities by providing opportunities for one-to-one friendships and integrated employment. Membership is open to all students. <bestbuddies@stevenson.edu>

Black Student Union (BSU): The Black Student Union promotes racial and ethnic understanding on campus and fosters cultural awareness among the University community through informal discussions, panel presentations, guest speakers, and community service projects. The BSU also hosts one of the most popular traditions on campus, the BSU Fashion Show, every spring. The club is open to all students. <BSU@stevenson.edu>

Catholic Campus Ministries (CCM): Catholic Campus Ministries offers Catholic students opportunities to gather together for spiritual, social, and service events. Students of any tradition are always welcome. Communion services are offered every week on campus, and this group offers students an opportunity to go off campus to services on Sundays. <CCM@stevenson.edu>

Commuter Student Association (CSA): The Commuter Student Association represents the interests and needs of the commuting students attending Stevenson University. Through programming events and activities, representing commuters and in their dealings with the University, it is the hope of CSA to help the commuting student become an integral part of the campus community. <commuter@stevenson.edu>

Criminal Justice Student Association (CJSA): The Criminal Justice Student Association is an organization formed for students planning to work with the law, corrections, or courts. The group hosts events, study time, public speakers, and small group discussions centered on criminal justice as a major and as a career. <CJSA@stevenson.edu>

CRU (Campus Crusade for Christ): CRU is a non-denominational Christian fellowship group. The ministries in which students participate include weekly meetings with music, Bible study, and fellowship. The club also sponsors outreach and service projects. <CRU@stevenson.edu>

Dodgeball: The Dodgeball Club will provide students with the opportunity to experience fun through the game of Dodgeball and to teach the community sportsmanship while creating positive Dodgeball awareness. <dodgeball@stevenson.edu>

Dynamic PR: The Dynamic Club is a public relations club designed to give students interested in this developing field the opportunity to gain a better understanding of PR through real-life applications. Members can also gain new skills that may potentially catapult them to success in a public relations career. <dynamicpr@stevenson.edu>

English Club: The English Club is for anyone with an interest in reading, writing, and literature. The Club holds book discussions, attends plays, watches literary films, organizes parties and other social events such as our annual Halloween Party, provides career information for the English field, and collaborates on poetry and fiction readings with Spectrum and Proseworks, and so much more. The goal is for people who share a common passion for English to come together and have fun. <englishclub@stevenson.edu>

Environmental Club: The Environmental Club promotes waste reduction and awareness of environmental issues at Stevenson and beyond. All students are invited to become members. Students in science-related programs are especially encouraged to participate. <environmentalclub@stevenson.edu>

Equestrian Club: The purpose of the Equestrian Club is to expose students to equestrian activities, such as horseback riding and horse care, and to educate and teach others about horses and equestrian activities. Members of the club ride at local stables, mentor and teach others about horses, and work on educating others about issues affecting the horse industry. Members also attend equestrian clinics and seminars to expand their knowledge. <equestrian@stevenson.edu>

Fashion Apparel & Design (F.A.D.): The Fashion Club is a student organization that provides Stevenson University students with opportunities to be involved in fashion-driven and fashion-related activities. The club appeals to students at Stevenson University studying in various areas such as fashion merchandising, fashion design, business, business communication, photography, and art. The activities in the Fashion Club will expand students’ knowledge by helping students understand the fashion retail business through activities, workshops, field trips, charities, and events. <FAD@stevenson.edu>

Forensic Science Club: The Forensic Science Club strives to provide unity within the forensic sciences program at Stevenson by giving both graduate and undergraduate students in the program, as well as the faculty members, a chance to interact and participate in various campus events as a group. The club also funds to host networking sessions with various external forensic science organizations. <forensicsclub@stevenson.edu>

Human Services Club: The Human Services Club parallels strongly with the major. It sponsors charitable, educational, and social activities. Students conduct service projects that benefit needy families, such as donating Christmas gifts to needy children through the Giving Tree Project. The club members will also be...
able to hear from speakers, such as admissions officers from graduate programs in counseling and social work, and representatives from non-profit organizations like Catholic Charities. Social gatherings have included parties as well as recreational field trips. <HSC@stevenson.edu>

**International Student Association (ISA):** The International Club promotes awareness and embraces and supports diverse cultures and religions through a variety of educational and social programs including, but not limited to, speakers, films, cultural fairs, and dinners. The club is open to all students, faculty, and staff. <ISA@stevenson.edu>

**Legal Society:** The Justice Society meets periodically to plan activities that enhance interest in, and knowledge of, the paralegal profession. The club schedules speakers who are experts in various fields of law and also plans educational field trips. <legalsociety@stevenson.edu>

**Mission: I'm Home (MIH):** Mission: I’m Home is an organization focused on rehabilitating damaged or destroyed houses enabling displaced families to return home. MIH organizes annual alternative spring break trips to New Orleans, Louisiana, where they partner with the St. Bernard Project and Habitat for Humanity in an effort to restore residential areas devastated by Hurricane Katrina. <mih@stevenson.edu>

**Muslim Student Association:** The Muslim Student Association seeks to promote tolerance and respect towards the religion of Islam. They also want to introduce the community and familiarize them with the Islamic culture and thought by sharing the spirit of Islam with Muslims and non-Muslims. <MSA@stevenson.edu>

**Mustang Activities and Programming Board (MAP):** MAP is a programming board that is responsible for bringing free entertainment to campus, including musicians, comedians, speakers, and novelties. This group works with outside entertainment agents to book touring acts for Stevenson’s campuses, including a monthly movie series. All students are welcome to join MAP. <map@stevenson.edu>

**National Student Nurses Association (NSNA):** The Stevenson University chapter of the NSNA is a professional club that focuses on issues of interest to students preparing to join the nursing profession. As members of this national organization, students have the opportunity to network with nursing professionals, meet and plan activities with students from area chapters in Maryland, and enjoy the support and camaraderie of other students in the nursing field. NSNA members are involved in education and service activities locally. Activities include co-sponsorship of a day-long professional conference, social events, and a blood drive. The NSNA is also involved in a variety of fundraising projects to support the many activities they participate in during the year. <NSNA@stevenson.edu>

**Organization for Latin American Students (OLAS):** OLAS was created to serve as a support group for Latin American students where they can embrace and celebrate their culture. The mission of the group is also to educate and inform the Stevenson community about the Latin American culture through educational and social programs as well as to make contributions to the greater Latin American community throughout the Baltimore area through partnerships with organizations. <OLAS@stevenson.edu>

**Paintball Club:** The Paintball Club will promote the extreme sport of paintball in the Stevenson community. This club will provide students with the opportunity to experience playing paintball and to teach the community about paintball. <paintball@stevenson.edu>

**People for Animal Wellness Society (PAWS):** The mission of PAWS is to educate Stevenson University students, faculty, and staff about the ethical treatment of animals and responsible pet ownership through various educational workshops, community service, and social events. The club works closely with the Maryland SPCA as well as many other organizations. <PAWS@stevenson.edu>

**Phi Beta Lambda (PBL):** A national business society that serves as the collegiate level of Future Business Leaders of America, Phi Beta Lambda strives to instill the values and ethics required for responsible business practice. <PBL@stevenson.edu>

**Phi Sigma Sigma Sorority:** Stevenson’s chapter of this national and international sorority endeavors to promote friendships and cooperation among college women of all races and creeds, to provide service, to raise the standard of university ideals, and to promote philanthropic efforts. Members sponsor social events and fundraisers and participate in activities with other area chapters. <phisig@stevenson.edu>

**Photography Club:** The photography club involves teaching, sharing and learning about all things related to photography. <photo@stevenson.edu>

**Psychology Club:** The Psychology Club gathers to discuss issues related to the field of psychology, such as applying to graduate school, research possibilities, and careers in psychology. The club co-sponsors health awareness events, coordinates volunteer activities in the community, and hosts social activities to increase camaraderie. <psychclub@stevenson.edu>

**Relay for Life:** Relay for Life offers everyone an opportunity to participate in the fight against cancer. Teams of people camp out and take turns walking or running around a track, fundraising money for the lifesaving mission of the American Cancer Society. <RFL@stevenson.edu>

**Residence Hall Association (RHA):** To provide and create a constructive and rewarding educational/social environment for the residents. RHA will strive to accomplish this purpose by coordinating, supporting, and initiating individual hall councils and collective efforts in the area of instilling integrity, achieving excellence, fostering learning, and promoting a sense of community. <rhall@stevenson.edu>

**Service Corps:** The Service Corps is a team of dedicated students committed to serving the community while exploring issues related to society and self. The Service Corps has three goals: to have fun and build a solid team experience for all corps members; to create a dynamic atmosphere for learning in which critical thinking and leadership skills are enhanced; and to meet community needs while learning about self, other corps members, and social issues. Corps members meet on four Saturdays during the semester and complete 20 hours of community service. <servicecorps@stevenson.edu>

**Sigma Alpha Pi (SAP):** The Society of Leadership and Success, Sigma Alpha Pi, is dedicated to creating lasting positive changes in people’s lives. The Society is an organization that helps people discover and achieve their goals. Membership in the Society offers life-changing lectures from the nation’s leading presenters and a community where like-minded success-oriented individuals come together and help one another succeed. The Society also serves as a powerful force of good in the greater community by encouraging and organizing action to better the world. <SAP@stevenson.edu>

**Stevenson University Cycling Club:** SU Cycling club exist to safely promote the fun and healthy sport of cycling through events such as rides, training, organized races, workshops, service projects, and cause-oriented charitable fundraisers. Support cycling through three tiers of road bike riding and racing, mountain bike riding, and racing and group rides. <cycling@stevenson.edu>

**Stevenson University Sovereign Stangs (Step Team):** The purpose of this organization is to bring together students who have a common interest in the art of step. These students practice sets of step routine which they perform at university and community events. Group leaders work together to create step routines and collaborate with other group leaders on performances at their events. <stepsteam@stevenson.edu>
Student Athletic Advisory Council (SAAC): The mission of the National Collegiate Athletic Association Student-Athlete Advisory Committee is to enhance the total student-athlete experience by promoting opportunity, protecting student-athlete welfare, and fostering a positive student-athlete image. <SAAC@stevenson.edu>

Sounds of Stevenson (S.O.S.) Glee Club: The S.O.S Glee Club's purpose is to sing and entertain the community with popular, contemporary music. The club gives the opportunity for students to express themselves artistically and musically. It enhances and perfects many skills such as vocal technique and preforming skills. One can gain not just musical talent but personal expression and confidence. The club bonds over music and a family is quickly formed. <gleeclub@stevenson.edu>

Student Government Association (SGA): The mission of the Student Government Association is to improve the quality of student's academic, professional, social, and personal development while at Stevenson University; to serve as the democratic voice on campus and as a liaison between the student body and the faculty, staff, and administration; to advocate the incorporation of student views and opinions in the formulation of policies and procedures governing Stevenson University; and to provide a forum for the exchange and development of ideas in various areas of student concerns. <SGA@stevenson.edu>

Teacherrs of Tomorrow (TOT): The purpose of Teachers of Tomorrow is to promote the inherent rights, education, and well-being of all children, in home, school, and community; to work for desirable conditions, programs, and practices for children from infancy through early adolescence; to raise the standard of preparation for all those actively involved with the care and development of children; and to encourage continuous professional growth of educators. Membership in the Stevenson branch is open to any person affiliated with Stevenson University whose interests are in harmony with the purposes of TOT. <TOTS@stevenson.edu>

The Q Group: The purpose of the Q Group is to promote acceptance and support for gay, lesbian, bisexual, transgender, queer, ally, and other students on the campus. The group plans to educate students about the GLBTQA community and encourage a sex-positive environment on the SU campus. The group offers events and activities embracing the GLBTQA students on campus. <qgroup@stevenson.edu>

Upsilon Pi Epsilon: The purpose of the Upsilon Pi Epsilon Association, an Honor society in computing and information disciplines, is to promote the inherent rights, education, and well-being of all children, in home, school, and community; to work for desirable conditions, programs, and practices for children from infancy through early adolescence; to raise the standard of preparation for all those actively involved with the care and development of children; and to encourage continuous professional growth of educators. Membership in the Stevenson branch is open to any person affiliated with Stevenson University whose interests are in harmony with the purposes of TOT. <upe@stevenson.edu>

Veterans Club: The purpose of this club will be to provide an on-campus platform for veteran students, with opportunities to connect with other veterans on campus, serving as peer ambassadors for incoming veteran students, establish and maintain a network of education, professional, and social support. <vetclub@stevenson.edu>

Video Games Club: The mission of the Video Game Club is to provide a judgment free zone where students can discuss, play and learn about video games. The club also seeks to combat negative stereotypes of gaming as well as inform students about the impacts of gaming on society. <videogame@stevenson.edu>

Wilderness and Ecology Club: The Wilderness and Ecology Club provides students with opportunities to participate in outdoor activities such as camping, hiking, and the like. In addition, students will also help preserve and restore both the local and global environments <wilderness@stevenson.edu>

Community Outreach and Service

Educational Services to the Community

Stevenson University regularly sponsors a variety of educational services open to the public. In general these services include career workshops, SU speakers who appear at various high schools to advise on career choices, and seminars to acquaint students and parents with financial aid requirements.

Community Service Opportunities for Students

The University encourages and supports community service. Through organizations such as the Stevenson Service Corps, students can serve the community in many ways. The University supports students who aim to develop an awareness of social issues and have a desire to contribute to their solution rather than their perpetuation. Formal service learning opportunities have been developed within the curriculum of the university. These service learning opportunities are incorporated into classes that are labeled service learning or one-credit options. These classes provide students with the resources to be civically, socially, or culturally engaged in the community in ways that make them aware of the issues and opportunities around them.

Cultural Activities

While the Baltimore area has a wide variety of cultural attractions, Stevenson University offers its own array of events. Between professional artist exhibitions, student-driven plays, and nationally renowned musical performances, students are able to gain a greater appreciation for the arts without ever having to leave campus.

Each year, the University hosts a series of art exhibitions highlighting a diverse range of mediums and styles in the Greenspring Art Gallery, School of Design Gallery, and St. Paul Companies Pavilion. The museum-quality exhibition spaces provide a significant venue for artists and collectors in the region and offer opportunities for students, artists, and the community to see established and emerging talents, learn through gallery talks and lectures, and celebrate at music-filled receptions. Student work in-progress fills the Art Wing, Dawson Academic Center, and School of Design hallways. The academic year culminates in a graduating senior exhibition.

The 326-seat proscenium main stage in the Inscape Theatre hosts a pair of stage productions each year, presented by Stevenson’s Theatre and Media Performance Department. In addition, plays including student-directed works are also staged in the more intimate, 60-seat studio theatre. All students are invited to audition for roles or to serve as crew for productions. The School of Design also sponsors periodic screenings of works by Stevenson’s Film and Moving Image majors.

Students interested in film and video also have the opportunity to perform in student-produced projects and work alongside professional filmmakers on the faculty. Recently, Stevenson students have served as cast and crew for several productions in the Baltimore area, such as HBO’s VEEP and Netflix’s House of Cards.

While the University does not offer a formal music major, the Cultural Arts Program and the music department have joined together to bring several significant music events to the campus. Formed in 2002, The Greenspring Valley Orchestra calls the Inscape Theatre home. Musicians in the orchestra from Stevenson and the surrounding community present several concerts each year under the direction of conductor Robert Suggs, D.M.A.

Additionally, students and faculty with musical interests have the opportunity to participate in the University’s jazz band, marching band and chorus. These groups present a variety of music at several performances both on and off campus throughout the year.
Finally, outstanding speakers from a variety of fields visit the campus every year to share their expertise and experience. The topics are key to the interests and issues of today.

**Honor Societies**

**Alpha Chi – National College Honor Society**  
Alpha Chi is an honor scholarship that promotes only the highest academic excellence and exemplary character among undergraduate Stevenson University students. As a national honor society, Alpha Chi admits only junior and senior students from all academic disciplines who have been endorsed by their faculty and who have achieved a grade point average putting them in the top 10% of their class (including their grade point average from any transferring institutions). Alpha Chi is thus unique in that it draws its members from across all academic disciplines. In addition to recognizing students for their academic achievement, Alpha Chi also offers numerous opportunities for their further growth. The society sponsors a competition for scholarships and fellowships totaling more than $50,000 yearly, mostly at the national level but also at the regional and local levels. Members also have the opportunity to participate in student scholarly and creative presentations and publish scholarly articles at national and regional conventions.

**Alpha Psi Omega – National Honorary Theatre Society**  
Membership in Alpha Psi Omega is open to all students at Stevenson who participate regularly in University theatre productions. The local chapter, in conjunction with the theatre department at Stevenson University, extends invitations to those students who have acquired enough points based upon records supplied by the theatre staff and advisors or both. Most chapters operate by point guidelines as outlined in the Alpha Psi Omega constitution. The purpose of Alpha Psi Omega is to recognize and reward those students who have made significant contributions to the theatre.

**Beta Beta Beta – National Biological Honor Society**  
Beta Beta Beta was founded in 1922 as an honor and professional society for students of the biological sciences. Its purposes are to encourage scholarly attainment and cultivate intellectual interest in the life sciences. To be eligible for regular membership, a student must be at least a second year biology, biotechnology, biochemistry, environmental science, or medical technology major who has completed a minimum of three biology courses, at least one of which must be higher than the introductory level, with a GPA in all biology courses of 3.00 or higher. The society also welcomes associate members who are students at any level in any major who are interested in biology.

**Delta Epsilon Iota - National Honors Society for Career Development**  
Delta Epsilon Iota is an interdisciplinary honors society open to all majors. Delta Epsilon Iota’s mission is to educate members about career development, encourage academic excellence, and promote the principles of dedication, enthusiasm, and initiative in all aspects of campus life. The society has embraced these values and is now one of the leading academic honor societies serving higher education. Delta Epsilon Iota works directly with the Office of Career Services. Membership is comprised of students with at least 30 credits and a GPA of 3.30 and above.

**Gamma Sigma Epsilon - National Chemistry Honor Society**  
Gamma Sigma Epsilon recognizes students demonstrating exceptional ability and interest in the field of chemistry. It aims to promote professionalism and scholarship in chemistry and the general welfare of its members. Membership in Gamma Sigma Epsilon is extended to those students who have completed a minimum of 16 credits in chemistry and are enrolled in four additional chemistry credits and who have a minimum GPA of 3.40 in all chemistry courses and a minimum 3.00 overall GPA.

**Kappa Delta Pi – International Education Honor Society**  
Kappa Delta Pi is an international honor society open to the top students in the field of education. This honor society promotes leadership and fellowship among educators. Scholarship, leadership and service are the pillars of KDP. Eligible students must be juniors or above, have a minimum of 12 credits in education and a GPA of 3.30 or above, and provide supportive evidence of their commitment to education.

**Kappa Mu Epsilon – National Mathematics Honor Society**  
Kappa Mu Epsilon promotes a knowledge and appreciation of mathematics and recognizes outstanding student achievement in mathematics at colleges and universities whose primary focus is undergraduate education. Membership in Kappa Mu Epsilon is open to students in any major who have taken three mathematics courses at the 200 level or higher, one of which must be in the calculus sequence (MATH 220, 221 or 222), who have attained a "B" or better in all mathematics courses, and who rank in the upper 35% of their class by GPA.

**Lambda Epsilon Chi – National Honor Society for the Paralegal Studies Program**  
Lambda Epsilon Chi (LEX) is open to full-time and part-time paralegal students in good standing who demonstrate superior academic performance by having a cumulative grade point average, and a grade point average in their paralegal classes, of at least 3.50 and who have completed at least two-thirds of the program. Members are selected by paralegal faculty based on a written application for membership, faculty recommendations, and demonstration of service and dedication to the legal profession.

**Lambda Pi Eta – Honor Society of the National Communication Association**  
Lambda Pi Eta’s goals are to recognize, foster, and reward outstanding scholastic achievement in communication studies; to stimulate interest in the field of communication; to promote and encourage professional development among communication majors; to provide an opportunity to discuss and exchange ideas in the field of communication; to establish and maintain closer relationships between faculty and students; and to explore options for graduate education in communication studies. Membership in Lambda Pi Eta is extended to those students with a 3.0 cumulative GPA who have completed 60 credits and have at least a 3.25 GPA in a minimum of four courses in the communication courses in the major. Activities are a mix of social, academic, and community service.

**Mu Psi – Criminal Justice Honor Society**  
Mu Psi, Stevenson University’s chapter of the Alpha Phi Sigma National Criminal Justice Honor Society, aims to promote critical thinking, scholarship, community service, and life-long learning. Students are also encouraged to keep abreast of the advances in research, to elevate the ethical standards of the criminal justice professions, and to sustain in the public mind the benefit and necessity of education and professional training. Membership in Mu Psi is extended to those students that have completed at least three full-time semesters, 12 credits in the criminal justice field, a cumulative grade point average of 3.00 on a 4.00 scale, as well as a 3.20 average in criminal justice courses and rank in the top 35% of their class.
Psi Chi – The International Honor Society in Psychology
Psi Chi, the International Honor Society in Psychology, promotes excellence and scholarship in psychology and works to advance the science of psychology. Students who apply for membership must be at least a second semester psychology major or minor and have a 3.00 GPA in psychology with a minimum of three psychology courses, have a cumulative GPA of 3.00, and rank in the highest 35% of GPAs for their academic year.

Sigma Alpha Pi – National Leadership Honor Society
Sigma Alpha Pi was founded to help individuals create the lives they desire by helping them discover what they truly want to do and giving them the support, motivation, and tools to achieve their goals. Members achieve this through speaker presentations, success networking team meetings, and a leadership training day. Students are invited to join based on academic and leadership achievement.

Sigma Beta Delta – International Honor Society in Business, Management, and Administration
Sigma Beta Delta recognizes scholarship and personal accomplishment for students of business, management, and administration. Additionally, the society encourages and promotes aspirations toward personal and professional improvement and a life distinguished by honorable service to humankind. Students majoring in Business Administration are invited to lifetime membership if they meet the following criteria: a ranking in the top 20% of all business administration majors for the academic year; at least a 3.3 total and 3.3 major GPA on a 4.0 scale; no grades less than a "C"; completion of at least 70 credits towards the baccalaureate degree; completion of at least 30 credits towards the major; and submission of a resume and assigned essay to the SBD faculty officers for review and affirmation.

Sigma Tau Delta – International English Honor Society
Sigma Lambda Omicron, Stevenson University’s chapter of the Sigma Tau Delta, confers distinction upon students of English language and literature in undergraduate, graduate, and professional studies. Students majoring in English language and literature and interdisciplinary studies (with English as one of the focuses), or minor in English who have an overall GPA of 3.00 or better and have an average in their English classes of 3.00 or better are eligible for membership. Members are recognized for their outstanding achievements and may enrich their educational experience by taking part in chapter activities, competing for national awards and scholarships, and attending the annual Sigma Tau Delta convention. They may also contribute to The Rectangle, the society’s literary publication.

Sigma Theta Tau International – Honor Society of Nursing
Sigma Theta Tau International – Honor Society of Nursing Rho Epsilon, Stevenson University’s chapter of Sigma Theta Tau International, is open to undergraduate and graduate nursing candidates who demonstrate scholastic achievement, academic integrity, and leadership qualities. Student candidates are invited to join the society when they meet specific membership requirements. These requirements can be reviewed at nursingsociety.org. Nurses in the community who demonstrate excellence in practice and leadership may also be nominated. A formal induction ceremony is held during the spring semester. The purpose of Sigma Theta Tau International is to create a community of leaders and scholars in practice, education, and research to enhance the health of all people. The society supports learning and professional development of members to improve nursing care worldwide.

Sigma Theta Tau Upsilon Alpha – National Honor Society for Human Services
Sigma Theta Tau Upsilon Alpha is open to students, faculty, healthcare executives and administrators, and to those contributing to the healthcare administration profession. Students must have a minimum overall GPA of 3.5 and have completed a minimum of 18 credits in the MS in Healthcare Management Program. The mission of the Upsilon Alpha Honor Society is to recognize, reward, and encourage academic excellence in the study of healthcare administration and policy.

Student Publications
The Villager, the student newspaper, is issued bi-weekly during the school year and appears online as well. Its staff consists of journalism students and other contributors from the university community. It is a forum for University views, to represent as many diverse views as possible, and, generally, to act as a channel of information. The Villager provides a laboratory environment in which those interested in journalism can gain skills in writing, editing, design, and layout. ProseWorks is an online journal with a special interest in the artful, the provocative, and the bold. ProseWorks embraces the realms of fiction, creative nonfiction, and poetry, while inviting experimental cross-genre and mixed media work that plays across the boundaries of text, image, and sound.

Reserve Officer Training Corps (ROTC) Programs at The Johns Hopkins University and the University of Maryland
Stevenson University offers the Army Reserve Officers’ Training Corps (ROTC) in conjunction with The Johns Hopkins University’s Blue Jay Battalion. The JHU Army Reserve Officers’ Training Corps (ROTC) was among the first to be established by Congress in 1916 and is routinely ranked at the top of the Nation’s 273 programs. More than 3,000 students have received Army officer commissions through the program, with over 40 attaining the rank of general officer. Students can enter the program with as little as two years remaining as an undergraduate or may complete the requirements while pursuing a graduate degree. Upon graduation, students are commissioned as a Second Lieutenant in the U.S. Army. Some are selected to attend a funded law school or several medical programs, while others serve in the Active Army, Reserves or National Guard. ROTC basic classes are open to all students. The Leadership and Management class specializes in leader development and is an excellent course for students aspiring to become leaders on campus and beyond.
Additional information on military science or ROTC can be obtained by asking a current cadet, and by calling 1-800-JHU-ROTC or 410-516-7474. You can also email us at <rotc@jhu.edu> or visit the JHU ROTC website at jhu.edu/rotc.

Stevenson University also offers the Air Force Reserve Officers’ Training Corps (AFROTC) in conjunction with the University of Maryland’s Det 330. The Air Force Reserve Officer Training Corps (AFROTC) provides students the opportunity to earn a commission as a second lieutenant in the United States Air Force while completing their undergraduate or graduate degree. It is highly recommended that students seeking a commission contact the AFROTC department for full program details before registering for classes. The email address is afrotc.det330@umd.edu. Students may call (301) 314-3242, or visit the Det 330 website at afrotc.umd.edu.

AFROTC is designed to be a 4-year experience, but the schedule can be compressed (minimum of 3 years) for qualified candidates. A full four-year program is composed of the two-year General Military Course (GMC) and the two-year Professional Officer Course (POC). GMC students receive an introduction to the Air Force and various career fields, and may have a chance to compete for scholarships. Non-scholarship GMC students incur no military service obligation and may elect to discontinue the program at any time. Students wishing to continue in the POC must pass all cadet standards by their last semester in the GMC, successfully compete for acceptance into summer field training course, and complete field training. POC students concentrate on the development of leadership skills and the study of United States defense policy. Additionally, all POC students receive a monthly allowance of $450-$500.

If the Air Force is offering scholarships, members of AFROTC in all degree programs are eligible to compete for scholarships based on a competitive selection process. Scholarship recipients receive money for tuition up to $18,000 per year, a book allowance (currently $900/year), and a monthly allowance from $300 to $500, depending on the student’s AFROTC year.

Remote Connectivity
Stevenson University offers the capability for students, faculty, and staff to connect to various services on the University’s network from off-campus via the Web. SU currently supports remote connectivity for Microsoft Windows 7, Windows 8 and Mac OS X 10.6 or higher. Please contact Tech Connection at x3000 or 443-334-3000 for details.

Resident Student Technology Support
Students may use computers, tablets, smartphones, game systems and media devices on the Resident Hall campus network. These devices will be authorized for connection to the Stevenson network. Students are not allowed to connect wireless access points, network switches, gateways, printers, or any other similar devices to the wired or wireless network. Unauthorized devices detected on the network will be black-listed and denied access. Technology problems for student residents can be submitted to Tech Connection via the phone, 443-334-3000 or x3000, through the ticketing system at helpdesk.stevenson.edu, or by email to helpdesk@stevenson.edu. If, after evaluation of the issue, the problem is beyond the scope of support provided, Tech Connection staff will make suggestions on what the student’s next step might be; however, University staff will not repair student-owned equipment. The OIT staff will help resolve any software problems if possible; however, the University will not install any software on student-owned equipment. More IT related information is available on the Office of Information Technology’s website at oit.stevensonuniversity.org.

Technology Helpdesk
Tech Connection is located both on the Greenspring campus, on the third floor of the Dawson Center, Room 302, and on the Owings Mills campus in the Brown School of Business and Leadership, Room 102a on the lower level. Any technology-related assistance can be acquired at these facilities by students, faculty, staff, and administrators by calling 443-334-3000 or x3000 from on campus. Students may also contact Tech Connection by sending an email to helpdesk@stevenson.edu, or by visiting the Tech Connection website at oit.stevensonuniversity.org. Technology assistance is available by phone during the days, evenings, and Saturdays when the University is open. Support is available to all students, faculty, and staff needing help with any University-owned technology. For troubleshooting or repairs to PC’s not owned by Stevenson University, it is highly recommended that all students and faculty maintain service plans through the manufacturer. The Tech Connection staff can only provide limited support for these types of issues.

Additional guidance information is available at the OIT website, oit.stevensonuniversity.org and at the Tech Connection offices on both campuses.

Usage of Campus Computers
All students, faculty and staff are expected to follow the guidelines outlined in the Information Technology Acceptable Use Agreement. The complete Acceptable Use Policy can be found on the SU Portal.

Francis X. Pugh Courtroom
In 2009, Stevenson University and the School of Graduate and Professional Studies opened a state-of-the-art mock trial courtroom on the Owings Mills campus. Housed within the Brown School of Business and Leadership, the courtroom is based on the high-tech courtroom at William & Mary Law School. The courtroom was designed for the University’s forensic studies and forensic sciences master’s degree students as an important part of their capstone expert witness coursework. The undergraduate paralegal program also uses the space, with Stevenson’s students

**Campus Resources and Services**

**Campus Technology**
Stevenson University is committed to providing its students, faculty, and staff with secure and reliable computer technology and network infrastructure. The Office of Information Technology (OIT) is responsible for much of the technologies used throughout both campus locations. This includes the computer labs, classrooms, residence halls, faculty and staff offices, administrative processes, and network operations.

OIT operates two data centers, one on each campus, to achieve a high level of availability and performance. Both campuses have hard-wired and wireless networks with many classrooms and residence halls connected at gigabit speeds. Our balanced dedicated digital high speed connection to the Internet is rated at 400 Mbps to provide students fast and reliable access.

Among the 12 dedicated computer labs on campus are several labs that are open for general student use at almost any time. These labs offer Mac and PC computers with the latest software needed for academic work.

**Computer Logins**
Each student, faculty, and staff member must have an individual computer login ID to use the computer equipment and network resources. Students must have read and electronically signed the Information Technology Acceptable Use Agreement before activating their login ID. Students should never share their ID or password with anyone, not even the members of Tech Connection or OIT. Students will be held responsible for all activity conducted under their login.
the first undergraduates in the state to have a courtroom for their studies. The mock trial courtroom features the latest courtroom technology including plasma screens, electronic screens, screen projectors, SMART Board interactive whiteboard fully integrated into the courtroom technology, touchscreen annotation functions, a portable Polycom HD video conferencing unit, video and audio digital recording using the Mediasite hardware and software platform, fully integrated presentation podium and fully integrated technology when using videotapes, DVDs, slides, electronic presentations, handouts, and live images. The mock trial courtroom technologies help continue the long tradition of providing SU students with a leading edge in the workplace.

Dining Services

Stevenson University offers dining services at both the Greenspring and Owings Mills campuses.

The Marketplace, an innovative, all-you-care-for dining experience is located in the Rockland Center at Owings Mills. Featured foods range from home-style entrees, grill, made to order sandwiches, salads, signature desserts, and more! As a result of student feedback, the Marketplace is now open for extended hours.

In addition, Pandini’s, a warm and inviting Italian eatery, is also located on the first floor of Rockland and offers a menu of hand-stretched gourmet pizzas and flatbread sandwiches with operating hours separate from the Marketplace. Pandini’s includes comfortable seating and plasma televisions to enhance the experience. The popular coffee shop, Jazzman’s Café, is in the nearby Ratcliffe Community Center, offering signature coffees, Simply To Go and convenience items. A second Jazzman’s Café has opened in the lower level of the Brown School of Business and Leadership to accommodate students during busy classroom hours. Meal plan blocks and flex dollars are accepted at all Owings Mills dining locations.

On the Greenspring campus, the Mustang Corral offers a-la-carte options Monday through Friday in the Manuszak Student Union. Everyone is welcome, and students on meal plans can use their blocks and flex dollars in this location. Our fuel station offers prepared foods that reflect the hottest trends in dining: fresh, ethnic, unique, and local. Sandwiches include Artstor, SciFinder, Lexis-Nexis, Business Source Complete, The Baltimore Sun, Material Connexion, and Science Direct. Approximately 70,000 full text magazines, journals, and newspapers are also available, and over 200,000 ebooks form a significant academic resource for students and faculty. Most are searchable from home or office. The OneSearch tool, available from the Library website as well as the SU Portal page, enables researchers to easily find books, articles and more through a single search box.

Traditional collections are housed primarily at the Greenspring Campus Library, which features a collection of materials for young readers utilized by Education students. The Library at Owings Mills features paralegal studies, fashion design and marketing, business, forensic studies, information technology, and related disciplines, as well as leisure reading books and magazines. Stevenson University researchers also have access to a little under one million volumes through the library’s membership in the Maryland Interlibrary Consortium (MIC), shared by four area college and university libraries. Students can request materials through the local catalog (SHARC) and nearby academic libraries will deliver to the Greenspring and Owings Mills campuses within 24-48 hours of request. Inter-library loan is also available.

Career Services and Experiential Learning

Career Services provides all students with a variety of career-focused programs, services, and resources. Beginning with the freshman First-Year Seminar, students are introduced to Stevenson University’s unique Career Architecture—a process that is infused throughout the students’ college career to help them realize their values, strengths, interests, and uniqueness. This powerful process will prepare students as competent and skilled new professionals ready for the competitive workplace. Freshmen students are also encouraged to participate in the Individualized Career Architecture Plan (ICAP) meetings with career counselors and industry liaisons to begin the career planning process.

The Career Services staff works with students to develop the skills, experiences, and confidence needed for success. Expert career advice and individualized attention help students grow in their career development. Career Services staff can also help students with resume critiques, job search assistance, mock interviews, career assessment tools, career counseling, networking strategies, and graduate or professional school preparation. Students can meet and network with employers through participation in on-campus recruiting for internships and full-time entry level jobs, careerinars and workshops presented by business and community leaders, career fairs and networking events, business etiquette seminars, and many other programs. Career Services maintains a comprehensive career website through their portal page which hosts information on job and internship opportunities, on-campus recruiting, career planning, job success tips, resume samples, interviewing resources, career assessments, a calendar of events, and many other resources related to Career Architecture. This site also hosts the Career Architecture Guide, a comprehensive tool for students embarking on the career planning and job search process.

In addition, the Office of Career Services maintains an online recruiting tool, called Stevenson Career Connections, which includes part-time jobs, internships, service learning, research, and full-time job opportunities. Students upload their resumes in Stevenson Career Connections, and they are then reviewed for quality control by professional staff members in Career Services.

Through experiential learning, students have the opportunity to use the skills and knowledge they have acquired in the classroom and apply them on the job. Experiential learning also enables students to become civically engaged and aware of the real life issues that they will encounter in the world when they graduate. The Career Services Office, in collaboration with faculty, supports the career development and life experiences that develop Stevenson University students into prepared and skilled emerging professionals for the workplace.

Library Services

The virtual library at Stevenson University is available through the Library webpage stevensonlibrary.org and at two convenient campus locations, Greenspring and Owings Mills. Students enjoy access to over 60 databases, featuring the full text of electronic journals, magazines, newspapers, and more. A few of the databases to which the Stevenson University Library subscribes include Artstor, SciFinder, Lexis-Nexis, Business Source Complete, The Baltimore Sun, Material Connexion, and Science Direct. Approximately 70,000 full text magazines, journals, and newspapers are also available, and over 200,000 ebooks form a significant academic resource for students and faculty. Most are searchable from home or office. The OneSearch tool, available from the Library website as well as the SU Portal page, enables researchers to easily find books, articles and more through a single search box.

Traditional collections are housed primarily at the Greenspring Campus Library, which features a collection of materials for young readers utilized by Education students. The Library at Owings Mills features paralegal studies, fashion design and marketing, business, forensic studies, information technology, and related disciplines, as well as leisure reading books and magazines. Stevenson University researchers also have access to a little under one million volumes through the library’s membership in the Maryland Interlibrary Consortium (MIC), shared by four area college and university libraries. Students can request materials through the local catalog (SHARC) and nearby academic libraries will deliver to the Greenspring and Owings Mills campuses within 24-48 hours of request. Inter-library loan is also available.

Knowledgeable and friendly library staff members stand ready to aid Stevenson University students to identify and locate vetted resources appropriate for their assignments. Reference and research help are available in person, by phone, and electronically via text, chat and email. Through AskUSNow, Stevenson students
have live chat access to a librarian 24 hours a day, seven days a week. Students also have a choice of study environments at both library locations, with wireless network access, individual study carrels, and listening viewing rooms. They also have group study areas, computer lab/library instruction classrooms, and quiet study areas. The Library at Owings Mills features extended late hours during the regular semester. There are 56 public computers at the Greenspring Library and 32 at Owings Mills. Both locations feature Mac computers. Students can scan documents or print in color at each library location.

During the regular semester, the Greenspring campus library is open Monday through Thursday, 8:00 a.m. to 10:00 p.m.; Friday, 8:00 a.m. to 6:00 p.m.; and Saturday, 11:00 a.m. to 5:00 p.m. The Library at Owings Mills is open at noon on Sunday, remaining open continuously until 8:00 p.m. on the following Friday, and on Saturday from 10:00 a.m. to 6:00 p.m. Visit the Stevenson University Library website for the latest information regarding library hours and services: stevensonlibrary.org.

**University Stores**

**Campus Store - Owings Mills**

Located in the Boulevard Corporate Center adjacent to Mustang Stadium in Owings Mills, the Campus Store has available required and recommended books for courses offered through the School of Graduate and Professional Studies and supplies for classroom use. A wide variety of other goods and services are for sale, including accessories, a large selection of Stevenson imprinted clothing, gift items, and magazines. During the semester, the Campus Store’s hours of operation are Monday through Thursday from 8:30 a.m. to 7:30 p.m., Friday from 8:30 a.m. to 4:30 p.m., and Saturday from 8:30 a.m. to 1:30 p.m. Additional hours are scheduled before the beginning of each semester. Students may also purchase merchandise and textbooks from the Campus Store online store.stevenson.edu/suom/. Specific ISBNs for GPS textbooks can be found on the Campus Store website.

**University Store - Greenspring**

Located on the first floor in the Manuszak Student Union on the Greenspring campus, the Stevenson University Store has available required and recommended books for traditional courses and supplies for classroom use. A wide variety of other goods and services are for sale, including accessories, a large selection of Stevenson imprinted clothing, gift items, and magazines. During the semester, the University Store’s hours of operation are Monday through Thursday from 8:30 a.m. to 7:30 p.m., Friday from 8:30 a.m. to 4:30 p.m., and Saturday from 8:30 a.m. to 1:30 p.m. Additional hours are scheduled before the beginning of each semester. Students may also purchase merchandise and textbooks from the University Store online http://store.stevenson.edu/. Specific ISBNs numbers for textbooks can be found on the University Store website.

**The Wellness Center**

The Wellness Center includes both Student Health Services and Counseling Services. These services are located at the Owings Mills campus on the top level of the Caves Sports and Wellness Center. The Wellness Center staff can be reached at 443-352-4200 or fax 443-352-4201. The Wellness Center is open Monday through Friday from 9:00 a.m. to 5:00 p.m. with extended evening hours on Tuesdays and Wednesdays until 7 p.m.

**Student Health Services**

The Wellness Center offers limited primary care services by appointment with the University’s physician or nurse practitioner. A minimal fee will be charged to the student’s account for services and supplies; private health insurance is not accepted for payment. Tuberculin skin testing and free HIV testing are offered periodically during each semester.

Health Services has numerous informational brochures and videos addressing health issues and will offer assistance with community referrals. Health awareness as well as promotion events are held frequently throughout the year and include health education, screenings, and guest speakers. These events are sponsored by the Wellness Center and Responsible Education Awareness Leaders (R.E.A.L), our peer education group. The R.E.A.L. team also partners with various Stevenson University community clubs and departments.

**Student Health Requirements**

All full-time commuter and resident students are required to have the Stevenson University Student Health Form completed and on file in the Wellness Center by August 1 for fall entrance and January 2 for spring entrance. All full-time students are required to complete this form even if they are turning in other health related records to other departments. Please refer to those specific departments for any health requirement questions, i.e. Athletics, School of the Sciences, and GPS. If a student was previously a part-time student and is now taking 12 or more credits, a Student Health Form must be completed. Students do not need to resubmit the Student Health Form every year. Students who have been away from Stevenson University for at least 2 years and are reapplying for admission as a full-time student must complete another Student Health Form.

In addition, all students living in Stevenson University residential housing are required to be immunized against meningococcal disease (meningitis). If the first dose of meningitis vaccine was administered before the student’s 16th birthday, a booster will be required before moving into residence on campus and the meningitis vaccination must not be older than 5 years from the date of move-in (Health-General Article 18-102(b) Annotated Code of Maryland 10.06.05 Meningococcal Vaccination Requirements for Students in Institutions of Higher Education). Commuter students who decide to become a resident are required to comply with additional immunization requirements as stated on the Student Health Form.

Failure to submit a completed Student Health Form will block a student from registering for future classes and/or lead to removal from housing.

**Counseling Services**

From time to time, students are presented with concerns or problems that require challenging decisions and effective coping strategies. Talking with a professional counselor is an opportunity for students to explore issues that may be interfering with their success and happiness in college. Counseling is a confidential process designed to help students learn more about themselves, address their concerns and problems, and to discover effective solutions. Some of the typical concerns students may have include adjustment difficulties, anxiety, depression, substance abuse, sexual assault, identity issues, and self-esteem. Counseling is confidential and provided free for all Stevenson University students.

**Academic Support**

The Office of Academic Support, located in the Knott Hall, Room 203, oversees a wide variety of services designed to facilitate the success of students at Stevenson University. Students and parents are encouraged to contact members of this office at any time.

**Accommodations for Students with Disabilities**

For the complete policy on Students with Disabilities, see Volume V of the Stevenson University Policy Manual, located on the SU Portal and the University Website.
Admissions

General Admissions Information

The University offers bachelor’s degrees in the following 29 disciplines: accounting, applied mathematics; biochemistry; biology; biotechnology; business administration; business communication; business information systems; chemistry; computer information systems; criminal justice; digital marketing; early childhood education; liberal arts and technology; elementary education; liberal arts and technology; English language and literature; environmental science; fashion design; fashion merchandising; film and moving image; human services; interdisciplinary studies; medical technology; middle school education; liberal arts and technology; nursing; paralegal studies; psychology; public history; theatre and media performance; and visual communication design.

Admission to Stevenson University is reserved for applicants who have demonstrated the ability to meet the demands of college-level instruction. The Admissions Committee also examines evidence of a student’s potential for achievement within the academic program elected. Students are selected on the basis of educational preparation, intellectual promise, and personal character.

Students who enroll for course work at Stevenson University are classified as either degree students or non-degree students.

A degree student is a student who is seeking a degree from Stevenson University and who has been accepted by the Admissions Office as either an undergraduate or graduate student. An undergraduate or graduate degree student may enroll for course work (full-time or part-time) for each consecutive semester as long as he or she remains in good academic standing at the University. A program of 12 credits or more constitutes an undergraduate full-time load; less than 12 credits constitutes a part-time load. A program of 6 credits constitutes a graduate full-time load.

Non-degree students are those not currently seeking a degree from Stevenson University. Non-degree students are limited to part-time status and are not eligible for financial aid. They must take fewer than 12 credits in a semester. While enrolled, non-degree students must meet the same academic standards for continued enrollment as degree students.

All students admitted as full-time undergraduate students, and all students (full-time or part-time) who intend to major in nursing or medical technology are required to complete a Student Health Form. The form must be returned by August 1 for fall entrance and December 15 for spring entrance. In addition, in accordance with Maryland state law, all students planning to live in Stevenson University student housing must provide proof of receipt of meningococcal vaccination or waiver prior to their taking up residence in the student housing facility.

Admissions Procedures and Processes

Traditional Freshman Students

The Admissions Committee considers a strong college preparatory program in high school to be the best preparation for success at Stevenson. Considerable emphasis is placed upon the rigor of the candidate’s course load in any given year (especially the senior year) and participation in accelerated, honors, Advanced Placement, or International Baccalaureate courses.

A minimum of 17 academic units distributed as follows is recommended.

- English—4 credits
- History/Social Studies—3 credits
- Mathematics—3 credits (algebra I, geometry, and algebra II or advanced courses in mathematics)
- Science—3 credits (including at least two laboratory science courses, preferably biology and chemistry)
- Foreign language—2 credits (in the same language)
- Electives—2 credits

Candidates whose high school programs have not followed the recommended patterns, but whose total credentials show evidence of potential for success at Stevenson University, are invited to apply with the assurance that their records will be given full and careful consideration. If it is found that a student has identified academic or curricular deficiencies, additional coursework may be required. Courses used to resolve curricular deficiencies are offered during daytime hours only.

For prospective freshmen, application for admission to Stevenson University consists of the following:

1. A completed Application for Undergraduate Admission.
2. A writing sample.
3. An official high school transcript or GED.
4. An official SAT (R) (Stevenson University’s code is 5856) or ACT Scores (Stevenson University’s code is 1753).
5. Letters of recommendation from teachers or a guidance counselor.
6. Recommended (Optional): Admissions interview and extracurricular activities resume.

Students may begin at Stevenson in the fall, spring, or summer semester. For the fall semester, applicants are notified of their admission status on a rolling basis after October 15. Applications filed after March 1 for the fall semester will be considered on a space-available basis. For the spring semester, applicants are notified of their admission status on a rolling basis after October 1. Applications filed after December 1 for the spring semester will be considered on a space-available basis.

Adults Entering as Freshman Students

For persons who are not recent high school graduates and have no previous college experience, attention is given to educational preparation, intellectual promise, and personal character as exhibited in academic records and life experience, including work and military service. Standardized test scores are not required. The application process should be completed no less than 4 weeks prior to the desired semester start date.

For adults wishing to pursue a degree either full-time or part-time (11 credits or less), application to Stevenson University consists of the following:

1. A completed Application for Undergraduate Admission.
2. An official high school transcript or GED.
3. An interview recommended for nurse and education related majors. An interview is optional for all others.
4. A personal statement discussing career goals and/or academic history.

Traditional Transfer Students

Students desiring to enter Stevenson University after attending other colleges or universities are welcome to apply for admission for either the fall or spring semester as full-time or part-time
students. Transfer applicants are encouraged to apply by May 1 for the fall semester and November 1 for the spring semester. Applications filed after June 1 for the fall semester and after December 1 for the spring semester will be considered on a space-available basis.

Students who have earned the Associate of Arts (A.A.), Associate of Science (A.A.S.), or Associate of Arts in Teaching (A.A.T.) degrees from regionally accredited institutions may be automatically admitted to Stevenson University upon receipt of the application and all required documentation. The fee for the paper application will be waived. (The online application is always free). However, acceptance into Stevenson University does not guarantee acceptance into a specific degree program. Students should also be aware that not all transferred credits may be usable toward a specific degree program. The requirements of each degree program must still be met.

Transfer students who have not completed an associate’s degree and are seeking admission into the bachelor’s degree programs should have a cumulative GPA of at least 2.50 from all colleges previously attended. Transfer students with a 2.00 minimum cumulative GPA and other accomplishments and/or experience may be granted conditional admission to the University. Admission is based primarily on each candidate’s performance at the most recently attended college; however, high school transcripts and college records will be considered for students who have completed fewer than 30 college-level credits. Applicants are notified of the admission decision on a rolling basis after January 1 for fall semester and after October 1 for spring semester. Please note that the limited enrollment programs may have higher GPA requirements and varied application and start term dates.

For transfer students, application for admission to Stevenson University consists of the following:

1. Completed Application for Undergraduate Admission.
2. Official college transcripts from each college previously attended. College-level coursework completed outside of the United States must be evaluated by either World Education Services wes.org or American Association of Collegiate Registrars and Admissions Officers aacrao.org. An official WES or AACRAO transcript is required. A final transcript must be sent upon completion of any course work in progress at the time of application.
3. Official high school transcript or GED for applicants who have completed less than 30 college-level credits. Applicants are notified of the admission decision on a rolling basis after January 1 for fall semester and after October 1 for spring semester. Please note that the limited enrollment programs may have higher GPA requirements and varied application and start term dates.
4. Optional: Personal statement discussing career goals and/or academic history.

Transfer of Credit

Students desiring to transfer from another college and admission to a degree program at Stevenson University must submit official transcripts of all previous college records. College-level coursework completed outside of the United States must be evaluated by either World Education Services wes.org or American Association of Collegiate Registrars and Admissions Officers aacrao.org. An official WES or AACRAO transcript is required. Stevenson University will accept a maximum of 70 transfer credits from a regionally accredited community college and 90 credits from a regionally accredited four-year institution. A matriculated student must complete the last 30 credits of their degree at Stevenson University.

The courses and credits completed with a grade of “C” or better at other regionally accredited institutions are transferable to Stevenson. The transferability of credits from an institution that is not accredited by a regional accreditation agency may be considered upon receipt of documentation that demonstrates equivalency regarding course information and learning outcomes.

It is the student’s responsibility to provide this documentation. Please consult the Registrar’s Office for documentation guidelines.

All transferable courses must be comparable to courses offered at this University. Classes that do not transfer include developmental/remedial, personal development, orientation courses, and credit given for portfolio work and internships by the other institution. Regardless of the number of transfer credits accepted, students must still complete the academic program requirements as shown in the Stevenson University Catalog and on the student’s degree audit. Shortly following acceptance, evaluated transfer credit may be viewed through WebXpress. Incoming transfer students have access to their degree audit through WebXpress after registration.

Transfer applicants should have left the sending institution in good standing. Grades and grade point averages earned at another institution do not transfer. The transferred credits apply toward graduation, but the grade points are not used in calculating the academic average required for graduation. Students seeking information on the transferability of credits may contact the Registrar’s Office, the transfer admissions web pages, or a transfer admissions counselor.

Credit By Exam

Advanced Placement

Incoming students who submit Advanced Placement (AP) test scores from the College Entrance Examination Board and who achieved satisfactory scores are considered for advanced placement or credit. College credit may be granted for scores of 3 or 5. In certain subjects, college credit is awarded for a score of 3.

For incoming freshmen, the results of these tests are received by the Registrar’s Office in mid-July. They are reviewed, along with the grades in the subjects, by the departments concerned and, when appropriate, placement and/or credit is granted. Credit is entered in the student’s record and can be viewed on WebXpress. Transfer students who took AP tests in the past should request their scores be sent to Stevenson from the College Board. More information can be found by visiting the Admissions website. For questions about AP credit, contact the Registrar’s Office.

CLEP Examinations

CLEP, a program of the College Entrance Examination Board, is a nationwide system of credit-by-examination. Stevenson does grant credit to our students earning Stevenson-designated passing scores on CLEP exams. Students who are interested should contact the Registrar’s Office for details about which exams are the equivalent of selected Stevenson courses. If the student achieves the designated passing score on an accepted examination and submits official documentation of the test results, appropriate credit will be awarded.

DANTES

The DSST exams students take to earn college credit. These exams are available not only to students in the military but to all students who are interested in earning college credit. The DSST exams are administered on military bases (for military students and their spouses) or at a participating institution. Students who choose to take the DSST exams can earn up to three college credits and upper or lower level credit. The credits are awarded by the American Council on Education. For information and registration, please visit getcollegecredit.com. Students are strongly encouraged to speak with the Associate Registrar, Transfer Evaluation to determine which DSST exams are right for them.
International Baccalaureate

Stevenson University recognizes the IB Diploma Programme and will grant credit for scores of 5 or higher in the “Higher Level” courses only. No credit is given for courses taken at the subsidiary level or for courses that duplicate others taken for Advanced Placement credit. For questions about IB credit, contact the Registrar’s Office.

Acceptance and Deposit

Stevenson University subscribes to the May 1 National Candidate’s Reply Date for students entering in the fall. However, students are encouraged to notify the University of their acceptance of admission and to remit the required enrollment deposit as soon as their decision is made. The enrollment deposit is non-refundable after May 1 and will be applied toward the first semester bill.

Students who enter in the spring semester are encouraged to notify the University of their acceptance of admission and remit their enrollment deposit by December 1. The enrollment deposit is non-refundable after December 1 and will be applied toward the semester bill.

For students who are enrolled at another institution at the time of their acceptance, it is understood that they will maintain the same level of academic achievement through the remainder of their current program. If a student’s work falls below a satisfactory level, the acceptance may be rescinded.

Merit-Based Scholarships

The Admissions Committee automatically considers accepted freshman and transfer students for SU merit-based scholarships. Scholarships are renewable for four consecutive years of study at the University. All eligibility requirements must be met for consideration. (See the Financial Information section of this catalog for more information about merit-based scholarships.)

Military Financial Benefits

Military Service Members

A joint education agreement also exists between the Maryland National Guard and Stevenson University. Active Guard members receive a 15% tuition discount and should submit appropriate paperwork to Student Financial Services to qualify for this discount. Service members desiring information about courses and degree requirements should contact the Registrar’s Office.

Stevenson University also participates in the Yellow Ribbon program.

Yellow Ribbon Program

The Yellow Ribbon program is part of the Post 9/11 GI Bill specifically designed for students wishing to attend private colleges and universities. This program allows institutions of higher learning to fund tuition expenses that exceed the Department of Veteran Affairs’ annual cap. For the 2014-15 academic year, the VA will pay a maximum of $20,235.02 to any private college or university, based on a student’s percentage of eligibility. For eligible students, Stevenson and the VA will divide any remaining tuition and fee charges 50/50 so that they are covered in full. Please note that tuition and fees do not include on-campus housing or meal plan charges; these expenses need to be paid by the student.

Stevenson currently offers unlimited enrollment to eligible students. Only veterans entitled to the maximum benefit rate (based on service requirements) or their designated transferees may receive this funding. Active duty service-members and their spouses are not eligible for this program (child transferees of active duty service-members may be eligible if the service-member is qualified at the 100% rate).

Veterans interested in using educational benefits should submit their application online through the Department of Veterans’ Affairs website at benefits.va.gov/gibill/apply.asp. The VA will determine eligibility and send the student a letter that indicates their percentage of benefits (40-100% based on length of service), as well as the amount of time awarded. For information on how to apply to transfer benefits to dependents, visit the GI Bill’s website at gibill.va.gov/benefits/post_911_gibill/transfer_of_benefits.html. The student should forward their Certificate of Eligibility to the school certifying official in the Registrar’s Office as soon as it is received. Any questions regarding the use of educational benefits should be directed to the school certifying official.

International Student Information

U.S. Permanent Residents

Applicants who are currently United States permanent residents must meet all the stated admissions requirements and follow the same application procedures as U.S. citizens. However, permanent residents must also submit a high quality copy of the front and back of their valid U.S. Permanent Resident Card. The Admissions Office will not process the application without this component. Refugees and asylees must provide proof of legal residence in the U.S.

All permanent residents and most other eligible non-citizens can apply for federal need-based financial aid programs. Applicants for traditional undergraduate programs are also automatically considered for merit-based scholarships.

International Students

All international students, except documented U.S. permanent residents and other eligible non-U.S. citizens, should submit all application requirements by April 1st for fall admission and September 1st for spring admission. Decisions are released in writing on a rolling basis. Applications completed after the deadline may not be considered for that semester but will be reviewed for the following semester upon receipt of a new application.

Admissions Requirements for International Students

Freshmen: International students applying as incoming freshmen with no post-secondary school education must submit the following:

1. Undergraduate Application for Admission – The online application at stevenson.edu is preferred.
2. Proof of English Proficiency – International students must demonstrate a satisfactory level of English proficiency. Any student whose native language is not English must submit an official TOEFL (Test of English as a Foreign Language) or IELTS (International English Language Testing system) score. The following TOEFL scores are required for admission: 213 or higher (computer-based); 80 or higher (Internet-based); or 550 or higher (paper-based). Students who have taken the internet-based TOEFL test should have no individual section score lower than 20. Students who have taken the IELTS should have a minimum overall band score of 6.5 and no individual score lower than 6.0 Students who have earned a score of 520 or higher on the SAT Critical Reading Test may possibly be exempt from the TOEFL or IELTS requirement. The website for TOEFL information is ets.org, and the website for IELTS is ielts.org.
3. Official Transcripts - All applicants who have (or will) complete secondary school outside the United States must either submit official transcripts for evaluation directly to World
Education Services (WES), at wes.org or submit a letter from an official at the school that fully explains the grading scale and curriculum offerings/requirements of the school. This letter should also contain the name and contact information of a school official who can serve as a point of contact throughout the applicant’s application process. Students attending a U.S. accredited high school outside the United States must submit an official high school transcript but are not required to provide a transcript evaluation.

4. SAT or ACT Scores - Official SAT or ACT scores must be sent directly from the College Board at collegeboard.com

5. Letters of Recommendation - Submit at least one recommendation from a teacher and/or counselor. Applicants can use the downloadable recommendation form on our website.

6. Essay - Applicants must submit a response to a single essay question. Essay topics are provided on each version of the application. Please note that the essay should be approximately 500 words, even though the Common Application says responses can be as short as 250 words. In addition, please provide a 100-word answer to the short response question listed on the application.

7. Required Documents - A legible and high-quality copy of the unexpired passport identification page is required of all international students. International students currently attending a high school in the United States must also submit a copy of his or her current Departure Record (I-94) and U.S. visa. International students currently holding an F-1 or F-2 visa must submit a copy of his/her Certificate of Eligibility (I-20).

8. Official Bank Statements - All non-Canadian citizens holding or intending to seek an F-1 student visa must submit current official bank statement(s) in English verifying the student’s financial resources in U.S. dollars for the entire cost of attendance for one year. The cost of attendance can be found at: stevenson.edu/admissions/financial-aid/need.asp.

9. Financial Resource Statement - All non-Canadian citizens holding or intending to seek an F-1 student visa must complete the International Student Declaration of Finances form which can be downloaded from: stevenson.edu/admissions/undergraduate/international.asp.

Traditional Transfer Students: International students transferring from another post-secondary college or university must submit the following:

1. Undergraduate Application for Admission – The online application at stevenson.edu is preferred.

2. Proof of English Proficiency – International students must demonstrate a satisfactory level of English proficiency. Any student whose native language is not English must submit an official TOEFL (Test of English as a Foreign Language) or IELTS (International English Language Testing System) score. The following TOEFL scores are required for admission: 213 or 573 (computer-based); 80 or higher (Internet-based); or 550 or higher (paper-based). Students who have taken the internet-based TOEFL test should have no individual section score lower than 20. Students who have taken the IELTS should have a minimum overall band score of 6.5 and no individual score lower than 6.0. International students who have completed courses equivalent to ENG 151 and ENG 152 at Stevenson University with a grade of "C" or higher may possibly be exempt from the TOEFL or IELTS requirement. The website for TOEFL information is ets.org and the website for IELTS is ielts.org.

3. Transcripts and Certificates of Previous Academic Work - International students who have attended or who are currently attending a U.S. post-secondary institution must submit official transcripts from all institutions. Students who have completed post-secondary coursework outside of the U.S. must submit these records for evaluation directly to either World Education Services (WES) at wes.org or the American Association of Collegiate Registrars and Admissions Officers (AACRAO) at aacrao.org. Transfer students who have completed less than 30 credits (as determined by a Stevenson University credit evaluation) will be required to submit an official U.S. high school transcript or evaluation of a non-U.S. secondary school transcript.

4. Required Documents – A legible and high quality copy of the unexpired passport identification page is required of all international students. International students currently attending a college or university in the United States must also submit a copy of his or her current Departure Record (I-94) and U.S. visa. International students currently holding a student (F-1) visa must submit a copy of his/her Certificate of Eligibility (I-20).

5. Official Bank Statements - All non-Canadian citizens holding or intending to seek an F-1 student visa must complete the International Student Declaration of Finances form which can be downloaded from stevenson.edu/admissions/financial-aid/need.asp.

6. Financial Resource Statement - All non-Canadian citizens holding or intending to seek an F-1 student visa must complete the International Student Declaration of Finances form which can be downloaded from stevenson.edu/admissions/undergraduate/international.asp.

Additional Requirements for Accepted F-1 students:

1. Enrollment Deposit - The enrollment deposit of $300 must be submitted before May 1 for fall semester entrance and December 1 for spring semester entrance. The deposit is non-refundable after these dates. The Certificate of Eligibility (I-20) will not be issued until the deposit is received.

2. Stevenson University Health Form - The University’s health form, downloadable from our website, must be completed in its entirety and mailed to the Stevenson University Wellness Center before August 1 for fall entrance and January 2 for spring entrance. All students planning to live on campus are also required to be immunized against meningococcal disease, per Maryland State law.

3. SEVIS Fee - Accepted F-1 international students are responsible for paying the Student and Exchange Visitor Information System (SEVIS) fee. See fmjfee.com.

4. Full-time status - Undergraduate freshmen and transfer students on an F-1 visa must take a minimum of 12 credits each semester.

Scholarships – Freshman and transfer undergraduate students in traditional programs are automatically considered for merit scholarships. The scholarship review is based on secondary school performance and SAT or ACT scores for freshmen and previous post-secondary school academic coursework and grades for transfer students. Federal financial aid programs are restricted to documented U.S. citizens, U.S. permanent residents, and some other eligible non-U.S. citizens.

Canadian citizens: The Admissions Office will review your transcripts, grade point average, and any other criteria needed to determine your eligibility to receive a Merit Scholarship. The Stevenson University Financial Aid Application for Canadian Students must be completed if you wish to be considered for an SU need-based grant. This form may be found on the Financial Aid website at: stevenson.edu/admissions/financial-aid/need.asp. Following the receipt of your Stevenson University financial aid award, you must submit current official bank statement(s) in English, verifying your financial resources in U.S. dollars, as well as the International Student Declaration of Finances form, which can be downloaded from the Admissions website under FAQ’s, International Students, for the remaining balance of the cost of attendance for one year. The cost of attendance can be found at the following website: stevenson.edu/admissions/financial-aid/need.asp.
Accelerated Transfer and Graduate Students

Please refer to the School of Graduate and Professional Studies Catalog for further information on international admissions requirements.

Additional Enrollment Options

Part-Time Students (Undergraduate)

Part-time students are those enrolled in fewer than 12 credits each semester. They may be degree-seeking or non-degree seeking students. Degree-seeking students apply to the University through the Admissions Office (see Admissions Traditional Transfer Student). Non-degree students must complete the procedures for non-degree students (see Non-Degree Students) as directed by the Registrar's Office.

All part-time students are considered part of the student body of the University. Fees regarding late registration and drop/add procedures apply to part-time students. Tuition is calculated on a per-credit basis, and student fees are charged at a reduced rate. University activities, clubs, and most organizations are open to part-time students with the exception of such organizations as the intercollegiate athletic teams, which are governed by NCAA Division III rules of eligibility.

Non-Degree Students (Undergraduate)

Non-degree students can only be part-time and are not eligible for financial aid. Admission as a non-degree seeking student requires submission of the following:

1. Special Application for Non-degree Status form located on the Registrar’s home page. Go to the website for the form at stevenson.edu/about/campus-services/registrar.
2. High school transcript - Required only for students who have been out of high school for less than two years and have not attended college.
3. College transcripts - At the time of registration, students who wish to take a course that has a pre-requisite must submit a college transcript verifying successful completion of the prerequisite course. Some departments require the approval of the department chair prior to taking a 200 level or above course.

A non-degree student may become a degree student by applying for and being granted formal admission. Application must be made prior to the student’s enrollment in the last 60 semester hours of academic credit required for a degree at Stevenson University. For admission as a degree student, a non-degree student must meet the same criteria as a freshman or transfer student.

A student denied admission as a degree student may enroll as a non-degree student only with the approval of the Director of Freshman Admissions.

Students Applying to Accelerated Undergraduate Programs

Information for admission to accelerated undergraduate programs may be found in the School of Graduate and Professional Studies Catalog.

Graduate Students

Information for admission to graduate programs may be found in the School of Graduate and Professional Studies Catalog.

Admission to the BS/MS Option for Current Stevenson University Undergraduates

The objective of the BS/MS option is to provide qualified Stevenson undergraduate students the opportunity to obtain both a bachelor's and a master's degree in as few as five years.

Participating master's degree programs and related admissions requirements are listed below.

Biology/Chemistry/Mathematics – BS/MAT

Applied mathematics, biochemistry, biology, chemistry, and environmental science majors may pursue the BS/MAT option. Students who wish to pursue this degree program can earn a bachelor's degree in applied mathematics, biochemistry, biology, chemistry, or environmental science and a masters of art in teaching degree with certification in secondary biology, chemistry, or mathematics with a STEM focus. Students apply for admission to this program during the fall of their junior year, or as soon as they have completed the requirements for admission listed below. If admitted, students begin taking graduate-level courses in the semester after they are admitted. In order to be admitted to this BS/MAT option, the student must have:

- A cumulative GPA and science and math GPA of 3.00 or better in all work attempted.
- Earned a grade of "C" or better in all science and mathematics classes.
- Completed at least 60 credit hours.
- Completed Calculus II and three additional math courses (Applied Mathematics majors)
- Completed Organic Chemistry II (CHEM 211 and 211L) and be enrolled in a 300-level science course (Biochemistry, Biology and Chemistry majors)
- Completed Environmental Science (ENV 275) and be enrolled in a 300-level science course (Environmental Science majors)
- Submit a completed BS/MAT Request for Permission to Enroll, including three letters of recommendation prior to October 1 or March 1.
- Submit a Graduate School Application by February 15 of the 4th year of the program.

Additional information can be found in the School of Graduate and Professional Studies Catalog.

Business and Technology Management, Forensic Studies, or Healthcare Management – BS/MS

Students interested in these programs develop an educational plan in consultation with both their undergraduate and graduate advisors. Accounting, applied mathematics, business administration, business information systems, computer information systems, criminal justice, human services, and paralegal studies majors, or those students in other majors with permission from their undergraduate department chair or program coordinator, may pursue the BS/MS option in business and technology management, forensic studies, or healthcare management. In order to be admitted to the BS/MS option, the student must:

- Have completed at least 60 credits at the time of application.
- Have a minimum 3.00 GPA, or permission from the appropriate undergraduate department chair or program coordinator.
- Submit both a completed BS/MS application and a graduate application.

Additional information can be found in the School of Graduate and Professional Studies Catalog.

Forensic Sciences - BS/MS

Biochemistry, biotechnology, and chemistry majors may pursue the BS/MS option in forensic sciences. Students who wish to pursue this degree program can earn a bachelor's degree in biochemistry, biotechnology, or chemistry and a master's degree in forensic sciences.

Detailed information can be found in the Forensic Sciences section under “Fields of Study” in this catalog.
Early Enrollment

Advanced high school seniors may apply for early enrollment if they wish to waive their senior year in high school in order to enroll as full-time, degree-seeking students at Stevenson. In addition to meeting the requirements of traditional freshman applicants, early enrollment applicants are expected to:

1. Submit official high school transcript reflecting successful completion of thirteen college preparatory units and three elective units.
2. Have a cumulative unweighted grade point average of at least 3.00 (B).
3. Submit SAT scores of at least 550 critical reading and at least 500 mathematics.
4. Submit official documentation from the high school permitting the student to waive his/her senior year.
5. Attend a personal interview accompanied by a parent or legal guardian.

The priority application deadline including all supporting materials is March 1 for the fall semester. Students wishing to participate in the early enrollment program may start in the fall semester only.

Parallel Enrollment

Stevenson University sponsors a parallel enrollment program that enables academically talented high school students to take up to two courses during one or both semesters of their senior year.

High school students who wish to apply for parallel enrollment should:

1. Submit a Parallel Enrollment Application.
2. Submit an official high school transcript.
3. Submit a letter of endorsement from their high school guidance counselor.
4. Attend a personal interview accompanied by a parent or legal guardian with the designated admissions counselor for parallel enrollment.
5. Have a cumulative unweighted grade point average of at least a 3.00.
6. Submit SAT or ACT scores for placement purposes if the student wishes to enroll in English or math courses. A minimum 520 SAT critical reading score (45 English + Reading ACT) is required to take English 151. A minimum 500 SAT math (21 ACT math) is required to take the first college-level math course.

The application deadline (including all supporting materials) is June 1 for the fall semester and October 1 for the spring semester. Students accepted to the program must earn a 3.00 GPA in their first semester of Stevenson coursework in order to be eligible to pursue course work for a second semester.

Placement

Placement testing at Stevenson University is used in determining placement in mathematics, reading, composition, and foreign language. Information regarding placement tests and testing dates is sent to all students following acceptance to the University. To schedule English or mathematics placement tests, students should register online at stevenon.edu/admissions-aid/accepted-students/placement-testing.

Questions may be directed to the Director of Developmental Studies at 443-334-2653.

Placement Testing in Mathematics, Reading, and English

First-time Stevenson University students will need to complete one or more Stevenson University placement tests prior to registration.

Mathematics Placement – Effective in the Fall 2015 semester, all students are required to complete the mathematics placement test prior to registering for classes.

For the 2014-2015 academic year, the mathematics placement test is required prior to registration for all students with one or more of the following:

- SAT Mathematics (M) score between 400 and 490.
- ACT Mathematics score between 16 and 20.

Students scoring below a 400 on the SAT-M or below a 16 on the ACT Mathematics section will be placed automatically in the appropriate Developmental Studies course.

Reading Comprehension and English Placement - The sentence skills and reading comprehension placement test is required prior to registration for all students with one or more of the following:

- SAT Critical Reading (CR) score between 400 and 510.
- ACT combined score of English and Reading between 32 and 44.

Students scoring below a 400 on the SAT-CR or below a combined score of 32 on the ACT English and Reading sections will be placed automatically in the appropriate Developmental Studies course.

Placement Information in Developmental Courses

Developmental courses in the areas of mathematics, reading, and English are designed to improve skills in these content areas. Placement in and successful completion of developmental courses are required of students who do not demonstrate proficiency in the basic skill areas on the SAT, ACT, or the Stevenson placement tests. Students who are placed into developmental courses are required to complete them during their first year at Stevenson.

Placement Testing for Transfer Students

All students transferring to the University must also take Stevenson University placement tests unless exempted by SAT or ACT scores (see above) or achievement of a grade of "C" or better in courses equivalent to Stevenson's Developmental Studies courses.

Transfer students will be notified of their placement by the Director of Developmental Studies. Transfer students who need to take one or more placement tests in mathematics, reading, and English must take the test(s) prior to registration.

For the 2014-2015 academic year, the transcripts of all incoming transfer students will be reviewed by the Admissions Office to determine placement. Transfer students who need to take one or more placement tests will be notified by the Director of Developmental Studies. The necessary placement test(s) must be taken prior to registration.

Placement testing is required for transfer students who:

- Have not completed a college-level English composition course equivalent to Stevenson's ENG 148 with a minimum grade of "C."
- Have not completed at least a 3-credit college-level mathematics course equivalent to Stevenson's DEVM 105# with a minimum grade of "C."

To schedule placement testing, transfer students should register online at stevenon.edu/admissions-aid/accepted-students/placement-testing. Questions may be directed to the Director of Developmental Studies at 443-334-2653.

Placement in Foreign Language Courses

Stevenson University offers elementary and intermediate level courses in French and Spanish. First-semester foreign language classes (101) are not open to native speakers or students with two or more years of high school study. Placement is required for
second-semester classes (102) and intermediate levels (201 and 202). Incoming freshmen who have scored 500+ on the appropriate SAT subject test or who have completed three or more years of high school language within two years will be placed in an intermediate-level class. Placement can also be determined by scores on the Advanced Placement test, by International Baccalaureate achievement levels, or by a test or interview with an instructor. Full-time students interested in languages other than French and Spanish are eligible to participate in the Baltimore Student Exchange Program (BSEP) at area colleges and universities. Additional information about the BSEP can be found in the Courses at another Institution section under Academic Information in this catalog. Specific questions regarding foreign language placement should be directed to the chair of the English department.

Reinstatement and Readmission

Reinstatement
Former Stevenson University students who were academically dismissed at the end of the last semester enrolled must apply for reinstatement to the University. Students must file the Application for Readmission/Reinstatement, which is available on the Admissions website. Applicants must submit all requirements as indicated on the application before the application will be reviewed by the Academic Review Board. The Board will interview the student and make the appropriate recommendation. Recommended deadlines for reinstatement are May 1 for the fall semester and November 1 for the spring semester. Reinstatement is not guaranteed. Students will be informed of the decision at the conclusion of the Academic Review Board interview.

Readmission
Students who attended Stevenson University and were in good academic standing at the end of their last semester at SU must apply for readmission if absent from the University for three or more consecutive semesters. Students must file the Application for Readmission/Reinstatement, downloadable from the Admissions website, with the Admissions Office. If the student attended any other college since leaving Stevenson, he or she must submit an official transcript from each college or university attended. Readmission is not complete until all official documents are received. Students are encouraged to apply early in order to take full advantage of early registration, advising, and course availability. Recommended deadlines for readmission are May 1 for the fall semester and November 1 for the spring semester. Normal processing time is approximately two weeks. Students who were absent from the University two semesters or less do not need to apply for readmission and should contact the Registrar’s Office directly to register for classes. Official transcripts of any work taken at another institution must be submitted directly to the Registrar’s Office.
Financial Information

## Costs

### Tuition and Fees (2014–2015)

Tuition and fees at Stevenson University for the academic year 2014–2015 are $28,980. Below is a list of tuition and fees for full-time and part-time students.

**Full-time Students (students enrolled in 12 to 18 credits per semester)**

### Miscellaneous Charges

- Application Fee $25
- Return Check Fee $25
- Transcript Fee (per copy)* $3
- Graduation Fee $25

* Normally transcript requests are processed within three working days.

**Same-day service for transcripts is available for a charge of $10. Students must make requests for same-day service in person in the Registrar’s Office. Official transcripts can also be ordered using WebXpress. Transcripts can also be ordered for electronic delivery on WebXpress and in the Registrar’s Office.**

**Plans and cost information are available on the University website; housing charges listed above do not include the cost of the meal plan. Please consult Residence Life for specific information regarding meal plans.**

For reservation deposits and information, contact Residence Life at 443-352-4011.

### Refund Policy

Tuition is refundable according to the following schedule for traditional undergraduate students. A partial refund may be made to students who withdraw from Stevenson University within the first 28 calendar days of Fall or Spring semester. Any credit balance remaining after these adjustments to the student's account will be refunded. Tuition and disbursed Institutional Aid will be adjusted in accordance with the Tuition Refund Policy within the first 28 calendar days of each semester. Federal financial aid will be adjusted in accordance with the Federal Return of Title IV calculation. The Title IV calculation is based on the day of attendance as a percentage of total days in the semester up until 60%.

**Fall and Spring Semester Tuition Refund Schedule***

- 100% First day through the 9th calendar day
- 75% 10th calendar day through 15th calendar day
- 50% 16th calendar day through the 22nd calendar day
- 25% 23rd calendar day through 28th calendar day
- 0% After the 28th calendar day

*Online courses that are taken by traditional students are subject to the above refund policy regardless of the start date of the course.

Room and board charges are not refundable unless covered under the Tuition Refund Insurance Plan.

### Summer Sessions

</thead>
<tbody>
<tr>
<td>100% First day through Drop without penalty date</td>
<td></td>
</tr>
<tr>
<td>0% After Drop without penalty date</td>
<td></td>
</tr>
</tbody>
</table>

Refunds are computed as of the date on which a written request for withdrawal is received in the Registrar’s Office. Registration fees are not refundable. Tuition and fees are charged based on course loads as of the last day of add/drop each semester. Charges will not be adjusted if courses are dropped after the last day to add/drop. Tuition refunds will only be processed if a student withdraws from the University within the first 28 calendar days of fall or spring semester. No adjustment of semester charges will be granted to students who are suspended or expelled for academic or disciplinary reasons. The University reserves the right to suspend or dismiss at any time a student whose academic standing or general conduct is considered unsatisfactory.

Students receiving financial aid should review the refund policies described in the Financial Aid sections: Disbursement of Awards and Return of Title IV Funds Policy.

### Financing Options

Stevenson University offers a payment plan option through Tuition Management Systems (TMS). Payment plans are the sensible approach to paying education expenses. They allow for smaller, affordable payments instead of paying the balance in one large lump sum.

The plan requires regularly scheduled payments over a five month period for each semester. The enrollment fee is $45. This is not a loan program; there are no interest or finance charges. For additional information, contact Tuition Management Systems directly at stevenson.afford.com or by phone at 800-356-8329.
Financial Aid

Although this catalog contains much useful information about financial aid and associated policies and procedures, changes may occur during the year that might affect any aid a student may receive. For the most up-to-date information, students are encouraged to go to the SU Financial Aid Office website at stevenson.edu/finaid and review the material posted there.

The information on the financial aid website includes extensive and detailed information about the types of aid (and the rules governing them), how to apply for aid, the FAFSA (Free Application for Federal Student Aid), policies and procedures, forms, and contains links to a number of other helpful resources like the U.S. Department of Education and the Maryland Higher Education Commission. Also included are links to a number of short videos (Financial Aid TV) that explain most aspects of financial aid. Some information and current scholarship announcements are posted on the Financial Aid Office Facebook page at facebook.com/steve.finaid.

Financing higher education is an important concern for many students and parents. Stevenson offers a strong financial aid program to help qualified students meet their expenses. Financial aid is provided through scholarships, grants, loans, and employment. It is the goal of Stevenson University to provide financial assistance to as many students as possible who demonstrate financial need and who meet individual program eligibility requirements. Types of financial assistance available to students attending Stevenson University can be divided into three major categories: Stevenson University scholarship and grant programs, federal financial aid programs, and Maryland state programs.

Stevenson University Scholarship and Grant Programs

Merit Scholarship Program

In an effort to recognize outstanding students, Stevenson University supports a competitive scholarship program with awards ranging from $7,000 to $16,000 annually. Consideration for a merit scholarship is automatic and awarded by the Admissions Office as a part of the acceptance process; students need not submit a separate application. Scholarships are awarded based upon grade point average, high school course work, standardized test scores, and previous college course work for transfer students.

All Stevenson merit scholarships are available for a total of eight semesters as long as the student continues full-time enrollment, maintains a minimum cumulative grade point average as set forth in the scholarship agreement, and agrees to adhere to the Stevenson University ethics code.

Stevenson University merit scholarships awarded to students enrolled in traditional undergraduate programs are not transferable to accelerated or graduate programs of study. Stevenson University scholarship recipients who change their program from traditional to accelerated will forfeit these awards.

Stevenson Need-Based Grant

These grants are available to qualified full-time students enrolled in traditional undergraduate academic programs. Awards are based on financial need demonstrated through the Free Application for Federal Student Aid (FAFSA). To be considered, the FAFSA should be filed annually by the February 15 priority deadline.

Endowed Scholarships

Stevenson University awards scholarships from our endowment program. Freshmen/new students need not apply. They will be reviewed and considered for awards based upon meeting endowed-specifed criteria. Returning students may apply for several endowed scholarships by completing a single application for those scholarships. The deadline for application is April 1. The application is available on the Stevenson University SU Now Portal.

The Stevenson University Financial Aid Office will inform students on the SU Now Portal of additional outside private scholarships as the application announcements become available.

Stevenson University Endowed Scholarship Funds

The Abell Foundation Scholarship Fund is available to incoming minority students who demonstrate financial need and academic achievement.

The AEGON USA, Inc. Scholars Fund provides assistance to an incoming freshman student with financial need who exhibits outstanding academic promise and leadership.

The George I. Alden Scholarship Endowment provides assistance to deserving students. A portion of this fund is reserved for non-traditional, adult students.

The Sandra Barkin, RN Memorial Scholarship in Nursing is awarded to one junior nursing student with financial need who exhibits a caring nature and involvement in community service.

The Peter H. J. Bauer Endowed Scholarship Fund provides support to academically deserving students with financial need within the Greater Baltimore area.

The Dr. Joseph A. Brusini Scholarship for the Sciences is awarded to a junior student with financial need and a minimum 3.25 GPA. The student must be enrolled in a major in one of the following departments of the School of the Sciences: the Department of Biological Sciences, the Department of Chemistry, or a major in the physical sciences within the Department of Mathematics and Physical Science.

The Bunting Family Foundation Endowed Scholarship provides support to students with financial need.

The Helen Fitzgerald Byrnes Endowed Scholarship for Visual Communication Design provides support to a student in the visual communication design program with financial need.

The Maureen Knerr Byrnes Endowed Scholarship for Teacher Education provides support for a student with financial need who is majoring in elementary education and exhibits leadership and involvement in community service.

The CohnReznick Accounting Scholarship provides support to students in the accounting program. Recipients are selected based on financial need and an overall GPA of 3.2 or above.

The Geraldine and Sam Dell Scholarship for Character and Excellence in Business is awarded to an exceptional senior student in the Brown School of Business and Leadership who demonstrates strong ethical grounding and a work ethic resulting in academic and personal success. Preference is given to business administration majors.

The Geraldine and Sam Dell Scholarship for Character and Excellence in the Sciences is awarded to an exceptional senior student with a major in the Department of Biological Sciences, the Department of Chemistry, or the Department of Mathematics. Candidates must demonstrate academic excellence, strong ethical behavior, and a strong work ethic, among other qualifications.

The Linda Connolly Fenton Endowed Scholarship in Nursing is awarded to a student with financial need enrolled in the nursing program.

The France-Merrick Foundation Scholarship provides funds to first-generation collegians with financial need, especially minorities and residents of Baltimore City.

The Franso-Ehlers Endowed Scholarship for Human Services is a merit-based award given to a full-time junior student in the human services major.

The Herget Endowed Nursing Scholarship supports students enrolled in the nursing degree program, with preference given to candidates who express a desire to work for at least two years in a hospital in the state of Maryland after graduation. Recipients must be in good academic standing, have financial need, and demonstrate a high probability of success in the nursing profession.
The Joseph S. Keelty Endowed Nursing Scholarship Fund provides assistance to non-traditional nursing students with financial need who are judged to have good academic standing and a high probability of succeeding in the nursing profession. Preference is given to students expressing a desire to serve as a nurse at the Greater Baltimore Medical Center for at least two years after graduation.

The Joseph S. Keelty Endowed Scholarship Fund provides assistance to deserving students in any program area.

The Honorable and Mrs. Francis X. Kelly Endowed Scholarship Fund provides support to students who are the first in their family to attend college.

The Knapheide Endowed Scholarship for Human Services is a merit-based award given to a full-time senior student in the human services major.

The M&T Bank Endowed Scholarship in Elementary Education supports students with financial need enrolled in the elementary education program.

The Kevin J. and Sara G. Manning Scholarship is awarded to an incoming freshman student who is the first in their immediate family to attend college.

The Dr. T. J. Manuszak Memorial Scholarship provides assistance to an incoming freshman student with financial need.

The Hilda Lee Menning Endowed Scholarship for Nursing is awarded to students with financial need in the nursing program.

The Middendorf Foundation Endowed Scholarship in Nursing supports nursing students with financial need enrolled in the pre-licensure nursing program.

The Pugatch Family Endowed Scholarship for the School of Design provides support to a junior student with financial need who lives in one of the University residence halls. Recipients should have a declared major within the School of Design, and demonstrate exceptional academic achievement.

The Pugh Paralegal Scholarship is awarded to students with financial need in the paralegal studies program.

The Gary A. and Joan O. Pyne Endowed Scholarship in Business is awarded to an urban youth, preferably from Baltimore City, with financial need and an interest in pursuing a career in business.

The Donald B. Ratcliffe Endowed Scholarship Fund provides assistance to students in good academic standing with financial need. Preference is given to nursing students.

The Jennifer and George Reynolds Endowed Scholarship in Business is awarded to students with financial need enrolled in the business administration program with an interest in communications.

The James E. Roberts Memorial Theatre Fund provides a merit-based award for a junior theatre student.

The Kimberly Serio Memorial Scholarship provides assistance to an incoming freshman student who has experienced financial hardship and is determined to continue his or her education.

The Susan Palmer Slattery, Ph.D. Endowed Scholarship is awarded to a female senior with a major in the Department of Mathematics, the Department of Biological Sciences, or the Department of Chemistry. Recipient must have a minimum 3.7 GPA and complete the competitive application process.

The James M. and Margaret V. Stine Foundation, Inc. Endowed Scholarship in Support of the Brown School of Business and Leadership is awarded to a freshman student(s) demonstrating high academic standards and financial need, and majoring in a discipline within the Brown School of Business and Leadership.

The Mary Tourney Emergency Book Fund provides assistance to students for textbooks. Student need is determined based on federal eligibility requirements.

The Jo-Ellen Turner, Ph.D. Endowed Scholarship in English is awarded to an academically deserving junior majoring in English language and literature who has demonstrated interest in literature and writing through course work achievement and participation in extracurricular activities related to the field.

The Sheila A. Walsh ’92 ’03M Endowed Scholarship supports non-traditional students with financial need who are committed to acquiring a degree in order to advance their career. Preference would be given to a student willing to volunteer with the Dyslexia Tutoring Program of Baltimore or other volunteer program which supports literacy.

The Bertha G. Wegad, RN Memorial Endowment Fund for Scholarships to Nursing Students provides support for a deserving nursing student.

Stevenson University Annual Scholarship Funds

The Accounting Association Scholarship is awarded to a junior or senior accounting major through an annual competition.

The American Citizens for Italian Matters of Maryland provides Italian Heritage Awards to incoming freshman students who are of Italian descent and have a high school GPA of at least 3.0.

The Associated Italian American Charities of Maryland provides scholarships for students of Italian descent in good academic standing.

The Baltimore Rotary Student Scholarship is available to a junior or senior student with financial need who is a permanent resident of the Baltimore metropolitan area, has demonstrated academic excellence, and is involved in community activities.

The Stevie Beall, Jr. Memorial Scholarship provides scholarships for North Carroll High School graduating seniors with financial need and academic achievement who have been accepted to Stevenson University and are pursuing studies in the fields of history, English, political science, professional writing, mass communications and/or communication studies.

The James T. and Francine G. Brady Scholarship Fund was created to respond to funding gaps experienced by returning junior and senior students. Candidates must have financial need and a minimum GPA of 2.5.

The Brotman Financial Group, Inc. Emergency Scholarship Fund supports junior and senior students who fall short of the funding needed to return to Stevenson University for their studies. Preference is given to students from the Brown School of Business and Leadership, as well as English majors.

The Business Administration Summer Internship Fund provides support to students with financial need, enabling them to enroll in summer internship opportunities in business administration. Candidates must be enrolled in a major within the Department of Business Administration, have a minimum 3.0 GPA within their major, and a department approved internship.

The Tori Chandler Annual Scholarship is awarded to a human services major who has transferred to Stevenson, with preference for students transferring from Carroll County Community College or another community college. The student should also have financial need and academic achievement.

The E. C. Wareheim Foundation provides a scholarship to one deserving student with financial need.

The Linda Connolly Fenton Annual Scholarship in Nursing is awarded to students in the nursing program with financial need.

The Gorfine, Schiller & Gardyn Scholarship is awarded to accounting students with financial need in good academic standing.

The Hahn-Waidner Scholarship is a merit-based award given to the top four academically performing students in both the junior and senior classes of the paralegal studies program.

The Hertzback & Company Scholarship is awarded to an accounting student with financial need in good academic standing.

The Independent College Fund of Maryland (I-Fund) provides a variety of designated and competitive scholarships for students attending Stevenson University and Maryland’s other independent institutions.

The Diane Jacobs Scholarship provides funds for students with financial need who have overcome personal challenges to continue their education.
The Kiwanis Club of Loch Raven provides a scholarship to a non-traditional female student with financial need who has a minimum GPA of 3.2 and is majoring in nursing or another health-related field. Other criteria apply.

The Mangione Family Foundation Scholarship is awarded to one or more students with financial need in the nursing program.

The Maryland Chapter of the Association of Certified Fraud Examiners Annual Scholarship is awarded to a student in the forensic studies program who is also a Maryland resident. Other criteria apply.

The Medifast-Bradley T. MacDonald Scholarship at Stevenson University is awarded to four junior or senior students based on financial need, academic achievement, and participation in the University’s internship program. Other criteria apply.

The PMM Companies Annual Scholarship provides one or more scholarships to students with financial need.

The PNC Foundation Annual Scholarship at Stevenson University provides assistance to a student with financial need who maintains good academic standing and is majoring in education or business.

The RCM&CD Foundation Scholarship supports students enrolled in a major within the Brown School of Business and Leadership.

The SC&H Group Scholarship supports one or more students with financial need in the accounting program.

The Law Office of Jane Frankel Sims, LLC Emergency Scholarship is awarded to junior and senior students who fall short of funding to return to Stevenson for their studies.

The Vincent O. Versace Memorial Annual Scholarship supports a junior student majoring in a STEM program who has financial need and a minimum 3.2 GPA.

More information about the Stevenson scholarships and grants is available from the Financial Aid Office.

Federal Financial Aid Programs

The Federal Pell Grant Program is awarded based on exceptional need as defined by the federal government. It is free money and does not have to be repaid. Pell Grants are awarded to eligible undergraduate students who have not earned a bachelor’s degree. The award amount depends on the student’s Expected Family Contribution (EFC) and full-time enrollment. Maximum grants for the 2014–2015 academic year are $5,730. A student can apply for a Pell Grant by completing the Free Application for Federal Student Aid (FAFSA). A student’s ‘lifetime’ eligibility for a Federal Pell Grant is limited to 12 semesters total (or its equivalent).

The Federal Supplemental Educational Opportunity Grant Program (FSEOG) provides financial assistance to undergraduate students who are enrolled at least half-time and demonstrate exceptional financial need. Priority is given to Pell Grant recipients pending fund availability. The FAFSA is required.

The Federal Direct Student Loan Program allows eligible students to borrow low-interest subsidized and unsubsidized loans to help finance their educational expenses. The lender is the U.S. Department of Education. All borrowers must enroll at least half-time (6 credits) and complete the FAFSA. New direct loan borrowers must also complete online entrance counseling and a Master Promissory Note (MPN).

The maximum amount a student can borrow each year depends on the class level and on whether or not a student is classified as a dependent or independent student.

<table>

Direct subsidized loans are for students with demonstrated need, as determined by federal regulations. No interest is charged while a student is in school at least half-time, the first six months after leaving school (referred to as a grace period), and during a period of deferment (a postponement of loan payments). Direct unsubsidized loans are not based on financial need; interest is charged during all periods.

The Federal Direct PLUS (Parent) Loan Program is for the biological or adoptive parent of dependent students. The stepparents of dependent students are also eligible if they meet the financial information is included on the Free Application for Federal Student Aid (FAFSA). The U.S. Department of Education requires all students to complete the FAFSA to be considered for PLUS loans. The U.S. Department of Education is the lender for this loan program rather than a bank or other financial institution.

The Federal Work-Study Program (FWS) provides on- and off-campus employment for students with financial need to earn money to help pay education expenses. This program allows students to work around their class schedules while obtaining valuable work experience. Students will receive a bi-weekly paycheck for hours worked. Unlike grants and loans, a student cannot apply their FWS award to their account for payment of tuition and fees. Jobs are available on-campus and at various community service off-campus sites. Undergraduate students enrolled at least half-time (six credit hours) may be employed under the program.

More detailed information about the federal student aid programs is available on the Financial Aid Office website at stevenson.edu/financialaid.

Maryland State Programs

The Maryland Higher Education Commission (MHEC) sponsors numerous grant and scholarship programs for Maryland residents. The State of Maryland offers an on-line inquiry system that allows students to view the status of their financial aid application and/or award information. This can be accessed at mhec.state.md.us/financialAid/OSFAmcapslive.asp. A short list of their programs include:

The Howard P. Rawlings Guaranteed Access Grant is for current high school seniors and full-time, degree-seeking undergraduates. Students and their parents (if student is dependent) must be Maryland residents. The grant awards a maximum of $3,000 per year to full-time undergraduates enrolled in at least 12 credit hours per semester. All recipients must complete the FAFSA by March 1, continue to show financial need, and maintain satisfactory academic progress to have the award renewed. Awards are made by the Maryland Office of Student Financial Assistance. Students must file the Free Application for Federal Student Aid (FAFSA) by March 1 to apply for this program.

The Howard P. Rawlings Educational Assistance Grant is for current high school seniors who will complete a college preparatory program with a minimum, cumulative, unweighted 2.5 high school GPA. Applicants much enroll at a Maryland college or university as a full-time, degree-seeking
undergraduate student; meet certain income requirements, which change yearly and are posted on MHEC’s webpage; complete the FAFSA and the grant application by March 1. Applications received after March 1 will be considered on a funds available basis. To renew an award, students must maintain satisfactory academic progress, submit the FAFSA by March 1, and continue to demonstrate financial need. Students should contact the Maryland Office of Student Financial Assistance or their high school guidance counselor for more information.

The Senatorial Scholarship Program is awarded to current high school seniors and students enrolled at least half-time in a degree-seeking, undergraduate or graduate program. Applicants must complete the FAFSA by March 1 and contact their senator in February for further instructions.

The Delegate Scholarship Program is awarded to current high school seniors and students enrolled at least half-time in a degree-seeking, undergraduate or graduate program. Applicants must complete the FAFSA by March 1 and contact their delegates in February for further instructions.

A detailed list of all State of Maryland financial aid assistance programs and applications is available on the web site of the Maryland Higher Education Commission at mhec.state.md.us. State financial aid assistance is based on the availability of funds. Information about grants and other financial aid programs for residents of other states can be found at finaid.org and select the link for "US State Government Aid."

Veterans’ Benefits

Stevenson University is approved by the Maryland Higher Education Commission for the training of veterans under the Veterans Readjustment Benefits Act of 1966, Public Law 89-358.

A veteran desiring to determine eligibility under any of the VA chapters may obtain information and an application at gibill.va.gov. After the veteran has received the notice of eligibility, the student should contact the certifying official in the Registrar’s Office to request certification of enrollment. The veteran will meet with a certifying official to review all paperwork and complete the necessary forms. Each semester, veterans should complete the Declaration of Intent. This form is available in the Registrar’s Office, the Academic Affairs portal site, and at the Registrar’s Office portal site. Completion of the form signals the student’s intent to receive veterans’ benefits for the upcoming semester.

Maryland National Guard Benefits

Stevenson University is a member of the Service Members Opportunity Colleges (SOC), a consortium of national higher education associations that help meet the voluntary higher education needs of service members. A joint education agreement also exists between the Maryland National Guard and Stevenson University. Active Guard members receive a 15% tuition discount and should submit appropriate paperwork to Student Accounts to qualify for this discount. Service members desiring information about courses and degree requirements should contact the Registrar’s Office.

Post 9/11 GI Bill and the Yellow Ribbon Program

The Yellow Ribbon program is part of the Post 9/11 GI Bill specifically designed for students wishing to attend private colleges and universities. This program allows institutions of higher learning to fund tuition expenses that exceed the Department of Veteran Affairs’ annual cap. For the 2013-14 academic year, the VA will pay a maximum of $20,235.02 to any private college or university, based on a student’s percentage of eligibility. For eligible students, Stevenson and the VA will divide any remaining tuition and fee charges 50/50 so that they are covered in full. Please note that tuition and fees do not include on-campus housing or meal plan charges; these expenses need to be paid by the student.

Stevenson currently offers unlimited enrollment to eligible students. Only veterans entitled to the maximum benefit rate (based on service requirements) or their designated transferees may receive this funding. Active duty service-members and their spouses are not eligible for this program (child transferees of active duty service-members may be eligible if the service-member is qualified at the 100% rate).

Veterans interested in using veterans’ educational benefits should submit their application online through the Department of Veterans Affairs website. The VA will determine eligibility and will send the student a letter which will indicate their percentage of benefits (40-100% based on length of service), as well as the amount of time awarded. For information on how to apply to transfer benefits to dependents, visit the GI Bill’s website: gibill.va.gov/benefits/post_911_gibill/transfer_of_benefits.html. The student should forward his Certificate of Eligibility to the School Certifying Official in the Registrar’s Office as soon as it is received. Any questions regarding the use of educational benefits should be directed to the school certifying official located in the Registrar’s Office.

Qualifying for Need-Based Aid

Financial aid programs were created by the federal government and based on the premise that the primary responsibility for paying for college rests with the student and his or her family. Need-based financial aid is available to families who demonstrate a need for additional resources to help pay college costs. Stevenson University is committed to helping students cover their college costs through a variety of need-based grants, work-study, and loan programs.

The formula used to determine whether a student is eligible for need-based aid is: Cost of Attendance (COA) - Expected Family Contribution (EFC) = Financial Need.

Need-Based Aid Application Procedure

In order to apply for need-based aid, the student must:
- Apply for admission to Stevenson University. He/she must be an accepted student to receive a federal aid award package.
- Complete the online Free Application for Federal Student Aid (FAFSA) at FAFSA.gov.

The Stevenson University federal school code is #002107 and the priority filing deadline for the fall semester is February 15. Financial aid awards are valid for one academic year. Students must reapply for aid by filing the FAFSA every year between January 1 and February 15 to ensure maximum consideration of aid.

Student Eligibility Requirements

In general, to receive aid from the federal student aid programs, students must:
- Be a U.S. citizen or eligible non-citizen.
- Have a high school diploma, General Educational Development (GED) certificate, or have completed a high school education in a home school setting that is recognized as a home school or private school under state law.
- Enroll in an eligible program as a regular student seeking a degree or certificate.
- Be registered with Selective Service if required (in general, if you are a male age 18 through 25).
- Meet satisfactory academic progress standards set by Stevenson University.

The Financial Aid office must:
- Certify that the student is not in default on a federal loan or owes money on a federal grant.
- Certify that the student will use federal student aid only for educational purposes.
Additionally, most financial aid programs require at least half-time enrollment (6 credits for undergraduate students; 3 credits for graduate students) each semester. Most scholarships require full-time enrollment. Please see the individual financial assistance programs for minimum credit requirements.

Stevenson University is responsible for administering the Federal Campus-Based Programs, i.e., Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Work-Study, and Federal Perkins Loan; and institutional need-based funds. Awards are made reasonably available to all eligible students who meet the program requirements. Individual award packages consider demonstrated need, program eligibility, and the availability of funds for the award period. In the event that the number of eligible students exceeds the availability of funds, the University will give preference to those students demonstrating the greatest financial need. The determination of greatest financial need will consider grant and scholarship aid from all public and private sources.

For maximum consideration of aid, students are encouraged to apply for financial aid each year by completing the FAFSA between January 1 and February 15.

**Awarding of Aid**

**Cost of Attendance and the Expected Family Contribution**

Cost of Attendance (COA or budget) represents a reasonable *estimate* of the cost of attending the university for a 9 month academic year (fall and spring semesters). The Financial Aid Office determines student budgets every year as a basis for awarding financial aid funds. The student’s budget includes direct costs: tuition, fees, room, and board; and indirect costs: allowances for books, supplies, transportation, and personal/miscellaneous expenses. Direct costs are charges for which the student will be billed directly by Stevenson. Indirect charges are costs incurred as a result of going to college, but for which a student is not necessarily billed. Actual charges vary depending on the choice of program, enrollment, and living arrangements (for example, apartment vs. double occupancy). An Estimated Cost of Attendance is posted on the Financial Aid website. Go to stevenson.edu/admissions/finaid and select the link for Policies and Procedures and then select “Determining Financial Aid.” The chart is regularly updated to reflect any changes.

The Expected Family Contribution (EFC) is an amount that the student and his/her family is expected to pay toward the cost of attendance; it is not the bill, is not the amount of federal aid the student will receive, and is not the amount the student will pay. It is a number used by the University to calculate how much financial aid a student is eligible to receive.

The EFC is derived from a formula created by the federal government and is calculated based on the information provided on the student’s FAFSA. A family’s taxed and untaxed income, assets, and benefits all could be considered in the formula. The family size and the number of family members who will attend college during the year are also considered.

**Disbursement of Awards**

Funds will post to a student’s account after the financial aid census date. The census date typically marks the end of the add/drop period for the semester. This is the date a "snapshot" is taken of all students’ enrollment to establish the "official enrollment" for reporting purposes and financial aid eligibility. The classes for which a student is registered as of the census date determine the amount of financial aid he/she will receive. Enrollment as of the census date will be compared to the enrollment status on the student’s award letter to determine if the eligibility requirements are still being met for each of the aid programs listed. Award revisions are sent via email to a student’s campus address. It is possible for a student’s aid to be increased, decreased, or even canceled. Revisions may be necessary because of changes in housing status; academic status; enrollment status; verification; conflicting information; additional resources; fraud; availability of funds; federal or state regulations; and computation error.

If a student increases or reduces the number of credits enrolled in before the census date, the financial aid may be adjusted, as appropriate, for the new enrollment level. If aid is reduced and a balance on the SU account is created, the student will be responsible for payment. If credits are added after the census date, aid may not be increased. Aid may be affected if the student is taking courses that begin after the census date. For example, if a student is enrolled in a traditional undergraduate program and taking a class that starts after the census date, the Federal Pell Grant will not be disbursed until after the last drop date for which the student is enrolled. If the student fails to begin attendance in all classes, the grant will be reduced accordingly. Loans will disburse when the student reaches half-time enrollment. Financial aid may also be affected if a student submits FAFSA information or corrections after the census date.

The Financial Aid Office should be notified immediately concerning any changes in enrollment or campus housing. Please note:

- **Accelerated Students** - Enrollment status is monitored after the drop date for each of the sessions for which a student is enrolled during the semester. Once half-time enrollment is attained, the Financial Aid Office will disburse loan funds. The student must be enrolled at least half-time at the time of disbursement. Federal grants will post after the LAST drop date for all sessions for which a student is enrolled in the semester.
- **State awards** post upon receipt of the actual funds from the state of Maryland; generally, November for the fall semester, March for the spring semester.
- **Work-study earnings** are not posted to student accounts. The student will receive a bi-weekly paycheck directly from Stevenson University.
- **Private scholarships and awards** from independent sources will be credited upon receipt of these funds by the SU Student Accounts Office. Often these awards are sent to the University in one check and therefore post as a single disbursement for the fall semester.
- **Credit Balance** - For those students with a credit balance resulting from financial aid, a refund check will be issued by the SU Student Accounts Office after aid is posted from all sources. State aid recipient refund checks may be delayed due to the receipt date of these funds.
- **SU need-based grants** may be reduced by the addition of later awards from the State of Maryland. If any outside funds affect the current financial aid award, the student will be notified of all changes.

**Book Vouchers**

Under certain circumstances, students may be able to take a credit against their financial aid in the form of a book voucher to purchase required books and supplies from the University Store. To qualify, loans must be certified and total aid combined with any other form of payment must exceed total charges. For more information, contact Student Accounts at 443-334-3500.

**Student Loan Entrance and Exit Counseling**

To make certain that student loan borrowers are given the most up-to-date information on student loans, all borrowers are required to complete an online entrance counseling session. This information will apply when the student begins repayment of their loans.

First time borrowers are required to complete entrance loan counseling before the Financial Aid Office can process their loan. The purpose of the entrance counseling is to ensure students
understand their rights and responsibilities as a new loan borrower as well as the regulations governing each loan program, such as interest rates, grace, deferment/forbearance options, prepayment, consolidation, and other general repayment obligations. Students will be informed of the consequences of not repaying their student loans (default) and of various repayment strategies. Instructions for completing the Entrance Counseling and the Master Promissory Note are included in the publication Financial Aid Award Guide. For more information on the Direct Loan Program, visit the federal website at direct.ed.gov.

Exit counseling is required when a student borrower graduates, drops to less than half-time attendance, or stops attending SU. Required online counseling is available on the NSLDS Student Access website at nslds.ed.gov.

Financial Aid Verification
All Federal financial aid programs and many state and University aid programs require the submission of the Free Application for Federal Student Aid (FAFSA). A substantial change to the current FAFSA is the use of the IRS Data Retrieval Tool. This tool allows students and parents to pull tax information directly from the IRS data base. Many students and parents complete the FAFSA using estimated taxes. The IRS Data Retrieval Tool should be used after the annual tax returns are filed.

Financial aid applicants may be selected for a process called verification by the U.S. Department of Education and SU. This review process requires applicants to submit income documents and other information as requested by the University. Selected applicants will be notified by the SU Financial Aid Office in writing. Failure to provide the required documents or successfully complete the IRS Data Retrieval directly through the FAFSA will prevent the student from being officially awarded.

More information about the verification process and the IRS Data Retrieval Tool may be found on the Financial Aid Office website at stevenson.edu/finaid.

Using Federal Financial Aid to Pay for Repeating a Course
Effective July 1, 2012, a student may use Federal financial aid only one time to pay for repeating a course previously passed. If the student received a grade higher than an "F", this is considered passing by the Department of Education regulations and he/she may then only repeat that course one time using Federal financial aid. If the student has not received a passing grade previously in the course, there is no limit to how many times the course may be retaken, provided satisfactory academic progress policy guidelines are met. Continually repeating courses may eventually impact the requirements affecting Satisfactory Academic Progress (SAP).

Continued Eligibility
Financial aid awards are valid for one academic year. Students must reapply for aid by filing the FAFSA every year between January 1 and February 15 to ensure maximum consideration of aid.

Stevenson Financial Aid Satisfactory Academic Progress (SAP)
Financial aid recipients are required to be in good academic standing and maintain satisfactory academic progress toward their degree requirements. Satisfactory academic progress (SAP) is the term used to define successful completion of coursework to maintain eligibility for student financial aid. Federal regulations require the SU Financial Aid Office to establish, publish, and apply standards to monitor a student’s progress towards a degree. Satisfactory academic progress, as described below, is evaluated annually (end of the spring semester) and cumulatively by the Financial Aid Office regardless of whether financial aid was received at the time. Progress is determined quantitatively (credit hours versus hours earned and maximum time frame) and qualitatively (grade point average). Failure to maintain satisfactory academic progress may result in the suspension of financial aid eligibility. The Financial Aid Office will notify students who do not meet the satisfactory academic progress by mail and by email to their University email account.

Satisfactory academic progress for financial aid eligibility should not be confused with the University’s academic progress policy. These are two distinct and totally separate policies. It is entirely possible to fail to meet minimum standards of one policy and pass the minimum standard of the other.

Quantitative standard: Undergraduate students receiving financial aid must maintain a minimum cumulative grade point average (GPA) and make steady progress toward the completion of their degree as listed below. The maximum time frame for program completion of a degree program is defined as 150% of the credits required to complete the degree. For example, a typical bachelor’s degree at SU requires 120 credits: 120 x 150% = 180. Therefore, 180 credits is the maximum that can be attempted and receive financial aid.

Students must complete a minimum of 67% of the cumulative courses attempted to remain eligible. Transfer credits accepted by Stevenson University will be included in the progress completion requirement as well as in the maximum attempted credits. Please note, students must graduate with a cumulative 2.00 grade point average.

Attempted credits include the following:
• Incomplete grades (I)
• Withdrawn credits (W, WF)
• Repeat courses (if taken to replace failing grades)
• Audited courses
• Transfer credits
• Remedial courses may be taken up to a maximum of 24 credits only

Qualitative standard: A student must have a minimum grade point average for specific numbers of credits attempted.

<table>
<thead>
<tr>
<th>Credits Attempted</th>
<th>Grade Point Ave.</th>
</tr>
</thead>
<tbody>
<tr>
<td>1–18.5</td>
<td>1.5 minimum grade point ave.</td>
</tr>
<tr>
<td>19–29.5</td>
<td>1.9 minimum grade point ave.</td>
</tr>
<tr>
<td>30+</td>
<td>2.0 minimum grade point ave.</td>
</tr>
</tbody>
</table>

Financial Aid Suspension: Students who fail to meet all of the minimum standards listed above at the time of review, will have their financial aid eligibility suspended. Students who have been suspended cannot merely skip a semester to regain eligibility. No financial aid will be disbursed during subsequent semesters for students on suspension. There are two ways for a student to regain eligibility:

• The student submits a written appeal in accordance with the appeals process and the Financial Aid Appeals Committee approves the appeal. The student is then placed on financial aid probation, allowing one additional semester in order to bring the academic requirements up to minimum standards.
• The student attends SU during the suspension semester, pays for tuition and fees without the help of financial aid, and does well enough to satisfy all SAP academic standards.

Appeals Process: Appeals of financial aid satisfactory academic progress suspension must be made in writing to the Financial Aid Appeals Committee. This committee will review the appeal and notify the student in writing of their decision.

The appeal letter must address the extenuating circumstance(s) as to why satisfactory academic progress was not made, and what has changed in the student’s situation that would allow them to now demonstrate satisfactory progress after the probation...
semester. Extenuating circumstances can include, but are not limited to, illness, death of a family member, family difficulties, financial difficulties, etc. In addition, students must meet with a staff member from SU Academic Advising to create an academic plan. This plan must also be presented with the appeals letter.

If the appeal is approved, the student will be reinstated for financial aid on probation for one semester. A review of the student’s academic performance in that semester will be reviewed to determine the status for the upcoming semester. Only if the student is now meeting the overall requirements for satisfactory academic progress or successfully following the academic plan, will the student be permitted aid for the upcoming semester.

Potential Outcomes:
- Students who now meet the Satisfactory Academic Progress guidelines will have their eligibility reinstated.
- Students who fail to meet all conditions set in their academic plan will forfeit their eligibility to receive further financial aid. They can apply to be reinstated once they meet the University’s standards. Students who have been given a second chance to receive aid are expected to meet all requirements set forth in their academic plan. Appeals will only be accepted from students who experienced a one-time, unexpected, serious event that precluded them from meeting the conditions of the academic plan.
- Students who met all the conditions of their academic plan but still do not meet the University’s regular academic standards may be allowed to continue with financial aid. The Financial Aid Appeals Committee may make changes to the student’s original academic plan based on any changes in the student’s situation. Students who meet all conditions of their current academic plan will be allowed to continue to participate in the aid programs on a semester by semester basis.

Return of Title IV Funds Policy

This Return of Title IV Funds (R2T4) policy applies to anyone who receives federal financial aid, has begun classes, and subsequently either withdraws from the courses the student was scheduled to complete and/or receives all failing grades during the payment period. Fall, spring, and summer are the three payment periods.

Overview

When a student withdraws from his/her courses, for any reason including medical withdrawals, he/she may no longer be eligible for the full amount of Title IV funds the student was originally scheduled to receive. SU follows the federally prescribed policies and procedures for calculating whether the student has earned all or a portion of their federal financial aid.

The calculation to determine whether any aid must be returned is based on the percentage of earned aid using the following Federal Return of Title IV funds formula:

- the number of days completed up to the withdrawal date divided by the total days in the semester = percentage of the semester completed. This percentage is also the percentage of earned aid.

Funds are returned to the appropriate federal program based on the percentage of unearned aid using the following formula:

- (100% of the aid that could be disbursed minus the percentage of earned aid) multiplied by the total amount of aid that could have been disbursed during the semester = aid to be returned.

If a student earned less aid than was disbursed, SU would be required to return a portion of the funds and the student may be required to return a portion of the funds. When Title IV funds are returned, the student is responsible for any remaining institutional charges on his/her student account. If a student earned more aid than was disbursed, SU would owe him/her a post-withdrawal disbursement which must be paid within 120 days of the withdrawal. The University must return the amount of Title IV funds for which it is responsible in the following order:

- Unsubsidized Direct Loan (other than PLUS loans)
- Subsidized Direct Loans
- Federal Perkins Loans
- Federal PLUS Loans
- Federal Pell Grants for which a Return of Funds is required
- Federal Supplemental Opportunity Grants for which a Return of Funds is required
- Other assistance under this Title for which a Return of Funds is required

Withdrawal Date

The date used to determine the student’s withdrawal is either:
- the date in which the student submits the Official Withdrawal form to the Registrar’s Office;
- the date the student otherwise provided official notification to the Registrar’s Office of his/her intent to withdraw;
- the student’s last date of attendance at a documented academically related activity; or
- the mid-point of the semester if the student stops attending all classes without notifying the University.

The federal statutory interpretation of the Return of Title IV Funds Policy and all related information represents a best faith effort attempt by Stevenson University and is subject to revision at any time pending federal regulatory changes and interpretation. Any revisions to the Return of Title IV Funds Policy will be posted on the University website The current policy is located at stevenson.edu/finaid and select the link for “Policies and Information.”

Consumer and General Information

Every student applying to the University for admission is encouraged to apply for assistance through the Financial Aid Office. Information about policies, procedures, and most of the information that a student will need to apply for financial aid, including the types of aid available and how to apply; can be accessed through Stevenson University’s financial aid website. We strongly encourage all students to spend time reviewing the tools and information there. It is important that students and families are aware of the policies that govern access to financial aid records at Stevenson University as well as the College Loan Code of Conduct, Drug Conviction and Aid Eligibility, Financial Aid Handbook, Financial Aid Award Guide, and various other consumer information policies. In addition, there are a variety of helpful financial aid resources available online. Direct access to their websites is available through the links listed on the Financial Aid website located at stevenson.edu/finaid.
Academic Information

**SEE: The Stevenson Educational Experience**

The Stevenson Educational Experience (SEE) is academically grounded in the liberal arts and sciences while at the same time integrating experiential scholarship, ethical reasoning, and career readiness, thereby preparing graduates for learning and for living. Regardless of the student’s major area of study, SEE emphasizes both intellectual and practical skills, using inquiry-based methods to promote critical and creative thinking into matters ranging from personal to social to national to global. By requiring firsthand experience, SEE assures that graduates will be prepared to synthesize what they have learned and apply it in solving the complex challenges they will face in life. By setting a standard for ethical reasoning, SEE helps students develop patterns of applying those principles personally, academically, and professionally so as to demonstrate their integrity. At its essence, the Stevenson Educational Experience offers students the opportunity to explore diverse perspectives, acquire expertise in an academic discipline, and develop the professional and personal skills necessary for life beyond college.

See it. Do it. Live it.

**The SEE Student Learning Goals and Outcomes**

**SU Goal No. 1: Intellectual Development (ID)**

The SU graduate will use inquiry and analysis, critical and creative thinking, scientific reasoning, and quantitative skills to gather and evaluate evidence, to define and solve problems facing his/her communities, the nation, and the world, and to demonstrate an appreciation for the nature and value of the fine arts.

Outcomes, Goal 1:

The SU graduate will be able to:

a. Apply knowledge of creative processes to express aesthetic principles.
b. Demonstrate quantitative literacy by applying mathematical strategies to analyze, model, and solve complex problems, and to use data to communicate effectively.
c. Define problems, gather accurate and relevant data using technology and texts, interpret these data and texts appropriately, and devise well-reasoned solutions.
d. Apply the elements, standards, and processes of critical thinking, creative thinking, and scientific reasoning.
e. Function effectively as part of a team to solve problems, engaging team members in productive ways, supporting a constructive team climate, and managing conflict.
f. Demonstrate competency in technology appropriate to the discipline and integrate its use into the problem-solving process.

**SU Goal No. 2: Communication (C)**

The SU graduate will communicate logically, clearly, and precisely using written, oral, non-verbal, and electronic means to acquire, organize, present, and/or document ideas and information, reflecting an awareness of situation, audience, purpose, and diverse points of view.

**Outcomes, Goal 2:**

The SU graduate will be able to:

a. Articulate an understanding of the multiple ways of reading and the range of interpretive strategies in a given community of readers.
b. Demonstrate awareness of context, audience, and purpose in the performance of assigned tasks, using appropriate and relevant verbal and non-verbal means.
c. Use language choices that are thoughtful and appropriate and that generally support the effectiveness of the message being communicated in varied contexts.

**SU Goal No. 3: Self, Societies, and the Natural World (SSNW)**

The SU graduate will consider self, others, diverse societies and cultures, and the physical and natural worlds, while engaging with world problems, both contemporary and enduring.

Outcomes, Goal 3:

The SU graduate will be able to:

a. Examine the historical and contemporary roles, interconnections, and differential effects of human organizations and actions on global systems.
b. Explain multiple perspectives (such as cultural, disciplinary, and ethical) when exploring subjects within natural and human systems.

**SU Goal No. 4: Experiential Learning (EL)**

The SU graduate will connect ideas and experiences from a variety of contexts, synthesizing and transferring learning to new, complex situations.

Outcomes, Goal 4:

The SU graduate will be able to:

a. Compare life experiences and academic knowledge to infer situational similarities and differences and connect examples, facts, or theories from more than one field of study or perspective.
b. Apply skills, abilities, theories, or methodologies gained in one situation to a new situation.

**SU Goal No. 5: Career Readiness (CR)**

The SU graduate will demonstrate personal direction, professional know-how, and discipline expertise in preparation for entry into the workplace or graduate studies.

Outcomes, Goal 5:

The SU graduate will be able to:

a. Imagine and articulate a personal direction following realistic self-appraisal and reflection.
b. Utilize professional skills and tools to navigate challenges and opportunities.
c. Demonstrate the discipline expertise necessary to be competitive in a chosen career.

**SU Goal No. 6: Ethics in Practice (EIP)**
The SU graduate will practice integrity in the academic enterprise, professional settings, and personal relationships.

Outcomes, Goal 6:
The SU graduate will be able to:
a. Think critically about complex ethical issues.
b. Practice the highest ethical standards of a profession.
c. Complete academic or professional assignments in an ethical manner.
d. Engage in behaviors that constitute a pattern of personal integrity.

University Degree Requirements

Bachelor’s Degrees
The University offers bachelor’s degrees in the following 29 disciplines: accounting, applied mathematics; biochemistry; biology; biotechnology; business administration; business communication; business information systems; chemistry; computer information systems; criminal justice; digital marketing; early childhood education; liberal arts and technology; elementary education; liberal arts and technology; English language and literature; environmental science; fashion design; fashion merchandising; film and moving image; human services; interdisciplinary studies; medical technology; middle school education; liberal arts and technology; nursing; paralegal studies; psychology; public history; theatre and media performance; and visual communication design.

Stevenson University also offers accelerated bachelor’s degree programs for adult learners in the School of Graduate and Professional Studies. These programs have the same curricular requirements, but with a few modifications, primarily in delivery modes. These accelerated degrees are business administration, business communication, business information systems, computer information systems, criminal justice, interdisciplinary studies, paralegal studies, nursing: RN to BS option; and nursing: RN to MS option. For more information along with program requirements for graduate degrees, please consult the School of Graduate and Professional Studies Catalog.

Requirements for the Bachelor’s Degree
In order to obtain a bachelor’s degree from Stevenson University, a student must:
• Earn a minimum of 120 credits, which must include a minimum of 30 credits at the 300- or 400-level.
• Complete the SEE requirements.
• Complete the courses required by the major. Note – Grades of "I" (Incomplete) must be cleared from the student’s record.
• Achieve a cumulative grade point average (GPA) of at least 2.00; the GPA is calculated on the basis of work done at Stevenson University only.
• Earn a minimum cumulative GPA in the major of 2.00 or higher. Many majors have additional GPA requirements; please consult the "Fields of Study" section for specific requirements.
• Earn at least 30 credits at Stevenson University.
• Earn the final 30 credits at Stevenson University.
• Comply with all policies, procedures, and regulations of the University.
• File the official Application for Graduation in accordance with published deadlines.

The Stevenson Educational Experience Requirements for Bachelor's Degrees
As part of the Stevenson Educational Experience (SEE), Stevenson University requires all bachelor’s degree-seeking students to complete a minimum of 37-39 credits in distribution areas that comprise the liberal arts and sciences, plus a minimum of 9 additional credits in Communication Intensive (CI) and Writing Intensive (WI) courses. These credits/courses may be included in the Major Program Requirements unless otherwise specified (see major program descriptions); however, no single course may count in more than one distribution area for the purpose of fulfilling the SEE requirement. Furthermore, students must earn a minimum grade of "C" in courses that are used to fulfill the SEE requirement. It is expected that courses in the major field of study round out the learning goals and outcomes that constitute the Stevenson Educational Experience.

NOTE for 2014-2015: This year marks the implementation of the SEE requirements and is, therefore, a year of transition. Courses that have counted as fulfilling the University’s general education requirements in previous years will also count toward fulfilling SEE requirements for the 2014-2015 academic year. In all subsequent years, the only courses that will fulfill the SEE requirements (in addition to ENG 151 and ENG 152) are those certified with the appropriate label in the course description (CI, FA, HUM, QL, SR, SR-L, SS, WI).

Writing and Communication Requirement (15 credits).
All bachelor’s degree seeking students must complete courses that fulfill the Writing and Communication requirement of the Stevenson Educational Experience. A single course may fulfill either a writing intensive (WI) or a communication intensive (CI) standard. No single course may count as both writing intensive and communication intensive. It is permitted but not required for a single course to fulfill either a writing intensive or communication intensive requirement and a distribution requirement.

• Two writing instruction courses:
  o ENG 151 (3 credits)
  o ENG 152 (3 credits)

• Two writing intensive (WI) courses:
  o A minimum of 2 additional writing intensive courses are required, including at least one such course in the student’s major area of study. One of these WI courses must be at the 200-level, and the other must be at the 300-level or 400-level.
  o Courses that fulfill the writing intensive requirement are certified by the WI label in course descriptions.

• One communication intensive (CI) course:
  o Courses that fulfill the communication intensive requirement are certified by the CI label in course descriptions.

Liberal Arts and Sciences Distribution Requirement (37-39 credits).
All bachelor’s degree seeking students must complete courses that fulfill the liberal arts and sciences distribution requirement of the Stevenson Educational Experience. No single course may count in more than one distribution area for the purpose of fulfilling the SEE requirement, even though a course may meet the standards in more than one distribution area. Students must complete the required number of credits in each of the four areas described below: Humanities, Science and Mathematics, Social Sciences, and Fine Arts.

Humanities (HUM; 12 credits).
Four courses in at least three different discipline areas are required. The discipline areas are represented by the course prefix designators that precede the course number in the catalog (e.g. PHIL, REL). Note: ENG 151 and ENG 152 may not be used in fulfilling this requirement. Courses that fulfill the humanities distribution requirement are certified by the HUM label in course descriptions.

Science and Mathematics (SR, SR-L, QL; 10–12 credits).
Three courses in at least two different discipline areas are required. The discipline areas are represented by the course prefix designators that precede the course number in the catalog (e.g.
BIO, PHYS). At least one course must be a laboratory science (SR-L) and one course must carry the MATH designation and QL label (excluding MATH 132 or MATH 201). (Note: MATH 132 or MATH 201 may be used as a second math course in fulfilling this distribution requirement.) Courses that fulfill the science distribution requirement are certified by the Scientific Reasoning (SR) or Scientific Reasoning-Laboratory (SR-L) label in course descriptions. Courses that fulfill the math distribution requirement are certified by the Quantitative Literacy (QL) label in course descriptions.

Social Sciences (SS: 6 credits).

Two courses in two different discipline areas are required. The discipline areas are represented by the course prefix designators that precede the course number in the catalog (e.g. GEO, SOC). Courses that fulfill the social science distribution requirement are certified by the SS label in course descriptions.

Fine Arts (FA; 3 credits).

One course in the fine arts is required. Courses that fulfill the fine arts distribution requirement are certified by the FA label in course descriptions.

Foreign Language

Candidates for the Bachelor of Arts degree must complete six credits of foreign language at the 200-level or higher.

Guide to Abbreviations

C – Communication
CI – Communication Intensive
CR – Career Readiness
EIP – Ethics in Practice
EL – Experiential Learning
FA – Fine Arts
HUM – Humanities
ID – Intellectual Development
QL – Quantitative Literacy
SR – Scientific Reasoning
SR-L – Scientific Reasoning-Laboratory
SS – Social Sciences
SSNW – Self, Societies, and the Natural World
WI – Writing Intensive

Second Bachelor’s Degrees

The second bachelor’s program is designed to meet the needs of graduates who wish to attain proficiency in another major field. To qualify for admission, students must hold a baccalaureate degree from a regionally accredited institution. A maximum of 90 transferable credits from a bachelor’s degree program from an accredited institution may be applied toward the second bachelor’s degree. The transferability of credits from a non-regionally accredited institution may be considered upon the receipt of documentation that provides course information, equivalencies, and learning outcomes. It is the student’s responsibility to provide such documentation.

In addition the student must fulfill all major requirements for the new program and must take the final 30 credit hours at Stevenson University. These 30 credits may not be met through the credit for prior learning option. To become fully acquainted with the program and its advantages, students should arrange for an appointment with the appropriate department chair or program coordinator. At that time questions regarding formal admission, academic requirements, course load, and other topics can be discussed in detail. Students should bring copies of their college transcripts to this appointment.

Students who are earning two bachelor’s degrees at Stevenson University must complete all program requirements for each degree as well as complete a minimum of 30 credits which count only toward the second bachelor’s degree. These courses may consist of program requirements and general electives (if needed). To complete the second degree, students must have earned a minimum of 130 credits.

BS/MS Degree Options

For more information on these options see the Admissions section of this catalog.

Master’s Degrees

Stevenson University currently offers the following master’s degrees through its School of Graduate and Professional Studies: a Master of Arts in Teaching, a Master of Science in Business and Technology Management, a Master of Science in Communication Studies; a Master of Science in Cyber Forensics, a Master of Science in Forensic Studies, a Master of Science in Forensic Sciences, a Master of Science in Healthcare Management, and a Master of Science in Nursing. For more information about any of these programs, check the Stevenson website at stevenson.edu or the School of Graduate and Professional Studies Catalog.

Minors

In order to enhance the university experience and assist in the development of Career Architecture, Stevenson University offers students the opportunity to structure and to pursue a minor field of study separate from and in addition to the student’s major field of study. The minors program allows students to expand their career options and professional flexibility, to develop skills to be applied to graduate or professional programs, and to pursue personal or intellectual interests. The minor option represents a significant opportunity for students to assess their needs and aspirations and to construct their own courses of study at Stevenson. All students are encouraged to consider the minor option, but students are not required to pursue or complete a minor in order to complete a degree. Students who wish to minor in a particular field or discipline can structure a minor course of study with the assistance of an academic advisor, and they must declare their intentions to the Registrar’s Office. Minors must be declared prior to the student’s final semester.

The following policies must be followed in order to be awarded a minor:

- The minor consists of at least six courses (for a minimum of 18 credit hours) in a particular discipline. For departments that offer bachelor’s degrees, these courses must come from the major program requirements within the discipline.
- These courses may be at any level, but students must meet all regular prerequisites before taking any course.
- All courses taken for a minor must be in the same discipline, and none may be a core skills requirement except by permission of the department or program in which the minor is pursued.
- For students selecting a minor in the School of the Sciences, both the lab and the lecture for the course must be taken; however, they do not count as two separate courses.
- Courses that are among the major requirements of a student at the time of graduation may not apply toward the student’s minor.
- At least nine of the total credit hours for the minor must be taken at Stevenson University.
- Students may not apply for a minor after the bachelor’s degree is awarded. Upon graduation, the student’s transcript will indicate the minor course of study that the student has completed.

Minors are currently being offered in the following fields:

- Accounting
- Art
- Biology
- Chemistry
- Criminal Justice
- Economics
- English
- Fashion Design
• Film and Moving Image
• History
• Human Services
• Information Systems
• International Business
• Legal Studies (This minor is not intended to prepare students to work as paralegals and is not approved by the American Bar Association.)
• Management
• Marketing
• Mathematics
• Philosophy
• Psychology
• Religion
• Sociology
• Theatre

For information on whether a minor is being considered in other fields, contact the appropriate department chair or program coordinator. Some departments and programs may individually decide not to offer a minor. The following departments have decided not to offer minors at the present time: biotechnology; business communication; early childhood education: liberal arts and technology; elementary education: liberal arts and technology; interdisciplinary studies; middle school education: liberal arts and technology; and nursing.

Additional Learning Opportunities

Internships

Internships are academic courses offered either as electives or requirements by the majors. Consult each program section in the Fields of Study section of this catalog for more detailed information.

Students can also explore internship opportunities through NACElink, an online employment database maintained by Career Services. The Career Services staff is available to assist students with resume and cover letter writing and interview preparation skills. All credit-bearing internships must be approved by the appropriate program coordinator, department chair, associate dean, or school dean. Students must secure an internship and register for the coordinating course prior to the semester in which they plan to complete the internship.

Study Abroad

Stevenson University offers a wide range of exciting study abroad opportunities, primarily in the January term. Students may study with Stevenson University faculty in locations such as Europe, the Caribbean, Central America, Asia, and Africa. Participation in Study Abroad requires an application process, and students need to be aware of deadlines, costs, participation requirements, and selection criteria. Students should confer with their academic advisors regarding the implications of Study Abroad on their overall academic program.

Through a special arrangement with Fairleigh Dickinson University, Stevenson University students are also able to study abroad during the fall or spring semester at Wroxton College in Oxfordshire, England. Although these students will attend Wroxton under the auspices of FDU, the credits they earn from the British faculty will count as Stevenson credits. The Wroxton campus consists of a centuries-old estate of historic significance. For students who want to spend an entire semester abroad in a beautiful and distinctive setting, the Wroxton option is most attractive.

Questions regarding Study Abroad should be directed to the Dean of the School of Humanities and Social Sciences.

Courses at Another Institution

Baltimore Student Exchange Program

Stevenson University students have the opportunity to participate in the Baltimore Student Exchange Program (BSEP), which generally allows them to enroll at other local colleges and universities without incurring additional tuition charges, though some fees may apply. The course credits and grades will be calculated into the student’s GPA as if the courses were taken at Stevenson. Students must be full-time at Stevenson and can take no more than two courses per year at another participating institution on a "space available" basis. Students who participate in the BSEP must comply with all deadlines and other regulations at the visiting institutions. Registration for BSEP courses typically occurs just prior to the start of a given semester. For the Baltimore Student Exchange Program Registration Request Form, see the Academic Affairs portal site. For additional information contact the BSEP coordinator in the Office of the Registrar.

The other colleges and universities participating in BSEP are: Baltimore Hebrew Institute at Towson University, Coppin State University, Goucher College, Loyola University MD, MD Institute College of Art, Morgan State University, Notre Dame of MD University, Peabody Institute of Johns Hopkins University, Towson University, UMBC, and University of Baltimore.

Other Institutions

After degree-seeking students have matriculated at Stevenson University, transfer of courses from other institutions requires advance approval on the form entitled Request to Take Courses at another Institution. Approval of these requests is based on clear evidence that such courses are comparable to the Stevenson University description. Approval of these requests is made by the department chair or program coordinator of the student’s major.

The following guidelines apply:
• All major requirements must be taken at Stevenson University.
• Because the curriculum is based on a special commitment to writing, all writing courses must be taken at Stevenson University.
• The last 30 credits must be taken at Stevenson University.
• Courses may not be taken elsewhere during a semester (including summer) in which they are being offered at Stevenson.

Academic Standing and Grading Information

Calculation of Class Level

An undergraduate student’s class level is determined by the number of completed credits as follows. Please note class level does not always determine the class level within a particular major.

<table>
<thead>
<tr>
<th>Class Level</th>
<th>Completed Credits</th>
<th>Class Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>0 to 26.5</td>
<td>First</td>
</tr>
<tr>
<td>Sophomore</td>
<td>27 to 54.5</td>
<td>Second</td>
</tr>
<tr>
<td>Junior</td>
<td>55 to 89.5</td>
<td>Third</td>
</tr>

Grading Scale and Grading System

In general, the grading scale in the table below serves as the basic numeric standard that faculty use in evaluating student performance. Grading systems may vary according to discipline and instructor preferences. Some grading practices recalculate “on the curve,” while others use only letter grades without assigning numeric values, and still other grading protocols may also exist. In all cases of variance from the standards below, the instructor will explain the grading system clearly on the course syllabus. When a
standard numeric scale is used, the instructor will base grades on the standard below.

The academic standing of a student is determined by the quality and quantity of his or her work. A student’s grades are based on the level of achievement in class work and by mastery demonstrated on examinations and other projects. Midterm grades are advisory; the semester grades determine actual academic standing.

Students’ final grades are posted on WebXpress at the end of the session or semester. If needed, students may obtain an official grade report by contacting the Registrar’s Office.

The grading system for undergraduate students is provided below. (The grading system used for graduate students is described in the School of Graduate and Professional Studies Catalog.)

Grade Point Average
Academic standing, graduation, and honors are based on the grade point average. To calculate the cumulative GPA, total the credit hours and then the grade points from all semesters. Divide the total grade points by the total credit hours. The grade points allotted to each letter grade are listed in the Grading System section of the catalog.

Auditing Courses
A student may audit a class if it is open for enrollment. Students may change an audit to a credit course only during the first week of class. Students may change a credit course to an audit until the last day to withdraw with a “W.” Any requests to change a course’s status must be made in writing to the Registrar’s Office. Changing a course to “audit” may have financial aid implications and will also make an athlete ineligible if the athlete is no longer full-time. Courses that are audited are the same cost as courses that are taken for credit, and no academic credit is given for an audited class. Students who change a course to audit status are expected to attend the class.

Course Withdrawal
To withdraw from a course, students must complete a Class Withdraw or Audit Form (traditional students) and submit the form to the Registrar’s Office. Students may not withdraw from courses online through WebXpress. Notice to the instructor of intent to withdraw is not sufficient. Students who stop attending and fail to officially withdraw from a class will be given a grade of "FX" which calculates as an "F." Students may withdraw from a course only during the published withdrawal dates. Students withdrawing from class during this period will have a "W" recorded on their transcript; a grade of "W" does not affect the GPA. The last date for withdrawal from a course without penalty is listed in the academic calendar for each semester. Withdrawing from a course after the published withdrawal date results in a grade of "WF." Students may not withdraw from classes during exam week.

Traditional students who withdraw from an accelerated course that is offered any time during the semester must do so during the published drop/add period. After drop/add ends, students will be able to withdraw based on the published schedule, but no refunds of tuition will be given even if the class has not started.

A student may be administratively withdrawn from the University if his/her absences in a class are excessive.

Incompletes
A grade of incomplete (I) will only be granted by written request and is subject to the approval of the faculty member and the Department Chair or Program Coordinator of the major in which the course resides. The Request for Incomplete Grade form is available in the Registrar’s Office or online on the Registrar’s Office link of the SU Now Portal. Incompletes are granted only when a student has completed a substantial portion of the course work and circumstances such as illness, death in the family, or a documented crisis situation prevent the student from completing the course by the end of the semester. A grade of incomplete must be requested prior to the end of the semester or session in which the student is taking the course. An incomplete grade that is not removed within 30 days from the end of the semester automatically converts to a grade of "F." A student must have completed at least 75% of the semester in order to be considered for an incomplete. Exceptions to this policy require special review by the Dean of the School in which the course resides.

Pass/No Credit Option
Students may take two pass/no credit courses outside of the major requirements unless otherwise stipulated by the major. Students may take only one pass/no credit course per semester for a total of two courses on the student’s transcript. A passing grade in this option equates to a “C” or better, and pass/no credit courses do not have an impact on the student’s GPA. Students may register for pass/no credit and may switch to credit no later than the published add/drop date. A change from credit to pass/no credit must also take place during the published add/drop date. The pass/no credit option encourages students to take electives for intellectual exploration. This option does not affect classes that already have departmental pass/fail or pass/no credit. Additional information is available in the Registrar’s Office

Repeating Courses
If a student repeats a course, only the latter grade is used in calculating the grade point average. However, all courses taken remain on the transcript.

Academic Probation
Any student who has attempted 9 to 18 semester hours of credit and whose grade point average falls below 1.50 is on academic probation. A student who has attempted 19 to 29 semester hours of credit and whose grade point average falls below 1.90 is on academic probation. After a student takes 30 or more credits, he or she must maintain a grade point average of 2.00 in order to be in good academic standing. All students on academic probation are required to meet with their academic advisor or a representative from the Office of Academic Support prior to the beginning of the next semester. In addition, students on academic probation are strongly encouraged to meet with their advisor or a representative from the Office of Academic Support throughout the academic year. A student may be administratively withdrawn from the University if his/her absences in a class are excessive.
their semester on academic probation. The goal of such meetings would be to monitor the student’s progress and to discuss strategies for improvement. Students on academic probation should contact the Office of Academic Support to schedule these meetings.

</table>

**Academic Suspension**

Student grades are reviewed at the end of each semester. Two consecutive semesters below the standard for good academic standing (as defined above) will result in academic suspension for a minimum of one full semester; i.e., a fall or spring term. After the semester of academic suspension, students may petition to be reinstated by submitting a letter to the Academic Review Board no later than June 1 for the fall semester and December 1 for the spring semester.

If extenuating circumstances exist, a student may appeal the suspension prior to being away from the University one full semester. (Specific deadlines and instructions for appeals are in the letter that the student receives upon suspension.) Please note that students are not automatically granted a hearing before the Academic Review Board. Students for whom an appeal is granted will come before the Board to discuss their academic status. In either of the above circumstances, the Academic Review Board may make one of the following decisions:

- The student is reinstated on continued probation and must follow specific requirements outlined in the reinstatement letter. Upon reinstatement, the student is required to earn a minimum GPA of 2.5 in the first semester of attendance after reinstatement. If this requirement is not met, the student will be dismissed.
- The student is not reinstated.

**Grade Appeals**

Information regarding grade appeals may be found on the Human Resources portal page Policy Manual, Volume V Section 3.

**Academic Awards**

The Academic Achievement List announces part-time undergraduate students who demonstrate outstanding scholastic achievement during each semester. To qualify, a student must earn a cumulative grade point average of 3.50 or better in the semester in which he or she accumulates 15, 30, 45, 60, 75, 90, 105 or 120 credits. Transfer credits are not included in this computation, and non-degree students are not eligible for this recognition.

**Dean’s List**

The Dean’s List announces full-time undergraduate students whose academic achievement is outstanding during each semester. To qualify, a student must earn a grade point average of 3.50 or better and have completed 12 or more credits that count toward degree requirements during that semester. Developmental courses are not included in this calculation. A student is not eligible for the Dean’s List while an incomplete grade is in effect.

**Who’s Who Among Students in American Colleges**

Each year, third - and fourth-year students are selected by the University for listing in Who’s Who Among Students in American Universities & Colleges. Students are selected on the basis of scholarship, participation and leadership in academic and extracurricular activities, citizenship and service.
E-Advising

E-Advising is an online tool that students and advisors use to plan the sequence of courses semester by semester. E-Advising provides a clear plan toward graduation and fosters the relationship between student and advisor even when done online. All current freshmen and sophomores are required to use E-Advising as a part of their schedule planning. Training is offered to all students, and informational videos are available on the Registrar’s Office link of the SU Now Portal.

Course Load

The normal full-time undergraduate course load is 15 to 17 credit hours per semester. Any undergraduate student who is carrying 12 or more credit hours is classified as a full-time student. A student may not register for more than 18 credit hours in any one semester without the permission of the advisor and the department chair or program coordinator. There is an additional tuition charge for credits over 18. It is strongly recommended that a student employed more than 20 hours per week only take courses on a part-time basis. Students are prohibited from taking more than 22 credits in a single semester.

A semester hour represents credit earned for one hour of class or two hours of laboratory work during each week of one semester for 15 weeks. Thus, a student who does satisfactory work in a class that meets three times a week for one semester receives three credits for that class. In certain courses, three or more periods of laboratory, clinical, fieldwork, or internship are equivalent to one lecture period. Although the format is different, online courses carry the same level of expectation regarding class requirements.

Non-Credit Courses

The University offers non-credit developmental courses that provide support for basic skills. If, as a result of placement testing, a student is required to complete such a course, the course will be considered equivalent to three credits when determining fees and course credit load. However, no credit is applied toward the degree requirements.

Course Add/Drop

Students may add or drop classes only during the published add/drop period. Course changes during the add/drop period will not be reflected on the student’s transcript.

Attendance

Each student is responsible for his or her own class attendance, and regular attendance is expected. Every student is responsible for the material covered or the skills exercised during scheduled classes. Grades will be based on demonstrated achievement of the objectives of the course, not on attendance in class as such. Although attendance alone does not determine grades, students should be aware that grades may depend on class activities, experiments, discussions, or quizzes for which consistent attendance is necessary. Students who stop attending and fail to officially withdraw from a class will be given a grade of "FX" which calculates as an "F."

Athletic Department Class Conflict Information

Stevenson would like to provide the best education possible for those individuals who have chosen to represent the University in intercollegiate athletic participation. Student athletes will, on occasion, have varsity athletic conference National Collegiate Athletic Association (NCAA) games scheduled at times which conflict with regularly scheduled academic classes. Student athletes should keep in mind their athletic schedules when registering for classes each semester. The NCAA Compliance Officer issues the Stevenson University Athletics Department Class Conflict Confirmation Form each semester to validated student-athletes participating in their NCAA traditional season. The Class Conflict Confirmation Form outlines comprehensive information on student-athlete, faculty, and athletic department staff responsibilities. If a student athlete or faculty member has any questions regarding the form or is in need of further information, please contact the Athletic Department office manager at 443-352-4251.

Final Examinations

All students are required to take final examinations. If a student misses an examination because of an emergency or illness, the student must contact the faculty member as soon as possible. If the student cannot reach the faculty member, the student should contact the Office of Academic Support. The faculty member will work with the student to provide an opportunity for the student to take the examination at a rescheduled time. At that point, the student should contact The Academic Link to reschedule the examination. Students will not be permitted to reschedule for reasons other than documented emergencies or illness. Students who are scheduled to take three or more exams in one day should contact the Registrar’s Office regarding rescheduling an exam.

Leave of Absence

A degree-seeking student who finds it necessary to cease enrollment at the University (for one or more consecutive semesters with the intent of resuming studies at a later date) must complete the leave of absence section of the Withdrawal from the University form that is available in the Registrar’s Office and on the Registrar’s Office portal page under the "Forms" tab. The student should meet with a representative of the Academic Support office to complete this form. This request will ensure that the student will not need to reapply for admission when he or she returns. This leave of absence is effective for two consecutive semesters. A student who is on leave of absence for three or more consecutive semesters must reapply for admission.

Withdrawal from the University

A degree-seeking student who wishes to withdraw from the University must do so in writing. The official Withdrawal from University form is available on the Registrar’s Office portal page under the "Forms" tab. A student may be administratively withdrawn from the University if his/her absences in a class are excessive.

FERPA: Notice to Students

The Family Educational Rights and Privacy Act of 1974 (FERPA) Stevenson University complies with the provisions of the Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) and any subsequent amendments or regulations. In accordance with FERPA, Stevenson University students have the right to inspect and review information in their official University records. The Registrar coordinates the inspection and review procedures for student educational records. Students wishing to review their records must present a written request to the Registrar, listing the item or items of interest, and must present their Student I.D. at the time of the request. The Registrar will grant access within a reasonable period of time but not later than 45 days after the request is made. Please contact the Registrar’s Office at 443-334-2206 for additional information about FERPA.

Academic Integrity

Stevenson University expects all members of its community to behave with integrity. Honesty and integrity provide the clearest path to knowledge, understanding, and truth – the highest goals of
an academic institution. For students, integrity is fundamental to the development of intellect, character, and the personal and professional ethics that will govern their lives and shape their careers.

The University reserves the right to administratively suspend, dismiss, or expel a student for reasons of conduct detrimental to the spirit and operation of the University.

For the complete policies regarding academic integrity and misconduct, please see the Stevenson University Policy Manual, Volume V: Student Policies, which is available on the SU portal site and website.

### Graduation Information

To qualify for graduation, students must meet all University and departmental requirements as stated in the University catalog. Students must fulfill catalog requirements in effect at the time of matriculation; however, students may elect to move to a later catalog year. Students may not split requirements from multiple catalog years. It is the responsibility of the student to fulfill all requirements for graduation. Careful consultation with an academic advisor is strongly encouraged.

Degrees are conferred in May, August, or December. Participation in a commencement ceremony does not confer a degree. Diplomas and final transcripts may be withheld for any student with unresolved financial obligations or non-compliance with federal financial aid regulations.

The academic record of anyone receiving a degree is closed three months after the end of the semester. Any changes to the academic record must be made by this date.

**Graduation Application**

Graduating students are required to file an Application for Graduation. The application must be filed with the Registrar’s Office according to published deadlines. At the time of application, a $25 fee is charged.

- December graduates must file by August 1.
- May and August graduates must file by January 1.

Failure to apply by the published deadlines may delay the evaluation and awarding of a student’s degree. Students may apply online via WebXpress or complete the Application for Graduation Form available on the Registrar’s Office portal page under the tab "Forms."

**Graduation Ceremonies**

Scheduled commencement ceremonies are held in May and December. Spring and summer graduates are invited to participate in the commencement ceremony in May. Fall graduates are invited to participate in the commencement ceremony in December. Summer graduates should be within six credits of degree completion prior to the start of the summer term to be eligible to participate in the May commencement.

**Graduation with Academic Honors**

Graduation honors are conferred upon those undergraduate students who achieve the following cumulative grade point average based on work done at Stevenson University.

- **Summa Cum Laude** 3.90–4.00
- **Magna Cum Laude** 3.70–3.89
- **Cum Laude** 3.50–3.69

Honors are not awarded for graduate degrees.

### University Awards for Graduating Seniors

(Note: All University awards are presented at Commencement.)

**Dean’s Award for Exceptional Scholarship**

The Dean’s Award for Exceptional Scholarship is conferred from time to time on one graduating student who has performed academically in a particularly exceptional way, has demonstrated unique intellectual ability and initiative, and has contributed to the academic pursuits of his or her peers. This award may be presented to one student at May and December graduation.

**Marion and Henry J. Knott Achievement Award**

The Marion and Henry J. Knott Achievement Award is presented to one graduating student who has demonstrated the ability to achieve academically, to reach out to the needs of others at the University, and to persevere toward a goal while also managing major primary responsibilities outside Stevenson University life. This award may be presented to one student at May and December graduation.

**Elizabeth McWethy Award**

The Elizabeth McWethy Award is bestowed from time to time upon one student who has demonstrated exceptional creativity, manifested genuine concern for society, and has actively influenced the lives of others. This award may be presented to one student at May and December graduation.

**John Mitchell Award**

The John Mitchell Award is presented to one student who has demonstrated outstanding service to his or her community in a way that exemplifies the values of Stevenson University’s mission. This award may be presented to one student at May and December graduation.

**Outstanding Part-Time Student Award**

The Outstanding Part-time Student Award is conferred on a graduating part-time student who has demonstrated commitment to higher education, the determination to succeed, a high standard of academic achievement, and who has contributed in a tangible manner to the University while balancing many other personal and professional obligations. This award may be presented to one student at May and December graduation.

**President’s Award for Scholarly and Creative Achievement**

The President’s Award for Scholarly and Creative Achievement is conferred from time to time on a graduating student whose total performance has been marked in a striking fashion by singular creativity and by the depth of his or her intellectual interest and performance in all subject areas. This award may be presented to one student at May and December graduation.

**Dorothy Stang Award**

The Dorothy Stang Award is conferred upon a graduating senior who best exemplifies devotion to the good of the wider community as reflected in the life of Dorothy Stang, a member of the Sisters of Notre Dame de Namur, the founders of Stevenson University. Stang’s commitment to bringing social justice to the underprivileged in Brazil led to her murder. The award honors integrity, courage in the face of adversity, and a willingness to act on convictions without regard to consequence. Embodying the most cherished values that an education from Stevenson University instills in its students, the recipient of the Stang Award reaches out to members of the community who have financial, spiritual, social, or cultural needs. Our recipient is a “reflective and accomplished individual committed to a lifetime of learning and contribution” (Stevenson University Mission Statement).
The SU Pin Award is the most comprehensive honor the University confers on one graduating student whose total personal performance is meritorious, including academic achievement, independence and integrity of thought and action, reliability, respect for others, and involvement in University or community affairs. This award may be presented to one student at May and December graduation.

**Orsia F. Young Leadership Award**

The Orsia F. Young Leadership Award is given to graduating students who have performed in an outstanding manner as leaders in the University community, initiated action, motivated others to do so, and been agents for positive change in the University. This award may be conferred on as many as six students at May and December graduation.

### Awards

Some, but not all academic departments and schools of the University present awards for academic achievement to students majoring in their disciplines. These awards include the following:

**Brown School of Business and Leadership Awards**

**Accounting Departmental Awards**

The Manisha Patel Book Award is awarded each year to the third-year accounting student who has manifested the most significant change in commitment to the study of accounting. This award is funded by the Accounting Association.

The Maryland Association of Certified Public Accountants Outstanding Achievement in Accounting (MACPA) Award is presented each year to a junior or senior accounting major who has a minimum 3.00 overall GPA, with a minimum of 3.25 GPA in accounting, and demonstrates leadership skills and involvement in campus, community, and professional activities. The MACPA is the statewide professional association serving over 10,000 CPAs. This award signifies MACPA’s commitment to, and support of, accounting education.

**Information Systems Departmental Awards**

The Information Systems Outstanding Student Awards are presented to outstanding students in all tracks.

**Legal Studies Departmental Awards**

The Delmar Legal Studies Award is presented annually to two students who demonstrate superior oral and written communications skills in paralegal studies.

**School of Design Awards**

**Visual Communication Design Department Awards**

The Award for Outstanding Contributions to the Visual Communication Design Program has been established to recognize a student who has contributed to the visual communication design program by contributing time, energy and support to faculty and other students when needed, who has consistently led by example, and who has regularly helped others by offering advice, support, encouragement, and assistance. The recipient of this award is selected by vote of the students in the program.

The Visual Communication Design Department Achievement Award recognizes a visual communication design student who has exhibited significant growth and development throughout his or her course of study, through dedication and hard work, and who has achieved confidence and maturity in meeting challenges related to the field. The recipient of this award is selected by vote of the advanced design faculty.

The Visual Communication Design Department Award for Excellence has been established to recognize an outstanding visual communication design student who has exhibited exceptional design and creative problem-solving abilities, effective communication skills, outstanding overall academic performance, and who has consistently embraced challenges and cultivated multidisciplinary skills (such as technological competency, confidence in presenting, and risk-taking independence) that are vital to the success of any designer. The recipient of this award is selected by vote of the faculty.

**School of Education Awards**

Students in the education programs are nominated for the following awards from professional associations.

**Teachers of Promise** awarded by the Maryland State Department of Education is a student-to-teacher transition program that recognizes teacher candidates who exhibit exceptional performance during their Internship.

The Maryland Association of Teacher Educators Award for Distinguished Teacher Candidates has been established to recognize and honor those teacher candidates whose work in a clinical environment shows a commitment to student learning and practice of reflective, responsive teaching. Teacher candidates who are completing the internship are eligible for nomination.

**School of Humanities and Social Science Awards**

**Human Services Professional Developmental Award**

The Human Services Professional Development Award is presented annually to two students who demonstrate academic excellence and a strong commitment to the field of human services. The recipients, accompanied by a faculty member, attend a national conference for professionals in human services. Upon their return, they disseminate information about their experience to the Stevenson community.

**Sigma Xi: The Scientific Research Society**—Sigma Xi is an international, multidisciplinary society that promotes the health of the scientific enterprise, rewards excellence in scientific research and encourages a sense of cooperation among scientists in all fields. Each May election to this international honor society is conferred upon students majoring in the sciences and mathematics who have excelled in conducting independent research and in communicating the results of their work, and who show great potential for a future in research.

**School of the Sciences Awards**

The Joseph A. Brusini Excellence in Science Award was established in 2001 by Dr. Joseph A. Brusini, who served as chair of the Villa Julie College Science Division for 20 years. It is given each May to the graduating senior who has best demonstrated exemplary work in the capstone course and shown great promise for success in the sciences.

**Sigma Xi: The Scientific Research Society**—Sigma Xi is an international, multidisciplinary society that promotes the health of the scientific enterprise, rewards excellence in scientific research and encourages a sense of cooperation among scientists in all fields. Each May election to this international honor society is conferred upon students majoring in the sciences and mathematics who have excelled in conducting independent research and in communicating the results of their work, and who show great potential for a future in research.

**Biological Sciences Departmental Awards**

The Department of Biological Sciences Award for Academic Excellence is given each May to the graduating senior in biology, biotechnology, environmental science, or medical technology who has earned the highest cumulative grade point average at the University’s highest honors level (overall GPA 3.9-4.0). The Department of Biological Sciences Service Award is given each May to the graduating senior in biology, biotechnology, environmental science, or medical technology who has made significant, sustained contributions to the department and to the school.

The American Society for Clinical Pathology established this honor award to recognize those students in the laboratory professions who demonstrate both academic excellence and a commitment to community service and leadership activities.
Through this award, ASCP wishes to acknowledge future laboratory professionals and to make others aware of the contributions of laboratorians.

The Capital Section of the American Association of Clinical Chemistry Clinical Chemistry Student of the Year Award is chosen by the medical technology faculty and awarded to a graduating medical technology student, based on academic excellence and achievement in clinical chemistry. The award is a one-year membership in the AACC organization.

The Excellence in Medical Technology Award is given to the graduating medical technology student who has exemplified outstanding achievement, professionalism, and leadership in the clinical laboratory sciences.

Chemistry Departmental Awards

The Department of Chemistry Award for Academic Excellence is given each May to the graduating senior in biochemistry or chemistry who has earned the highest cumulative grade point average at the University’s highest honors level (overall GPA 3.9-4.0).

The Department of Chemistry Service Award is given each May to the graduating senior in biochemistry or chemistry who has made significant, sustained contributions to the department and to the school.

The American Chemical Society Maryland Section Student Award from Stevenson University is presented each May to the graduating chemistry major who has best demonstrated overall academic excellence in upper-level chemistry courses and laboratory experiences and has been active in departmental activities and projects. The recipient is recognized by both Stevenson University and the Maryland Section of the American Chemical Society.

Mathematics and Physical Sciences Departmental Awards

The Department of Mathematics and Physical Sciences Award for Academic Excellence is given each May to the graduating senior in applied mathematics who has earned the highest cumulative grade point average at the University’s highest honors level (overall GPA 3.9-4.0).

The Department of Mathematics Service Award is given each May to the graduating senior in applied mathematics who has made significant, sustained contributions to the department and to the school.

Nursing Departmental Awards

The Department of Nursing Award for Academic Excellence is given each May to the graduating senior in nursing who has earned the highest cumulative grade point average.

The Department of Nursing Service Award is given each May to the graduating senior in nursing who has made significant, sustained contributions to the department and to the school.

The Sharon Anne Dwyer Award for Excellence in Clinical Practice is presented to the graduating senior in nursing who has demonstrated excellence in both the art and science of nursing and whose care of patients and families is characterized by creativity, insight, compassion, and accountability.

The Judith A. Feustle Award is presented to the graduating senior in nursing who best exemplifies the holistic practice of nursing through excellence in clinical care, critical thinking, leadership, and professionalism.

The Catherine Nugent Award is given to the student in the traditional nursing program who has demonstrated outstanding performance in clinical nursing courses. Faculty members decide which student has met the criteria which include therapeutic communication skills with patients, families, colleagues; evidence of critical thinking; evidence of integration of prior knowledge; evidence of manual skills and safe clinical practice; and evidence of leadership among peers.

The Megan Sheridan Award is given in memory of Megan Sheridan to the graduating senior in nursing whose vision and insight into the practice of professional nursing reflects exceptional sensitivity to the unique characteristics and needs of each patient and family entrusted to the nursing student’s care.

The R.O.S.E. Award (Recognition of Student Excellence) was initially presented by the first graduating class in May 1994 to recognize student excellence. This award is presented by the graduating class in nursing to the member of that class who best exemplifies the qualities of peer support and guidance with gratitude from your fellow students.

School of Graduate and Professional Studies Awards

RN/BS Departmental Awards

The Judith A. Feustle Award is presented to the RN/BS graduate who best exemplifies the holistic practice of nursing through excellence in clinical care, critical thinking, leadership and professionalism.

The Award for Creativity in Professional Development is presented to the RN/BS graduate who best exemplifies creativity in meeting the goals of the course of study; consistently demonstrating creativity beyond the expectations of the course objectives and using additional resources to promote creativity in problem-solving, professional development and excellence in patient care.

The recipient of the Persistence in Achievement Award best exemplifies determination and persistence in completing the RN/BS course of study. This graduate has encountered many obstacles to forward movement but has overcome them with academic integrity and social grace. The recipient has used personal strength and the support of peers and faculty to succeed.

The Professional Advancement Award is given to RN/BS graduates who exemplify enhanced practice and professionalism – taking advantage of opportunities to grow personally and professionally. As novice scholars starting the program, they have become shining stars with great potential for the future.

The Professionalism in Practice and Scholarship Award is presented to the RNBS graduate who exemplifies professionalism in their course learning activities and in their nursing practice. This person demonstrates cooperation, accountability, intellectual curiosity, and informal leadership in academic activities. Class dialogues reveal the attributes of compassion, clinical competence, and ethical conduct in patient care activities.
Fields of Study

Accounting

Brown School of Business and Leadership
Department of Accounting, Economics, and Finance
Program Coordinator: Jeffrey L. Hillard, CMA, CPA, DM

Accounting Program Description

The accounting program is designed to provide accounting major graduates with the knowledge required to become successful in today’s multi-faceted business world. The program combines accounting courses with information technology and functional activities of business, government, and not-for-profit organizations, while providing students with an understanding of contemporary work environments, issues, and challenges.

Emphasis is placed on financial accounting at the intermediate level, international accounting, cost accounting, tax accounting, auditing, and business law. The capstone course requires a synthesis of knowledge using a business strategy approach. The accounting curriculum satisfies all requirements for graduates to take the Certified Public Accounting examination in Maryland. In addition to passing the CPA exam, the state of Maryland requires applicants for licensing to acquire a total of 150 credit hours of coursework. Several options are available to help students fulfill the additional 30 credit hours of coursework.

Accounting Program Outcomes

Upon completion of the Bachelor of Science in Accounting, graduates will be able to:

1. Articulate accurately and coherently the relevant technical knowledge of accounting and related disciplines needed to enter the accounting profession.
2. Explain the ethical standards of the accounting profession, articulate a framework for these standards, and apply them thoughtfully and competently to a variety of business and accounting contexts.
3. Solve problems by synthesizing discipline specific knowledge and critical thinking skills.
4. Demonstrate the appropriate communication skills necessary for accounting professionals.

Accounting Program Policies

Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a “C” in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of “C” or better in the prerequisite course(s). When a grade below “C” is earned in a major course, the student must repeat that course. A course may be repeated once without the special permission of the department chair. Accounting majors who do not successfully complete a major course with a grade of “C” or better after a second attempt will not be allowed to continue in the accounting program.

Students required to take developmental courses must complete those courses before enrolling in ACC 140. Transfer students must complete a minimum of seven accounting major courses at Stevenson University to earn a degree in accounting.

Accounting Program Requirements

The courses listed below are required for completion of the bachelor’s degree in accounting. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

Major Requirements:

- SBL 100 School of Business New Student Seminar
- ACC 140 Financial Accounting
- ACC 141 Managerial Accounting
- ACC 201 Intermediate Accounting I
- ACC 202 Intermediate Accounting II
- ACC 301 Intermediate Accounting III
- ACC 303 Cost and Managerial Accounting
- ACC 401 Auditing and Attestation
- ACC 405 International Accounting
- ACC 411 Tax Accounting: Individual
- ACC 412 Tax Accounting: Corporation and Partnership
- ACC 415 Capstone in Accounting: Business Policy
- CM 101 Public Speaking
- EC 201 Principles of Economics: Macroeconomics
- EC 202 Principles of Economics: Microeconomics
- FIN 402 Foundations of Finance
- IS 134 MS Windows and Office Applications
- IS 135 Advanced MS Office Applications
- IS 150 or Relational Database Design & SQL with MS Access or IS 201 or Management Information Systems or IS 260 Presentation Theory and Application
- LAW 308 Business Law & Legal Responsibilities I
- LAW 309 Business Law & Legal Responsibilities II
- MATH 210 Statistics & Probability
- MGT 204 Principles of Management
- MGT 210 Business Writing
- MKT 206 Principles of Marketing
- PHIL 416 Business Ethics

Two accounting electives selected from the following:

- ACC 302 Advanced Accounting
- ACC 304 Governmental and Not-for-Profit Accounting
- ACC 311 Computer Applications in Accounting

Accounting Other Options

Minor:

A minor in accounting is available. All course prerequisites must be met to be eligible to take the selected course for a minor. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.

BS/MS Option:

The BS/MS option is available for students majoring in accounting who wish to combine their bachelor’s coursework...
with work toward a master’s degree in one of Stevenson’s graduate programs. By completing a BS/MS option, students will earn the 150 credit hours necessary for CPA licensing while also earning both a bachelor’s and a master’s degree in as few as five years. Interested students must formally apply for entrance into a BS/MS option in their junior year. Once admitted into this program, students develop an educational plan in consultation with their undergraduate and graduate advisors. For more information on this program, see the School of Graduate and Professional Studies Catalog.

Accounting Course Descriptions

**ACC 140 Financial Accounting**
4 credits, Fall and Spring
Introduces students to financial accounting, a system which provides information for decision makers external to the business entity, primarily by means of general-purpose financial statements. Topics include the elements of financial statements, the application of accounting theory and generally accepted accounting principles, accounting for manufacturing firms, cost systems, inventory, segment reporting, profit planning, budgeting, and performance measurement.

**Prerequisite(s):** A grade of "C" or better in ACC 201

**ACC 141 Managerial Accounting**
4 credits, Fall and Spring
Introduces students to managerial accounting. Students learn how to prepare and use financial information to make internal decisions. Topics include managerial accounting concepts, accounting for manufacturing firms, cost systems, standard costs, segment reporting, profit planning, budgeting, and performance measurement.

**Prerequisite(s):** A grade of "C" or better in ACC 140

**ACC 201 Intermediate Accounting I**
4 credits, Fall and Spring
Expands the fundamental accounting principles in which the emphasis on theory of accounts is maintained throughout the course. Concentration is on the analysis of financial statements, present value analysis, cash and cash flows, receivables, and inventory. Pronouncements of Financial Accounting Standards Board (generally accepted accounting principles) are an integral part of the course. This course meets 5 hours per week.

**Prerequisite(s):** A grade of "C" or better in ACC 141

**ACC 202 Intermediate Accounting II**
4 credits, Fall and Spring
Continues the expansion of fundamental accounting principles in which the emphasis on the theory of accounts is maintained throughout the course. Concentration is on plant and equipment, intangibles, current liabilities, long-term debt, and shareholders’ equity. Pronouncements of Financial Accounting Standards Board (generally accepted accounting principles) are an integral part of the course. This course meets 5 hours per week.

**Prerequisite(s):** A grade of "C" or better in ACC 201

**ACC 215 Survey of Accounting**
3 credits, Fall and Spring
Explains, in an abbreviated format, financial accounting for those majors whose curriculum is not based on the financial aspects of business. This course provides an overview of the accounting process through the examination of the purchase/payments and sales/collections cycles of a business. It will also provide an introduction to the debt and equity instruments used in financing business. **Restricted to non-accounting and non-business administration majors.**

**Prerequisite(s):** Sophomore standing or higher

**ACC 301 Intermediate Accounting III**
4 credits, Fall and Spring
Expands financial accounting principles with the study of financial statement analysis. This course emphasizes dilutive securities, earnings per share, temporary and long-term investments, revenue recognition principles, pensions, and leases. Also included are considerations of accounting changes and error analysis, full disclosure in financial accounting, and derivatives. Pronouncements of the Financial Accounting Standards Board (generally accepted accounting principles) are an integral part of the course. This course meets five hours per week.

**Prerequisite(s):** MGT 210, IS 135, and a grade of "C" or better in ACC 202

**ACC 302 Advanced Accounting**
3 credits, Spring
Studies advanced financial accounting issues including business combinations and consolidations with preparation of consolidated financial statements. Other topics included in the course are accounting for partnerships, segment disclosures, and debt restructuring.

**Prerequisite(s):** ACC 301

**ACC 303 Cost and Managerial Accounting**
3 credits, Spring
Studies cost flows and concepts using a strategic emphasis. Included in this course are cost behaviors, cost-volume-profit relationships, and job costing. Also included in this course are fundamental budgeting concepts applied for planning and control and cost information for decision and control purposes: product profitability decisions, management and control systems, and capital budgeting.

**Prerequisite(s):** A grade of "C" or better in ACC 201

**ACC 304 Governmental and Not-for-Profit Accounting**
3 credits, Spring
Studies fund accounting for governments and not-for-profit organizations and compliance auditing applicable to governmental entities.

**Prerequisite(s):** A grade of "C" or better in ACC 201

**ACC 311 Computer Applications in Accounting**
3 credits, Fall
Examines the use of accounting systems. This course provides information and experience in the use of computers in accounting and includes work with integrated accounting software.

**Prerequisite(s):** A grade of "C" or better in IS 135 and ACC 201

**ACC 401 Auditing and Attestation**
4 credits, Fall
Studies the concepts and theory of generally accepted auditing standards, standards for accounting and review services, and standards for attestation engagements. Emphasis is placed on developing the required skills to audit and issue a professional opinion on the financial statements issued by management of a public or private enterprise.

**Prerequisite(s):** A grade of "C" or better in ACC 301

**ACC 405 International Accounting**
3 credits, Fall
Introduces the major financial reporting issues faced by companies involved in international business as well as those issues involved in the analysis of foreign company financial statements. The course will examine the diverse cultures found in multinational companies and prepare students for the accounting of companies operating in global environments.

**Prerequisite(s):** A grade of "C" or better in ACC 301
ACC 411 Tax Accounting: Individual  
3 credits, Fall  
Examines the federal tax systems, emphasizing sources of taxable income and allowable deductions used in calculating taxable income and the mandated tax liability. Students use a variety of tax resources to prepare individual tax returns, to identify tax planning opportunities, and to research and document more complex tax issues and transactions.  
**Prerequisite(s):** A grade of "C" or better in ACC 201

ACC 412 Tax Accounting: Corporation and Partnership  
3 credits, Spring  
Examines advanced tax topics including business entities, exempt organizations, and estates and trusts. Students enhance skills in compilation, planning, and research through problems and cases which highlight business formation, operations, and earnings distribution. Discussions include strategies for minimizing the tax liability for entities as well as the business owners.  
**Prerequisite(s):** A grade of "C" or better in ACC 411

ACC 415 Capstone in Accounting: Business Policy  
3 credits, Spring  
Synthesizes business, economics, finance, and accounting topics through a business strategy approach. Also discussed are global and ethical issues. Cases and business simulations require group interaction and enable students to demonstrate research, application, and written and oral communication skills.  
**Prerequisite(s):** All accounting major requirements must be fulfilled prior to taking this course. One required course may be taken concurrently.

ACC 417 Accounting Internship  
3 - 15 credits, Fall and Spring  
Offers accounting majors the opportunity for extensive practical accounting experience in an accounting firm. Students will work in a firm while receiving academic credit. In addition, students will attend eight bi-weekly, three-hour classes. See an accounting advisor for specific details.  
**Prerequisite(s):** A grade of "C" or better in ACC 301, accounting GPA of 3.25, recommendation from accounting faculty member

---

**Anthropology**

School of Humanities and Social Sciences  
Stevenson University does not currently offer a bachelor’s degree in anthropology; however, students interested in pursuing this field of study may do so through the flexible major offered in interdisciplinary studies. Students who wish to develop an anthropology focus should consult the program coordinator of interdisciplinary studies for more information. Course descriptions for anthropology are listed in this section.

**Anthropology Course Descriptions**

**ANTH 201 Introduction to Cultural Anthropology**  
3 credits, Fall or Spring (offered as needed)  
Introduces basic concepts, methods, and theories of cultural anthropology. Cross-cultural examination of topics includes subsistence and economics, socialization and personality, kinship and family organizations, politics and social control, religion, language and expressive arts, and culture change.  
**Prerequisite(s):** ENG-152 (may be taken concurrently)

**ANTH 301 Topics in Anthropology**  
3 credits, Fall or Spring (offered as needed)  
Provides opportunities for advanced students to examine topics of interest through supervised reading, research, and discussion. Semester themes might include evolution of humankind, food and society, environmental anthropology, and culture and conduct. Topics are announced each semester. This course may be repeated for credit if topics are different.  
**Prerequisite(s):** A grade of "C" or better in ENG 152 and third year status

**ANTH 325 Folklore in Modern American Life**  
3 credits, Fall or Spring (offered as needed)  
Examines folklore as part of expressive culture within modern American life. Students collect and analyze different categories, including some of the following: jokes, games, material arts, folk songs, personal narratives, legends, and festivals. Readings include articles on the study of folklore, collections of folklore, and analyses representing interdisciplinary perspectives.  
**Prerequisite(s):** A grade of "C" or better in ENG 152 and third-year status

**ANTH 360 Anthropology of Childhood**  
3 credits, Spring (offered as needed)  
Reviews changes in Western views of children and childhood and examines ways in which different cultural practices influence the experience of childhood. Topics may include the following: beliefs about the development of children and learning, the nature of enculturation and education in selected cultures of the world, the norms of gender identity, and current issues of interest regarding adolescence. Readings may include ethnographies, international organizational reports, and research articles by anthropologists and others.  
**Prerequisite(s):** A grade of "C" or better in ENG 152 and third-year status

**ANTH 365 Culture Area Studies**  
3 credits, Fall (offered as needed)  
Introduces other ways of knowing and doing, highlighting one geographic culture area (or a set of cultures within one area). Students examine culture and society through supervised reading, independent research, and discussion. Suggested areas include Japan (i.e., “Culture and Society of Contemporary Japan”), cross-cultural study of Sub-Saharan Africa, and Native American Peoples. This course may be repeated for credit if content differs.  
**Prerequisite(s):** A grade of "C" or better in ENG 152 and third year status

---

**Applied Mathematics**

School of the Sciences  
Department of Mathematics and Physical Sciences  
Associate Dean and Chair: Ellen Roskes, Ph.D.

**Applied Mathematics Program Description**

The applied mathematics major provides students with an array of courses that build math skills. Students graduate with a solid background in mathematics and statistics and with the ability to use data to solve problems in various disciplines. The critical thinking and analysis skills make applied mathematics majors highly employable in government, the private sector, and education.

In addition to the required mathematics courses, each student in the major will complete an interdisciplinary course in another discipline, with at least two courses at the 300-400 level. This course work allows students to apply their mathematical knowledge to other disciplines. Suggested disciplines include courses related to actuarial science, biology, business, chemistry, economics, education, information systems and social sciences.

Each student in the major will also complete a senior capstone course, choosing either a research option or an internship option. Both options will enable students to apply their mathematical skills in the professional mathematics culture or to a discipline related to their interest.
Applied Mathematics Program Outcomes

Upon completion of the Bachelor of Science in Applied Mathematics, graduates will be able to:

1. Demonstrate effective problem solving using techniques from calculus, differential equations, linear algebra, and probability and statistics.
2. Construct, analyze, and interpret mathematical and statistical models.
3. Use appropriate technology and software for problem solving and for mathematical and statistical modeling.
4. Use appropriate mathematical and/or statistical reasoning, logic, and mathematical proof to support and justify results.
5. Engage in applied and open-ended problem solving both individually and collaboratively.
6. Communicate mathematical and/or statistical reasoning clearly in both written and oral formats.
7. Use, summarize, and analyze print and online mathematical and/or statistical resources.
8. Apply mathematical and/or statistical skills to a particular focus area or within the professional mathematics culture.

Applied Mathematics Program Policies

Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to take a science or math course unless he/she earns a grade of "C" or better in all prerequisite courses.

A student may not earn a grade of "C-" or lower in any science or math course more than three times during the program. If a fourth grade of "C-" or lower is earned in any science or math course, the student will be automatically dismissed from the applied mathematics major.

Probation: The student who earns any combination of two grades of "C-" or lower in a science or math course will be notified, in writing, by the department chair that he or she is on probation in the School of the Sciences.

Final Probation: The student who earns any combination of three grades of "C-" or lower in a science or math course will be notified, in writing, by the department chair that he or she is on final probation in the School of the Sciences.

Dismissal: If a fourth grade of "C-" or lower in any science or math course is earned, the student will be notified, in writing, by the department chair that he or she has been dismissed from the major.

Applied Mathematics Program Requirements

The courses listed below are required for completion of the bachelor’s degree in applied mathematics. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

Major Requirements:

- SCI 100: School of the Sciences New Student Seminar
- MATH 220: Calculus I
- MATH 221: Calculus II
- MATH 222: Calculus III
- MATH 312: Mathematical Statistics I
- MATH 313: Mathematical Statistics II
- MATH 321: Introduction to Differential Equations
- MATH 326: Linear Algebra
- MATH 418: Mathematical Modeling
- PHIL 415: Professional Ethics
- PHYS 215: General Physics I with Calculus
- PHYS 216: General Physics II with Calculus

Complete one of the following senior capstone options:
- MATH 450: Senior Research Capstone
- MATH 455: Senior Internship Capstone
- MATH 460**: Senior Research Capstone
- MATH 460H**: Honors Senior Research Capstone
- MATH 465**: Senior Internship Capstone
- MATH 465H**: Honors Senior Internship Capstone

**Students choosing one of the 9-credit senior capstone options can take one less upper level mathematics elective.

Complete five additional MATH courses at the 200-level or above, with at least three at the 300-400 level.

Complete five courses from another discipline(s), with at least two at the 300-400 level, chosen in consultation with the advisor.

Applied Mathematics Other Options

Minor:

A minor in applied mathematics is available. All course prerequisites must be met to be eligible to take the selected course for a minor. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.

BS/MS option:

The BS/MS option is available for students majoring in applied mathematics who wish to combine their bachelor’s coursework with work toward a Stevenson University master’s degree in forensic studies. Students choosing this option may earn their master’s degree in as little as one year after their bachelor’s degree. Interested students must formally apply for entrance into this BS/MS option in their junior year. Once admitted into this program, students develop an educational plan in consultation with their undergraduate and graduate advisors. For more information on this program see the School of Graduate and Professional Studies Catalog and Additional Enrollment Options in the Admissions section of this catalog.

BS/MAT option:

The BS/MAT option is available for students majoring in applied mathematics who wish to combine their bachelor’s coursework with work toward a Stevenson University master’s degree in teaching. Please see the School of Graduate and Professional Studies Catalog and Additional Enrollment Options in the Admissions section of this catalog for more information.

Applied Mathematics Course Descriptions

MATH 108 Introduction to Mathematical Reasoning
3 credits, Fall and Spring
Surveys applications of various fields of mathematics to everyday life. Topics to be covered include calculation, measurement, and number sense; recognition and interpretation of growth patterns; mathematics in financial decisions; elementary statistics and probability and their uses in decision-making; and other applications.

Prerequisite(s): A grade of "C" or better in DEVM 105# or by placement

MATH 121 College Algebra with Applications
4 credits, Fall and Spring
Introduces the student to solution techniques for equations and inequalities, properties of functions, properties of polynomial rational, exponential and logarithmic functions, and systems of equations. Course activities emphasize applying acquired algebraic problem solving techniques and reasoning to real-world
and discipline-specific problems. A TI-83, TI-83 Plus or TI-84 calculator is required for the course.

**Prerequisite(s):** A grade of "C" or better in DEVM 105#, or by placement

**MATH 125 Precalculus**  
4 credits, Fall and Spring  
Prepares topics of algebra and trigonometry within the framework of algebraic and graphical solutions, as a preparation for calculus. Content is presented with real-data applications and with integrated technology. Topics covered include equations and inequalities, algebraic and trigonometric functions, vectors, systems of equations, sequences, and series. A TI-83, TI-83 Plus or TI-84 calculator is required for the course.

**Prerequisite(s):** A grade of "C" or better in MATH 121, or by placement

**MATH 132 Mathematics for Teachers**  
4 credits, Spring  
Explores a variety of mathematical topics needed by prospective early childhood and elementary school teachers. Topics include sets, numeration systems, whole numbers, integers, number theory, rational numbers, ratio, proportion, percent, geometry, tessellations, measurement, coordinate geometry, and problem solving. **Restricted to education majors.**

**Prerequisite(s):** A grade of "C" or better in DEVM 105#, or placement into MATH 121 or higher

**MATH 140 Basic Statistics**  
4 credits, Fall and Spring  
Introduces the student to basic data analysis. Methods include data collection and packaging, discriminating between valid and invalid uses of statistics, and elementary methods for decision making. Topics include measures of central tendency and dispersion, elementary probability, probability distributions, interval estimates of parameters, hypotheses testing, correlation, and regression. Course activities include elementary applications of statistics to a variety of disciplines. A TI-83, TI-83 Plus, or TI-84 calculator is required for the course. Credit will not be granted for more than one of the following statistics courses: MATH 140, MATH 210, and MATH 235.

**Prerequisite(s):** A grade of "C" or better in DEVM 105#, or placement into MATH 121 or higher

**MATH 201 The Nature of Mathematics**  
3 credits, Offered as needed  
Introduces students to the science of patterns. Students use basic principles of problem solving to investigate new areas of thought. Topics may include number patterns, prime numbers and cryptography, infinity, the golden ratio, topology and knots, chaos, fractals, and risk. Topics may vary at the discretion of the instructor.

**Prerequisite(s):** A grade of "C" or better in DEVM 105# or placement into MATH 121 or higher

**MATH 210 Statistics and Probability**  
4 credits, Fall and Spring  
Applies the theory of statistics to concrete problems in business and the social sciences. Topics covered include data collection, graphical displays of data, descriptive measures, correlation and regression, probability, discrete and continuous random variables, the binomial and normal distributions, sampling distributions, interval estimation of parameters, and tests of hypotheses. A computer laboratory component will introduce the student to statistical applications in software packages. A TI-83, TI-83 Plus or TI-84 calculator is required for the course. Credit will not be granted for more than one of the following statistics courses: MATH 140, MATH 210, and MATH 235.

**Prerequisite(s):** A grade of "C" or better in MATH 121, or placement into MATH 125 or higher

**MATH 218 Geometry**  
3 credits, Spring  
Examines the axiomatic structures of Euclidean geometry and introduces elementary non-Euclidean geometries for purposes of comparison. Geometric vocabulary, concepts, classical theorems, and proofs are emphasized. Synthetic, coordinate, and transformational geometries are examined. Appropriate educational technology will be used throughout the course.

**Prerequisite(s):** A grade of "C" or better in both MATH 121 and MATH 140

**MATH 220 Calculus I**  
4 credits, Fall and Spring  
Introduces the students to calculus. Topics include functions, limits, continuity, derivatives, partial derivatives, applications of derivatives, and integrals. A TI-83, TI-83 Plus or TI-84 calculator is required for the course.

**Prerequisite(s):** A grade of "C" or better in MATH 125 or by placement

**MATH 221 Calculus II**  
4 credits, Fall and Spring  
Continues the study of calculus. Topics include basic differential equations, techniques of integration, improper integrals, multiple integrals, applications of integration, sequences and series. A TI-83, TI-83 Plus or TI-84 calculator is required for the course.

**Prerequisite(s):** A grade of "C" or better in MATH 220

**MATH 222 Calculus III**  
4 credits, Fall (Offered as needed)  
Continues the study of calculus with analytic geometry. Topics include the conic sections, plane curves, vectors, parametric equations, and multivariable functions. The course will also cover further applications of motion, area and volume.

**Prerequisite(s):** A grade of "C" or better in MATH 221

**MATH 235 Statistical Methods**  
4 credits, Fall and Spring  
Applies the theory of statistics to concrete problems in the natural and health sciences. Topics include data collection, design of statistical studies, graphical displays of data, descriptive measures, probability, discrete and continuous random variables, one- and two-sample interval estimation and tests of hypotheses for means and proportions, analysis of variance with multiple comparisons, linear regression and correlation, nonlinear regression, nonparametric tests, and analysis of categorical data. Students will be introduced to statistical software. A TI-83, TI-83 Plus, or TI-84 calculator is required for the course. Credit will not be granted for more than one of the following statistics courses: MATH 140, MATH 210, and MATH 235.

**Prerequisite(s):** A grade of "C" or better in MATH 125 or placement into MATH 220 or higher

**MATH 301 Mathematical Structures**  
3 credits, Fall (Offered as needed)  
Introduces students to concepts and reasoning methods used in higher-level mathematics. This course will allow students to make the transition to abstract mathematical reasoning by exposing them to appropriate procedures for answering mathematical questions, forming conjectures, constructing proofs, and analyzing important mathematical constructs. Topics include set theory, functions, elementary group theory, and elementary real analysis.

**Prerequisite(s):** A grade of "C" or better in MATH 121, MATH 140, and MATH 201 or in MATH 220
MATH 312 Mathematical Statistics I
3 credits, Fall (offered as needed)
Introduces the foundations of statistical theory. This first course in a two-course sequence focuses on the theory and applications of probability and its fundamental role in statistical inference. Topics covered include probability axioms and rules, counting techniques, discrete and continuous univariate and multivariate probability distributions, mathematical expectation, variance, and covariance.
Prerequisite(s): A grade of "C" or better in MATH 221

MATH 313 Mathematical Statistics II
3 credits, Spring (offered as needed)
Continues the study of the foundations of statistical theory. This second course in a two-course sequence focuses on the fundamental tools of statistical inference. Topics covered include basis sampling distribution theory, point estimation of parameters, interval estimation, tests of hypotheses, correlation, and regression.
Prerequisite(s): A grade of "C" or better in MATH 312

MATH 314 Introduction to Differential Equations
3 credits, Fall or Spring (offered as needed)
Introduces the student to the application of calculus, particularly in the area of mathematical modeling. Topics covered include quantitative and qualitative solutions to ordinary differential equations and systems of equations. Computer-based numerical methods will be introduced. Discrete dynamical systems and chaotic systems will be covered as time permits.
Prerequisite(s): A grade of "C" or better in MATH 312

MATH 324 Theory of Numbers
3 credits, Fall or Spring (offered as needed)
Introduces the student to elementary number theory and its applications. Topics covered include properties of numbers, Diophantine equations, congruence, quadratic residues, and number-theoretic functions.
Prerequisite(s): A grade of "C" or better in MATH 220

MATH 326 Linear Algebra
3 credits, Fall or Spring (offered as needed)
Introduces the student to linear algebra and its applications. Topics covered include systems of equations, matrix algebra, n-dimensional real vectors, abstract vector spaces, linear transformations, theoretical foundations and proofs.
Prerequisite(s): A grade of "C" or better in MATH 220

MATH 330 Discrete Structures
3 credits, Fall or Spring (offered as needed)
Introduces the students to discrete mathematics. Topics include sets, functions, relations, graphs, digraphs, trees, recursion, proof techniques, and Boolean algebra. The relationship between these concepts and computers will be emphasized.
Prerequisite(s): A grade of "C" or better in MATH 220 and successful completion of IS 134

MATH 345 Actuarial Exam Review
0 credits, Spring (offered as needed)
Introduces students to the actuarial exam process and helps them review for the first of the Society of Actuaries professional examinations. Focus will be on a review of the material covered in calculus and mathematical statistics as applied to actuarial topics. Meets one hour per week.
Prerequisite(s): A grade of "C" or better in MATH 222 and MATH 312

MATH 355 Independent Research
3 credits, Fall or Spring (offered as needed)
Provides an opportunity to conduct independent research in an on-campus laboratory under the supervision of a Mathematics faculty member. This course may be repeated for credit. This course cannot be used as a substitute for the senior capstone requirement.
Prerequisite(s): Permission of the department chair

MATH 418 Mathematical Modeling
3 credits, Spring (offered as needed)
Engages students in creative and empirical model construction and analysis. Students analyze existing models and research models in specific disciplines to gain a deeper understanding of the behavior of that model. This course provides basic computer programming experience.
Prerequisite(s): A grade of "C" or better in MATH 221

MATH 420 Actuarial Mathematics
3 credits, Spring (offered as needed)
Introduces the student to the principles of interest theory and insurance. Interest theory topics include calculating effective yields, annuities, amortization schedules, and valuation of bonds and other securities. Insurance principles include the economics of insurance, measurements of mortality, and individual risk models.
Prerequisite(s): A grade of "C" or better in MATH 221

MATH 450 Senior Research Capstone
5 credits, Fall or Spring (offered as needed)
Provides an opportunity for the student to develop and conduct a scientific research project on campus or off campus. A minimum of 180 hours of work is required. Under the direction of a faculty mentor, each student performs independent and original research that is part of the faculty member’s ongoing research program. Emphasis is on honing oral and written skills in the context of scientific inquiry. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to applied mathematics majors.
Prerequisite(s): A grade of "C" or better in a minimum of two upper-level mathematics courses; two evaluations by mathematics or focus area faculty and successful completion of the School of the Sciences junior portfolio
Fees: Parking fees for off-campus placements and printing fees may be required.

MATH 455 Senior Internship Capstone
5 credits, Fall or Spring (offered as needed)
Provides an opportunity to gain professional workforce experience. A minimum of 180 hours of on-site work is required. The work must integrate and apply academic content appropriate to the workforce placement. Emphasis is on honing oral and written skills in the context of the internship experience. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to applied mathematics majors.
Prerequisite(s): A grade of "C" or better in a minimum of two upper-level mathematics courses; two evaluations by mathematics or focus area faculty and successful completion of the School of the Sciences junior portfolio
Fees: Parking fees for off-campus placements and printing fees may be required.

MATH 460 Senior Research Capstone
9 credits, Fall or Spring (offered as needed)
Provides an opportunity for the student to develop and conduct a scientific research project on campus or off campus. A minimum of 324 hours of work is required. Under the direction of a Stevenson or host mentor, each student performs independent and original research that is part of the mentor’s ongoing research program. Emphasis is on honing oral and written skills in the context of scientific inquiry. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to applied mathematics majors.
Prerequisite(s): A grade of "C" or better in a minimum of two upper-level mathematics courses; two evaluations by
mathematics or focus area faculty and successful completion of
the School of the Sciences junior portfolio.
Fees: Parking fees for off-campus placements and printing fees
may be required.

**MATH 460H Honors Senior Research Capstone**
9 credits, Fall or Spring (offered as needed)
Provides an opportunity for the student to develop and conduct
a scientific research project on campus or off campus. A minimum
of 324 hours of work is required. Under the direction of a
Stevenson or host mentor, each student performs independent
and original research that is part of the mentor’s ongoing research
program. Emphasis is on honing oral and written skills in the
context of scientific inquiry. Applications are competitive. In
February, invitations to apply are extended to all students who
meet the prerequisites. Restricted to applied mathematics majors.
Prerequisite(s): Cumulative and math GPA of 3.70 or higher; a
grade of "C" or better in a minimum of two upper-level
mathematics courses; two evaluations by mathematics or focus
area faculty and successful completion of the School of the Sciences
junior portfolio.
Fees: Parking fees for off-campus placements and printing fees
may be required.

**MATH 465 Senior Internship Capstone**
9 credits, Fall or Spring (offered as needed)
Provides an opportunity to gain professional workforce
experience. A minimum of 324 hours of on-site work is required.
The work must integrate and apply academic content appropriate
to the workforce placement. Emphasis is on honing oral and
written skills in the context of the internship experience. In
February, invitations to apply are extended to all students who
meet the prerequisites. Restricted to applied mathematics majors.
Prerequisite(s): A grade of "C" or better in a minimum of two
upper-level mathematics courses; two evaluations by
mathematics or focus area faculty and successful completion of
the School of the Sciences junior portfolio.
Fees: Parking fees for off-campus placements and printing fees
may be required.

**MATH 465H Honors Senior Internship Capstone**
9 credits, Fall or Spring (offered as needed)
Provides an opportunity to gain professional workforce
experience. A minimum of 324 hours of on-site work is required.
The work must integrate and apply academic content appropriate
to the workforce placement. Emphasis is on honing oral and
written skills in the context of the internship experience. Applications are competitive. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to applied mathematics majors.
Prerequisite(s): Cumulative and math GPA of 3.70 or higher; a
grade of "C" or better in a minimum of two upper-level
mathematics courses; two evaluations by mathematics or focus
area faculty and successful completion of the School of the Sciences junior portfolio.
Fees: Parking fees for off-campus placements and printing fees
may be required.

**MATH 490 Special Topics in Applied Mathematics**
3 credits, Fall or Spring (offered as needed)
Rotates subject matter to cover a variety of applied mathematics
topics. Content is developed to expand on or complement
existing mathematics courses. This course may be repeated for
credit if topics are different.
Prerequisite(s): Permission of the instructor.

---

**Art**

Stevenson University offers a bachelor's degree in Visual Communication Design. Detailed information on this bachelor's degree program can be found in the Visual Communication Design section of the catalog.

A minor in art is available. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog. Course descriptions for art are listed in the Visual Communication Design section of the catalog.

**Biochemistry**

School of the Sciences
Department of Chemistry
Associate Dean and Chair: Ellen Roskes, Ph.D.

**Biochemistry Program Description**

Biochemistry is a scientific discipline that integrates and applies chemical and biological principles in exploring and understanding the chemistry of living organisms. In the biochemistry major, students are grounded in the chemical, physical, and biological principles that characterize living systems, and they develop an interdisciplinary mindset that prepares them to embrace the interdependent nature of these areas of study. In addition, students develop facility with a wide variety of technical skills required in the modern workforce in both research and industrial environments. By working with modern instrumentation in well-equipped laboratory facilities, students develop excellent laboratory and analytical skills, preparing them for employment in a variety of biochemical fields, graduate study in biochemistry or related areas, and a career in a variety of professional arenas, including pharmacy, medicine, veterinary medicine, physical therapy, and dentistry. Because students first gain a basic understanding of the principles of biochemistry and then are required to explore science independently, through research, internships and/or a capstone experience, graduates from this program will be well-prepared to meet the rapidly changing research, clinical, and technical demands of our modern world.

**Biochemistry Program Outcomes**

Upon completion of the Bachelor of Science in Biochemistry, graduates will be able to:
1. Apply knowledge of chemical principles to the understanding of living systems.
2. Describe the ways in which biomolecules contribute to the structure and function of cells.
3. Design and execute scientific experiments using the scientific method.
4. Interpret scientific data and communicate findings.
5. Exhibit behaviors consistent with the professional and ethical standards of the discipline.
6. Evaluate current scientific advances using knowledge of biochemical principles.
7. Evaluate scientific discovery in terms of its scientific merit and its ethical, societal, and global implications.

**Biochemistry Program Policies**

Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a “C” in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to take a science or math course unless he/she earns a grade of "C" or better in all prerequisite courses.
A student may not earn a grade of “C-” or lower in any science or math course more than three times during the program. If a fourth grade of “C-” or lower is earned in any science or math course, the student will be automatically dismissed from the biochemistry major.

**Probation:** The student who earns any combination of two grades of “C-” or lower in a science or math course will be notified, in writing, by the department chair that he or she is on probation in the School of the Sciences.

**Final Probation:** The student who earns any combination of three grades of “C-” or lower in a science or math course will be notified, in writing, by the department chair that he or she is on final probation in the School of the Sciences.

**Dismissal:** If a fourth grade of “C-” or lower in any science or math course is earned, the student will be notified, in writing, by the department chair that he or she has been dismissed from the major.

**Biochemistry Program Requirements**

The courses listed below are required for completion of the bachelor’s degree in biochemistry. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

### Major Requirements:

- **SCI 100** School of the Sciences New Student Seminar
- **BIO 113** Biology I: Cell Biology and Genetics
- **BIO 113L** Biology I: Cell Biology and Genetics Lab
- **BIO 230** Genetics
- **BIOCH 327** Biochemistry
- **BIOCH 345L** Integrative Laboratory I
- **BIOCH 427** Advanced Biochemistry
- **CHEM 115** General Chemistry I
- **CHEM 115L** General Chemistry I Laboratory
- **CHEM 115S** General Chemistry I SolVIE
- **CHEM 116** General Chemistry II
- **CHEM 116L** General Chemistry II Laboratory
- **CHEM 116S** General Chemistry II SolVIE
- **CHEM 210** Organic Chemistry I
- **CHEM 210L** Organic Chemistry I Laboratory
- **CHEM 211** Organic Chemistry II
- **CHEM 211L** Organic Chemistry II Laboratory
- **CHEM 213** Electronic Literature Searching
- **MATH 220** Calculus I
- **PHIL 415** Professional Ethics
- **PHYS 210 or** General Physics I or
- **PHYS 215** General Physics I with Calculus
- **PHYS 211 or** General Physics II or
- **PHYS 216** General Physics II with Calculus

**Senior Capstone Experiences (Select One):**

- **BIOCH 450, 460 or 460H Sr. Research Capstone in Biochemistry**
- **BIOCH 455, 465, or 465H Sr. Internship Capstone in Biochemistry**

++ Students choosing one of the 9-credit senior capstone options can take one less upper level Group 2 elective

**Elective courses Group 1**

Select two from the following list:

- **BIO 310** Cell Biology
- **BIO 330** Molecular Genetics
- **CHEM 430** Physical Chemistry

**Elective courses Group 2**

Select three from the following list (one must be CHEM, one must be BIO and at least two of the courses must be at the 300 level or higher):

- **BIO 203** Microbiology
- **BIO 255** Techniques in Molecular Biology
- **BIO 310** Cell Biology
- **(if not used as a group 1 elective)**
- **BIO 322** Human Physiology
- **BIO 330** Molecular Genetics
- **(if not used as a group 1 elective)**
- **BIO 335** Immunology
- **BIO 355** Advanced Techniques in Molecular Biology
- **BIO 430** Bioinformatics
- **BIOCH 365** Independent Research in Biochemistry
- **CHEM 221** Inorganic Chemistry
- **CHEM 310** Analytical Chemistry
- **CHEM 330** Advanced Organic Chemistry
- **CHEM 340** Medicinal Chemistry
- **CHEM 410** Instrumental Analysis
- **CHEM 430** Physical Chemistry
- **(if not used as a group 1 elective)**
- **CHEM 431** Physical Chemistry: Quantum Mechanics
- **CHEM 432** Physical Chemistry: Thermodynamics
- **MATH 235** Statistical Methods

**Biochemistry Other Options**

**Minor:**

A minor in biochemistry is not available. Students majoring in biochemistry may not earn a minor in biology or chemistry.

**BS/MS option:**

The BS/MS option is available for students majoring in biochemistry who wish to combine their bachelor’s coursework with work toward a Stevenson University master’s degree in forensic sciences in the biology, chemistry, or crime scene investigation track. Students choosing this option may earn their master’s degree in as little as one year after their bachelor’s degree. Interested students must formally apply for entrance into this BS/MS option in their junior year. Once admitted into this program, students develop an educational plan in consultation with their undergraduate and graduate advisors.

Please see the Forensic Sciences section of this catalog for more information.

**BS/MAT option:**

The BS/MAT option is available for students majoring in biochemistry who wish to combine their bachelor’s coursework with work toward a Stevenson University master’s degree in teaching. Please see Additional Enrollment Options in the Admissions section of this catalog for more information.

**Biochemistry Course Descriptions**

For biology course descriptions please see the biology section of the catalog, and for chemistry course descriptions please see the chemistry section of the catalog.

**BIOCH 327 Biochemistry**

3 credits, Fall and Spring

Focuses in depth on the structure, function, and properties of carbohydrates, lipids, amino acids, proteins and nucleic acids in biological systems. Topics include protein structure and folding, control and energetics of metabolic pathways, the structure, function and mechanisms of enzymes reactions and a molecular level look at the central dogma of DNA to RNA to protein and DNA-based information technology.
Prerequisite(s): A grade of "C" or better in CHEM 211, CHEM 211L, BIO 113, and BIO 113L.

BIOCH 345L Integrative Laboratory I
2 credits, Fall and Spring
Continues education in safe chemistry laboratory practices and proper and ethical laboratory record keeping. Focuses on using advanced techniques in the laboratory to solve interdisciplinary problems. Laboratory techniques include enzyme, protein, and DNA isolation, protein characterization, chromatography, spectroscopy, fluorometry, DNA and protein quantification, and molecular DNA techniques.
Pre- or Corequisite(s): BIOCH 327

BIOCH 427 Advanced Biochemistry
3 credits, Spring
Explores advanced topics in biochemistry, focusing on structure-function analyses of biomolecules and the chemical and evolutionary foundations of metabolic networks. Emphasis will be placed upon using primary literature and advanced monographs to understand research methodologies and current problems and topics in biochemistry.
Prerequisite(s): A grade of "C" or better in BIOCH 327 and BIOCH 345L.

BIOCH 450 Senior Research Capstone
5 credits, Fall and Spring
Provides an opportunity for the student to develop and conduct a scientific research project on campus. A minimum of 180 hours of laboratory work is required. Under the direction of a faculty mentor, each student performs independent and original research that is part of the mentor’s ongoing research program. Emphasis is on honing oral and written skills in the context of scientific inquiry. Applications are competitive. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to biochemistry majors.
Prerequisite(s): A grade of "C" or better in BIOCH 327, BIOCH 345L, and a minimum of one upper-level biochemistry, biology or chemistry course; two evaluations by science faculty; and satisfactory completion of the School of the Sciences junior portfolio.
Fees: Parking and printing fees may be required.

BIOCH 455 Senior Internship Capstone
5 credits, Fall and Spring
Provides an opportunity to gain professional workforce experience. A minimum of 327 hours of on-site work is required. The work must integrate and apply academic content appropriate to the workforce placement. Emphasis is on honing oral and written skills in the context of the internship experience. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to biochemistry majors.
Prerequisite(s): A grade of "C" or better in BIOCH 327, BIOCH 345L, and a minimum of one upper-level biochemistry, biology or chemistry course; two evaluations by science faculty; and satisfactory completion of the School of the Sciences junior portfolio.
Fees: Parking and printing fees may be required.

BIOCH 460 Senior Research Capstone
9 credits, Fall and Spring
Provides an opportunity for the student to develop and conduct a scientific research project on campus or off campus. A minimum of 327 hours of laboratory work is required. Under the direction of a Stevenson or host mentor, each student performs independent and original research that is part of the mentor's ongoing research program. Emphasis is on honing oral and written skills in the context of scientific inquiry. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to biochemistry majors.
Prerequisite(s): A grade of "C" or better in BIOCH 327, BIOCH 345L, and a minimum of one upper-level biochemistry, biology or chemistry course; two evaluations by science faculty; and satisfactory completion of the School of the Sciences junior portfolio.
Fees: Parking and printing fees may be required.

BIOCH 460H Honors Senior Research Capstone
9 credits, Fall and Spring
Provides an opportunity for the student to develop and conduct a scientific research project on or off campus. A minimum of 327 hours of laboratory work is required. Under the direction of a Stevenson or host mentor, each student performs independent and original research that is part of the mentor's ongoing research program. Emphasis is on honing oral and written skills in the context of scientific inquiry. Applications are competitive. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to biochemistry majors.
Prerequisite(s): A grade of "C" or better in BIOCH 327, BIOCH 345L, and a minimum of one upper-level biochemistry, biology or chemistry course; two evaluations by science faculty; and satisfactory completion of the School of the Sciences junior portfolio.
Fees: Parking and printing fees may be required.

BIOCH 465H Honors Senior Internship Capstone
9 credits, Fall and Spring
Provides an opportunity to gain professional workforce experience. A minimum of 327 hours of on-site work is required. The work must integrate and apply academic content appropriate to the workforce placement. Emphasis is on honing oral and written skills in the context of the internship experience. Applications are competitive. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to biochemistry majors.
Prerequisite(s): A grade of "C" or better in BIOCH 327, BIOCH 345L, and a minimum of one upper-level biochemistry, biology or chemistry course; two evaluations by science faculty; and satisfactory completion of the School of the Sciences junior portfolio.
Fees: Parking and printing fees may be required.

Biology
School of the Sciences
Department of Biological Sciences
Associate Dean and Chair: Meredith Durnowicz, Ph.D.

Biology Program Description
Students interested in careers in many areas of biology and the biomedical sciences can earn a Bachelor of Science in Biology at Stevenson University. The biology program provides students with a broad biological background in environmental, organismal, cellular, and molecular biology. By choosing
additional electives in areas of special interest, students are then able to tailor their studies to suit their future goals. Independent research is integrated into coursework at all levels, and critical thinking and teamwork skills are emphasized.

Our graduates are well prepared for careers in industry or research, admission to graduate school in biology or related fields and admission to medical, dental, veterinary, physical therapy, or other health profession schools.

**Biology Program Outcomes**

Upon completion of the Bachelor of Science in Biology, graduates will be able to:

**Cognitive Domain**
2. Describe the flow of energy within systems.
3. Describe how genetic processes underlie all of biological function and explain diversity.
4. Evaluate function as it relates to structure throughout the spectrum of biological organization.
5. Describe interactions within and among species, between species, and between species and the environment.

**Skills Domain**
1. Demonstrate a proficiency in basic laboratory skills.
2. Demonstrate a proficiency in using the metric system and scientific notation.
3. Demonstrate laboratory safety.
4. Plan, execute, and interpret an experiment following the tenets of the scientific method.
5. Analyze and interpret data for presentation in both written and oral formats.
6. Use knowledge of basic biological principles to summarize and support a critical analysis of current scientific advances (primary literature and popular accounts), legislative issues, environmental issues, biotechnological advances, and/or advances in human medicine.

**Affective Domain**
1. Collect and report data honestly and ethically.
2. Demonstrate professional conduct and strong interpersonal communication skills.
3. Evaluate scientific journal articles in terms of scientific merit and ethical, societal, and global implications.
4. Demonstrate professional conduct and strong interpersonal skills.
5. Demonstrate the ability to learn and think independently and creatively.
6. Recognize the value and act upon the need for lifelong learning.

**Biology Program Policies**

Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to take a science or math course unless he/she earns a grade of "C" or better in all prerequisite courses.

A student may not earn a grade of "C-" or lower in any science or math course unless he/she earns a grade of "C" or better in all prerequisite courses.

**Probation:** The student who earns any combination of two grades of "C-" or lower in a science or math course will be notified, in writing, by the department chair that he or she is on probation in the School of the Sciences.

**Final Probation:** The student who earns any combination of three grades of "C-" or lower in a science or math course will be notified, in writing, by the department chair that he or she is on final probation in the School of the Sciences.

**Dismissal:** If a fourth grade of "C-" or lower in any science or math course is earned, the student will be notified, in writing, by the department chair that he or she has been dismissed from the major.

**Biology Program Requirements**

The courses listed below are required for completion of the bachelor's degree in biology. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

**Major Requirements:**

- SCI 100 School of the Sciences New Student Seminar
- BIO 113 General Biology I: Cell Biology and Genetics
- BIO 113L General Biology I: Cell Biology and Genetics Laboratory
- BIO 114 General Biology II: Structure and Function of Organisms
- BIO 114L General Biology II: Structure and Function of Organisms Laboratory
- BIO 210 General Biology III: Ecology and Evolution Laboratory
- BIO 255 Techniques in Molecular Biology
- CHEM 115 General Chemistry I
- CHEM 115L General Chemistry I Laboratory
- CHEM 115S General Chemistry I Sol.VE
- CHEM 116 General Chemistry II
- CHEM 116L General Chemistry II Laboratory
- CHEM 116S General Chemistry II Sol.VE
- CHEM 210 Organic Chemistry I
- CHEM 210L Organic Chemistry I Laboratory
- CHEM 211 Organic Chemistry II
- CHEM 211L Organic Chemistry II Laboratory
- MATH 220 Calculus I
- MATH 233 Statistical Methods
- PHIL 415 Topics in Professional Ethics
- PHYS 210 or General Physics I or
- PHYS 215 General Physics I with Calculus
- PHYS 211 or General Physics II or
- PHYS 216 General Physics II with Calculus

**Complete one of the following senior capstone options:**

- BIO 450 Senior Research Capstone
- BIO 455 Senior Internship Capstone
- BIO 460H+ Senior Research Capstone
- BIO 460H++ Honors Senior Research Capstone
- BIO 465+ Senior Internship Capstone
- BIO 465H++ Honors Senior Internship Capstone

**Students choosing one of the 9-credit senior capstone options can take one less upper level Biology elective.**

**Biology Electives (Complete all 3 groups):**

**Group 1 (Select four):**
- BIO 203 Microbiology
- BIO 210 Botany
- BIO 217 Principles of Biochemistry
- BIO 222 Human Anatomy
- BIO 230 Genetics

**Group 2: Two additional biology courses**

**Group 3: Four additional 300- or 400-level biology courses**

**Students may also choose to take up to two environmental science and/or medical technology courses to fulfill the group 2 and group 3 biology electives.**
Biology Other Options

Biology Department Honors Requirements:
Eligible students majoring in biology may elect to pursue honors within the department of biological sciences. The intention to pursue biology department honors must be declared no later than the end of the first semester of the junior year. To declare the intent to pursue departmental honors, a student must have earned a science GPA of 3.50 or higher. Students graduating with biology department honors will have this distinction noted on their official university transcript. In order to graduate with departmental honors, the following requirements must be met:

- Completion of a 400-level capstone experience with a grade of “B” or better
- Completion of BIO 440 Seminar Topics in Biology with a grade of “B” or better
- Completion of an Honors Contract Project in an upper-level biology course. A grade of “B” or better must be earned in the course in which an Honors Contract Project is completed. The student must submit a contract project proposal to be approved by department faculty before beginning the project. The final project must be approved by department faculty in order to receive honors credit.
- A science GPA of 3.50 or higher at the time of graduation

Minor:
A minor in biology is available, however, students majoring in biochemistry, biotechnology, and medical technology may not earn a minor in biology or chemistry. A student wishing to take any biology course for the biology minor must meet the prerequisite(s) for the particular course. Students must take six courses that count in the biology major, excluding seminar courses. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog. The following courses may not count toward a minor in biology:

- BIO 104
- BIO 107
- BIO 211
- BIO 215
- BIO 240
- 1 credit lab courses

BS/MAT option:
The BS/MAT option is available for students majoring in biology who wish to combine their bachelor’s coursework with work toward a Stevenson University master’s degree in teaching. Please see Additional Enrollment Options in the Admissions section of this catalog for more information.

One Credit Learning Beyond and Service Learning Options:
One credit Learning Beyond and service learning options are offered periodically with some biology courses. These one credit options will be listed and described in the course schedule each semester. Please consult the course instructor or the department chair if you have any questions.

Articulation Agreement:
Community College Programs
Community College of Baltimore County Associate of Science, Biology transfer pattern. It is possible for students to transfer 62-70 credits from CCBC that count in the Stevenson Educational Experience and the biology curriculum. Montgomery College Associate of Applied Science in Biotechnology. It is possible for students to transfer 62-68 credits from Montgomery College that count in the Stevenson Educational Experience and the biology curriculum.

Biology Course Descriptions

BIO 104 The Human Body and Contemporary Health Issues
4 credits, Fall and Spring
Illustrates some major principles of biology by studying the human as an organism and as part of the biosphere. Topics include the systems of the body and processes which produce, maintain, and coordinate the person. These are studied in relation to disease, the external environment and technology. Laboratory included. Restricted to non-science majors. This course does not satisfy a minor requirement in biology.
Prerequisite(s): Eligible for ENG 151 or higher and eligible for MATH 108 or higher

BIO 113 General Biology I: Cell Biology and Genetics
3 credits, Fall and Spring
Emphasizes the molecular nature of biology and biological principles that are common to all life. Topics covered relate to the physical and biochemical structure and function of cells and cell processes and genetics.
Prerequisite(s): Eligibility for MATH 121 or higher and ENG 151 or higher
Corequisite: BIO 113L

BIO 113L General Biology I Laboratory: Cell Biology and Genetics
1 credit, Fall and Spring
Introduces experimental methods and techniques used in the biology laboratory. Topics relate to cell structure and function, and skills covered include the scientific method and experimental design, microscope and micropipette use, and aseptic technique.
Prerequisite(s): Eligibility for MATH 121 or higher and ENG 151 or higher
Corequisite: BIO 113

BIO 114 General Biology II: Structure and Function of Organisms
3 credits, Fall and Spring
Emphasizes the molecular and physical aspects of plant and animal structure and function in relation to biological principles that are common to all life. Topics covered include form and function, homeostasis, chemical signaling and communication, and nutrition in plants and animals.
Prerequisite(s): A grade of "C" or better in BIO 113 and BIO 113L
Corequisite: BIO 114

BIO 114L General Biology II Laboratory: Structure and Function of Organisms
1 credit, Fall and Spring
Explores the relationship between structure and function through laboratory activities which include the dissection of plants and animals, and the investigation of basic physiological processes. Students will be introduced to scientific literature databases, and primary and secondary scientific literature, and will continue to refine and expand the laboratory skills taught in BIO 113L.
Prerequisite(s): A grade of "C" or better in BIO 113 and BIO 113L
Corequisite: BIO 114

BIO 115 General Biology III: Ecology and Evolution
3 credits, Fall and Spring
Emphasizes the evolutionary basis of biological diversity and the ecological interactions of living organisms and biological principles that are common to all life. Topics covered include evolutionary processes, hierarchical relationships and the
relatedness of species, population and community ecology and biodiversity and conservation.

Prerequisite(s): A grade of "C" or better in BIO 113, BIO 113L, BIO 114, and BIO 114L.

Corequisite: BIO 115L

**BIO 115L General Biology III Laboratory: Ecology and Evolution**
4 credits, Fall and Spring
Introduces the methodology, techniques, and equipment used to collect environmental samples and data. This course demonstrates the foundational principles of evolution through hypothesis testing. An emphasis is placed on conducting experiments using scientific method, analyzing data, and presenting results in a format appropriate to a scientific journal.

Prerequisite(s): A grade of "C" or better in BIO 113, BIO 113L, BIO 114, and BIO 114L.

Corequisite: BIO 115

**BIO 130 Human Anatomy and Physiology**
4 credits, Fall and Spring
Introduces the structure, organization and function of the major human body systems with emphasis on the body as an integrated organism. Physiology in health and in disease is emphasized. Laboratory included.

Prerequisite(s): A grade of "C" or better in BIO 113 and BIO 113L.

**BIO 203 Microbiology**
4 credits, Fall and Spring
Introduces bacterial, viral and eukaryotic microbes. Topics include microbial structure, classification, metabolism, growth, diseases and general microbial laboratory techniques. Laboratory included.

Prerequisite(s): A grade of "C" or better in BIO 113 and BIO 113L.

Pre- or Corequisite: CHEM 110 and CHEM 110L or CHEM 116 and CHEM 116L

**BIO 210 Botany**
4 credits, Spring
Introduces plant structures and functions, including growth, physiological processes, classification and an evolutionary survey of algae, liverworts, mosses, ferns, gymnosperms and flowering plants. Laboratory included.

Prerequisite(s): A grade of "C" or better in BIO 114 and BIO 114L.

**BIO 211 Genetics and Society**
3 credits, Fall or Spring (offered as needed)
Introduces the major principles of genetics and explores the impact of genetics on society. Students will apply their knowledge to the understanding of genetics-related issues in the media and be able to effectively communicate their understanding of the major principles in genetics. Restricted to non-science majors. This course does not satisfy a minor requirement in biology.

Prerequisite(s): None

**BIO 217 Principles of Biochemistry**
3 credits, Fall and Spring
Emphasizes the structure and function of carbohydrates, lipids, nucleic acids, amino acids and proteins in living systems. The properties of these biological molecules are related to their chemical structure and specific roles within the cell. Topics include membrane structure and function, enzyme mechanisms and kinetics, and the energetics of metabolic reactions and pathways. The theory of analytical methods used to study biological molecules is also covered.

Prerequisite(s): A grade of "C" or better BIO 113, BIO 113L, CHEM 210 and CHEM 210L.

**BIO 222 Human Anatomy**
4 credits, Fall and Spring
Introduces the gross and microscopic structure of the human body. Topics include histology (cells and tissues) and the eleven systems of the body. Laboratorises include microscopic examination of cells and tissues, as well as dissection and study and identification of gross anatomical features. Laboratory included.

Prerequisite(s): A grade of "C" or better in BIO 113 and BIO 113L and a grade of "C" or better in CHEM 110 and CHEM 110L or CHEM 116 and CHEM 116L.

**BIO 230 Genetics**
4 credits, Fall and Spring
Examines the processes by which viruses, prokaryotes and eukaryotes transmit hereditary information. Topics include patterns of inheritance, probability, structure and replication of hereditary material, gametogenesis, gene expression and regulation, and mutation. Basic recombinant DNA technologies and their applications will also be discussed. Laboratory included.

Prerequisite(s): A grade of "C" or better in BIO 113, BIO 113L, CHEM 116 and CHEM 116L.

**BIO 240 Nutrition**
3 credits, Spring and Summer
Examines the effect of nutritional status, food habits and food consumption on human health. Nutritional requirements at different stages of human development and various nutrients contained in representative food categories are covered. Techniques and procedures for the application of nutrition knowledge in the context of socioeconomic factors and consumer concerns are discussed. Specific application to nursing care is described. Restricted to nursing majors. This course does not satisfy a minor requirement in biology.

Prerequisite(s): Must meet all progression criteria for second-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in BIO 113, BIO 113L and CHEM 110, CHEM 110L.

**BIO 255/255 Techniques in Molecular Biology**
3 credits, Fall and Spring
Introduces the theory and practical use of instrumentation and procedures currently used to analyze nucleic acids and proteins. Directed laboratory exercises in molecular biology techniques and independent student research are included. Techniques learned include gene cloning, nucleic acid isolation, PCR and RT-PCR techniques, nucleic acid and protein electrophoresis and Southern hybridization. Instruction in the fundamentals of the use of bioinformatics tools to analyze nucleic acid and protein sequences is also incorporated. Student groups conduct a semester-long research project using the research tools and techniques taught in the course. The course meets in the laboratory for six hours each week.

Prerequisite(s): A grade of "C" or better in BIO 113, BIO 113L, CHEM 116, and CHEM 116L.

**BIO 265 Independent Laboratory Research in Biology**
2 credits, Fall and Spring (offered as needed)
Provides an opportunity to introduce the student to independent research in an on-campus laboratory under the supervision of a biology faculty member. This course may be repeated for credit. This course cannot be used as a substitute for the senior capstone requirement.

Prerequisite(s): A grade of "C" or better in BIO 113 and BIO 113L, permission of the faculty member who will be supervising the research.

Fees: Printing fees may be required.
BIO 310 Cell Biology
4 credits, Fall
Describes the structure and function of prokaryotic and eukaryotic cells at the cellular and molecular levels, together with the methodology for their study. Emphasis is placed on organelles participating in cellular metabolism and energy transformations, communication, transport, movement, reproduction and inheritance.
Prerequisite(s): A grade of "C" or better in BIO 217 or in BIOCH 327

BIO 312 Developmental Biology
4 credits, Fall
Describes and analyzes developmental processes and their spatial and temporal regulation in plants and animals. Emphasis is on experimental, molecular genetic, cellular, evolutionary, and ecological aspects as they pertain to differentiation and morphogenesis of the organism. Laboratory included.
Prerequisite(s): A grade of "C" or better in BIO 114, BIO 114L, CHEM 211 and CHEM 211L

BIO 313 Virology
4 credits, Spring (offered as needed)
Explores the fundamental properties of viruses, with an emphasis on classification, structure, replication, mechanisms of viral pathogenesis and the immune response to viral infections. Laboratory includes propagation, purification and quantification of viruses, transformation of cells by viruses and basic cell culture techniques. Laboratory included.
Prerequisite(s): A grade of "C" or better in BIO 113, BIO 113L, BIO 203, CHEM 210, and CHEM 210L

BIO 314 Parasitology
4 credits, Fall
Explores the parasites known to produce disease in man and other mammals. This course includes the morphology, life cycles, metabolism, clinical symptoms and diseases, epidemiology and control and diagnosis of major pathogens. Laboratory includes the proper manipulation, identification, preparation and biochemical testing of parasitic cultures. Laboratory included.
Prerequisite(s): A grade of "C" or better in BIO 203

BIO 320 Pathogenic Microbiology
4 credits, Spring
Discusses infectious bacterial diseases of humans. This course uses a taxonomic approach to the study of the pathogenesis, clinical syndromes, epidemiology, treatment and laboratory identification of human bacterial pathogens. Laboratory includes the performance and interpretation of tests used to identify commonly isolated pathogens. Laboratory included.
Prerequisite(s): A grade of "C" or better in BIO 203 and BIO 217 or CHEM 211 and CHEM 211L

BIO 322 Human Physiology
4 credits, Fall and Spring
Explores the principles of human body function. Emphasis is on the mechanisms by which cells and organs perform their functions and the interactions of the various organs in maintaining homeostasis. Laboratory includes wet labs, computer simulations, interactive physiology modules and an in-depth report and presentation by each student on a current topic in physiology or biomedical research. Laboratory included.
Prerequisite(s): A grade of "C" or better in BIO 222 and CHEM 110 and CHEM 110L or in CHEM 210 and CHEM 210L

BIO 326 Animal Physiology
4 credits, Fall
Examines the diverse mechanisms fundamental to animal physiology. The functional interactions important in vertebrate and invertebrate homeostasis at the molecular, cellular, organ and systems levels are explored. Laboratory sessions will provide illustrations and exercises that support lecture material. Laboratory included.
Prerequisite(s): A grade of "C" or better in BIO 115, BIO 115L, CHEM 210 and CHEM 210L

BIO 330 Molecular Genetics
4 credits, Spring
Examines the processes by which viruses, prokaryotes and eukaryotes transmit hereditary information and regulate its expression. Topics include patterns of inheritance, structure and replication of hereditary material, transcription and its regulation, translation, mutation, recombinant DNA and oncogenes. Technology elucidating gene structure and function and the application of DNA technology to other areas are discussed. Laboratory included.
Prerequisite(s): A grade of "C" or better in BIO 230 and BIO 255 or in BT 255

BIO 335 Immunology
4 credits, Spring
Explores the principles of basic immunology with an emphasis on the host response at the molecular level. Topics include innate and specific acquired immunity, antigens and antibodies, organs and cells of the immune system, immune dysfunction and prophylaxis. Laboratory sessions include the purification and detection methods of antibody and antigen, isolation of immune cell subpopulations and enzyme immunoassays. Laboratory included.
Prerequisite(s): A grade of "C" or better in BIO 114, BIO 114L, CHEM 211 and CHEM 211L; BIO 310 or BIO 330 recommended

BIO 355/BT 355 Advanced Techniques in Molecular Biology
3 credits, Fall
Builds on the molecular techniques taught in BIO 255/BT 255 by applying them to a specified research problem. Students are presented with a research question similar to those encountered in a small biotechnology company or academic laboratory and asked to design, perform, analyze and present experiments in order to study the problem. Advanced molecular biology applications, such as automated DNA sequencing, are also introduced. This course meets in the laboratory for six hours each week.
Prerequisite(s): A grade of "C" or better in BIO 113, BIO 113L, BIO 255 or BT 255, and in CHEM 211 and CHEM 211L

BIO 365 Independent Laboratory Research in Biology
3 credits, Fall and Spring (offered as needed)
Provides an opportunity to conduct independent research in an on-campus laboratory under the supervision of a Biology faculty member. This course may be repeated for credit. This course cannot be used as a substitute for the senior capstone requirement.
Prerequisite(s): A grade of "C" or better in BIO 113, BIO 113L, and in one biology course at the 200-level, junior standing, and permission of the faculty member who will be supervising the research
Fees: Printing fees may be required.

BIO 430 Bioinformatics
3 credits, Spring (offered as needed)
Integrates biological concepts with computer and database methods to study biological systems. Concepts covered include modeling complex biological systems, mechanisms and integration of molecular and organismal evolution, web-based biological databases and computational tools for analysis of genomic and protein data.
Prerequisite(s): A grade of "C" or better in IS 134 and BIO 310; BIOCH 327 and BIOCH 327L recommended (may be taken concurrently)
BIO 440 Seminar Topics in Biology
1 credit, Spring
Explores current topics in biology through reading and discussion of the primary literature. Students give seminar-style presentations on current scientific studies and critically evaluate original scientific work in the chosen field. Related ethical issues are also discussed. This course is required for students pursuing honors in the biology program. This course may be repeated for credit if topics are different. 
Prerequisite(s): A grade of "C" or better in two upper-level biology courses

BIO 450 Senior Research Capstone
5 credits, Fall and Spring
Provides an opportunity for the student to develop and conduct a scientific research project on campus. A minimum of 180 hours of laboratory work is required. Under the direction of a faculty mentor, each student performs independent and original research that is part of the faculty member's ongoing research program. Emphasis is on honing oral and written skills in the context of scientific inquiry. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to biology majors. 
Prerequisite(s): A grade of "C" or better in a minimum of two upper-level biology courses; satisfactory completion of the School of the Sciences junior portfolio; two evaluations by science faculty 
Fees: Printing fees may be required.

BIO 455 Senior Internship Capstone
5 credits, Fall and Spring
Provides an opportunity to gain professional workforce experience. A minimum of 180 hours of on-site work is required. The work must integrate and apply academic content appropriate to the workforce placement. Emphasis is on honing oral and written skills in the context of the internship experience. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to biology majors. 
Prerequisite(s): A grade of "C" or better in a minimum of two upper-level biology courses; satisfactory completion of the School of the Sciences junior portfolio; two evaluations by science faculty 
Fees: Parking and printing fees may be required.

BIO 460 Senior Research Capstone
9 credits, Fall and Spring
Provides an opportunity for the student to develop and conduct a scientific research project on campus or off campus. A minimum of 324 hours of laboratory work is required. Under the direction of a Stevenson or host mentor, each student performs independent and original research that is part of the mentor's ongoing research program. Emphasis is on honing oral and written skills in the context of scientific inquiry. Applications are competitive. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to biology majors. 
Prerequisite(s): Cumulative and science GPA of 3.70 or higher; A grade of "C" or better in a minimum of two upper-level biology courses; satisfactory completion of the School of the Sciences junior portfolio; two evaluations by science faculty 
Fees: Parking and printing fees may be required.

BIO 465 Senior Internship Capstone
9 credits, Fall and Spring
Provides an opportunity to gain professional workforce experience. A minimum of 324 hours of on-site work is required. The work must integrate and apply academic content appropriate to the workforce placement. Emphasis is on honing oral and written skills in the context of the internship experience. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to biology majors. 
Prerequisite(s): A grade of "C" or better in a minimum of two upper-level biology courses; satisfactory completion of the School of the Sciences junior portfolio; two evaluations by science faculty 
Fees: Parking and printing fees may be required.

BIO 465H Honors Senior Internship Capstone
9 credits, Fall and Spring
Provides an opportunity to gain professional workforce experience. A minimum of 324 hours of on-site work is required. The work must integrate and apply academic content appropriate to the workforce placement. Emphasis is on honing oral and written skills in the context of the internship experience. Applications are competitive. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to biology majors. 
Prerequisite(s): Cumulative and science GPA of 3.70 or higher; A grade of "C" or better in a minimum of two upper-level biology courses; satisfactory completion of the School of the Sciences junior portfolio; two evaluations by science faculty 
Fees: Parking and printing fees may be required.

Biotechnology
School of the Sciences
Department of Biological Sciences
Associate Dean and Chair: Meredith Durmowicz, Ph.D.

Biotechnology Program Description
Biotechnology is an applied science at the forefront of biomedical, genomic and proteomic research. Graduates of this program are distinguished by their training not only in scientific techniques in a broad range of biological and chemical fields, but also in the business aspects associated with taking a product from development in the research laboratory to its production for diagnostic or treatment purposes. Independent research is integrated into coursework at all levels, and critical thinking and teamwork skills are emphasized.

Extensive opportunities exist for graduates of this program in the Baltimore-Washington corridor, which is one of five major areas of concentration for biotechnology in the nation. The Bachelor of Science in Biotechnology prepares a graduate to become a member of a team working in biomedical, forensic or industrial research laboratories, and pharmaceutical and biological production facilities. Our graduates are also well prepared for admission to graduate school in biology or related fields, and admission to medical, dental, veterinary, physical therapy or other health profession schools.

Biotechnology Program Outcomes
Upon completion of the Bachelor of Science in Biotechnology, graduates will be able to:
Cognitive Domain
1. Describe the documentation practices and regulatory processes that govern the biotechnology industry, including research and development, quality assurance and manufacturing.
2. Describe how genetic processes underlie all of biological function and can be manipulated for product development.
3. Describe how chemical processes impact biological function and can be manipulated for product development.
4. Describe how the flow of energy within systems.
5. Evaluate function as it relates to structure throughout the spectrum of biological organization.
6. Demonstrate familiarity with basic business practices and entrepreneurship.

Skills Domain
1. Demonstrate proficiency in standard techniques for the isolation, analysis and manipulation of nucleic acids.
2. Demonstrate proficiency in standard techniques for the purification and analysis of proteins.
3. Demonstrate proficiency in the use of bioinformatics applications for the analysis and comparison of nucleic acids and proteins.
4. Demonstrate proficiency in using the metric system and scientific notation.
5. Demonstrate the ability to implement standard safety protocols in the laboratory.
6. Plan, execute, and interpret an experiment following the tenets of the scientific method.
7. Collect and organize data following proper documentation and cGMP standards.
8. Apply statistical and instrumental analysis to judge the accuracy and precision of collected data.
9. Analyze and interpret data for presentation in both written and oral formats.
10. Write a coherent review of the scientific literature on a particular topic.
11. Use knowledge of basic biological principles to summarize and support a critical analysis of current scientific advances (primary literature and popular accounts), legislative issues, environmental issues, biotechnological advances, and/or advances in human medicine.

Affective Domain
1. Collect and report data ethically and honestly.
2. Evaluate scientific journal articles in terms of scientific merit and ethical, societal, and global implications.
3. Demonstrate professional conduct and strong interpersonal communication skills.
4. Demonstrate the ability to work effectively in a team environment.
5. Demonstrate the ability to learn and think independently and creatively.
6. Recognize the value and act upon the need for lifelong learning.

Biotechnology Program Policies
Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a “C-” in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to take a science or math course unless he/she earns a grade of "C" or better in all prerequisite courses.

A student may not earn a grade of “C-” or lower in any science or math course more than three times during the program. If a fourth grade of “C-” or lower is earned in any science or math course, the student will be automatically dismissed from the biotechnology major.

Probation: The student who earns any combination of two grades of “C-” or lower in a science or math course will be notified, in writing, by the department chair that he or she is on probation in the School of the Sciences.

Final Probation: The student who earns any combination of three grades of “C-” or lower in a science or math course will be notified, in writing, by the department chair that he or she is on final probation in the School of the Sciences.

Dismissal: If a fourth grade of “C-” or lower in any science or math course is earned, the student will be notified, in writing, by the department chair that he or she has been dismissed from the major.

Biotechnology Program Requirements
The courses listed below are required for completion of the bachelor’s degree in biotechnology. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

Major Requirements:
- SCI 100 School of the Sciences New Student Seminar
- BIO 113 General Biology I: Cell Biology and Genetics
- BIO 113L General Biology I: Cell Biology and Genetics Laboratory
- BIO 114 General Biology II: Structure and Function of Organisms
- BIO 114L General Biology II: Structure and Function of Organisms Laboratory
- BIO 115 General Biology III: Ecology and Evolution
- BIO 115L General Biology III: Ecology and Evolution Laboratory
- BIO 217 Principles of Biochemistry
- BT 201 Introduction to Biotechnology
- BT 205 Biosafety and Quality Assurance
- BT 255 Techniques in Molecular Biology
- BT 355 Advanced Techniques in Molecular Biology
- CHEM 115 General Chemistry I
- CHEM 115L General Chemistry I Laboratory
- CHEM 116 General Chemistry II
- CHEM 116L General Chemistry II Laboratory
- CHEM 210 Organic Chemistry I
- CHEM 210L Organic Chemistry I Laboratory
- CHEM 211 Organic Chemistry II
- CHEM 310 Analytical Chemistry
- CHEM 410 Instrumental Analysis
- MATH 220 Calculus I
- MATH 235 Statistical Methods
- PHIL 415 Topics in Professional Ethics
- PHYS 210 or General Physics I or Calculus
- PHYS 215 General Physics I with Calculus
- PHYS 211 or General Physics II or Calculus
- PHYS 216 General Physics II with Calculus

Senior Capstone Experiences (Select one):
- BT 465 or Senior Internship Capstone
- BT 465H Honors Senior Internship Capstone

Elective Courses:
- Group 1: Two additional biology or chemistry courses
- Group 2: Two additional biology or chemistry laboratory courses

At least two of the elective courses must be at the 300- or 400-level, and students must complete a minimum of 26 credits in upper level science courses. Students may fulfill up to two elective slots with environmental science or medical technology courses.
Biotechnology Other Options

Biology Department Honors Requirements:
Eligible students majoring in biotechnology may elect to pursue honors within the department of biological sciences. The intention to pursue biology department honors must be declared no later than the end of the first semester of the junior year. To declare the intent to pursue departmental honors, a student must have earned a science GPA of 3.50 or higher.

Students graduating with biology department honors will have this distinction noted on their official university transcript. In order to graduate with departmental honors, the following requirements must be met:
- Completion of a 400-level capstone experience with a grade of “B” or better.
- Completion of BIO 440 Seminar Topics in Biology with a grade of “B” or better.
- Completion of an Honors Contract Project in an upper-level biology or biotechnology course. A grade of “B” or better must be earned in the course in which an Honors Contract Project is completed. The student must submit a contract project proposal to be approved by department faculty before beginning the project. The final project must be approved by department faculty in order to receive honors credit.
- A science GPA of 3.50 or higher at the time of graduation.

Minor:
A minor in biotechnology is not available. Students majoring in biotechnology may not earn a minor in biology or chemistry.

BS/MS Option:
The BS/MS option is available for students majoring in biotechnology who wish to combine their bachelor’s coursework with work toward a Stevenson University master’s degree in forensic sciences in the biology, chemistry or crime scene investigation track. Students choosing this option may earn their master’s degree in as little as one year after their bachelor’s degree. Interested students must formally apply for entrance into this BS/MS option in their junior year. Once admitted to this program, students develop an educational plan in consultation with their undergraduate and graduate advisors. Please see the Forensic Sciences section of this catalog for more information.

Articulation Agreements:
Frederick Community College, Associate of Applied Science, Bioprocessing Technology. It is possible for students to transfer 60-64 credits from FCC that count in the Stevenson Educational Experience (SEE) and the biotechnology curriculum. Montgomery College, Associate of Applied Science in Biotechnology. It is possible for students to transfer 63-68 credits from Montogomery College that count in the Stevenson Educational Experience (SEE) and the biotechnology curriculum.

Biotechnology Course Descriptions

**BT 201 Introduction to Biotechnology**
3 credits, Spring
Introduces the biotechnology industry. Students will explore the wide array of scientific, business and legal fields that form the basis of the biotechnology field, the types of products and companies that are included in the biotechnology industry and the functional units within a typical biotechnology company. Topics covered include the general techniques and technologies used in biotechnology, products of biotechnology, fields of biotechnology and career paths within the biotechnology industry.
**Prerequisite(s):** A grade of "C" or better in BIO 113 and BIO 113L
**Fees:** Fees may be required for field trips

**BT 205 Biosafety and Quality Assurance**
2 credits, Fall
Introduces the safety and quality control issues related to product development in the biotechnology industry. The course includes safety, storage and disposal of hazardous materials according to current standards, development and implementation of quality assurance programs, and issues related to local, state, and federal regulations.
**Prerequisite(s):** A grade of "C" or better in BIO 113, BIO 113L and BT 201 or FSCI 101
**Fees:** Fees may be required for field trips

**BT 255/BIO 255 Techniques in Molecular Biology**
3 credits, Fall and Spring
Introduces the theory and practical uses of instrumentation and procedures currently used to analyze nucleic acids and proteins. Directed laboratory exercises in molecular biology techniques and independent student research are included. Techniques learned include gene cloning, nucleic acid isolation, PCR and RT-PCR techniques, nucleic acid and protein electrophoresis and Southern hybridization. Instruction in the fundamentals of the use of bioinformatics tools to analyze nucleic acid and protein sequences is also incorporated. Student groups conduct a semester-long research project using the research tools and techniques taught in the course. The course meets in the laboratory for six hours each week.
**Prerequisite(s):** A grade of "C" or better in BIO 113, BIO 113L, CHEM 116 and CHEM 116L

**BT 255/BIO 355 Advanced Techniques in Molecular Biology**
3 credits, Fall
Builds on the molecular techniques taught in BT 255/BIO 255 by applying them to a specified research problem. Students are presented with a research question similar to those encountered in a small biotechnology company or academic laboratory and asked to design, perform, analyze and present experiments in order to study the problem. Advanced molecular biology applications, such as automated DNA sequencing, are also introduced. This course meets in the laboratory for six hours each week.
**Prerequisite(s):** A grade of "C" or better in BIO 113, BIO 113L, BT 255 or BIO 235 and a grade of "C" or better in CHEM 211 and CHEM 211L

**BT 465 Senior Internship Capstone**
9 credits, Fall and Spring
Provides an opportunity to gain professional workforce experience. A minimum of 324 hours of on-site work is required. The work must integrate and apply academic content appropriate to the workforce placement. Emphasis is on honing oral and written skills in the context of the internship experience. In February, invitations to apply are extended to all students who meet the prerequisites. **Restricted to biotechnology majors.**
**Prerequisite(s):** A grade of "C" or better in a minimum of two upper-level science courses; satisfactory completion of the School of the Sciences junior portfolio; two evaluations by science faculty
**Fees:** Parking and printing fees may be required

**BT 465H Honors Senior Internship Capstone**
9 credits, Fall and Spring
Provides an opportunity to gain professional workforce experience. A minimum of 324 hours of on-site work is required. The work must integrate and apply academic content appropriate to the workforce placement. Emphasis is on honing
oral and written skills in the context of the internship experience. Applications are competitive. In February, invitations to apply are extended to all students who meet the prerequisites.

**Restricted to biotechnology majors.**

**Prerequisite(s):** Cumulative and science GPA of 3.70 or higher; a grade of "C" or better in a minimum of two upper-level science courses; satisfactory completion of the School of the Sciences junior portfolio; two evaluations by science faculty.

**Fees:** Parking and printing fees may be required.

---

**Business Administration**

Brown School of Business and Leadership
Department of Business Administration
Department Chair: Deborah Leather, D.B.A.

**Business Administration Program Description**

The business administration major is designed to give graduates the knowledge, skills, critical thinking ability, and technological competence essential to be successful in business, conducting research, analyzing information, and communicating effectively. The business administration major provides a strong foundation in business functions and includes courses in management, marketing, finance, accounting, economics, information systems, international business, and business law. Additionally, students select electives from the disciplines above to develop a greater degree of specialization according to their individual interests and career goals.

**Business Administration Program Outcomes**

Upon completion of the Bachelor of Science in Business Administration, graduates will be able to:

1. Describe and explain business functions and technology affecting the conduct and structure of business organizations.
2. Analyze and explain business problems and propose solutions, both independently and in teams.
3. Communicate business information in both oral and written expression.
4. Identify, analyze, and evaluate ethical issues, principles, and practices that affect business in domestic and global environments.
5. Pursue contemporary business careers.

**Entrepreneurship Track Description**

The entrepreneurship track option is designed for students who wish to:

- Build and oversee a business venture.
- Obtain necessary skills and abilities to run a successful business enterprise.
- Enhance their knowledge in the areas of resource management, marketing feasibility, business finance, and business networking as required to run a self-owned business.
- Increase their proficiency to communicate and effectively promote innovative business ideas.

**Entrepreneurship Track Outcomes**

Upon completion of the entrepreneurship track, graduates will be able to:

- Identify specific business opportunities and construct corresponding entrepreneurial approaches.
- Utilize the elements of the entrepreneurial process: idea generation, start-up, and growth of a small business enterprise to determine the viability of new business opportunities.
- Identify and integrate required elements necessary to write a business plan for a new business venture.
- Demonstrate a working knowledge of specific marketing, finance, human resources, and legal management practices necessary to be a successful entrepreneur.
- Appraise specific entrepreneurial risks and determine alternate ways to reduce or eliminate such threats.

**Sport Management Track Description**

The sport management track option is designed for students who wish to:

- Provide management and/or marketing support to professional, intercollegiate, or interscholastic sport organizations or resort establishments.
- Oversee and operate recreational programs in municipalities or tourism environments.
- Oversee and operate an exercise or athletic training facility.
- Own a sport-related business.

**Sport Management Track Outcomes**

Upon completion of the sport management track, graduates will be able to:

- Identify and evaluate the unique business context of the different sport and recreation industries.
- Use and adapt specific business strategies in the application of managing a sport related organization.
- Apply appropriate legal and economic considerations to managing sport and recreation organizations.
- Analyze various marketing and promotional strategies to choose appropriate approaches in support of a successful sport business plan.

**Business Administration Program Policies**

Students must earn a minimum GPA of 2.50 in the major, and the lowest acceptable grade is a “C” in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of “C” or better in the prerequisite course(s). When a grade below “C” is earned in a major course, the student must repeat that course.

A course may be repeated once without special permission. Business administration majors must apply in writing to the department chair requesting permission to repeat a course for a second time. Those who do not successfully complete a major course with a grade of “C” or better after a third attempt will not be allowed to continue in the business administration program.

**Business Administration Program Requirements**

The courses listed below are required for completion of the bachelor’s degree in business administration. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

**Major Requirements:**

- ACC 140 Financial Accounting
- ACC 141 Managerial Accounting
- EC 201 Principles of Economics: Macroeconomics
- EC 202 Principles of Economics: Microeconomics
- FIN 300 Principles of Finance
- INBUS Any International Business Course
- IS 134 MS Windows and Office Applications
- IS 135 Advanced MS Office Applications
- IS 201 or Management Information Systems or
- IS 260 Presentation Theory and Application
- LAW 208 Business Law
- MATH 140 or Statistics and Probability
- MATH 210 Principles of Management
- MGT 204
MGT 210  Business Writing
MGT 310  Organizational Behavior
MGT 312  Analysis of the Managerial Environment
MGT 313  Operations Management
MGT 430  Business Capstone Seminar
MKT 206  Principles of Marketing
PHL 416  Business Ethics

Five business electives selected from the following subject areas:
ACC, EC, FIN, INBUS, IS, LAW, MGT, MKT
or
Entrepreneurship Track
or
Sport Management Track

Entrepreneurship Track:
All major requirements and the following electives:
IS 301  Principles of E-Commerce
MGT 224  Principles of Entrepreneurship
MGT 324  Entrepreneurial Business Planning
MGT 424  Entrepreneurial Development
MKT 330  Strategic Marketing for Entrepreneurs

Sport Management Track:
All major requirements and the following electives:
EC 340  Economics of Sports
LAW 345  Sports Law
MGT 235  Introduction to Sport Management
MGT 335  Management of Sport Enterprises
MKT 315  Sports Marketing

Business Administration Other Options

Minors:
A minor in business administration is not available; however, students majoring in other fields who have an interest in business may consider taking a minor in accounting, economics, international business, management, or marketing. Students pursuing a minor may select any six courses from the discipline, yet must meet all prerequisites for the course. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.

BS/MS Option:
The BS/MS option is available for students majoring in business administration who wish to combine their bachelor’s coursework with work toward a master’s degree in one of Stevenson’s graduate programs. Students choosing this option may earn their master’s degree in as little as one year after their bachelor’s degree. Interested students must formally apply for entrance into a BS/MS option in their junior year. Once admitted into this program, students develop an educational plan in consultation with their undergraduate and graduate advisors. For more information on this program, see the School of Graduate and Professional Studies Catalog.

Business Administration Course Descriptions

International Business Courses

INBUS 201 Survey of International Business
3 credits, Fall and Spring
Examines the reasons why companies engage in international business, the modes of entry, the external environment which influences strategies and their implementation, and the international operations decisions. This course provides a critical dimension to the understanding of the current business environment and will prepare students to function more knowledgeably in many business careers.
Prerequisite(s): A grade of "C" or better in MGT 204

INBUS 325/MKT 325 International Marketing
3 credits, Fall and Spring
Examines the economic, cultural, political, and technological factors that affect the marketing of goods, services, and experiences worldwide. Emphasis is on the problems and decisions involved across and within international borders, and the structure in international markets. Students will gain insight into developing marketing strategies outside the U.S.
Prerequisite(s): A grade of "C" or better in MKT 206

INBUS 415/MGT 415 International Business Management
3 credits, Fall and Spring
Examines international business activities and how business and management decisions are affected by international politics, treaties, and agreements. This course also discusses differences in customs and ethics, changes in monetary exchange rates, uses of foreign labor, and effects of natural events on management decisions.
Prerequisite(s): A grade of "C" or better in MGT 204 and MKT 206

INBUS 416/FIN 416 International Finance
3 credits, Fall or Spring
Examines the operation and financing of businesses and other organizations in the global capital markets. This course will discuss the key differences between domestic and international finance, including exchange rate exposure and management, political risk, international taxation, and international financial instruments.
Prerequisite(s): A grade of "C" or better in FIN 300 or FIN 402

INBUS 420/MGT 420 International Operations Management
3 credits, Fall
Examines the strategic and tactical aspects of international operations and global supply chain management. Topics discussed include the full supply chain management cycle beginning with global operational issues, raw material procurement, production, warehousing, and delivery of finished goods to end customers. This course will focus on key differences between domestic and international operations and contemporary supply chain challenges presented by globalization.
Prerequisite(s): A grade of "C" or better in INBUS 415/MGT 415, FIN 300 or FIN 402

INBUS 430/EC 430 International Economics
3 credits, Fall or Spring
Examines the major issues in the area of international trade and their implications regarding global welfare. The major topics discussed include sources of comparative advantage, gains and losses from trade, globalization, and trade policy. The effects of exchange rate and domestic macro policies on global economies are also discussed.
Prerequisite(s): A grade of "C" or better in EC 201 and EC 202

INBUS 470/LAW 470 International Business Law
3 credits, Fall
Examines various aspects of international business law, including multinational enterprises, trade in goods, services and labor, money and banking, foreign investment, sales, intellectual property, transportation, financing, taxation, environmental protection, and dispute resolution.
Prerequisite(s): A grade of "C" or better in LAW 130 and LAW 210 (for paralegal majors) or LAW 208 or LAW 308 (for business and accounting majors) and senior status

Management Courses

MGT 204 Principles of Management
3 credits, Fall and Spring
Examines theories and principles underlying the management process. Students discuss fundamental management activities
including planning, organizing, leading, controlling, and decision making.

**Prerequisite(s):** ENG 151 or equivalent (may be taken concurrently)

**MGT 210 Business Writing**  
**3 credits, Fall and Spring**  
Focuses on the purposes, principles, and techniques of business writing. The course provides students with a review of the basics in writing while using a variety of operational workplace writing exercises, for example, memos, letters, electronic messages, reports, and short research proposals, so that students may apply advanced critical thinking and analytical competencies to develop overall writing ability.

**Prerequisite(s):** A grade of "C" or better in ENG 152 or equivalent

**MGT 224 Principles of Entrepreneurship**  
**3 credits, Fall and Spring**  
Examines the elements of a successful entrepreneur and the role of entrepreneurial ventures in the U.S. economy. Students will scrutinize the business skills and commitment required to successfully start and build a small business. The course is organized around three themes: 1) the personal qualities of the entrepreneur; 2) how to know and capture business opportunities; and 3) how to obtain and amass resources to start and build a small business. Through case studies and the models of entrepreneurship, students will assess their own entrepreneurial competencies.

**Prerequisite(s):** A grade of "C" or better in MGT 204

**MGT 235 Introduction to Sport Management**  
**3 credits, Fall and Spring**  
Examines the similarities and differences in managing sport organizations in five different sport-related industries including professional sport teams; college and secondary athletic departments; recreational sport facilities; exercise and fitness facilities; and individually owned companies. Each type of organization is studied to determine how the industry’s focused structure and mission relate to the organizational design, planning, decision-making process, budget, human resource and operational requirements, and governance.

**Prerequisite(s):** A grade of "C" or better in MGT 204

**MGT 310 Organizational Behavior**  
**3 credits, Fall and Spring**  
Examines human resource problems and the integration of management theory and behavioral concepts as they relate to modern organizations. Topics discussed include leadership and motivation, job satisfaction, conflict resolution, power and politics, group dynamics, and managerial skills.

**Prerequisite(s):** A grade of "C" or better in MGT 204 or HSR 340

**MGT 312 Analysis of the Managerial Environment**  
**3 credits, Fall and Spring**  
Analyzes and explains external factors affecting business functions such as, technology, political/legal environment, sociocultural environment, demographics, etc. This course builds on knowledge learned in previous business, accounting, and economics courses, and focuses on strategic planning aspects of an organization.

**Prerequisite(s):** A grade of "C" or better in ACC 141, EC 201, EC 202, MGT 210, and MGT 310

**MGT 313 Operations Management**  
**3 credits, Fall and Spring**  
Investigates effective operating control in businesses and the interrelationship between operations and other functions of an organization. Topics include operating strategy, production planning, quality management, inventory management, project management, and technology assessment.

**Prerequisite(s):** A grade of "C" or better in MGT 204 and MATH 210

**MGT 324 Entrepreneurial Business Planning**  
**3 credits, Fall or Spring**  
Provides the structural and hands-on elements to develop a business plan based on market research outcomes and related strategies. Emphasis is placed on entrepreneurial finance, marketing, required business resources, leadership, legal structure, and risks assessment. Students will learn how to organize and articulate business elements necessary to write a successful business plan. Business plans will be created by students working alone and in teams. Upon completion of the course, students will have developed a comprehensive business plan that can be used as the basis to start a new venture and to support requests for external capital funding.

**Prerequisite(s):** A grade of "C" or better in MKT 206 and MGT 224

**MGT 330 Introduction to Public Administration**  
**3 credits, Spring or Fall**  
Examines the theory and practice of administration and management of governmental operations, politics, policy, and the bureaucracy. This course discusses the role and trends of administration in the American public sector, the unique circumstances involved in administering public organizations, and the different techniques of public management. Functional operations and processes as they are administered in the public sector are also analyzed.

**Prerequisite(s):** A grade of "C" or better in MGT 204

**MGT 335 Management of Sport Enterprises**  
**3 credits, Fall or Spring**  
Examines a framework for strategic planning analysis for individuals wishing to work in a sport-related organization, with a sports team, or managing all or part of a sport facility. Students will study the unique aspects of the major types of sport enterprises and prepare a comprehensive business plan using the policies and methods for the type of enterprise assigned. Additional case studies and student assignments will offer an opportunity for comparative study of the types of organizations included within the sport enterprise archetype.

**Prerequisite(s):** A grade of "C" or better in MGT 235

**MGT 340 Organizational Leadership**  
**3 credits, Spring**  
Examines leadership in organizations and the personal approaches necessary for effective leadership and followership under a variety of conditions. Leadership theories and research including traditional and contemporary perspectives are reviewed.

**Prerequisite(s):** A grade of "C" or better in MGT 204 or permission of the department chair

**MGT 408 Human Resource Management**  
**3 credits, Fall**  
Examines human resource management and the role of line managers and HR professionals in recruiting, developing, and retaining a competent work force. Discussion will also include job analysis and design, human resource planning, compensation, benefits, labor relations, equal opportunity employment laws, work force diversity, and global competitiveness. This course prepares students to sit for the Professional in Human Resources (PHR) exam.

**Prerequisite(s):** A grade of "C" or better in MGT 310 or HSR 340
MGT 413 Project Management
3 credits, Fall and Spring
Examines the tools and techniques necessary to manage resources to meet project objectives. Topics include project scheduling, time-cost trade-offs, budgeting, cost control, and project monitoring, as well as project organization, team development, and risk management.
Prerequisite(s): A grade of "C" or better in MGT 313 and ACC 141.

MGT 415/INBUS 415 International Business Management
3 credits, Fall and Spring
Examines international business activities and how business and management decisions are affected by international politics, treaties, and agreements. This course also discusses differences in customs and ethics, changes in monetary exchange rates, uses of foreign labor, and effects of natural events on management decisions.
Prerequisite(s): A grade of "C" or better in MGT 204 and MKT 206.

MGT 417 Senior Business Internship
3 credits, Fall and Spring
Places students in an external business, government, or not-for-profit organization that offers a well-rounded, supervised, practical career experience. A minimum 120 hour on-the-job commitment is required.
Prerequisite(s): A grade of "C" or better in MGT 204 and MKT 206, junior status, minimum 2.50 cumulative GPA.

MGT 420/INBUS 420 International Operations Management
3 credits, Fall
Examines the strategic and tactical aspects of international operations and global supply chain management. Topics discussed include the full supply chain management cycle beginning with global operational issues, raw material procurement, production, warehousing, and delivery of finished goods to end customers. This course will focus on key differences between domestic and international operations and contemporary supply chain challenges presented by globalization.
Prerequisite(s): A grade of "C" or better in INBUS 415/MGT 415, FIN 300 or FIN 410.

MGT 424 Entrepreneurial Development
3 credits, Fall or Spring
Analyzes the stages in a company's growth and requires the development of a new company, product, or initiative. Students conduct a feasibility analysis, further develop a business plan and a marketing plan, and propose alternate strategies to secure start-up capital. Additional topics discussed include risk estimation, networking, franchises, mergers and acquisitions, and management skills.
Prerequisite(s): A grade of "C" or better in ACC 141, FIN 300 or FIN 402, MGT 324, and MKT 206.

MGT 430 Business Capstone Seminar
3 credits, Fall and Spring
Develops the ability to recognize, analyze, and define problems within and outside the organization, to identify management choices, and to implement appropriate strategic action. This course stresses the assessment of the short- and long-term implications of taking certain actions. This course uses a broad range of research methodologies, traditional and electronic data sources, and primary research in investigating and solving business problems.
Prerequisite(s): A grade of "C" or better in EC 201, EC 202, FIN 300, MGT 310, MGT 312, MGT 313, and MKT 206.

MGT 440 Leadership and Service Learning
3 credits, Fall, Spring or Summer (offered as needed)
Develops leadership, business, and change management skills to help students identify, analyze, and solve problems relating to social responsibility within an actual business organization. Students spend class time discussing leadership theory, learning leadership skills and practices, and engaging in self-discovery. Working in teams, students also apply that knowledge and skill in working with an external organization to identify and resolve issues and problems relating to community service and social responsibility. This course is open to students from all academic disciplines by application. Please see an academic advisor for more information.
Prerequisite(s): Junior or senior status.

Marketing Courses

MKT 206 Principles of Marketing
3 credits, Fall and Spring
Examines the relationship between an organization and the market for its goods and services. Topics covered include the marketing concept, marketing planning, consumer behavior, research, product development, and the marketing mix. Social, ethical, and international aspects of marketing are emphasized.
Prerequisite(s): ENG 151 or equivalent (may be taken concurrently).

MKT 207 Market Research
3 credits, Fall or Spring
Examines basic market research concepts, principles, and practices. Students will develop skills in problem identification and problem solving research. Content will develop the main components involved in conducting market research, including problem definition, research design, field work, analysis, and report presentation. Successful completion of this course will prepare students for careers utilizing the basic ability to conduct and present research, careers related to marketing and general business, and careers directly related to market research.
Prerequisite(s): A grade of "C" or better in MKT 206.

MKT 311 Consumer Behavior
3 credits, Fall and Spring
Examines consumer behavior as a fundamental component of the marketing process of identifying and satisfying target customers' wants and needs. The course will focus on how and why individuals make decisions to spend their available resources on consumption-related items. It will integrate consumer behavior with marketing strategy by examining the marketing influences of and responses to consumer behavior. Topics include the consumer as an individual and the internal influences of consumer behavior, consumers in their social and cultural settings and the external influences on consumer behavior, the consumer's decision-making process, and the impact on marketing strategy.
Prerequisite(s): A grade of "C" or better in MKT 206.

MKT 315 Sports Marketing
3 credits, Fall and Spring
Examines the application of marketing strategy and activity to a sports enterprise setting, including leagues, teams, events, and individuals. Topics include the impact of external, uncontrollable environments; the application of targeting and positioning strategies; the sport product and branding; event pricing and distribution strategies; and the use of appropriate, effective promotion tools.
Prerequisite(s): A grade of "C" or better in MKT 206.

MKT 316 Principles of Negotiation and Sales
3 credits, Fall and Spring
Examines the concepts, applications, and interrelationships involved in the process of negotiation. The course will also examine the wide range of negotiations in contemporary life and
the evolution of the role of sales to that of technical problem-solving and advising. The issue of ethics and ethical behavior in negotiation and sales will be a perspective in all discussions.

Prerequisite(s): A grade of "C" or better in MGT 204 and MKT 206

**MKT 325/INBUS 325 International Marketing**  
3 credits, Fall and Spring  
Examines the economic, cultural, political, and technological factors that affect the marketing of goods, services, and experiences worldwide. Emphasis is on the problems and decisions involved across and within international borders, and the structure in international markets. Students will gain insight into developing marketing strategies outside the U.S.

Prerequisite(s): A grade of “C” or better in MKT 206

**MKT 330 Strategic Marketing for Entrepreneurs**  
3 credits, Fall or Spring  
Examines effective marketing strategies and tools that should be used by the entrepreneur. Students will learn the process of idea generation and screening, how to develop market critical analysis, and the methodology to set appropriate marketing objectives for a specific company. Students will design a marketing campaign using current forms of electronic media.

Prerequisite(s): A grade of “C” or better in MKT 206 and MGT 224

**MKT 336 Integrated Marketing Communication**  
3 credits, Fall and Spring  
Examines the social and economic roles, principles, and applications of all forms of promotional tools in the development of integrated marketing communications programs. Included are advertising, sales, sales promotion, direct marketing, and public relations, with domestic and international perspectives.

Prerequisite(s): A grade of “C” or better in MKT 206

**MKT 410 Strategic Marketing Cases**  
3 credits, Fall or Spring  
Develops the student’s ability to identify, analyze, and resolve marketing problems using the case analysis method. Topics include target market selection, new product introduction, use of research, branding and promotion activity, and financial implications of alternatives under consideration.

Prerequisite(s): A grade of “C” or better in MKT 206 plus one additional MKT course

**MKT 417 Senior Business Internship**  
3 credits, Fall and Spring  
Places students in an external business, government, or not-for-profit organization that offers a well-rounded, supervised, practical career experience. A minimum 120-hour on-the-job commitment is required.

Prerequisite(s): A grade of “C” or better in MGT 204 and MKT 206, junior status, minimum 2.50 cumulative GPA

---

**Business and Leadership**

Brown School of Business and Leadership

**SBL 100 School of Business New Student Seminar**  
1 credit, Fall and Spring  
Provides new students enrolled in a major within the Brown School of Business and Leadership at Stevenson University with foundational experiences for student success. Topics include a review of school and University policies, tips on how to study at the college level, time management strategies, self-assessment, career options, and networking with upper division students. Students will be introduced to the process of Career Architecture through interactive discussions, self-exploration sessions, and other related activities. The creation of an academic portfolio will summarize the seminar activities. Restricted to and required for all new students majoring in fields within the Brown School of Business and Leadership.

Prerequisite(s): None

---

**Business Communication**

School of Design  
Department of Business Communication  
Department Chair: Chip Rouse, M.Ed, M.A.

**Business Communication Program Description**

The business communication program addresses the need of all businesses for clear, persuasive communication. Students majoring in business communication are prepared for a range of career opportunities or graduate school in communication, management, marketing, writing or design. Graduates are employed in both the public and private sectors and in business and industry.

Traditional business courses along with courses in communication, writing, publication, information technologies, video, photography, and design provide a firm foundation in business and the flexible skills needed to succeed in an increasingly expanding and sophisticated workforce. Study in classrooms and laboratories is enhanced by the practical application of these skills in a required internship.

Through classes and practical experience, students develop research skills, technical proficiency, and the ability to work with other departments or with clients in producing newsletters, composing reports, and creating promotional materials or group presentations. Their skills also include the ability to work in event planning, media, advertising, public relations, publishing, and marketing.

**Business Communication Program Outcomes**

Upon completion of the Bachelor of Science in Business Communication, graduates will be able to:

1. Demonstrate communication competency among various publics, through oral and written communication, including speeches, presentations, research, and informal dialogue.
2. Demonstrate competency in the various forms of business and public writing.
3. Demonstrate competency in explaining key concepts and practices of business and other organizations through class projects, case studies, and multimedia presentations.
4. Demonstrate competency in key concepts and principles in the fields of video or photography through the production of a finished portfolio or piece.
5. Apply principles of publication design and layout by employing both Mac and PC software programs in business applications.
6. Demonstrate competency in information technology through word processing, spreadsheets, and presentation software.
7. Complete an internship that satisfies employer and program expectations.

**Business Communication Program Policies**

Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless
y trained in a major course, without earning a grade of "C" or better in the prerequisite course(s). When a grade below "C" is earned in a major course, the student must repeat that course.

**Business Communication Program Requirements**

The courses listed below are required for completion of the bachelor’s degree in business communication. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

**Major Requirements:**

- **EDCP 100** First Year Seminar
- **ACC 215** Financial Accounting
- **CM 101** Public Speaking
- **CM 115** Interpersonal Communication
- **CM 211** Intercultural Communication
- **CM 253** Journalism I
- **CM 254** Journalism II
- **CM 260** Business and Professional Communication
- **CM 290** Business Communication Internship Prep
- **CM 390** Organizational Communication
- **CM 401** Senior Internship
- **MFT 101 or 102** Cinema I: Storytelling or
- **PHOTO 141** Digital Photography
- **IS 134** MS Windows and Office Applications
- **IS 135** Advanced MS Office Applications
- **MATH 140** Basic Statistics
- **MGT 204** Principles of Management
- **MKT 206** Principles of Marketing
- **VCD 124** Introduction to Computer Graphics
- **VCD 270** Introduction to Corporate Communication Design

**Take 4 focused electives (12 credits) from the following courses:**

- **CM 223** Writing for the Web
- **CM 255** Small Group Communication
- **CM 265** Event Planning and Publicity
- **CM 270** New Media Communication
- **CM 275** Principles and Practices of Public Relations
- **CM 310** Conflict and Negotiation
- **CM 350** Jr. Level BSCOM Internship
- **CM 380** The Advertising Campaign
- **CM 402** Special Topics
- **IS 260** Presentation Theory
- **VCD 370** Relationship of Business & Design

**Six credits from the following courses:**

- **CM 303** Feature Writing
- **CM 304** Public Relations Writing
- **CM 305** Newspaper Practicum
- **CM 314** Magazine Writing and Publishing

**Three business electives selected from the following subjects:**

- **MGT, MKT, EC, FIN, INBUS or LAW 208.**

**Business Communication Other Options**

**Minor:**

A minor in business communication is not available.

**BS/MS Option:**

The BS/MS option is available for students majoring in business communication who wish to combine their bachelor’s coursework with work toward a master’s degree in one of Stevenson’s graduate programs. Students choosing this option may earn their master’s degree in as little as one year after their bachelor’s degree. Interested student must formally apply for entrance into a BS/MS option in their junior year. Once admitted into this program, students develop an educational plan in consultation with their undergraduate and graduate advisors. A master’s degree in Communication Studies will be offered beginning fall, 2015. For more information on this program, see the *School of Graduate and Professional Studies Catalog.*

**Business Communication Course Descriptions**

**CM 101 Public Speaking**

3 credits, Fall and Spring

Focuses on the development of skills in the writing and presenting of various types of speeches. Students will practice and deliver several speeches with the goals to inform, persuade, and entertain audiences.

**Prerequisite(s):** None

**CM 115 Interpersonal Communication**

3 credits, Fall and Spring

Emphasizes a connection between theory and practice to comprehensively view the concepts and research in dyadic interpersonal communication. Students improve upon a wide range of interpersonal skills to apply these to personal, social, and workplace relationships. In addition, issues of cultural diversity, ethics, technology, and power are covered.

**Prerequisite(s):** None

**CM 211 Intercultural Communication**

3 credits, Fall and Spring

Emphasizes a connection between communication theory and practice in multicultural contexts. Students learn to identify barriers that exist in communicating across cultures and to weigh strategies that help manage or overcome such obstacles in an effort at promoting effective intercultural communication.

**Prerequisite(s):** Sophomore status

**CM 223 Writing for the Web**

3 credits, Spring

Develops skills in writing for online media, with a focus on the Internet’s non-linear, visual, and collaborative possibilities. Students analyze a variety of web hypertexts, learn the basic steps of web development, and produce personal, expository, and collaborative hypertexts tailored to their majors and areas of interest.

**Prerequisite(s):** A grade of "C" or better in ENG 152 or equivalent

**CM 253/ENG 253 Journalism I**

3 credits, Fall

Introduces students to the fundamentals of journalism: research; interview techniques; writing and editing news, sports, and features; basic layout design; and computer compositing. The course also covers journalist ethics and legal issues connected with newspaper publishing. Students learn to write news stories and features, using the Associated Press style and standards. Students perform a variety of tasks associated with publishing *The Villager*, the university newspaper, and they prepare a writing portfolio used for professional advancement and assessment. *Restricted to business communication and English language and literature majors.*

**Prerequisite(s):** A grade of "C" or better in ENG 152 or its equivalent

**CM 254/ENG 254 Journalism II**

3 credits, Spring

Continues the theory and practice of journalism composing and layout begun in CM/ENG 253. Students learn interview and reporting strategies that produce in-depth reporting and feature
writing. Students begin editorial, review, and commentary writing, and they continue to work on portfolios and on the production of the university newspaper. Restricted to business communication and English language and literature majors. *Prerequisite(s):* A grade of "C" or better in CM/253/ENG 253.

**CM 255 Small Group Communication**

*3 credits, Offered as needed*

Examines theories, research, and case studies of small group and team communication. Students engage in exercises that help them to move from theoretical discussions into application and experience of the concepts presented. *Prerequisite(s):* A grade of "C" or better in CM 101 and prior CM courses.

**CM 260 Business and Professional Communication**

*3 credits, Fall and Spring*

Focuses on practical speaking and writing within the contexts of business and related professions. *Prerequisite(s):* A grade of "C" or better in CM 101 and prior CM courses.

**CM 265 Event Planning and Publicity**

*3 credits, Fall*

Examines the many facets of creating, planning and executing an event, including managing the budgeting, marketing, site selection and affiliated costs. Students in this course devise and analyze specific communication strategies connected to event planning, such as targeting media and audiences. *Prerequisite(s):* A grade of "C" or better in a 100-level CM course.

**CM 270 New Media Communication**

*3 credits, Spring*

Examines the paths through which new technologies are integrated into society. This course analyzes what new media are, how they originate, and ways in which communication through them presents challenges. It also distinguishes, explores and assesses new media, the ways in which they impact communication, and the skills necessary to understand and consume new media. *Prerequisite(s):* A grade of "C" or better in a 100-level CM course.

**CM 275 Principles and Practices of Public Relations**

*3 credits, Fall*

Examines the historical roots of public relations combined with the legal, ethical, and professional responsibilities of public relations practitioners. This course explores the process of public relations, including the research, planning, action and communication, and evaluation of public relations initiatives. Through critical analysis of contemporary public relations case studies, students will assess and interpret both the successes and failures of for-profit and non-profit public relations organizations. *Prerequisite(s):* A grade of "C" or better in a 100-level CM course.

**CM 290 Business Communication Internship Prep**

*1 credit, Fall and Spring*

Examines the components necessary for securing an internship in the field. This course will help students analyze their own abilities and skills in terms of professional career placement. It will enable students to assess possible internships for their suitability to these abilities and skills. As a result, students will be able to secure a placement in an internship when appropriate. This course is taken the semester prior to a student's first internship. *Prerequisite(s):* A grade of "C" or better in CM 260.

**CM 303/ENG 303 Feature Writing**

*3 credits, Fall*

Expands basic journalism skills, applying professional standards to student writing. Students will learn to write critical reviews; profile, travel and service articles; and a personal experience article. Students will read and comment on current noteworthy and award-winning feature writing, both from magazines and newspapers. Additionally, students will write a final paper and query letter intended for publication. *Prerequisite(s):* A grade of "C" or better in CM 253/ENG 253 or permission of the instructor.

**CM 304/ENG 304 Magazine Writing and Publishing**

*3 credits, Spring*

Allows students to further develop both their journalistic writing skills and their creative skills by creating and writing for a class magazine. Through analysis of the history of magazines and the study of current noteworthy magazine articles and trends, students will become acquainted with magazine article writing and analysis. Students will explore all aspects of magazine production. *Prerequisite(s):* A grade of "C" or better in CM 254/ENG 254 or CM 303/ENG 303 or permission of the instructor.

**CM 305/ENG 305 Journalism Practicum**

*1.5 or 2 credits, Fall and Spring*

Engages student editors or senior-staff writers of The Villager. Students write news, commentary, editorials, features, and sports stories. They also design, edit, proofread, and copyedit each page of the paper. As needed, they take photographs, design and sell advertising, and create databases for billing. This course may be repeated for credit. *Prerequisite(s):* A grade of "C" or better in CM 254/ENG 254 or permission of instructor.

**CM 310 Conflict Resolution and Negotiation**

*3 credits, Fall*

Focuses on conflict as inevitable and mainly productive. Students will examine definitions of conflict and develop knowledge and skills to recognize and manage conflict. Through theory, case studies, and practice, students will be given the opportunity to understand conflict in various contexts, for example, within themselves, in relationships, and in organizations. *Prerequisite(s):* A grade of "C" or better in CM 101 and prior CM courses.

**CM 314/ENG 314 Public Relations Writing**

*3 credits, Fall and Spring*

Examines the fundamentals and practices of public relations in addition to composing specific public relations written works. Students will read, analyze, and discuss current public relations and media case studies. Additionally, students will create and write a press kit for a company, which will include writing a press release, backgrounder, newsletter, brochure, fact sheet, and radio spots for their intended media. *Prerequisite(s):* Completion of the core communications requirement and grade of "C" or better in CM 254/ENG 254 and CM 275.

**CM 350 Junior Internship**

*Variable credits, Fall and Spring*

Places juniors meeting specific eligibility requirements who will perform 120 hours of approved internship experience in an external setting during one semester. Students will be required to keep a daily journal, write several short papers as part of their final portfolio, and participate in a final, end-of-semester presentation. *Prerequisite(s):* Junior status, site approval, a 3.50 GPA, and completion of MGT 204, MKT 206, VCD 270, CM 254/ENG 254, CM 260, and one other business course; permission of instructor required.
CM 380 The Advertising Campaign
3 credits, Spring
Covers advertising campaigns and their many forms including print, radio, television, billboards, and websites. Students will learn the principles of advertising, positioning in the marketplace, creation of an identity for a company, branding, and creative techniques. Students will read contemporary case studies and complete a semester-long project in which they investigate a company’s successful and unsuccessful advertising campaigns. Through analysis and critical review of this company, students will then pitch a new advertising campaign that they have specifically created for the company.
Prerequisite(s): A grade of “C” or better in a 100- or 200-level CM course and MKT-206 or permission of department chair

CM 390 Organizational Communication
3 credits, Spring
Explores the connections between organizations and communication. Organizational communication will be introduced to students at philosophical, theoretical, and practical levels through discussions, papers, oral presentations, and group projects. Topics to be covered include, but are not limited to, supervisor-employee communication, networks, leadership, power, organizational cultures, and diversity in organizational processes.
Prerequisite(s): A grade of “C” or better in CM 260

CM 401 Senior Internship
Variable credits, Fall and Spring
Places seniors who will perform at least 120 hours of supervised and approved internship experience in an external setting through the course of one semester. Students will be required to keep a daily working journal, write several short papers, and participate in a final presentation. The senior internship is generally taken in the student’s final semester.
Prerequisite(s): Senior status, site approval, and completion of MGT 204, MKT 206, VCD 270, CM 254/ENG 254, CM 260, and one other business course; permission of instructor required

CM 402 Special Topics in Communication
3 credits, Fall or Spring (offered as needed)
Rotates concepts covering various aspects of communication that build upon and extend ideas addressed in the existing communication courses. Topics will vary but may include communication in the media, psychology of advertising, gender differences in communication, and the politics of communication. This course may be repeated for credit if topics are different.
Prerequisite(s): A grade of “C” or better in CM 101

Chemistry Program Outcomes
Upon completion of the Bachelor of Science in Chemistry, graduates will be able to:
1. Apply knowledge of chemical principles to the understanding of the world at a molecular level.
2. Plan, design, safely execute and interpret scientific experiments using the scientific method.
3. Communicate scientific knowledge in clear notebook entries, laboratory reports and oral and poster presentations.
4. Evaluate scientific discovery for its scientific merit and in terms of its ethical, societal and global implications using knowledge of chemical principles.
5. Exhibit behaviors consistent with the professional and ethical standards of the discipline.

Chemistry Program Policies
Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to take a science or math course unless he/she earns a grade of “C” or better in all prerequisite courses.
A student may not earn a grade of “C-” or lower in any science or math course more than three times during the program. If a fourth grade of “C-” or lower is earned in any science or math course, the student will be automatically dismissed from the chemistry major.
Probation: The student who earns any combination of two grades of “C-” or lower in a science or math course will be notified, in writing, by the department chair that he or she is on probation in the School of the Sciences.
Final Probation: The student who earns any combination of three grades of “C-” or lower in a science or math course will be notified, in writing, by the department chair that he or she is on final probation in the School of the Sciences.
Dismissal: If a fourth grade of “C-” or lower in any science or math course is earned, the student will be notified, in writing, by the department chair that he or she is dismissed from the major.

Chemistry Program Requirements
The courses listed below are required for completion of the bachelor’s degree in chemistry. Students must also complete the requirements for the Stevenson Educational Experience (SEE).
Specific pre- and co-requisites for each course are listed in the course descriptions.

Major Requirements:
SCI 100  School of the Sciences New Student Seminar
BIO 113  General Biology I
BIO 113L  General Biology Laboratory
BIOCH 327  Biochemistry
CHEM 115  General Chemistry I
CHEM 115L  General Chemistry I Laboratory
CHEM 115S  General Chemistry I SoLVE
CHEM 116  General Chemistry II
CHEM 116L  General Chemistry II Laboratory
CHEM 116S  General Chemistry II SoLVE
CHEM 210  Organic Chemistry I
CHEM 210L  Organic Chemistry I Laboratory
CHEM 211  Organic Chemistry II
CHEM 211L  Organic Chemistry II Laboratory
CHEM 213  Electronic Literature Search
CHEM 221  Inorganic Chemistry
CHEM 304  Third Year Chemistry Seminar–
CHEM 310  Analytical Chemistry
CHEM 431  Physical Chemistry: Quantum Mechanics
CHEM 432  Physical Chemistry: Thermodynamics
MATH 220  Calculus I
MATH 221  Calculus II
PHIL 415  Professional Ethics
PHYS 215  Physics I with Calculus
PHYS 216  Physics II with Calculus

Select two of the following three integrative laboratory options:
BIOCH 345L  Integrative Laboratory I
CHEM 346L  Integrative Laboratory II
CHEM 347L  Integrative Laboratory III

Senior Capstone Experiences (Select One):
CHEM 450, 460 or 460H Sr. Research Capstone in Chemistry
CHEM 455, 465, or 465H Sr. Internship Capstone in Chemistry
++ Students choosing one of the 9-credit senior capstone options can take one less upper level chemistry elective

Chemistry electives
BIOCH 427  Advanced Biochemistry
CHEM 330  Advanced Organic Chemistry
CHEM 340  Medicinal and Drug Chemistry
CHEM 365  Independent Lab Research in Chemistry
CHEM 410  Instrumental Analysis

Chemistry Other Options

Minor:
A minor in chemistry is available. A student wishing to take any chemistry course for the chemistry minor must meet the prerequisite(s) for the particular course. Student must take six courses that count in the chemistry major, excluding seminar and one or two credit courses. Students majoring in biochemistry may not earn a minor in chemistry. Please see the chair of the Department of Chemistry for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.

BS/MS option:
The BS/MS option is available for students majoring in chemistry who wish to combine their bachelor's coursework with work toward a Stevenson University master's degree in forensic sciences in the chemistry or crime scene investigation track. Students choosing this option may earn their master's degrees in as little as one year after their bachelor's degree. Interested students must formally apply for entrance into this BS/MS option in their junior year. Once admitted into this program, students develop an educational plan in consultation with their undergraduate and graduate advisors. Please see the Forensic Sciences section of this catalog for more information.

BS/MAT option:
The BS/MAT option is available for students majoring in chemistry who wish to combine their bachelor's coursework with work toward a Stevenson University master's degree in teaching. Please see Additional Enrollment Options in the Admissions section of this catalog for more information.

Articulation Agreement:
University of Maryland School of Pharmacy
The Department of Chemistry has an articulation agreement with the University of Maryland School of Pharmacy. This is for a dual-degree undergraduate-professional program (3+4) leading to a bachelor's in chemistry from Stevenson University and a Doctor of Pharmacy from the University of MD School of Pharmacy. Under the conditions of this agreement, students attend Stevenson for three years taking courses specified by the articulation agreement. Then, if they are accepted into the pharmacy program at the University of Maryland, several of the courses in their first year at the School of Pharmacy will substitute for Stevenson courses. This will allow the students in this program to get a bachelor’s degree in chemistry from Stevenson when they complete their first year at the University of Maryland School of Pharmacy. Please see the chair of the Department of Chemistry for more information.

Chemistry Course Descriptions

CHEM 105 Introduction to Chemistry of Medicine
3 credits, Fall
Introduces students to the chemistry of medicine. This course focuses on the sources, history and mechanisms of action of analogics, anti-inflammatory, antibacterial and antiviral drugs, and anti-cancer agents. Traditional and complementary treatment approaches for specific diseases and the implication of drugs in society are discussed. Designed for non-science majors. Prerequisite(s): A grade of "C" or better in ENG 151 or equivalent

CHEM 110 Foundations of General, Organic and Biochemistry Laboratory
3 credits, Fall and Spring
Introduces the basic concepts of general chemistry, including atomic structure, chemical reactions, solutions, acid base chemistry and nuclear chemistry; organic chemistry, including basic functional groups and reactions; and biochemistry, including the composition and properties of carbohydrates, lipids, proteins and nucleic acids. Prerequisite(s): Eligible for MATH 121 or higher and ENG 151 or higher Corequisite(s): CHEM 110L

CHEM 110L Foundations of General, Organic and Biochemistry Laboratory
1 credit, Fall and Spring
Introduces the concept of the scientific method to laboratory work, including the purpose of the experiment and analysis of data collected on topics related to course lecture material. Students will also participate in online discussions related to case studies from the medical world. Prerequisite(s): Eligible for MATH 121 or higher and ENG 151 or higher Corequisite(s): CHEM 110

CHEM 111 Introduction to Chemistry
3 credits, Fall and Spring
Surveys the concepts covered in General Chemistry with an emphasis on mathematical relationships. Topics include classification of matter, atomic structure, nomenclature of inorganic ions and compounds, chemical equations, the concept of the mole, stoichiometry and gas laws. Note: Students are placed into this course on the basis of standardized math test scores and/or math placement test results. Students must receive a "C" or better in CHEM 111 before continuing to CHEM 115. Corequisite(s): MATH 121
CHEM 115 General Chemistry I
3 credits, Fall and Spring
Introduces the structure of matter and its behavior from a chemical perspective. Topics discussed include nomenclature, stoichiometry, chemical reactions, quantum theory, chemical bonding, periodicity, gases, and atomic and molecular structure. 
Prerequisite(s): eligibility for MATH 125 or higher and eligibility for ENG 151 or higher. 
Corequisite(s): CHEM 115L and 115S

CHEM 115L General Chemistry I Laboratory
1 credit, Fall and Spring
Introduces students to working safely in a chemistry laboratory and keeping a laboratory notebook. Experiments performed include the physical properties of matter, chromatography, analysis of hydrates, solubility of inorganic salts, acids and bases, calorimetry, color and absorption of light, gravimetric analysis, gas laws, chemical bonding and molecular modeling. Students will learn laboratory techniques, instrumentation and molecular modeling. 
Prerequisite(s): eligibility for MATH 125 or higher and eligibility for ENG 151 or higher. 
Corequisite(s): CHEM 115 and CHEM 115S

CHEM 115H Honors General Chemistry I
3 credits, Fall
Introduces the structure of matter and its behavior from a chemical perspective. Topics discussed include nomenclature, stoichiometry, chemical reactions, quantum theory, chemical bonding, periodicity, gases and atomic and molecular structure. This course is a more demanding section of CHEM 115 designed for students with a strong math background who wish to explore in greater depth selected aspects of general chemistry. 
Prerequisite(s): eligibility for MATH 125 or higher and eligibility for ENG 151 or higher and invitation by department chair 
Corequisite(s): CHEM 115HL and CHEM 115S

CHEM 115HL Honors General Chemistry I Laboratory
1 credit, Fall
Introduces students to working safely in a chemistry laboratory and keeping a laboratory notebook. Experiments performed include the physical properties of matter, chromatography, analysis of hydrates, solubility of inorganic salts, acids and bases, calorimetry, color and absorption of light, gravimetric analysis, gas laws, chemical bonding and molecular modeling. Students will learn laboratory techniques, instrumentation and molecular modeling. More in depth analysis of laboratory experiments than in the CHEM115L course is required. 
Prerequisite(s): eligibility for MATH 125 or higher and eligibility for ENG 151 or higher 
Corequisite(s): CHEM 115H and CHEM 115S

CHEM 115S General Chemistry I SolVE
0 credits, Fall and Spring
Engages students in small group problem solving on topics related to material covered in CHEM 115. Active learning, inquiry, team building and the integration of STEM disciplines are emphasized throughout the sessions. 
Corequisite(s): CHEM 115 or CHEM 115H and CHEM 115L or CHEM 115HL

CHEM 116 General Chemistry II
3 credits, Fall and Spring
Introduces the states of matter including liquids, solids and solutions, followed by discussion of chemical principles including kinetics, equilibrium, acids and bases, thermodynamics, electrochemistry, and nuclear chemistry. 
Prerequisite(s): A grade of "C" or better in CHEM 115 and CHEM 115L 
Corequisite(s): CHEM 116L and CHEM 116S 

CHEM 116L General Chemistry II Laboratory
1 credit, Fall and Spring
Focuses on the performance of a selection of basic laboratory procedures including molecular modeling, colligative properties, kinetics, equilibrium, titration, pH of acids and bases, buffer systems, LeChatelier’s principle, solubility product constants, qualitative analysis and electrochemistry. Emphasis is placed on instrumentation, maintaining a laboratory notebook, using correct techniques and utilizing chemical software programs. 
Prerequisite(s): A grade of "C" or better in CHEM 115 and CHEM 115L 
Corequisite(s): CHEM 116 and CHEM 116S

CHEM 116H Honors General Chemistry II
3 credits, Spring
Introduces the states of matter including liquids, solids and solutions, followed by discussion of chemical principles including kinetics, equilibrium, acids and bases, thermodynamics, electrochemistry, and nuclear chemistry. This is a more demanding section of CHEM 116 designed for students with a high aptitude for math who wish to explore aspects of general chemistry in more depth. 
Prerequisite(s): A grade of "B" or better in CHEM 115H or permission of department chair 
Corequisite(s): CHEM 116HL and CHEM 116S

CHEM 116HL Honors General Chemistry II Laboratory
1 credit, Spring
Focuses on the performance of a selection of basic laboratory procedures including molecular modeling, colligative properties, kinetics, equilibrium, titration, pH of acids and bases, buffer systems, LeChatelier’s principle, solubility product constants, qualitative analysis and electrochemistry. Emphasis will be placed on instrumentation, maintaining a laboratory notebook, using correct techniques and utilizing chemical software programs. More in depth analysis of laboratory experiments than in the CHEM 116L course is required. 
Prerequisite(s): A grade of "B" or better in CHEM 115H and CHEM 115HL or permission of department chair 
Corequisite(s): CHEM 116H and CHEM 116S

CHEM 116S General Chemistry II SolVE
0 credits, Fall and Spring
Engages students in small group problem solving on topics related to material covered in CHEM 116. Active learning, inquiry, team building and the integration of STEM disciplines are emphasized throughout the sessions. 
Corequisite(s): CHEM 116 or CHEM 116H and CHEM 116L or CHEM 116HL

CHEM 203 Environmental Chemistry
3 credits, Fall
Explores topics of inorganic and organic chemistry in order to understand the source, fate, transport, and effect of compounds on the environment. Students will learn about the chemistry that underlies natural processes in the atmosphere, hydrosphere, and lithosphere. The chemical aspects of anthropogenic changes to the environment will also be studied, including energy utilization, acid deposition, air and water pollution, use of herbicides and pesticides, ozone depletion, and waste disposal. 
Prerequisite(s): A grade of "C" or better in CHEM 116 and CHEM 116L

CHEM 203L Environmental Chemistry Laboratory
1 credit, Fall
Introduces the techniques and instruments used to study chemical compounds in the environment. An emphasis will be on methodologies relevant to today’s environmental scientist. Topics include methods for determining oxygen demand in natural and wastewaters, inorganic and organic profiles of soil and sediments,
trace metals in water and soil, levels of environmental hydrocarbons, and sampling for air particulates.  
**Prerequisite(s):** A grade of "C" or better in CHEM 116 and CHEM 116L  
**Pre- or Corequisite(s):** CHEM 203

**CHEM 210 Organic Chemistry I**  
3 credits, Fall and Spring  
Introduces the physical and chemical properties of alkanes, alkenes, alkynes, and alcohols. This course emphasizes organic nomenclature, syntheses, stereochemistry, and reaction mechanisms.  
**Prerequisite(s):** A grade of "C" or better in CHEM 116 and CHEM 116L  
**Corequisite(s):** CHEM 210L

**CHEM 210L Organic Chemistry I Laboratory**  
1 credit, Fall and Spring  
Continues education in safely working in a chemistry laboratory and keeping laboratory records. Students are introduced to common techniques associated with the preparation, purification, and chemical characterization of organic compounds.  
**Prerequisite(s):** A grade of "C" or better in CHEM 210 and CHEM 210L  
**Corequisite(s):** CHEM 210

**CHEM 211 Organic Chemistry II**  
3 credits, Fall and Spring  
Studies the physical and chemical properties of aromatic compounds, aldehydes, ketones, carboxylic acids and their derivatives, enolates, amines, and selected special topics. Syntheses and reaction mechanisms are stress throughout the course.  
**Prerequisite(s):** A grade of "C" or better in CHEM 210 and CHEM 210L  
**Corequisite(s):** CHEM 211L

**CHEM 211L Organic Chemistry II Laboratory**  
1 credit, Fall and Spring  
Continues education in safely working in a chemistry laboratory and keeping laboratory records. This course involves the synthesis and characterization of compounds by physical means and spectroscopy and unknown identification. Spectroscopies covered in depth include IR, NMR, and MS.  
**Prerequisite(s):** A grade of "C" or better in CHEM 210 and CHEM 210L  
**Corequisite(s):** CHEM 211

**CHEM 213 Electronic Literature Searching**  
1 credit, Fall  
Introduces students to current methods for searching the scientific literature. Areas of study include the various search engines and online tools used in scientific research, application of search skills to researching specific topic areas in both research and career development, developing skills in various citation formats and using reference manager software. This course familiarizes students with the American Chemical Society's format of journal articles, including critical review of published articles.  
**Corequisite(s):** CHEM 210

**CHEM 221 Inorganic Chemistry**  
3 credits, Spring  
Introduces the chemistry of inorganic compounds and materials. The course provides the descriptive chemistry of the elements with a focus on crystals, reaction types, thermodynamics, and donor-acceptor chemistry. A review of basic structure and bonding is also provided.  
**Prerequisite(s):** A grade of "C" or better in CHEM 116 and CHEM 116L

**CHEM 304 Third Year Chemistry Seminar**  
This course is under development.

**CHEM 310 Analytical Chemistry**  
3 credits, Fall  
Provides a rigorous study of those chemical principles pertinent to the understanding of quantitative analysis. These concepts include statistics, measurements, calibration and error, and are applied to the performance of sampling, titrations, activity, and different types of equilibria. Determination of the accuracy and precision of experimental data by application of statistical analysis to accrued data is emphasized.  
**Prerequisite(s):** A grade of "C" or better in CHEM 211 and CHEM 211L

**CHEM 330 Advanced Organic Chemistry**  
4 credits, Fall or Spring (offered as needed)  
Explores advanced topics in organic chemistry, including complex synthetic reactions and applications in natural product synthesis, reaction mechanisms, stereochemistry of functional groups, and advanced spectroscopy. Literature-based student presentations are required. Laboratory focuses on using organic chemistry techniques for the synthesis and characterization of organic compounds.  
**Prerequisite(s):** A grade of "C" or better in CHEM 211 and CHEM 211L

**CHEM 340 Medicinal and Drug Chemistry**  
3 credits, Fall  
Studies drugs used in therapeutics and presents medicinal chemistry from the chemical point of view. The topics include the classification of drugs, the pharmacology and mechanism of drug action, drug delivery, drug metabolism, structure activity relationship (SAR) and quantitative structure (QSAR) studies, potency, toxicology, and target selectivity.  
**Prerequisite(s):** A grade of "C" or better in CHEM 211

**CHEM 346L Integrative Laboratory II**  
2 credits, Fall  
Continues education in safe chemistry laboratory practices and proper and ethical laboratory record keeping. Focuses on using advanced techniques in the laboratory to solve interdisciplinary problems. Laboratory techniques include error analysis, creation and use of calibration curves, volumetric, photometric, and gravimetric methods of quantification, using Excel and electronic laboratory notebooks.  
**Pre- or Corequisite(s):** CHEM 310

**CHEM 347L Integrative Laboratory III**  
2 credits, Spring  
Continues education in safe chemistry laboratory practices and proper and ethical laboratory record keeping. Focuses on using advanced techniques in the laboratory to solve interdisciplinary problems. Laboratory techniques include gas-phase reactions, spectroscopic analysis, thermochemical analysis and theoretical modeling. Advanced mathematical concepts are introduced and utilized in data analysis.  
**Prerequisite(s):** A grade of C or better in CHEM 221  
**Pre- or Corequisite(s):** CHEM 432

**CHEM 365 Independent Laboratory Research in Chemistry**  
3 credits, Fall and Spring  
Provides an opportunity to conduct independent research in an on-campus laboratory under the supervision of a chemistry faculty member. This course may be repeated for credit. This course cannot be used as a substitute for the senior capstone requirement.  
**Prerequisite(s):** A grade of "C" or better in CHEM 211 and CHEM 211L, junior standing, permission of the faculty member who will be supervising the research, and permission of the department chair.
CHEM 410 Instrumental Analysis
4 credits, Spring
Explores the theory underlying instrumental methods of analysis with focus on spectroscopic and chromatographic instrumentation. Instrument components and routine instrument operation are covered.
Prerequisite(s): A grade of "C" or better in CHEM 310

CHEM 430 Physical Chemistry
3 credits, Spring
Focuses on the study of quantum mechanics, thermodynamics and chemical kinetics with an emphasis on application to biochemical systems. A conceptual and mathematical understanding of these concepts is developed throughout the course.
Prerequisite(s): A grade of "C" or better in CHEM 211 and 211L, PHYS 211 or 216, and MATH 220

CHEM 431 Physical Chemistry: Quantum Mechanics
3 credits, Fall
Focuses on quantum mechanics, the failures of classical mechanics, the classical wave equation, the particle in the box, harmonic oscillators, the hydrogen atom, approximate methods, and spectroscopy. A conceptual and mathematical understanding of these concepts is developed throughout the course.
Prerequisite(s): A grade of "C" or better in CHEM 116, CHEM 116L, PHYS 216, and MATH 221

CHEM 432 Physical Chemistry: Thermodynamics
3 credits, Spring
Focuses on states of matter, the laws of thermodynamics, thermodynamic energies, phase changes, chemical equilibrium, the kinetic theory of gases, and chemical kinetics. A conceptual and mathematical understanding of these concepts is developed throughout the course.
Prerequisite(s): A grade of "C" or better in CHEM 431 or permission of department chair

CHEM 450 Senior Research Capstone
5 credits, Fall and Spring
Provides an opportunity for the student to develop and conduct a scientific research project on or off campus. A minimum of 327 hours of laboratory work is required. Under the direction of a Stevenson or host mentor, each student performs independent and original research that is part of the mentor’s ongoing research program. Emphasis is on honing oral and written skills in the context of scientific inquiry. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to chemistry majors.
Prerequisite(s): A grade of "C" or better in a minimum of two upper-level chemistry courses; and in MATH 221; two evaluations by science faculty; and satisfactory completion of the School of the Sciences junior portfolio
Fees: Parking and printing fees may be required.

CHEM 460 Senior Research Capstone
9 credits, Fall and Spring
Provides an opportunity for the student to develop and conduct a scientific research project on campus or off campus. A minimum of 327 hours of laboratory work is required. Under the direction of a Stevenson or host mentor, each student performs independent and original research that is part of the mentor’s ongoing research program. Emphasis is on honing oral and written skills in the context of scientific inquiry. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to chemistry majors.
Prerequisite(s): A grade of "C" or better in a minimum of two upper-level chemistry courses; and in MATH 221; two evaluations by science faculty; and satisfactory completion of the School of the Sciences junior portfolio
Fees: Parking and printing fees may be required.

CHEM 455 Senior Internship Capstone
5 credits, Fall and Spring
Provides an opportunity to gain professional workforce experience. A minimum of 180 hours of on-site work is required. The work must integrate and apply academic content appropriate to the workforce placement. Emphasis is on honing oral and written skills in the context of the internship experience. Applications are competitive. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to chemistry majors.
Prerequisite(s): A grade of "C" or better in a minimum of two upper-level chemistry courses; and in MATH 221; two evaluations by science faculty; and satisfactory completion of the School of the Sciences junior portfolio
Fees: Parking and printing fees may be required.

CHEM 465 Senior Internship Capstone
9 credits, Fall and Spring
Provides an opportunity to gain professional workforce experience. A minimum of 327 hours of on-site work is required. The work must integrate and apply academic content appropriate to the workforce placement. Emphasis is on honing oral and written skills in the context of the internship experience. Applications are competitive. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to chemistry majors.
Prerequisite(s): Cumulative and science GPA of 3.70 or higher; a grade of "C" or better in a minimum of two upper-level chemistry courses; and in MATH 221; two evaluations by science faculty; and satisfactory completion of the School of the Sciences junior portfolio
Fees: Parking and printing fees may be required.

CHEM 465H Honors Senior Internship Capstone
9 credits, Fall and Spring
Provides an opportunity to gain professional workforce experience. A minimum of 327 hours of on-site work is required. The work must integrate and apply academic content appropriate to the workforce placement. Emphasis is on honing oral and written skills in the context of the internship experience. Applications are competitive. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to chemistry majors.
Prerequisite(s): Cumulative and science GPA of 3.70 or higher; a grade of "C" or better in a minimum of two upper-level chemistry courses; and in MATH 221; two evaluations by science faculty; and satisfactory completion of the School of the Sciences junior portfolio
Fees: Parking and printing fees may be required.
Criminal Justice Program Description
The criminal justice program has a commitment to improving the quality of justice through education, research, and public service. The faculty of the criminal justice program recognizes its mission as threefold.

The program is dedicated to offering its majors a state-of-the-art education in criminal justice by providing them with a comprehensive and critical understanding of the criminal justice system and the society in which it functions. At the same time, as part of Stevenson University’s School of Humanities and Social Sciences, the faculty is committed to addressing the needs of our students and to preparing them to move into criminal justice careers or post graduate work as liberally educated, intellectually mature, ethically aware, and culturally sensitive men and women. Moreover, the program is dedicated to providing students throughout the university with opportunities to examine critically the broad questions of how justice is administered in American society and globally as well as confront the fundamental issues of criminal justice, which they face as professionals and as involved citizens.

The criminal justice program is also dedicated to excellence in research and scholarship by tackling the criminal justice issues in the State of Maryland. The faculty is also committed to research that advances the teaching, assessment, and knowledge base of the field of criminal justice and also research that has policy implications and serves the goals of equity and efficiency in the administration of justice.

Finally, this program has a special commitment to providing the expertise of its faculty as a resource to assist criminal justice and social service agencies in the greater metropolitan Baltimore area in the realms of applied research, policy development, training, and planned change to meet the social and technological challenges of the 21st century.

In order to accomplish our mission, our program pledges to:
- Provide a state-of-the-art curriculum and educational environment.
- Foster the talent development of students, faculty, and staff.
- Integrate technology into the curriculum, including web enhanced instruction.
- Promote each student's capacity for self-directed, life-long learning.
- Ensure learner-centeredness in order to maximize learning.
- Support faculty scholarly endeavors and research activities.
- Enhance quality through a commitment to continuous improvement.
- Reinforce the value of service to the community.
- Develop ongoing partnerships and collaboration with criminal justice agencies.
- Expand placement opportunities of graduates.
- Inspire a sense of pride in being a graduate of the criminal justice program at Stevenson University.

Criminal Justice Program Outcomes
Upon completion of the Bachelor of Science in Criminal Justice, graduates will be able to:
1. Articulate the theories, policies, practices, processes, and reforms of the major institutions of social control.
2. Apply the theories and principles of both substantive and procedural law that regulate the justice system.
3. Formulate a problem and assemble relevant information in order to develop a well-considered solution in a formal proposal and research paper.
4. Employ an ethical framework to reach judgments and make decisions as a criminal justice professional.
5. Apply classroom learning in an area of the criminal justice system through direct experience through an experiential learning opportunity in a criminal or juvenile justice agency or organization.

Criminal Justice Program Policies
Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of "C" or better in the prerequisite course(s). When a grade below a "C" is earned in a major course, the student must repeat that course.

A course may be repeated once without special permission. Criminal justice majors must apply in writing to the Dean of the School of Humanities and Social Sciences requesting permission to attempt a course for a third time.

Criminal Justice Program Requirements
The courses listed below are required for completion of the bachelor's degree in criminal justice. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

Major Requirements:
- EDCP 100 First Year Seminar
- CJUS 101 Introduction to Criminal Justice
- CJUS 210 Writing for Criminal Justice
- CJUS 220 Criminal Law & Procedure
- CJUS 265 The Juvenile Justice System
- CJUS 275 Corrections
- CJUS 280 Law Enforcement
- CJUS 285 Criminology
- CJUS 305 Ethical Issues in Criminal Justice
- CJUS 310 Comparative Criminal Justice
- CJUS 325 Civil Liability in Criminal Justice
- CJUS 345 Victimology
- CJUS 380 American Courts & the Criminal Justice System
- CJUS 385 Research Methods in Criminal Justice
- CJUS 417 Criminal Justice Internship
- IS 134 MS Windows and Office Applications
- IS 135 Advanced MS Office Applications
- MATH 140 Basic Statistics
- POSCI 205 State & Local Government
- PSY 101 Introduction to Psychology
- SOC 101 Introduction to Sociology

Select Four Elective Courses:
- CJUS 335 White Collar Crime
- CJUS 350 Criminal Justice Special Topics
- CJUS 355 Race & Crime
- CJUS 375 Probation and Parole
- CJUS 381 Justice, Media & Crime
- CJUS 382 Crime Mapping & Crime Analysis
- CJUS 383 Law Enforcement & the Community
- CJUS 390 Domestic Security
- CJUS 420 Study Abroad Internship
- CJUS 430 Law Enforcement Administration & Management
- SOC 304 Topics in Sociology
- SOC 375 Social Stratification

~ Course under development
Criminal Justice Other Options

Minor:
A minor in criminal justice is available. All course prerequisites must be met to be eligible to take the selected course for a minor. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.

BS/MS Option:
The BS/MS option is available for students majoring in criminal justice who wish to combine their bachelor's coursework with work toward a master's degree in one of Stevenson's graduate programs. Students choosing this option may earn their master's degree in as little as one year after their bachelor's degree. Interested students must formally apply for entrance into a BS/MS option in their junior year. Once admitted into this program, students develop an educational plan in consultation with their undergraduate and graduate advisors. For more information on this program, see the School of Graduate and Professional Studies Catalog.

Criminal Justice Course Descriptions

**CJUS 101 Introduction to Criminal Justice**
3 credits, Fall and Spring
Provides students with an overview of the criminal justice system, including historical development, present status, and suggested reforms. Topics covered include the duties and functions of actors in the criminal justice system, such as victim, offender, police, prosecuting and defense attorneys, and courts and corrections. Also covered is the criminal justice process from the formation of laws to the final stages of the treatment of criminals.

**Prerequisite(s):** None

**CJUS 210 Writing for Criminal Justice**
3 credits, Fall and Spring
Emphasizes the development of reading, writing, and critical thinking skills in criminal justice. This course provides students with the skills necessary to interpret literature in the field of criminal justice and to write and speak about criminal justice topics in an accurate, clear and concise manner. In addition to being introduced to the basics of criminal justice research and APA style, students will be taught to take notes effectively and to write reports, social histories, and scholarly essays, as well as agency and court narratives.

**Prerequisite(s):** A grade of "C" or better in ENG-152

**CJUS 220 Criminal Law and Procedure**
3 credits, Fall and Spring
Provides an overview of criminal law and the fundamental elements of criminal procedures including methods and rules of police investigation and arrest, adjudication, sentencing, and appellate review by higher courts.

**Prerequisite(s):** A grade of "C" or better in CJUS 101

**CJUS 265 The Juvenile Justice System**
3 credits, Fall and Spring
Examines the juvenile justice system including its history, structure, and interrelationships among law enforcement, the courts, and corrections. This course also explores federal, state, and local laws and programs with an emphasis upon case law and statutory law, both historical and current. Issues in terms of the philosophy of parens patriae doctrine and constitutional procedures are also explored.

**Prerequisite(s):** A grade of "C" or better in CJUS 101

**CJUS 275 Corrections**
3 credits, Fall and Spring
Examines the history, structure, and functions of corrections, and the legal and philosophical basis for the punishment of criminal offenders including the role of corrections as one of the three major components of the criminal justice system.

**Prerequisite(s):** A grade of "C" or better in CJUS 101

**CJUS 280 Law Enforcement**
3 credits, Fall and Spring
Provides students with an understanding of the fundamental principles of law enforcement. This course presents a substantial chronology of policing in the United States, beginning with the pre-American experience and ending with recent events. A wide spectrum of law enforcement agencies, identifying the most important characteristics of city, state, and federal police work are examined. The services and importance of different police activities (patrol, traffic, and criminal investigation) are explained and particular attention is given to current issues and trends in law enforcement.

**Prerequisite(s):** A grade of "C" or better in CJUS 101

**CJUS 285 Criminology**
3 credits, Fall and Spring
Examines the history, structure, and functions of corrections, and police investigation and arrest, adjudication, sentencing, and appellate review by higher courts. Also covered is the criminal justice process from the formation of laws to the final stages of the treatment of criminals.

**Prerequisite(s):** A grade of "C" or better in CJUS 101

**CJUS 305 Ethical Issues in Criminal Justice**
3 credits, Fall or Spring (offered as needed)
Examines the field of criminal justice ethics, which broadly encompasses the history of justice and theories of morality and ethics. It includes the study of ethics from both the individual perspective and the organizational standpoint. Concrete ethical issues and dilemmas that are encountered regularly by participants in the major components of the criminal justice system are covered. Ethical decision making opportunities within the three major branches of criminal justice are analyzed. This includes law enforcement ethics, correctional ethics, and legal profession ethics.

**Prerequisite(s):** A grade of "C" or better in any 200-level CJUS course

**CJUS 310 Comparative Criminal Justice Systems**
3 credits, Fall and Spring
Examines the criminal justice systems of selected countries with comparisons, where applicable, with that of the United States. Emphasis will be on crime rates, forms of criminality, police courts, and corrections. Descriptive material on selected countries will be analyzed and compared. This course will also focus on the thematic issues common among nations worldwide and provide insight into the various methods employed by those nations in administering criminal justice.

**Prerequisite(s):** A grade of "C" or better in any 200-level CJUS course

**CJUS 325 Civil Liability in Criminal Justice**
3 credits, Fall and Spring
Examines civil liability issues at the local, state, and federal law levels. Students develop better awareness of the liability risks relative to criminal justice service by learning proactive protocols that may minimize personal and organizational liability risks related to 1983 actions, wrongful death actions, and various personnel laws including ADA, EEOC, age and sex discrimination and sexual harassment.

**Prerequisite(s):** A grade of "C" or better in CJUS-220, CJUS-275, and CJUS-280
CJUS 335 White Collar Crime
3 credits, Fall and Spring
Examines the various forms of white-collar crime as illustrated through case studies. Students will estimate the extent and costs of these crimes which will be analyzed along with victim and offender profiles. Legal issues, including questions of corporate liability, will be reviewed as well as examination of the theoretical explanations for white-collar crimes committed by individual offenders and corporations. The problems associated with the enforcement of laws related to white-collar criminality, the investigation and prosecution of such offenses, and the sentencing of white-collar offenders will be examined. 
Prerequisite(s): A grade of "C" or better in any 200-level CJUS course

CJUS 345 Victimology
3 credits, Fall and Spring
Examines the crime victim as a larger part of our society and as a participant in the criminal justice system. Students will study criminal victimization in the United States, the role the victims play in the criminal justice process, their personal victimization, and victim-targeted service programs. 
Prerequisite(s): A grade of "C" or better in CJUS-101 and CJUS-285

CJUS 350 Special Topics
3 credits, Fall and Spring
Examines areas of criminal justice of current interest that are not covered in other CJUS courses. Emphasis will be placed on developing critical thinking and analytical skills through the study of special criminal justice topics. The course topic will differ with each offering of the course and will be specified in the class schedule for the session offered. This course may be repeated for credit if the topics are different. 
Prerequisite(s): A grade of "C" or better in CJUS 101

CJUS 355 Race and Crime
3 credits, Fall or Spring (offered as needed)
Examines how the issues of race, crime, and justice are played out in the context of a diverse society. The course considers three major issues: 1) how the law affects and has affected different racial groups in American society; 2) how different groups vary in their involvement in crime and the criminal justice system; and 3) how different racial groups respond differently to the justice systems. 
Prerequisite(s): A grade of "C" or better in any 200-level CJUS course

CJUS 375 Probation and Parole
3 credits, Spring
Examines the organization and operation of probation and parole agencies as particular segments of the criminal justice system. The historical and philosophical foundations, theoretical concerns that the options present, as well as the practical aspects of the services rendered are analyzed. Other topics critically reviewed are community-based corrections, options for treatment and intermediate sanctions, issues surrounding court orders and pre-sentence reports, the correctional and probation and parole officer's professional and ethical roles, and the legal decisions affecting practice in this field. 
Prerequisite(s): A grade of "C" or better in any 200-level CJUS course

CJUS 380 American Courts and the Criminal Justice System
3 credits, Fall and Spring
Examines the criminal court and its dual-court structure by focusing on the organization of criminal courts at both the federal and state levels. The roles and responsibilities in the adversarial system of justice such as prosecutors, judges, and defense attorneys will be examined. 
Prerequisite(s): A grade of "C" or better in any 200-level CJUS course

CJUS 381 Justice, Media, and Crime
3 credits, Spring
Examines the relationship among the media, crime, and criminal justice in the United States. This course explores how the criminal justice system, criminals, and crime are portrayed in the entertainment and news media and the effects that these portrayals have on society and our criminal justice system. 
Prerequisite(s): A grade of "C" or better in any 200-level CJUS course

CJUS 382 Crime Mapping and Crime Analysis
4 credits, Fall or Spring (offered as needed)
Examines the techniques used to study crime and disorder patterns and problems in law enforcement today. The course covers theory, data collection methods, and statistics used as well as the history of crime analysis, crime mapping, and career opportunities. This course will require students to learn mapping software. Computer lab required. 
Prerequisite(s): A grade of "C" or better in any 200-level CJUS course

CJUS 383 Law Enforcement and the Community
3 credits, Fall or Spring (offered as needed)
Examines the philosophy, tactics, problems, and solutions encountered when the community and police engage in the teamwork of community policing. Students will analyze the evolution of community policing; the community and law enforcement’s relationship within this philosophy; community policing implementation; and, various community policing programs. 
Prerequisite(s): A grade of "C" or better in ny 200-level CJUS course

CJUS 385 Research Methods in Criminal Justice
3 credits, Fall and Spring
Examines research methods and techniques used within the field of criminal justice. Topics discussed include research design, measurements, sampling, data collection, data analysis, quantitative vs. qualitative methods, research ethics, and application. The course will provide students with the ability to conduct research and the insight to become intelligent consumers of research. Achieving these goals will ensure the ability in both the students’ occupational and personal decision making skills in making informed and reasoned choices on the validity and potential utility of research findings. 
Prerequisite(s): A grade of "C" or better in any 200-CJUS course and Math 140 or by permission of the criminal justice department chair

CJUS 390 Domestic Security
3 credits, Fall and Spring
Introduces the causes, dynamics, and history of terrorism, extremist groups and cults, and their impact on the law enforcement profession. Emphasis is placed on issues associated with the causes and goals of terrorism, the cultural phenomenon of extremist groups and cults, and the challenges presented by these to future law enforcement professionals. Discussion topics will include a historical perspective of terrorism, international and domestic terrorism, political, cultural, and religious responses to terrorism, future predictions and role of law enforcement, the militarization of a civilian law enforcement, the birth, rise and dynamics of extremist religious and political groups, and the dynamics and impacts of cults and inter- and intra-national considerations. 
Prerequisite(s): A grade of "C" or better in any 200-level CJUS course
Digital Marketing Program Description

The digital marketing major is a program of study using the principles of marketing, business information systems, and visual communication to learn how to effectively compete for customers and clients through a strong presence on the Internet and other emerging digital communication channels. The degree will provide the graduate with a sophisticated set of technology skills along with business and design acumen needed to identify, engage, and continue relationships with customers using digital media. The graduate will be prepared to become a leader in the increasingly shifting digital marketing environment at the local, regional, and international market levels.

Digital Marketing Program Outcomes

Upon completion of the Bachelor of Science in Digital Marketing, graduates will be able to:

1. Apply the essential elements and theories of marketing to the Internet and other digital marketing channels.
2. Develop and/or implement professional digital marketing strategies and programs using professional visual design and technical terminology and techniques.
3. Interpret the current state and future digital marketing possibilities as they relate to a specific organization.
4. Evaluate the significance of global markets and marketing processes in the development and application of alternative media plans.
5. Assess organizational marketing strategies as an integrated technological, visual design, and business planning system.

Digital Marketing Program Policies

Students must earn a minimum GPA of 2.50 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of "C" or better in the prerequisite course(s). When a grade below "C" is earned in a major course, the student must repeat that course.

A course may be repeated once without special permission. Digital marketing majors must apply in writing to the department chair requesting permission to repeat a course for a second time. Those who do not successfully complete a major course with a grade of "C" or better after a third attempt will not be allowed to continue in the digital marketing program.

Digital Marketing Program Requirements

The courses listed below are required for the completion of the bachelor’s degree in digital marketing. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

Major Requirements:

- SBL 100 School of Business First Year Seminar
- ART 110 Fundamentals of Design I
- ART 113 Fundamentals of Design II
- CM 223 Writing for the Web
- CM 270 New Media Communication
- IAD 381 Dig. Media/Adv Web Desg & Prod
- INBUS 325 International Marketing
- IS 134 MS Windows and Office Applications
- IS 135 Advanced MS Office Applications
- IS 201 Management Information Systems
- IS 301 Principles of E-Commerce
- IS 320 Human-Computer Interaction
- IS 361 E-Collaboration & Social Network
- IS 386 E-Commerce Business Solutions
Minors:
A minor in Digital Marketing is not available; however, students majoring in other fields who have an interest in marketing or information systems may consider taking a minor in those fields. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.

Digital Marketing Course Descriptions
For ART and VCD course descriptions, see the Visual Communication Design section of the catalog. For CM course descriptions, see the Business Communication section of the catalog. For INBUS, MGT, and MKT course descriptions, see the Business Administration section of the catalog. For IS course descriptions, see the Information Systems section of the catalog.

Economics
Brown School of Business and Leadership
Department of Business Administration
Stevenson University does not currently offer a bachelor's degree in economics; however, business administration majors may select economics courses as a set of five major electives within their program. Enhancing any major course of study, students who select economics courses will be able to acquire a solid grasp of pertinent economic issues. The study of economics enhances critical and analytical thinking skills that will be an asset to any career position and graduate program. A minor in economics is available. All course prerequisites must be met to be eligible to take the selected course for a minor. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.

Economics Course Descriptions
EC 110 The Economics of Public Issues
3 credits, Fall or Spring
Provides students the opportunity to better understand the fundamentals of economic literacy through the examination of current social topics and controversies. This course will provide basic tools to analyze current public and social issues. These topics include poverty, discrimination, big business, education, and pollution. This course examines the role of government with regards to taxes, national debt, free trade, and entitlement programs.
Prerequisite(s): None

EC 201 Principles of Economics: Introduction to Macroeconomics
3 credits, Fall and Spring
Examines the basic economic principles of the aggregate economy. Subjects covered include the essentials of aggregate demand and supply, government spending and taxation, national income accounting, analysis of unemployment and inflation, money and banking, fiscal and monetary policy, analysis of economic growth, and an overview of the international economy.
Prerequisite(s): ENG 151 (may be taken concurrently) and a grade of "C" or better in MATH 121

EC 202 Principles of Economics: Introduction to Microeconomics
3 credits, Fall and Spring
Examines the basic economic principles governing the decisions of the economic agent. Topics include product and factor markets, as well as pricing decisions. In addition, government policies and the trade-off between efficiency and equity are examined.
Prerequisite(s): ENG 151 (may be taken concurrently) and a grade of "C" or better in MATH 121

EC 321/FIN 321 Money and Banking
3 credits, Fall
Examines the role and functions of a central bank in achieving the macroeconomic goals of price stability, full employment, financial market stability, and exchange rate stability. Topics include the role of money in the economy, the role of financial intermediaries and markets in the economy, general history of depository regulation, background on the causes and effects of a financial crisis on the economy, and the effect of the global financial markets on a domestic economy.
Prerequisite(s): A grade of "C" or better in EC 201 and EC 202

EC 335 Health Economics
3 credits, Spring (offered as needed)
Examines how economists explain the health care industry. Topics include the effects of market forces on health care, resource markets, and government health care policy. Supply and demand, market structure, and regulatory concepts will be applied to examine these issues.
Prerequisite(s): A grade of "C" or better in EC 202

EC 340 Economics of Sports
3 credits, Spring
Examines the sports industry using economic theory. Using economic reasoning, the following questions will be addressed: “Are sports leagues a monopoly? Is the NCAA a monopoly? What determines a franchisee’s profitability? What is the value of a new stadium to a community? How do labor relations affect a franchise or league?”
Prerequisite(s): A grade of "C" or better in EC 201 and EC 202

EC 345 Economics of Gender
3 credits, Spring (offered as needed)
Examines the differences in education, family, and career choices between men and women and their effects on economic outcomes, both nationally and internationally. Includes topics such as income and advancement, as well as family outcomes. The differences and their implications will be analyzed using an array of economic models.
Prerequisite(s): A grade of "C" or better in EC 201 and EC 202

EC 430/INBUS 430 International Economics
3 credits, Fall or Spring (offered as needed)
Examines the major issues in the area of international trade and their implications regarding global welfare. The major topics discussed include sources of comparative advantage, gains and losses from trade, globalization, and trade policy. The effects of exchange rate and domestic macro policies on global economies are also discussed.
Prerequisite(s): A grade of "C" or better in EC 201 and EC 202
EC 440 Environmental Economics
3 credits, Spring (offered as needed)
Examines the state of our environmental resources (domestic and global), the reasons and the implications for the degradation of these resources, and the ways in which human behavior affects the quality of the environment. An emphasis is placed on measuring, valuing, and designing public policies aimed at improving environmental quality via cost-benefit analysis. The economic and social consequences of these policies are also discussed.
Prerequisite(s): A grade of “C” or better in EC 201 and EC 202

EC 450 Urban Economics
3 credits, Fall or Spring (offered as needed)
Examines the economic bases for the existence of metropolitan areas. This course will study the economy of the metropolitan area including its growth, income distribution, economic stability, and prospects for renewal. Also covered in this course is an economic analysis of urban problems, with attention given to local, state, and federal policies, including a discussion of New Town planning.
Prerequisite(s): A grade of “C” or better in EC 201 and EC 202

Education

School of Education
Dean: Deborah Kraft, Ph.D.

Early Childhood Education: Liberal Arts and Technology

Early Childhood Education: Liberal Arts and Technology Program Description

Stevenson University offers a bachelor’s degree program in early childhood education: liberal arts and technology (pre-K – grade 3). Courses in this program provide candidates with the knowledge, skills, and dispositions to be successful early childhood teachers. The curriculum is designed to provide a strong foundation in liberal arts, mathematics and science, technological competency, and a thorough understanding of child development and its impact on educational practices. The curriculum includes an integration of theory, practice and mentoring, and includes field experiences from the second semester in the program. Candidates complete an internship in a Professional Development School that extends for two consecutive semesters. Candidates who successfully complete this program, including achieving passing scores on Core Academic Skills for Educators (or meeting the requirements for the SAT/ACT options) and Praxis II, are eligible for teacher certification in Maryland and in states with reciprocal agreements with the Maryland State Department of Education. The early childhood program is approved by the Maryland State Department of Education. The School of Education is accredited by the National Council for Accreditation of Teacher Education (NCATE).

Early Childhood Education: Liberal Arts and Technology Program Outcomes

Upon completion of the Bachelor of Science in Early Childhood Education: Liberal Arts and Technology, graduates will be able to:

1. Apply knowledge of discipline content and content-related pedagogy to design and implement effective instruction for all learners.
2. Use knowledge of diverse students to design instruction and create a culturally responsive, equitable environment to support achievement for all learners.
3. Design and implement instruction that engages students, encourages student participation, promotes higher-level thinking, and supports instructional outcomes.
4. Design and implement assessment that monitors student learning, provides purposeful feedback on progress, and furnishes evidence to inform instruction.
5. Reflect on teaching, collaborate in a professional learning community, seek professional development opportunities, engage in inquiry, persist toward goals, and exhibit integrity and professionalism.

Early Childhood Education: Liberal Arts and Technology Program Policies

Candidates must earn a minimum overall GPA of 2.50 to progress to the sophomore year and a 3.00 to remain in the program. The lowest acceptable grade is a “C” in all courses.

Admission into the School of Education. Candidates in the early childhood education: liberal arts and technology program formally apply for admission into the School of Education at the end of their second year and must successfully complete specific requirements in order to progress in the program. Criteria for admission into the School include, but are not limited to the following: 1) achieve passing scores on the Core Academic Skills for Educators or meet the requirements for the SAT/ACT options, 2) earn an overall GPA of 3.00 or above, 3) earn grades of “C” or above in all courses; and 4) satisfactorily complete all field experiences.

Admission into an Education Internship. Criteria for acceptance into the internship include, but are not limited to, the following: 1) achieve passing scores on the Core Academic Skills for Educators or meet the requirements of the SAT/ACT options, 2) attain an overall GPA of 3.00 or above, 3) earn grades of “C” or better in all courses, 3) obtain the recommendation of the faculty in the School of Education; and 4) satisfactorily complete all field placements prior to internship. Candidates must also complete a criminal background check. Please see the Unit Assessment Plan: Performance of Candidates on the School of Education website for additional requirements.

Early Childhood Education: Liberal Arts and Technology Program Requirements

The courses listed below are required for completion of the bachelor’s degree in early childhood education: liberal arts and technology. Candidates must also complete the requirements for the Stevenson Educational Experience (SEE). Specific pre- and co-requisites for each course are listed in the course descriptions.

Major Requirements:

EDCP 100 First Year Seminar
CM Elective CM 101 Public Speaking (recommended)
ED 108 Learning Experiences for Young Children
ED 108F Year One Field Placement
ED 202F Year Two Field Placement I
ED 203F Year Two Field Placement II
ED 204 Year Two Seminar I
ED 205 Year Two Seminar II
ED 220 Language Development in Young Children
ED 230 Processes and Acquisition of Reading
ED 270 Curriculum Principles and Practices
ED 271 Principles of Assessment
ED 272 Principles of Special Education

ED 306F Year Three Field Placement II
ED 310 Year Three Transfer Seminar (ATT Students only)
ED 318 Methods of Teaching Mathematics in Early Childhood Education
ED 319 Methods of Teaching Science in Early Childhood Education
ED 331 Instruction of Reading
Elementary Education: Liberal Arts and Technology

Program Description
Stevenson University offers a bachelor’s degree program in elementary education: liberal arts and technology (grades 1-6). Courses in this program provide candidates with the knowledge, skills, and dispositions to be successful elementary teachers. The curriculum is designed to provide a strong foundation in liberal arts, mathematics and science, technological competency, and a thorough understanding of child development and its impact on educational practices. The curriculum includes an integration of theory, practice and mentoring, and includes field experiences from the third semester in the program. Candidates complete an internship in a Professional Development School that extends for two consecutive semesters. Candidates who successfully complete this program, including achieving passing scores on Core Academic Skills for Educators (or meeting the requirements of the SAT/ACT options) and Praxis II, are eligible for teacher certification in Maryland and in states with reciprocal agreements with the Maryland State Department of Education. The elementary education: liberal arts and technology program is approved by the Maryland State Department of Education. The School of Education is accredited by the National Council for Accreditation of Teacher Education (NCATE).

Program Outcomes
Upon completion of the Bachelor of Science in Elementary Education: Liberal Arts and Technology, graduates will be able to:
1. Apply knowledge of discipline content and content-related pedagogy to design and implement effective instruction for all learners.
2. Use knowledge of diverse students to design instruction and create a culturally responsive, equitable environment to support achievement for all learners.
3. Design and implement instruction that engages students, encourages student participation, promotes higher-level thinking, and supports instructional outcomes.
4. Design and implement assessment that monitors student learning, provides purposeful feedback on progress, and furnishes evidence to inform instruction.
5. Reflect on teaching, collaborate in a professional learning community, seek professional development opportunities, engage in inquiry, persist toward goals, and exhibit integrity and professionalism.

Program Policies
Candidates must earn a minimum overall GPA of 2.50 to progress to the sophomore year and a 3.00 to remain in the program, and the lowest acceptable grade is a “C” in all courses.

Admission into the School of Education. Candidates in the elementary education: liberal arts and technology program apply for admission into the School of Education at the end of their second year and must successfully complete specific requirements in order to progress in the program. Middle School Education: Liberal Arts and Technology Other Options

Minor:

A minor in middle school education: liberal arts and technology is not available.

Education Course Descriptions

ED 108 Learning Experiences for Young Children
3 credits, Spring

Focuses on curriculum development and the design of activities for young children. This course includes activities that foster physical well-being, emotional health, social development, creativity, and language and cognitive skills. Teacher candidates observe, participate, and teach in preschool classrooms one morning per week (ED 108F).

Prerequisite(s): None
**ED 208 Learning Experiences for Young Children**  
3 credits, Fall  
Focuses on acquiring the knowledge and skills required for the development, delivery and implementation of quality learning experiences for young children in a variety of settings. This course explores a range of issues related to curriculum development, activity design, instructional delivery and management of individual and group behavior.  
**Prerequisite(s):** None

**ED 220 Language Development in Young Children**  
3 credits, Fall and Spring  
Focuses on the development of speech and language learning in children. This course presents techniques and materials used to stimulate and develop speaking and listening skills.  
**Prerequisite(s):** None

**ED 230 Processes and Acquisition of Reading**  
3 credits, Fall  
Provides teacher candidates with an understanding of the reading acquisition process through observation and analysis of reading and written language development and the study of current issues in reading research. The course is organized around current, accepted, research-based theoretical models that account for individual differences in reading. Introduction to language structures, including spoken syllables, phonemes, graphemes, and morphemes is included in this course. Candidates apply knowledge of the core areas of language to reading acquisition in terms of first and second language learners, typical development and exceptionalities. Candidates are introduced to current scientific research. Candidates observe, participate, and teach in school classrooms one half day per week (ED 202F).  
**Prerequisite(s):** None

**ED 266 Reading in the Content Areas I: Middle School**  
3 credits, Fall  
Focuses on the reading process, including comprehending, analyzing and extending meaning from texts. Candidates examine the factors that affect reading performance and review the strategies and materials appropriate for each of the purposes of reading. Candidates study the frameworks for planning instruction that prepare students for the reading task, assist in monitoring while reading, and engage students in appropriate follow-up activities. Candidates observe, participate, and teach in school classrooms one half day per week (ED 202F).  
**Prerequisite(s):** None

**ED 270 Curriculum Principles and Practices**  
3 credits, Fall  
Provides theoretical and practical introduction to an understanding of the teaching-learning process. The topics discussed in this course include the role of teacher, planning, and classroom management. Teacher candidates observe, participate, and teach in school classrooms one morning per week (ED 202F).  
**Prerequisite(s):** A grade of "C" or better in ENG 151

**ED 271 Principles of Assessment**  
3 credits, Spring  
Introduces principles and practices of educational assessment. Teacher candidates examine a variety of assessments, with an emphasis on performance-based assessment. Candidates observe, participate, and teach in school classrooms one morning per week (ED 202F).  
**Prerequisite(s):** None

**ED 272 Principles of Special Education**  
3 credits, Spring  
Provides background in special education principles for the classroom teacher. This course includes information on the requirements of specific disabilities, and how to adapt the curriculum and environment to meet the needs of children with special needs. Teacher candidates examine state and federal legislation and survey-related services and resources. Candidates observe, participate, and teach in school classrooms one morning per week (ED 203F).  
**Prerequisite(s):** None

**ED 302 Year Three Seminar I**  
1 credits, Fall  
Assists candidates in developing a portfolio to highlight candidates' knowledge, skills and dispositions related to the InTASC Standards and the Charlotte Danielson Framework. Includes practice sessions on interview techniques.  
**Prerequisite(s):** None  
**Concurrent course(s):** ED 305F (fall)

**ED 303 Year Three Seminar II**  
1 credit, Spring  
Assists candidates in developing a portfolio to highlight candidates' knowledge, skills and dispositions related to the InTASC Standards and the Charlotte Danielson Framework. Includes practice sessions on interview techniques.  
**Prerequisite(s):** None  
**Concurrent course(s):** ED 306F (spring)

**ED 310 Year Three Transfer Seminar**  
3 credits, Fall and Spring  
Introduces year three transfer students to Stevenson University’s Education Program. Topics include the teaching-learning process, the role of the teacher, lesson planning, lesson delivery strategies, classroom management and teaching in a field experience classroom. Students observe, participate and teach in elementary or middle school classrooms one day per week. Two hours lecture. Zero credits. Restricted to ATT students.  
**Prerequisite(s):** None

**ED 318 Methods of Teaching Mathematics in Early Childhood Education**  
3 credits, Fall  
Focuses on methods, materials, and activities for teaching mathematical concepts in early childhood. This course emphasizes developing concrete experiences to introduce and reinforce concepts and developing activities to enhance higher order thinking. Teacher candidates observe, participate, and teach in school classrooms one day per week (ED 305F).  
**Prerequisite(s):** A grade of "C" or better in ED 271

**ED 319 Methods of Teaching Science in Early Childhood**  
3 credits, Spring  
Focuses on methods, materials, and activities for teaching science in early childhood. This course emphasizes developing sensory experiences to introduce and reinforce concepts and developing activities to enhance higher order thinking. Teacher candidates observe, participate, and teach in school classrooms one day per week (ED 306F).  
**Prerequisite(s):** A grade of "C" or better ED 271 and ED 272

**ED 321 Methods of Teaching Mathematics in Elementary Education**  
3 credits, Spring  
Focuses on methods, materials, and procedures to help children learn arithmetic meanings and relationships. This course examines organization of subject matter, lesson preparation, and the use of instructional materials that help children understand the number system and mathematical concepts. Candidates observe, participate, and teach in school classrooms one day per week (ED 306F).  
**Prerequisite(s):** A grade of "C" or better ED 271

**ED 322 Methods of Teaching Science and Health**  
3 credits, Fall  
Focuses on methods, materials, and activities for teaching science, health, and safety. Emphasis is on developing instructional techniques, hands-on investigations, and field experiences that
help students understand and inquire into the processes and concepts of physical, life, earth, and space sciences; principles of physical and mental health needed to maintain a healthy lifestyle; and environmental factors that impact the quality of one's life. The relationship among these areas of science is stressed. Includes introduction to the science standards of national professional organizations, state curricula, professional literature, and planning for classroom activities. Candidates observe, participate, and teach in school classrooms one day per week (ED 305F).

**Prerequisite(s):** A grade of "C" or better ED 271

**ED 331 Instruction of Reading**  
3 credits, Spring  
Focuses on the fundamentals of research-based best practices and provides familiarity with a representative array of instructional techniques and strategies in the area of reading. Teacher candidates learn instructional routines and techniques to address the five major components of reading instruction (phonological and phonemic awareness; phonics, spelling and word study; fluency development; vocabulary; and comprehension) suitable for various age and ability groups. Attention is given to differentiated instruction to meet the needs of diverse learners.

**Prerequisite(s):** A grade of "C" or better ED 365

**ED 341 Methods for Teaching Social Studies: Elementary**  
3 credits, Spring  
Examines elementary level curriculum and instruction in the areas of English/language arts and social studies. Teacher candidates design and implement instruction and assessment that reflect Maryland College and Career-Ready standards (CCRS), C3 Framework Social Studies standards (College, Career, and Civic Life), and Universal Design for Learning (UDL) principles to address the individual learning needs and cultural diversity of all learners. Teacher candidates concurrently observe and implement instruction in field placement classrooms one day per week (ED 306F).

**Restricted:** Elementary Education majors  
**Prerequisite(s):** A grade of "C" or better ENG 152 or equivalent

**ED 343 Integrated Early Childhood Methods of Teaching**  
4 credits, Spring  
Course under development.  
**Prerequisite(s):** A grade of "C" or better ED 271 and ED 272

**ED 360 Methods of Teaching Science: Middle School**  
3 credits, Fall  
Includes an in-depth study of the philosophy, resources, curriculum, instructional strategies and assessment practices necessary to design a learning environment focused on the developmental characteristics of young adolescents. The course emphasizes the National Council of Teachers of Mathematics standards and state standards. Candidates engage in constructivist teaching methods including problem solving, collaboration, investigation, inquiry, discovery and project-based learning. This course includes investigation and application of number sense, ratio, proportion, percent, number theory, data analysis, patterns, and connections to algebra and geometry topics in the context of the middle school mathematics curriculum. Appropriate use of technology, including graphing calculators and software, is identified and explored.

**Prerequisite(s):** None

**ED 362 Methods of Teaching English/Language Arts: Middle School**  
3 credits, Fall  
Examines middle level curriculum and instruction in the areas of English/language arts. Teacher candidates develop an understanding of state and national standards to design developmentally appropriate English/language arts programs to meet the varying abilities and learning styles of young adolescents. This course addresses the following topics: 1) Composing in a variety of modes for a particular audience and purpose, 2) Responding to text by employing personal experiences, 3) Evaluating the content, organization and language of text, and 4) Applying the conventions of Standard English in writing and speaking. Candidates observe, participate, and teach in school classrooms one day per week (ED 305F).

**Prerequisite(s):** A grade of "C" or better ENG-152

**ED 363 Methods of Teaching Social Studies: Middle School**  
3 credits, Spring  
Prepares teacher candidates to become effective social studies educators capable of teaching middle school students the content knowledge, intellectual skills, and civic values necessary for fulfilling the responsibilities of citizenship in a participatory democracy. Special attention is given to effective teaching strategies and to addressing the individual and cultural diversity of all learners.

**Prerequisite(s):** A grade of "C" or better ED 362

**ED 365 Materials for Teaching Reading**  
3 credits, Fall  
Assists teacher candidates in the selection and evaluation of materials for teaching reading and related skills that are consistent with the findings of scientifically based reading research. Candidates demonstrate an understanding of research-supported programs, approaches and methods, and address different levels of reading proficiency within a classroom to enable students to become strategic, fluent, and independent readers. Candidates are prepared to involve parents and members of the school and surrounding community to promote daily reading inside and outside of school. Candidates observe, participate, and teach in classrooms one day per week (ED 302F).

**Prerequisite(s):** None

**ED 367 Reading in the Content Areas II: Middle School**  
3 credits, Fall  
Focuses on the implementation of a coherent literacy program for young adolescents that supports content area learning. Teacher candidates use a variety of strategies to promote student independence in content area reading. Candidates incorporate methods in the content areas to address the diverse backgrounds of their students, including culture, language (dialect and ESOL), disabilities, and giftedness. Candidates teach lessons in the content areas focused on text-based concept development. Candidates observe, participate and teach in school classrooms one day per week (ED 302F).

**Prerequisite(s):** A grade of "C" or better ED 266
ED 410 Assessment for Reading Instruction
3 credits, Fall
Assists teacher candidates in becoming proficient consumers and
users of classroom-based assessments and assessment data. In this
course, instruction focuses on building a knowledge of how to
administer and use several valid, reliable, research-based formal
and informal assessments of reading and related skills. Teacher
candidates also learn how to effectively interpret the results of
assessments, and how to communicate assessment results in a
variety of contexts. Candidates demonstrate that they can use
assessment data to guide instructional decisions.
Prerequisite(s): A grade of "C" or better ED 331

ED 435 Internship Seminar I
1 credit, Fall and Spring
Synthesizes contemporary issues in education and the theory and
practice of teaching, with emphasis on classroom management,
communication, curriculum planning, assessment, and special
education.
Prerequisite(s): A grade of "C" or better ED 331

ED 436 Internship Seminar II
1 credit, Fall and Spring
Synthesizes contemporary issues in education and the theory and
practice of teaching, with emphasis on classroom management,
communication, curriculum planning, assessment, and special
education.
Prerequisite(s): A grade of "C" or better ED 331

ED 440 Internship I: Early Childhood
4 credits, Fall
Includes responsibility for implementing an integrated
curriculum, assessing learning, and adapting the curriculum to
meet the needs of individual students. Internship I includes two
days in a Professional Development School.
Prerequisite(s): Submission of a satisfactory Year 3 portfolio,
permission of the Dean

ED 441 Internship II: Early Childhood
12 credits, Spring
Continues and builds upon Internship I. This course includes
responsibility for all aspects of teaching, including planning and
implementing the curriculum on both a long-term and daily basis.
Internship II includes full-time classroom experience in an early
childhood classroom in a Professional Development School.
Prerequisite(s): ED 440

ED 442 Internship I: Elementary
4 credits, Fall
Includes responsibility for implementing an integrated
curriculum, assessing learning, and adapting the curriculum to
meet the needs of individual students. Internship I includes two
days in a Professional Development School.
Prerequisite(s): Submission of a satisfactory Year 3 portfolio,
permission of the Dean

ED 443 Internship II: Elementary
12 credits, Spring
Continues and build upon Internship I. This course includes
responsibility for all aspects of teaching, including planning and
implementing the curriculum on both a long-term and daily basis.
Internship II includes full-time classroom experience in an
elementary classroom in a Professional Development School.
Prerequisite(s): ED 442

ED 444 Internship I: Middle School
4 credits, Fall
Provides opportunities for teacher candidates to integrate theory
and practice. Candidates demonstrate their ability to effectively
implement an integrated curriculum, assess student learning, and
adapt the curriculum to meet the needs of young adolescent
students. Internship I includes two days in a Professional
Development School.
Prerequisite(s): Submission of a satisfactory Year 3 portfolio,
permission of the Dean

ED 445 Internship II: Middle School
12 credits, Spring
Continues and builds upon Internship I. This course includes
responsibility for all aspects of teaching, including planning and
implementing the curriculum on both a long-term and daily basis.
Internship II includes full-time classroom experience in a middle
school classroom in a Professional Development School.
Prerequisite(s): ED 444

English Language and Literature Program Description
Dedicated to the belief that language and literature form the
foundations of our community and culture, the Stevenson
University Department of English fulfills its responsibilities to
its majors and to the general student population through course
offerings that prepare students to read closely, to think
critically, to write clearly, and to understand literature as art
and as a record of their cultural heritage.
The English language and literature program allows students
considerable flexibility in planning their course work and
pursuing their career goals. The program possesses four
sequences of courses: career development, literature, creative
writing, and professional writing.
Career Development: The four courses in the career
development sequence are required of all English language and
literature majors. These classes gradually develop the
knowledge and skills essential to integrating academic
experience with career preparation. Students learn how to
become self-improving and self-assessing learners capable of
creating career goals and making informed academic and career
choices based upon those goals.
Literature: The seven courses required in the literature
sequence offer far more choice. To learn the critical thinking
skills associated with the study and creation of literature, all
students must take two specific courses: Critical Approaches to
Literature I and Critical Approaches to Literature II. The
refinement of these skills takes place in the five literature
electives that each major chooses based upon his or her career
goals and personal preferences.
Creative Writing: Participation in the creative writing
sequence is purely voluntary. The eight courses in the sequence
offer students the opportunity to develop the critical and
creative skills essential to writing poetry, fiction, and/or
nonfiction. The sequence begins with an introductory course
that exposes students to all three forms. Then, students choose
how, or if, they will progress through the study of writing in
these three forms. Some may stop after the introductory course,
others may focus on a specific form such as poetry, and others
may study more than one form.
Professional Writing: Participation in the professional
writing sequence is also voluntary. The seven courses in this
sequence offer students the opportunity to develop the critical
and creative skills essential to journalism and/or public
relations writing. This sequence begins with an introductory
course in journalism. Students then choose how, or if, they will
progress through the study of feature writing, magazine
writing, and/or public relations writing.
The English language and literature program includes four
English electives that majors may use to maximize their ability
to achieve their career goals. Each student must decide whether the electives will be used for more literature courses, for creative writing courses, for professional writing courses, or for a combination of any of these types of courses.

**English Language and Literature Program Outcomes**

Upon completion of the Bachelor of Arts in English Language and Literature, graduates will be able to:

1. Solve problems by thinking creatively and critically.
2. Read and interpret texts using critical theory and language arts.
3. Use research resources.
4. Write academic, professional, and/or creative texts.
5. Communicate orally and nonverbally.
6. Negotiate personal values in relation to the values of others.
7. Apply academic preparation to professional and cultural experiences beyond the classroom.
8. Make informed academic and career choices based on self-determined goals.

**English Language and Literature Program Policies**

Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of "C" or better in the prerequisite course(s). When a grade below "C" is earned in a major course, the student must repeat that course.

Once students have declared their intentions to major in English language and literature, they are required to take all major courses at Stevenson University. Students must complete two semesters in a foreign language at the intermediate level or above. Full-time students interested in languages other than French and Spanish are eligible to participate in the Baltimore Student Exchange Program (BSEP) with area colleges and universities. Contact the Registrar's Office for information on this program.

**English Language and Literature Program Requirements**

The courses listed below are required for completion of the bachelor's degree in English language and literature. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

**Major Requirements:**

(Note: Some courses may be repeated for credit when focus or topic changes. Check the course descriptions following this section to identify these courses.)

**Required Courses**

EDCP 100  
ENG 230  
ENG 231  
ENG 331  
ENG 332  
ENG 420  

Five Literature Electives

Two courses at the 200-level
Two courses at the 300-level
One course at the 400-level

**Foreign Language**

Two semesters of a foreign language at the 200-level or above

**Four English Electives**

One course at the 200-level
One course at the 300-level
One course at the 400-level
One course at the 200-level or above

**English Language and Literature Other Options**

**Minor:**

A minor in English is available, requiring six courses at the 200-level or beyond. At least three courses for the minor must be taken at Stevenson. Students minoring in English are eligible to take courses restricted to the English major if the prerequisites are met. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.

**English Course Descriptions**

Note: SAT verbal scores, college placement tests, and high school transcripts determine a student’s first semester English requirements. Advanced placement and credit may be given based on the Advanced Placement tests given by the College Entrance Examination Board. (See "Placement" in the Admissions section of this catalog.) All students must establish evidence of writing competence by achieving a minimum grade of "C" in ENG 151 or HON 171 or presenting AP credit before proceeding to other English courses or graduating from the University. Except in the case of students who enter as transfers with writing and literature course credits from previous semesters, all writing courses must be taken at Stevenson University.

**ENG 148 Introduction to Composition**

3 credits, Fall, Spring, and Summer

Focuses on the fundamentals of writing unified, coherent, fully developed paragraphs and short essays. Students will review grammar and practice sentence and paragraph construction. **Note:** Students are placed into this course on the basis of standardized test scores and/or placement test results. Students must receive a "C" or better in DEVR 106# and ENG 148 before continuing to ENG 151.

**ENG 151 Composition & Writing from Sources**

3 credits, Fall, Spring, and Summer

Develops the ability to write clear, coherent, and well-developed expository prose. This course requires analytical reading and critical thinking and includes instruction and practice in research methods and writing from sources. **Prerequisite(s):** Placement (see above) or a grade of “C” or better in ENG 148 and DEVR 106#.

**ENG 152 Writing About Literature**

3 credits, Fall, Spring, and Summer

Develops the ability to write clear, coherent, and well-developed arguments. This course requires close reading of poetry, drama, and fiction and includes instruction in argumentation. **Prerequisite(s):** A grade of “C” or better in ENG 151 or HON 171.

**ENG 172H Writing Literary Interpretation**

3 credits, Spring

Emphasizes academic writing and critical thinking skills. Through close reading of poetry, drama, and prose fiction, this course develops interpretative skills, an appreciation of literature, and an understanding of literary terms and traditions. **Prerequisite(s):** HON 171 or Honors Program member or grade of “B” or better in ENG 151 with the recommendation of instructor.
ENG 222 Writing and Education
3 credits, Fall
Provides study and practice in advanced academic writing and in peer editing. Students read texts that focus on education and that present problems associated with writing and the teaching of writing. Students will write essays that respond to these problems. They will then peer edit these essays to gain experience with the acts of assessment and the acts of communication essential to the teaching of writing.  
Prerequisite(s): A "C" or better in ENG 152 or equivalent

ENG 224 Introduction to Creative Writing
3 credits, Fall and Spring
Introduces students to basic literary techniques in poetry, fiction, and non-fiction and to their use. Students will compose brief original texts in each genre and critique them in group workshops.  
Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent

ENG 230 Critical Approaches to Literature I
3 credits, Spring
Introduces critical methodologies that focus on text, reader, or context. Students develop interpretive skills through application of approaches such as Formalist, Rhetorical, Reader-Response, and Historical/Cultural. Restricted to English language and literature majors and minors and interdisciplinary studies majors with English as one of their disciplines.  
Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent

ENG 231 English: Forms and Functions
3 credits, Fall and Spring
Examines the English language as a medium of communication dependent upon linguistic structures that can produce a wide range of verbal expression. Students will acquire a working knowledge of the linguistic structures of the English language. They will also examine the relation between linguistic choices and academic, creative, and journalistic styles. Restricted to English language and literature majors and minors and interdisciplinary studies majors with English as one of their disciplines.  
Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent

ENG 240 Historical Perspectives
3 credits, Fall and Spring
Studies selected works of British, American, or World literature that illustrate an aesthetic and/or cultural change from one literary period to another. Students read texts closely and analyze them as representative samples of the aesthetic and/or cultural values across literary periods. This course may be repeated for credit if the topics are different.  
Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent

ENG 253/CM 253 Journalism I
3 credits, Fall
Introduces students to the fundamentals of journalism: research; interview techniques; writing and editing news, sports, and features; basic layout design; and computer compositing. The course also covers journalistic ethics and legal issues connected with newspaper publishing. Students learn to write news stories and features, using the Associated Press style and standards. Students perform a variety of tasks associated with publishing The Villager, the university newspaper, and they prepare a writing portfolio used for professional advancement and assessment. Restricted to business communication and English language and literature majors.  
Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent.

ENG 254/CM 254 Journalism II
3 credits, Spring
Continues the theory and practice of journalism compositing and layout begun in ENG 253. Students learn interview and reporting strategies that produce in-depth reporting and feature writing. Students begin editorial, review, and commentary writing, and they continue to work on portfolios and on the production of the university newspaper. Restricted to business communication and English language and literature majors.  
Prerequisite(s): A grade of "C" or better in ENG 253.

ENG 281 Topics in Literature
3 credits, Fall and Spring
Studies selected topics that recur in literature across time and/or across cultures. Students read texts closely and analyze them as representative samples of the literary treatment of the topic. This course may be repeated for credit if topics are different.  
Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent

ENG 282 Literary Genres: Youth Literature
3 credits, Fall and Spring
Introduces students to a range of literature written for children or for young adolescents and to the critical approaches appropriate to interpreting these works. Students examine the contributions this literature can make to the development of young readers through its ability to dramatize the essential conflicts of childhood and adolescence, to build a knowledge base of historical and cultural information, and to introduce and describe the values and customs of other cultures. Restricted to education majors or by permission of the English department chair.  
Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent

ENG 286 Literary Genres: The Short Story
3 credits, Fall and Spring
Studies the development and/or form of the short story. Students read texts closely and analyze them according to the conventions and definitions of the genre.  
Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent

ENG 287 Literary Genres: Poetry
3 credits, Fall and Spring
Studies the development and/or form of poetry. Students read texts closely and analyze them according to the conventions and definitions of the genre.  
Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent

ENG 288/THEA 288 Literary Genres: Drama
3 credits, Fall
Explores the elements of drama (plot, character, dialog, theme, and staging) using examples from world literature. Students study plays from different periods of theatre history representing the basic types of drama. Students examine various approaches to the analysis and interpretation of plays and develop skill in writing responses to scripts and live productions.  
Fee: Theatre tickets

ENG 289 Literary Genres: The Novel
3 credits, Fall and Spring
Studies the development and/or form of the novel. Students read texts closely and analyze them according to the conventions and definitions of the genre.  
Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent
ENG 303/CM 303 Feature Writing
3 credits, Fall
Expands basic journalism skills, applying professional standards to student writing. Students will learn to write critical reviews, profile, travel and service articles; and a personal experience article. Students will read and comment on current noteworthy and award-winning feature writing, both from magazines and newspapers. Additionally, students will write a final paper and query letter intended for publication.
Prerequisite(s): A grade of "C" or better in ENG 253/CM 253 or permission of the instructor

ENG 304/CM 304 Magazine Writing and Publishing
3 credits, Spring
Allows students to further develop both their journalistic writing skills and their creative skills by creating and writing for a class magazine. Through analysis of the history of magazines and the study of current noteworthy magazine articles and trends, students will become acquainted with magazine article writing and analysis. Students will explore all aspects of magazine production.
Prerequisite(s): A grade of "C" or better in ENG 254/CM 254 or ENG 303/CM 303 or permission of the instructor

ENG 305/CM 305 Journalism Practicum
1.5 or 2 credits, Fall and Spring
Engages student editors or senior-staff writers of The Villager. Students write news, commentary, editorials, features, and sports stories. They also design, edit, proofread, and copyedit each page of the paper. As needed, they take photographs, design and sell advertising, and create databases for billing. This course may be repeated for credit.
Prerequisite(s): A grade of "C" or better in ENG 254 or permission of instructor

ENG 314/CM 314 Public Relations Writing
3 credits, Fall and Spring
Examines the fundamentals and practices of public relations in addition to composing specific public relations written works. Students will read, analyze, and discuss current public relations and media case studies. Additionally, students will create and write a press kit for a company, which will include writing a press release, background, newsletter, brochure, fact sheet, and radio spots for their intended media.
Prerequisite(s): Completion of the core communications requirement and grade of "C" or better in ENG 254/CM 254 and CM 275

ENG 324 Creative Writing: Non-Fiction
3 credits, Fall and Spring
Examines a range of forms, devices, and strategies in non-fiction writing, drawing upon the work of historical and contemporary authors. Students compose original non-fiction texts, shared in group workshop critiques that emphasize processes of close reading and revision.
Prerequisite(s): A grade of "C" or better in ENG 224, ENG 286, or ENG 289

ENG 325 Creative Writing: Fiction
3 credits, Fall and Spring
Examines a range of forms and strategies in fiction writing, drawing upon the work of historical and contemporary authors. Students compose original short stories, shared in group workshop critiques that emphasize processes of close reading and revision.
Prerequisite(s): A grade of "C" or better in ENG 224, ENG 286, or ENG 289

ENG 326 Creative Writing: Poetry
3 credits, Fall and Spring
Examines a range of poetic forms and strategies, drawing upon the work of historical and contemporary authors. Students compose original poems, shared in group workshop critiques that emphasize processes of close reading and revision.
Prerequisite(s): A grade of "C" or better in ENG 224 or ENG 287

ENG 331 Design Your Career
3 credits, Fall and Spring
Guides students in designing their careers. Students will explore a variety of career options, assess their current skills, and identify skills they need to acquire to be successful applicants for internships, jobs, or graduate school. Students will also prepare a plan for attaining the skills they lack, focusing on future coursework and internship opportunities; they will additionally consider volunteer work, club activities, publishing, and other professional experiences. Restricted to English language and literature majors.
Prerequisite(s): A grade of "C" or better in ENG 231.

ENG 332 Critical Approaches to Literature II
3 credits, Fall and Spring
Builds on the methodological skills of ENG 230: Critical Approaches to Literature I. Students focus on application of broader ideological approaches, such as New Historicism, Structuralist, Poststructuralist, Marxist, Psychoanalytic, Feminist, Postcolonial, Queer, Gender, and Race. Restricted to English language and literature majors and minors and interdisciplinary studies majors with English as one of their disciplines.
Prerequisite(s): A grade of "C" or better in ENG 230 and two 200-level literature courses

ENG 334 Advanced Non-Fiction Workshop
3 credits, Fall and Spring
Acts as an advanced workshop in non-fiction writing. Students learn to use and evaluate a range of nonfiction prose forms, genres, and strategies, drawing upon the work of historical and contemporary authors. They compose original essays and other creative nonfiction texts, shared in workshop critiques that emphasize processes of close reading and revision.
Prerequisite(s): A grade of "C" or better in ENG 324

ENG 335 Advanced Fiction Workshop
3 credits, Fall and Spring
Acts as an advanced workshop in fiction writing. Students produce original fiction and self-assess goals for further creative writing projects, researching literary markets for publication opportunities, formulating publication strategies, extending revision techniques, and appraising issues of literary voice, thematic articulation, reflexivity, and narrative design. By practicing collaborative critique, students revise work to a professional standard and develop story sequences and/or novel chapters, submitted in course portfolios.
Prerequisite(s): A grade of "C" or better in ENG 325

ENG 336 Advanced Poetry Workshop
3 credits, Fall and Spring
Acts as an advanced workshop in poetry writing. Students produce original poetry and self-assess goals for further creative writing projects, researching literary markets for publication opportunities, formulating publication strategies, extending revision techniques, and appraising issues of literary voice, thematic articulation, and formal design. By practicing collaborative critique, students revise work to a professional standard and develop poems or poem sequences, submitted in course portfolios.
Prerequisite(s): A grade of "C" or better in ENG 326
ENG 340 Period Studies
3 credits, Fall and Spring
Examines a select group of texts representative of the discourse of a particular place at a particular time. Students will analyze texts as responses and contributions to the historical context of the period and the culture. This course may be repeated for credit if the topics are different.
Prerequisite(s): A grade of "C" or better in one 200-level literature course

ENG 381 Themes in Literature
3 credits, Fall and Spring
Examines a select group of texts that focus upon a significant theme whose problematic nature has drawn attention across time and/or across cultures. Students will analyze texts as literary responses to and/or influences upon that problematic theme. This course may be repeated for credit if the topics are different.
Prerequisite(s): A grade of "C" or better in one 200-level literature course

ENG 385 Literary Genres: Special Topics
3 credits, Fall and Spring
Examines a select group of texts that represent a type of literature that may exist within a formal genre or across several genres. Students will analyze these texts as examples of the conventions of form and/or content that define the type. This course may be repeated for credit if the topics are different.
Prerequisite(s): A grade of "C" or better in one 200-level literature course

ENG 401 Major Author
3 credits, Fall and Spring
Explores the aesthetic, cultural, and/or historical reasons for a writer's valuation as a major author. Students select their own criteria for evaluating the author's status and integrate critical theory and secondary sources into their final analysis. This course may be repeated for credit if the topics are different.
Prerequisite(s): A grade of "C" or better in two 300-level literature courses and ENG 332

ENG 402 Major Work
3 credits, Fall and Spring
Explores the aesthetic, cultural, and/or historical reasons for a text's valuation as a major work of art. Students select their own criteria for evaluating the text's status and integrate critical theory and secondary sources into their final analysis. This course may be repeated for credit if the topics are different.
Prerequisite(s): A grade of "C" or better in two 300-level literature courses and ENG 332

ENG 403 Creative Writing Capstone
3 credits, Spring
Acts as the culminating course for students pursuing academic and professional interests in creative writing. Students will synthesize their knowledge and practice of literary techniques, genres, and forms, in preparation for success in the next stage of their academic and professional careers.
Prerequisite(s): A grade of "C" or better in any two 300-level writing courses

ENG 404 Professional Writing Capstone
3 credits, Spring
Acts as the culminating course for students pursuing academic and professional interests in journalism. By producing and submitting articles for publication, students synthesize their knowledge of journalistic writing, practice, and publication strategies in preparation for success in the next stage of their academic and professional careers.
Prerequisite(s): A grade of "C" or better in ENG 303 and in either ENG 304 or ENG 314

ENG 420 English Capstone: Internship
3 credits, Fall and Spring
Acts as the capstone course for the major. Students demonstrate their status as self-improving and self-assessing learners by defining, acquiring, completing, and evaluating an internship experience and by integrating this experience into an evaluation of their preparedness for graduation, for the beginning of their careers, and for an active life of learning beyond the classroom.
Prerequisite(s): A grade of "C" or better in ENG 331 and senior status

Environmental Science

School of the Sciences
Department of Biological Sciences
Associate Dean and Chair: Meredith Durmowicz, Ph.D.

Environmental Science Program Description

The environmental science program is designed to prepare students to address the integral relationship between humankind and the environment. There is a growing recognition of the impact of humans on organisms, landforms, the atmosphere, and ecosystems. This program will engage students in a study of the principles, methodologies, and practices of the life, physical, and mathematical sciences as they relate to the environment. The foundational concepts of human systems, such as businesses, governments, and communities, and their impact on the environment will also be studied. An emphasis on experiential and lifelong learning will also prepare graduates to meet the needs of today’s society.

Environmental Science Program Outcomes

Upon completion of the Bachelor of Science in Environmental Science, graduates will be able to:
1. Solve environmental problems by integrating knowledge from the natural and social sciences.
2. Evaluate the effects of humans on the biosphere.
3. Apply field and laboratory research skills and techniques to the investigation of scientific questions.
4. Evaluate environmental issues and advances using scientific literature.
5. Communicate scientific findings in written and oral formats appropriate to the specific audience.
6. Conduct himself or herself in a manner consistent with the professional and ethical standards of the discipline.
7. Practice environmental stewardship.
8. Apply academic preparation to professional experiences outside the classroom.

Environmental Science Program Policies

Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to take a science or math course unless he/she earns a grade of "C" or better in all prerequisite courses.

A student may not earn a grade of “C-“ or lower in any science or math course more than three times during the program. If a fourth grade of “C-“ or lower is earned in any science or math course, the student will be automatically dismissed from the environmental science major.

Probation: The student who earns any combination of two grades of “C-“ or lower in a science or math course will be notified, in writing, by the department chair that he or she is on probation in the School of the Sciences.

Final Probation: The student who earns any combination of three grades of “C-“ or lower in a science or math course will
be notified, in writing, by the department chair that he or she is on final probation in the School of the Sciences.

**Dismissal:** If a fourth grade of “C-” or lower in any science or math course is earned, the student will be notified, in writing, by the department chair that he or she has been dismissed from the major.

**Environmental Science Program Requirements**

The courses listed below are required for completion of the bachelor’s degree in environmental science. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

**Major Requirements:**

SCI 100   School of the Sciences New Student Seminar  
BIO 113   General Biology I: Cell Biology and Genetics  
BIO 113L  General Biology I: Cell Biology and Genetics Laboratory  
BIO 114   General Biology II: Structure and Function of Organisms  
BIO 114L  General Biology II: Structure and Function of Organisms Laboratory  
BIO 115   General Biology III: Ecology and Evolution  
CHEM 115  General Chemistry I  
CHEM 115L General Chemistry I Laboratory  
CHEM 115S General Chemistry I SOLVE  
CHEM 116  General Chemistry II  
CHEM 116L General Chemistry II Laboratory  
CHEM 116S General Chemistry II SOLVE  
CHEM 203  Environmental Chemistry  
CHEM 203L Environmental Chemistry Laboratory  
ENV 255  Techniques in Environmental Science  
ENV 275  Environmental Science  
GEO 330  Geographical Information Systems  
MATH 220  Calculus I  
MATH 235  Statistical Methods  
PHYS 210  General Physics I or  
PHYS 215  General Physics I with Calculus  
PHYS 211  General Physics II or  
PHYS 216  General Physics II with Calculus  
Select ONE of the following two-course sequences:  
EC 202  Principles of Economics: Introduction to Microeconomics  
EC 440  Environmental Economics  
OR  
POSCI 102  American Government: Political Institutions and Procedures  
LAW 375  Environmental Law  
OR  
PHIL 215  Ethics  
PHIL 3xx  Environmental Ethics –  
OR  
POSCI 102  American Government: Political Institutions and Procedures  
POSCI 3xx  Environmental Policy –  

**Environmental Science Electives:**

NOTE: Students may choose to take up to two biology and/or chemistry courses to fulfill ENV electives.

**Group 1 (Select THREE):**

- ENV 213  Ecology  
- ENV 270  Animal Behavior  
- ENV 260  Forest Ecology and Management  
- ENV 280  Environmental Soil Science  

**Group 2 (Select THREE):**

- ENV 307  Marine Biology  
- ENV 310  Aquatic Ecology –  
- ENV 315  Evolution and Phylogenetics  
- ENV 330  Conservation Biology  
- ENV 340  Landscape Ecology –  
- ENV 360  Wildlife Ecology and Management  
- ENV 410  The Chesapeake Bay Ecosystem  
- ENV 420  Restoration Ecology –  
- ENV 430  Ecosystem Delineation and Mitigation –  

**Group 3:** Any ENV elective

**Group 4:** Any ENV elective

–Course under development

**Environmental Science Other Options**

**Biology Department Honors Requirements:**

Eligible students majoring in environmental science may elect to pursue honors within the department of biological sciences. The intention to pursue biology department honors must be declared no later than the end of the first semester of the junior year. To declare the intent to pursue departmental honors, a student must have earned a science GPA of 3.50 or higher.

Students graduating with biology department honors will have this distinction noted on their official university transcript. In order to graduate with departmental honors, the following requirements must be met:

- Completion of a 400-level capstone experience with a grade of “B” or better
- Completion of BIO 440 Seminar Topics in Biology with a grade of “B” or better
- Completion of an Honors Contract Project in an upper-level biology or environmental science course. A grade of “B” or better must be earned in the course in which an Honors Contract Project is completed. The student must submit a contract project proposal to be approved by department faculty before beginning the project. The final project must be approved by department faculty in order to receive honors credit.
- A science GPA of 3.50 or higher at the time of graduation

**Minor:**

A minor in environmental science is not available.

**BS/MAT option:**

The BS/MAT option is available for students majoring in environmental science who wish to combine their bachelor’s coursework with work toward a Stevenson University master’s degree in teaching. Please see "Additional Enrollment Options" in the Admissions section of this catalog for more information.

**Environmental Science Course Descriptions**

**ENV 165 Science of the Chesapeake**

*4 credits, Spring*

Focuses on the ecosystems and ecological processes that are important to the Chesapeake Bay. Topics covered include the geological formation of the Bay, basic nutrient and chemical cycles, identifying major ecosystems (wetlands, salt marshes, and
deep water). Students will learn how all the ecosystems function and interact, the interface between terrestrial and aquatic ecosystems, the importance of watersheds, and priorities for future policy and planning initiatives. Laboratory introduces or reinforces topics that are covered in class. Laboratory included.

**Prerequisite(s):** Eligible for ENG 151 or higher and eligible for MATH 108 or higher A

**Fees:** Fees may be required for field trips.

**ENV 213 Ecology**

*4 credits, Fall*

Focuses on the relationship between organisms and their environment, including plant and animal structures and how humans affect ecological succession. Field studies of forest, grassland, wetlands, and other local ecosystems are fully integrated with the lecture. Laboratory included.

**Prerequisite(s):** A grade of "C" or better in BIO 115 and in BIO 115L or ENV 255.

**Fees:** Fees may be required for field trips.

**ENV 255 Techniques in Environmental Science**

*3 credits, Fall and Spring*

Introduces the theory and practical application of techniques and equipment used to study natural systems, including terrestrial and aquatic habitats. Focuses on the collection and analysis of data relevant to today's environmental scientist by collaborating with local and regional partners engaged in studying the environment. The presentation of the results of scientific studies in both written and oral formats is emphasized. Students are expected to work outdoors in a variety of conditions and may be asked to travel to off-campus sites.

**Prerequisite(s):** A grade of "C" or better in BIO 114 and BIO 114L.

**Co-requisite(s):** BIO 115

**Fees:** Fees may be required for field trips.

**ENV 260 Forest Ecology and Management**

*4 credits, Spring*

Emphasizes the ecology and management of forest ecosystems. Students will study the forest environment, structure, function, and dynamics with an emphasis on anthropogenic influences and management. This course introduces silvicultural systems and practices and their underlying ecological basis while providing fundamentals for forest management decision making in the context of sustainability and conflicting demands. Included laboratory will practice and apply concepts discussed in lecture.

**Prerequisite(s):** A grade of "C" or better in BIO 115 and ENV 255.

**Fees:** Fees may be required for field trips.

**ENV 265 Independent Laboratory Research in Environmental Science**

*2 credits, Fall and Spring (offered as needed)*

Provides an opportunity to introduce the student to independent research in environmental science under the supervision of an environmental science faculty member. This course may be repeated for credit. This course cannot be used as a substitute for the senior capstone requirement.

**Prerequisite(s):** A grade of "C" or better in BIO 115 and BIO 113L, permission of the faculty member who will be supervising the research

**Fees:** Printing fees may be required.

**ENV 270 Animal Behavior**

*3 credits, Fall*

Explores the mechanisms and evolution of animal behavior, including neural, hormonal, and genetic processes that control behavior. Topics include methods for observation and quantifications of behavior and the natural selection and evolution of behavior, such as foraging, anti-predator defenses, mating systems and sexual selection, social behavior, communication, parental care, kin selection and recognition, aggression and territoriality.

**Prerequisite(s):** A grade of "C" or better in BIO 114 and BIO 114L, or BIO 130

**Fees:** Fees may be required for field trips.

**ENV 275 Environmental Science**

*3 credits, Spring*

Examines the interaction of humans with their environment. Basic ecological concepts underlying environmental science are integrated with historical, economic, ethical, and sociological concepts and applied to current and future environmental challenges. A case-study approach is emphasized. Topics covered include biodiversity, global climate change, population growth, energy use, pollution, environmental policy, resource management, and sustainable development.

**Prerequisite(s):** A grade of "C" or better in BIO 115 and BIO 115L

**ENV 280 Environmental Soil Science**

*4 credits, Spring*

Examines the physical, chemical, and biological properties of soils and how they relate to plant growth, land use, and environmental quality. Field and laboratory activities include observational and quantitative determination of soil properties. Laboratory included.

**Prerequisite(s):** A grade of "C" or better in BIO 115 and ENV 255

**Fees:** Fees may be required for field trips.

**ENV 307 Marine Biology**

*4 credits, Spring*

Examines the marine environment and its organisms and communities, with an emphasis on an ecological approach. Topics covered include the habitats, ecology, interrelationships and special adaptations of marine organisms and communities. Laboratory included.

**Prerequisite(s):** A grade of "C" or better in BIO 115 and BIO 115L or ENV 255; and in CHEM 210 and CHEM 210L or CHEM 203 and CHEM 203L.

**Fees:** Fees may be required for field trips.

**ENV 310 Aquatic Ecology**

This course is under development.

**ENV 315 Evolution and Phylogenetics**

*3 credits, Spring*

Studies biological evolution, including concepts from the fields of behavioral ecology, population genetics, developmental biology, anthropology, phylogenetics and systematics. Students will use knowledge of evolutionary processes in the examination and evaluation of biological systems.

**Prerequisite(s):** A grade of "C" or better in BIO 115, BIO 230 and at least one upper level BIO or ENV course

**ENV 330 Conservation Biology**

*3 credits, Fall and Spring*

Focuses on the conservation of species, habitats, and ecosystems. Topics covered include wildlife population biology, conservation genetics, invasive species, wildlife refuges and protected areas, economic valuation of ecosystems, and conservation policy.

**Prerequisite(s):** A grade of "C" or better in ENV 275

**ENV 340 Landscape Ecology**

This course is under development.
ENV 360 Wildlife Ecology and Management
4 credits, Fall (offered as needed alternate years)
Examines the theories and practices of wildlife management. Focus is on the application of these practices as part of a broader approach to wildlife conservation, including urban wildlife management. Laboratory included.
Prerequisite(s): A grade of "C" or better in BIO 115 and in BIO 115L or ENV 255.
Fees: Fees may be required for field trips

ENV 365 Independent Research in Environmental Science
3 credits, Fall and Spring (offered as needed)
Provides an opportunity to conduct independent research in environmental science under the supervision of an environmental science faculty member. This course may be repeated for credit. This course cannot be used as a substitute for the senior capstone requirement.
Prerequisite(s): A grade of "C" or better in BIO 113 and BIO 113L, a grade of "C" or better in one environmental science course at the 200-level, junior standing, and permission of the faculty member who will be supervising the research
Fees: Printing fees may be required.

ENV 410 The Chesapeake Bay Ecosystem
3 credits, Fall
Integrates a comprehensive detailed understanding of the physical, chemical, and biological characteristics of the Chesapeake bay ecosystem to address issues of current concern. A case study approach will be used to examine the cultural and scientific aspects of environmental challenges facing natural resource managers.
Prerequisite(s): A grade of "C" or better in at least one 300-level ENV course and in EC 202 or POSCI 102

ENV 420 Restoration Ecology
This course is under development.

ENV 430 Ecosystem Delineation and Mitigation
This course is under development.

ENV 450 Senior Research Capstone
5 credits, Fall and Spring
Provides an opportunity for the student to develop and conduct a scientific research project on campus. A minimum of 180 hours of laboratory work is required. Under the direction of a faculty mentor, each student performs independent and original research that is part of the faculty member’s ongoing research program. Emphasis is on honing oral and written skills in the context of scientific inquiry. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to environmental science majors.
Prerequisite(s): A grade of "C" or better in a minimum of two upper-level environmental science courses; satisfactory completion of the School of the Sciences junior portfolio; two evaluations by science faculty
Fees: Printing fees may be required.

ENV 455 Senior Research Capstone
5 credits, Fall and Spring
Provides an opportunity to gain professional workforce experience. A minimum of 180 hours of on-site work is required. The work must integrate and apply academic content appropriate to the workforce placement. Emphasis is on honing oral and written skills in the context of the internship experience. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to environmental science majors.
Prerequisite(s): A grade of "C" or better in a minimum of two upper-level environmental science courses; satisfactory completion of the School of the Sciences junior portfolio; two evaluations by science faculty
Fees: Parking and printing fees may be required.

ENV 460 Senior Research Capstone
9 credits, Fall and Spring
Provides an opportunity for the student to develop and conduct a scientific research project on campus or off campus. A minimum of 324 hours of laboratory work is required. Under the direction of a Stevenson or host mentor, each student performs independent and original research that is part of the mentor’s ongoing research program. Emphasis is on honing oral and written skills in the context of scientific inquiry. Applications are competitive. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to environmental science majors.
Prerequisite(s): Cumulative and science GPA of 3.70 or higher; A grade of "C" or better in at least two upper-level environmental science courses; satisfactory completion of the School of the Sciences junior portfolio; two evaluations by science faculty
Fees: Parking and printing fees may be required.

ENV 460H Honors Senior Research Capstone
9 credits, Fall and Spring
Provides an opportunity for the student to develop and conduct a scientific research project on campus or off campus. A minimum of 324 hours of laboratory work is required. Under the direction of a Stevenson or host mentor, each student performs independent and original research that is part of the mentor’s ongoing research program. Emphasis is on honing oral and written skills in the context of scientific inquiry. Applications are competitive. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to environmental science majors.
Prerequisite(s): Cumulative and science GPA of 3.70 or higher; A grade of "C" or better in a minimum of two upper-level environmental science courses; satisfactory completion of the School of the Sciences junior portfolio; two evaluations by science faculty
Fees: Parking and printing fees may be required.

ENV 465 Senior Internship Capstone
9 credits, Fall and Spring
Provides an opportunity to gain professional workforce experience. A minimum of 324 hours of on-site work is required. The work must integrate and apply academic content appropriate to the workforce placement. Emphasis is on honing oral and written skills in the context of the internship experience. Applications are competitive. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to environmental science majors.
Prerequisite(s): A grade of "C" or better in a minimum of two upper-level environmental science courses; satisfactory completion of the School of the Sciences junior portfolio; two evaluations by science faculty
Fees: Parking and printing fees may be required.

ENV 465H Honors Senior Internship Capstone
9 credits, Fall and Spring
Provides an opportunity to gain professional workforce experience. A minimum of 324 hours of on-site work is required. The work must integrate and apply academic content appropriate to the workforce placement. Emphasis is on honing oral and written skills in the context of the internship experience. Applications are competitive. In February, invitations to apply are extended to all students who meet the prerequisites. Restricted to environmental science majors.
Prerequisite(s): Cumulative and science GPA of 3.70 or higher; A grade of "C" or better in a minimum of two upper-level environmental science courses; satisfactory completion of the
School of the Sciences junior portfolio; two evaluations by science faculty.

Fees: Parking and printing fees may be required.

Fashion Design

School of Design
Department of Fashion Design
Program Coordinator: Sally DiMarco, M.Ed.

Fashion Design Program Description

The Fashion Design degree curriculum synthesizes the individual esthetic of the designer with an understanding of the market, historical context of fashion and costume, consumer psychology, materials, and techniques of apparel construction. The major’s curriculum focus is primarily on studio work and other discipline-specific course work central to its mission of developing the student’s individual design voice and vision while developing their potential as practicing technical fashion design professionals.

Fashion Design Program Outcomes

Upon completion of the Bachelor of Science in Fashion Design, graduates will be able to:
1. Apply the skills, concepts, methodologies, and behavior to be practicing technical fashion design professionals.
2. Execute sophisticated rendering, design, and computer skills to illustrate concepts, communicate design development ideas, create effective presentations, and translate into technical specifications.
3. Demonstrate competence in visual expression of garment design from experience of the human form through life drawing and fashion drawing conventions to represent the clothed figure.
4. Create a fashion portfolio of finished art, collections, and work and presentation boards expressing a personal voice and vision.
5. Employ concepts of sustainability in global, environmental, social and economic contexts as fundamental characteristics of a comprehensive design strategy in the fashion industry.
6. Articulate the history of fashion and costume design in a context of applied research and analysis.
7. Integrate fashion design in the business context and use research to discern consumer psychology, markets, and trends to create strategically targeted product lines.
8. Collaborate with design, merchandising, management, and specialty groups to make informed garment design decisions.

Fashion Design Program Policies

Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a “C” in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of "C" or better in the prerequisite course(s). When a grade below "C" is earned in a major course, the student must repeat that course.

Fashion Design Program Requirements

The courses listed below are required for the completion of the bachelor’s degree in fashion design. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

Fashion Design Other Options

Minor:
A minor in fashion design is available. All course prerequisites must be met to be eligible to take the selected course for a minor. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.

Fashion Design Course Descriptions

FDES 100 First-Year Fashion Design Seminar
1 credit, Fall or Spring
Provides fashion design majors with the opportunity to learn more about the technical aspects of the fashion industry and the requirements of the major. Activities may include familiarizing themselves with the industrial equipment used in the fashion design studio, participating in a field trip, attending a guest lecture on a fashion design topic, and exploring careers in the field.
Prerequisite(s): None

FDES 200 Introduction to Textiles
3 credits, Fall and Spring
Introduces students to the materials, processes, and manufacture of textiles and how they are created from fiber to the finished fabric. Students will explore the global marketplace, recent innovations, and technological advances in the field. Both fashion design and merchandising majors will acquire a broad and thorough knowledge of textiles used in the apparel industry.
Prerequisite(s): A grade of "C" or better in ENG 151

FDES 201 Fashion Design I
3 credits, Fall
Introduces the flat pattern design patternmaking system. Students will learn to use a master pattern or sloper and how to manipulate it to create new styles. Through classroom demonstrations, hands-on exercises, and projects, basic pattern making techniques and skills are acquired. Assignments include developing
fashion foundation apparel flat patterns for menswear, women's, and children's garments. 
**Prerequisite(s):** A grade of "C" or better in ENG 151

**FDES 202 Fashion Design II**
3 credits, Spring
Introduces the three-dimensional system of creating draped clothing patterns on a dress form. Students learn the foundation of apparel draping, presented in a step-by-step format, supported by classroom demonstrations, hands-on exercises, and projects. Assignments include developing draped patterns for menswear, women's, and children's garments. 
**Prerequisite(s):** A grade of "C" or better in ENG 151

**FDES 203 Garment Construction Studio**
3 credits, Fall and Spring
Introduces students to industry clothing construction methods and applications of various categories of apparel. Students reinforce competency levels by assembling garments utilizing professional cutting, sewing, pressing, and finishing techniques. Assignments include constructing menswear, women's, and children's garments. 
**Prerequisite(s):** A grade of "C" or better in ENG 151

**FDES 205 Computer-Aided Pattern Design I**
3 credits, Spring
Focuses on developing competencies using computer-aided drafting and design (CADD) technology for producing patterns for apparel. Students learn digitizing, grading, pattern editing, pattern development, marker making, and plotting by employing pattern design software. Assignments include developing a variety of computer-generated patterns of original design for women's wear. 
**Prerequisite(s):** A grade of "C" or better in FDES 201 or permission of instructor

**FDES 210 Fashion Illustration I**
3 credits, Fall
Introduces the basics of rendering fashion illustrations for men, women, and children. Students learn fashion figure proportions, develop croquis (sketches), draw technical flats, and capture fabric qualities using various media. 
**Prerequisite(s):** A grade of "C" or better in ART 110, ART 113, ART 116, ART 117 or permission of instructor

**FDES 274 History of Fashion**
3 credits, Fall and Spring
Introduces fashion history research practices that will instruct students in how to identify contemporary fashion sources. The time period of this course starts with 19th century sources and the emergence of the middle class and extends to 21st century fashion culture. In the study of fashion history students will practice and develop their critical thinking processing: comparing and contrasting any given fashion object's form and use over time; identifying a fashion object's aesthetic qualities; evaluating why consumer culture has a desire for and inefable connections to fashion icons; and exploring examples in fashion history that modified cultural values. 
**Prerequisite(s):** A grade of "C" or better in ENG 151

**FDES 280 Fashion Design Study Abroad**
3 credits, Spring
Introduces students to the global fashion market by integrating formal classroom learning with an overview of the apparel industry and then focusing on a specific fashion capital selected for study abroad. Under faculty supervision, students will have the opportunity to travel internationally and visit textile plants, manufacturing facilities, design houses and showrooms, flagship stores, museums, and other sites of cultural and fashion interest. 
**Prerequisite(s):** A grade of "C" or better in ENG 151 or permission of the Program Coordinator

**FDES 301 Fashion Design III**
3 credits, Spring
Focuses on developing flat pattern design and clothing construction techniques. Students create a variety of original styles and tailored looks by rendering working sketches, developing and grading flat patterns, constructing prototypes, selecting fabrics, and constructing garments for menswear, women's, and children's apparel. 
**Prerequisite(s):** A grade of "C" or better in FDES 201 and FDES 203 or permission of the instructor

**FDES 302 Fashion Illustration II**
3 credits, Spring
Introduces the basics of rendering fashion illustrations for men, women, and children in Photoshop. Students learn to draw detailed and precise technical sketches of various garments and fabric patterns using Illustrator. Students are guided to create a digital fashion portfolio using Photoshop. 
**Prerequisite(s):** A grade of "C" or better in ART 110, ART 113, ART 116, ART 217, FDES 210, or permission of instructor

**FDES 303 Fashion Design IV**
3 credits, Fall
Focuses on developing draping and clothing construction techniques. Students create a variety of original soft styles, redesigned looks, and specialized designs. Course work includes rendering working sketches, developing draped patterns, constructing prototypes, selecting fabrics, and constructing couture garments for menswear, women's, and children's apparel. 
**Prerequisite(s):** A grade of "C" or better in FDES 202 and FDES 203 or permission of the instructor

**FDES 305 Computer-Aided Pattern Design II**
3 credits, Fall
Focuses on developing competencies using advanced computer-aided drafting and design (CADD) technology for producing patterns for apparel. Students learn digitizing, grading, pattern editing, pattern development, marker making, and plotting by employing pattern design software. Assignments include developing a variety of computer-generated patterns of original design for menswear and children's wear. 
**Prerequisite(s):** A grade of "C" or better in FDES 205 or permission of the instructor

**FDES 401 Fashion Design V: Senior Studio I**
3 credits, Fall
Focuses on conceptualizing an original line of clothing by addressing design topics dealing with creativity, sustainability, socially conscious design, color, and fabric. Students identify a target market and they develop a coherent thematic strategy. The students create storyboards that includes color stories and fabric swatches to express the collection, render technical flat sketches, and construct garments in fashion fabric. 
**Prerequisite(s):** A grade of "C" or better in FDES 200, FDES 201, FDES 202, FDES 203, FDES 274, FDES 301, FDES 302, FDES 303, and FDES 305 or permission of the instructor

**FDES 403 Fashion Design VI: Senior Studio II**
3 credits, Spring
Focuses on creating the fashion design collection developed in FDES 401 Fashion Design V: Senior Studio I. Using a combination of patternmaking techniques, the students develop patterns, construct garment prototypes, select fabrics, and execute the collection in fashion fabric. The clothing line represents the culmination of the students' design process development and technical applications. 
**Prerequisite(s):** A grade of "C" or better in FDES 401 or permission of the instructor
FDES 404 Fashion Design VII: Product Development
3 credits, Spring
Focuses on the basics of the product development process for a global economy, from design concept to bringing a final commercial product to market within a specific timeline. Students will learn to establish product standards for garment construction, such as sizes, costs, fabrics, materials, and trims. Students create technical specification documents (tech packs) and track reports that will enable them to be effective communicators within an organization’s internal and external teams.
Prerequisite(s): A grade of “C” or better in ART-106, ART-113, ART-117, FDES-274, FDES-301, FDES-302, FDES-303, FDES-305, and VCD-125 or permission of the instructor
Co- or Prerequisite(s): FDES-403 and PHOTO-242

FDES 417 Fashion Design Internship
3 credits, Fall and Spring
Places students who will perform a minimum of 120 hours of supervised and approved internship experience in an external setting through the course of one semester. The internship faculty director and the Office of Career Services provide assistance to the students in locating the internship. Students will be required to keep a daily working journal, develop an employment portfolio, write a reflective essay evaluating the position and experience as a potential career, and participate in a final presentation.
Prerequisite(s): Junior or senior status, site approval, FDES 100 and a grade of “C” or better in FDES 200, 201, 202, 203, 205, 210 and 274 or permission of the Program Coordinator

### Fashion Merchandising

Brown School of Business and Leadership
Department of Business Administration
Department Chair: Deborah Leather, D.B.A.

### Fashion Merchandising Program Description
The fashion merchandising program is designed to provide majors in the program with an understanding of merchandising as it relates to the apparel and retail industries. The focus is on the business and marketing aspects of merchandising, particularly how the production, distribution, and promotion of goods and services in fashion and retail are developed and delivered to the consumers. International emphasis on the industry is provided as there is an increased blending of apparel manufacturing, distribution, and retail from a global framework.

Graduating students can expect to find employment in such positions as fashion and retail planning, buyers, visual merchandising, fashion and retail promotion, product managers, and retail store management.

### Fashion Merchandising Program Outcomes
Upon completion of the Bachelor of Science in Fashion Merchandising, graduates will be able to:
1. Analyze, develop, construct, and execute effective marketing strategies for a specific fashion or retail operation.
2. Demonstrate a thorough understanding of consumer behavior and choose appropriate professional techniques in the display and sales of fashion and retail goods.
3. Identify and interpret style and retail trends as they relate to fashion and retail cycles as well as targeted consumer markets.
4. Interpret, assess, and respond to economic and market factors that affect consumer fashion and retail demand.
5. Select appropriate solutions utilizing a working knowledge of specific areas of domestic and international marketing, management, and law as they relate to the business operations of fashion and retail merchandising.
6. Employ sophisticated personal communication and technology skills to enhance job effectiveness.

### Fashion Merchandising Program Policies
Students must earn a cumulative GPA of 2.00 and a minimum GPA of 2.50 in the major, and the lowest acceptable grade is a “C” in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of “C” or better in the prerequisite course(s). When a grade below “C” is earned in a major course, the student must repeat that course.

A course may be repeated once without special permission. Fashion merchandising majors must apply in writing to the department chair of business administration requesting permission to repeat a course for a second time. Those who do not successfully complete a major course with a grade of “C” or better after a third attempt will not be allowed to continue in the fashion merchandising program.

### Fashion Merchandising Program Requirements
The courses listed below are required for completion of the bachelor’s degree in fashion merchandising. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

#### Major Requirements:
- ACC 215 Financial Accounting
- ART 110 Fundamentals of Design I
- EC 201 Principles of Economics: Microeconomics
- EC 202 Principles of Economics: Macroeconomics
- FDES 200 Introduction to Textiles
- FDES 274 History of Fashion
- FMER 223 The Business of Fashion
- FMER 320 Fashion Retailing
- FMER 323 Fashion Product Merchandising
- FMER 360 Visual Merchandising
- FMER 417 Senior Business Internship
- INBUS 325 International Marketing
- LAW 208 Business Law
- MATH 140 Basic Statistics
- MGT 204 Principles of Management
- MGT 210 Business Writing
- MGT 313 Operations Management
- MKT 206 Principles of Marketing
- MKT 311 Consumer Behavior
- MKT 336 Integrated Marketing Communication

### Fashion Merchandising Other Options

**Minors:**
A minor in fashion merchandising is not available.

### Fashion Merchandising Course Descriptions
**FMER 223 The Business of Fashion**
3 credits, Fall and Spring
Introduces students to the functions of and the careers within the fashion industry. The course examines the independent industry roles of the merchandiser, retailer, and marketer. Students will learn basic principles governing the fashion movement and how to use industry source information to keep current with changes that affect the trends in fashion.
Prerequisite(s): A grade of "C" or better in MKT 206
Film and Moving Image Program Description

The department of film/video educates its students to be adaptable lifelong artists, craftspeople, and learners who are capable of maintaining focus, resilience, self-control, and motivation through both success and failure. Graduates must be able to navigate the ever-changing technological landscape while developing and maintaining an original and personal aesthetic vision and be able to effectively communicate this vision to others. The department focuses on teaching a wide array of equipment and software to complement its commitment to teaching film and moving image history and technique.

Graduates of the department emerge as flexible and capable practitioners of filmmaking - be it on film, digital media, or the next emerging format - who can work both alone as self-starters or collaboratively in groups, and be directors, writers, producers, cinematographers, editors, motion graphics artists, some combination of all of these or a specialist of their own design.

In their final year, film and moving image students demonstrate the skills acquired in their chosen area of expertise by creating a capstone project and by developing a portfolio of work for distribution in a variety of current media outlets.

Film and Moving Image Program Outcomes

Upon completion of the Bachelor of Science in Film and Moving Image, graduate will be able to
1. Create films and other moving image projects, using current crafts and emerging technologies and grounded in a strong sense of personal style.
2. Write film and moving image proposals and screenplays.
3. Think and write critically about film and moving image history, aesthetics, global perspectives and production techniques.

Cinematography Track Description

Students in the Cinematography Track pursue an additional course of study in the art, craft, techniques, changing technologies and history of film and digital cinema image capturing, and how to become a professional Director of Photography (the industry term for cinematographer) and/or work in other camera-related positions.

Cinematography Track Outcomes

Upon completion of the cinematography track graduates will be able to:
• Capture moving images on both film and video, using current and emerging camera technologies.
• Compose and light moving images that reflect a highly developed personal aesthetic style.
• Supervise the grip and electric members of film and video crews.
• Develop shot lists and film/video crew and equipment plans with a director and producer, as part of a team.

Editing Track Description

Students in the Editing Track pursue an additional course of study in the art, craft, techniques, changing technologies and history of editing, as well as how to become a professional editor and/or work in other editing-related positions. In addition, students in this track learn the basics of motion graphics creation and design.

Editing Track Outcomes

Upon completion of the editing track graduates will be able to:
• Import and manage film and video footage, and create special effects and titles using current and emerging editing applications.
• Edit moving image projects with an aesthetic style appropriate to the production.
• Deliver a finished product through a variety of current and emerging post-production processes.
• Work with a director and/or clients and complete a project as part of a team.

Producing Track Description

Students in the Producing Track pursue an additional course of study in techniques, changing technologies and history of moving image production, the business side of filmmaking, and how to become a professional producer and/or work in other producing-related positions.
**Producing Track Outcomes**

Upon completion of the producing track graduates will be able to:

- Create organized industry-standard production plans for film and moving image projects.
- Write grant proposals and industry-standard budgets for film and moving image productions.
- Develop effective marketing strategies for film and moving image projects, using current and emerging understandings of the industry's legal and financial structures.
- Work with a director, as part of a team, to create an efficiently run film and moving image production.

**Writing Track Description**

Students in the Writing Track pursue an additional course of study in the art, craft and history of scriptwriting, both for television and for film, as well as grant/proposal writing and other commercial and media writing opportunities in the field.

**Writing Track Outcomes**

Upon completion of the writing track graduates will be able to:

- Analyze and write complex film and television scripts, both short and feature-length, according to industry-standard formats.
- Write grant proposals for film and moving image productions
- Write about films and film criticism with a highly developed personal aesthetic style.
- Work with a director and/or producer and completing a project as part of a team.

**Film and Moving Image Program Policies**

Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of "C" or better in the prerequisite course(s). When a grade below "C" is earned in a major course, the student must repeat that course.

**Film and Moving Image Program Requirements**

The courses listed below are required for completion of the bachelor’s degree in film and moving image. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

**Major Requirements (all students):**

- **EDCP 100** First Year Seminar
- **ART 106** Art History Survey
- **FMI 101** Cinema I: Visual Storytelling
- **FMI 102** Cinema II: Fundamentals of Continuity
- **FMI 103** Introduction to 16mm Film Production
- **FMI 201** Cinematography I: Black & White
- **FMI 204** Broadcast Production
- **FMI 211** Basic Screenwriting
- **FMI 221** Art & Craft of Editing I
- **FMI 231** Film and Moving Image History
- **FMI 301** Documentary/Promo Production
- **FMI 302** Narrative Production
- **FMI 304** Directing the Actor
- **FMI 331** Major Directors/Movements
- **FMI 351** Internship
- **FMI 401** Senior Project Pre-Production
- **FMI 402** Senior Project Production

**PHOTO** Basic Digital Photography

141

**VCD 125** Fundamentals of Digital Media

Students must also complete the courses for one of the tracks listed below.

**Cinematography Track:**

- **FMI 202** Cinematography II: Color
- **FMI 303** Lighting for the Camera
- **FMI 305** Production Design
- **FMI 306** Experimental Cinema
- **FMI 334** Film Aesthetics

**Editing Track:**

- **FMI 222** Art & Craft of Editing II
- **FMI 241** Sound & Sound Design
- **MOGR 330** Type in Motion
- **MOGR 331** Intermediate Motion Graphics
- **VCD 230** Typography I

**Producing Track:**

- **FMI 332** Grant Writing
- **FMI 353** Budgeting & Scheduling Films
- **FMI 354** Production Management
- **FMI 355** The Business of Filmmaking
- **FMI 451** Film Distribution and Intellectual Property

**Writing Track:**

- **FMI 311** Advanced Screenwriting
- **FMI 313** Script Analysis
- **FMI 334** Film Aesthetics
- **FMI 332** Grant Writing
- **FMI 411** Feature Film Writing

**Film and Moving Image Other Options**

**Minor:**

Students further develop their shooting skills, learning how a minor in film and moving image is available. All course prerequisites must be met to be eligible to take the selected course for a minor. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.

**Film and Moving Image Course Descriptions**

**FMI 101** Cinema I: Storytelling

3 credits, Fall and Spring

Introduces knowledge of basic video production equipment, crew functions, and techniques. Students learn and practice the foundational vocabulary of digital filmmaking and direct and shoot various short films of their own, working individually and in groups. Students also learn the principles of basic digital editing. This course includes studio and lecture. For this course, students will need to have access to, or purchase, an external hard drive that meets the instructor’s specifications.

**Prerequisite(s):** None

**FMI 102** Cinema II: Continuity

3 credits, Spring

Develops skills in shooting video outside the controlled studio environment. Participants design, shoot, edit (using non-linear editing), and evaluate various productions.

**Prerequisite(s):** A grade of "C" or better in FMI 101

**FMI 103** Introduction to 16 mm Film Production

3 credits, Spring

Introduces the components of film—story structure, camera use, editing, sound, movement, music, dialog, and mise-en-scene as
students develop an appreciation for film as an art form. This course incorporates the understanding of cinema as a language and of its ability to explore the human condition.

**Prerequisite(s):** None

### FMI 201 Cinematography I: Black & White
3 credits, Fall

Analyzes the basics of black and white 16mm film and digital production. Students explore composition, contrast and lighting, and how the black and white image is unique in its aesthetic requirements, how it differs from the color image, and why it is important to understand that difference.

**Prerequisite(s):** A grade of "C" or better in FMI 102 and FMI 103

### FMI 202 Cinematography II: Color
3 credits, Spring

Emphasizes the creative aspects of color cinematography (16mm and digital) and how it differs from black & white. Students further develop their shooting skills, learning how camera movement and lighting complement each other, and how color cinematography affects production design. Participants work individually and in teams to create multiple short dramatic pieces from screenplays or treatments selected from student submissions.

**Prerequisite(s):** A grade of "C" or better in FMI 201 (FLM-254)

### FMI 204 Broadcast Production
3 credits, Spring

Introduces the techniques and technologies of a three-camera television studio and live switching. Students explore how to work with a green screen and virtual broadcast environments, as well as how to design and record multiple group and individual broadcast projects of their own.

**Prerequisite(s):** A grade of "C" or better in FMI-201 (FLM-254) and FMI-221 (VID-222)

### FMI 211 Basic Screenwriting
3 credits, Spring

Develops skill writing basic narrative screenplays for film production. Students examine the process of dramatic writing, generate and select story ideas, structure action and conflict, build characters, develop themes, and create dialog. Students also learn to identify and apply official industry screenplay formats, and write a variety of short movie scripts of their own.

**Prerequisite(s):** A grade of "C" or better in ENG 152 or equivalent

### FMI 221 Art and Craft of Editing I
3 credits, Fall

Builds on skills learned in FMI 102. Students further develop their editing techniques beyond continuity. They pay special attention to the aesthetics of when and why to make a cut, as well as pacing and experimental techniques.

**Prerequisite(s):** A grade of "C" or better in FMI 102

### FMI 222 Art and Craft of Editing II
3 credits, Fall and Spring

Explores further both editing and post-production, building on skills learned in FMI 221. Students work with both student-generated and industry-standard footage, working in the Avid Media Composer digital editing system, and analyze and apply advanced editing techniques.

**Prerequisite(s):** A grade of "C" or better in FMI 221

### FMI 231 Film and Moving Image History
3 credits, Fall and Spring

Examines the artistic development of film, television, and other moving image works, from the nineteenth century to the present, by exploring genres, aesthetics, methods of analysis, and current trends. Students study the contributions of major artists and their works, both American and foreign.

**Prerequisite(s):** A grade of "C" or better in ENG-151

### FMI 241 Sound and Sound Design
3 credits, Fall

This course is under development.

### FMI 301 Documentary/Promo Production
3 credits, Fall

This course is under development.

### FMI 302 Narrative Production
3 credits, Fall

This course is under development.

### FMI 303 Lighting for the Camera
3 credits, Spring

Develops skills in using light in a variety of video and film production situations. Students examine the difference in lighting for stills and movement, and the differences between direct and indirect lighting and explore the use of color, temperature, and contrast, using a variety of accessories as needed to provide effective illumination to create the desired mood. This course includes lecture and laboratory.

**Prerequisite(s):** A grade of "C" or better in VID 222

### FMI 304 Directing the Actor
3 credits, Spring

Introduces and practices the basic directing skills of analyzing and interpreting script, determining an appropriate style of production, blocking the action, establishing rhythm, guiding the actors in creating their characters, and overseeing design elements (set, lighting, sound, costumes). Students apply these skills to directing scenes for both the stage and the camera.

**Prerequisite(s):** A grade of "C" or better in VID 107, THEA 121, FLM 108 or 204, VID 222 or THEA 210

### FMI 305 Production Design
3 credits, Spring

This course is under development.

### FMI 306 Experimental Cinema
3 credits, Spring

This course is under development.

### FMI 311 Advanced Screenwriting
3 credits, Spring

This course is under development.

### FMI 313 Script Analysis
3 credits, Spring

This course is under development.

### FMI 314 Film Aesthetics
3 credits, Spring

This course is under development.

### FMI 351 Internship
3 credits, Spring

This course is under development.

### FMI 352 Grant Writing
3 credits, Spring

This course is under development.

### FMI 353 Budgeting & Scheduling Films
3 credits, Spring

This course is under development.

### FMI 354 Production Management
3 credits, Spring

This course is under development.

### FMI 355 The Business of Filmmaking
3 credits, Spring

This course is under development.

### FMI 401 Senior Project: Pre-Production
3 credits, Fall

Prepares students for their senior projects, which will be shot and edited the following semester, in FMI 402. Each student,
working closely with the instructor (individually or in groups), will develop over the course of the semester, either a narrative film script or documentary film treatment, along with a comprehensive budget and schedule for that project. In some cases, students will be permitted to begin developing a feature-length screenplay, which will then be completed the following semester, in FMI 402.

**Prerequisite(s):** A grade of "C" or better in VID 325 or FLM 355, and senior status

**FMI 402 Senior Project: Production**

3 credits, Spring

Guides students through the production and completion of their final Senior Film/Video Project, in order for them to fulfill the graduation requirements of the Department of Film and Moving Image. Continuing where they left off in FMI 401, students, working closely with the instructor (individually or in groups), will develop, in the first two weeks of the course, a plan of action for the semester. The plan of action will include frequent due dates, that will allow them to finish their projects on time. The project can be a script, documentary, narrative, experimental film, or video. In some cases, students will finish a feature-length screenplay begun in FMI 401. This work is expected to incorporate the philosophical, aesthetic, and technical elements of film and video production learned throughout the program.

**Prerequisite(s):** A grade of "C" or better in FMI 401

**FMI 411 Feature Film Writing**

This course is under development.

**FMI 451 Film Distribution and Intellectual Property**

This course is under development.

---

**Finance**

Brown School of Business and Leadership
Department of Business Administration

Stevenson University does not currently offer a bachelor’s degree in finance; however, business administration majors may select five finance courses as major electives within their program that will provide the knowledge of finance required to become successful in the financial areas of business, government, and not-for-profit organizations. Course descriptions for finance are listed in this section.

**Finance Course Descriptions**

**FIN 300 Principles of Finance**

3 credits, Fall and Spring

Studies the financial tools and techniques used to manage money and investments in the modern business enterprise. Topics include financial analysis and planning, money and capital market instruments, risk analysis, and the time value of money.

**Prerequisite(s):** A grade of "C" or better in ACC 141, MATH 210 or MATH 140; and MGT 204

**FIN 321/EC 321 Money & Banking**

3 credits, Fall or Spring

Examines the role and functions of a central bank in achieving the macroeconomic goals of price stability, full employment, financial market stability, and exchange rate stability. Topics include the role of money in the economy, the role of financial intermediaries and markets in the economy, general history of depository regulation, background on the causes and effects of a financial crisis on the economy, and the effect of the global financial markets on a domestic economy.

**Prerequisite(s):** A grade of "C" or better in EC 201 and EC 202

**FIN 402 Foundations of Finance**

3 credits, Fall

Studies the financial tools and techniques used in the modern business enterprise. Topics include financial analysis and planning, capital budgeting, cash and working capital management, profitability analysis, and long-term financing. This course is intended for accounting majors. Students who take FIN 300 or FIN 301 are not eligible to take FIN 402.

**Prerequisite(s):** A grade of "C" or better in ACC 202 and MATH 210

**FIN 416 International Finance**

3 credits, Spring (offered as needed)

Examines the operation and financing of businesses and other organizations in the global capital markets. This course will discuss the key differences between domestic and international finance, including exchange rate exposure and management, political risk, international taxation, and international financial instruments.

**Prerequisite(s):** A grade of "C" or better in FIN 300 or FIN 402

**FIN 417 Finance Internship**

3 credits, Fall and Spring

Places students in an external business, government, or not-for-profit organization that offers a well-rounded, supervised, practical career experience in the finance arena. Students will also attend bi-weekly meetings.

**Prerequisite(s):** A grade of "C" or better in FIN 300 or FIN 402 and permission of department chair

**FIN 420 Market Analysis for Investments**

3 credits, Fall or Spring

Develops technical ability to define investment objectives consistent with plans and preferences of the investors. This course will also discuss analysis of risks by class of security as well as individual stocks, and development of portfolios based on these criteria with an understanding of the securities markets.

**Prerequisite(s):** A grade of "C" or better in FIN 300 or FIN 402

**FIN 435 Cases in Corporate Finance**

3 credits, Fall or Spring

Applies finance theory to a variety of real-world situations faced by firms and investors. Case studies illustrating both domestic and international financing and investing decisions will be considered.

**Prerequisite(s):** A grade of "C" or better in FIN 300 or FIN 402

**FIN 450 Business Valuation and Security Analysis**

3 credits, Fall or Spring

Introduces students to the principles of valuation and security in both public and private firm settings. Major topics covered include the discounted cash flow, income, relative, and asset approaches used in valuations.

**Prerequisite(s):** A grade of "C" or better in FIN 300 or FIN 402

---

**Forensic Sciences**

School of the Sciences
Department of Biological Sciences and Department of Chemistry

**Forensic Sciences Option in Biochemistry, Biotechnology, or Chemistry Program Description**

Stevenson University offers two program options in the study of forensic sciences. One option is a BS/MS program where students can earn a bachelor’s degree in biochemistry, biotechnology, or chemistry in four years and a master’s degree in forensic sciences in as little as one additional year. For additional information regarding the B.S. degree in
biochemistry, biotechnology, or chemistry please see the biochemistry, biotechnology, or chemistry sections of this catalog. The other option is a two-year master's degree program, which is described more fully in the Graduate and Professional Studies Catalog and on the Stevenson website at stevenson.edu.

Forensic sciences is an interdisciplinary and applied course of study which plays a crucial role in the legal justice system. Advances in instrumentation and technology have opened up new approaches to solving crime, and the need for individuals trained in both science and the law is growing. Graduates of our program will be prepared for employment in local, state or federal government crime laboratories, forensics laboratories, DNA testing facilities, industry, and continued study at the doctoral level.

Our forensic sciences program is the only one of its kind to be offered in partnership with the Maryland State Police Forensic Sciences Division. Stevenson's partnership with the Maryland State Police (MSP) means that students in our program are being trained by some of the top experts in the field. On-site, practical training at the state-of-the-art MSP forensic sciences laboratories and other local forensics laboratories provides an exceptional opportunity for our students to experience “real-life” forensic sciences.

**Forensic Sciences Option in Biochemistry, Biotechnology, or Chemistry Application Process**

Students apply for admission into the BS/MS program during their junior year. Applications will be available on September 1 and February 1. Admission to this program is based upon the following criteria:

- Cumulative and science/math GPA of 3.0 or higher in all course work attempted
- Grade of "C" or better in all science and mathematics courses
- Completion of at least 60 credit hours and enrollment in a minimum of an additional 15 credit hours
- Completion of FSCI 101
- Completion of Organic Chemistry II (CHEM 211 and 211L) and enrollment in a minimum of one 300 or 400 level science course
- Submission of a completed MSFS BS/MS Program Application, including three letters of recommendation, prior to October 1 and March 1

Once accepted into the program, the undergraduate student may take up to 18 graduate credits beginning in the spring of his/her junior year.

Students, once accepted into the program, must submit a Graduate Application in the last semester of their undergraduate education. Application must be made prior to September 15 for a planned January start date and prior to February 15 for a planned August start date.

**Forensic Sciences Option in Biochemistry Program Requirements**

The courses listed below are required for completion of the bachelor’s degree in biochemistry and for entry into the biology, chemistry or crime scene investigation track of the forensic sciences master’s program. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

**Major Requirements:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SCI 100</td>
<td>School of the Sciences New Student Seminar</td>
</tr>
<tr>
<td>ART 540</td>
<td>Forensic Photography</td>
</tr>
<tr>
<td>BIO 113</td>
<td>Biology I: Cell Biology and Genetics</td>
</tr>
<tr>
<td>BIO 113L</td>
<td>Biology I: Cell Biology and Genetics Lab</td>
</tr>
</tbody>
</table>

**Elective courses Group 1**

Select two from the following list: (Students interested in the chemistry track must choose CHEM 430; students interested in the biology track must choose BIO 310 or BIO 330)

- BIO 230 Genetics
- BIO 327 Biochemistry
- BIO 345L Integrative Laboratory I
- BIO 427 Advanced Biochemistry
- CHEM 115 General Chemistry I
- CHEM 115L General Chemistry I Laboratory
- CHEM 116 General Chemistry II
- CHEM 116L General Chemistry II Laboratory
- CHEM 116S General Chemistry II SoLVE
- CHEM 210 Organic Chemistry I
- CHEM 210L Organic Chemistry I Laboratory
- CHEM 211 Organic Chemistry II
- CHEM 211L Organic Chemistry II Laboratory
- CHEM 213 Electronic Literature Searching
- FSCI 101 Survey of Forensic Science
- FSCI 400 Senior Forensic Science Seminar
- FSCI 655 Practicum Rotations
- MATH 220 Calculus I
- PHIL 415 Professional Ethics
- PHYS 210 or General Physics I
- PHYS 215 General Physics I with Calculus
- PHYS 211 or General Physics II
- PHYS 216 General Physics II with Calculus

**Elective courses Group 2**

Select three from the following list:

- (one must be CHEM, one must be BIO and at least two of the courses must be at the 300 level or higher; advisors help students choose electives based on the desired graduate track)
- BIO 203 Microbiology
- BIO 255 Techniques in Molecular Biology
- BIO 310 Cell Biology (if not used as a group 1 elective)
- BIO 330 Molecular Genetics (if not used as a group 1 elective)
- BIO 335 Immunology
- BIO 336 Advanced Techniques in Molecular Biology
- BIO 430 Bioinformatics
- BIOCH 365 Independent Research in Biochemistry
- CHEM 221 Inorganic Chemistry
- CHEM 310 Analytical Chemistry
- CHEM 330 Advanced Organic Chemistry
- CHEM 340 Medicinal Chemistry
- CHEM 410 Instrumental Analysis
- CHEM 430 Physical Chemistry (if not used as a group 1 elective)
- CHEM 431 Physical Chemistry: Quantum Mechanics
- CHEM 432 Physical Chemistry: Thermodynamics
- MATH 235 Statistical Methods

**Forensic Sciences Option in Biotechnology Program Requirements**

The courses listed below are required for completion of the bachelor’s degree in biotechnology and for entry into the biology track, chemistry track or crime scene investigation track of the forensic sciences master’s program. Students must also complete the requirements for the Stevenson Educational Experience (SEE).
Specific pre- and co-requisites for each course are listed in the course descriptions.

**Major Requirements:**

- SCI 100 School of the Sciences New Student Seminar
- BIO 113 General Biology I: Cell Biology and Genetics
- BIO 113L General Biology I: Cell Biology and Genetics Laboratory
- BIO 114 General Biology II: Structure and Function of Organisms
- BIO 114L General Biology II: Structure and Function of Organisms Laboratory
- BIO 115 General Biology III: Ecology and Evolution
- BIO 115L General Biology III: Ecology and Evolution Laboratory
- BIO 217 Principles of Biochemistry
- BIO 201 Introduction to Biotechnology
- BT 205 Laboratory Safety and Quality Assurance
- BT 255 Techniques in Molecular Biology
- BT 255 Laboratory Advanced Techniques in Molecular Biology
- CHEM 115 General Chemistry I
- CHEM 115L General Chemistry I Laboratory
- CHEM 116 General Chemistry II
- CHEM 116L General Chemistry II Laboratory
- CHEM 210 Organic Chemistry I
- CHEM 210L Organic Chemistry I Laboratory
- CHEM 211 Organic Chemistry II
- CHEM 211L Organic Chemistry II Laboratory
- CHEM 310 Analytical Chemistry
- CHEM 410 Instrumental Analysis
- FSCI 101 Survey of Forensic Science
- FSCI 400 Senior Forensic Science Seminar
- FSCI 655 Practicum Rotations
- MATH 220 Calculus I
- MATH 235 Statistical Methods
- PHYS 210 or General Physics I or
- PHYS 215 Physics I with Calculus
- PHYS 211 or General Physics II or
- PHYS 216 Physics II with Calculus

Electives*:

- Any two biology or chemistry courses
- Any two biology or chemistry laboratory courses

*At least two elective courses must be at the 300-400 level or higher. One biology/chemistry elective is fulfilled by a forensic sciences track course in the master’s program.

**Forensic Sciences Option in Chemistry Program**

**Requirements**

The courses listed below are required for completion of the bachelor's degree in chemistry and for entry into the chemistry track or crime scene investigation track of the forensic sciences major's program. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

**Major Requirements:**

- SCI 100 School of the Sciences New Student Seminar
- ART 540 Forensic Photography
- BIO 113 General Biology I
- BIO 113L General Biology Laboratory
- BIOCH 327 Biochemistry
- BIOCH 345L Integrative Laboratory I
- CHEM 115 General Chemistry I
- CHEM 115L General Chemistry I Laboratory
- CHEM 115S General Chemistry I SoLVE
- CHEM 116 General Chemistry II
- CHEM 116L General Chemistry II Laboratory
- CHEM 116S General Chemistry II SoLVE
- CHEM 210 Organic Chemistry I
- CHEM 210L Organic Chemistry I Laboratory
- CHEM 211 Organic Chemistry II
- CHEM 211L Organic Chemistry II Laboratory
- CHEM 213 Electronic Literature Searching
- CHEM 221 Inorganic Chemistry
- CHEM 310 Analytical Chemistry
- CHEM 410 Instrumental Analysis
- CHEM 431 Physical Chemistry: Quantum Mechanics
- CHEM 432 Physical Chemistry: Thermodynamics
- FSCI 101 Survey of Forensic Science
- FSCI 400 Senior Forensic Science Seminar
- FSCI 655 Practicum Rotations
- MATH 220 Calculus I
- MATH 221 Calculus II
- MATH 140 or Statistics and Probability
- MATH 235 Statistical Methods
- PHIL 415 Professional Ethics
- PHYS 215 Physics I with Calculus
- PHYS 216 Physics II with Calculus
- PSY 101 Introduction to Psychology

**One CHEM elective selected from the following list:**

- BIOCH 427 Advanced Biochemistry
- CHEM 330 Advanced Organic Chemistry
- CHEM 340 Medicinal and Drug Chemistry
- CHEM 365 Independent Laboratory Research in Chemistry

**Forensic Sciences Other Options**

**Minor:**

A minor in forensic sciences is not available.

**Other Options for Students Interested in Forensic Sciences**

**Master of Science in Forensic Sciences**

Students who wish to enter the master's program in forensic sciences must have a bachelor's degree in biology, chemistry or other equivalent natural sciences or forensic sciences. Candidates must meet specific course requirements and prerequisites. For further details, please see the Graduate and Professional Studies Catalog or visit the Stevenson website stevenson.edu.

**Forensic Sciences Course Descriptions**

**ART 540 Forensic Photography**

*3 credits, Spring*

Explores the basic concepts and skills of photography, including the use and operation of SLR and digital cameras, the fundamentals of proper lighting, film selection, picture composition, film processing and printing. These skills are developed as they pertain to photographing a crime scene and specific areas of a crime scene, such as fingerprints, blood splatters, firearms, burn marks, victims, and tire tracks. The grade obtained in this course counts towards the student’s undergraduate GPA.

**Prerequisite for undergraduate students:** Must be a junior or senior in the BS (biochemistry, chemistry, or biotechnology)/MS (forensic sciences) program

**FSCI 100 Introduction to Forensic Science**

*3 credits, Fall and Spring*

Introduces the various aspects of forensic investigations in solving crimes. Topics include drugs and toxicology, explosives, forensic
biology (DNA), forensic chemistry (trace evidence analysis), firearms and toolmark identification, and questioned document examination. Evidence collection and processing in a manner that allows its use in court proceedings will be covered. Restricted to non-science majors.
Prerequisite(s): None

FSCI 100L Introduction to Forensic Science with Laboratory
4 credits, Fall and Spring (Offered as needed)
Introduces the various aspects of forensic investigations in solving crimes and provides hands-on laboratories on the various aspects of these investigations. Topics include drugs and toxicology, explosives, forensic biology (DNA), forensic chemistry (trace evidence analysis), firearms and toolmark identification, and questioned document examination. Evidence collection and processing in a manner that allows its use in court proceedings will be covered. Restricted to non-science majors.
Prerequisite(s): None

FSCI 101 Survey of Forensic Science
3 credits, Spring
Introduces the student interested in a career in forensic sciences to the various scientific disciplines involved in collecting and analyzing evidence. Topics include crime scene investigation, trace evidence analysis, fingerprints, forensic chemistry (drugs and toxicology) and biology (serology and DNA), bloodstain pattern analysis and arson and explosives. This course is designed for science majors who intend to pursue further study in forensic science. Restricted to science majors.
Prerequisite(s): None

FSCI 400 Senior Forensic Science Seminar
2 credits, Spring
Provides an interdisciplinary, comprehensive, and in-depth exploration of the nature and practice of forensic science. Emphasis is on honing oral and written communication skills in the context of scientific inquiry. Skill in reading, analyzing, and interpreting scientific journal articles is refined. Requirements include writing a comprehensive scientific paper, delivering oral presentations and creating and presenting a formal poster. In addition, each student is required to prepare a cumulative and comprehensive academic portfolio. Restricted to biochemistry, biotechnology and chemistry majors.
Prerequisite(s): Must be a junior or senior in the BS (biochemistry, chemistry or biotechnology)/MS (forensic sciences) program; FSCI 655 may be taken concurrently.
Fees: Printing fees may be required.

FSCI 655 Practicum Rotations
3 credits, Fall
Provides a rotation through a minimum of three forensic science disciplines at a local crime laboratory facility or a criminal justice agency. The practicum rotation will provide students with first-hand experience in areas such as ballistics, DNA analysis, forensic chemistry, latent prints, and questioned documents. The variety of opportunities will also foster ideas for the master’s research thesis. The grade obtained in this course counts towards the student's undergraduate GPA.
Prerequisite for undergraduate students: Must be a senior in the BS (chemistry, biochemistry or biotechnology)/MS (forensic sciences) program
Fees: Parking fees may be required.

France

Stevenson University does not currently offer a bachelor’s degree in French; however, French courses are listed in the “World Languages” section of the catalog.
required as well as the use of research methods in writing from sources.

**Prerequisite(s):** Acceptance into the University Honors Program

**HON 214F Honors Seminar - Fine Arts**
3 credits, Fall and Spring
Provides an opportunity for students to explore varying course topics from the disciplinary perspectives of the fine arts and social sciences. Course topics will vary and will emphasize integrative and critical thinking and written and oral communication. This course may be team taught. **Restricted to SU honors program students.**

**Prerequisites:** HON 100 and a grade of "C" or better in HON 171

**Fees:** Fees may be required for field trips or travel-based learning courses

**HON 214S Honors Seminar - Social Science**
3 credits, Fall and Spring
Provides an opportunity for students to explore varying course topics from the disciplinary perspectives of the fine arts and social sciences. Course topics will vary and will emphasize integrative and critical thinking and written and oral communication. This course may be team taught. **Restricted to SU honors program students.**

**Prerequisites:** HON 100 and a grade of "C" or better in HON 171

**Fees:** Fees may be required for field trips or travel-based learning courses

**HON 215F Honors Seminar - Fine Arts**
3 credits, Fall and Spring
Provides an opportunity for students to explore varying course topics from the disciplinary perspectives of the fine arts and natural or physical sciences, including mathematics. Course topics will vary and will emphasize integrative and critical thinking and written and oral communication. This course may be team taught. **Restricted to SU honors program students.**

**Prerequisites:** HON 100 and a grade of "C" or better in HON 171

**Fees:** Fees may be required for field trips or travel-based learning courses

**HON 215M Honors Seminar - Non-lab Science or Mathematics**
3 credits, Fall and Spring
Provides an opportunity for students to explore varying course topics from the disciplinary perspectives of the fine arts and natural or physical sciences, including mathematics. Course topics will vary and will emphasize integrative and critical thinking and written and oral communication. This course may be team taught. **Restricted to SU honors program students.**

**Prerequisites:** HON 100 and a grade of "C" or better in HON 171

**Fees:** Fees may be required for field trips or travel-based learning courses

**HON 216F Honors Seminar - Fine Arts**
3 credits, Fall and Spring
Provides an opportunity for students to explore varying course topics from the disciplinary perspectives of the fine arts and humanities. Course topics will vary and will emphasize integrative and critical thinking and written and oral communication. This course may be team taught. **Restricted to SU honors program students.**

**Prerequisites:** HON 100 and a grade of "C" or better in HON 171

**Fees:** Fees may be required for field trips or travel-based learning courses

**HON 216H Honors Seminar - Humanities**
3 credits, Fall and Spring
Provides an opportunity for students to explore varying course topics from the disciplinary perspectives of the fine arts and humanities. Course topics will vary and will emphasize integrative and critical thinking and written and oral communication. This course may be team taught. **Restricted to SU honors program students.**

**Prerequisites:** HON 100 and a grade of "C" or better in HON 171

**Fees:** Fees may be required for field trips or travel-based learning courses

**HON 217M Honors Seminar - Non-lab Science or Mathematics**
3 credits, Fall and Spring
Provides an opportunity for students to explore varying course topics from the disciplinary perspectives of the natural and physical science, including mathematics. Course topics will vary and will emphasize integrative and critical thinking and written and oral communication. This course may be team taught. **Restricted to SU honors program students.**

**Prerequisites:** HON 100 and a grade of "C" or better in HON 171

**Fees:** Fees may be required for field trips or travel-based learning courses

**HON 217S Honors Seminar - Social Sciences**
3 credits, Fall and Spring
Provides an opportunity for students to explore varying course topics from the disciplinary perspectives of the social sciences and humanities. Course topics will vary and will emphasize integrative and critical thinking and written and oral communication. This course may be team taught. **Restricted to SU honors program students.**

**Prerequisites:** HON 100 and a grade of "C" or better in HON 171

**Fees:** Fees may be required for field trips or travel-based learning courses

**HON 218H Honors Seminar - Humanities**
3 credits, Fall and Spring
Provides an opportunity for students to explore varying course topics from the disciplinary perspectives of the social sciences and humanities. Course topics will vary and will emphasize integrative and critical thinking and written and oral communication. This course may be team taught. **Restricted to SU honors program students.**

**Prerequisites:** HON 100 and a grade of "C" or better in HON 171

**Fees:** Fees may be required for field trips or travel-based learning courses

**HON 218S Honors Seminar - Social Sciences**
3 credits, Fall and Spring
Provides an opportunity for students to explore varying course topics from the disciplinary perspectives of the social sciences and humanities. Course topics will vary and will emphasize integrative and critical thinking and written and oral communication. This course may be team taught. **Restricted to SU honors program students.**

**Prerequisites:** HON 100 and a grade of "C" or better in HON 171

**Fees:** Fees may be required for field trips or travel-based learning courses

**HON 219H Honors Seminar - Humanities**
3 credits, Fall and Spring
Provides an opportunity for students to explore varying course topics from the disciplinary perspectives of the humanities and the natural or physical science, including mathematics. Course topics will vary and will emphasize integrative and critical
thinking and written and oral communication. This course may be team taught. **Restricted to SU honors program students.**

**Prerequisites:** HON 100 and a grade of "C" or better in HON 171

**Fees:** Fees may be required for field trips or travel-based learning courses

**HON 219M** Honors Seminar - Non-lab Science or Mathematics

3 credits, Fall and Spring

Provides an opportunity for students to explore varying course topics from the disciplinary perspectives of the humanities and the natural or physical sciences, including mathematics. Course topics will vary and will emphasize integrative and critical thinking and written and oral communication. This course may be team taught. **Restricted to SU honors program students.**

**Prerequisites:** HON 100 and a grade of "C" or better in HON 171

**Fees:** Fees may be required for field trips or travel-based learning courses

### Human Services

School of Humanities and Social Sciences
Department of Human Services
Department Chair: John Rosicky, Ph.D.

### Human Services Program Description

The human services program is a nationally accredited, multidisciplinary program. Graduates of the program are prepared to take the exam for certification as a Human Services-Board Certified Practitioner (HS-BCP) offered by the Center for Credentialing and Education. Students who choose the addictions counseling track can complete the academic work required for certification as a Certified Associate Counselor-Alcohol & Drug. Students who choose the administration of programs for children track can complete the academic work required for the Child Care Administrator Level 4 Credential.

The program equips students to assume careers in human services, working with a broad range of age groups (from infants to seniors) in many different areas, such as administration, business and industry, child welfare, criminal justice and corrections, developmental disabilities, education, gerontology, health care, higher education, and public welfare. The courses also prepare students to further their education in graduate programs such as human services, school counseling, marriage and family therapy, social work, counseling, and related social science disciplines.

The curriculum focuses on theory, research, and application, with field experience as a crucial part of the courses. Their coursework gives students a strong background in how individuals and families develop and function. Students also acquire the skills necessary to provide services to people in need. Optional tracks are available in addictions counseling, administration of programs for children, and human services administration. The courses within the tracks are open to all students who meet the prerequisites.

### Human Services Program Outcomes

Upon completion of the Bachelor of Science in Human Services, graduates will be able to:

1. Apply research findings to analyze common problems encountered in the human services field and develop appropriate solutions.
2. Develop individualized professional development goals and objectives, based on comprehensive self-evaluation and feedback from faculty and supervisors.
3. Exhibit consistent professional attitudes and behaviors in applied human services settings.
4. Exhibit culturally sensitive behavior in professional human services settings.
5. Exhibit effective and appropriate interpersonal skills in professional human services settings.
6. Synthesize and appropriately apply key concepts, methods and values in human services to professional situations, independently and with minimal supervision.

### Addictions Counseling Track

The addictions counseling track is for students interested in working with clients who have substance abuse problems and other addiction disorders. This option provides the academic work required by the Maryland Board of Professional Counselors and Therapists as a Certified Associate Counselor-Alcohol & Drug (CAC-AD). Certification requires additional supervised work experience following graduation. Because most clients are affected by addictions even if they, themselves, are not addicts, many human services majors who do not plan to be addictions counselors enroll in the addictions courses.

#### Addictions Counseling Track Outcomes

Upon completion of the addictions counseling track, graduates will be able to:

- Demonstrate knowledge and display ethical behavior regarding personal and professional awareness of values and self-disclosure, ethics of being a two-hatter, self-help fellowship participation, avoiding dual relationships, the relapsing counselor, and confidentiality (areas specified for fulfillment of ethics requirement for certification as a Certified Associate Counselor-Alcohol & Drug).
- Assess clients for addictions.
- Formulate multidimensional treatment plans.
- Analyze theories of counseling related to addictions.
- Critique the process of intervention and various options for intervention.
- Demonstrate counseling competencies (including motivational interviewing and multicultural counseling).
- Demonstrate competency in working with families and significant others affected by addictions disorders.

### Administration of Programs for Children Track

This track is for students interested in the administration of programs for young children. Courses in the track will also provide relevant information for students who do not intend to assume management positions but who want to work with young children. This option provides the academic work required for the Child Care Administrator Level 4 Credential issued by the Maryland State Department of Education. Certification may require additional work experience with young children. Graduates may assume positions such as program administrator for young children, Head Start program director, Head Start family and community program manager, child care center director, private nursery school administrator, director of Montessori schools, and child care advocate. Scholarship funds (Childcare Career and Professional Development Fund) may be available through their place of employment for students who are currently employed in child care centers. Interested students should contact their place of employment for more information about these scholarships.

#### Administration of Programs for Children Track Outcomes

Upon completion of the administration of programs for children track, graduates will be able to:
• Apply knowledge about the role of the teacher in creating a stimulating learning environment for young children through effective, developmentally appropriate instructional practices, quality learning experiences and functional room arrangement.
• Compare and contrast programs within the child welfare system (child protective services, family preservation services, foster care, and adoption).
• Interpret the impact of the legal system on the various aspects of the child welfare system.
• Analyze and apply specific strategies for resolving problems and conflicts using effective communication skills.
• Design vehicles for gaining and managing funds (e.g., budgeting, fund raising, grant proposals, lobbying community development) for programs for young children.
• Interpret legal issues involved in managing programs for young children.
• Incorporate strategies to increase the organizational effectiveness of programs for young children (e.g., time management, recruiting, hiring and retaining quality employees, recruiting and managing volunteers, evaluating and supervising staff).

**Human Services Administration Track**
The human services administration track is intended for students planning to pursue careers in human services administration. These careers include positions in human resources, development, and management.

**Human Services Administration Track Outcomes**
Upon completion of the human services administration track, graduates will be able to:
• Incorporate strategies to increase the organizational effectiveness of human services organizations (e.g., time management, recruiting, hiring and retaining quality employees, recruiting and managing volunteers, evaluating and supervising staff).
• Design vehicles for gaining and managing funds (e.g., budgeting, fund raising, grant proposals, lobbying community development) for human services organizations.
• Interpret legal issues involved in managing human services organizations.
• Access, evaluate, and analyze information appropriate to business documents related to the administration of human services.
• Plan and compose accurate, organized, and concise documents in formats and styles appropriate for communication in human services organizations.
• Describe major organizational behavior theories at the individual, group, and organizational level.
• Explain cause and effect relationships within a human services organization by applying various organizational behavior theories.
• Explain and demonstrate the processes involved in the negotiation and mediation of conflicts in human services organizations.
• Identify and analyze the concepts and practices used in marketing human services organizations.
• Apply marketing theory and practices to actual situations in human services organizations.
• Describe the components of human resource management in human services organizations.
• Analyze human resource management practices in human services organizations.

**Human Services Program Policies**
Students must earn a minimum GPA of 2.00 in the major, however, in order to advance to the senior practicum, students must earn a cumulative GPA of 2.50. The lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of "C" or better in the prerequisite course(s). When a grade below "C" is earned in a major course, the student must repeat that course.

**Human Services Program Requirements**
The courses listed below are required for completion of the bachelor's degree in human services. Students must also complete the requirements for the Stevenson Educational Experience (SEE).
Specific pre- and co-requisites for each course are listed in the course descriptions.

**Major Requirements:**
- EDCP 100 First Year Seminar
- HSR 101 Family Studies
- HSR 201 Introduction to Human Services
- HSR 210 Professional Writing in Human Services
- HSR 220 Diversity and Cultural Competence in Human Services
- HSR 224 Introduction to Research Methods
- HSR 315/515 Group Process and Practice
- HSR 340/540 Administration of Human Services
- HSR 360 Counseling Strategies for Individuals
- HSR 380 Internship in Human Services
- HSR 430 Family Dynamics and Interventions
- HSR 440 Practicum in Human Services
- HSR 441 Seminar in Human Services
- LAW 259 Children and Family Law
- MATH 140 Basic Statistics
- PHIL 415 Topics in Professional Ethics
- PSY 101 Introduction to Psychology
- PSY 108 Human Growth and Development
- PSY 215 Psychopathology
- SOC 101 Introduction to Sociology

**Five Focused Electives:**
See an advisor for the approved list.

Students desiring to complete a track should select from the following focused electives.

**Addictions Counseling Track:**
All major requirements and the following track courses
- HSR 270 Addictions
- HSR 370 Ethics in Addictions Counseling
- HSR 371 Assessment and Treatment of Addictions

Two additional focused electives

**Administration of Programs for Children Track:**
All major requirements and the following track courses
- ED 208 Learning Experiences for Young Children
- HSR 275 Services for Children and Youth
- PSY 206 Child Development

Two additional focused electives

**Human Services Administration Track:**
All major requirements and the following track courses
- LAW 380 Mediation and Negotiation
- MGT 310 Organizational Behavior
- MGT 408 Human Resource Management
- MKT 206 Principles of Marketing

One additional focused elective

The following courses are recommended but not required:
- HSR 315/515
- Principles of Negotiation and Sales
Human Services Other Options

Minor:
A minor in human services is available. All course prerequisites must be met to be eligible to take the selected course for a minor. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.

BS/MS Option:
The BS/MS option is available for students majoring in human services who wish to combine their bachelor’s coursework with work toward a Stevenson University master’s degree in Healthcare Management. Students choosing this option may earn their master’s degree in as little as one year after their bachelor’s degree. Interested students must formally apply for entrance into a BS/MS option in their junior year. Once admitted into this program, students develop an educational plan in consultation with their undergraduate and graduate advisors. For more information on this program see the School of Graduate and Professional Studies catalog.

Articulation Agreements:

Community College Programs
- Anne Arundel Community College – human services program
- Community College of Baltimore County – mental health program
- Frederick Community College - human services program; additions track, developmental problems track, gerontology track, social work track
- Harrisburg Area Community College – human services program; social services transfer program

Graduate School Programs
- McDaniel College - human services management program: special education

This agreement gives human services majors the opportunity to complete their Bachelor of Science in Human Services from Stevenson University and Master of Science in Human Services Management: Special Education from McDaniel College in 5 years.

Human Services Course Descriptions

HSR 101 Family Studies
3 credits, Fall and Spring
Explores family forms and issues across the life course in terms of current and historical trends as well as cross-cultural variations. The course addresses marriage and the family, partner selection and intimate relationships, and family crisis and social policy.
Prerequisite(s): None

HSR 201 Introduction to Human Services
3 credits, Fall and Spring
Provides an overview of the goals, functions and organization of human services for individuals and groups. Students also examine the major theoretical approaches for helping people in need and the various functions of professionals in human services.
Prerequisite(s): A grade of "C" or better ENG 152

HSR 210 Professional Writing in Human Services
3 credits, Fall and Spring
Emphasizes the development of reading, writing, and critical thinking skills in human services. Students develop the skills necessary to review and interpret literature in the field of human services and write clearly, accurately, and concisely about their analyses. The course covers plagiarism, citing sources appropriately using APA style, writing case notes, and professional communication strategies.
Prerequisite(s): A grade of "C" or better ENG 152

HSR 220 Diversity and Cultural Competence in Human Services
3 credits, Spring
Explores commonalities and differences in contemporary families and individuals. The course examines the culturally competent provision of human services when working with individuals of similar and different races, ethnicities, socio-economic statuses, religions, sexual orientations, and abilities.
Prerequisite(s): A grade of "C" or better in HSR 101

HSR 224 Introduction to Research Methods
3 credits, Fall and Spring
Introduces social science research methods. Emphasis is on formulating research questions, developing search and data-gathering strategies, and interpreting research in the areas of human services, social work, counseling, and psychology. Students analyze current research and present their findings.
Prerequisite(s): Sophomore status and one of the following: HSR 101, PSY 101 or SOC 101, or permission of the program coordinator.

HSR 230 Personal and Family Budgeting and Investing
3 credits, Spring
Explores financial planning for individuals and families throughout all stages of life. The course focuses on such areas as budgeting, managing credit, investing, insuring, retirement, and estate planning.
Prerequisite(s): None

HSR 235 Aging
3 credits, Spring (offered as needed)
Provides the student with an opportunity to learn the effects of a variety of physical, personal, psychological, and social issues faced by older adults and their families. Emphasis is placed on functional health status, social roles, social relationships, family issues, and the impact of these factors on specific services and the community at all levels.
Prerequisite(s): A grade of "C" or better in HSR 101

HSR 250 Topics in Human Services
3 credits, Fall and Spring
Examines selected issues in human services in depth, stressing relevant theories, research, and application. Rotating topics include Death and Dying, Divorce and Remarriage, and Family Violence. This course may be repeated for credit if topics are different.
Prerequisite(s): A grade of "C" or better in HSR 101 or HSR 201, depending upon the topic

HSR 270 Addictions
3 credits, Spring
Provides an overview of psychoactive drugs, their effects, and the knowledge and skills needed to deal with the problems of addiction. This course addresses the various models of addiction, progression, diagnosis and dual diagnosis, recovery, relapse, the intervention process, and the effects of addiction on the individual, family, and society.
Prerequisite(s): A grade of "C" or better in HSR 201 or NURS 337

HSR 275 Services for Children and Youth
3 credits, Fall
Examines the process of child and youth welfare, focusing on history and current trends. Topics include family preservation services, child and youth protective services, foster care, and adoption.
Prerequisite(s): A grade of "C" or better in HSR 101
Business Information Systems Program Description

The business information systems (BIS) major is designed for students interested in pursuing a career in business with a focus on information technology management or e-commerce technology. The use of information enabled by information systems is an essential element of strategy in organizations where information forms the basis for competing both nationally and globally. The responsibility of the technology manager or e-commerce technologist is to deliver information and information services to the end-user, and to administer the information resources cost-effectively. Organizations need competent technology professionals who are problem solvers and who understand how to leverage the company's technology base to improve its competitive advantage. This program delivers on both counts.

The BIS major consists of core courses in systems architecture and development, networking, and database design, followed by a career-focused track in technology management or e-commerce technology. To prepare for the workplace, students take a series of practical information systems courses where they examine business problems and the array of possible technology solutions. Students also take business...
administration courses in accounting, management, and marketing. The program’s blend of practical business and technology courses prepares the graduate to enter business as a well-rounded professional who knows how to think analytically, assess a business problem, and select the best technology solution. Many graduates of this bachelor’s degree program elect to continue their education at the graduate level by pursuing a master’s in business and technology management.

**Business Information Systems Program Outcomes**

Upon completion of the Bachelor of Science in Business Information Systems, graduates will be able to:

1. Articulate technology skills learned and applied during their academic career.
2. Perform those information technology tasks essential to their chosen career path in application, network, or database design.
3. Communicate with confidence technology ideas in team meetings and public forums.
4. Demonstrate a professional competency in research, analysis, and business writing.
5. Converse in the languages of application, network, and database design.
6. Assess business problems using analytical and critical thought processes to identify the best technology solution.
7. Pursue an IT career as a well-rounded technology professional, able to leverage talents and interests.

**E-Commerce Technology Track Description**

Growth in the demand for e-commerce technologists is expected to accelerate for the next 20-30 years. Upon completion of the track, students will be able to construct e-commerce solutions using various web architectures and design technologies, assemble electronic collaboration environments, and evaluate social networks in support of business initiatives, propose e-commerce solutions for business problems and new business initiatives, solve server to server web data exchange issues, and explain and propose extensions to e-commerce business models.

**E-Commerce Technology Track Outcomes**

Upon completion of the e-commerce technology track, graduates will be able to:

- Construct electronic commerce solutions using various web architectures and design technologies.
- Assemble electronic collaboration environments and evaluate social networks in support of business initiatives.
- Discuss server to server web data exchange issues.
- Explain and propose extensions to electronic commerce business models.

**Technology Management Track Description**

There is strong demand in the marketplace for managers of technology. These individuals have broad knowledge of information systems combined with the ability to address business-related issues as analysts and integrators. Students in this track will focus on data and database management, security, business networks, e-commerce business solutions, and wireless technology.

**Technology Management Track Outcomes**

Upon completion of the technology management track, graduates will be able to:

- Assess business problems and identify alternate technology solutions.
- Explain the role of technology components in a network.
- Apply key management principles in leading a project.

- Discuss various IT alternatives with business and technology professionals.
- Interpret the needs of customers and adapt them to different constituents.

**Business Information Systems Program Policies**

Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of "C" or better in the prerequisite course(s). When a grade below "C" is earned in a major course, the student must repeat that course.

A course may be repeated once without special permission. Information systems majors must apply in writing to the department chair requesting permission to attempt a course for a third time. Stevenson University does not grant credits or waivers for technical certifications.

**Business Information Systems Program Requirements**

The courses listed below are required for completion of the bachelor’s degree in business information systems. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

**Major Requirements:**

E-Commerce Technology Track:
IS 343 Web Architecture and Design Technologies
IS 361 E-Collaboration and Social Networking
IS 386 E-Commerce Business Solutions
IS 443 XML E-Business Applications
IS 462 Current Topics in E-Commerce

E-Commerce Technology Upper Level:
IS 320 Human-Computer Interaction
Choose two of the following four courses:
IS 350 IS Internship
IS 380 Information Security for the Organization
IS 480 Technology Law
IS 481 Project and Knowledge Management

Business Information Systems Other Options

Minor:
A minor in information systems is available. Students who wish
to pursue a minor in information systems may choose any six IS
courses from the business information systems or computer
information systems programs. IS 134 will count toward the
minor. The lowest acceptable grade is a “C” in all IS courses.
All course prerequisites must be met to be eligible to take the
selected course for a minor. Please see an academic advisor for
more information. Specific information regarding minor
requirements may be found in the Academic Information
section of the catalog.

BS/MS Option:
The BS/MS option is available for students majoring in business
information systems who wish to combine their bachelor’s
coursework with work toward a master’s degree in one of
Stevenson’s graduate programs. Students choosing this option
may earn their master’s degree in as little as one year after their
bachelor’s degree. Interested students must formally apply for
entrance into a BS/MS option in their junior year. Once
admitted into this program, students develop an educational
plan in consultation with their undergraduate and graduate
advisors. For more information on this program see the School
of Graduate and Professional Studies catalog.

Computer Information Systems

Computer Information Systems Program Description
The computer information systems (CIS) major is designed for
the student who is interested in pursuing a technical career in
support of organizations. Employers are seeking highly skilled
technology professionals who know how to utilize technology
to improve the organization’s competitive edge. This major
consists of core courses in applied programming, network, and
database design followed by an in-depth career-focused track in
software design, network design, or computer forensics. The
program’s in-depth practical application of computer
technology prepares the graduate to enter the workplace as a
well-versed technology professional. Many graduates of this
bachelor’s degree program elect to continue their education at
the graduate level by pursuing a master’s in business and
technology management.

CIS students will develop a portfolio of essential skills valued
by employers. They will become problem-solvers who know
how to think analytically, assess business problems, and design
the best technology solutions.

Computer Information Systems Program Outcomes
Upon completion of the Bachelor of Science in Computer
Information Systems, graduates will be able to:
1. Articulate technology skills learned and applied during their
academic career.
2. Perform those information technology tasks essential to their
chosen career path in application, network, or database
design.
3. Communicate with confidence technology ideas in team
meetings and public forums.
4. Demonstrate a professional competency in research,
alalysis, and business writing.
5. Converse in the languages of application, network, and
database design.
6. Assess business problems using analytical and critical
thought processes to identify the best technology solution.
7. Pursue an IT career as a well-rounded technology
professional, able to leverage talents and interests.

Computer Forensics Track Description
Computer forensics is the use of specialized computer
investigation techniques to identify, collect, preserve, examine,
and analyze digital evidence for presentation in criminal or civil
proceedings. Specialized tools enable the computer forensics
investigator to develop timelines reconstructing computer
usage across the Internet and corporate local area networks.
The CIS computer forensics track offers a solid foundation in
computer security culminating with elite skills in computer
forensics. With the blend of security and forensics skills,
graduates are not only prepared with the knowledge to prevent,
detect, and recover from unauthorized malicious intrusions
into the organization’s infrastructure but also to collect the
digital evidence necessary to prosecute the intruders. Many
graduates in this track elect to continue their education at the
graduate level by pursuing a master’s in forensic studies.

Computer Forensics Track Outcomes
Upon completion of the computer forensics track, graduates
will be able to:
• Analyze and manipulate complex network infrastructures.
• Design and implement a network security plan.
• Construct an incident response team.
• Evaluate an end-to-end computer forensics investigation.
• Carry out evidence collection according to established
protocols.
• Assemble testimonial evidence to act as an expert witness at a
trial.

Network Design Track Description
Organizations today depend on complex multi-vendor
technology infrastructures and highly skilled technical staff to
support day-to-day operations. The CIS network design track
prepares graduates with a blend of experience in leading
Microsoft, UNIX, and Cisco technologies. Students take
courses in Windows and UNIX server administration, network
security, e-mail server and web server administration, Cisco
routing, wireless networks, and mobile communication
systems, all essential technology skills for the IT network
professional.

Network Design Track Outcomes
Upon completion of the network design track, graduates will be
able to:
• Assess business problems and implement the best network
solution.
• Apply knowledge of operating systems to construct various
networking environments.
• Design messaging systems for problem reporting and
resolution.
• Formulate secure network infrastructures in efficient
topologies.
• Implement integrated voice and data services.
Software Design Track Description
Software applications are developed for commercial off-the-shelf use or to solve specific internal organizational problems. The process consists of requirements analysis, data gathering, software design, coding, testing and maintenance. The CIS software design track prepares graduates with end-to-end practical experience in the design, development, and deployment of software solutions for the workplace. Students take courses in leading programming languages including C#, JAVA, ASP.NET, and Visual Basic.NET, using high value systems development tools such as Microsoft’s Visual Studio.NET and IBM’s WebSphere. This is a high-growth IT career field for those skilled in these cutting-edge technologies.

Software Design Track Outcomes
Upon completion of the software design track, graduates will be able to:
- Assess business problems and select and implement the best programming language environment.
- Formulate software solutions for the desktop computing platform.
- Design software solutions for the Internet.
- Integrate database solutions with web and desktop applications.
- Develop software solutions for wireless handheld devices.

Computer Information Systems Program Policies
Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of "C" or better in the prerequisite course(s). When a grade below "C" is earned in a major course, the student must repeat that course.

A course may be repeated once without special permission. Information systems majors must apply in writing to the department chair requesting permission to attempt a course for a third time. Stevenson University does not grant credits or waivers for technical certifications.

Computer Information Systems Program Requirements
The courses listed below are required for completion of the bachelor’s degree in computer information systems. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

Major Requirements (all students):
- SBL 100 School of Business New Student Seminar
- IS 134 MS Windows and Office Applications
- IS 135 Advanced MS Office Applications
- IS 140 Information Systems Architecture and Design
- IS 150 Relational Database Design and SQL with MS Access
- IS 170 Systems Development with UML
- IS 201 Management Information Systems
- IS 231 Network Technologies
- IS 240 Programming Concepts with Visual Basic.NET
- MGT 210 Business Writing

Take four of the following seven IS courses
- IS 301 Principles of E-Commerce
- IS 320 Human-Computer Interaction
- IS 330 IS Internship
- IS 380 Information Security for the Organization
- IS 475 Special Topics in Information Systems
- IS 480 Technology Law
- IS 481 Project and Knowledge Management

Take any two of the following courses
- ACC 140 Managerial Accounting
- MGT 204 Principles of Management
- MKT 206 Principles of Marketing
- One 300-400 Level INBUS, MGT or MKT course

Students must choose and complete the courses for one of the tracks listed below. If a student completes a track offered under business information systems, the student will be awarded the business information systems degree.

Software Design Track:
- IS 241 C# Object Oriented Programming
- IS 252 Advanced SQL Query Design with Oracle & SQL Server
- IS 343 Web Architecture and Design Technologies
- IS 345 JAVA Programming
- IS 348 Advanced Business Applications
- IS 349 Service-Oriented Architecture and Dynamic Web Development
- IS 444 Wireless Application Development

Network Design Track:
- IS 232 TCP and IP Communication Protocols for Windows and UNIX
- IS 235 Advanced Windows Server Architecture & Administration
- IS 331 Cisco TCP and IP Routing
- IS 332 High Speed Broadband Networks
- IS 335 Wireless LANs and Mobile Communication Systems
- IS 431 Exchange Server and Messaging Systems
- IS 432 Network Security—Firewalls, IDS, and Counter Measures

Computer Forensics Track:
- IS 232 TCP and IP Communication Protocols for Windows and UNIX
- IS 235 Advanced Windows Server Architecture & Administration
- IS 331 Cisco TCP and IP Routing
- IS 391 Incident Response and Investigation
- IS 392 Information Systems Forensics Internals—Auditing
- IS 393 Forensic Evidence Collection Tools and Techniques
- IS 432 Network Security—Firewalls, IDS, and Counter Measures

Computer Information Systems Other Options
Minor:
A minor in information systems is available. Students who wish to pursue a minor in information systems may choose any six IS courses from the business information systems or computer information systems programs. IS 134 will count toward the minor. The lowest acceptable grade is a “C” in all IS courses. All course prerequisites must be met to be eligible to take the selected course for a minor. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.

BS/MS Option:
The BS/MS option is available for students majoring in computer information systems who wish to combine their bachelor’s coursework with work toward a master’s degree in one of Stevenson’s graduate programs. Students choosing this option may earn their master’s degree in as little as one year after their bachelor’s degree. Interested students must formally apply for entrance into a BS/MS option in their junior year.
Once admitted into this program, students develop an educational plan in consultation with their undergraduate and graduate advisors. For more information on this program see the School of Graduate and Professional Studies catalog.

**Information Systems Course Descriptions**

**IS 134 MS Windows and Office Applications**  
*3 credits, Fall and Spring*  
Develops a basic competency in Microsoft Windows and Microsoft Office. Hands-on instruction in operating systems concepts and functions commonly used to create Word documents, Excel spreadsheets, and PowerPoint presentations will be emphasized. Students will be placed in IS 134 unless the score on the computer literacy assessment warrants placement in IS 135. This course cannot be used to fulfill a major requirement for CIS or BIS majors.  
**Prerequisite(s):** None

**IS 135 Advanced MS Office Applications**  
*3 credits, Fall and Spring*  
Provides students the opportunity to design professional quality business and technical documentation using advanced features of MS Word, MS Excel, and MS PowerPoint. Emphasis will be placed on those functions commonly used in the workplace.  
**Prerequisite(s):** A grade of "C" or better in IS 134

**IS 140 Information Systems Architecture and Design**  
*3 credits, Fall and Spring*  
Examines the component technologies of information system architectures. The course will cover the design principles behind computer hardware and peripheral devices, network components, and network operating systems. Students will explore topics in computer hardware design from handheld devices to large-scale supercomputers.  
**Prerequisite(s):** None

**IS 150 Relational Database Design & SQL with MS Access**  
*3 credits, Fall and Spring*  
Explores relational database architecture and provides hands-on instruction in SQL using Microsoft Access. Students will evaluate the business requirement and design an effective relational database solution. Students will perform common workplace SQL tasks such as creating databases, tables and reports; inserting, updating, and selecting rows; designing queries, views, and data entry forms; and importing and exporting of data.  
**Prerequisite(s):** A grade of "C" or better in IS 134

**IS 170 Systems Development with UML**  
*3 credits, Fall and Spring*  
Addresses the processes and methodologies of systems development to include project management; systems analysis; and modeling of systems, data, processes, and applications. Object Oriented Analysis and Design Methodologies using Unified Modeling Language (UML) are explored.  
**Prerequisite(s):** None

**IS 201 Management Information Systems**  
*3 credits, Fall and Spring*  
Introduces effective and efficient use of information technology (IT) to support the mission of the organization which is critical. Strategic use of IT and the ability to manage information systems enables organizations to reduce or remove distance barriers, reduce time for processing and decision making, and support effective and efficient use of scarce resources. In this course students will learn skills and techniques used to implement and operate marketplace IT tools to support organizational objectives and strategies. This course is a broad survey of IT-related topics and introduces students to business information systems, IT infrastructure and emerging technologies, security, telecommunications, the Internet and the Web, decisions making systems, and ethical and social issues in IT.  
**Prerequisite:** A grade of "C" or better in IS 135

**IS 214 Technology in Education**  
*3 credits, Spring and Summer*  
Examines technology and digital media and its implications for education. This course presents a current inventory and assessment of educational software programs and websites as well as procedures for evaluating, incorporating and integrating these technologies into the curriculum.  
**Prerequisite:** A grade of "C" or better in IS 134

**IS 224 Computer Graphics Practicum**  
*1 credit, Fall or Spring (offered as needed)*  
Concentrates on specific software application and related production techniques at both the intermediate and advanced levels for the student who wishes to improve his or her design technology skills. Various software tools and techniques are considered, building on concepts addressed in IS 124. Repeatable for credit.  
**Prerequisite(s):** A grade of "C" or better in IS 124

**IS 231 Network Technologies**  
*3 credits, Fall and Spring*  
Prepares the student to perform key network configuration and troubleshooting skills used by IT professionals. Students will learn the functional concepts of leading network architectures. Students examine in detail the TCP and IP family of communication protocols, structured cabling systems, fiber optic and wireless systems.  
**Prerequisite(s):** A grade of "C" or better in IS 140

**IS 232 TCP and IP Communication Protocols for Windows and UNIX**  
*3 credits, Spring*  
Prepares the student in the planning, installation, configuration, and management of a TCP- and IP-based network. Students will learn to monitor, optimize, diagnose, and resolve problems on the network using standard tools and utilities found in the workplace. The internal process of TCP will be examined along with the classic hacking attacks and countermeasure techniques.  
**Prerequisite:** A grade of "C" or better in IS 231

**IS 235 Advanced Windows Server Architecture & Administration**  
*3 credits, Fall and Spring*  
Examines the management tools essential for creating, designing, and maintaining a Windows Server 2003 Active Directory. Students will learn planning, installation, configuration, and administration of Windows Active Directory. Students will create from the ground up a network infrastructure using Windows 2003 Advanced Server. Domain Name System (DNS), forest designs, site topology and replication, organizational unit structure, group policy and delegation of control are just a few of the essential topics covered in this course.  
**Prerequisite:** A grade of "C" or better in IS 231

**IS 240 Programming Concepts With Visual Basic.Net**  
*3 credits, Fall and Spring*  
Introduces programming constructs common to most languages, laying a solid foundation on which more advanced topics will build. The course will introduce the Visual Basic .NET integrated development environment. Key topics will include object oriented programming design concepts, the .NET Framework, GUI design guidelines, VB Controls, data structures, and database connectivity. Students will design a series of small business applications linked to a database.  
**Prerequisite(s):** A grade of "C" or better in IS 150 and IS 170
IS 241 C# Object Oriented Programming  
3 credits, Spring  
Applies principles of object-oriented programming using C#. Key topics include the .NET Integrated Development Environment, control structures, methods, properties, classes, inheritance, polymorphism, data abstraction, arrays, data structures, collections, ADO.NET, GUI forms, controls, events, multimedia, graphics, and web services. Students will build a series of database connected business applications. **Prerequisite(s):** A grade of "C" or better in IS 240  

IS 252 Advanced SQL Query Design with Oracle & SQL Server  
3 credits, Spring  
Develops proficiency in effective database and query design. Students will learn the underlying concepts of complex SQL queries, the key to writing serviceable code, the normalization of data to minimize duplication and errors, the design of stored procedures and triggers to improve system performance, optimization techniques using cursors and join statements, transaction control, techniques for securing data, and tools for testing data integrity. Students will design a multi-table, normalized, relational business database and advanced SQL queries. **Prerequisite(s):** A grade of "C" or better in IS 240  

IS 260 Presentation Theory and Application  
3 credit, Fall and Spring  
Covers the design of effective and dynamic audio and visual presentations, examining both theoretical and practical aspects of audio and visual presentations. Students will focus on presentations for business and technical reports using multimedia presentation software as the primary tool. Students will have several opportunities to hone and demonstrate their presentation skills through a series of practical assignments. A capstone presentation will also be required. **Prerequisite(s):** A grade of "C" or better in IS 101 and IS 135  

IS 280 Data Management  
3 credits, Spring  
Explores data storage, data archiving, quality assurance, data warehousing, data mining, and data security from a technology management perspective. **Prerequisite(s):** A grade of "C" or better in IS 150  

IS 300 Integrating Technology and Digital Media in the Classroom  
3 credits, Fall and Spring  
Examines how technology is impacting the digital child and its changes on restructuring education/learning in the classroom. This course presents current technology trends (Web 2.0 tools) and focuses on using digital media software and the Internet for educational instructional purposes. **Restricted to education majors.** **Prerequisite(s):** A grade of "C" or better in IS 214  

IS 301 Principles of E-Commerce  
3 credits, Fall and Spring  
Introduces students to various technologies, applications, and issues associated with electronic commerce. There is a focus on understanding how organizations can adopt and integrate e-commerce in pursuit of organizational goals and to gain competitive advantage. Students learn about the background and history of e-commerce, e-commerce business models, online security and payment systems, e-marketing, online retailing and services, and the ethical, social, and political issues in e-commerce. Students will also conceptualize and create a basic business-focused website using popular free and low-cost web design tools. **Prerequisite:** A grade of "C" or better in IS 201  

IS 320 Human-Computer Interaction  
3 credits, Fall and Spring  
Addresses the practical principles and guidelines needed to develop high quality interface designs for interactive systems, specifically ones that users can understand, predict, and control. The course covers theoretical foundations of human-computer interaction and design processes such as expert reviews and usability testing. Students will assess design considerations with respect to how humans act and react when confronted with a variety of interfaces, with balanced emphasis on mobile devices, Web, and desktop platforms. **Prerequisites:** A grade of "C" or better in IS 201  

IS 331 CISCO TCP and IP Routing  
3 credits, Fall  
Examines techniques for deployment of quality of service features, route distribution, and route cost determination, all of which improve performance and guarantee delivery of the business’ most important data. Students will gain hands-on experience in the configuration and management of CISCO routers and switches. Best practices in the design of an effective routed infrastructure will be addressed. **Prerequisite(s):** A grade of "C" or better in IS 232  

IS 332 High Speed Broadband Networks  
3 credits, Fall  
Provides an in-depth examination of leading broadband network technologies including ATM, xDSL, Cable Modem, Gigabit Ethernet, T-Carrier Systems, SONET and SDH, Frame Relay, SMDS, VOIP, Internet2, and GEANT. The course will also explore topics in fiber optic systems including Wavelength Division Multiplexing (WDM) and Dense WDM (DWDM). Students will learn how to design and cost out global network connections, and compare the leading product offerings from the top tier vendors in each area of broadband network technology. **Prerequisite(s):** A grade of "C" or better in IS 231  

IS 335 Wireless LANS and Mobile Communication Systems  
3 credits, Spring  
Examines the concepts and implementation of wireless technologies to include the IEEE 802.11 family of wireless local area network standards, IEEE 802.16 Wi- MAX, Local Multipoint Distribution Service (LMDS), satellite networks (GEO, MEO, LEO), microwave and laser links, and Mobile IP. Students will explore technologies such as the cellular communications system, General Packet Radio Services (GPRS), Global System for Mobile communication (GSM), Specialized Mobile Radio (SMR), Universal Mobile Telecommunications Service (UMTS), and 4G Wireless systems. **Prerequisite(s):** A grade of "C" or better in IS 231  

IS 343 Web Architecture & Design Technologies  
3 credits, Fall  
Explores the art and architecture of web design. Students will learn the concepts of creating dynamic and interactive web pages with graphics, video, sound and animation using advanced Dynamic HTML techniques. JavaScript and ASP.NET will be introduced. Using popular web design tools, students will create several business-focused websites. **Prerequisite(s):** A grade of "C" or better in IS 240 and IS 301  

IS 345 Java Programming  
3 credits, Fall  
Creates JAVA applications and Applets using the command line and WebSphere. The course will cover the use control structures, custom classes, design methods, manipulate arrays, use OOP design principles to develop reusable components, processing, handle errors with exception code, create multithreaded applications, create networked applications, and leverage JDBC for improved database connectivity. **Prerequisite(s):** A grade of "C" or better in IS 241 and IS 252
IS 348 Advanced Business Applications
3 credits, Fall
Develop applications and components, apply inheritance and polymorphism to objects, organize code using name-spaces, handle errors, access data using ADO.NET, create Windows applications and controls, create transactional and queuing components, create web services, and use assemblies to organize and deploy applications and libraries. Students will build a series of database connected, business applications.
Prerequisite(s): A grade of "C" or better in IS 240 and IS 252

IS 349 Service-Oriented Architecture and Dynamic Web Development
3 credits, Spring
Implements a Service-Oriented Architecture, and develops Web Services and Web Services clients. Utilizes XML-based open standards—WSDL, SOAP, and UDDI—to support Web Services. Students will also build several dynamic Web sites implementing advanced features including Web forms, XML, database connectivity, client side and server side scripting, and electronic payment.
Prerequisite(s): A grade of "C" or better in IS 343 and IS 348

IS 350 IS Internship
3 credits, Fall and Spring
Allows students to earn credit for an internship. Open to students who are currently working in an IT position during the semester enrolled or to students who have worked an internship during a preceding semester. Students will reflect on the ways in which their course work prepared them for the workplace. They will demonstrate the ability to articulate, verbally and in writing, how they applied IT skills and knowledge learned in specific courses to the tasks performed during their internship.
Prerequisite(s): Junior status

IS 361 E-Collaboration and Social Networking
3 credits, Spring
Examines various technologies, applications, and issues associated with electronic collaboration and social networking. There is a focus on understanding how organizations can adopt and integrate e-collaboration and social networking in pursuit of internal and external organizational goals and to gain competitive advantage. Students learn about the background and history of e-collaboration and social networking, cloud computing, social computing, electronic word-of-mouth, viral marketing, and the ethical, personal, organizational, and political issues in e-collaboration and social networking. Students will also conceptualize and create a business-focused social network using free and low-cost web-based applications.
Prerequisite(s): A grade of "C" or better in IS 301

IS 380 Information Security for the Organization
3 credits, Fall and Spring
Addresses top security issues and surveys tools to detect threats and protect valuable organization resources. Key topics including threat and risk assessment, viruses, worms, Trojan horses, port scans spyware, and denial of service attacks will be covered along with discussion of free security tools available to help uncover vulnerabilities. Students will write a security policy for their organization. Checklists for protecting business resources will be covered in detail and provided.
Prerequisite(s): A grade of "C" or better in IS 231

IS 385 Management of Business Networks
3 credits, Fall
Examines components of the business network, emphasizing the strategic selection and configuration of components to solve specific organizational problems. This course introduces students to file servers, application servers, database servers, transaction processing, and groupware. The use of wide-area network services and the Internet to interconnect global business units is reviewed. Students learn the essential concepts of each technology and the interrelationships between the technologies to achieve an understanding of the business network environment.
Prerequisite(s): A grade of "C" or better in IS 231

IS 386 E-Commerce Business Solutions
3 credits, Fall
Surveys the most common technologies employed to electronically link businesses with their partners, suppliers, distributors and customers. Supply Chain Management (SCM), Enterprise Resource Planning (ERP), Customer Relationship Management (CRM), Electronic Payment Systems and other Business to Business (B2B) systems will be surveyed and compared.
Prerequisite(s): A grade of "C" or better in IS 301

IS 387 Wireless Technology Solutions for the Office
3 credits, Spring
Examines and compares the various wireless technologies available for the office environment at home or at work. Competing wireless technologies are compared and contrasted based on function, cost, security, and performance. Products implementing technologies such as Bluetooth, 802.11a, 802.11b, 802.11g, and the cellular phone system will be examined and their niche areas of usefulness in the workplace detailed.
Prerequisite(s): A grade of "C" or better in IS 201

IS 389 Incident Response and Investigation Methods
3 credits, Fall
Examines the role of the computer forensics investigator as a member of an Incidence Response Team and explores the nature of the threat to organizations, the indicators that an incident is underway, the policies and procedures to be followed when an incident is detected, and the investigation methods used to collect evidence for prevention or prosecution. The course will explore the best practices used to create, organize and deploy an incident response team for malicious activity.
Prerequisite(s): A grade of "C" or better in IS 231

IS 392 Information Systems Forensics Internals—Auditing
3 credits, Fall
Examines the role of the computer forensics investigator as a member of an Incidence Response Team and explores the nature of the threat to organizations, the indicators that an incident is underway, the policies and procedures to be followed when an incident is detected, and the investigation methods used to collect evidence for prevention or prosecution. The course will explore the best practices used to create, organize and deploy an incident response team for malicious activity.
Prerequisite(s): A grade of "C" or better in IS 231

IS 393 Forensic Evidence Collection Tools and Techniques
3 credits, Spring
Provides hands-on expertise in evidence collection and analysis with the leading forensic tools in use throughout the government, military, and law enforcement agencies. Evidence handling and timeline techniques will be covered with particular emphasis on the relationship to court testimony.
Prerequisite(s): A grade of "C" or better in IS 391 and IS 392

IS 431 Exchange Server & Messaging Systems
3 credits, Fall
Enables students to install, configure, and manage Microsoft’s Exchange Server, a leading technology solution for enterprise wide collaboration. The course will examine in detail the components of the messaging infrastructure; key support tasks in configuration, optimization, and data protection; and competing messaging solutions.
Prerequisite(s): A grade of "C" or better in IS 232 and IS 235
IS 432 Network Security—Firewalls, IDS, and Counter Measures
3 credits, Fall and Spring
Examines the types of attacks launched by intruders and the system components that offer intrusion prevention, protection, and detection. Students will learn to configure firewalls, Intrusion Prevention, and Intrusion Detection Systems. Hacking exploits and the countermeasures to defeat them will be examined in detail.
Prerequisite(s): A grade of "C" or better in IS 232

IS 443 XML E-Business Applications
3 credits, Spring
Develops in-depth knowledge in writing well-formed XML Syntax, creating richer documents using namespaces to distinguish XML vocabularies, leveraging DTD’s and Schemas to improve compatibility with externally designed applications, designing cascading style sheets to improve the expression of XML data, using the XPath querying language and XLST style sheets to enable applications to extract components of an XML document. Students build an XML application that translates data from dissimilar databases in a web-based application.
Prerequisite(s): A grade of "C" or better in IS 301

IS 444 Wireless Application Development
3 credits, Fall
Develops hands-on experience in the design of wireless applications using Microsoft’s .NET Compact Framework and the Mobile Internet Toolkit development environment for mobile applications. Students will create several applications for handhelds.
Prerequisite(s): A grade of "C" or better in IS 345

IS 462 Current Topics in E-Commerce
3 credits, Spring
Explores current topics in electronic commerce through reading and discussion of the primary literature and examination of existing and emerging theories, tools, and applications. Related ethical, cultural, social, organizational, and political issues are also discussed. Students will conduct research and propose extensions and improvements to existing e-commerce business models.
Prerequisite: Senior status, A grade of "C" or better in IS 301 and IS 320

IS 475 Special Topics in Information Systems
3 credits, as offered
Offers topics which vary each year to reflect new and emerging computer-related technologies and techniques in business and industry.
Prerequisite: Fourth year status or permission of the instructor

IS 480 Technology Law
3 credits, Fall and Spring
Outlines the legal requirements of businesses to preserve electronic data, ensure privacy, protect intellectual property, and ensure electronic information is accessible to people with disabilities. A survey of the legislation used to implement the law is covered. Pertinent sections of the federal regulations are examined to determine impact on procedures and policies.
Prerequisite(s): Senior status

IS 481 Project & Knowledge Management
3 credits, Fall and Spring
Enhances the knowledge, skills, and tools required to deliver projects on time and within budget. Students will explore the reasons for failed projects, the competencies of successful project managers, the functions all project managers perform, the tools project managers use to keep projects on time and within budget, and the project management life cycle.
Prerequisite: Senior status, a grade of "C" or better in IS 140, IS 170, and at least two IS courses from track

Interdisciplinary Studies
School of Humanities and Social Sciences
Program Coordinator: Esther Horrocks, Ph.D.

Interdisciplinary Studies Program Description
The interdisciplinary studies program enables students to develop from two academic disciplines an integrated course of study not available through current degree programs. This is an individually designed major that allows students to work closely with faculty while pursuing academic interests that transcend traditional majors. Students consult the program coordinator and two faculty members with interests and expertise in the area of study.
Appropriate themes for interdisciplinary studies majors may include a set of problems, an idea, or a period study. Suggested themes include American studies, aesthetics and artistic expression, and international and global studies.
Students may request admission into the major after completing the first semester of the freshman year.

Interdisciplinary Studies Program Outcomes
Upon completion of the Bachelor of Science in Interdisciplinary Studies, graduates will be able to:
1. Demonstrate general knowledge in the liberal arts.
2. Demonstrate an understanding of content in two academic disciplines.
3. Demonstrate effective communication by engaging in inquiry and reflection on a topic of personal interest.

Interdisciplinary Studies Program Policies
Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of "C" or better in the prerequisite course(s). When a grade below "C" is earned in a major course, the student must repeat that course.
Once accepted into the major, students must meet with the program coordinator each semester to evaluate progress.

Interdisciplinary Studies Program Requirements
The courses listed below are required for completion of the bachelor's degree in interdisciplinary studies. Students must also complete the requirements for the Stevenson Educational Experience (SEE). Specific pre- and co-requisites for each course are listed in the course descriptions.

Major Requirements:
• 36 credits of courses for the major selected from two disciplines, identified as program cores (at least 18 credits of which must be at the 300 and 400 level). A minimum of 12 credits is required in one program core.
• Six credits in INDSC courses, 300-level or above (an internship may fulfill one)
• INDSC 450 Senior Project: Seminar in Interdisciplinary Studies
• HSR 224 (or another methods course approved by the program coordinator)
• History course

Interdisciplinary Studies Other Options
Minor:
A minor in interdisciplinary studies is not available.
BS/MS Option:
The BS/MS option is available for students majoring in interdisciplinary studies who wish to combine their bachelor’s coursework with work toward a master’s degree in one of Stevenson’s graduate programs. Students choosing this option may earn their master’s degree in as little as one year after their bachelor’s degree. Interested students must formally apply for entrance into a BS/MS option in their junior year. Once admitted into this program, students develop an educational plan in consultation with their undergraduate and graduate advisors. For more information on this program see the School of Graduate and Professional Studies Catalog.

Interdisciplinary Studies Course Descriptions

INDSC 310 The Beatles: A Musical and Cultural Event
3 credits
Studies the music of the Beatles in relation to their times and legacy. Students review and appreciate the controversies of this new sound event while developing their own conceptual framework to reflect on the possibilities of an event in their own lives.

Prerequisite(s): A grade of “C” or better in ENG 152

INDSC 320 Internship
3 credits, Fall and Spring
Provides opportunity for career-related work experience in a student’s area of study. Under faculty supervision, internships are arranged on an individual basis to match students’ career goals and interests with employers’ needs. Career Services provides assistance in locating internships. Internships require a minimum of 120 hours at the employer’s site plus an internship journal and reflective essay evaluating the position and experience. Students should arrange their internship prior to registering for the semester. Grading is pass/fail. Internships may or not be paid depending upon employer policy.

Prerequisite(s): Junior status and other prerequisites may apply. For information, students should contact their department chair or program coordinator.

INDSC 350 Topics in Interdisciplinary Studies
3 credits, Fall and Spring
Examines selected issues or themes that can be approached from at least two academic disciplines. Rotating topics may be developed within the following categories: social phenomena and events, ideas and applications, or area studies.

Prerequisite(s): Third-year status or permission of the program coordinator of interdisciplinary studies

INDSC 450 Senior Project: Seminar in Interdisciplinary Studies
3 credits, Fall and Spring
Supports research-based projects presented by Interdisciplinary Studies majors in partial fulfillment of the requirements for the bachelor’s degree. Each senior investigates a special interest or problem incorporating selected approaches and perspectives of the core disciplines of his or her unique interdisciplinary program.

Prerequisite(s): Senior status and permission of program coordinator of interdisciplinary studies

International Business

Brown School of Business and Leadership
Department of Business Administration
Stevenson University does not currently offer a bachelor’s degree in international business; however, a minor in international business is available. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog. Course descriptions for international business are listed in the business administration section of the catalog.

Management

Brown School of Business and Leadership
Department of Business Administration
Stevenson University does not currently offer a bachelor’s degree in management; however, a minor in management is available. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog. Course descriptions for international business are listed in the business administration section of the catalog.

Marketing

Brown School of Business and Leadership
Department of Business Administration
Stevenson University does not currently offer a bachelor’s degree in marketing; however, a minor in marketing is available. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog. Course descriptions for international business are listed in the business administration section of the catalog.

Mathematics

School of the Sciences
Department of Mathematics and Physical Sciences
Associate Dean and Chair: Ellen Roskes, Ph.D.

Students interested in math may obtain a Bachelor of Science in Applied Mathematics. Detailed information on this bachelor’s degree program can be found in the applied mathematics section of the catalog.

A minor in mathematics is available. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog. Course descriptions for math are listed in the applied mathematics section of the catalog.

Medical Technology

School of the Sciences
Department of Biological Sciences
Program Coordinator: Vivi-Anne Griffey, M.S.
Associate Dean and Chair: Meredith Durniowicz, Ph.D.

Medical Technology Program Description

The mission of the Sinai Hospital/Stevenson University medical technology program is to graduate ethical, certified, entry-level professionals with the knowledge and skills necessary for medical laboratory scientists (also known as medical technologists). Medical technology combines the basic sciences of biology and chemistry with medicine and the clinical sciences into a very satisfying professional career.

Medical laboratory scientists develop, perform, evaluate, correlate and assure the accuracy and validity of laboratory tests and collaborate with other health care professionals in the diagnosis and treatment of patients. They work in all areas of the clinical laboratory including microbiology, chemistry, hematology, blood banking, immunology, and molecular diagnostics.

The certified medical laboratory scientist is qualified by academic and practical training to work wherever laboratory testing is researched, developed or performed including
hospital, private, research, industrial, biomedical and forensic laboratories, pharmaceutical companies and fertility centers. In addition to laboratory positions, medical laboratory scientists also find careers in infection control, marketing, technical sales and services, laboratory information systems, teaching and consulting.

Stevenson University offers a “2+2” baccalaureate program in medical technology consisting of two years of prerequisite courses in the basic sciences and liberal arts, a third year of liberal arts and introductory courses in laboratory medicine, and a fourth year which integrates professional and clinical practicum courses at Sinai Hospital of Baltimore. The clinical practicum provides a bridge between academics and application, allowing students a smooth transition to the workforce as Medical Laboratory Scientists (MLS).

The program includes specialized technical training in test performance, correlation of laboratory data and disease management, and education and practice in problem-solving in the clinical laboratory. In addition, the curriculum includes managerial preparation for its MLS students. No other program in the state offers a management practicum in the senior year. Graduates of our program are equipped to seek career enhancement and pursue management positions and/or graduate studies.

The Medical Technology program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences. (NAACLS; 5600 North River Road, Suite 720, Rosemont, IL 60018-5119; 773-714-8880, naacls.org).

Graduates in the medical technology major earn a Bachelor of Science degree and are eligible to take the national certification examination for medical laboratory scientists offered by the American Society of Clinical Pathology Board of Certification (ASCP-BOC).

Students planning to apply to medical or dental school may want to adopt the pre-medical option of the medical technology curriculum. Students adopting this option of the medical technology curriculum will graduate with a Bachelor of Science in Medical Technology and will have fulfilled all requirements for applying to medical or dental schools. These students follow the medical technology curriculum with the following changes: Organic Chemistry II is taken instead of Principles of Biochemistry and two semesters of General Physics are added.

Freshmen and transfer students enter as medical technology majors. The medical technology program accepts only ten students to continue into the junior year of the medical technology major, and selection is determined by the Medical Technology Admissions Committee.

**Medical Technology Program Outcomes**

Upon completion of the Bachelor of Science degree in Medical Technology, graduates will be able to:

1. Demonstrate proficiency in performing the full range of clinical laboratory tests in the contemporary clinical laboratory.
2. Evaluate test systems and diagnostic algorithms in terms of diagnostic value, compliance outcomes, and cost-effectiveness.
3. Evaluate the results of laboratory analyses for accuracy and validity, and correlate laboratory data to disease processes.
4. Apply the principles and practices of quality assurance/quality improvement as applied to the pre-analytical, analytical, and post-analytical components of laboratory services.
5. Exhibit the ethical and professional behaviors required within the healthcare delivery system.
6. Communicate effectively orally, in writing, and through laboratory information systems in order to consult with members of the healthcare team, to provide patient education and customer service, and to interact with external parties.
7. Use research design/practice skills to evaluate published studies and investigate clinical laboratory issues/problems.
8. Exhibit an understanding of the concepts and principles of laboratory management such as human resource management, finance, operations, regulatory compliance, performance improvement, critical pathways and clinical decision-making.
9. Demonstrate understanding of education techniques and terminology to train/educate users and providers of laboratory services.
10. Seek national certification as a Medical Laboratory Scientist and pursue employment within this field or a related field or continue to post-graduate education.

**Medical Technology Program Policies**

Students must earn a minimum cumulative GPA of 2.80 to be admitted into the Medical Technology program, and the lowest acceptable grade is a “C” in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to take a science or math course unless he/she earns a grade of “C” or better in all prerequisite courses.

After admission into the junior year of the program, students must maintain a minimum GPA of 2.50 in the major to remain in good standing and to be eligible for admission to the clinical practicum. A student whose GPA is less than 2.50 will be reviewed by the MT faculty for continuance in the program.

Students who earn any combination of two grades of “C-” or lower in any science or math course will not be permitted to take a science or math course unless he/she is earned in a science or math course, the student will be automatically dismissed from the medical technology major.

**Probation:** The student who earns any combination of two grades of “C-” or lower in any science or math course will be notified, in writing, by the department chair of biological sciences that he or she is on probation in the School of the Sciences.

**Final Probation:** The student who earns any combination of three grades of “C-” or lower in any science or math course will be notified, in writing, by the department chair of biological sciences that he or she is on final probation in the School of the Sciences.

**Dismissal:** If a fourth grade of “C-” or lower in any science or math course is earned, the student will be notified, in writing, by the department chair of biological sciences that he or she has been dismissed from the major.

**Final Exam Policy**

A score of 73% must be achieved on the final exam in each senior-level medical technology (MT 4xx) course to be able to proceed to the corresponding clinical practicum course. The student will only be allowed to retake the final exam once. The student must take a new final exam and pass with a score of 73%. However, the original score on the exam will be used to calculate the final grade in the course. If the student fails to attain a 73% the second time, he or she must repeat the course.

**Proficiency Exam Policy**

1. The minimum passing score for each proficiency exam is determined by each instructor (80-100%).
2. A student who does not achieve the minimum passing score will have a second opportunity to achieve the minimum passing score. However, the score that will be used for the final grade computation will not exceed the minimum passing score, no matter what the score is on the second proficiency exam.
Medical Requirements

Students enrolled in Medical Technology (MT) courses will have potential exposure to blood-borne pathogens or other potentially infectious materials and may be at risk of acquiring hepatitis B virus (HBV). Also, during the course of the Medical Technology program, students may have direct patient contact. This program requires the student to demonstrate effective vaccinations prior to starting the Medical Technology (MT) courses (except MT 210).

1. All full-time, part-time and categorical certificate students admitted to the junior (3rd) year of the Medical Technology program must submit the following forms
   - Stevenson University Student Health Form to the Wellness Center.
   - Supplemental Immunization Form for Medical Technology Students to the Administrative Assistant in the School of the Sciences.

2. Laboratory confirmation of immune status by positive immune titer is required for the following:
   - Measles, Mumps, Rubella (MMR immunity profile)
   - Varicella (Varicella-Zoster Virus IgG antibody)
   - Hepatitis B (Hepatitis B surface antibody = anti-HBs)

3. Students may choose to decline the hepatitis vaccine, but he/she must sign the Hepatitis Declination Form (Appendix A of the Exposure Control Plan for the School of the Sciences) and understand the risk of acquiring hepatitis B.

4. Students enrolled in MT courses (except MT 210) must submit documentation of all required immunizations and titers listed in the Supplemental Immunization Form by July 1 for fall courses and January 2 for spring courses. If the documentation of immunizations and titers or signed declination form is not on file by the deadline, the student will be dropped from any registered MT course.

5. Students entering the senior (4th) year of the program must also present documentation of a negative tuberculosis screening test (PPD or chest x-ray) prior to the start of classes in the fall semester.

6. An annual influenza immunization (free of charge to seniors at Sinai Hospital in fall) is required by the hospital and clinical practicum affiliates.

7. It is strongly recommended that students maintain personal medical insurance.

8. Students are financially responsible for any costs incurred due to illness or injury experienced by the student, in conjunction with the student labs and clinical practicum.

Clinical Practicum

1. The clinical practicum is scheduled in the spring semester of the senior year. It is divided into discipline-specific rotations and is scheduled for five days a week, eight hours a day.

2. Students must provide their own transportation to the clinical facilities, which may include paying for parking. Personal protective equipment is provided by the facilities. Liability insurance is purchased by the University to cover students during their clinical practicum.

3. The clinical practicum culminates in a final comprehensive exam as preparation for the national certification examination for Medical Laboratory Scientists.

4. In addition to rotations at Sinai Hospital, the students may also be assigned to clinical departments at the following affiliates:
   - Franklin Square Hospital
   - Greater Baltimore Medical Center
   - Johns Hopkins Bayview Medical Center
   - Johns Hopkins Hospital
   - Northwest Hospital

Program Completion

Upon satisfactory completion of the required program of study, the student will be awarded a Bachelor of Science in Medical Technology. The granting of the degree is not contingent upon passing any external certification examination.

National Certification Examination

Program graduates are eligible to take the national certification examination offered by the American Society of Clinical Pathology Board of Certification (ASCP-BOC).

Program Admission Requirements

Freshmen and transfer students enter as medical technology majors. The Medical Technology (MT) Program accepts only 10 students to continue into the junior (3rd) year of the program, and selection is determined by the Medical Technology Admissions Committee.

Consideration for admission to the MT program in the spring semester of the sophomore year is based on the following criteria:

- Minimum cumulative GPA of 2.80 in all university work attempted
- Grade of “C” or better in all prerequisite courses in chemistry, biological sciences and mathematics
- Completion of at least 60 credit hours, including prerequisite courses in biology, chemistry and mathematics by the start of the fall semester of the junior year in the program
- Ability to meet published non-academic Essential Functions (see below);
- Two letters of recommendation from two faculty members who will be able to address the academic and technical laboratory skills of the student
- Submission of a complete application to the program by the established deadline in the spring semester of the sophomore year

Each applicant is reviewed by the program coordinator for admission eligibility to the junior year of the medical technology program. The student’s transcript is reviewed for overall grade point average (GPA) in all university work, for GPA in the specific prerequisite courses in biology, chemistry and mathematics, and for potential to successfully complete 60 credit hours towards fulfilling requirements for the degree. To ensure that all standards are met and that students have been assessed equitably, the program coordinator reviews the eligibility of all students with the Medical Technology Admissions Committee, which makes the final decision.

All students receive written notification of their acceptance/rejection status prior to registration for the fall semester of the junior year. Students who are not accepted into the medical technology program may be reviewed again the following year, if they so desire, or are counseled about alternative majors (e.g., biology or biotechnology).

In order to participate in the program, students must be able to comply with program-designated Essential Functions or request reasonable accommodations to execute these functions. The Essential Functions are the non-academic requirements of the program comprising the physical, emotional and professional demands of the medical laboratory scientist. To ensure that the decision to pursue a career in medical technology is the correct one for the individual, each applicant is asked to determine if they are able to comply with all of these Essential Functions (see below) by which they will be assessed as a medical technology major.

As stated in the University’s non-discrimination policy, the University does not discriminate on the basis of health or disability.
Essential Functions

The medical technology student must

1. Possess visual acuity sufficient to
   - Differentiate colors and color changes in the
     performance of laboratory tests and procedures. Color
     blindness, of itself, does not preclude admission.
   - Identify cellular components and microorganisms
     utilizing a microscope.
   - Read laboratory instrument procedure manuals,
     standard operating procedures, specimen labels and
     other pertinent materials for patient care and
     professional practice.

2. Possess sufficient manual dexterity in order to
   - Process specimens and perform laboratory testing
     procedures.
   - Lift and handle typical hand-held medical laboratory
     equipment and tools.
   - Operate clinical laboratory instruments and
     equipment, including computers.
   - Perform delicate manipulations that require good
     eye-hand coordination.

3. Perform laboratory procedures accurately and within an
   established time-frame while maintaining efficiency and
   organization.

4. Exercise independent judgment and use critical thinking
   skills to solve problems.

5. Communicate in a professional and positive manner with
   faculty, classmates, patients, laboratory personnel, and other
   healthcare and non-healthcare personnel.

6. Maintain patient confidentiality and exercise ethical
   judgment, integrity, honesty, dependability, and
   accountability in the classroom and clinical laboratory.

This policy shall be interpreted and applied in a manner
consistent with the requirements of all state and federal laws
concerning education of students with disabilities.

Medical Technology Program Requirements

The courses listed below are required for completion of the
bachelor’s degree in medical technology. Students must also
complete the requirements for the Stevenson Educational
Experience (SEE).

Specific pre- and co-requisites for each course are listed in the
course descriptions.

Medical Technology Other Options

Categorical Certificate Training Program:

The Categorical Certificate Training Program is available for
students who already have a bachelor’s degree in biology,
biotechnology, chemistry, or related science. Please see the
medical technology website for information, admission
requirements and application procedures.

Articulation Agreements:

Community College of Baltimore County, Associate of Applied
Science, Medical Laboratory Technology: It is possible for
students to transfer credits from CACC that count in the
Stevenson Educational Experience (SEE) and the medical
technology curriculum.

Anne Arundel Community College, Associate of Applied
Science, Medical Laboratory Technology: It is possible for
students to transfer credits from AACC that count in the
Stevenson Educational Experience (SEE) and the medical
technology curriculum.

Medical Technology Course Descriptions

MT 210 Principles of Laboratory Science
3 credits, Spring

Introduces the student to the medical laboratory profession by
providing a discussion of the organization of an accredited
clinical laboratory and regulatory agencies, principles of
laboratory and patient safety, instruction in medical terminology,
principles of quality control and quality assurance, professional
conduct and ethical considerations relevant to the clinical
laboratory, including HIPAA regulations, and instruction in
phlebotomy. The student will perform calculations required to
prepare laboratory solutions and dilutions, and demonstrate
competency making specific dilutions and solutions.

Prerequisite(s): A grade of "C" or better in CHEM 210 and
MATH 210; or permission of the department chair for biological
sciences

MT 310 Hematology I
3 credits, Spring

Introduces the fundamental concepts in hematology with
in-depth study of hematopoiesis, erythropoiesis, anemias, and
hemoglobinopathies. Granulopoiesis and qualitative white blood
cell abnormalities are introduced. Topics include normal and
abnormal hematology, normal physiology and pathophysiology,
and the correlation of laboratory data to diagnosis.

Prerequisite(s): A grade of "C" or better in BIO 130 and MT 210
or permission of the department chair for biological sciences

Corequisite(s): MT 310L
MT 310L Hematology I Laboratory
1 credit, Spring
Emphasizes laboratory procedures in routine hematology and
morphologic skills. Students learn to proficiently identify
normal and abnormal cellular morphology and inclusions in
peripheral blood smears, and correlate abnormal morphology to
disease states.
Prerequisite(s): A grade of "C" or better in BIO 130 and MT 210
or permission of the department chair for biological sciences
Corequisite(s): MT 310

MT 320 Urinalysis and Body Fluids
2 credits, Fall
Applies an in-depth study of the anatomy and physiology of the
genitourinary system and the principles and procedures of the
complete urinalysis, including physical, chemical, and
microscopic examinations. This course also covers other body
fluids, including cerebrospinal, synovial, serous, seminal,
amniotic, gastric, and fecal analysis. Topics include specimen
collection and handling, analyses, and correlation with disease
states.
Prerequisite(s): A grade of "C" or better in BIO 130 and MT 210
or permission of the department chair for biological sciences
Corequisite(s): MT 320L

MT 320L Urinalysis and Body Fluids Laboratory
1 credit, Fall
Emphasizes the physical, chemical, and microscopic examination
of urine, and manual and automated chemical dipstick urinalysis.
Students also perform analyses of other body fluids, including
manual cell counts and cell identification.
Prerequisite(s): A grade of "C" or better in BIO 130 and MT 210
or permission of the department chair for biological sciences
Corequisite(s): MT 320

MT 325 Clinical Chemistry I
4 credits, Fall
Provides a study of the analyses of the chemical constituents of
the blood and other body fluids, emphasizing appropriate
anatomy and physiology, specimen processing, correlation of
normal and pathologic physiology, and diagnostic implications in
health and disease. Students learn the applications of UV-visible
spectrophotometry, atomic absorption spectrophotometry,
potentiometry as applied to ion specific electrodes, and
electrophoresis in the clinical chemistry laboratory. Laboratory
exercises emphasize analytical accuracy and precision, using both
manual techniques and automated laboratory instruments.
Prerequisite(s): A grade of "C" or better in CHEM 211 and
CHEM 211L or BIO 217; BIO 130 or BIO 222; and MT 210, or
permission of the department chair for biological sciences

MT 335 Clinical Laboratory Management
3 credits, Spring
Provides an introduction and overview of management concepts
strategic to the successful operation of a clinical laboratory.
Students are introduced to management theory and practice,
organizational structures, supervisory and leadership functions,
job descriptions, personnel performance management and
appraisal, budgeting and financial management, laboratory
operations, and computer applications, with additional
discussions of current trends in laboratory services. Using a
problem-based learning approach, professional responsibility,
ethics, problem-solving, team-building, and interpersonal skills
are integrated throughout the course content.
Prerequisite(s): Junior year status in the MT program or
permission of the department chair for biological sciences

MT 338 Molecular and Immunologic Diagnostics
4 credits, Fall
Provides the basic skills, concepts and theoretical background
needed to work in a clinical immunology and molecular
laboratory. Immunology topics include antigens, antibody
structure and function, humoral and cellular immune responses,
nanodeficiency, autoimmunity, hypersensitivity, and
transplantation. Molecular biology topics include analysis of
nucleic acids for normal variations, inherited disorders, cancer
detection, and infectious diseases. Students gain laboratory
experience in molecular, immunological and serological
methods including nucleic acid amplification and
electrophoresis, antibody screening, ELISA, and precipitation
and agglutination reactions.
Prerequisite(s): A grade of "C" or better in MT 210, BIO 230 and
BIO 203, or permission of the department chair for biological sciences

MT 400 Senior Medical Technology Seminar
2 credits, Spring
Introduces the principles and practices of research design
sufficient to evaluate published studies in the field of clinical
laboratory sciences such that research results can be applied to
practice. Students will understand how a research study is
corporalized, implemented by the researcher, and disseminated in
a published format to peers. Working collaboratively with a
team leader or manager within the clinical laboratory, students
perform a literature search and/or research on an assigned study
or project, prepare a professional poster, and present their
findings in an oral presentation.
Prerequisite(s): Senior status in the medical technology program

MT 405 Transfusion Medicine
3 credits, Fall
Discusses the theoretical and practical concepts of blood banking
and transfusion medicine. Introductory topics include donor
screening and selection, basic blood group serology, component
processing and therapeutic use, hemolytic disease of the fetus and
newborn, adverse reactions to transfusion, and quality assurance in
the blood bank. Advanced topics include transfusion therapy,
adverse complications of transfusion, blood inventory
management, autoimmune hemolytic anemia and regulatory
issues in the blood industry. In the laboratory, students perform
ABO/Rh grouping, antibody screening, compatibility testing,
antibody identification, and component modification.
Prerequisite(s): A grade of "C" or better in MT 310 and MT 338

MT 410 Hematology II
3 credits, Fall
Continues with the concepts in MT 310, this course is an
advanced study of the pathophysiology, laboratory diagnosis,
clinical correlation and peripheral blood identification of
quantitative and qualitative white cell disorders, acute and
chronic leukemias, and myeloproliferative, myelodysplastic,
lymphoproliferative and plasma cell disorders. Topics in
coagulation cover normal hemostasis and disorders in the clotting
mechanism, therapeutic anticoagulants, pathologic inhibitors,
and thrombotic disorders. Laboratory exercises concentrate on
identification of precursor white cells and white cell disorders in
peripheral smears. Students are introduced to bone marrow
evaluation, coagulation testing procedures, automated
instrumentation, and flow cytometry.
Prerequisite(s): A grade of "C" or better in MT 310 and MT 338

MT 420 Clinical Microbiology
4 credits, Fall
Emphasizes the correlation of in vitro and in vivo findings in the
diagnosis and treatment of infectious diseases using a specimen
approach to the study of diagnostic microbiology. The systems of
the body will be discussed in terms of normal flora, proper
specimen collection and processing, the isolation, identification,
and treatment of bacterial pathogens from various body sites, and correlation with infectious diseases. It also includes the detection and laboratory identification of commonly isolated pathogenic fungi, parasites and viruses. Laboratories are designed to simulate a clinical microbiology laboratory experience by having students work with simulated patient cultures.

**Prerequisite(s):** A grade of "C" or better in BIO 320 and MT 338

**MT 425 Clinical Chemistry II**

*3 credits, Fall*

Correlates the appropriate analytes and testing systems of organ function with interpretive algorithms, using a body systems approach. The course emphasizes the relationship of normal and abnormal laboratory data to disease processes and quality control and Six Sigma quality assessment of laboratory processes. It also includes the clinical areas of toxicology, therapeutic drug monitoring, tumor markers, endocrinology, and immunochemistry. Through the use of simulation exercises and team projects, students gain experience in the development of SOPs, reference interval studies, new method or instrument validation studies, and proficiency testing programs.

**Prerequisite(s):** A grade of "C" or better in MT 325 and MT 338

**MT 431 Clinical Laboratory Practicum**

*12 credits, Spring*

Applies laboratory theory and techniques in the major disciplines of a clinical laboratory, including clinical chemistry, urinalysis, hematology, microbiology, immunology, and transfusion medicine through supervised rotations at affiliated hospital laboratories.

**Prerequisite(s):** A grade of "C" or better in MT 410, MT 405, MT 420, and MT 425

**Fee(s):** Parking fees may be required for rotations at affiliate hospitals.

**MT 432 Clinical Laboratory Practicum**

*12 credits, Spring*

Applies laboratory theory and techniques in the major disciplines of a clinical laboratory, including clinical chemistry, urinalysis, hematology, microbiology, immunology, and transfusion medicine through supervised rotations at affiliated hospital laboratories.

**Prerequisite(s):** A grade of "C" or better in MT 410, MT 405, MT 420, and MT 425

**Fee(s):** Parking fees may be required for rotations at affiliate hospitals.

**MT 433 Clinical Laboratory Practicum**

*12 credits, Spring*

Applies laboratory theory and techniques in the major disciplines of a clinical laboratory, including clinical chemistry, urinalysis, hematology, microbiology, immunology, and transfusion medicine through supervised rotations at affiliated hospital laboratories.

**Prerequisite(s):** A grade of "C" or better in MT 410, MT 405, MT 420, and MT 425

**Fee(s):** Parking fees may be required for rotations at affiliate hospitals.

**MT 434 Clinical Laboratory Practicum**

*12 credits, Spring*

Applies laboratory theory and techniques in the major disciplines of a clinical laboratory, including clinical chemistry, urinalysis, hematology, microbiology, immunology, and transfusion medicine through supervised rotations at affiliated hospital laboratories.

**Prerequisite(s):** A grade of "C" or better in MT 410, MT 405, MT 420, and MT 425

**Fee(s):** Parking fees may be required for rotations at affiliate hospitals.

**MT 435 Management Practicum**

*3 credits, Spring*

Applies management theory to practice in the daily operation of the laboratory through presentations and mentoring by laboratory leaders. Students will have the opportunity to use the problem-solving and critical thinking skills learned in the classroom and gain experience in generic management roles such as, personnel scheduling, laboratory inspection preparation, turnaround time studies, resolution of personnel issues and competency assessment procedures. Students will also demonstrate understanding of educational methodologies related to clinical education.

**Prerequisite(s):** A grade of "C" or better in MT 335 and senior status in the medical technology program

---

**Military Science - Air Force ROTC**

Stevenson University offers the Air Force Reserve Officers’ Training Corps (AFROTC) in conjunction with University of Maryland’s Det 330. The Air Force Reserve Officer Training Corps (AFROTC) provides students the opportunity to earn a commission as a second lieutenant in the United States Air Force while completing their undergraduate or graduate degree. It is highly recommended that students seeking a commission contact the AFROTC department for full program details before registering for classes. For more information students can email afrotc@um.du, call 301.314.3242, or visit the Det 330 website at afrotc.umd.edu.

**Program Overview**

AFROTC is designed to be a 4-year experience, but the schedule can be compressed (minimum of 3 years) for qualified candidates. A full four-year program is composed of the two-year General Military Course (GMC) and the two-year Professional Officer Course (POC). GMC students receive an introduction to the Air Force and various career fields, and may have a chance to compete for scholarships. Non-scholarship GMC students incur no military service obligation and may elect to discontinue the program at any time. Students wishing to continue in the POC must pass all cadet standards by their last semester in the GMC, successfully compete for acceptance into summer field training course, and complete field training. POC students concentrate on the development of leadership skills and the study of United States defense policy. Additionally, all POC students receive a monthly allowance of $450-$500.

If the Air Force is offering scholarships, members of AFROTC in all degree programs are eligible to compete for scholarships based on a competitive selection process. Scholarship recipients receive money for tuition up to $18,000 per year, a book allowance (currently $900/year), and a monthly allowance from $300 to $500, depending on the student’s AFROTC year.

All classes are offered only at the University of Maryland.

**Military Science Air Force ROTC Course Descriptions**

**ARSC 059 Air Force Officer Lab**

*1 credit, Offered at the University of Maryland*

Two hours of laboratory plus one to two hours of physical training per week. This course does not carry credit towards any degree at the University and is open only to AFROTC cadets. Repeatable to 10 credits if content differs. Offers Air Force ROTC cadet officer’s practical experience in military leadership, management, organization, and customs. May include visits to military installations, weekend laboratories, and flight orientation.
ARSC 100 The USAF Today I
1 credit, Offered at the University of Maryland
AFROTC cadets must also register for ARSC 059. Freshman course for AFROTC. This course is designed to introduce students to the United States Air Force and encourage participation in Air Force Reserve Officer Training Corps. Featured topics include: overview of ROTC, special programs offered through ROTC, mission and organization of the Air Force, brief history of the Air Force, introduction to leadership and leadership related issues, Air Force Core Values, Air Force officer opportunities, and an introduction to communication skills. Leadership Laboratory is mandatory for AFROTC cadets and complements this course by providing cadets with followership experiences.

ARSC 101 The USAF Today II
1 credit, Offered at the University of Maryland
AFROTC cadets must also register for ARSC 059. Freshman course for AFROTC. This course is a continuation of ARSC 100 for freshmen AFROTC cadets. Topics relate to the Air Force and defense. Focuses on organizational structure and missions of the Air Force; officership and an introduction to both written and oral communication skills are included.

ARSC 200 The Development of Air Power
1 credit, Offered at the University of Maryland
AFROTC cadets must also register for ARSC 059. Sophomore course for AFROTC cadets. This course studies factors contributing to the development of air power from its earliest beginnings through two world wars; the evolution of air power concepts and doctrine; introductory leadership; and assessment of communicative skills.

ARSC 201 The Development of Air Power II
1 credit, Offered at the University of Maryland
AFROTC cadets must also register for ARSC 059 and have taken ARSC 200. This course is a continuation of ARSC 200 for sophomore AFROTC cadets. This course explores the study of historical events, leaders, and technical developments which surrounded the growth of air power; the basics of leadership; environment of an Air Force officer; and concepts of ethical behavior.

ARSC 300 Management and Leadership I
3 credits, Offered at the University of Maryland
Studies leadership and management fundamentals, professional knowledge, Air Force doctrine, and written and oral communication skills. Case studies are used to examine leadership and management situations. This course will satisfy credit towards a minor in military studies.

ARSC 301 Management and Leadership II
3 credits, Offered at the University of Maryland
Continuation of ARSC 300. Cadets study leadership and management skills and leadership ethics as well as written and oral communication skills required of Air Force officers.

ARSC 400 National Security Forces in Contemporary American Society I
3 credits, Offered at the University of Maryland
Studies American national security policy and processes to include information and implementation, impact of major national and international actors, and development of major policy issues.

ARSC 401 National Security Forces in Contemporary American Society II
3 credits, Offered at the University of Maryland
Examines various subjects including: military law/justice, preparation for active duty, and current issues affecting military professionalism.

Military Science - Army ROTC
Stevenson University offers the Army Reserve Officers’ Training Corps (ROTC) in conjunction with The Johns Hopkins University’s Blue Jay Battalion. The JHU Army Reserve Officers’ Training Corps (ROTC) was among the first to be established by Congress in 1916 and is routinely ranked at the top of the nation’s 273 programs. More than 3,000 students have received Army officer commissions through the program, with over 40 attaining the rank of general officer. Students can enter the program with as little as two years remaining as an undergraduate or may complete the requirements while pursuing a graduate degree. Upon graduation students are commissioned as a second lieutenant in the U.S. Army. Some are selected to attend a funded law school or several medical programs, while others serve in the Active Army, Reserves, or National Guard. ROTC basic classes are open to all students: The leadership and management class specializes in leader development and is an excellent course for students aspiring to become leaders on campus and beyond. Additional information on military science or ROTC can be obtained by asking a current cadet, and by calling 1-800-JHU-ROTC or 410-516-7474. Additional information can be obtained by emailing <rotc@jhu.edu> or visiting the JHU ROTC website jhu.edu/rotc.

Scholarship and Financial Assistance
Army ROTC offers four, three, and two-year scholarships that pay full tuition (or room and board), $1,200 for books and a $300 - 500 monthly stipend. For students that join after their freshman year, a one-time $5,000 incentive bonus may be available and can be coupled with a loan repayment option. Additional incentives include a monthly language stipend ($100 - 250), a study abroad program ($6,000), special incentives for nurses, and postgraduate programs for medical and law degrees.

Scholarship opportunities are regularly improved and incentives are added. Applications for scholarships by qualified students are awarded throughout the semester, and may be in some cases retroactive. A non-scholarship program is also available. For health professions and nursing students, ROTC can offer numerous opportunities to achieve specialized education, additional postgraduate scholarships, and accession/graduation bonuses.

Curriculum
The curriculum normally consists of two-year Basic Course (freshmen/sophomores) and a two-year Advanced Course (juniors/seniors). Some modification to this curriculum is common, as with graduate or transfer students. Completing the 30-day Leader’s Training Course (LTC) at Fort Knox, Kentucky is equivalent to the Basic Course. Successful graduates of LTC are normally offered ROTC scholarships and an opportunity to enroll in the Advanced Course.

Corequisite(s): ARSC 059 or permission of department. Senior standing.

ARSC 059 or permission of department. Senior standing.
Junior-ROTC experience, prior military service, and military academy attendance may also qualify for Basic Course completion.

All Advanced Course students are cadets and have a contractual agreement with the Army. These students attend the National Leadership Development and Assessment Course (LDAC) at Fort Lewis, Washington between the 300- and 400-level courses. This is a core requirement to commission in the Army and cannot be waived.

Army ROTC strives to develop values-based graduates that offer expert leadership to the campus, the community, and the Army. As such, we offer and encourage cadets to participate in: paid leadership and technical internships; cultural and language immersion programs; a number of Army military school opportunities in Europe, South America, the Republic of Korea, Alaska, Hawaii, and across the continental United States.

Extracurricular activities may also include community assistance, Red Cross blood drives, tutoring for at-risk children, volunteering at the Veterans' Administration and more. Cadets may apply for additional military training such as skydiving, helicopter rappelling, mountaineering, and cold weather training. New and challenging opportunities routinely become available.

Military Science Army ROTC Course Descriptions

374.101 Leadership and Management I
2 credits, Offered at JHU
Introduces basic leadership and management concepts, theories and principles of decision making for application to any professional environment. This course is recommended for those who have leadership aspirations or are currently in student leadership positions. This course is intended to provide a foundation for those desiring to establish and improve their personal leadership philosophy. It establishes a baseline understanding of the US Army’s leadership and management principles. This course is taught through a series of lectures and small group discussions. Students are required to conduct research in the areas of leadership and management and present their findings in an oral presentation or written report to their small group. In addition to learning the foundations of leadership, students will learn about the corporate and non-corporate aspects and operations of the US Army, time management, ethics, values, mission statements and goal setting. Co-requisite(s): 374.110 for ROTC students; none for non-ROTC students.

374.102 Leadership and Management II
2 credits, Offered at JHU
Introduces and applies the five tracks of instruction in leadership, personal development, values and ethics, officership, and tactics. This course is complimentary to 374-101, Leadership and Management I, although either course can be taken independently. This course is recommended for those who want to improve their leadership skills and abilities, whether or not they are currently in leadership positions. This course is intended to provide the student with basic leadership and management tools and abilities that can be applied in any personal or professional endeavor. This course is taught through a series of lectures, small group discussions and practical exercises. Students are required to present information in a verbal briefing, and to apply their leadership and management skills in small group practical exercises. In addition to learning the foundations of leadership students will learn about the corporate and non-corporate aspects and operations of the US Army Organization, time management, ethics and values and mission statements and goals. Co-requisite(s): 374.120 for ROTC students; none for non-ROTC students.

374.110-120 Basic Leadership Laboratory I, II
1 credit, Offered at JHU
Exposes students in a laboratory environment to practical experiences, challenges and individual learning opportunities in a small group. Students learn the fundamentals of an organization and apply principles of leadership and management at the foundation level. Students develop military courtesy, organizational discipline, communication and basic leadership and management skills. Ultimately, students understand how to facilitate and lead a small group of four to five people as an integral part of a larger organization of 75-100 people through situational training opportunities in a variety of conditions. As a leadership practicum, students have the opportunity to serve in leadership positions and receive tactical and technical training. In addition to learning to lead groups of five to 100 people, students will also be exposed to training on first aid, operating Army equipment, Army activities such as rappelling and drill and ceremony. These laboratories are required for enrolled ROTC participants who desire to be considered for a commission in the Army. Co-requisite(s): 374.101-102

374.202 Leadership and Teamwork
2 credits, Offered at JHU
Explores how student influence, develop and achieve success as a leader. It examines the challenges of leading small tactical teams in the complex contemporary operating environment (COE). This course highlights dimensions of terrain analysis, patrolling, and command operations, and examines broader applications of leadership and team development. Continued study of the theoretical basis of the Army leadership framework explores the dynamics of adaptive leadership in the context of military operations. Students will assess their own leadership styles and practice communication and team building skills. Several COE case studies give insight into the importance and practice of teamwork and tactics in real-world scenarios. Corequisite(s): 374.220; none for non-ROTC students.

374.201 Leadership and Communication
2 credits, Offered at JHU
Focuses on developing leadership and communication skills. Case studies will provide a tangible context for learning and applying aspects of team building, values, the Army Warrior Ethos, and principles of war as they apply in the contemporary operating environment. The key objective of this course is to develop knowledge of the Army’s leadership philosophies and integrate this knowledge into personal skills and team development. At the end of this course, students will be able to describe and perform tasks during the four basic phases of team building; demonstrate the types and elements of interpersonal communication; illustrate, explain, and apply the Principles of War; identify and apply problem solving steps, and apply basic leadership procedures in simple and complex situations. Corequisite(s): 374.210; none for non-ROTC students.

374.210 Basic Team Leadership Laboratory
1 credit, Offered at JHU
Provides training in leading and assisting 4-5 person teams through a variety of training opportunities. Students learn the troop-leading procedures, basic problem solving, and tactical skills aimed at military leadership and will mentor and assist members of their team with improving their own skills and leadership as well. Corequisite(s): 374.201

374.220 Intermediate Team Leadership Laboratory
1 credit, Offered at JHU
Develops student leadership, as team leaders of 4-5 other students, during a variety of induced training opportunities. They also begin to lead larger groups, from 9 to 60 people, in a variety...
of situations designed to challenge emerging leaders. Continued emphasis is placed on troop-leading-procedures and problem solving. Students lead physical fitness training and mentor subordinates in military, academic and extra-curricular activities. Successful completion of this course allows students to progress into ROTC Advanced Courses.
Corequisite(s): 374.202

374.301 Leadership and Tactical Theory I
2 credits, Offered at JHU
Introduces the tenets of Army leadership, officership, Army values, ethics and personal development. Students will learn the fundamentals of physical training, land navigation, orders production, and small unit tactics at the squad and platoon level. Each student will be given multiple opportunities to plan and lead squad level tactical missions in the classroom and during Leadership Laboratories.
Prerequisite(s): Basic Course completion
Corequisite(s): 374.310.

374.302 Leadership and Tactical Theory II
2 credits, Offered at JHU
Builds on the first semester's achievements as students are challenged to study, practice, and apply the fundamentals of Army leadership, officership, Army values and ethics, and small unit tactics at the squad and platoon level. Each student, by the end of the course, will be capable of planning, coordinating, navigating, motivating and leading in the execution of a tactical mission during a classroom practical exercise, a Leadership Lab, or in a field environment. Students are rotated through a variety of leadership positions that support ROTC events throughout the semester. The student will receive detailed and constructive feedback on their leader attributes and core leader competencies based on Army FM 6-22, Army Leadership. Ultimately, prepares students to excel at the four-week National Leadership Development and Assessment Course at Fort Lewis, WA.
Prerequisite(s): Basic Course and 374.301
Corequisite(s): 374.320.

374.307 Leadership in Military History
2 credits, Offered at JHU
Provides students with a historical perspective to decisions made by American military leaders: battlefield complexity, resource limitations, and teamwork deficiencies. Students cover major military engagements from the colonial period through the current operating environment. Students examine how leaders motivated their men, devised battle strategies, implemented rules of engagement, and managed supplies, transportation, and logistics for their troops.
Prerequisite(s): Permission of the Director of Military Science

374.310 Basic Tactical Leadership Laboratory
1 credit, Offered at JHU
Applies what students have learned in the classroom, in a tactical or field environment. Students learn and demonstrate the fundamentals of leadership by planning, coordinating, navigating, motivating, and leading squads in the execution of both garrison and tactical missions. Students are evaluated as part of the Leadership Development Program and FM 6-22, Army Leadership. Ultimately, prepares students to excel at the four-week National Leadership Development and Assessment Course at Fort Lewis, WA.
Corequisite(s): 374.301.

374.320 Intermediate Tactical Leadership Laboratory
1 credit, Offered at JHU
Builds on the first semester's achievements as students further develop their leadership skills by planning, coordinating, navigating, motivating, and leading squads in the execution of both garrison and tactical missions. Students are evaluated as part of the Leadership Development Program and FM 6-22, Army Leadership. Ultimately, prepares students to excel at the four-week National Leadership Development and Assessment Course at Fort Lewis, WA.
Corequisite(s): 374.302.

374.401 Adaptive Leadership
2 credits, Offered at JHU
Assigns the duties and responsibilities of an Army battalion staff officer and must apply the fundamentals of principles of training, the training management, the Army writing style and military decision making, to weekly training meetings. Students plan, execute and assess ROTC training and other Mission Essential Tasks. Students will study how Army values and leader ethics are applied in the Contemporary Operating Environment and how these values and ethics are relevant to everyday life. The student will study the Army officer’s role in developing subordinates via counseling and administrative actions, as well as managing their own career. Students will be given numerous opportunities to train, mentor and evaluate underclass students enrolled in the ROTC Basic Course while being mentored and evaluated by experienced ROTC cadre.
Prerequisite(s): 374.301-302, 310-320 and the Basic Course
Corequisite(s): 374.410.

374.402 Leadership in a Complex World
2 credits, Offered at JHU
Explores the dynamics of leading in the complex situations of current military operations in the contemporary operating environment (COE). Students examine: foreign culture and customs and how they affect military operations; Military Professional Ethics, laws governing war and the Uniform Code of Military Justice; the principles of war in relations to the COE; and rules of engagement in the face of international terrorism. They are also introduced to interacting with non-government organizations, civilians and media on the battlefield and the complexity of host nation support. Ultimately this course provides the final preparations needed to commission and serve as a Second Lieutenant at the Basic Officer Leadership Course’s B, as well as in the US Army.
Prerequisite(s): 374.301-302, 310-320, 374.401 and Basic Course
Corequisite(s): 374.420.

374.407 Being a Platoon Leader
1 credit, Offered at JHU
Prepares cadets for actual challenges not necessarily described in text books that junior officers may face in today’s Army. Topics include: serving during war, conflict management, ethical dilemmas, time-constrained planning, and change management. This course also serves as pre-requisite for the Basic Officer Leadership Course “B” phase by providing students with reinforced development on: deployment preparation, the military style of writing, supply management, human resources management, family support and operations management. Students will also learn how the Army’s organizational structure and administration affects soldiers across ranks and over time. Finally, students will learn ways to leverage automation to improve their efficiency and effectiveness of records management and developing presentations for superiors.

374.410-420 Advanced Planning and Decision Making Laboratory I, II
1 credit, Offered at JHU
Develops a semester-long progression of programmed training activities that support completion of the unit’s Mission Essential Task List. The laboratory builds from fall to spring semester as students master advanced problem solving, resource synchronization and executive decision making. Students evaluate, mentor and develop subordinate leaders as part of the Leadership Development Program and FM 6-22, Army.
Leadership. The course serves as the final evaluation and determination on a student’s ability to lead Soldier’s as a Second Lieutenant in the US Army. 

Prerequisite(s): 374.301-302, 310-320 and Basic Course
Corequisite(s): 374.401-402

374.501-502 Independent Study
1-2 credits, Offered at JHU
Prerequisite(s): Permission of the director of military science

374.505-506 Leadership Internship
1-2 credits, Offered at JHU
Prerequisite(s): Permission of the director of military science

Music

School of Design
Stevenson University does not currently offer a bachelor’s degree or minor in music; however, music courses are available for students interested in learning about music or participating in musical groups at the University. Course descriptions for music are listed in this section.

Music Course Descriptions

MUS 102 Chorus
2 credits, Fall and Spring
Provides instruction in the fundamentals of tone production, sight-reading, and diction. Chorus offers laboratory practice for acquiring techniques and skills in singing. Song materials are selected to illustrate a range of vocal variety, problems, and possibilities of artistic performance. Chorus meets three hours weekly.

Prerequisite(s): Previous choral music experience or permission of the instructor

MUS 105 Orchestra
2 credits, Fall and Spring
Exposes students to a variety of musical styles and historical periods. This course is designed for students with a background in instrumental music. The orchestra is augmented with faculty, alumni, and players from the community, so repertoire is generally of a fairly advanced level. It is recommended that students have had previous private instruction. Orchestra meets three hours weekly. Students must take two semesters of this course to fulfill the fine arts requirement.

Prerequisite(s): Own or have access to an instrument and previous orchestra experience or permission of the instructor

MUS 201 Introduction to Music in History
3 credits, Fall and Spring
Explores musical styles in history from Gregorian chant to jazz and contemporary music. Students are exposed to a variety of musical styles through the use of videos and live performances.

Prerequisite(s): ENG 151 or equivalent (may be taken concurrently)

MUS 260 Music Technology I
3 credits, Fall and Spring
Focuses on many aspects of music technology. The course investigates rudimentary principles of sound, acoustics, midi, sequencing, notation, digital audio, the history of electronic music, important composers, and the importance of the composition to the field. The course introduces and explores current software and hardware to compose electronic music.

Prerequisite(s): None

MUS 280 Music Technology II
2 credits, Fall and Spring
Studies musical performance and composition and the use of technology to create music. Focuses on many aspects of music technology. The course investigates rudimentary principles of sound, acoustics, midi, sequencing, notation, digital audio, the history of electronic music, important composers, and the importance of the composition to the field. The course introduces and explores current software and hardware to compose electronic music.

Prerequisite(s): MUS 260

MUS 281 Topics in Music
3 credits, Fall and Spring
Studies selected topics in music.

MUS 290 Marching Band
2 credits, Fall
Provides the student with the opportunity to rehearse and perform literature and choreography written for the University marching band. Students continue to develop both their own instrumental skill and that of an ensemble member. Students are required to attend all home football games, performances, and the required class rehearsals. A required, on-site marching band camp will be held in August.

Prerequisite(s): None

MUS 310 Musical Thought: Sound and Ideas
3 credits, Fall or Spring
Studies music and musicians and the ideas that shaped their development from the 18th century to the concert hall of today. The course examines important composers and compositions in the context of the time and circumstances surrounding them. Students are required to attend three or four live concerts.

Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent, third-year or fourth-year status or permission of the instructor

MUS 320 Topics in Musical Traditions
3 credits, Fall and Spring
Examines and compares musical traditions and aesthetics of diverse cultures, with a discussion of both the sacred and social roles that music plays in each society. Past topics have included world musical traditions and American musical traditions.

Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent, third-year or fourth-year status or permission of the instructor

Nursing

School of the Sciences
Department of Nursing
Interim Department Chair: Ellen Clayton, R.N., M.S.

Nursing Program Description

The Stevenson University nursing program is fully accredited by the Commission on Collegiate Nursing Education and approved by the Maryland Board of Nursing. The nursing program prepares graduates with the education to creatively meet the challenges and demands of nursing in the twenty-first century. The goal of the program is to educate nurses who, as members of the health care team, address the varied health concerns of individuals, families, groups, and communities. Nurses practice in a wide variety of settings—clinics, schools, hospitals, businesses, long-term care facilities, community agencies, and urgent care centers. In addition to the very real satisfaction a person gains from helping others in need, the reasons to consider nursing as a profession include intellectual stimulation, continued educational development, and the opportunity to work closely with other allied health professionals. Registered nurses are concerned with the health of the whole person. They care for the sick and injured as well as help people maintain and improve their health. Hospital nurses are an integral part of the interdisciplinary health care team; they collaborate by means of nursing and medical diagnoses and deliver expert, compassionate, and complex holistic care.

A combination of liberal arts and science courses develops the foundation for studying the discipline of nursing. An important feature of this program is the strong clinical experience. Students in this program receive a Bachelor of Science degree with a major in nursing and are prepared to take
the licensure examination for registered nurses (National Council Licensure Examination—NCLEX-RN). The nursing program provides an educational foundation for graduate study in nursing as well as the knowledge and experience necessary for advancement within the nursing profession.

The first two years of the nursing curriculum focus mainly on the Stevenson Educational Experience (S.E.E.) and other requirements that provide the foundation for 3rd and 4th year nursing courses. The nursing program introduces students to the diversity of nursing roles from wellness advocate to bedside caregiver, with the clinical application of these roles in actual health care settings. Courses enable the student to assess clients in a variety of settings and to plan nursing care strategies that meet their needs. Students are given opportunities to provide nursing care to individuals and families from birth to old age. The last year of the nursing curriculum is designed to move the focus of nursing from individuals and families to groups within a larger socio-cultural context. Students have the opportunity to practice nursing in complex and diverse settings. As students progress through the program, theory and clinical expectations increase as students move toward their desired goal of becoming competent, knowledgeable and caring practitioners. More detail on clinical requirements is included in the School of the Sciences Nursing Student Guide.

Successful completion of at least three years of college preparatory math and science courses provides the best foundation for students who are entering directly from high school. A verbal SAT score of 520 or above, a math SAT score of 500 or above, and a high school unweighted grade point average of 3.4 and 3.75 have been strongly correlated with student success in the Stevenson nursing program.

Admission to the Nursing program is reserved for applicants who have demonstrated the ability to meet the demands of Stevenson University’s bachelor’s level nursing curriculum. Please see the University web site for current admissions requirements.

RN to BS and Masters Options
The RN to BS option is designed to allow registered nurses to build upon prior nursing knowledge and to enable them to develop an understanding of new nursing roles for a changing health care environment. Classes are available online and are also offered in partnership with multiple community colleges, hospitals and other settings throughout the state in an online/hybrid format. For more information on this program or the graduate nursing program, including course descriptions for RN to BS, RN to MS, and Masters level courses, see the School of Graduate and Professional Studies Catalog.

Nursing Resource Center
The Nursing Resource Center is composed of three skills laboratories to provide nursing students with the opportunity to practice newly learned skills and apply nursing knowledge in a simulated hospital environment. The nursing skills laboratories are each furnished with multiple hospital beds, along with wheelchairs, stretchers, and many other items of up-to-date hospital equipment. Both high fidelity simulation and static mannequins provide the opportunity for students to practice skills in a realistic manner. Computer programs in the lab allow students to work on diverse tasks, such as dosage calculations and licensure examination preparation.

Nursing Department Statement of Purpose
The philosophy of the nursing program is articulated as follows:
“The Stevenson University nursing program, as an integral part of its parent institution, is dedicated to the pursuit of higher learning grounded in the arts, sciences, and humanities. The philosophy and curricular focus of the nursing program emphasizes the ethic of caring, critical thinking, and a spirit of inquiry in education, practice, service, and research. The nursing faculty believes nursing is a professional discipline with academic and practice dimensions. The nursing faculty values scholarship and academic integrity and seeks to foster professional involvement and life-long learning in students and graduates. The essence of nursing is grounded in the philosophy of caring. The nursing faculty believes that caring exists in authentic relationships through which all persons are respected and nurtured. Within these co-created relationships, caring opens the possibility of transformation, inviting growth, healing, and wholeness of persons, families, and communities. In the reflective practice of nursing and nursing education, a caring environment affirms diversity in ways of being and ways of knowing.”

Nursing Program Objectives
The nursing program is dedicated to the pursuit of higher learning grounded in the arts, sciences, and humanities. Program objectives reflect the philosophy and curricular focus, emphasizing the ethic of care, critical thinking, and a spirit of inquiry in education, practice, service and research. Based upon these and other concepts, students are encouraged in the practice of caring through interactions and forming of relationships between their patient/clients, peers and faculty. The program has six overall objectives that are delineated into distinct levels which determine course content and progression to more complex learning within the nursing program. These objectives provide the framework for theory and clinical learning experiences throughout the curriculum.

Upon completion of the Stevenson University baccalaureate nursing program, graduates will be able to:
1. Integrate the concepts of caring in nursing practice in diverse health care settings across the health–illness continuum.
2. Engage in holistic reflective nursing practice informed by the arts, sciences, and humanities.
3. Exhibit competencies in critical thinking, communication, evidence-based decision making, scholarly inquiry and technical skills in the practice of nursing.
4. Integrate professional competencies in the nursing roles of provider, designer, manager, and coordinator of care and participate as an active member of the profession.
5. Assume ethical and legal responsibility and accountability in nursing practice, exemplifying the values of altruism, autonomy, human dignity, integrity, and social justice.
6. Apply leadership concepts, skills, and decision-making in creating caring environments to promote health and healing in individuals, families, communities, and global populations.

Nursing Program Policies for Continuance and Progression in the Major
Students must earn a minimum GPA as outlined below, and the lowest acceptable grade is a “C” in all nursing, math, and science courses.

During the first two years of study, nursing students must successfully complete the required liberal arts, science and nursing courses. These courses provide the foundation needed for the junior and senior level clinical nursing courses. There are specific criteria that must be met to satisfy prerequisite requirements and before students are allowed to progress from one level to the next. These criteria are outlined below.
Progression criteria for students entering sophomore-level course sequence

To progress to NURS-110 and BIO-240 (offered in the sophomore year) students must meet the following requirements:
1. Cumulative GPA of 2.70 or higher
2. Cumulative GPA of 3.00 or higher in all science courses (BIO and CHEM designations.)
3. Achievement of at least a "C" or better in all science, mathematics and nursing courses
4. Successful completion of recommended first-year courses, including a minimum of two of the prerequisite science courses
5. None or only one repeated science course

Progression criteria for students entering junior-level course sequence

To progress to the 300-level clinical nursing sequence, students must meet the following requirements:
1. Cumulative GPA of 3.00 or higher
2. Cumulative GPA of 3.00 in all science courses
3. Achievement of at least a "C" or better in all science, mathematics and nursing courses
4. Successful completion of recommended first and second year courses
5. None or only one repeated science or nursing course

Progression criteria for students entering senior-level course sequence

To progress to the 400-level clinical nursing sequence, students must meet the following requirements:
1. Cumulative GPA of 3.00 or higher
2. Achievement of at least a "C" or better in all nursing courses
3. None or only one repeated science or nursing course

Probation:
If a student achieves a grade of "C-", "D+", "D-", or "F" in any science or nursing course, the course must be repeated and a "C" or better must be achieved to satisfy the prerequisite requirements. A maximum of one science or nursing course may be repeated once throughout the nursing program. Additionally, a student who achieves a grade of "C-", "D+", "D-" or "F" in any science or nursing course will be placed on probation in the nursing major for the remainder of the program. If a student achieves a grade of "C-", "D+", "D-" or "F" in MATH-140, the course must be repeated and a grade of "C" or better must be achieved to satisfy prerequisite requirements. MATH-140 may only be repeated three times. Students in the nursing major are not allowed to take science or nursing courses off campus.

Dismissal from the nursing major:
Students who earn a second grade of "C-", "D+", "D-", or "F" in either a science or nursing course will be automatically dismissed from the nursing program. If a grade of "C-" or lower is earned in MATH-140, the student will be automatically dismissed from the nursing program. Students who are dismissed from the nursing major are not eligible for readmission to the major.

Clinical Requirements

Students have clinical experiences in the Nursing Resource Center, hospitals, and community-based settings. As students progress through the program, the opportunity to learn from experienced registered nurses in real-world settings allows the student to apply theory content to clinical practice. By the last semester for the final practicum experience, students work with a preceptor, following a typical nursing schedule. Throughout the program, clinical experiences may be scheduled for day or evening hours on weekdays or weekends. More detail on clinical requirements is included in the School of the Sciences Nursing Student Guide.

1. CPR—In order to participate in clinical experiences, students must maintain current certification in the American Heart Association (AHA) Healthcare Provider Course.

2. Health requirements—In order to participate in clinical experiences, students must submit results of an annual PPD test and all other supplemental health requirements to the Administrative Assistant in the School of the Sciences by July 1.

   a. Required nursing student vaccinations/requirements:
   - Tdap or TD (within the last 5 years)
   - 2 doses of MMR and a positive antibody titer
   - 2 doses of Varicella and a positive antibody titer
   - 3 doses of Hepatitis B and a positive antibody titer
   - Annual PPD test, if positive, a clear chest x-ray (within 5 years) and complete screening questionnaire—students must upload current documentation to Certified Background each year.
   - Annual influenza (flu) vaccine
   - CPR-specifically BLS for healthcare providers
   - Proof of health insurance
   - Yearly submission and upload of Student Waiver to Certified Background
   - Yearly Certified Background, background check - to be completed between June 1 and July 1 of each year
   - Yearly Certified Background, drug screen - to be completed between June 1 and July 1 of each year
   - Yearly maintenance of student’s Certified Background Immunization Tracker
   - Clinical documents to be completed per clinical course no later than August 1, unless otherwise stated by Clinical Contracts Manager or Clinical Contracts Specialist.

   Students are not permitted into any clinical area without this information.

   a. Clinical junior and senior requirements—Clinical requirements include but are not limited to vaccines, titers, background check, drug screening, physical examinations, health insurance, CPR and all other nursing student documentation must be completed as directed by the University and/or the Nursing Department. The necessary forms can be found under student documents on the School of the Sciences portal page by clicking on "Student Documents" and then finding the "Nursing" folder. Students are responsible for ensuring that they have met all clinical requirements for participation in the nursing program prior to the established annual deadline of July 1. Failure to do so will result in students being dropped from the clinical courses in which they are enrolled, which will adversely impact progression in the nursing program. Stevenson University Department of Nursing uses the Maryland Hospital Association’s designated vendor, Certified Background, to manage student immunizations, compliance documents, background checks and drug screenings. Students should plan ahead for these extra expenses, as well as the cost of travel to clinical sites, and needed medical equipment, uniform and ID badge. Facility requirements may dictate that students come to the university and/or clinical sites prior to the start of courses to fill out necessary paperwork and complete necessary training. Students are not permitted to arrange their own clinical placements.

   b. Transportation—Transportation to and from clinical agencies is the responsibility of the student. Some clinical facilities may be at a distance from Stevenson University, so students should plan for extra time and expenses related to this travel.
3. **Dosage Policy**—Students must meet the requirements for medication administration as outlined in the *School of the Sciences Nursing Student Guide* and NURS 200.

4. **Personal Health Insurance**—Students are required to have personal health insurance coverage by the time they are eligible to take their first clinical course (NURS-310) and are encouraged to receive routine health care. It is the responsibility of the student to notify the Nursing Department in writing of any changes in health insurance carrier, benefits, or policy information. Students without health insurance may not participate in clinical experiences. The University does not provide or assume responsibility for student health care. The University requires a pre-entrance physical examination for all incoming students.

### Nursing Program Requirements

The courses listed below are required for completion of the bachelor’s degree with a major in nursing for students following the full-time curriculum plan beginning fall, 2014. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

In general, students take lower-level (100- and 200-level) courses in freshman or sophomore years and upper-level (300- and 400-level) courses in junior or senior years. Courses in the nursing program are carefully sequenced to provide students with a growing theory base to promote success in subsequent courses. It is critical that nursing students on this plan consult their academic advisor when planning their course schedule.

### Nursing Other Options

**Minor:**

A minor in nursing is not available.

### Nursing Course Descriptions

**NURS 102 New Student Seminar-Nursing**

1 credit, Fall

Provides new nursing students with an academic orientation to the School of the Sciences that is grounded in Stevenson University's core values: integrity, learning, community, and excellence. Topics include a review of policies and expectations, strategies for effective time management and study habits, and opportunities for building community. Students will engage in the process of *Career Architecture℠* which provides a distinctive approach to career exploration, planning, and preparation. The creation of an academic portfolio is required. **Restricted to first and second year students majoring in nursing.**

**Prerequisite(s):** None

**NURS 110 Computer Technology in Nursing**

3 credits, Fall and Summer

Provides an introduction to basic computer concepts and applications in Microsoft Windows and Microsoft Office. This course presents nursing informatics as a combination of computer science, information science, and nursing science and relates nursing informatics to the management and processing of nursing data, information, and knowledge to support the practice of nursing and the delivery of health care in the nursing roles of provider, designer, and manager of care. This course introduces exploration of the influence of health care technologies and how technology reshapes nursing practice and health care information access.

**Prerequisite(s):** Must meet all progression criteria for second-year status in the nursing major as outlined in the University catalog; A grade of “C” or better in ENG 152

**NURS 200 Dosage Calculations**

1 credit, Fall

Provides students with the opportunity to develop the skills and techniques necessary to accurately calculate and administer medication dosages. This course focuses on the mathematical computation of dosage and the psychomotor skills required for preparing and administering a variety of forms of medications. Simulation is utilized to integrate these techniques and to demonstrate the safe delivery of medication dosages across the lifespan.

**Prerequisite(s):** Must meet all progression criteria for third-year status in the nursing major as outlined in the University catalog including a grade of “C” or better in NURS 110 and BIO 240

**NURS 310 Introduction to Clinical Nursing**

5 credits, Fall

Develops and builds technical and interpersonal expertise as the student begins to apply the nursing process with individual clients. The nursing process guides the student in providing client-centered care. Based on newly learned foundational and nursing principles, the student learns to synthesize the mastery of psychomotor skills with their ability to care for clients with a focus on wellness, health maintenance, and health promotion. Inpatient settings will be utilized for student clinical experiences as well as simulated clinical situations in the nursing skills lab. Clinical included (90 hours)

**Prerequisite(s):** Must meet all progression criteria for third-year status in the nursing major as outlined in the University catalog including a grade of “C” or better in NURS 110 and BIO 240

**Fee:** $35
NURS 311 Communication and Cultural Competence in Professional Nursing
4 credits, Fall
Explores therapeutic communication and cultural competence as integral to the therapeutic interpersonal relationship in professional nursing practice. Therapeutic communication strategies are focused on professional application with individuals in health transitions across the lifespan. Theoretical models and assessment tools are utilized to examine the diversity of cultural beliefs, values and practices that impact the health of individuals, families and groups. Legal and ethical concerns are introduced with regard to cultural diversity, health care disparities, and the roles of the professional nurse.
Prerequisite(s): Must meet all progression criteria for third-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in NURS 110 and BIO 240
Fee: $35

NURS 317 Pathophysiology and Pharmacology I
3 credits, Fall
Explores the mechanisms, manifestations, and processes of disease. Common cellular and biochemical abnormalities and disease states in major body systems are reviewed. Emphasis is placed on the gastrointestinal, respiratory, and endocrine body systems along with fluid and electrolyte balance and psychiatric disorders. Principals of disease transmission and immunological responses are integrated, as well pharmacokinetics, pharmacodynamics, and pharmacotherapeutics for treatment of respective disease processes across the lifespan in diverse populations. Knowledge gained in this course prepares students to administer pharmacological agents in the provision of nursing care, to monitor their effects in the individual, and to teach clients and families about disease processes and medication regimens. This is the first in a series of two courses.
Prerequisite(s): Must meet all progression criteria for third-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in NURS 110 and BIO 240

NURS 318 Pathophysiology and Pharmacology II
3 credits, Spring
Explores the mechanisms, manifestations and processes of disease. Common cellular and biochemical abnormalities and disease states in major body systems are reviewed. Emphasis is placed on cancers, immune disorders, cardio-vascular disorders, hematological disorders, renal, and neurologic disorders. Principals of disease transmission and immunological responses are integrated, as well pharmacokinetics, pharmacodynamics, and pharmacotherapeutics for treatment of respective disease processes across the lifespan in diverse populations. Knowledge gained in this course prepares students to administer pharmacological agents in the provision of nursing care, to monitor their effects in the individual, and to teach clients and families about disease processes and medication regimens. This is the second in a series of two courses.
Prerequisite(s): Must meet all progression criteria for third-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in NURS 110 and BIO 240

NURS 330 Health Assessment
3 credits, Fall
Develops data collection and physical assessment skills across the life span. Clinical application in the clinical lab setting will be emphasized.
Prerequisite(s): Must meet all progression criteria for third-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in NURS 110 and BIO 240
Fee: $35

NURS 337 Psychiatric and Mental Health Nursing
4 credits, Spring
Explores psychiatric and mental health nursing from the perspectives of provider and client. Students engage in self-analysis prior to the study of psychiatric disorders and how these disorders are biologic and/or psychodynamic in nature. The application of neurobiological, psychological, sociological and spiritual theories to the delivery of optimal care is emphasized. Current evidence-based psychiatric nursing practices, the role of the advanced practice psychiatric nurse and ethical/legal implications will be explored. Clinical included (45 hours).
Prerequisite(s): Must meet all progression criteria for third-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in NURS 200, NURS 310, NURS 311, NURS 317, and NURS 330
Fee: $35

NURS 338 Care of the Childbearing Family
4 Credits, Spring
Explores the application of the nursing process to families during the childbearing years. The obstetrical health/illness continuum is explored from a developmental perspective in the classroom and in a variety of inpatient settings. Nursing research and current health issues and trends pertinent to this clinical practice will be examined. Clinical included (45 hours).
Prerequisite(s): Must meet all progression criteria for third-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in NURS 200, NURS 310, NURS 311, NURS 317, and NURS 330
Fee: $35

NURS 360 Medical/Surgical Nursing I
4 Credits, Spring
Explores nursing care as it is provided to adults in both inpatient and outpatient environments; the focus of care is on the individual with medical and surgical problems. Knowledge of pathophysiology, pharmacology, and the application of evidenced-based nursing research are incorporated into the planning and implementation of nursing care. Written assignments, classroom interactions, and clinical experiences allow the student to develop meaningful ways to provide care using in-depth critical thinking and planning skills. Clinical included (90 hours).
Prerequisite(s): Must meet all progression criteria for third-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in NURS 200, NURS 310, NURS 311, NURS 317, and NURS 330
Fee: $35

NURS 365 Independent Research in Nursing
3 Credits, Fall or Spring (offered as needed)
Provides an opportunity for nursing majors to conduct independent research in nursing on-campus under the supervision of a nursing faculty member. This course may be repeated for credit. This course cannot be used as a substitute for any required course(s) in the nursing program.
Prerequisite(s): Must meet all progression criteria for fourth-year status in the nursing major as outlined in the University catalog, including a grade of "B+" or better in NURS 360, and a grade of "C" or better in all other required 300-level courses; permission of the faculty member who will be supervising the research; permission from the department chair

NURS 405 Care of Vulnerable Populations in the Community
4 credits, Fall
Provides an opportunity to apply the nursing process to vulnerable populations in the community. Specific theoretical perspective and unique nursing roles within each specialty in community health will be explored. The course includes community assessment and planning, economic issues in health
care, epidemiology, environmental health, health promotion, bioterrorism, and global health. Learning experiences occur in the classroom and in a variety of community settings such as schools, occupational health centers and community-based clinics. Clinical included (90 hours).

**Prerequisite(s):** Must meet all progression criteria for fourth-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in all 300-level nursing courses.

**Fee:** $35

### NURS 409 Care of Children and Families

**4 credits, Fall**

Provides the opportunity to apply the nursing process to children and their families utilizing a developmental perspective in the classroom and clinical setting. The meaning of caring for children and their families is explored throughout the pediatric health and illness continuum in a variety of inpatient and outpatient settings, as well as through the use of high-fidelity simulations and scenarios. Nursing research and current health issues, ethical dilemmas, and trends pertinent to this clinical practice are examined. Clinical included (45 hours).

**Prerequisite(s):** Must meet all progression criteria for fourth-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in all required 300-level courses.

**Fee:** $35

### NURS 435 Professionalism in Nursing

**3 credits, Fall**

Examines nursing leadership and management within the United States health care system, including evolving changes in a broad socioeconomic and cultural context. Students will analyze the role of the professional nurse as it relates to that system and its current issues and trends. Application of the nursing process utilized in leadership roles will be explored and impact of professional nursing upon society as a whole will be examined.

**Prerequisite(s):** Must meet all progression criteria for fourth-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in all 300-level nursing courses.

### NURS 437 Introduction to Nursing Research

**3 credits, Spring**

Introduces students to the research process in nursing. Methods of gathering, analyzing and interpreting data commonly used in nursing research are discussed.

**Prerequisite(s):** Must meet all progression criteria for fourth-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in all required 300-level courses.

### NURS 440 Leadership Practicum in Contemporary Nursing Practice

**4 credits, Spring**

Provides students with the opportunity to explore a variety of experiences essential to the transition from nursing student to nursing professional: leadership behaviors, independent clinical practice, and nursing research. Mentored clinical practicum facilitates the application of the leadership theory base to skilled clinical practice. Clinical seminars provide a forum for dialogue, reflection on clinical care, and analysis of experiential learning. Clinical included (135 hours).

**Prerequisite(s):** Must meet all progression criteria for fourth-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in all required 300-level courses.

**Fee:** $35

### NURS 450 Special Topics in Nursing

**2 credits, Spring**

Explores concepts and issues not covered in depth in other required nursing courses. This elective course builds on the methodological skills of NURS 435. Students focus on deep exploration of issues important in the health care arena and the nursing profession, which may include such topics as peri-operative nursing, alternative health care approaches, women’s health issues, variations in healthcare systems, and gerontics. Students must participate at a high level and produce papers and other presentations.

**Prerequisite(s):** Must meet all progression criteria for fourth-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in all required 300-level courses.

**Fee:** $35

### NURS 455 Case Studies and Problem Oriented Learning

**2 credits, Spring**

Combines self-directed learning techniques, problem oriented learning, and faculty-guided instruction to aid senior nursing students in achieving success when taking the NCLEX (RN licensing exam). As active participants in learning, students follow a planned, organized, and step-wise course of study which includes, diagnostic testing in an automated format, focused content review and case studies, test-taking strategies, and simulated NCLEX exams. The course is designed to assist students with synthesizing nursing knowledge and to prepare students for the rigorous testing and requirements for obtaining licensure. There is also a particular emphasis on test-taking strategies.

**Prerequisite(s):** Must meet all progression criteria for fourth-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in all required 300-level courses.

### NURS 460 Medical/Surgical Nursing II

**4 credits, Fall**

Explores nursing care as it is provided to adults in inpatient environments; the focus of care is on the individual with acute and emergent medical surgical problems. Knowledge of pathophysiology, pharmacology, and the application of evidenced-based nursing research are incorporated in the planning and implementation of nursing care. In-depth critical thinking and judgment skills are demonstrated. Clinical included (45 hours).

**Prerequisite(s):** Must meet all progression criteria for fourth-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in all required 300-level courses.

**Fee:** $35

### NURS 470 Medical/Surgical Nursing III

**6 credits, Spring**

Focuses upon individuals and groups of clients experiencing complex medical surgical problems which require skilled and sophisticated nursing care. Student learning opportunities will occur in the classroom and in selected complex care clinical environments. Student learning experiences include guided and independent application of the nursing process as applied to adults with diverse belief systems and cultural backgrounds. Faculty-directed clinical practices focus upon the integration of nursing knowledge and refinement of medical surgical nursing skills, with incorporation of research activities. Clinical included (90 hours).

**Prerequisite(s):** Must meet all progression criteria for fourth-year status in the nursing major as outlined in the University catalog including a grade of "C" or better in all required 300-level courses.

**Fee:** $35

---

**One-Credit Option**

Some classes have a one-credit option (OCO) associated with them. If students take this option, they will have the benefit of learning experiences beyond the classroom. These OCO's are...
faculty-led and are designed and offered in a variety of disciplines.

### Paralegal Studies

Brown School of Business and Leadership  
Department of Legal Studies  
Program Coordinator: Hillary Michaud, J.D., CPA  

**Paralegal Studies Program Description**

Stevenson University’s paralegal studies program was the first in the state, and one of the first in the nation, to be approved by the American Bar Association. Paralegals must be intelligent, have logical and analytical minds, possess organizational skills, and pay attention to detail. Paralegals may not provide legal services directly to the public, except as permitted by law. However, working under the supervision of an attorney, paralegals are vital members of the legal team. They perform such functions as:

- Legal research and writing
- Conduct factual investigations
- Interview clients and witnesses
- Draft pleadings and motions
- Manage trial preparation and litigation support
- Draft contracts and real estate documents
- Administer estates and guardianships
- Apply for intellectual property registrations
- Prepare bankruptcy schedules and tax forms

The ultimate goal of the paralegal studies program is to fully prepare students for employment by law firms, corporate law departments, government agencies, legal aid providers, and other employers in the legal profession. Students gain an extensive knowledge of numerous areas of law and practical experience to enable them to perform legal tasks in specific law specialty areas. By taking a combination of law and liberal arts courses each semester, students are able to pursue their legal interests immediately and develop skills gradually.

Courses are offered weekdays and evenings. Students earn a bachelor’s degree in paralegal studies. Students may select a sequence of courses that permits them to focus on a specific area within the paralegal studies curriculum, such as corporate law, estate administration, real estate law, or litigation.

Students perform an internship, typically in the sophomore year, and complete a paralegal capstone course in their senior year. Students may participate in a law clinic, as an elective course in their major, and gain experience by providing pro bono paralegal services in the community.

The paralegal studies degree may be completed in an accelerated format by qualifying adult learners. This accelerated delivery option is offered through the School of Graduate and Professional Studies. The School of Graduate and Professional Studies Catalog for more information about the accelerated delivery option and student eligibility requirements.

**Paralegal Studies Program Outcomes**

Upon completion of the Bachelor of Science in Paralegal Studies, graduates will be able to:

1. Conduct research using all appropriate resources to identify and obtain relevant legal authority.
2. Compose documents based on factual investigation, legal research, and analysis to inform and/or persuade.
3. Apply legal terminology, principles of law, and rules of ethical legal practice to the performance of paralegal services.
4. Operate as productive and professional members of a legal services delivery team using appropriate communication, technology, and time-management skills.
5. Perform substantive legal work under the direction of an attorney, as permitted by law.

**Paralegal Studies Program Policies**

Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a “C” in all major and Stevenson Educational Experience (SEE) courses. A student, regardless of major, will be permitted to advance to the next course without earning a grade of “C” or better in the prerequisite course(s). When a grade below “C” is earned in a major course, the student must repeat that course.

Paralegal studies majors who do not successfully complete a LAW course with a grade of “C” or better after a third attempt will not be allowed to continue in the paralegal studies program.

Students must take a minimum of 18 credits or the equivalent of legal specialty courses at Stevenson University to earn a degree in paralegal studies. A legal specialty course is a LAW course that covers substantive law or legal procedures or process, has been developed for paralegals, emphasizes practical paralegal skills, and meets the American Bar Association’s (ABA) instructional methodology requirements. The paralegal studies program offers traditional, hybrid, and online delivery of legal specialty courses approved by the ABA, as well as other LAW courses. Students must take a minimum of ten semester credits or the equivalent of legal specialty courses, and may take all legal specialty and other LAW courses, through traditional classroom instruction at Stevenson University.

Credit for equivalent law courses considered legal specialty courses under the ABA Guidelines is accepted for students transferring from paralegal programs, whether ABA-approved or not. If a student has earned credit from an institution that is not ABA-approved, the program director for traditional students or the Associate Dean of Business Programs for GPS accelerated students reviews the description of the course content, the course syllabus (if necessary), and information about the institution before credit is transferred for equivalent law courses. A maximum of 24 credits will be accepted for equivalent law courses.

Although Stevenson University policy is that internships performed at other institutions do not transfer, there is an exception for students who perform paralegal internships with ABA-approved paralegal programs at other institutions. If a student successfully completes a three-credit internship class at an ABA-approved paralegal program, the internship requirement (LAW 225) can be waived and the student will take another three credit legal specialty course (upper- or lower-level) in its place.

Some students work as paralegals while completing the paralegal studies program. These students may apply for a waiver of the internship requirement (LAW 225). Paperwork from the student and the employer is required to verify that the student performed paralegal tasks and worked a minimum of 135 hours. If approved, the student will take another three credit legal specialty course (upper- or lower-level) in place of the internship class. Accelerated (GPS) students working full-time, not as paralegals, satisfy the internship requirement by completing a virtual internship as a paralegal, supervised by the School of Graduate and Professional Studies. This three credit virtual internship class is considered non-legal specialty.

The award of legal specialty credits through examination or portfolio is monitored by the paralegal program director to ensure that the quality and integrity of the paralegal program are maintained. A maximum of six legal specialty credits can be earned through examination or portfolio. To receive credit for prior learning for a legal specialty course through examination or portfolio, the examination or portfolio must be evaluated by a faculty evaluator, under the supervision of the program.
director. In conducting this evaluation, the faculty evaluator will ensure that the credit sought can be classified as legal specialty, the student meets the course objectives and practical skills to be developed for the course for which credit is sought, the student meets the needs of the legal community the program serves, and the student’s work is comparable to course work offered within the paralegal studies program.

**Paralegal Studies Program Requirements**

The courses listed below are required for completion of the bachelor’s degree in paralegal studies. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

Typically, students take lower-level (100- and 200- level) courses in their freshman or sophomore years, and upper-level (300- and 400- level) courses in their junior or senior years.

**Paralegal Studies Other Options**

**Minor:**

A minor is available in legal studies. The minor in legal studies is not intended to prepare students to work as paralegals and is not approved by the American Bar Association. All course prerequisites must be met to be eligible to take the selected course for a minor. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.

**BS/MS option:**

The BS/MS option is available for students majoring in paralegal studies who wish to combine their bachelor’s coursework with work toward a master’s degree in one of Stevenson’s graduate programs. Students choosing this option may earn their master’s degree in as little as one year after their bachelor's degree. Interested student must formally apply for entrance into a BS/MS option in their junior year. Once admitted into this program, students develop an educational plan in consultation with their undergraduate and graduate advisors. For more information on this program see the School of Graduate and Professional Studies catalog.

**Pre-Law Option**

Stevenson University has no prescribed pre-law program. Pre-law programs are generally programs of advisement, working with students to select appropriate courses that develop critical thinking and analytical skills. Many students find Stevenson University’s paralegal studies program, because it is a law program, to be an excellent pre-law option and many of our graduates each year go on to law school and become lawyers. Paralegal students can combine law classes with a series of designated liberal arts courses that develop critical thinking, writing, and analytical skills. Paralegal studies program faculty are experienced lawyers and judges. Stevenson University has a dedicated pre-law advisor within the paralegal faculty who is an attorney and can guide students in LSAT preparation and law school admissions procedures. An upper-level law elective is available to help prepare students for the Law School Admissions Test.

**Paralegal Second Bachelor’s Degree**

**Program Description**

A second bachelor’s degree is available in paralegal studies, which includes 34 credits of LAW courses with at least 21 legal specialty credits required. Consult the website for additional information and for program requirements.

**Paralegal Studies Course Descriptions**

**LAW 102 Introduction to Legal Studies**

*3 credits, Fall and Spring*

Provides an overview of the functions of our legal system and the sources and nature of our laws. This course introduces many substantive and procedural areas of law. This course also examines the legal profession, the role of the paralegal, and the regulation of attorney and paralegal conduct. Students will begin identifying career goals. This course provides an in-depth examination of legal ethics and introduces students to the types of ethical dilemmas they may face in the work force and to methods for researching the answers to and resolving ethical dilemmas. Legal specialty course (LSC)

**Prerequisite(s):** A grade of "C" or better in ENG 151 (may be taken concurrently)

**LAW 112 Torts**

*3 credits, Spring*

Provides an introduction to the broad area of civil wrongs and their appropriate remedies. Tort Law principles of liability for personal, property, and economic harm, negligence (including professional malpractice), strict liability (including products liability), and intentional torts will be covered. Affirmative defenses and limitation of duties including assumption of the risk, contributory negligence, comparative negligence, immunity, and limited liability of property owners will also be reviewed. Legal specialty course (LSC)

**Prerequisite(s):** A grade of "C" or better in LAW 102 and ENG 151 (may be taken concurrently)

**LAW 114 Estates and Trusts**

*3 credits, Fall*

Introduces students to the laws governing wills and estates. Topics covered include will drafting, inheritance through testacy and intestacy, the role of personal representatives in estate administration, formal and informal probate procedures, and tax ramifications of estate planning. The course also provides an overview of techniques for gathering facts, listing assets, and drafting probate documents and reports. Students will also gain first-hand knowledge of preparing wills and applying probate procedures in opening and closing an estate. Legal specialty course (LSC)
Prerequisite(s): A grade of "C" or better in LAW 102 and ENG 151 (may be taken concurrently)

**LAW 120 Contract Law**
3 credits, Fall
Provides a detailed introduction to the common law of contracts and the Uniform Commercial Code. Examines such topics as the bases for enforcing promises, the bargaining process, contract formalities, enforcement, breach, defenses, remedies, and assignment and delegation. Drafting skills are introduced and developed. Legal specialty course (LSC)
Prerequisite(s): A grade of "C" or better in LAW 102 and ENG 151 (may be taken concurrently)

**LAW 125 Legal Research and Writing I**
3 credits, Spring
Provides an introduction and overview to the methods of legal research and legal writing. Students will examine the various sources of law and categories of research materials. Students will be introduced to writing citations and learn how to develop a research plan, how to analyze cases and statutes, and how to use the law library. Basic legal writing skills will be covered as well as computer-assisted legal research. Legal specialty course (LSC)
Prerequisite(s): A grade of "C" or better in LAW 102 and ENG 151

**LAW 130 Business Organizations Law**
3 credits, Spring
Examines the nature of sole proprietorships, partnerships, limited partnerships, limited liability companies, corporations, and S corporations. Emphasis will be placed on the drafting of articles of incorporation and articles of organization, partnership agreements, certificates of limited partnership, corporate minutes and consents, and preparation of various governmental filings that accompany corporate, LLC and partnership formation. Legal specialty course (LSC)
Prerequisite(s): A grade of "C" or better in LAW 102 and ENG 151 (may be taken concurrently)

**LAW 171 Constitutional Law**
3 credits, Fall or Spring
Introduces the Constitution with an emphasis on the Bill of Rights. Examination of criminal and civil constitutional rights, including the underlying legal principles governing searches and seizures, self-incrimination, due process, and equal protection of the law, will be included.
Prerequisite(s): A grade of "C" or better in LAW 102 and ENG 151

**LAW 102A Business Law**
3 credits, Fall and Spring
Examines the legal aspects of business relationships, contracts, sales and Uniform Commercial Code, agency, and business organizations law. Restricted to non-paralegal majors.
Prerequisite(s): None

**LAW 210 Legal Research and Writing II**
3 credits, Fall
Continues the examination of the methods of legal research and legal writing. Students will examine in depth the primary and secondary state and federal materials. Students will learn to update and validate their research. Emphasis will be placed on creating a successful research strategy. Advanced computerized legal research will be incorporated into research assignments. Students will analyze and synthesize the results of their research and incorporate their research into forms of persuasive legal writing. Legal specialty course (LSC)
Prerequisite(s): A grade of "C" or better in LAW 125

**LAW 215 Criminal Law**
3 credits, Fall or Spring (offered as needed)
Examines crimes and offenses, criminal procedures and constitutional guarantees of accused persons, jurisdiction of courts, preparation for trial, and appellate and post-conviction procedures. Legal specialty course (LSC)
Prerequisite(s): A grade of "C" or better in LAW 102 and ENG 151

**LAW 216 Civil Litigation and Pleading**
3 credits, Spring
Provides a basic understanding of civil litigation and the functions and operations of the state and federal court systems. Includes selection of the proper court, court jurisdiction, pleadings and other court documents, discovery, rules of evidence, trial tactics, and principles of litigation. Students will study the rules of procedure for Maryland courts. Legal specialty course (LSC)
Prerequisite(s): A grade of "C" or better in LAW 112, LAW 120 and LAW 125

**LAW 217 Rules of Evidence**
3 credits, Fall or Spring (offered as needed)
Examines the Federal Rules of Evidence and how they are applied before and during trial. Students review the evidentiary rules of relevance; hearsay and hearsay exceptions; authentication and the introduction of writings, recordings, and photographs; competence and testimony of lay and expert witnesses; privileges; judicial notice; and presumptions. Students learn how to prepare exhibits for trial, examine witnesses, introduce documentary evidence, and use evidentiary objection. Legal specialty course (LSC)
Prerequisite(s): A grade of "C" or better in LAW 102 and ENG 151

**LAW 220 Real Estate Transactions**
3 credits, Fall or Spring (offered as needed)
Studies the nature and law of real property, including rights and interests, forms of ownership, transfer of title deeds, contracts of sale, leases, mortgages, deeds of trust, recording of documents, and common types of real estate transactions. Legal specialty course (LSC)
Prerequisite(s): A grade of "C" or better in LAW 102 and ENG 151

**LAW 225 A Internship: Part I**
1 credit, Fall
Constitutes on-campus workshops and seminars in preparation for student workplace internships. Legal specialty course (LSC) Restricted to paralegal studies majors.
Prerequisite(s): A grade of "C" or better in ENG 151 or HON 171, ENG 152 or ENG 202, and LAW 125

**LAW 225 B Internship: Part II**
2 credits, Spring
Consists of 135 hours of supervised work in a law office or legal department as a paralegal. Legal specialty course (LSC) Restricted to paralegal studies majors.
Prerequisite(s): A grade of "C" or better in LAW 225A, LAW 210, and 15 additional law credits

**LAW 256 Domestic Relations**
3 credits, Fall or Spring (offered as needed)
Studies the law relating to the family, including adoption, child support, custody, spousal support, guardianship, marital property, and the requirements for the formation and termination of a marriage. Legal specialty course (LSC)
Prerequisite(s): A grade of "C" or better in LAW 102 and ENG 151
LAW 259 Children and Family Law  
3 credits, Fall and Spring  
Examines laws and regulations related to the health and welfare of children. Topics include child custody and visitation, child abuse and neglect, consent to treatment, laws related to child care settings, and special education. Restricted to non-paralegal majors.  
Prerequisite(s): A grade of "C" or better in ENG 151

LAW 260 Juvenile Justice  
3 credits, Fall or Spring (offered as needed)  
Examines the legal problems faced by children within the family, at school, and in the criminal justice system. An in-depth analysis will be made of the issue of delinquency, including theories of delinquency, the impact of gender, family, peers, schools and drug use on delinquency, and policies and programs designed to prevent delinquency. Students will develop a working knowledge of the juvenile justice system, including police, court and corrections processes and procedures.  
Prerequisite(s): A grade of "C" or better in ENG 151

LAW 300 Elderlaw  
3 credits, Fall or Spring (offered as needed)  
Provides a practical approach to the legal functions inherent in an elderlaw practice. This course includes an overview of the medical and social issues affecting seniors and their families, particularly advanced health care directives, management of assets, passing assets upon death, federal gift and estate taxes, and long-term care financing. An understanding of the legislation, regulation, and policy determinations governing elderlaw issues, presentation and evaluation of planning approaches and tools frequently used in elder law, instruction in the preparation and use of documents necessary to effectuate elderlaw plans, ethical considerations for families, and the role of other professionals in elderlaw planning will also be considered. Legal specialty course (LSC)  
Prerequisite(s): A grade of "C" or better in LAW 114 (may be taken concurrently)

LAW 302 LSAT Review  
3 credits, Spring (offered as needed)  
Provides students in all majors with the opportunity to think critically, strategically, and efficiently in order to understand the four multiple-choice type questions commonly found on the LSAT. Students will be required to take simulated LSAT exams, answer actual LSAT questions from recent examinations, and learn test-taking strategies. Students will also draft a well-written personal statement, suitable for inclusion in a law school application.  
Prerequisite(s): A grade of "C" or better in LAW 210 or a 200-level writing course, and junior or senior status

LAW 305 Special Topics in Law  
3 credits, Fall or Spring (offered as needed)  
Examines areas of law of current interest not covered in other LAW courses. Emphasis will be placed on developing critical thinking and analytical skills through the study of special legal topics. Special topics will be selected based on current events, developments in technology, changes in the law, and employer needs. The course topic will vary, and will be specified in the class schedule for the term offered. This course may be repeated for credit if topics are different.  
Prerequisite(s): A grade of "C" or better in LAW 210

LAW 308 Business Law and Legal Responsibilities I  
3 credits, Fall  
Covers some legal aspects of business, including an overview of the court system, contracts, agency and sales, property, the Uniform Commercial Code (UCC), and government regulation of business, as well as professional responsibility for accountants. This course helps prepare students for the law portion of the CPA examination. Restricted to accounting majors.  
Prerequisite(s): A grade of "C" or better in ACC 202 (may be taken concurrently)

LAW 309 Business Law and Legal Responsibilities II  
3 credits, Spring  
Reviews and further studies contracts, debtor-creditor relationships, agency, the Uniform Commercial Code (UCC), negotiable instruments, commercial paper, business organizations, suretyship, and government regulation of business. Ethics and professional responsibility are emphasized. This course helps prepare students for the law portion of the CPA exam. Restricted to accounting majors.  
Prerequisite(s): A grade of "C" or better in ACC 202 and LAW 308

LAW 312 Advanced Business Organizations  
3 credits, Fall or Spring (offered as needed)  
Examines the essential documentation of business entity formation and operation including organizational documents, limited partnership agreements, articles of transfer, articles of dissolution, articles of merger, various tax elections, buy-sell agreements, and various types of minutes. Further, students will examine the fiduciary relationships both within various entities and their management’s relationships with and duties toward others, including investors, lenders, employees, the government, consumers and society. Practical and intellectual appreciation of business forms is gained through an approach that considers the impact of current events on public confidence in business organizations and their management. Legal specialty course (LSC)  
Prerequisite(s): A grade of "C" or better in LAW 130

LAW 315 Advanced Estate Administration  
3 credits, Fall or Spring (offered as needed)  
Examines the administration of a complex decedent’s estate, preparation of all probate documents, including inventory and accounts, problems of valuation and appraisal of assets, preparation of federal estate tax return, and study of Maryland inheritance and estate taxation. Legal specialty course (LSC)  
Prerequisite(s): A grade of "C" or better in LAW 114

LAW 320 Bankruptcy Law  
3 credits, Fall or Spring (offered as needed)  
Examines voluntary and involuntary proceedings, functions of the trustee, secured and unsecured debts and claims, exemptions, and discharge of debts, voidable transactions, preparation of petitions, schedules and other documents, and comparison with insolvency proceedings and compositions of creditors. Legal specialty course (LSC)  
Prerequisite(s): A grade of "C" or better in LAW 130

LAW 322 Criminal Investigation  
3 credits, Fall or Spring (offered as needed)  
Provides students the opportunity to study the principles and procedures employed in the investigation of crime. Emphasis is placed on the investigation of specific crimes, identification of information sources, and the procedures required for the proper handling of evidence.  
Prerequisite(s): A grade of "C" or better in LAW 204

LAW 325 Employment Law  
3 credits, Fall or Spring (offered as needed)  
Provides an overview of the law of the workplace. This course examines the impact on the employer-employee relationship and provides guidance within the environment of employment law. It also examines employment law as the crossroads of several legal disciplines: contract, tort, and agency, common law, regulatory, and statutory law, as well as social, economic, and political policy. Legal specialty course (LSC)
Prerequisite(s): A grade of "C" or better in LAW 130

LAW 335 Intellectual Property Law
3 credits, Fall or Spring (offered as needed)
Covers the legal principles and rules regarding the law of patents, trademarks, copyrights, and trade secrets. Students will examine statutes and case law and apply the principles to hypothetical case scenarios. Emphasis is placed on the skills required of paralegals who practice in this area, including preparing copyright and trademark applications as well as using computer technology in preparing applications, maintaining records, performing trademark and patent searches and protecting confidential information. Legal specialty course (LSC) Prerequisite(s): A grade of "C" or better in LAW 114

LAW 340 Income Taxation
3 credits, Fall or Spring (offered as needed)
Examines the general principles of taxation of individuals, corporations, partnerships, and estates and trusts, with emphasis on points of tax law relating to individuals. Legal specialty course (LSC) Prerequisite(s): A grade of "C" or better in LAW 102 and ENG 151

LAW 345 Sports Law
3 credits, Fall or Spring (offered as needed)
Examines the legal aspects of professional and amateur sports, including topics such as sports agents, sports contracts, sports torts and crimes, women’s issues, disability issues, antitrust, intellectual property, and alternative dispute resolution in sports. Emphasis will be placed on applying students’ business and legal knowledge specifically to sports law issues. Prerequisite(s): A grade of "C" or better in LAW 216 (for paralegal majors) or LAW 208 or LAW 308 (for business and accounting majors)

LAW 351 Litigation Practice
3 credits, Fall (offered as needed)
Provides litigation practice through preparation for and participation in a mock trial. Students develop effective methods for analyzing and preparing cases for presentation in trial. In particular, this course teaches students essential skills in understanding and applying the rules of evidence, preparing exhibits for trial, and giving direct and cross examinations, opening statements, and closing arguments at trial. The focus on the "practice" aspects of litigation develops students’ oral presentation skills and professionalism, enabling them to be more prepared to enter the job market. Legal specialty course (LSC) Prerequisite(s): A grade of "C" or better in LAW 216

LAW 352 Litigation Technologies
3 credits, Fall or Spring (offered as needed)
Studies the implementation and manipulation of litigation support computer systems that are utilized within the legal environment for the collection, organization, and management of documents. Students will obtain hands-on experience in the use of the most prevalent litigation support software packages. Legal specialty course (LSC) Prerequisite(s): A grade of "C" or better in LAW 216

LAW 361 Immigration Law
3 credits, Fall or Spring (offered as needed)
Examines the laws, policies and procedures pertaining to immigration, naturalization and citizenship. Topics include legal entry into and residence in the United States, qualifying for citizenship, Visas, amnesty, asylum and refugees, deportation, and post 9/11 issues. Course topics are designed to meet specific employer needs in the field of immigration law, both in the private and public sectors. Preparation of legal documents and immigration forms is emphasized. Legal specialty course (LSC) Prerequisite(s): A grade of "C" or better in LAW 216

LAW 365 Health Care Law
3 credits, Fall or Spring (offered as needed)
Studies the framework of regulation of the health care arena, including the credentialing of health care professionals and how health insurance can define access to health care. Analysis of fraud and abuse legislation and regulations, including application of the law to hypotheticals, is covered. A review of the effect of antitrust legislation on health care business transactions is also included. The laws of birth and death will be examined. Prerequisite(s): A grade of "C" or better in LAW 210

LAW 375 Environmental Law
3 credits, Fall or Spring (offered as needed)
Studies the major environmental statutes and regulations affecting the operations of business and industry. Topics include water pollution control, air pollution control, PCBs, asbestos, hazardous wastes, and other public health and safety regulations. Students will discuss the process developed by federal and state agencies for compliance with these regulations and the potential liabilities faced by employers and businesses. Legal specialty course (LSC) Prerequisite(s): A grade of "C" or better in LAW 210

LAW 380 Mediation and Negotiation
3 credits, Fall or Spring (offered as needed)
Studies the role of mediation in resolving conflicts. This course includes an introduction to the skills and procedures needed to settle disputes and an examination of the dimensions and benefits of mediation and its use within the field of alternative dispute resolution. Prerequisite(s): A grade of "C" or better in ENG 151

LAW 390 Law Clinic
3 credits, Fall and Spring
Integrates the classroom experience with practice as a paralegal. Clinic paralegal students participate in a wide range of clinical activities under the close and supportive supervision of a faculty attorney. Students learn what it means to be a paralegal by working with the economically disadvantaged and under-represented persons in the community and by analyzing this experience. While working with clients in various areas of law (such as tax law, family law, and bankruptcy law), students will explore the substantive areas of law and its processes. Issues of professional responsibility are also considered. Students will meet periodically with other clinic students and the faculty attorney to discuss the areas of substantive law, the paralegal skills they developed, and any ethical issues they encountered. This course may be repeated one time for credit. Prerequisite(s): A grade of "C" or better in LAW 225

LAW 404 Advanced Constitutional Law
3 credits, Fall or Spring (offered as needed)
Analyzes the Fourteenth Amendment rights of due process and equal protection. This course also includes examination of principles involving the Commerce Clause and Commercial Free Speech and review of recent decisions by the Supreme Court that significantly impact the major areas of criminal and civil law. Prerequisite(s): A grade of "C" or better in LAW 204
LAW 423 Advanced Real Estate
3 credits, Fall or Spring (offered as needed)
Expands on the principles of real property law into the more sophisticated areas of conveyancing, mortgage and equity financing, and forms of property ownership, preparing for settlements, recording of documents, and applications for title insurance. Residential and commercial transactions, including leasing, cooperatives and condominiums, timesharing, syndications, and tax implications are covered. Students focus on the distinctions among specific financial institutions, appraisers, real estate agents, and mortgage makers and their roles in the real estate market. Legal specialty course (LSC)
Prerequisite(s): A grade of “C” or better in LAW 223

LAW 450 Administrative and Government Law
3 credits, Fall or Spring (offered as needed)
Examines administrative law and policy at the federal and state levels. This course emphasizes how the administrative process functions in theory and in practice from the perspective of the lawyer and the paralegal. This course also includes rulemaking, both informal and formal, adjudication at the administrative level, judicial review, Freedom of Information and Public Information Act, and Federal and Maryland Administrative Procedure Acts. Legal specialty course (LSC)
Prerequisite(s): A grade of “C” or better in LAW 216

LAW 462 Advanced Contract Drafting
3 credits, Fall or Spring (offered as needed)
Instructs students in the skill of contract drafting. Students will learn the different parts of a contract and how to draft each part, to write provisions that are clear and unambiguous, then to organize the parts into a cohesive contract. Reviewing and commenting on contracts drafted by others will be studied. Students will consider ethical issues in drafting contracts. Legal specialty course (LSC)
Prerequisite(s): A grade of “C” or better in LAW 120 and LAW 210

LAW 470 International Business Law
3 credits, Fall or Spring (offered as needed)
Examines various aspects of international business law, including multi-national enterprises, trade in goods, services and labor, money and banking, foreign investment, sales, intellectual property, transportation, financing, taxation, environmental protection, and dispute resolution.
Prerequisite(s): A grade of “C” or better in LAW 130 and LAW 210 (for paralegal majors) or LAW 208 or LAW 308 (for business and accounting majors) and senior status.

LAW 480 Paralegal Capstone
3 credits, Fall and Spring
Serves as a capstone course employing a broad range of substantive legal skills including legal research, legal writing, analytical reasoning, oral communication, professionalism, and technology. Through student projects in transactional law and/or litigation practice, students demonstrate their mastery of the paralegal curriculum by performing legal and administrative tasks required for paralegal employment. Students’ professional portfolios are completed. Legal specialty course (LSC)
Prerequisite(s): A grade of “C” or better in LAW 210 and senior status

Philosophy

School of Humanities and Social Sciences
Stevenson University does not currently offer a bachelor’s degree in philosophy; however, students interested in pursuing this field of study may do so through the flexible major offered in interdisciplinary studies. Students who wish to develop a philosophy focus should consult the program coordinator of interdisciplinary studies for more information.

A minor in philosophy is available. Please see the humanities and public history department chairperson for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog. Course descriptions for philosophy are listed in this section.

Philosophy Course Descriptions

PHIL 101 Introduction to Philosophy
3 credits, Fall and Spring
Explores the nature of philosophical inquiry that underlies all pursuits of knowledge and self-knowledge. In particular, this course will study the thinking of at least three different philosophers and three different branches of philosophy (e.g., metaphysics, ethics, epistemology, or aesthetics). Approaches to such study will vary with course instructor.
Prerequisite(s): ENG 151 or equivalent (may be taken concurrently)

PHIL 104 Logic
3 credits, Fall and Spring
Studies the principles and methods used to distinguish good and bad reasoning. The goal of this course is better reasoning. To this end, students critically examine and attempt to understand key elements of both informal and formal logic.
Prerequisite(s): ENG 151 or equivalent (may be taken concurrently)

PHIL 215 Ethics
3 credits, Fall and Spring
Surveys historical and contemporary moral problems. Students study several ethical theories developed in response to these problems and analyze these theories in relation to concrete situations.
Prerequisite(s): A grade of “C” or better in ENG 152 or equivalent, second-year status or higher, or permission of the instructor

PHIL 220 Applied Philosophy and Community Service
3 credits, Fall or Spring
Investigates a particular area of applied philosophy in conjunction with some form of community service directly related to that area. Under the guidance of the instructor, students choose service projects along with reading lists of the relevant philosophical literature. A minimum of 30 hours of community service is required, as well as written assignments and a final presentation. The class meets one hour weekly for group discussion of projects. This course may be repeated for credit if the community service projects are different.
Prerequisite(s): A grade of “C” or better in ENG 152 or equivalent, second-year status or higher, or permission of the instructor

PHIL 320 Aesthetics
3 credits, Fall and Spring
Examines and analyzes the historical problems in the philosophy of art. Topics include the nature and function of the artist, the nature of the object of art, aesthetic value, aesthetic experience, aesthetic attitude, and aesthetic judgment (criticism).
Prerequisite(s): A grade of “C” or better in ENG 152 or equivalent, third-year or fourth-year status, or permission of the instructor

PHIL 360 Philosophical Topics
3 credits, Fall or Spring
Studies specific themes, schools, or problems of philosophical interest. Attention is given to different interpretations and
arguments based on major philosophers or contemporary philosophical approaches and different influences of a philosophical school or contrasting solutions to a problem. This course considers the effect of the topics on contemporary thinking. This course may be repeated for credit if topics are different.

**Prerequisite(s):** A grade of "C" or better in ENG 152 or equivalent, third-year or fourth-year status, or permission of the instructor

### PHIL 370 Philosophical Figures

3 credits, Fall or Spring

Studies one or two major figures in the history of philosophy and their primary works. The course discusses the relation of the philosopher(s) to other philosophers, their attempts at explaining or understanding perennial ideas, and their importance and influence on other thinkers. This course may be repeated for credit if figures are different.

**Prerequisite(s):** A grade of "C" or better in ENG 152 or equivalent, third-year or fourth-year status, or permission of the instructor

### PHIL 415 Professional Ethics

3 credits, Fall and Spring

Reviews traditional ethical theories, which are then applied to more specialized topics in professional ethics. Readings consist of case studies together with articles on ethical theory. Students who have taken PHIL 416 are not eligible to take PHIL 415.

**Prerequisite(s):** A grade of "C" or better in ENG 152 or equivalent, third-year or fourth-year status, or permission of the instructor

### PHIL 416 Business Ethics

3 credits, Fall and Spring

Explores ethical theories, critically and historically, as they relate to contemporary business conduct and issues. Students who have taken PHIL 415 are not eligible to take PHIL 416.

**Prerequisite(s):** A grade of "C" or better in ENG 152 or equivalent, third-year or fourth-year status, or permission of the instructor

### PHIL 420 Philosophy of Education

3 credits, Fall or Spring

Engages students in active inquiry into philosophical perspectives on the purpose of education. Students investigate questions about educational practices observable in authentic classroom settings.

**Prerequisite(s):** A grade of "C" or better in ENG 152 or equivalent, fourth-year status, or permission of the instructor

---

### Physical Education

Physical education courses are not required for a student to fulfill the Stevenson Educational Experience curriculum; however, we believe that these courses are invaluable in assisting students to create lifetime habits of physical fitness. Although students may participate in more than one physical education course, only one credit from PE may be counted in a student’s total credit count. PE courses are pass/fail. There is no major in physical education. All physical education course offerings are listed below.

- PE 101 Aerobics
- PE 102 Jogging
- PE 105 Body Conditioning and Fitness
- PE 106 Golf
- PE 107 Circuit Training
- PE 108 Fencing
- PE 109 Racquetball
- PE 111 Yoga
- PE 112 Volleyball
- PE 114 Tennis
- PE 115 Badminton
- PE 117 Cooperative Learning/Implementing Adventure Activities
- PE 119 Walking for Fitness
- PE 121 Physical Activities for Kindergarten - 9th Grade students
- PE 123 Coaching Sports
- PE 125 Recreational Ice Skating
- PE 132 Self-defense
- PE 138 Skiing

---

### Physics and Physical Science

School of the Sciences
Department of Mathematics and Physical Sciences
Associate Dean and Chair: Ellen Roskes, Ph.D.

Stevenson University does not currently offer a bachelor's degree in physics or physical science; however, physics or physical science courses may be required for certain majors. Course descriptions for physics and physical science are listed in this section.

### Physics and Physical Science Program Policies

No student, regardless of major, will be permitted to take a science or math course unless he/she earns a grade of "C" or better in all prerequisite courses.

### Physics and Physical Science Other Options

**Minor:**

A minor in physics or physical sciences is not available.

### Physics and Physical Science Course Descriptions

**PHSCI 110 Foundations of Physics**

4 credits, Fall and Spring

Introduces the concepts and interactions of matter and energy as they affect mankind and the environment, with an emphasis on the basic concepts of classical physics. Laboratory included.

**Prerequisite(s):** High school algebra

**PHSCI 151 Principles of Earth and Field Science**

4 credits, Fall and Spring

Introduces the fundamental principles of geology, astronomy, oceanography, and meteorology, along with their relationships among each other and to the environment. Weekly laboratory exercises are utilized for enrichment, development, and understanding the concepts. Laboratory included.

**Prerequisite(s):** None

**PHSCI 206 Meteorology**

3 credits, Fall and Spring

Explores the relationship between man and weather, air masses, and fronts. Students study the atmosphere, weather scales, causes of weather, storms, atmospheric optics, and weather prediction.

**Prerequisite(s):** None

**PHSCI 207 Astronomy**

4 credits, Fall and Spring

Focuses on an exploration of the universe (planets, stars, galaxies, and the cosmos). Laboratory experiences include in-class exercises as well as day and evening observations. This course emphasizes observation in the development of an understanding of the universe and the physical processes that govern it.

Laboratory included.

**Prerequisite(s):** None
PHSCI 210 Environmental Geology
4 credits, Fall and Spring
Studies geologic principles as they relate to human activities. This course examines how geologic processes and hazards influence human activities. The geologic aspects of water pollution, shoreline and coastal processes, the use of mineral and water resources, and the effect of population on the environment are explored. Emphasis is placed on the Chesapeake Bay. Laboratory included.
Prerequisite(s): None

PHYS 211 General Physics II
4 credits, Fall and Spring
Introduces the fundamentals of electricity, magnetism, and optics. Topics include electrostatics, Ohm’s law, magnetic fields, Faraday’s law, AC circuits, Maxwell’s equations, wave motion, geometrical optics, diffraction, and interference. Algebra provides the mathematical basis for problem-solving. Laboratory included.
Prerequisite(s): A grade of “C” or better in PHYS 210

PHYS 215 General Physics I with Calculus
4 credits, Fall
Introduces the fundamentals of mechanics and particle dynamics. Topics include the laws of motion, force, energy, principles of mechanics, collisions, and gravitation. Algebra provides the mathematical basis for problem-solving. Laboratory included.
Prerequisite(s): A grade of “C” or better in MATH 121, or placement into MATH 125 or higher

PHYS 216 General Physics II with Calculus
4 credits, Spring
Introduces the fundamentals of electricity, magnetism, and optics. Topics include electrostatics, Ohm’s Law, magnetic fields, Faraday’s Law, AC circuits, Maxwell’s equations, wave motion, geometrical optics, diffraction, and interference. Laboratory experiments are related to the lecture series. Laboratory included.
Prerequisite(s): A grade of “C” or better in PHYS 215

POS 102 American Government: Political Institutions and Procedures
3 credits, Fall and Spring
Examines the structures that comprise the American political system, how they interact, how they affect an individual member of the political system, and how they are changed by individuals and groups. This course covers federal, state, and local government.
Prerequisite(s): ENG 151 or equivalent (may be taken concurrently)

Pre-Professional Studies
Students majoring in School of the Sciences programs are required to take SCI 100 School of the Sciences New Student Seminar in lieu of Freshman Seminar. Students enrolled in SCI 100 will retain an information booklet which includes specified programs of study for a variety of pre-professional health options, including pre-dentistry, pre-medicine, pre-pharmacy, pre-physical therapy, and pre-veterinary medicine. These options are offered specifically within the following majors: biology, biotechnology, chemistry, and medical technology. With careful planning, it is possible to fulfill pre-professional health program requirements in other majors. The booklet will also introduce students to the wide variety of career and graduate study options open to science and applied mathematics majors.

Psychology
School of Humanities and Social Sciences
Department of Psychology
Department Chair: Jeffrey Elliott, Ph.D.

Psychology Program Description
The psychology department is a scholarly community committed to helping students increase their scientific understanding of human and animal behavior, use this understanding to help others, learn to conduct research, and prepare thoughtfully and systematically for their careers. To meet these commitments, the psychology department offers its students a broad curriculum, learning experiences and professional activities beyond the classroom, and high levels of student-faculty interaction and collaboration.

1. The psychology major helps students develop a detailed, integrated, and science-based understanding of behavior, including mental processes. Furthermore, the major promotes the application of this understanding to benefit human welfare.

2. The psychology major has four components:
   1. Students study the content of the major subdisciplines within psychology. Through studying these subdisciplines and their associated theories, research methodologies, and scientific findings, students learn how behavior is affected by an individual’s genetic background, physical state, cognitive and socioemotional processes, and cultural environment.
   2. The content of psychology is based on science; therefore, majors begin to understand, evaluate, and apply research. They also have the opportunity to design and participate in research.
   3. Psychology students learn about psychological disorders and the clinical application of psychology. They develop the knowledge and skills to help others solve personal problems, develop professional opportunities, and lead richer, fuller lives.
   4. Students identify their career goals, plan the appropriate career paths to achieve those goals, learn professional ethics,
and acquire skills essential to their professional interests. Psychology majors develop the intellectual, interpersonal, and technical skills to obtain employment relevant to their degree or to pursue graduate studies.

**Psychology Program Outcomes**

Upon completion of the Bachelor of Science in Psychology, graduates will be able to:

1. Think critically about major theories, concepts, empirical findings, and historical trends in psychology.
2. Conduct research by choosing appropriate research designs and statistical analyses, interpreting and communicating research results, and applying ethical standards.
3. Help others by using psychological knowledge, counseling theory and skills, and ethical standards.
4. Analyze how sociocultural differences affect their personal and professional interactions.
5. Plan and pursue their ongoing professional development.

**Psychology Program Policies**

Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of "C" or better in the prerequisite course(s). When a grade below "C" is earned in a major course, the student must repeat that course.

**Psychology Program Requirements**

The courses listed below are required for completion of the bachelor's degree in psychology. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

**Major Requirements:**

**Psychology Other Options**

**Minor:**

A minor in psychology is available. All course prerequisites must be met to be eligible to take the selected course for a minor. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog. The following courses will not count toward a minor in psychology: PSY 206 and PSY 330, however, courses that fulfill psychology elective may be used toward a minor.

**Articulation Agreement:**

Community College of Baltimore College and Stevenson University have an articulation agreement for the psychology major. A total of 64 - 65 credits may be transferrable to fulfill Stevenson Educational Experience (SEE) requirements and the program requirements.

**Psychology Course Descriptions**

**PSY 101 Introduction to Psychology**

3 credits, Fall and Spring

Introduces students to the main theories, methods, and major findings that characterize psychology as a science. The course presents the scientific basis of psychology and asks students to think critically about the various topics presented. The course addresses psychology’s application to issues of everyday life. **Prerequisite(s):** A grade of "C" or better in ENG 151 (may be taken concurrently)

**PSY 105 Professional Issues in Psychology**

1 credit, Fall and Spring

Examines professional issues underpinning a successful career in psychology. This course introduces students to critical thinking, ethical issues in psychology, multifaceted sociocultural diversity, and careers in basic and applied psychology. Restricted to psychology majors. **Prerequisite(s):** None

**PSY 108 Human Growth and Development**

3 credits, Fall and Spring

Provides a lifespan perspective on the growth and development of humans from pre-conception until death. This course focuses on stability and change in the whole person, including the biological, cognitive, and socioemotional domains. This course presents major theoretical approaches to development that address innate factors, environmental influences, and their interactions. **Prerequisite(s):** A grade of "C" or better in PSY 101

**PSY 201 Writing for Psychology**

3 credits, Fall and Spring

Emphasizes the development of reading, writing, and critical thinking skills in psychology. This course provides students with the skills necessary to interpret popular literature in the field of psychology and to write and speak about psychological topics in an accurate, clear and concise manner. Students will also be introduced to the basics of APA style and the parts of an APA research article and taught to effectively search for psychological literature. Restricted to psychology majors and minors. **Prerequisite(s):** A grade of "C" or better in ENG 152

**PSY 205 Career Development I**

1 credit, Fall and Spring

Focuses on early planning for a career in psychology. This course introduces students to the education and training required for careers in psychology, employer and graduate school expectations, and extra-curricular experiences fostering career preparation and competitiveness. Students will develop a resume and CV and a professional development plan based on their
personal interests, values, and abilities on the academic skills required in upper-division psychology courses and for career development.

**Prerequisite(s):** A grade of "C" or better in PSY 105 and second-year status or permission of the instructor

**PSY 206 Child Development**

*3 credits, Fall and Spring*

Focuses on theories and research, as well as their application to child and young adolescent development from conception to age twelve. Concentrated attention is given to the physical, cognitive, and social/personality areas of growth. This course does not satisfy major or minor requirements in psychology.

**Prerequisite(s):** None

**PSY 208 Human Sexuality**

*3 credits, Fall and Spring*

Focuses on the psychological, biological, social, cultural, and ethical forces that impact one’s sexuality. Emphasis is placed on research methodologies. Topics, such as the status of sex research, love, attraction and intimacy, variations in sexual practice and gender expressions, and legal implications, as well as the range of psychological alterations that affect one’s sexuality, will be introduced. Students should have a grasp on many topics related to human sexual functioning and be able to discuss sexual issues in a more open and knowledgeable manner by the end of the course.

**Prerequisite(s):** A grade of "C" or better in PSY 101

**PSY 215 Psychopathology**

*3 credits, Fall and Spring*

Examines the major mental disorders found in adults. The course examines the symptoms, demographics, causes, and treatment of these disorders. To this examination, the course applies an integrated bio-psycho-social framework.

**Prerequisite(s):** A grade of "C" or better in PSY 101

**PSY 216 Psychopathology in Children and Adolescents**

*3 credits, Fall or Spring*

Examines the major mental disorders found in children and adolescents. This course examines the symptoms, demographics, causes, developmental trajectories, and treatment of these disorders. To this examination, the course applies an integrated bio-psycho-social and developmental framework.

**Prerequisite(s):** A grade of "C" or better in PSY 215

**PSY 221 Infant and Child Socioemotional Development**

*3 credits, Fall or Spring (offered as needed)*

Focuses on infant and child socioemotional development. Development from theoretical, scientific, and topical perspectives, beginning with conception and progressing through late childhood are explored. Topics include attachment, child maltreatment, friendship, and self-esteem.

**Prerequisite(s):** A grade of "C" or better in PSY 108

**PSY 230 Basic Counseling Skills**

*4 credits, Fall and Spring*

Presents basic counseling skills and serves as the first course in a two-course sequence. This course contextualizes these basic skills within an empirically supported, three-stage model of helping. This course addresses the theory and research that supports the use of these skills, discusses the ethical and multicultural issues associated with these skills, and presents the career paths associated with these skills and the field of counseling.

**Prerequisite(s):** A grade of "C" or better in PSY 101

**PSY 250-254 Topics in Psychology**

*3 credits, Fall or Spring (offered as needed)*

Studies selected issues in psychology, stressing relevant methodologies and theories. Topics such as forensic psychology, psychology of women, cognitive psychology, and health psychology are rotated. This course may be repeated for credit if the topics are different.

**Prerequisite(s):** Prerequisites vary based on topic

**PSY 260 Behavioral Approaches to Change**

*3 credits, Fall and Spring*

Examines behavioral approaches to how people change due to their experiences. This course focuses on the fundamentals of the classical and operant conditioning models of learning. It also examines applications of these models to humans and animals.

**Prerequisite(s):** A grade of "C" or better in PSY 101

**PSY 261 Biological Psychology**

*3 credits, Fall and Spring*

Examines the biological bases of behavior with an emphasis on how the brain creates the mind and consciousness. This course includes a study of brain development, vision, sleep and dreaming, emotions, motivation, the biological basis of learning and memory, and coverage of debates about animal research and other ethical concerns.

**Prerequisite(s):** A grade of "C" or better in PSY 101

**PSY 262 Social Psychology**

*3 credits, Fall and Spring*

Investigates how people’s thoughts, feelings and actions are affected by the real or imagined presence of others. Major theoretical viewpoints, the importance of scientific methodology, and the influence of culture are stressed.

**Prerequisite(s):** A grade of "C" or better in PSY 101

**PSY 270 Research Methods and Data Analysis I**

*4 credits, Fall and Spring*

Introduces the basic principles and methods of research. Students will conduct a basic research study and analyze the data using descriptive and inferential statistics. This course also focuses on ethical considerations in research and writing an APA-style research report.

**Prerequisite(s):** PSY 201 (may be taken concurrently with permission of the department chair) and a "C" or better in MATH 140

**PSY 305 Career Development II**

*1 credit, Fall and Spring*

Focuses on evaluating, revising, and implementing professional development plans. Students will evaluate their professional development plans and refine them; identify academic and non-academic experiences consistent with their plans; and engage in job-seeking, graduate program searches, or both, consistent with their career interests. Restricted to psychology majors.

**Prerequisite(s):** A grade of "C" or better in PSY 205; junior status

**PSY 309 Field Placement**

*1-3 credits, Fall, Spring, and Summer*

Provides a field experience designed to meet specific academic and professional objectives. This course affords students the opportunity to develop professional experience and to apply the knowledge, theories, and concepts learned in academic classes to student performance in a professional work setting, with significant supervision. This course is not required, but highly recommended. Forty hours required per credit.

**Prerequisite(s):** A grade of "C" or better in PSY 205, PSY 215, PSY 230, and PSY 260, and permission of field placement coordinator.

**PSY 325 Personality Psychology**

*3 credits, Spring (offered as needed)*

Examines the major personality theories and the research associated with them. This course focuses on factors that distinguish individuals from one another and on conditions that
contribute to these distinctions. It also emphasizes research and theory and addresses practical implications. **Prerequisite(s):** A grade of "C" or better in PSY 108 or PSY 215 and PSY 343 or permission of the instructor.

**PSY 326 Special Topics in Cognitive Psychology**

*3 credits, Fall or Spring (offered as needed)*

Examines a specific topic in cognitive psychology in-depth. Students will read, evaluate, and discuss primary sources related to the special topic. In a culminating project, students will investigate a sub-topic, and report in written and oral form on that topic. This course may be repeated for credit if topics are different. **Prerequisite(s):** A grade of "C" or better in PSY 108 and PSY 270.

**PSY 327 Special Topics in Developmental Psychology**

*3 credits, Fall or Spring (offered as needed)*

Examines a specific topic in developmental psychology in-depth. Students will read, evaluate, and discuss primary sources related to the special topic. In a culminating project, students will investigate a sub-topic, and report in written and oral form on that topic. This course may be repeated for credit if topics are different. **Prerequisite(s):** A grade of "C" or better in PSY 108 and PSY 270.

**PSY 328 Special Topics in Personality Psychology**

*3 credits, Fall or Spring (offered as needed)*

Examines a specific topic in personality psychology in-depth. Students will read, evaluate, and discuss primary sources related to the special topic. In a culminating project, students will investigate a sub-topic, and report in written and oral form on that topic. This course may be repeated for credit if topics are different. **Prerequisite(s):** A grade of "C" or better in PSY 108 and PSY 270.

**PSY 329 Special Topics in Social Psychology**

*3 credits, Fall or Spring (offered as needed)*

Examines a specific topic in social psychology in-depth. Students will find, analyze, and evaluate, primary sources related to the special topic. In a culminating project, students will investigate a sub-topic, and report in written and oral form on that topic. This course may be repeated for credit if topics are different. **Prerequisite(s):** A grade of "C" or better in PSY 108 and PSY 270.

**PSY 330 Educational Psychology**

*3 credits, Fall and Spring*

Studies current theory and practice in the teaching/learning process from the perspective of child and young adolescent development. This course includes the dynamics of learning, environmental and cultural influences in the classroom, learning theory, cognitive mechanisms, classroom dynamics, measurement, and evaluation. This course does not satisfy major or minor requirements in psychology. **Restricted to education majors.** **Prerequisite(s):** Third-year education major or permission of instructor.

**PSY 340 Advanced Counseling Skills**

*4 credits, Fall and Spring*

Presents advanced counseling skills and serves as the second course in a two-course sequence. This course contextualizes these advanced skills within an empirically supported, three-stage model of helping. The course also addresses the theory and research that supports the use of these skills and examines the ethical and multicultural issues associated with these skills and the field of counseling. **Prerequisite(s):** A grade of "C" or better in PSY 230 and junior status.

**PSY 341 Counseling Theories**

*3 credits, Fall and Spring*

Examines the major counseling theories. This course presents each theory’s history, key assumptions, core concepts, goals, procedures and techniques, and empirical status. The course also examines multicultural issues associated with these counseling theories. Finally, the course asks students to compare and contrast these theories and to analyze which counseling theory best provides them with a "home orientation." **Restricted to psychology majors.** **Prerequisite(s):** A grade of "C" or better in PSY 230, PSY 260, and PSY 340.

**PSY 343 Research Methods and Data Analysis II**

*4 credits, Fall and Spring*

Introduces students to intermediate and complex experimental designs. In small groups, students will conduct a literature review and design an experiment to investigate a research question of their own choosing. Students will prepare the appropriate documents for IRB approval, choose or design their own materials and methods with guidance from the instructor, and execute the study. Students will analyze the data they collect using descriptive and inferential statistics and prepare an APA-style research report and APA-style research poster. **Prerequisite(s):** A grade of "C" or better in PSY 201 and PSY 380.

**PSY 350 Advanced Topics in Applied Psychology**

*3 credits, Fall and Spring*

Addresses a specific topic in applied psychology in-depth. Students will read, evaluate, and discuss primary source materials related to the topic. In a culminating project, each student will develop and answer a question related to the topic and present his or her work in both written and oral form. This course may be repeated for credit if topics are different. **Prerequisite(s):** A grade of "C" or better in PSY 201 and junior status. Prerequisites may vary by topic.

**PSY 380 Tests and Measurement**

*4 credits, Fall or Spring (offered as needed)*

Examines psychological testing and assessment. This course focuses on major types of psychological tests; the psychometric principles underlying testing; the ethical use of tests in educational, clinical, and occupational settings; and the construction of a psychological measure. **Prerequisite(s):** A grade of "C" or better in PSY 270.

**PSY 405 Career Development III**

*1 credit, Fall and Spring*

Focuses on activities to secure employment and/or admission to graduate school after graduation. Students will continue to evaluate and implement their professional development plans from PSY 305; refine their resumes/CVs; and complete other professional documents, such as job or graduate school applications and personal statements, consistent with their career interests. **Restricted to psychology majors.** **Prerequisite(s):** PSY 305, senior status.

**PSY 420 History and Systems of Psychology**

*3 credits, Fall and Spring*

Examines the philosophical and scientific foundations of psychology as it has emerged as a field of inquiry, an academic discipline, and a profession. The course provides an overview of the concept of globalization and its impact on postmodern psychology. Restricted to psychology majors in their senior year. **Restricted to psychology majors.** **Prerequisite(s):** A grade of "C" or better in PSY 340, senior status.
PSY 450 Internship
3 credits, Fall and Spring
Provides a field experience designed to meet specific academic and professional objectives. This course affords students the opportunity to develop further professional experience and to apply the knowledge, theories, and concepts learned in academic classes to their performance in a professional work setting.

Prerequisite(s): A grade of "C" or better in PSY 343 or PSY 340, senior status, and permission of field placement coordinator

PSY 470 Advanced Research Methods
4 credits, Fall and Spring
Challenges students to complete an individual research project in psychology. Individually, students will design and conduct an experiment to investigate a research question of their own choosing. Students will prepare the appropriate documents for IRB approval, choose or design their own materials and methods with minimal guidance from the instructor, and execute the study. Students will analyze the data they collect using descriptive and inferential statistics, prepare an APA-style research report and APA-style research poster to submit and present to a national, regional or university wide conference.

Prerequisite(s): A grade of "C" or better in PSY 343

---

Public History

School of Humanities and Social Sciences
Department of Humanities and Public History
Department Chair: Glenn Johnston, Ph.D.

Public History Program Description

Students at Stevenson University who wish to concentrate their studies in history should choose the University’s public history major, part of the Department of Humanities and Public History at the University. One of the nation’s few four-year undergraduate majors in the field, Stevenson’s public history major provides students the breadth of a traditional American history major, combined with the opportunity to study and practice the public presentation of history through specialized coursework and internships. Stevenson’s major in public history is distinctive because of its strong liberal arts context which provides students the opportunity to examine history from an interdisciplinary perspective. Students of public history master a body of knowledge about the past, and they also gain the ability to analyze, interpret, and evaluate historical evidence; to apply historical perspective to contemporary issues; and to honor historical interpretation coming from those of diverse cultural traditions and values, all with the goal of conveying historical understanding to members of the general public.

The two primary objectives of the public history program are 1) to lay a solid foundation in general historical knowledge and methodology focused on the United States as part of an undergraduate liberal arts education and 2) to offer public history majors the specialized knowledge, skills, and real-world experience in internships and upper-level public history courses to make a career in public history or a related field a reality. Public history majors can pursue a number of different careers following graduation, such as teaching, museum administration, journalism, film-making, law, historical archaeology, and government service.

The History Forum (non-credit HIST 100), a frequent gathering of all public history majors and faculty, sponsors special speakers and arranges other enrichment activities to enhance these two primary objectives of the major. Public history majors are required to attend mandatory History Forum meetings. In addition, students who are new to the public history major (traditional University freshmen, transfer students, and students who are declaring a public history major for the first time) are required to complete a special section of the non-credit First Year Seminar that is designed specifically for new public history majors and focuses on strategies for promoting success in the major.

Students interested in majoring in public history should contact the humanities and public history department chairperson.

Public History Program Outcomes

Upon completion of the Bachelor of Science in Public History, graduates will be able to:

1. Comprehend historical periods, persons, events, ideas, and themes with a special focus on United States history, as well as the concepts of historical causation, conflict, and change over time underlying all historical study.
2. Master fundamental historical research using both library and Internet resources: locating, reading, interpreting, evaluating, verifying, and documenting primary and secondary sources.
3. Master critical thinking about history: drawing conclusions from readings, applying knowledge to new situations, analyzing and synthesizing secondary and primary sources, evaluating opposing arguments, and understanding how historical interpretations fit into the larger context of historical inquiry.
4. Evaluate the historical significance of race and ethnicity, class, gender and sex, and religion, especially in the development of the United States.
5. Communicate historical knowledge and interpretations to a variety of general public audiences.
6. Analyze and synthesize practical and ethical issues related to communicating history to a variety of general public audiences.
7. Understand career paths related to public history and effectively search for relevant employment opportunities.

Public History Program Policies

Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of "C" or better in the prerequisite course(s). When a grade below "C" is earned in a core major course, the student must repeat that course.

In order to enroll in the required history internship (HIST 450), seniors must have a minimum cumulative GPA of 2.50 and second semester juniors must have a minimum cumulative GPA of 2.75.

Public History Program Requirements

The courses listed below are required for completion of the bachelor’s degree in public history. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

Public history majors are required to complete 45 credits (15 courses) from the courses listed below as indicated. Students must also complete the non-credit HIST 100 every semester while enrolled in the public history program. In addition, students who are new to the public history major (traditional University freshmen, transfer students, and students who are declaring a public history major for the first time) are required to complete a special section of the non-credit First-Year Seminar that is designed specifically for new public history majors.
Major Requirements:

Required Core History Courses
Students are required to take all eight of the following required core history courses. In addition, students must also complete HIST 100 every semester while enrolled in the public history program.

General History Required Core Courses
HIST 105 World History I
HIST 106 World History II
HIST 109 U.S. History I
HIST 110 U.S. History II
HIST 209 Research and Writing in History
HIST 410 The Great Historians

Public History Required Core Courses
HIST 208 Introduction to Public History
HIST 450 Public History Internship

Required Elective History Courses
General history elective courses selected from the following courses (Students are required to take five courses, four courses of which must be at the 300- or 400-level.)

HIST 210 African American History
HIST 220 American History and Community Service
HIST 230 American Women’s History
HIST 238 History of Baltimore
HIST 306 History of the Family
HIST 311 Topics in General History
HIST 314 Revolutionary America
HIST 317 The Western Intellectual Tradition
HIST 330 Robbers, Radicals, and Reformers: US, 1877-1920
HIST 336 The American Civil War
HIST 337 The United States: The Sixties
HIST 339 The United States Since 1970
HIST 330 Independent Study
HIST 411 Senior Seminar

Public history elective courses selected from the following courses (Students are required to take two courses.)

HIST 312 Topics in Public History
HIST 331 American Material Culture

Public History Other Options

Minor:
A minor in history is available. Any HIST course for which the student has satisfied the prerequisites may count toward a minor except courses restricted to public history majors, such as HIST 100 and HIST 450. Please see the humanities and public history department chairperson for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.

Public History Course Descriptions

HIST 100 History Forum
0 credits, Fall and Spring
Provides public history majors with the opportunity to learn more about the field of public history and the requirements of their major. Organizations that sponsor public history internships frequently present to the forum. Majors also learn about Stevenson career counseling services and study abroad opportunities. Academic advising is provided as well. Restricted to public history majors. Required for public history majors every semester they are enrolled in the program.
Prerequisite(s): None

HIST 105 World History I
3 credits, Fall
Focuses on the diverse forces that helped shape the world in which we live. This course traces the development of world civilizations from the origins of humankind to the Early Modern era, with special emphasis on Western civilization.
Prerequisite(s): A grade of "C" or better in ENG 151 or equivalent (may be taken concurrently)

HIST 106 World History II
3 credits, Spring
Focuses on the diverse forces that helped shape the world in which we live. This course traces the development of world civilizations from the Early Modern era to the present, with special emphasis on Western civilization.
Prerequisite(s): A grade of "C" or better in ENG 151 or equivalent (may be taken concurrently)

HIST 109 The United States: Colonial America to 1877
3 credits, Fall
Surveys the major events, ideas, and personalities critical to the development of the United States up to 1877. This course will examine the settlement and development of the American colonies, the American Revolution, the Civil War and Reconstruction, and will look at the collision of cultures and ideas that led to the formation of early America.
Prerequisite(s): A grade of "C" or better in ENG 151 or equivalent (may be taken concurrently)

HIST 110 The United States: 1877 to Present
3 credits, Spring
Surveys the major events, ideas, and personalities critical to the development of the United States from 1877 to the present. This course will examine the consequences of the Civil War and Reconstruction, Populism, Progressivism, the two World Wars, the Roaring Twenties, the Great Depression, the Cold War, and the post-Cold War world.
Prerequisite(s): A grade of "C" or better in ENG 151 or equivalent (may be taken concurrently)

HIST 208 Introduction to Public History
3 credits, Fall
Introduces students to the foundational concepts and methods of public history. This course surveys the basic knowledge required of individuals working in the fields of museum studies, historic preservation, cultural resources management, and related fields and emphasizes the issues related to communicating about history to the general public. This course also explores various careers open to individuals with a strong background in history.
Prerequisite(s): A grade of "C" or better in HIST 109 and ENG 152 or equivalent (HIST 109 may be taken concurrently)

HIST 209 Research and Writing in History
3 credits, Spring
Introduces students to the use of the tools and methods of historians used to interpret and evaluate historical sources and to construct narratives based on primary and secondary research. In addition, students will develop skills in presenting history to a variety of general public audiences.
Prerequisite(s): A grade of "C" or better in HIST 109 and ENG 152 or equivalent (HIST 109 may be taken concurrently)

HIST 210 African American History
3 credits, Fall (offered as needed)
Traces the struggles, accomplishments, and impact of African Americans in the course of United States history. This course explores the cultural heritage of African peoples, the impact of the slave trade, slavery, and the development of racism. It also traces the struggle for freedom and justice in America from the colonial period to the present.
Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent

HIST 220 American History and Community Service
3 credits, Spring
Explores the question “Who are we as Americans?” through a survey of US history in conjunction with a service project in a nonprofit organization. The course topic may rotate occasionally, focusing on one aspect of national identity and perception, for example, the urban present vs. our rural past. In the classroom, students trace the semester’s theme over time and in the field complete a service project, reflect upon their experience in light of their academic learning, and use this experience to deepen their understanding of U.S. history.
Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent

HIST 230 American Women’s History
3 credits, Spring (offered as needed)
Examines the history of women in the United States from the time of the Native Americans in the pre-colonial era to the present. This course explores how women’s roles, status, image, and legal rights evolved due to social and economic change and as a result of the activism of reformers and writers.
Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent

HIST 238 History of Baltimore
3 credits, Fall
Introduces students to the history of Baltimore from colonial times to the present. This course examines changes in politics and the economy, in the physical environment, and in the lives of ordinary Baltimoreans. This course also explores the ways in which Baltimore’s history reflects both national trends and its own particular mix of North and South, race, ethnicity, and class.
Prerequisite(s): A grade of "C" or better in ENG 152 or equivalent

HIST 306 History of the Family
3 credits, Fall (offered as needed)
Explores the family as the fundamental social unit in nearly every society. This course traces the evolution of the family from the Neolithic era to the present. Students study the impact of geography, economy, religion, and political structures on the variety of family structures in the Western and non-Western worlds.
Prerequisite(s): A grade of "C" or better in a 100- or 200-level history class and ENG 152 or equivalent

HIST 311 Topics in General History
3 credits, Fall and Spring
Focuses on a particular period or on a specialized topic in general history. This course involves significant analysis of primary sources. Recent topics have been The Age of Shakespeare, Making of the US Constitution, Roaring Twenties & Great Depression, Fifties & Film, Colonial America, Expansion & Exploration, and Modern American Sports History. This course may be repeated for credit if topics are different.
Prerequisite(s): A grade of "C" or better in a 100- or 200-level history class and ENG 152 or equivalent

HIST 312 Topics in Public History
3 credits, Fall and Spring
Focuses on a specialized topic/field in public history. Recent topics/fields have been: historic preservation, museum studies, historical archeology, archives, and oral history. This course may be repeated for credit if topics/fields are different.
Prerequisite(s): A grade of "C" or better in a 100- or 200-level history class and ENG 152 or equivalent

HIST 314 Revolutionary America
3 credits, Spring (offered as needed)
Explores the American Revolutionary Era that transformed America and the world in the last half of the eighteenth century. Students will study such topics as the American Revolution as a military and political struggle and as a war of ideas, the writing of the U.S. Constitution, the establishment of political parties and the election to office of Thomas Jefferson. This course will also examine the history of women, Native Americans, and African Americans.
Prerequisite(s): A grade of "C" or better in a 100- or 200-level American history class and ENG 152 or equivalent

HIST 317 The Western Intellectual Tradition
3 credits, Fall (offered as needed)
Focuses on the role of ideas in the history of Western civilization and will trace the Western intellectual tradition from Plato and Aristotle through the classical, medieval, and modern world. This course will explore the seminal ideas of philosophical, religious, and political leaders. Students will pay particular attention to the role of ideas as both cause and effect of other social, economic, and historical forces.
Prerequisite(s): A grade of "C" or better in a 100- or 200-level history class and ENG 152 or equivalent

HIST 330 Robbers, Radicals, and Reformers: 1877-1920
3 credits, Fall (offered as needed)
Examines political, social, economic, and cultural life in the US from 1877 to 1920, the decades in which the country grew from a mostly rural, agrarian society into an urban, industrialized world power. This course will explore themes such as "big business," immigration, labor strife, segregation, progressive reform, and imperialism and their impact on the lives of ordinary Americans.
Prerequisite(s): A grade of "C" or better in a 100- or 200-level American history class and ENG 152 or equivalent

HIST 331 American Material Culture
3 credits, Spring (offered as needed)
Explores how the objects that we make and use can help us understand the American past and present. Students will study things both large and small, including patterns of land use, historic architecture, tools, furniture, plates, and silverware. This course focuses on both high-style art objects and utilitarian, vernacular objects. This class especially considers the changing roles of class, gender, and race in American material culture.
Prerequisite(s): A grade of "C" or better in a 100- or 200-level American history class and ENG 152 or equivalent

HIST 336 The American Civil War
3 credits, Fall (offered as needed)
Explores the American Civil War from its root causes to its aftermath. Course topics include the military and political leadership, new and improved technologies, the battles from Fort Sumter to Appomattox, and the impact of the war on the civilian population.
Prerequisite(s): A grade of "C" or better in a 100- or 200-level American history class and ENG 152 or equivalent

HIST 337 The United States: The Sixties
3 credits, Spring (offered as needed)
Emphasizes primary sources to explore the fast-paced social, political, and cultural changes that occurred in America from 1960 to 1974. This course explores major trends in society, the economy, and politics. Topics include the presidencies of Kennedy, Johnson, and Nixon; the civil rights and black liberation movements; the Vietnam War; the rise and fall of the New Left; and the counter-culture.
Prerequisite(s): A grade of "C" or better in a 100- or 200-level American history class and ENG 152 or equivalent
HIST 339 The United States Since 1970
3 credits, Fall (offered as needed)
Examines life in the US from 1970 to the present. Particular emphasis is devoted to the impact of the following on society: the legacy of the 1960s, the scientific and technological revolution, the changing nature of immigration, and globalization and the role of America in the world.
Prerequisite(s): A grade of "C" or better in a 100- or 200-level American history class and ENG 152 or equivalent

HIST 350 Independent Study
2-3 credits, Fall and Spring
Provides students with the opportunity to complete a rigorous approved project under close faculty supervision during the course of a semester. The topic of study may not be one covered in an existing HIST course.
Prerequisite(s): A grade of "C" or better in a 100- or 200-level American history class and ENG 152 or equivalent. Also, permission of the supervising instructor, the humanities and public history department chair, and the Executive Vice President for Academic Affairs and Dean required.

HIST 410 The Great Historians
3 credits, Fall or Spring
Examines the nature of historical writing in the ancient world up to the present day. This course will explore the ways in which historical writing has changed over time and has been shaped by historians' preconceptions, moral judgments, political philosophies, and specific historical contexts.
Prerequisite(s): A grade of "C" or better in a 100- or 200-level history class and ENG 152 or equivalent

HIST 411 Senior Seminar
3 credits, Fall or Spring
Provides an academic capstone for public history majors and generally will focus on a specific time period, theme, person, event, or idea. The subject will be investigated thoroughly from a wide variety of perspectives. Emphasis will be placed upon interpreting the subject through the primary written and material record and through contrasting interpretations that illustrate the complexity and depth of the subject and its lasting significance and influence. This course may be repeated for credit if topics are different.
Prerequisite(s): Senior public history major status; A grade of "C" or better in a 100- or 200-level history class and ENG 152 or equivalent, or permission of the instructor

HIST 450 Public History Internship
3 credits, Fall and Spring
Provides an experiential capstone for public history majors. During the internship, students will perform a minimum of 120 hours of career-related work under the guidance of a history faculty mentor and an on-site supervisor from the sponsoring organization. Internships are arranged individually to match students’ career goals and interests with sponsors’ needs. This course may be repeated for credit under certain circumstances.
Prerequisite(s): Senior or second-semester junior public history major status; at least 24 credits in history, including HIST 208 and HIST 209; and a minimum cumulative 2.50 GPA for seniors and 2.75 GPA for second semester juniors

Religion

School of Humanities and Social Sciences
Stevenson University does not currently offer a bachelor's degree in religion; however, students interested in pursuing this field of study may do so through the flexible major offered in interdisciplinary studies. Students who wish to develop a religion focus should consult the program coordinator of interdisciplinary studies for more information.

A minor in religion is available. Please see the humanities and public history department chairperson for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog. Course descriptions for religion are listed in this section.

Religion Course Descriptions

REL 116 Survey of the New Testament
3 credits, Fall or Spring
Introduces the literature of the New Testament, with appropriate emphasis given to the background, growth, and thematic content of the Biblical materials.
Prerequisite(s): ENG 151 or equivalent (may be taken concurrently)

REL 202 World Religions
3 credits, Fall and Spring
Surveys the beliefs and practices of selected world religions. This course examines the impact religion has on certain aspects of our lives, such as politics, history, literature, and the arts. This course also seeks to provide the critical tools needed to determine and to evaluate religious influences.
Prerequisite(s): ENG 151 or equivalent (may be taken concurrently)

REL 275 Topics in Religion
3 credits, Fall or Spring
Offers a variety of topics from among the world’s religions. Recent course topics have included religion and community service, Old Testament, peacemaking, Biblical leadership, politics and religion, and sacred humor. This course will allow students the opportunity to look at contemporary as well as past events that shape world religions and influence society. The course may be repeated if topics are different.
Prerequisite(s): ENG 151 or equivalent (may be taken concurrently)

REL 302 Comparative Religious Thought
3 credits, Fall and Spring
Explores and compares specific religious issues, such as salvation, creation, God, life and death, sex and sexuality, woman and man, and rites of passage in selected world religions.
Prerequisite(s): A grade of “C” or better in ENG 152 or equivalent, third-year or fourth-year status or permission of the instructor

REL 303 Contemporary Religion in America
3 credits, Fall or Spring
Studies contemporary religious expressions in America. The course examines the origins, development, and current status of both mainline and peripheral movements, with discussions on attendant problems of national interest.
Prerequisite(s): A grade of “C” or better in ENG 152 or equivalent, third-year or fourth-year status or permission of the instructor

REL 305 Topics in Third World Religions
3 credits, Fall or Spring
Investigates various issues in selected Third World religions. This course places special emphasis on the basic worldviews of a specific culture, such as African or Native American. The topics may include religion and morality, rites of passage, the family, religious symbols and art, sacrifice, religion and medicine, and encounters with foreign religions.
Prerequisite(s): A grade of “C” or better in ENG 152 or equivalent, third-year or fourth-year status or permission of the instructor
REL 310 Jesus of Nazareth
3 credits, Fall or Spring
Studies the founder of Christianity, with attention given to the historical and social setting. This course analyzes the portraits of Jesus presented in the four canonical gospels as well as his impact on the subsequent history of world culture.
Prerequisite(s): A grade of “C” or better in ENG 152 or equivalent, third-year or fourth-year status or permission of the instructor

REL 405 Seminar in Western Religions
3 credits, Fall or Spring
Provides a comparative study of the three major Western religions (Judaism, Christianity, and Islam) as well as an in-depth examination of their historical development and resulting implications for contemporary economic, social, and political issues.
Prerequisite(s): A grade of “C” or better in ENG 152 or equivalent, third-year or fourth-year status or permission of the instructor

REL 410 Seminar in Eastern Religions
3 credits, Fall or Spring
Studies the history and thought of one or two South and/or East Asian religions, combining a reading of selected canonical texts, a study of major thinkers, and a discussion of problems, such as the relationship between the religion and society. Specific traditions covered in the seminar may include those of Hinduism, Buddhism, Tantrism, Confucianism, Taoism, and Shintoism.
Prerequisite(s): A grade of “C” or better in ENG 152 or equivalent, third-year or fourth-year status or permission of the instructor

SCI 440 Capstone Practicum
1 credit, Summer
Provides the opportunity for senior majors in the School of the Sciences to complete the hours for an approved capstone experience during the summer months. Students are held to the requirements of the capstone, including site visits, mentor visits, and documentation. Students who complete SCI 440 must enroll in the capstone course in the fall semester immediately following the summer experience.
Prerequisite(s): Permission of the department chair of the student’s major field of study
Fees: Parking and printing fees may be required.

Sociology

School of Humanities and Social Science
Stevenson University does not currently offer a bachelor’s degree in sociology; however, students interested in pursuing this field of study may do so through the flexible major offered in interdisciplinary studies. Students who wish to develop a sociology focus should consult the program coordinator of interdisciplinary studies for more information.
A minor in sociology is offered. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog. Course descriptions for sociology are listed in this section.

Sociology Course Descriptions

SOC 101 Introduction to Sociology
3 credits, Fall and Spring
Studies the fundamentals and methods of sociology as a social science. Introduction to sociological perspective and theories on such topics as socialization, social interaction, deviance and social control, family, education, religion, politics, economics, and social change is included.
Prerequisite(s): A grade of ”C” or better in ENG 151 or equivalent (may be taken concurrently)

SOC 102 Contemporary Social Problems
3 credits, Fall and Spring
Examines pressing social problems. Issues considered may include economic inequality, racism, sexism, ageism, environmental abuse, unequal educational opportunities, drug abuse, crime, and others. Application of theory and research findings will focus on strategies for prevention and institutions designed to solve social problems.
Prerequisite(s): A grade of ”C” or better in ENG 151 or equivalent (may be taken concurrently)

SOC 203 Sociology of Minority Groups
3 credits, Spring (offered as needed)
Explores the consequences of power differentials between special categories of peoples, such as those based on race, ethnicity, religion, sex, gender, and sexual preference. Emphasis is placed on sociological definitions and theories.
Prerequisite(s): A grade of ”C” or better in ENG 152 and sophomore status

SOC 206 Sociology of Women
3 credits, Fall (offered as needed)
Studies women in society. This course explores women’s roles in the past and present and considers their possibilities in the future. Applies theory and research findings in examination of gender-role socialization, life cycle roles and changes, feminism, and selected topics.
Prerequisite(s): A grade of ”C” or better in ENG 152 and sophomore status

Science

Science Course Descriptions

SCI 100 School of Sciences New Student Seminar
1 credit, Fall and Spring
Provides new students with an academic orientation to the School of the Sciences that is grounded in Stevenson University’s core values: integrity, learning, community, and excellence. Topics include a review of policies and expectations, strategies for effective time management and study habits, and opportunities for building community. Students will engage in the process of Career Architecture (SM) which provides a distinctive approach to career exploration, planning, and preparation. The creation of an academic portfolio is required. Restricted to and required for all freshmen and transfer students majoring in Applied Mathematics, Biochemistry, Biology, Biotechnology, Chemistry, Environmental Science, and Medical Technology.

SCI 215 Science Writing
3 credits, Fall and Spring
Develops information literacy and scientific writing with emphasis on developing skills in identifying appropriate search strategies, discipline-specific investigative techniques, and citation devices. Students will learn the principles and practices of research design sufficient to begin to evaluate published studies in their chosen field of study and the mechanics of correct format and styles of writing that would be acceptable in the professional community.
Prerequisite(s): A grade of "C" or better in ENG 152 and a minimum of two science courses
SOC 207 Organizations, Work, and Society
3 credits, Fall or Spring (offered as needed)
Examines functions, structures, and dynamics of organizations. Major theoretical perspectives and research findings provide the foundation for investigating a variety of topics related to human behavior and social roles in organizations, change processes, and integration of organizations into institutional spheres of society. Emphasis is placed on understanding work and the workplace.
Prerequisite(s): A grade of "C" or better in ENG 152 and sophomore status

SOC 260 American Popular Culture
3 credits, Fall or Spring (offered as needed)
Examines the interplay of popular arts, mass culture, and American society from the 1890s to the present, with emphasis on the period since World War II. This course draws on approaches of the social sciences and the humanities to gain insight into changing attitudes, values, and beliefs. Students investigate topics of special interest through field and or library research.
Prerequisite(s): A grade of "C" or better in ENG 152 and sophomore status

SOC 304 Topics in Sociology
3 credits, Fall and Spring
Provides opportunities for advanced students to examine topics of interest through supervised reading, research, and discussion. Themes include communities, sociology of sports, urban problems, and violence and peace. Topics announced each semester. This course may be repeated for credit if topics are different.
Prerequisite(s): A grade of "C" or better in ENG 152 and junior status

Spanish
Stevenson University does not currently offer a bachelor's degree in Spanish; however, Spanish courses are listed in the "World Languages" section of the catalog.

Theatre and Media Performance

School of Humanities and Social Sciences
Department of Theatre
Program Coordinator: Chris Roberts, M.F.A.

Theatre and Media Performance Program Description
In the theatre and media performance program, students will learn the similarities and differences between stage, internet, video and film performance. Students study movement, voice, improvisation, scene study, and script analysis within historical and cultural contexts, and how these skills uniquely apply to theatre and media productions. Parallel to their theoretical study is the exploration of verbal and nonverbal expression, and creative thinking. Students demonstrate their understanding and can effectively apply the above skills and exploration through successful performances in collaborative productions for both stage and media.

Theatre and Media Performance Program Outcomes
Upon completion of the Bachelor of Science in Theatre and Media Performance, graduates will be able to:
1. Apply the appropriate skills unique to stage, video, internet and film performances.
2. Communicate creatively both verbally and non-verbally.
3. Interpret plays and media scripts through literary-style analysis and performance.
4. Collaborate for problem-solving through all aspects of the production process.
5. Apply practical skills to obtain employment in theatre, media and other career opportunities.
6. Integrate interpretations of historical and contemporary artistic styles into performance.

Theatre and Media Performance Program Policies
Students must earn a minimum GPA of 2.00 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of "C" or better in the prerequisite course(s). If a grade below "C" is earned in a major course, the student must repeat that course.

Theatre and Media Performance Program Requirements
The courses listed below are required for completion of the bachelor's degree in theatre and media performance. Students must also complete the requirements for the Stevenson Educational Experience (SEE).
Specific pre- and co-requisites for each course are listed in the course descriptions.

~Course under development

Theatre and Media Performance Other Options
Minor:
A minor in theatre is offered. All course prerequisites must be met to be eligible to take the selected course for a minor. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.
Theatre and Media Performance Course Descriptions

Theatre Courses

THEA 103 Beginning Acting
3 credits, Fall and Spring
Develops important performance skills through exercises, improvisations, and scene work. Exercises include work in imagination, concentration, vocal and movement techniques. Analysis of scenes for a character's intentions, obstacles, and tactics is a major part of this course. Students learn to work with scene partners and develop self-confidence in a performance situation.
Prerequisite(s): None

THEA 115 Stagecraft
3 credits, Fall
Introduces students to the technical elements of modern scenery and lighting practices required to produce a theatrical production. Through a mix of lecture and lab, students develop verbal and visual communication techniques, common construction practices, rigging procedures, material selection and equipment usage along with the rationale of their applications.
Prerequisite(s): A grade of "C" or better in THEA 103

THEA 116 Script Analysis
3 credits, Spring
Focuses on the analysis of theatrical scripts in preparation for public performance. Analysis include a thorough understanding of a play's given circumstances, units of action, social-political environment, and use of language, tempos and themes. Students practice reading, researching production styles, and planning their own interpretation of productions based on a variety of important American and international plays.
Prerequisite(s): A grade of "C" or better in THEA 121

THEA 121 Introduction to Theatre
3 credits, Fall and Spring
Examines, through readings, lecture and discussion, the responsibilities and techniques of theatre artists (playwrights, actors, directors, designers) who collaborate to create the dramatic experience. Students further investigate the nature of this experience by critiquing Stevenson University productions.
Prerequisite(s): None

THEA 203 Acting II
3 credits, Fall
Introduces various acting styles from different periods of history. Through lecture and performance, students learn changing acting styles and how each style is unique because of historical and social influences. Students learn how and why each style was developed and then apply that style to plays of that period. The course culminates in a final performance in which students choose a style and apply it to a scene of their choice.
Prerequisite(s): A grade of "C" or better in THEA 103

THEA 204 Improvisational Theatre
3 credits, Fall and Spring
Stresses cooperation in concept development, acting, individual character development, creative thought, and flexibility through exercises and games to help actors with spontaneity.
Prerequisite(s): A grade of "C" or better in THEA 103

THEA 210 Acting for the Camera
3 credits, Fall
Develops vocal and physical skills appropriate for performing on camera as well as the basic terminology used in production, while working in a TV studio. Students prepare and present a selection of projects taped live while also learning taped for edit techniques.
Prerequisite(s): A grade of "C" or better in THEA 103

THEA 215 Theatre Practicum: Set Design and Construction
1 credit, Fall and Spring
Introduces the functions of scenery, the elements, principles, and aesthetics of set design, and the working process of the set designer and his or her role in the collaborative dramatic experience. Under faculty supervision, students also learn how to use the tools and equipment in the set shop and construct sets for Stevenson University productions. (45 crew hours)
Prerequisite(s): None

THEA 216 Theatre Practicum: Scene Painting and Props
1 credit, Fall and Spring
Introduces and practices the principles, aesthetics, and techniques of theatrical scene painting. Students learn various techniques for creating texture and design through paint for theatrical sets. (45 crew hours)
Prerequisite(s): None

THEA 217 Theatre Practicum: Stage Lighting and Sound
1 credit, Fall and Spring
Develops an appreciation for the working process of the lighting designer and his or her role in the collaborative dramatic experience. Students learn, through hands-on experience, the functions and objectives and qualities of stage lighting and the types and uses of lighting instruments. Under faculty supervision, students learn how to select, circuit, gel, and focus lights and how to operate a computerized light board. Students learn the importance of sound in a production and—as needed for Stevenson University productions—develop the ability to reproduce, reinforce, or mix sound, create specific sound effects, and produce audio for the productions. (45 crew hours)
Prerequisite(s): None

THEA 218 Theatre Practicum: Costuming
1 credit, Fall and Spring
Introduces the functions of costumes, the elements, principles, and aesthetics of theatrical costume design, and the working process of the costume designer (including script analysis, research, sketching, and building) and his or her role in the collaborative dramatic experience. Under faculty supervision, students pull from stock and construct and maintain costumes for Stevenson University productions. (45 crew hours)
Prerequisite(s): None

THEA 224 Play Performance
3 credits, Fall and Spring
Involves participation in departmental theatre productions after auditioning and being cast. Students develop roles and explore the script in a production by exploring genre, author, social context, interpretation, and production style. They may also participate in training related to the specific needs of the production, e.g., use of dialect, period movement, dance, choral speaking, or specific acting styles. This course may be repeated for credit.
Prerequisite(s): None

THEA 240 Theatre History I
3 credits, Fall
Studies masterpieces of Eastern and Western theatre from antiquity to the 16th century and explores their structure and themes, as well as the historical contexts, performance arenas, acting styles, and staging methods that have given these scripts life. Students examine key figures and events and discover the ways in which theatre both reflects and affects the society that creates it.
Prerequisite(s): A grade of "C" or better in THEA 121

THEA 241 Theatre History II
3 credits, Spring
Studies masterpieces of Eastern and Western theatre from the 17th century to the present and explores their structure and
themes, as well as the historical contexts, performance arenas, acting styles, and staging methods that have given these scripts life. Students examine key figures and trends and discover the ways in which theatre both reflects and affects the society that creates it.

**Prerequisite(s):** A grade of "C" or better in THEA 240

**THEA 270 Voice for the Actor**  
3 credits, Spring  
Develops the voice for performance. Students will study alignment, diaphragmatic breathing, relaxation, phonation, articulation, resonance, projection, Standard American Speech, and the International Phonetic Alphabet. Students will also learn how to apply their vocal technique to create and perform characters.  
**Prerequisite(s):** A grade of "C" or better in THEA 103

**THEA 275 Theatre Movement**  
3 credits, Spring  
Develops the physical awareness of students as it relates to the individual actor and the ensemble. Students develop strength, flexibility, presence, and coordination through improvisations, presentations, and the creation of original theatre compositions.  
**Prerequisite(s):** A grade of "C" or better in THEA 103

**THEA 301 Acting III**  
3 credits, Fall  
Offers a more intensive approach to performing scenes from comedies and dramas that are rich in substance and style. Students enhance the acting skills learned in THEA 103 Beginning Acting and THEA 203 Acting II. Dramaturgical research helps students to understand "style" as a code of behavior that is implicit in the world of the play, and they are encouraged to create characters that are credible and distinctive vocally and physically.  
**Prerequisite(s):** A grade of "C" or better in THEA 203

**THEA 310 Acting for the Camera II**  
# credits, Term(s)  
Course under development.  
**Prerequisite(s):**

**THEA 318 Internship**  
3 credits, Fall and Spring  
Includes planning and participation in an internship coordinated by a faculty director. The internship consists of 120 hours in an off-campus professional environment (business, government agency, non-profit organization, etc.) where the student receives practical, career-oriented experience under an on-site supervisor. Placement of the student is arranged by the University. The student may begin the internship before the end of the semester in which THEA 318 is taken, which meets weekly for one hour; however, the internship must be completed before the end of the spring semester-when THEA 318 is taken in the fall or by the end of the summer and the start of the next academic year-when THEA 318 is taken in the spring. At the conclusion of the experience, the student and the on-site supervisor evaluate the experience.  
**Prerequisite(s):** A grade of "C" or better in THEA 121, THEA 202, THEA 204, and THEA 210.

**THEA 320 Performing Shakespeare**  
3 credits, Spring  
Explores the works of William Shakespeare from the perspective of the actor in performance. Students read and perform from several plays in Shakespeare's canon through textual analysis, meter/scansion exploration, physical embodiment, and careful character development. Upon completion of this course, students have developed several classical monologues that can be used for audition purposes to obtain employment.  
**Prerequisite(s):** A grade of "C" or better in THEA 301

**THEA 335 Directing**  
3 credits, Spring  
Analyzes the role of the theatrical director. Students develop skills in dramaturgical and script analysis, learn key elements of stage composition, explore the uses of movement and rhythm, and study directorial functions within both theatrical events and creative collaborations.  
**Prerequisite(s):** A grade of "C" or better in THEA 301

**THEA 370 Advanced Voice for the Actor**  
3 credits, Fall  
Continues to develop the voice for performance through exercises in articulation, phonation, alignment, diaphragmatic breathing, relaxation, and projection introduced in Voice for the Actor I. Students learn how to apply these skills to warm up the voice and to perform and create their characters. Students will also learn how to apply their vocal technique to create and perform characters. The course also stresses skills needed to work with all types of microphones used in the media.  
**Prerequisite(s):** A grade of "C" or better in THEA 270

**THEA 375 Advanced Movement**  
Course under development.

**THEA 410 Design and Collaboration**  
Course under development.

**THEA 430 Business of Acting**  
3 credits, Spring  
Instructs student actors in developing strategic and intelligent career choices. This course emphasizes vital non-performance skills such as performing in auditions, maintaining financial responsibility, developing professional documents (headshots and resumes) in a digital age, and understanding the roles of agents, managers, and casting directors. Students learn how to apply these skills to obtain employment.  
**Prerequisite(s):** A grade of "C" or better in THEA 410

**THEA 452 Senior Project: Theatre**  
3 credits, Spring  
Focuses on developing a recital piece for public performance. Each year students choose, depending on their interest, if they want to perform scenes, monologs, or a play. This is the capstone course of all the performers have learned during their four years of study.  
**Prerequisite(s):** A grade of "C" or better in THEA 301

---

**Visual Communication Design**

School of Design  
Department of Art and Visual Communication Design  
Interim Department Chair: George M. Moore, M.F.A.

**Visual Communication Design Program Description**  
The Department of Art and Visual Communication Design within the School of Design grants a bachelor's degree in visual communication design. This major is designed to prepare students for professional practice and graduate study in graphic design, advertising, marketing communications, electronic or print publishing, web and interactive design, digital imaging, motion graphics, or related fields. The program comprises five sequences of courses: materials and methods, art history and visual culture, digital design, communication design, and career development.

Materials and Methods: These seven courses develop students' skills in the creation of visual forms. Five required foundation courses foster the development of design, drawing, composing, and problem-solving capabilities while building material and technical skills. Upon completion, students elect
two additional courses to expand their material knowledge and capabilities based on career goals and personal preference.

Art History and Visual Culture: These three courses develop students’ abilities to research, think, and write critically about art history and visual culture. The first course in the sequence, Introduction to Art History, is required and offers a thematic overview of art history. Next, students select a survey course that is more specific in its focus to promote greater depth of research and critical analysis. Finally, students select a third course, which enables them to investigate a historical topic in depth.

Digital Design: These four courses build students’ technical skills in designing for print and electronic media. Emphasis is on both developing proficiency in industry-standard tools and learning the theories and standards that underlie their functionality. Students are expected to apply and build upon their technical knowledge in concurrent and subsequent design coursework.

Communication Design: These eight courses provide students with the opportunity to practice design problem solving in progressively challenging contexts working across media. The first two required communication design studio courses develop the creative and critical thinking process known as “design thinking,” while the third course emphasizes the development of carefully crafted and produced prototypes that result from this process. Two required typography courses build essential skills in using type to enhance communication. Following these courses, each student has the opportunity to select two studio electives that provide real-world and case study problems and emphasize the development of portfolio-quality solutions. The sequence culminates with a capstone course where students conceive and produce a significant senior project. Upon completion of the communication design sequence, students will exhibit selected works.

Career Development: These eight required career development milestones engage students in the process of Career ArchitectureTM beginning in the first year. The first-year seminar course introduces career possibilities. The second-year internship preparation course enables students to explore career goals further while developing a basic portfolio and preparing to find an internship. While the required internship provides students with hands-on professional experience, the portfolio development course allows students to create professional presentations for entry into the visual communication design field. Students participate in portfolio reviews. At the end of the first and second year, faculty review portfolios. In the third and fourth year, Art and Visual Communication Design Advisory Board members review portfolios.

Visual Communication Design Program Outcomes
Upon completion of the Bachelor of Science in Visual Communication Design, graduates will be able to:

1. Solve communication design problems by thinking creatively and critically.
2. Produce communication design solutions, considering audience, cultural, ethical, human, and market factors.
3. Create, compose, and critique visual forms as well as verbal and nonverbal messages in response to design problems.
4. Acquire material and technical skills necessary to realize designs solutions according to professional standards and practices.
5. Apply art history, visual culture, communication, and design research to visual communication practice.
6. Plan, execute, present, revise, and justify design ideas and solutions independently and as a collaborative team member.
7. Apply academic preparation to professional and cultural experiences both within and beyond the classroom.
8. Exhibit behaviors consistent with the professional and ethical standards of the discipline by producing a design portfolio.

Interactive Design Track
The interactive design track within the visual communication design major provides students with a solid foundation and in-depth experience in the theory and practice of producing design solutions for a variety of interactive media platforms including Web, social media, mobile devices, tablets, and emerging interaction technologies. Special emphasis is placed on effective information architecture, user interface, and user experience design, as well as the aesthetic role of quality universal design that impacts visual perception and choice in interactive digital environments.

The interactive design track prepares future professionals by exposing them to contemporary and historic visual contexts, real-world projects, and industry-standard software and technologies. Graduates may pursue careers in a range of areas including web design and development, mobile and responsive design, social media strategy, multimedia and streaming media production, electronic publishing, digital prototyping and imaging, online advertising, interactive motion graphics, mobile applications and game design, and other interaction design related fields.

Interactive Design Track Outcomes
Upon successful completion of the interactive design track, graduates will be able to:

- Apply contemporary and historical design, visual culture, and communication research to interactive communication design practice.
- Employ web and interaction design terminology when presenting, critiquing, or discussing interactive design ideas and solutions.
- Apply graphic design and typography principles to digital interactive works.
- Analyze and organize information to construct usable interactive site architecture and communicate effectively.
- Create engaging user experiences considering audience, cultural, ethical, human, and market factors.
- Produce and critique creative interactive design solutions in accordance with professional standards and practices.
- Design for a variety of interactive media platforms.
- Demonstrate professional preparedness for an interactive design career by producing an online interactive portfolio.

Motion Graphics Track
The visual communication design motion graphics track provides students who are interested in design, animation, and video with a solid foundation in the theory and practice of producing motion graphic design. Motion graphics are visible daily on television, movie screens, the Internet, mobile devices, and location-specific displays. This track prepares future graduates by exposing them to historical contexts, real-world projects, and industry-standard tools (software and equipment). Extra attention is devoted to narrative and visual communication structure through systems of sequence and arrangement. Motion graphics students may pursue a career in diverse areas including: television stations or networks, film production, advertising and design studios, video post-production, museum exhibition, education, or in-house production at private and public institutions.

Motion Graphics Track Outcomes
Upon completion of the motion graphics track, graduates will be able to:
• Employ the terminology of motion graphic design when presenting, critiquing, or discussing motion graphic design ideas and solutions.
• Analyze motion graphics in contemporary and historical contexts.
• Apply graphic design principles to time-based works.
• Produce motion graphics in a range of professionally-recognized forms.
• Utilize appropriate content and techniques to tell a story.
• Compile a portfolio of motion graphic design.

Photography Track

Today’s visual communication designers must be creative problem-solvers and image-makers capable of working across a variety of media. Likewise, photographers must not only be able to take compelling images that communicate ideas or tell stories, but must also possess wide-ranging technical skills and the ability to market oneself. The photography track is designed to expand the visual communication design student’s capabilities in photographic processes and digital-imaging techniques. The photography track prepares career-oriented graduates to become professionals in commercial and advertising photography, portrait and fashion photography, photojournalism, graphic design, and image post-production, as well as for graduate study.

Photography Track Outcomes

Upon successful completion of the photography track, graduates will be able to:

• Operate camera controls and photographic equipment with expert proficiency.
• Demonstrate the ability to photograph in controlled and uncontrolled environments in both ambient and artificial lighting situations.
• Produce professional-quality photographic images using industry-standard techniques and software.
• Synthesize conceptual and technical elements to generate a visually dynamic image that elicits a response from the viewer.
• Recognize the importance of the development of photographic arts and technology, the history of photography, and its impact on society and human communication.
• Construct and present a portfolio of photographs that demonstrates conceptual thinking and problem-solving abilities while achieving professional results.

Visual Communication Design Policies for Continuance and Progression

Visual communication design student performance is measured by grades earned in general education and major courses and the ability to effectively create, compile, and present a portfolio of work.

Students must earn a minimum cumulative GPA of 2.5 and a minimum GPA of 3.0 in the major, and the lowest acceptable grade is a "C" in all major and Stevenson Educational Experience (SEE) courses. No student, regardless of major, will be permitted to advance to the next course without earning a grade of "C" or better in the prerequisite course(s).

If a student achieves a grade of "C-" or lower, the course must be repeated and a "C" or better must be achieved to satisfy the prerequisite requirements. A student may not earn a grade of "C-" or lower in any major course more than two times during the program. If a third grade of a "C-" or lower is earned in any major course, the student will be automatically dismissed from the program.

During the first two years, visual communication design students must satisfy specific prerequisite requirements to remain in the VCD major. The 100- and 200-level courses provide the foundation needed for VCD junior- and senior-level course work (professional practicum, studios, senior capstone, etc.). The specific criteria that must be met before students are allowed to progress from one level to the next are outlined below:

Progression criteria for students entering VCD sophomore-level course sequence.

To progress to VCD 210, VCD 230, and VCD 256, (offered in the fall of the sophomore year) students must meet the following requirements:

• Cumulative GPA of 2.5 or higher
• Cumulative GPA of 3.0 or higher in major courses
• Earn at least a "C" or better in all major courses
• Repeat no more than two major courses
• Participation in first-year portfolio review

Students who earn a rating of unsatisfactory in the portfolio review will be allowed to progress to the 200-level courses provided all other criteria are met. These students will be placed on probation in the major.

Progression criteria for students entering junior-level course sequence.

To progress into 300-level major courses students must meet the following requirements:

• Cumulative GPA of 2.5 or higher
• Cumulative GPA of 3.0 or higher in all major courses
• Earn at least a "C" or better in all major courses
• Repeat no more than two major courses
• Satisfactory portfolio review by the end of the 200-level course sequence

Students participate in a portfolio review upon completion of VCD 210, 230, and VCD 256. Students who earn a rating of unsatisfactory in the portfolio review are placed on probation and are reviewed again at the end of the year. Students who do not earn a rating of satisfactory at the end-of-the-year portfolio review will be dismissed from the major.

Progression criteria for students entering senior-level course sequence.

To progress to the 400-level IAD, MOGR, PHOTO, or VCD courses, students must meet the following requirements:

• Cumulative GPA of 2.5 or higher
• Cumulative GPA of 3.0 or higher in all major courses
• Earn at least a "C" or better in all major courses
• Repeat no more than two major courses

Probation: A student who does not achieve a satisfactory first- or second-year portfolio review, or who does not meet minimum GPA standards, or who earns any combination of two grades of "C-" or lower will be notified, in writing, by the department chair that he or she is on probation in the major. Students on probation may continue to take courses in the major provided all other progression criteria are met.

Dismissal: A student will automatically be dismissed from the major if any of the following occurs:

• The student earns a third grade of "C-" or lower in any major course
• The student does not participate in required portfolio reviews
• The student is on probation and does not earn a satisfactory portfolio review at the end of the 200-level course sequence

If dismissed from the major, student’s major will be changed to another program. Students may seek readmission to the visual communication design major following the "Policy for Seeking Readmission to the Major."
The department chair has final authority to determine standing in the major.

The visual communication design program policies for continuance and progression are distributed to all new students during the First-Year Seminar and transfer advising.

**Visual Communication Design Program Requirements**

The courses listed below are required for completion of the bachelor’s degree in visual communication design. Students must also complete the requirements for the Stevenson Educational Experience (SEE).

Specific pre- and co-requisites for each course are listed in the course descriptions.

Visual communication design majors may take the general course of study or may select the interactive design, motion graphics or photography track.

Students must also complete the courses for the general program or one of the tracks listed below.

**Visual Communication (General Program):**

- VCD 330 | Typography II
- Six credits of Communication Design electives. (See list above)
- Six credits of Materials and Methods electives. (See list above)

**Interactive Design Track:**

- CM 223 | Writing for the Web
- IAD 380 | Advanced Interactive Studio
- IAD 381 | Mobile and Responsive Design
- IAD 480 | Interactive Design Special Topics
- VCD 330 | Typography II
- Three credits of Materials and Methods electives. (See list above)

**Motion Graphics Track:**

- ART 256 | Commercial and Industrial Scriptwriting
- MOGR 330 | Typography in Motion
- MOGR 331 | Intermediate Motion Graphics
- MOGR 431 | Advanced Motion Graphics and Effects
- Three credits of Communication Design electives. (See list above)
- Three credits of Materials and Methods courses. (See list above)

**Photography Track:**

- PHOTO 241 | Intermediate Digital Photography
- PHOTO 341 | Advanced Studio Photography
- PHOTO 342 | Documentary and Photojournalism
- PHOTO 480 | Photo Studio Special Topics
- Three credits of Communication Design electives. (See list above)

**Visual Communication Design Other Options**

**Minor:**

A minor in art is available. All course prerequisites must be met to be eligible to take the selected course for a minor. Please see an academic advisor for more information. Specific information regarding minor requirements may be found in the Academic Information section of the catalog.

**Visual Communication Design Course Descriptions**

**Art Courses**

**ART 106 Introduction to Art History**

*3 credits, Fall and Spring*

Provides a foundation in art history, introducing issues central to the study and interpretation of visual culture. Through class discussions and assignments emphasizing comparative analysis and writing skills, students will be challenged to think critically about the nature of art and the discipline of art history. This course focuses on "visual literacy" - on building and employing the vocabulary needed to discuss and interpret works of art and architecture.

**Prerequisite(s):** A grade of "C" or better in ENG 151 (may be taken concurrently)

**ART 110 Fundamentals of Design I**

*3 credits, Fall and Spring*

Introduces the elements and principles of two-dimensional design, providing an essential foundation for anyone working in visual media. This course familiarizes students with the theory and process of solving visual problems. Basic material, technical, and presentation skills are developed using traditional and digital
tools. Art history and visual culture references are incorporated into lectures and projects. Students will practice using design research and creative thinking to generate ideas. Emphasis is placed on planning, executing, and presenting individual solutions. Students will discuss their work and the work of their classmates during faculty-led critiques. This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** None

**ART 113 Fundamentals of Design II**

*3 credits, Spring*

Expands upon skills using elements and principles of two-dimensional design while introducing three-dimensional design and color theory. This course stresses the theory and process of solving design problems using color and form, essential tools for all designers. This course also builds on material, technical, and presentation skills working with traditional and digital media. Art history and visual culture references are incorporated into lectures and projects. Students practice using design research and creative thinking working independently and in groups to ideate, plan, execute, and present solutions. Students discuss their work and the work of their classmates during small-group and faculty-led critiques. This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in ART 110

**ART 116 Drawing I**

*3 credits, Fall and Spring*

Explores drawing as a method of representation as well as a means of organizing and expressing ideas. This course introduces basic skills and techniques of drawing from direct observation using subjects such as still life, landscape, and architecture. Students use the tools of organization, composition, representation, abstraction, value, perspective, rapid visualization, and the focused practice of maintaining a sketchbook. Students work with various traditional and digital media. Students will present and discuss their work and the work of their classmates during faculty-led critiques. Art history and visual culture references are incorporated into lectures and projects. This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** None

**ART 117 Drawing II**

*3 credits, Spring*

Focuses on drawing as a means of organizing and expressing ideas. This course expands upon basic skills and techniques taught in Drawing I, emphasizing communication and personal expression through use of composition, color theory, and abstraction. Students draw still life, interior, landscape, portrait, and the live model subjects to improve and expand their practice. Emphasis is placed on expressing ideas using a variety of materials and approaches in traditional, digital, and experimental media. Students will present and discuss their work and the work of their classmates during faculty-led critiques. Art history and visual culture references are incorporated into lectures and projects. This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in ART 116

**ART 205 Art History Survey Topics**

*3 credits, Fall and Spring*

Explores artists, objects, and institutions that shape historical eras of art. Students will classify, organize, and interpret visual and material artifacts in the specified era of study. Students will also examine culturally-determined meanings embedded in art and design production. Emphasis is placed on acquiring research habits and developing verbal, written, and presentation communication skills. Topics include: Ancient to Gothic, Renaissance to Modern, and Postmodern/Contemporary.

**Prerequisite(s):** A grade of "C" or better in ART 106

**ART 215 Painting I**

*3 credits, Fall*

Develops techniques and approaches to painting. Emphasis is placed on developing an awareness and control of the media as well as an understanding of the freedom and motion that are present in art. Students work from a variety of subject matters in a creative way with stress on sound design principles. This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in ART 113 and ART 116

**ART 216 Painting II**

*3 credits, Spring*

Continues engaging students with college-level painting experience. Students' knowledge of the use of paint, color mixing, and composition is expanded. Initial emphasis is on painting what one sees, i.e. the still life, the landscape, or the model. This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in ART 215

**ART 217 Figure Drawing**

*3 credits, Fall*

Continues to provide college-level drawing experience to students who are interested in a focused study of the human form through observational drawing from live models. This course satisfies either the second drawing course or a focused elective requirement for VART majors. This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in ART 117

**ART 219 Printmaking**

*3 credits, Fall and Spring*

Introduces basic printmaking techniques. Relief, intaglio, and planographic processes are introduced. Students are encouraged to combine techniques to create more complex images. This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in ART 113 and 117

**ART 241 Creative Development in Young Children**

*3 credits, Spring*

Focuses on the nature of artistic and creative development in early childhood. Topics include the nature of creativity, theories of development in the arts, developmental sequence in music, visual arts, dramatic play, and exemplary arts education programs for young children. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** None

**ART 242 Creative Development in Elementary Education**

*3 credits, Spring*

Sets forth a foundation for students to understand and nurture the creative development and the creative process. Students will have opportunities to practice integrating the arts into education. Throughout this course, students are encouraged to develop their own creativity and divergent thinking. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** None

**ART 250 Topics in Alternative Fine Art Processes**

*3 credits, Fall and Spring (offered as needed)*

Explores and practices visual languages that are highly connected to the worlds of fine art alternative process technologies in
printmaking and painting. This course includes the study of media innovations and digital imaging applications. Topics may vary each semester. This course includes studio and lecture. Students will need to purchase supplies/materials for this course. 

**Prerequisite(s):** A grade of "C" or better ART 117

### ART 256 Commercial & Industrial Scriptwriting

3 credits, Spring (offered as needed)

Develops skills in writing for motion media. Emphasis is on the two-sided script as a standard format for scripts used in the advertising and communication fields. Students examine the co-relationship of images and text, conceive and write a treatment, generate a storyboard, practice writing commercial scripts for radio, TV commercials, public service announcements or industrial communication that will fulfill client objectives and direct production teams.

**Prerequisite(s):** A grade of "C" or better in ENG 152 or equivalent

### ART 305 Topics in Art History

3 credits, Fall and Spring

Builds on knowledge acquired in art history survey classes. This course guides students to engage in self-directed in-depth research and investigations of visual and material culture within a specific art or design discipline. Students will interpret visual and material traditions in project-based activities. Students will also consider and forecast subject production and cultural significance. Topics may be Design, Graphic Design, Moving Images & Art, or Photography.

**Prerequisite(s):** A grade of "C" or better in ENG 152 and ART 205

### ART 315 Surface Design

3 credits, Spring

Builds on concepts, tools, and forms explored in foundation art and design courses. Students will study surface design in context, including design approaches, production processes, and applications. Hand-made, digital, and mixed-media designs will be produced. Students who complete this course will have a fundamental understanding of how surface design formats and processes are applied in environmental, fashion, product, and visual communication design production. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in VCD 125 and a 200-level ART/PHTO course or VCD 125 and FDES 210

### ART 365 Art Studio: Independent Study

3 credits, Fall or Spring (offered as needed)

Provides an opportunity for motivated students to explore a self-initiated fine art or VCD project within the structure of a classroom environment. Students will submit a written proposal to the art department chair and faculty member teaching this course that describes the intended project to be completed over the semester. Project content may be fine art or VCD or a combination of the two; it is also possible that a group project may be the focus of students’ work (i.e. a mural or exhibition). This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in VCD 230 and VCD 210

### ART 465 Art Studio: Independent Study

3 credits, Fall or Spring (offered as needed)

Provides an opportunity for motivated students to explore a self-initiated fine art or VCD project within the structure of a classroom environment. Students will submit a written proposal to the department chair of art and faculty member teaching this course that describes the intended project to be completed over the semester. The ART 465 proposal must include documentation of the student’s ART 365 project. Project content may be fine art or VCD or a combination of the two; it is also possible that a group project may be the focus of students’ work (i.e. a mural or exhibition). This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in VCD 308, VCD 321, and ART 365

### ART 490 Internship II

3 credits, Fall and Spring

Builds upon students’ ART 390 internship experience. This second VCD internship is an opportunity for the VCD student to further explore their design interests in a professional setting. Students will secure a second internship before enrolling in the course. Once the internship is secured, a meeting with the internship coordinator is required. ART 490 students will mentor Art 390 students through presentations and research assistance. Professional practice topics will also be explored in this class.

**Prerequisite(s):** A grade of "P" or better in ART 390

#### Interactive Design Courses

### IAD 380 Advanced Interactive Studio

3 credits, Spring

Builds on web design skills developed in VCD 208 and VCD 308: Web Design I and II. This course covers the utilization of advanced elements of hypertext markup language (HTML), more complex cascading style sheets (CSS), and integrating multimedia and interactive files into web pages. Web analytics, current scripts, plug-ins, and standards-based code validation are incorporated. Students produce multifaceted interactive web solutions for a variety of interactive design challenges and practice using newly published applications. Emphasis is placed on creating and rendering solutions that are portfolio-quality and adhere to professional standards and best practices. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in VCD 308

### IAD 381 Mobile and Responsive Design

3 credits, Spring

Focuses on mobile and interactive design for new and emerging digital environments. Students develop the skills to use media queries and to create flexible layouts, fluid grids, responsive navigation, and scaling images. Emphasis is placed on designing, developing, and implementing a mobile website, a desktop website, and a single responsive version of a web site that can be shared by multiple digital platforms including tablets. Responsive designs are specifically developed to fit screen size, platform, touch interfaces, and the orientation of each digital device. Design aesthetics and typography principles are utilized in accordance with best practices. In-class demonstrations and lab exercises supplement hands-on research-oriented projects. Students integrate strategies for creating robust interactive solutions based upon peer reviews and critiques. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in VCD 308
IAD 480 Interactive Design Special Topics
3 credits, Fall
Provides a variety of experiences that present specific interactive design skill sets and problem-solving methods in a design studio setting. Topics vary according to the latest techniques and software and hardware innovations, as well as contemporary cultural influences. Students synthesize the previous three years of interactive design techniques to research and realize design solutions that adhere to professional standards and best practices. Students produce portfolio-quality interactive work, taking into account audience, cultural, ethical, human, accessibility, and market factors. Since the interactive design field is continually evolving, students also explore specific career opportunities related to the course topic. This course may be repeated for credit if topics are different. Students will need to purchase supplies/materials for this course. Prerequisite(s): A grade of "C" or better in IAD 380

Motion Graphics Courses

MOGR 330 Typography in Motion
3 credits, Fall
Investigates principles of animation, motion typography, and sequential visual forms in 2-D time-based media. This course focuses on comprehensive project workflow, incorporating research, writing, storyboarding, designing, animation production, and audio/video compression. Students develop skills in animation practice and production utilizing industry-standard software. Projects highlight typographic and simple graphical elements, encouraging students to create sophisticated solutions using simplified methods. This introduction to the practice of animating graphics is supplemented by screenings of exemplary work in the fields of film title design, experimental animation, and broadcast graphics. This course includes studio and lecture. Students will need to purchase supplies/materials for this course. Prerequisite(s): A grade of "C" or better in VCD 256 and VCD 230 or a grade of "C" or better in FMI 222 and VCD 230

MOGR 331 Intermediate Motion Graphics
3 credits, Spring
Presents students with motion design problems to solve in a selection of real-world broadcast forms: PSAs, show openings, network IDs. 2-D motion graphics will be supplemented with live-action video and 3-D animation. Assignments focus on complex project workflow, production technique, variation, thematic concepts, and communication design theory. Students will need to purchase supplies/materials for this course. Prerequisite(s): A grade of "C" or better in MOGR 330

MOGR 431 Advanced Motion Graphics and Effects
3 credits, Fall
Offers experienced Motion Graphics students a challenging forum to explore sophisticated motion design ideas. Focus is placed on 2-D motion graphics for broadcast, understanding the details of the medium and delivery methods. Students will be encouraged to integrate skills from fine art, print design, web design, and video. Students create highly polished, real-world projects based on film titles, television commercials, PSAs, animated logos, etc. This course covers detailed utilization of expressions and effects in After Effects in addition to techniques for compositing motion graphics with video in After Effects and Final Cut Pro. Students will need to purchase supplies/materials for this course. Prerequisite(s): A grade of "C" or better in MOGR 330

MOGR 480 Design Studio Special Topics
3 credits, Fall, Spring, and Summer (offered as needed)
Provides motion graphics seniors with a variety of design studio experiences that present specific design skill sets and problem-solving methods in a design studio setting. Studios will be taught by a variety of faculty and professional designers whose experiences are relevant to the specific Design Studio topic. Students will synthesize techniques and technologies learned in the major with simultaneous exploration of career opportunities. This course includes studio and lecture. Students will need to purchase supplies/materials for this course. Prerequisite(s): A grade of "C" or better in MOGR 330 or MOGR 331

Photography Courses

PHOTO 140 Photography
3 credits, Fall and Spring
Introduces students to the photographic process with emphasis on the technical process of camera control, film processing, and black and white photographic printing in a darkroom. Time is devoted to the aesthetic considerations of photography and to the criticisms of the student’s work both technically and aesthetically. This course includes studio and lecture. Students will need to purchase supplies/materials for this course. Prerequisite(s): None

PHOTO 141 Basic Digital Photography
3 credits, Fall, Spring, and Summer
Introduces digital photography including the operation of a DSLR camera and introductory level digital photography techniques. Attention will be given to the technical aspects of manual camera control, editing, digital image processing, inkjet printing, and image presentation. Students will learn exposure, digital image enhancement, and preparation of images for print and online viewing. Aesthetic and creative concerns will be emphasized, using photography as a tool for documentation, communication, expression, and emotional appeal. This course also explores making informed choices in composition, subject matter, and framing. Students will need to purchase supplies/materials for this course. Prerequisite(s): None

PHOTO 241 Intermediate Digital Photography
3 credits, Spring
Builds upon concepts taught in Photo 141 Basic Digital Photography. Students are introduced to advanced DSLR camera controls and digital post-production editing techniques. Industry-standard post-production software is used to enhance digital workflow. Students practice the use of electronic flash and learn to photograph in a studio and on location, including class field trips. Students apply professional standards and practices including copyright, appropriation, and fair use guidelines. Emphasis is placed on the production of a body of work consisting of an extended, thematically related series of images. Development of proper photographic printing and presentation skills is required. Students will need to purchase supplies/materials for this course. Prerequisite(s): A grade of "C" or better in Photo 141

PHOTO 242 Fashion and Portrait Photography
3 credits, Spring
Investigates the photographic medium as it relates to the fashion industry. Students use industry-standard techniques when photographing the human form, clothing, and accessories for publishing in advertising, editorial, and catalog formats. Intermediate digital camera, workflow and post-production imaging methods are presented. Emphasis is placed on the application of artificial lighting both in studio and on location. An understanding of the role of an image stylist, the importance of creative direction, brand image, and the function of a creative team are studied. Students are given the opportunity to work with industry professionals. Students apply aesthetic and creative principles while also adhering to copyright and fair use guidelines. Students generate a portfolio of fashion photographs.
and participate in group critiques and peer evaluations. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in PHOTO 141

**PHOTO 250 Alternative Photographic Processes**  
**3 credits, Fall**  
Explores and practices visual languages that are highly connected to the worlds of fine art alternative process technologies in photography, printmaking and painting. This course includes the study of media innovations and digital imaging applications. Topics may vary each semester. This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in PHOTO 141

**PHOTO 341 Advanced Studio Photography**  
**3 credits, Fall**  
Emphasizes professional studio photography techniques. This course focuses on individual photographic work while further developing students' technical mastery and aesthetic quality. Students pursue various methods of image making that include editorial, commercial and advertising, and fine art with an emphasis on studio and location lighting techniques and imaging methods. This course further develops students' skills in camera operation, post-production image manipulation, digital and analog printing processes, and professional practices. Medium- and large-format analog film cameras and darkroom techniques are introduced. Students develop a professional quality portfolio for presentation in print and online. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in PHOTO 241 OR PHOTO 242

**PHOTO 342 Documentary and Photojournalism**  
**3 credits, Fall**  
Investigates documentary and photojournalism genres of photography. This course presents an in-depth study of photography as a method of non-fiction story telling and objective account. Students investigate various methods of impartial short and long form image making with attention given to understanding how the creation of truthful and candid images can inform the viewer, establish a connection to the community and prompt social change. Presents concepts for discussion including methodology, ethics, social, and political significance. Timeliness, objectivity, and the importance of narrative are emphasized. Historically and socially relevant photographers and photographs are analyzed. Students execute an extended series photographic essay in a style of their choosing for presentation in print and electronic formats. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in PHOTO 241 OR PHOTO 242

**PHOTO 480 Photo Studio Special Topics**  
**3 credits, Fall, Spring, and Summer**  
Provides photography seniors with a variety of design studio experiences that present specific design skill sets and problem-solving methods in a design studio setting. Studios will be taught by a variety of faculty and professional photographers whose experiences are relevant to the specific Studio topic.

Students will synthesize techniques and technologies learned in the major with simultaneous exploration of career opportunities. This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in PHOTO 341 or PHOTO 342

**Visual Communication Design Courses**

**VCD 124 Introduction to Computer Graphics**  
**3 credits, Fall**  
Introduces students to the Macintosh computer and the major software programs that will be used in subsequent design classes: Adobe InDesign, Adobe Illustrator, and Adobe Photoshop. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** None

**VCD 125 Fundamentals of Digital Media**  
**3 credits, Spring**  
Introduces basic skills and key concepts in computer graphics using industry-standard software. Students develop the ability to create, control, and manipulate digital images for print, interactive, and motion media using a Macintosh platform in a studio environment. In-class demonstrations and exercises are supplemented by research-based projects incorporating historic and contemporary visual culture and digital design references. Students are required to apply the appropriate newly learned tools in the creation of original imagery. Emphasis is placed on selecting and utilizing software and hardware in accordance with professional standards and practices. Course includes studio and lecture. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in ART 110

**VCD 208 Web Design I**  
**3 credits, Spring**  
Introduces the basic concepts integral to designing websites for interactive media. Students learn interactive design principles and standards-based design practices that underlie digital design production. Using front-end development techniques, students will design wire frames and then implement these creative designs as websites. Emphasis will be on the website development process and workflow including how to create and manipulate both hypertext markup language (HTML) and cascading style sheet (CSS) web pages; designing images and typography for the Web; planning information architecture; and increasing usability, accessibility, and functionality for an enhanced user experience online. This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in VCD 125 and ART 113

**VCD 210 Communication Design I**  
**3 credits, Fall**  
Emphasizes research, idea generation, and creating solutions to a range of open-ended problems using the process of design thinking. Through broad topics and group projects, students will become familiar with design thinking practices and design terminology. Students will apply creative and critical thinking to develop solutions for communication design problems. Consideration of audience and related design factors will be examined along with historical and contemporary examples of applied design thinking. Computer production techniques, presentation, and critiquing skills will be further developed through practice. This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

**Prerequisite(s):** A grade of "C" or better in both ART 113 and VCD 125

**VCD 211 Communication Design II**  
**3 credits, Spring**  
Builds on knowledge and skills introduced in VCD 210. Through well-defined problems and with an emphasis on developing independent working methods, students use critical and creative thinking to formulate effective design solutions. With guidance, students will determine their preferred process for conducting research and working through idea development and
improvement phases of the design process. Design thinking strategies are applied to produce audience-focused design solutions. Students will determine how design solutions will translate onto multimedia platforms based on research of the end-user. Presentation and critiquing skills will be further developed as students learn to interpret, discuss, and compare visual forms and messages. This course includes studio and lecture. Students will need to purchase supplies/materials for this course. **Prerequisite(s):** A grade of "C" or better in VCD 210

**VCD 230 Typography I**  
3 credits, Fall

Provides students with a strong foundation in typography, a fundamental element in communication design. Students acquire an appreciation of type as form and as a communication element, learn to recognize typographic terminology, standards, and historical contexts, while explaining production and layout approaches. Students utilize both hand-skills and industry-standard software techniques to learn and practice the professional standards of typography. These skills will be demonstrated in single and multi-page assignments. This course includes studio and lecture. Students will need to purchase supplies/materials for this course. **Prerequisite(s):** A grade of "C" or better in VCD-125 and ART-113 OR a grade of "C" or better in VCD-125 and FMI-102

**VCD 256 The Moving Image**  
3 credits, Fall

Investigates the language and craft of motion media through screenings, readings, and production exercises. Students learn to plan, shoot, and edit video using the same professional-quality video cameras and editing software employed in the video industry. Students will be introduced to storyboards and sequential storytelling. Additional emphasis will be given to capturing and editing sound, fully exploring its impact on video. This course focuses on video as an art form and a communication channel, less on traditional narrative film techniques. Assignments build in complexity from camera exercises to group video productions. Technical skills learned in VCD 125 will be expanded. This course includes studio and lecture. Students will need to purchase supplies/materials for this course. **Prerequisite(s):** A grade of "C" or better in VCD 125 and PHOTO 141

**VCD 270 Introduction to Corporate Communication Design**  
3 credits, Spring

Builds on technology skills introduced in VCD 124. This course gives non-designers the skills they need to produce professional publications, including writing, editing, designing, and printing. Emphasis is placed on communicating ideas effectively in a variety of media, understanding basic design and typographic principles, and using publishing software to create print-ready documents. This course includes studio and lecture. Students will need to purchase supplies/materials for this course. **Restricted to non-visual communication design majors. Prerequisite(s):** A grade of "C" or better in VCD 124

**VCD 308 Web Design II**  
3 credits, Fall

Builds on web design concepts, skills, and strategies developed in Web Design I, advancing further the development and implementation of interactive design projects. This course focuses on synthesizing more complex elements of hypertext markup language (HTML) and cascading style sheet (CSS), and introduces students to basic Flash animation and scripting techniques to realize creative design solutions. Intermediate level websites are created for various platforms. Design aesthetics and typography principles are emphasized as applicable to interactive media. Design for mobile devices and small screens, content management systems (CMS), and Search Engine Optimization (SEO) are also addressed. This course includes studio and lecture. Students will need to purchase supplies/materials for this course. **Prerequisite(s):** A grade of "C" or better in VCD 208

**VCD 310 Communication Design III**  
3 credits, Fall

Builds on problem-solving and creative processes developed in Communication Design II with continued development in the implementation of design strategies. Students solve more complex human-centered design problems using design thinking and professional production practices to create multiple prototypes that function across various media platforms. Students conduct design research, integrate visual culture, demonstrate intermediate level design software knowledge, and practice production techniques. Through research, collaboration, critiques and presentations students solve design problems, formulate solutions, document their findings, and compose visual forms. This course includes studio, lecture, and field trips. Students will need to purchase supplies/materials for this course. **Prerequisite(s):** A grade of "C" or better in VCD 211

**VCD 330 Typography II**  
3 credits, Fall and Spring

Applies conceptual and practical aspects of typography and publication design while developing an appreciation of the limitations of print and digital environments and discovering the possibilities within these limitations. Students will recognize typography as an art form as well as a crucial element in communication design and study individual characteristics of type, recognizing the effect typography has on the reader. Emphasis will be placed on taking typography to a professional level through practical assignments with the ultimate goal of constructing portfolio-ready projects. This course includes studio and lecture. Students will need to purchase supplies/materials for this course. **Prerequisite(s):** A grade of "C" or better in VCD 230

**VCD 370 The Relationship of Design and Business**  
3 credits, Fall

Analyses the client/designer relationship from both design and business perspectives while seeking to develop a mutual appreciation. Emphasis will be placed on analyzing case studies, writing a design brief, understanding and communicating responsibilities, and addressing ethical and legal questions. Students will need to purchase supplies/materials for this course. **Prerequisite(s):** A grade of "C" or better in VCD 211 or VCD 270

**VCD 380 Professional Design Studio**  
3 credits, Spring

Simulates a professional design studio environment. Students work independently and collaboratively to solve design problems presented by invited guest faculty. With the guidance and mentoring of the guest faculty, students employ professional design standards and practices while building prototypes, implementing production techniques, and evaluating designs in critiques and presentations. Students gain access to a professional network of practicing designers. Through this exposure, students synthesize established and emerging design practices and technologies into coursework. This course includes lecture, studio, and demonstrations. Students will need to purchase supplies/materials for this course. **Prerequisite(s):** A grade of "C" or better in VCD 310

**VCD 410 Portfolio & Professional Development**  
3 credits, Fall

Prepares students for entry into the Visual Communication Design profession or related field. Students study the professional standards and practices shared by all Visual Communication
Design track areas and integrate best practices relevant to their selected track, motivated strengths, career interests, life values, and stated short- and long-term goals. Students create meaningful and engaging professional identity materials including appropriate portfolios of examples that represent their abilities and experience in multiple contexts and formats. A series of workshops are included to help students navigate the first 3-5 years of professional work life. Evaluation culminates with a review from a professional round table. Students will need to purchase supplies/materials for this course.

Prerequisite(s): A grade of "C" or better in VCD 308 and VCD 330

VCD 440 Designing for a Target Market
3 credits, Fall or Spring (offered as needed)
Focuses on how to research and design for a target market. Students apply research, conceptual problem-solving skills, and elements of visual communication design to case study projects. Emphasis will be placed on methodology for research and idea generation, the ability to design for a specific target market, and the ability to present concepts clearly. This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

Prerequisite(s): A grade of "C" or better in VCD 208 and VCD 211

VCD 450 Senior Capstone
3 credits, Fall, Spring, and Summer
Provides an opportunity for students to prepare a collaborative Design Showcase presenting individual work from senior-level design students in a physical and online presentation. Work can include, but is not limited to, products, objects, designs, interactive experiences, and unique processes. Students work collaboratively to research possible topics and choose a theme. Large-scale ideas tackling cultural, political, social, or economic issues are encouraged. From detailed individual proposals, students spend the spring semester realizing their project. Modeling a professional design student setting, students navigate through the design process technically, conceptually, and socially. Students will need to purchase supplies/materials for this course.

Prerequisite(s): Senior status, and a grade of "C" or better in VCD 310

VCD 480 Design Studio Special Topics
3 credits, Fall, Spring, and Summer
Provides visual communication design seniors with a variety of design studio experiences that present specific design skill sets and problem-solving methods in a design studio setting. Studios will be taught by a variety of faculty and professional designers whose experiences are relevant to the specific Design Studio topic. Students will synthesize techniques and technologies learned in the major with simultaneous exploration of career opportunities. This course includes studio and lecture. Students will need to purchase supplies/materials for this course.

Prerequisite(s): A grade of "C" or better in VCD 310

Course descriptions for French and Spanish are listed in this section. Full-time students interested in languages other than French and Spanish are eligible to participate in the Baltimore Student Exchange program with area colleges and universities. Contact the Registrar’s Office for information on this program.

**World Languages Course Descriptions**

**French Courses**

*FR 101 Elementary French I*
4 credits, Fall
Introduces the basics of French communication skills, including speaking, listening, reading, writing, and major grammatical constructions. The course furnishes a basis for the further development of these communications skills in FR 102. A grade of “C” or better is required to advance to the next level.

Prerequisite(s): Not open to native speakers or students with two or more years of high school French

*FR 102 Elementary French II*
4 credits, Spring
Continues the basics of French communication skills covered in FR 101, especially the study of major grammatical constructions, and further develops the skills of reading and writing in preparation for study at the intermediate level.

Prerequisite(s): Placement, two successful years of high school French, or a grade of “C” or better in FR 101

*FR 201 Intermediate French I*
3 credits, Fall
Continues development of the basic communication skills of speaking, listening, reading, and writing, as well as the study of vocabulary and grammar. Students learn to communicate in correct, simple French. This course introduces students to selected works of literature and various aspects of French culture. Class is conducted in French.

Prerequisite(s): A grade of “C” or better in FR 102, placement (three or more successful years of high school French), or a score of 500+ on the SAT II test

*FR 202 Intermediate French II*
3 credits, Spring
Continues development of communication skills, including speaking, listening, reading, and writing. This course also includes an introduction to translation of works of literature and topics of French culture. Students gain further practice in spoken and written language. Students continue the study of French literature and culture. Class is conducted in French.

Prerequisite(s): A grade of "C" or better in FR 201

**Spanish Courses**

*SPN 101 Elementary Spanish I*
4 credits, Fall
Introduces the basics of Spanish communication skills, including speaking, listening, reading, writing, and major grammatical constructions. The course furnishes a basis for the further development of these communications skills in SPN 102. A grade of at least “C” or better is required to advance to the next level.

Prerequisite(s): Not open to native speakers or students with two or more years of high school Spanish

*SPN 102 Elementary Spanish II*
4 credits, Spring
Continues the study of the basics of the Spanish communication skills covered in SPN 101, especially the study of major grammatical constructions, and further develops the skills of reading and writing in preparation for study at the intermediate level.

Prerequisite(s): Placement, two successful years of high school Spanish, or a grade of “C” or better in SPN 101

**School of Humanities and Social Sciences**

**Department of English**

Stevenson University does not currently offer a bachelor’s degree in world languages; however, elementary and intermediate level courses in French and Spanish are offered. The intermediate levels of these courses are required for the Bachelor of Arts degree. First-semester foreign languages (101) are not open to native speakers or those with two or more years of language in high school. Placement is required for French or Spanish intermediate levels. See the placement section of this catalog for additional information.
SPN 201 Intermediate Spanish I
3 credits, Fall
Continues development of the basic communication skills of speaking, listening, reading, and writing, as well as the study of vocabulary and grammar. This course includes an intensive grammar review with special attention given to conversational and writing skills. This course introduces students to selected works of literature, selected topics of Hispanic culture, and the relations of culture to language development. Class is conducted in Spanish.
Prerequisite(s): A grade of “C” or better in SPN 102, placement (three or more years of high school Spanish), or a score of 500+ on the SAT II test

SPN 202 Intermediate Spanish II
3 credits, Spring
Continues grammar review, with an emphasis on translation and reading works of literature in original text. Students gain further practice in spoken and written language and continue the study of Hispanic literature and cultures. Class is conducted in Spanish.
Prerequisite(s): A grade of “C” or better in SPN 201

M.Ed., Loyola University Maryland;  
M.S., University of Maryland, Baltimore  

Walter Calahan (2010)  
Adjunct Instructor, Art  
B.S., Syracuse University;  
M.A., McDaniel College  

Adjunct Instructor, English and Business Communication  
B.A., Fort Lewis College (CO);  
M.A., University of Colorado, Boulder  

Cristina Cardona (2014)  
Adjunct Instructor, Physical Science  
B.S., Dickinson College  
M.S., American University  

Robert Care (2010)  
Adjunct Instructor, English  
A.A., Allegany College;  
B.S., Frostburg State University;  
M.A., Towson University  

Patrick M. Carroll, Jr. (2005)  
Adjunct Instructor, Information Systems  
B.S., University of Maryland University College;  
M.S., The George Washington University  

Louise Carwell (2009)  
Adjunct Professor, Law  
B.A., University of Rochester;  
J.D., Case Western Reserve University  

Adrienne Casalena (2008)  
Adjunct Professor, English  
B.A., Goucher College;  
M.F.A., University of Maryland, College Park  

Susan Casciani (2012)  
Adjunct Professor, Healthcare Management  
B.S., State University of New York, Fredonia;  
M.S., D’Youville College, Buffalo;  
M.B.A., State University of New York, Buffalo  

Barry Casey (2010)  
Adjunct Professor, Business Communication  
B.A., Pacific Union College;  
M.A., Andrews University;  
M.A., Ph.D., Claremont Graduate School  

Adjunct Instructor, Theatre
Maurice Champagne (2013)
Adjunct Professor, English
B.A., La Salle University;
M.A., Ph.D., University of Maryland, College Park

Aaron Chandler (2010)
Assistant Professor, English
B.A., Roanoke College;
M.A., Hollins University;
Ph.D., University of North Carolina, Greensboro

Pamela R. Chaney (2006)
Adjunct Professor, Law
B.S., Virginia Commonwealth University;
J.D., University of Maryland, Baltimore

Todd Chason (2009)
Adjunct Professor, Political Science and Law
A.A., B.S., Stevenson University;
J.D., University of Baltimore

Thomas Christianson (2012)
Adjunct Instructor, Philosophy and Religion
M.A., Regent University

Betty E. Ciesla, MT(ASCP)SH (1999)
Adjunct Professor, Medical Technology
B.S., Philadelphia College of Pharmacy and Science;
M.S., Towson University

Melissa Clark (2009)
Adjunct Professor, Forensic Science
B.S., M.S., Stevenson University

Ronald Clark (2013)
Adjunct Instructor, Cyber Forensics
B.S., Western Carolina University

Ellen R. Clayton, RN (2006)
Interim Chair and Instructor, Nursing
B.S., Towson University;
M.S., University of Maryland

Douglas Coats (2014)
Adjunct Professor, Accounting

A.A., Catonsville Community College;  
B.S., M.S., University of Maryland, Baltimore

Bernette Downs (2014)  
Adjunct Instructor, Business Communication  
B.S., Howard University;  
M.S., University of the District of Columbia

Daniel Dregier, Jr. (2010)  
Adjunct Professor, Business Administration and Law  
B.A., Loyola University Maryland;  
J.D., University of Baltimore, School of Law

David C. Drewer (1996)  
Adjunct Professor, Physics  
B.A., M.A., Ph.D., The Johns Hopkins University

Christine Drouin (2011)  
Adjunct Instructor, Marching Band  
B.S., West Chester University of Pennsylvania

Jeffrey F. Dudley (2005)  
Adjunct Instructor, Marketing  
B.S., Towson University;  
M.S., McDaniel College
Robert Dugan (2005)
**Adjunct Professor, Law**
B.A., Washington College;
L.L.B., University of Maryland, Baltimore City

Hilda Dunkwu (2014)
**Adjunct Professor, Paralegal Studies**
L.L.B., University of Benin, Nigeria;
L.L.M., University of San Diego
Ph.D., Nova Southeastern University

Meredith C. Durmowicz (2002)
**Associate Dean and Chair, Biological Sciences and Professor, Biology**
B.S., Marquette University;
Ph.D., The Johns Hopkins University

Timothy M. Dwyer (2006)
**Professor, Chemistry**
B.S., Regis College;
Ph.D., Dartmouth College

LaTonya Dyett (2013)
**Adjunct Professor, Developmental Studies**
B.S., Morgan State University;
M.Ed., American Inter-Continental University;
Ph.D., Capella University

Shannon Dyson (2014)
**Adjunct Instructor, Art**
B.S., Stevenson University;
M.A., University of Baltimore

Helaina Ebling (2011)
**Adjunct Professor, Human Services**
A.A., Villa Julie College;
B.A., Towson University;
M.S., University of Maryland Baltimore County

Jude Edwards (2013)
**Adjunct Professor, Business and Technology Management**
B.S., M.S., University of Maryland University College;
D.B.A., Nova Southeastern University

**Coordinator, Distance Learning and Adjunct Professor, Information Systems**
B.S., University of Maryland;
M.Ed., Salisbury University

Kristel Ehrhardt (2014)
**Adjunct Instructor, Developmental Math**
A.A., Frederick Community College;
B.S., Strayer University;
B.A., M.A., University of Maryland, Baltimore County

Ephraim Eisenberger (2007)
**Adjunct Professor, Mathematics**
B.S., Brooklyn College;
M.S., New York University;
M.S., University of Southern California, Los Angeles

Jeffrey D. Elliott (2001)
**Chair and Professor, Psychology**
B.A., M.A., Salisbury State University;
Ph.D., University of Maryland, Baltimore County

Patrick M. Ellis (1987)
**Special Assistant to the Dean and Professor, Law and Business**
B.A., Western Maryland College;
M.B.A., Frostburg State University;
J.D., The Catholic University of America

Robert A. Ellis (2006)
**Adjunct Professor, Business Communication**
B.A., Towson University;
M.A., University of Baltimore

Adanna Emeji, RN (2012)
**Adjunct Instructor, Nursing**
B.S., Fitchburg State University;
M.S., M.P.H.E., University of Maryland, Baltimore

Jonathon Englebrecht (2014)
**Adjunct Instructor, Mathematics**
B.S., Stevenson University;
M.A.T., Towson University

Steven R. Engorn (1989)
**Interim Chair, Information Systems and Program Coordinator and Assistant Professor, Business and Technology Management**
A.A., Catonsville Community College;
B.S., The American University;
M.B.A., Loyola College in Maryland

Kevin L. Ensor (2008)
**Adjunct Professor, Human Services**
B.A., Towson University;
M.Ed., Loyola College in Maryland;
Ph.D., University of Maryland, College Park

Roxanne Epps (2011)
**Adjunct Professor, Human Services**
B.A., Morgan State University;
M.S.W., Howard University

Jennifer L. Erdman (2007)
**Adjunct Professor, History**
B.S., Villa Julie College;
M.A., Morgan State University

Gilbert P. Ermer (1985)
**Assistant Professor, Economics**
B.A., University of Maryland, Baltimore County;
M.S., University of Baltimore

Jennifer D. Fain-Thornton (2007)
**Adjunct Professor, Biology**
B.S., Alabama A&M University;
M.S., Ph.D., The Ohio State University

Kathryn Falcone (2014)
**Adjunct Professor, Theatre**
B.A., University of Maryland, Baltimore County;
M.F.A., California Institute of the Arts

Shannon Familetti (2014)
**Adjunct Instructor, Chemistry**
B.A., College of the Holy Cross;
M.A., University of Virginia

Mohammad "Bagher" Fardanesh (2012)
**Adjunct Professor, Business Administration**
B.S., M.A., Ph.D., University of Colorado

Sandra Feldstein (2005)
**Adjunct Professor, Developmental Studies**
A.B., Hunter College, The City University of New York;
M.A., University of Connecticut;
Ed.D., University of Massachusetts

Shannon Fello (2009)
**Adjunct Instructor, Education**
B.S., Indiana University;
M.S., Loyola University Maryland

Amy Felton (2009)
**Adjunct Instructor, Education**
B.S., Pennsylvania State University;
M.A., Washington College

Dana Ferraris (2014)
**Visiting Assistant Professor, Chemistry**
B.A., Lafayette College;
M.A., M.B.A., Ph.D., The Johns Hopkins University

Judith A. Feustle, RN (1991)
**Associate Dean, GPS Nursing**
BSN, M.S., University of Maryland, Baltimore;

Dina Fiasconaro (2010)
**Assistant Professor, Film and Moving Image**
B.S., Syracuse University;
M.F.A., Columbia University

Arthur H. Fifer (2005)
**Assistant Professor, Information Systems**
B.S., Towson University;
M.B.A., Loyola College in Maryland

Amelia M. Fink (2003)
**Adjunct Professor, English**
B.S., M.A., The Ohio State University
Ministry M.D.I., Trinity Episcopal School For B.A., New York University; Adjunct Instructor, Film Douglas Folsom University; M.A., Ph.D., Fielding Graduate University; M.S., Devry University; B.B.A., M.A., St. Mary's University; Adjunct Professor, Information Systems Jimmie Flores University Park; M.Ed., Loyola University Maryland.

Mark Finn (2008) Adjunct Instructor, Mathematics B.S., M.S., Rensselaer Polytechnic Institute

Ted Fischer (2004) Assistant Professor, Education B.S., Towson University; M.Ed., Loyola University Maryland

Stefanie Fisher (2012) Adjunct Instructor, Biology A.A., Community College of Philadelphia; B.S., Temple University; M.S., Thomas Jefferson University

Elizabeth Fitzgerald (2003) Adjunct Professor, Developmental Studies B.S., University of Maryland, College Park; M.Ed., The Johns Hopkins University

Arlene Fleischmann (2010) Adjunct Instructor, Developmental Studies B.A., University of Maryland, College Park; M.Ed., McDaniel College

Jimmie Flores (2012) Adjunct Professor, Information Systems B.B.A., M.A., St. Mary's University; M.S., Devry University; M.S., M.S., M.Ed., Regis University; M.A., Ph.D., Fielding Graduate University; M.B.A., University of St. Thomas; D.M., University of Phoenix

William E. Folsom (2006) Adjunct Instructor, Forensic Studies A.A.S., Community College of the Air Force; B.S., M.S., University of Maryland University College

Alan R. Foote (1989) Assistant Professor, Information Systems B.A., Pennsylvania State University; M.B.A., University of Baltimore

Evon Ford (2013) Adjunct Professor, Chemistry B.A., State University of New York; Ph.D., Clarkson University

Brooke Fowler (2012) Adjunct Instructor, Business Communication B.S., Stevenson University; M.A., Duquesne University

Georgia A. Franyo (1989) Professor, Human Services B.A., Smith College; M.Ed., Harvard University; Ph.D., University of Delaware

Ora Freedman (2001) Professor, Economics B.A., M.A., Ph.D., State University of New York, Binghampton

Lisa Fridman (2011) Coordinator, SOLVE Center and Adjunct Instructor, Chemistry B.S., Florida Atlantic University; M.S., Purdue University, Indiana

Michael Gaffney (2007) Adjunct Professor, Music B.A., Loyola University Maryland; J.D., University of Maryland

Clotile S. Galbraith (2002) Associate Professor, Education B.S., Pennsylvania State University; University Park; Ed.M., Ed.D., Temple University

Traci Ganaway (2010) Adjunct Professor, Psychology B.A., Hampton University; M.S.W., Clark-Atlanta University; Ps.D., Adler School of Professional Psychology

Rita L. Gaughan (1990) Adjunct Professor, Mathematics B.S., Frostburg State College; M.Ed., Coppin State College

Sandra Genrich, RN (2011) Adjunct Professor, Nursing BSN, MSN, Wayne State University; Ph.D., The University of Texas at Arlington

Glenn Georgieff (2010) Adjunct Instructor, Mathematics A.A., Essex Community College; B.S., M.S., Towson University

Melissa Gerst (2014) Adjunct Instructor, Education B.S., Stevenson University; M.Ed., Towson University

James G. Gibb (2006) Adjunct Professor, History B.A., State University of New York, Stony Brook; M.A., Ph.D., State University of New York, Binghampton

James H. Gibson (2006) Adjunct Professor, Information Systems B.S., Valley Forge Christian College; M.S., Towson University

Jennifer Givens (2011) Adjunct Instructor, Education B.A., M.A., University of Maryland, Baltimore County

Rivka L. Glaser (2006) Visiting Assistant Professor, Biology B.A., Goucher College; Ph.D., The Johns Hopkins University

Julie Gleason (2012) Adjunct Instructor, Biology B.S., West Virginia Institute of Technology; Ph.D., University of Maryland, Baltimore County

Sara Godbee (2011) Librarian, Brown School of Business and Leadership and Adjunct Instructor, Business Administration B.S., University of South Carolina; B.A., College of Charleston; M.L.S., University of Maryland, College Park

Lauren Gonce (2008) Adjunct Professor, Psychology B.A., Goucher College; M.A., Ph.D., Bowling Green State University

Carole R. Gonzalez (1996) Adjunct Instructor, Biology B.S., Mount St. Mary's College; M.S., University of Maryland, Baltimore County
Guillermo Gonzalez (2010)
Adjunct Instructor, Spanish
B.A., Clarion University of Pennsylvania;
M.A., West Virginia University

Michael Gordon (2011)
Adjunct Professor, Criminal Justice
B.S., Northeastern University;
M.S., Shippensburg University;
D.P.A., University of Baltimore

Raymond Gordon (2002)
Adjunct Instructor, Physical Education

Susan T. Gorman (1991)
Senior Associate Vice President,
Academic Affairs, Dean, School of Sciences and Professor, Biology
B.A., Kenyon College;
Ph.D., The Johns Hopkins University

Lisa Gotschall, RN (2011)
Associate Professor, Nursing
BSN, Russell Sage College;
M.S., Columbia University;
M.Ed., Boston University

Alicia M. Graham (2002)
Adjunct Instructor, English
B.A., Stockton State College;
M.Ed., Boston University

Nichole Grapes (2011)
Adjunct Instructor, Marching Band
B.S., Towson University

Whitney Gray (2012)
Adjunct Instructor, Business Communication
B.A., Mercer University;
M.F.A., University of North Carolina, Greensboro

Katherine Greco (2011)
Adjunct Instructor, Marching Band

Michael Green (2014)
Adjunct Professor, Psychology
B.A., Concordia College at Moorhead;
M.S., Minnesota State University - Moorhead;
Ph.D., University of Memphis

Morris Greenberg (2010)
Adjunct Instructor, Criminal Justice
B.S., M.S., The Johns Hopkins University

Patricia Greenberg (2011)
Adjunct Instructor, Sociology
B.A., Goucher College;
M.A., University of Maryland, Baltimore County

Deric M. Greene (2004)
Associate Professor, Business Communication
B.S., James Madison University;
M.A., Norfolk State University;
Ph.D., Howard University

George W. Greene (2007)
Adjunct Instructor, Business Communication
B.A., Frostburg State University;
Diplome, Universite d’Aix-Marseille;
M.A., New York University

Jonathan S. Greene (2008)
Adjunct Professor, Law
B.A., J.D., University of Maryland, Baltimore

Paul A. Griffey, MT(ASCP) (2001)
Adjunct Professor, Medical Technology
B.S., University of Maryland, Baltimore;
M.B.A., Loyola College in Maryland

Vivi-Anne W. Griffey, MLS(ASCP) (1981)
Program Coordinator and Adjunct Professor, Medical Technology
B.S., University of Maryland, Baltimore;
M.S., Thomas Jefferson University

John Grimes (2013)
Adjunct Instructor, Forensic Studies
A.A., Essex Community College;
B.A., Notre Dame of Maryland University;
M.S., Stevenson University

Paul Grimm (2012)
Adjunct Professor, Biology
B.S., Ph.D., University of Nebraska Medical Center

Catherine Griswold, RN (2011)
Assistant Professor, Nursing
B.S., Stevenson University;
M.S., The Johns Hopkins University;
Ed.D., Walden University

Linda Gronberg-Quinn (2014)
Adjunct Instructor, Human Services
B.S., M.A., Towson University

David Grow (2013)
Adjunct Professor, Psychology
B.S., University of Maryland University College;
Psy.D., Argosy University

Barry Grzechowiak (2012)
Adjunct Instructor, Forensic Studies
B.A., University of Maryland, Baltimore County;
M.S., Stevenson University

Alfredo J. Guerra Lara (2014)
Adjunct Professor, Chemistry
B.S., Universidad Latina de Costa Rica;
Ph.D., Indiana University - Bloomington

Esther Gunter (2009)
Adjunct Instructor, Information Systems
B.S., Towson University;
M.A., University of Maryland, Baltimore County

Barbara E. Guthrie (2004)
Adjunct Professor, Human Services
B.A., M.Ed., McDaniel College

Jacqueline Hall (2008)
Adjunct Instructor, English
B.A., M.A., Morgan State University

Kathryn E. Hall (2008)
Adjunct Instructor, History
B.S., Frostburg State University;
M.A., James Madison University

William Hall, Jr. (2009)
Adjunct Professor, Philosophy
B.A., J.D., Howard University

Judith M. Hamilton (2007)
Adjunct Professor, Law
B.A., M.A., West Virginia University;
J.D., University of Baltimore

Nora Hamilton, RN (2011)
Adjunct Instructor, Nursing
A.A.S., Illinois Valley Community College;
BSN, Olivet Nazarene University;
MSN, University of Phoenix

Anne Hammel (2010)
Adjunct Instructor, Education
B.A., Michigan State University;
M.A., University of Maryland, Baltimore County

William Handy (2013)
Adjunct Instructor, Developmental Studies
B.A., University of Delaware;
M.A.D.S., Johns Hopkins University

Sean Hannigan (2011)
Adjunct Professor, English
B.S., Southern Illinois;
M.F.A., University of Alaska, Anchorage

Terence Hannum (2011)
Assistant Professor, Art
B.A., Florida Southern College;
M.F.A., School of the Art Institute of Chicago Illinois
Ian "Blake" Hardcastle (2008)  
Adjunct Professor, Religion  
B.S., University of Wisconsin;  
M.D.I., Ph.D., The Southern Baptist  
Theological Seminary  
Brian M. Hare (1997)  
Assistant Professor, Information  
Systems  
University;  
M.A., Bowie State University;  
M. Div., Trinity Seminary  
Benjamin Harris (2009)  
Adjunct Professor, Criminal Justice and Law  
B.A., The Johns Hopkins University;  
J.D., Yeshiva University  
Heather E. Harris (2003)  
Associate Professor, Business  
Communication  
B.A., Concordia University;  
M.A., Ph.D., Howard University  
Sally Harris (2008)  
Adjunct Professor, Theatre  
B.A., Principia College;  
M.A., Antioch-Putney Graduate School of Education  
Morgan Hassler (2012)  
Adjunct Instructor, Criminal Justice  
A.A., Catonsville Community College;  
B.S., University of Phoenix;  
M.S., The Johns Hopkins University  
Robert L. "Larry" Henderson (2001)  
Adjunct Instructor, Management  
B.A., Georgetown University;  
M.B.A., Loyola College in Maryland  
Adjunct Professor, English  
B.A., St. John’s College;  
M.A., The Johns Hopkins University;  
Ph.D., The Catholic University of America  
Yael Herzberg (2014)  
Adjunct Professor, Business  
Communication  
B.A., Tel Aviv University;  
M.A., William Paterson University of New Jersey;  
Ph.D., Rutgers University  
Anne Heusler (2011)  
Adjunct Instructor, English  
B.A., Hood College;  
M.L.A., The Johns Hopkins University  
Gary N. Hicks, RN (2005)  
Adjunct Professor, Nursing  
RN, Harford Community College;  
B.S., Villa Julie College;  
M.S., Towson University  
Rodney E. Hill (2007)  
Adjunct Professor, Law  
B.S., University of Maryland, College Park;  
J.D., University of Baltimore  
Jeffrey Hillard (2014)  
Program Coordinator and Associate  
Professor, Accounting  
B.S., Indiana University of Pennsylvania;  
M.S., Purdue University;  
D.M., University of Maryland  
University College  
Lyne Hodge (2014)  
Adjunct Professor, Physical Science  
William Hodge (2013)  
Assistant Professor, Physics  
B.S., University of North Carolina at Wilmington;  
Ph.D., Wake Forest University  
Adjunct Professor, Religion  
B.A., Barrington College;  
MDI, THM, Princeton Theological  
Seminary  
Michael Hoff (2011)  
Adjunct Instructor, Marching Band  
B.S., Towson University  
Nancy Hoffman (2009)  
Adjunct Professor, Human Services  
B.A., Ph.D., University of Maryland, College Park;  
M.A., Loyola University Maryland  
Timothy R. Holland (2002)  
Adjunct Professor, Business  
Administration  
B.A., Wake Forest University;  
M.S., Stevenson University;  
M.B.A., Washington University in St. Louis  
Matthew Holtzman (2012)  
Adjunct Professor, Philosophy  
B.A., St. John’s College;  
M.Sc., University of Edinburgh;  
M.A., Ph.D., The Johns Hopkins University  
Alexander E. Hooke (1978)  
Professor, Philosophy  
B.S., Towson University;  
M.A., West Chester State College;  
Ph.D., University of Missouri  
Benjamin "Tom" Hopkins (1978)  
Adjunct Instructor, Geography  
B.A., Washington College;  
M.A., Towson University  
Esther D. Horrocks (1983)  
Program Coordinator, Interdisciplinary  
Studies and Professor, Sociology and Anthropology  
B.A., University of Minnesota;  
M.A., M.A., Ph.D., The Ohio State  
University  
Dean Horvath (2009)  
Adjunct Professor, Management and English  
B.S., State University of New York;  
M.S., University of Maryland;  
M.S., Towson University  
Amanda Gingery Hostalka (1998)  
Interim Dean, School of Design and  
Professor, Art  
B.F.A., Maryland Institute College of Art;  
M.A., M.F.A., University of Baltimore  
Lisa Howard (2011)  
Adjunct Instructor, Business  
Administration  
B.S., Towson University;  
M.S., The Johns Hopkins University  
Derek Howell (2012)  
Adjunct Professor, Criminal Justice  
B.S., M.S., The Johns Hopkins University;  
J.D., University of Baltimore  
Maria Howell (2006)  
Associate Professor, Forensic Studies  
B.A., The Johns Hopkins University;  
J.D., University of Maryland, Baltimore  
Richard Huberfeld (2011)  
Adjunct Instructor, Criminal Justice  
B.A., M.A., Brooklyn College  
Rick Huff (2008)  
Adjunct Instructor, Mathematics  
A.S., Niagara County Community  
College;  
B.A., University of Hawaii;  
M.S., State University of New York, Buffalo  
Virginia N. Iannone (2002)  
Associate Professor, Psychology  
B.S., University of Scranton;  
M.A., Ph.D., The Catholic University of America  
Paul Insley (2010)  
Adjunct Instructor, Information  
Systems  
B.S., M.S., Stevenson University  
Michelle Ivey (2013)  
Associate Professor, Chemistry  
B.S., Harvey Madden College;  
M.S., Ph.D., University of California, Irvine
D’Andrea Jacobs (2014)  
Adjunct Professor, Master’s in Teaching  
B.A., University of California, Los Angeles  
M.A., Ph.D., Michigan State University  

Sherrie Jacobs (2012)  
Adjunct Instructor, Developmental Studies  
B.B.A., Baruch College;  
M.S.Ed., Brooklyn College, The City University of New York  

Arlene Jenkins, RN (2013)  
Adjunct Instructor, Nursing  
B.S., Towson University;  
B.S., Stevenson University;  
M.S., Morgan State University  

Darniet Jennings (2013)  
Adjunct Professor, Information Systems  
B.S., B.S., M.S., Ph.D., University of Maryland, Baltimore County;  
M.B.A., The Johns Hopkins University  

Marcia Jennings (1996)  
Adjunct Instructor, Physical Education  
B.A., Goucher College;  
M.A., Loyola College in Maryland  

Carolyn H. Johnson (1998)  
Professor, Forensic Studies  
B.A., Dickinson College;  
J.D., University of Maryland, Baltimore  

Keith Johnson (2012)  
Assistant Professor, Biology  
B.S., Central College;  
Ph.D., Texas A & M University  

Glenn Johnston (2007)  
Chair, Humanities and Public History and Assistant Professor, History and Archivist  
B.A., St. Lawrence University;  
M.A., State University of New York, Buffalo;  
M.Ed., Niagara University;  
Ph.D., University of North Texas  

Andrew Johnstone (2014)  
Adjunct Instructor, History  
B.A., M.A., University of Maryland, College Park  

Alissa Jones (2010)  
Adjunct Professor, Art  
B.F.A., M.A., M.F.A., Savannah College of Art and Design  

Lindsey Jones (2014)  
Adjunct Instructor, Physics  
B.S., Juniata College;  
M.Ed., University of Maryland University College  

Neil Jones (2014)  
Adjunct Professor, Art  
B.A., University of Delaware;  
M.A., Savannah College of Art and Design;  
M.F.A., Maryland Institute College of Art  

Eric Jorgensen (2010)  
Adjunct Professor, Philosophy  
B.S., University of Idaho;  
MDI, Nazarene Theological Seminary  

Marilyn K. Julius (1983)  
Adjunct Professor, History  
B.A., M.A.T., Emory University  

Geetha Kada (2013)  
Adjunct Professor, Graduate Nursing  
B.S., MSN, Omaly Achi College of Nursing;  
M.A., University of Chennai;  
Ph.D., Capella University  

Deborah Kai Kai (2011)  
Adjunct Instructor, Psychology  
B.A., University of Virginia;  
M.S., Florida State University  

Brian Kain (2014)  
Adjunct Professor, English  
B.F.A., Maryland Institute College of Art;  
M.F.A., Cranbrook Academy of Art  

Lauren Kaiser (2014)  
Adjunct Professor, Psychology  
B.S., M.A., Ph.D., University of Maryland, College Park  

Adjunct Instructor, Education  
B.S., Villa Julie College;  
M.Ed., Loyola College in Maryland  

Alexandra Katzoff (2013)  
Adjunct Instructor, Marching Band  
B.A., University of Maryland, College Park  

John Kavanaugh (2009)  
Adjunct Instructor, Film and Moving Image  
B.S., Empire State College  

Anna B. Kayes (2006)  
Professor, Mangement  
B.A., Catawba College;  

Misti Kelly (2013)  
Adjunct Instructor, Education  
B.S., Millersville University of Pennsylvania;  
M.Ed., Towson University  

Algis Kemezys (2008)  
Adjunct Instructor, Information Systems  
B.S., M.B.A., University of Baltimore  

Gregory T. Keplinger (2006)  
Associate Professor, Film and Moving Image  
A.A., Montgomery College;  
B.S., Towson University;  
M.F.A., American University  

Anne M. Kerns (2003)  
Adjunct Professor, French  
B.A., Albright College;  
M.A., University of Colorado;  
Ph.D., University of California  

Pamela Kessler (2005)  
Adjunct Professor, Law  
B.A., University of Maryland, College Park;  
J.D., University of Baltimore  

Wendy L. Kimber-Louis (2005)  
Associate Professor, Biology  
B.S., Wolverhampton Polytechnic;  
Ph.D., Edinburgh University  

Deborah E. King, RN (2009)  
Adjunct Professor, Nursing  
BSN, The City University of New York;  
M.S., M.A., Ph.D., University of Maryland  

Mary Kinnecone (2008)  
Adjunct Professor, Art  
B.A., University of Mary Washington;  
M.A., University of Massachusetts;  
Ph.D., University of Wisconsin-Madison  

Lyle B. Kissack (2001)  
Adjunct Professor, Art  
B.F.A., The University of Texas;  
M.F.A., Maryland Institute College of Art  

Emmanuelle Klossou (2011)  
Assistant Professor, Criminal Justice  
B.A., Hartwick College;  
M.S., Northeastern University  

Marybeth M. Kobett (1998)  
Assistant Professor, Education  
B.S., University of Missouri;  
M.S., The Johns Hopkins University  

Jason Kolowski (2012)  
Adjunct Professor, Forensic Science  
B.A., Cornell College;  
M.S., John Jay College of Criminal Justice;  
MPH, Ph.D., The City University of New York
Dimitra Kontokosta (2014)
Adjunct Professor, Chemistry
B.S., University of Maryland, Baltimore County; Ph.D., University of Illinois

Don Koonce, Sr. (2012)
Adjunct Instructor, Information Systems
B.F.A., Temple University; M.B.A., Strayer University, Washington

Caleb Kortokrax (2014)
Adjunct Professor, Art
B.F.A., Valparaiso University; M.F.A., Maryland Institute College of Art

Katarina Kozarova (2011)
Adjunct Instructor, Fashion Design
B.S., M.S., University of Alexander Dubcek, Slovakia; A.A.S., Baltimore City Community College

Deborah S. Kraft (1998)
Dean, School of Education and Professor, Education
B.S., Lesley College; M.A., Webster University; Ph.D., Saint Louis University

James Kranz (2011)
Adjunct Instructor, Marching Band
B.M., Peabody Conservatory of Music, The Johns Hopkins University

Barbara Kreamer (2011)
Adjunct Professor, English
B.A., Washington College; M.L.A., The Johns Hopkins University; J.D., University of Maryland, Baltimore

Caleb Kriesberg (2011)
Adjunct Instructor, Philosophy
B.A., St. Mary’s College of Maryland; M.P.A., The George Washington University

Christopher Kroft (2011)
Adjunct Instructor, Business Communication
B.A., York College; M.L.A., The Johns Hopkins University

Christopher Kucher (2014)
Visiting Assistant Professor, Marketing
B.A., Kean University; M.B.A., D.P.A., University of Baltimore

Bonnie S. Kuncl (1993)
Adjunct Professor, Education
B.S., University of Illinois; M.Ed., National College of Education; M.S., The Johns Hopkins University

Paul D. Lack (2002)
Executive Vice President, Academic Affairs and Professor, History
B.A., McMurry College; M.A., Ph.D., Texas Tech University

Samuel Lacombe (2012)
Adjunct Professor, Art
B.A., M.F.A., Boston University

Lynda Lambert (2011)
Adjunct Instructor, Business Communication
B.A., University of Maryland, Baltimore County; M.D.E., University of Maryland University College

Lorie E. Lana (1996)
Professor, Biology
B.S., M.S., Ph.D., University of Maryland, College Park

Jennifer S. Landon (2006)
Adjunct Instructor, English
B.A., Coppin State University; M.A., University of Maryland, College Park

Amy Laptad (2014)
Adjunct Professor, English
B.A., M.A., Washington State University; Ph.D., Northcentral University

Romas Laskauskas (2005)
Assistant Professor, Management
B.S., Mount St. Mary’s College; M.B.A., Virginia Commonwealth University

Jonathan Lasson (2013)
Adjunct Professor, Psychology
B.S., Talmudic University of Florida; B.A., Ner Israel Rabbinical College; M.S., Miami Institute of Psychology; Psy.D., Carlos Albizu University

Mary Laurents (2014)
Adjunct Instructor, History
B.S., M.A., University of Maryland, Baltimore County

George E. Lauterbach (2003)
Adjunct Professor, Chemistry
B.S., University of Maryland, College Park; M.A., The Johns Hopkins University; D.D.S., University of Maryland, Baltimore

Nikita Laws (2014)
Adjunct Professor, Psychology
B.A., Howard University; M.A., Bowie State University; Ed.D., Argosy University

Dan Lawson (2014)
Adjunct Professor, GPS
B.A., M.D.I., Ashland University; D.M.I., Pittsburgh Theological Seminary; Ph.D., Regent University

George Leary (2014)
Adjunct Professor, Psychology
A.A., Community College of Baltimore County; B.S., George Washington University; M.S., Pennsylvania State University; Ph.D., University of Maryland, Baltimore County

Mary-Kay Leary (2009)
Adjunct Instructor, Accounting
B.S., Towson University; M.S., University of Baltimore

Deborah Leather (2009)
Chair and Professor, Business Management
A.B., College of St. Elizabeth; M.L.S., University of Hawaii; M.B.A., Marymount College of Virginia; D.B.A., The George Washington University

William Ledent (2012)
Adjunct Professor, Theatre
A.A., Grossmont College; B.A., University of California, Los Angeles; M.F.A., The George Washington University

Thomas Lentz, Jr. (2008)
Adjunct Professor, Information Systems
B.S., M.S., Stevenson University; M.B.A., University of Baltimore

Holly Lentz-Schiller (2012)
Assistant Professor, Fashion Merchandising
B.A., M.A., University of North Carolina at Wilmington; Ph.D., University of North Carolina at Greensboro

Loryn S. Lesser (2004)
Adjunct Professor, Sociology
B.A., College of Staten Island, The City University of New York; M.A., Montclair State University; M.S., Towson University; Ph.D., Walden University

Marc R. Levin (1985)
Assistant Professor, Information Systems
B.S., University of Maryland, College Park; M.S., Massachusetts Institute of Technology
Barry Levine (2012)
Adjunct Professor, Forensic Science
B.S., Loyola University Maryland;
Ph.D., Virginia Commonwealth University

Kenneth Levine (2011)
Adjunct Instructor, Developmental Studies and Education Supervisor I
B.A., University of Maryland, Baltimore County;
M.Ed., The Johns Hopkins University

Mara Levine (2012)
Adjunct Instructor, Chemistry
B.S., Hood College;
M.S., University of South Carolina

Lisa Lorden, RN
Adjunct Professor, Nursing
B.S., Villa Julie College;
MSN, M.S., Towson University

Deborah A. Lyons, RN (2003)
Assistant Professor, Nursing
B.S., University of Missouri, St. Louis;
M.S., University of Baltimore

Associate Professor, Biology
B.S., University of Maryland, Baltimore County;
Ph.D., University of Maryland, College Park

Holly Matla (2014)
Adjunct Instructor, Master’s in Teaching
B.S., University of Toledo;
M.Ed., Bowling Green State University

Leah Matthews (2014)
Adjunct Professor, Art
B.A., Elon University;
M.F.A., University of Baltimore

Adam Mattina (2013)
Adjunct Instructor, Cyber Forensics
B.S., Rochester Institute of Technology

Colin May (2010)
Adjunct Instructor, Forensic Studies
B.S., Siena College;
M.S., Stevenson University

Gerald Maye (2007)
Adjunct Instructor, Forensic Studies
B.A., University of Alabama, Birmingham;
MPPM, Birmingham Southern College

Kellie McCants-Price (2011)
Adjunct Professor, Psychology
B.S., University of Maryland, Baltimore County;
M.S., The Ohio State University

Michael McConnell, Jr. (2009)
Adjunct Instructor, Law
B.S., St. John Fisher College;
M.S., Syracuse University

Meggen Marx (2009)
Adjunct Instructor, Art and Business Communication
B.F.A., University of Wisconsin, Eau Claire

Ariana Mashilker (2014)
Adjunct Professor, English
B.A., Tufts University;
M.A., Ph.D., University College of Dublin

Tracey M. Mason (2008)
Associate Professor, Chemistry
B.S., Longwood College;
Ph.D., Virginia Commonwealth University

Tobi Limke
Adjunct Instructor, Biology
B.A., Lake Forest College;
M.B.A., University of Maryland University College;
Ph.D., Michigan State University

Jerome D. Lindauer (2005)
Adjunct Instructor, Management
B.S., Virginia Polytechnic and State University;
M.B.A., Loyola College in Maryland

Adam Lippe (2007)
Adjunct Professor, Forensic Studies
B.A., The Johns Hopkins University;
J.D., University of Maryland

Irvin B. Litofsky (2005)
Adjunct Professor, Forensic Science
B.A. The Johns Hopkins University;
M.S.F.S., The George Washington University

Lisa Lorden, RN (2010)
Assistant Professor, Nursing
B.S., Stevenson University;
M.S., ACNP, University of Maryland, Baltimore

Mark Lortz (2011)
Director, Bands and Assistant Professor, Music

Sandra Lucci, RN (2008)
Adjunct Instructor, Nursing
B.S., Rutgers-Newark The State University;
M.S., University of Maryland, Baltimore

Joanne "Joey" Lye (2011)
Head Coach, Softball, and Assistant Coach, Women’s Ice Hockey and
Adjunct Instructor, Physical Education
B.A., Williams College

Robert Mackey (2010)
Adjunct Instructor, Religion
B.Th., Hannibal-Lagrange College;
M.Div., Midwestern Baptist Theological Seminary

Shraddha Maheshwari (2013)
Adjunct Instructor, Mathematics and Developmental Studies
B.Com., Shri Shikshayatan College;
B.S., M.B.A., Wilmington College

Martin Malarkey III (2009)
Adjunct Instructor, Forensic Studies
B.S., Towson University

Barry Malin, CPA (1983)
Adjunct Professor, Accounting
B.A., Ner Israel Rabbinical College;
B.A., Loyola College in Maryland

Kevin J. Manning (2000)
President of the University and Professor, Psychology
B.A., Webster University;
M.S., Shippensburg University;
Ph.D., The Ohio State University

Tracey M. Mason (2008)
Associate Professor, Chemistry
B.S., Longwood College;
Ph.D., Virginia Commonwealth University

Tobi Limke
Adjunct Instructor, Biology
B.A., Lake Forest College;
M.B.A., University of Maryland University College;
Ph.D., Michigan State University

Jerome D. Lindauer (2005)
Adjunct Instructor, Management
B.S., Virginia Polytechnic and State University;
M.B.A., Loyola College in Maryland

Adam Lippe (2007)
Adjunct Professor, Forensic Studies
B.A., The Johns Hopkins University;
J.D., University of Maryland

Irvin B. Litofsky (2005)
Adjunct Professor, Forensic Science
B.A. The Johns Hopkins University;
M.S.F.S., The George Washington University

Lisa Lorden, RN (2010)
Assistant Professor, Nursing
B.S., Stevenson University;
M.S., ACNP, University of Maryland, Baltimore

Mark Lortz (2011)
Director, Bands and Assistant Professor, Music

Sandra Lucci, RN (2008)
Adjunct Instructor, Nursing
B.S., Rutgers-Newark The State University;
M.S., University of Maryland, Baltimore

Joanne "Joey" Lye (2011)
Head Coach, Softball, and Assistant Coach, Women’s Ice Hockey and
Adjunct Instructor, Physical Education
B.A., Williams College

Robyn Lyles (2011)
Adjunct Instructor, Criminal Justice
B.S., University of Missouri, St. Louis;
M.S., University of Baltimore

Deborah A. Lyons, RN (2003)
Assistant Professor, Nursing
B.S., Villa Julie College;
MSN, M.S., Towson University

Robert Mackey (2010)
Adjunct Instructor, Religion
B.Th., Hannibal-Lagrange College;
M.Div., Midwestern Baptist Theological Seminary

Shraddha Maheshwari (2013)
Adjunct Instructor, Mathematics and Developmental Studies
B.Com., Shri Shikshayatan College;
B.S., M.B.A., Wilmington College

Martin Malarkey III (2009)
Adjunct Instructor, Forensic Studies
B.S., Towson University

Barry Malin, CPA (1983)
Adjunct Professor, Accounting
B.A., Ner Israel Rabbinical College;
B.A., Loyola College in Maryland

James R. Mallek
Adjunct Instructor, Cyber Forensics
B.S., Rochester Institute of Technology

Colin May (2010)
Adjunct Instructor, Forensic Studies
B.S., Siena College;
M.S., Stevenson University

Gerald Maye (2007)
Adjunct Instructor, Forensic Studies
B.A., University of Alabama, Birmingham;
MPPM, Birmingham Southern College

Kellie McCants-Price (2011)
Adjunct Professor, Psychology
B.S., University of Maryland, Baltimore County;
M.S., The Ohio State University

Michael McConnell, Jr. (2009)
Adjunct Instructor, Law
B.S., St. John Fisher College;
M.S., Syracuse University

Hunter McCord (2012)
Adjunct Instructor, Sociology
B.A., M.S., Hunter College
Katherine McCord (2009)  
Adjunct Professor, English  
B.S., Middle Tennessee State University;  
M.A., New Mexico State University;  
M.F.A., Warren Wilson College

Barry McCrory (2014)  
Adjunct Professor, Criminal Justice  
B.S., Geneva College;  
M.S., Shippensburg University;  
Ed.D., Duquesne University

Patrick McDowell (2011)  
Assoc. Instructor, Criminal Justice  
B.S., M.S., The Johns Hopkins University

Melanie McEntee (2012)  
Assoc. Professor, Psychology  
B.A., M.A., Ph.D., Loyola University Maryland

John McFadden (2009)  
Asst. Professor, Mathematics  
B.S., M.S., Villanova University;  
M.S., The George Washington University;  
Ph.D., Pennsylvania State University

Heather L. McGann, MT(ASCP)/SBB (2007)  
Assoc. Instructor, Medical Technology  
A.A.S., Villa Julie College;  
B.S., University of Maryland, Baltimore

Assoc. Professor, Mathematics  
B.S., The College of William & Mary;  
M.A., University of Michigan

Asst. Professor, History  
B.A., M.A., University of Virginia;  
J.D., University of Baltimore

William McMahon (2014)  
Asst. Instructor, Criminal Justice  
B.A., University of Maryland, College Park;  
M.A.D.S., The Johns Hopkins University

Assoc. Professor, Education  
B.S., M.Ed., Towson University

Donald McNeil (2014)  
Assoc. Professor, History  
B.A., University of California, Santa Cruz;  
M.A., California State University at San Jose;  
Ph.D., University of Maryland, College Park

Shana McNew (2012)  
Assoc. Professor, Human Services  
B.S. Stevenson University;  
M.S.W., University of Maryland, Baltimore

Donna McNutt (2013)  
Assoc. Instructor, Education  
B.S., Slippery Rock University of Pennsylvania;  
M.Ed., Holy Family University

Renee McSwain (2013)  
Assoc. Instructor, Film and Moving Image  
B.S., University of South Carolina;  
M.A., American University

Susan Medghalchi (2011)  
Assoc. Professor, Biology  
B.S., State University of New York, Buffalo;  
Ph.D., The Johns Hopkins University

Jason Medinger (2011)  
Assoc. Professor, Forensic Studies and Law  
B.A., University of Notre Dame;  
J.D., Emory University

Erin Medley (2013)  
Assoc. Instructor, Education  
B.S., Indiana University of Pennsylvania;  
M.Ed., University of Alaska

Jill E. Megaro (2008)  
Assoc. Professor, Psychology  
B.A., Binghamton University;  
M.S., Psy.D., Loyola College in Maryland

Richard Metzger (2013)  
Assoc. Professor, Psychology  
B.S., Muskingum University;  
M.S., Ph.D., University of North Dakota

Program Coordinator, Paralegal Studies and Professor, Law  
B.S., Miami University of Ohio;  
J.D., University of North Carolina at Chapel Hill

Marc Mileto (2010)  
Assoc. Instructor, Film and Moving Image  
B.F.A., Carnegie Mellon University;  
M.F.A., Yale University

Brian Miller (2009)  
Assoc. Professor, Forensic Science  
B.S., Richard Stockton College of New Jersey;  
M.S., Stevenson University

Debra Miller (2011)  
Assoc. Instructor, Education  
B.S., York College;  
M.S., McDaniel College

Neal Miller (2013)  
Asst. Professor, Mathematics  
A.B., Princeton University;  
M.S., University of Pennsylvania;  
M.S., Ph.D., New Mexico State University

Rose Miller, RN (2007)  
Assoc. Professor, Nursing  
A.A., George C. Wallace State Community College;  
B.S., Troy State University;  
M.P.A., Auburn University;  
MSN, University of Alabama

James Von Minor (2000)  
Assoc. Professor, Art  
B.F.A., Colorado State University;  
M.F.A., Pennsylvania State University, University Park

Paula C. Mistri, MT(ASCP) (2007)  
Assoc. Instructor, Medical Technology  
B.A., B.S., M.S., Towson University

Meghan Mitchell (2013)  
Assoc. Instructor, Biology  
B.S., Cornell University;  
MPHE, Columbia University

Diana Molavi (2014)  
Assoc. Professor, Medical Technology  
B.S., Pennsylvania State University;  
M.D., Washington University;  
Ph.D., The Johns Hopkins University

Anthony Montcalmo (2010)  
Assoc. Instructor, Business Administration  
B.A., University of Delaware;  
M.B.A., University of Maryland, College Park

Laurel Moody RN (2012)  
Asst. Professor, Nursing  
BSN, University of Maryland;  
B.S., Stevenson University;  
M.S., University of Maryland University College

An’Nita Moore, RN (2012)  
Assoc. Professor, Nursing  
B.S., Coppin State College;  
M.P.H., Morgan State University;  
DNP, Drexel University

George M. Moore (2006)  
Interim Chair and Assoc. Professor, Art  
B.A., Hampshire College;  
M.F.A., Maryland Institute College of Art
Charles Moorer (2011)
Adjunct Professor, Developmental Studies
B.A., Brooklyn College;
M.S., Lincoln University;
Ph.D., Morgan State University

Adjunct Professor, Law
B.A., J.D., Yale University

Christos Motsiopoulos (2013)
Adjunct Instructor, Mathematics
A.A., Greek Army Academy, Greece;
B.S., University of Maryland, Baltimore County;

Steven Mrozinski (2009)
Instructor, Biology
B.S., M.S., Stevenson University

Melanie Mueller (2014)
Adjunct Professor, Chemistry

Ann Murk (2014)
Adjunct Instructor, Education
B.A., Bowling Green State University;
M.S., The Johns Hopkins University

David Murphy (2013)
Adjunct Instructor, English
A.A.S., Community College of the Air Force;
B.A., University of Maryland, College Park;
M.L.A., The Johns Hopkins University

Rashelle Musci (2013)
Adjunct Professor, Psychology
B.S., M.S., Ph.D., University of California, Davis

Kathryn Mychailyszyn (2014)
Adjunct Professor, Art
B.A., Loyola University Maryland;
M.F.A., University of Baltimore

Nicole Myrick (2014)
Adjunct Instructor, Fashion Design
B.S., Stevenson University

Norbert Myslinski (2008)
Adjunct Professor, Psychology
B.S., Canisius College;
Ph.D., University of Illinois

Vanessa Nakoski (2012)
Adjunct Instructor, English
B.A., University of Maryland, Baltimore County;
M.A., University of Iowa

Sara Narayan (1992)
Professor, Chemistry
B.S., M.S., Ph.D., Indian Institute of Science, Bangalore

James Nash (2014)
Adjunct Instructor, Film and Moving Image
B.S., University Maryland, Baltimore County

Rebecca Neil (2012)
Adjunct Instructor, Medical Technology
B.S., Clarion University;
M.S., Towson University

Brian Nelson (2010)
Adjunct Professor, Management
B.A., Miami University;
M.F.A., University of Arizona

Bruce Nelson (2007)
Adjunct Instructor, Theatre
B.A., Towson University

Timothy Nelson (2009)
Adjunct Instructor, English
B.S., M.S., Towson University

Danielle Newill (2012)
Education Supervisor I and Adjunct Instructor, Education
B.S., Stevenson University;
M.S., McDaniel College

Professor, Education
B.A., James Madison University;
M.A., M.Ed., Ohio University;
Ph.D., University of Virginia

Kari Nickles (2014)
Adjunct Instructor, Medical Technology
B.S., Stevenson University

Lea Nolan (2012)
Adjunct Instructor, Healthcare Management
A.B., Georgetown University;
M.A., The George Washington University

Leann Norman (2010)
Adjunct Professor, Biology
B.S., Wagner College;
Ph.D., University of Maryland, College Park

Mark Norris (2013)
Associate Professor, Biology
B.S., Allegheny College;
M.S., Kansas State University;
Ph.D., University of Minnesota - Twin Cities

Christine A. Noya (1985)
Assistant Professor, Business Communication
B.A., College of New Rochelle;
M.A., Wesleyan University

Meagan Nyland (2010)
Adjunct Professor, English
B.S., B.A., Southern Illinois University;
M.F.A., University of Baltimore

Sandra A. O'Connor (1986)
Adjunct Professor, Law
B.S., J.D., Indiana State University

Steven O'Dell (2014)
Adjunct Professor, Forensic Science
M.S., University of Alabama at Birmingham;
M.B.A., University of Phoenix

John J. O'Neill (1976)
Adjunct Professor, Information Systems
B.S., M.B.A., Loyola College in Maryland,
M.S., Villa Julie College

Elizabeth H. Oakes (2006)
Adjunct Professor, Business Communication
B.A., University of Vermont;
M.A., University of California, Los Angeles;
Ph.D., University of Massachusetts, Amherst

Samuel Obae (2013)
Assistant Professor, Biology
B.S., University of Nairobi, Kenya;
M.S., Frostburg State University;
Ph.D., West Virginia University

Emma Oberlechner (2014)
Adjunct Instructor, Education
B.S., Stevenson University

Janet Ohlemacher (2014)
Adjunct Professor, MAT
B.A., Barry University;
M.S., Nova University;
Ed.D., Cardinal Stritch University

Adjunct Instructor, Forensic Studies
B.S., University of Maryland, College Park

Adjunct Instructor, Physical Science
B.S., University of North Carolina, Chapel Hill;
M.S., State University of New York, Stony Brook

Tanya S. Olson (2014)
Adjunct Professor, English
B.A., St. Andrews University;
M.A., University College;
Ph.D., University of North Carolina at Greensboro

Susan V. Osborn (2005)
Adjunct Professor, Art
B.F.A., Illinois Wesleyan University;
M.F.A., University of Wisconsin

Gerard Osterhout (2014)
Adjunct Instructor, Biology
B.S., Pennsylvania State University;
M.S., North Carolina State University
Jonah Ottensoser (2000)
Adjunct Professor, Mathematics
B.S., City College of New York;
M.S., The Catholic University of America

Meredith Page (2012)
Adjunct Instructor, Fashion Design
A.A.S., Baltimore City Community College;
B.A., University of Maryland, College Park

Anthony Pagnotti (2010)
Adjunct Instructor, Business Communication
B.S., Boston University;
M.A., Notre Dame of Maryland University

Angela Palozzi (2013)
Adjunct Professor, Law
B.S., Stevenson University;
J.D., Widener University, School of Law

Jerome T. Palmerino (2008)
Adjunct Instructor, Information Systems
B.S., Villa Julie College;
M.S., University of Maryland, Baltimore County

Lisa Paris (2013)
Adjunct Professor, RNBS Nursing
BSN, University of Maryland, Baltimore County;
M.A., Hood College;
DNP, The Johns Hopkins University

Tamara Parisi (2014)
Adjunct Instructor, Medical Technology
B.S., Salisbury University

Patricia Parker (2001)
Adjunct Professor, Education
B.S., Salisbury State College;
M.Ed., Towson University

Marc Partec (2011)
Adjunct Instructor, Criminal Justice
B.A., Morgan State University;
M.S., University of Baltimore

Adjunct Instructor, Information Systems
B.S.E., Loyola College in Maryland;
M.S., Towson University

Lynn Pavlock (2010)
Adjunct Instructor, Developmental Studies
B.S., Clarion University;
M.Ed., Loyola University Maryland

Mary "Diane" Payne (1998)
Director, Office of Sponsored Programs and Research and Instructor, Chemistry
B.S., Brescia College;
M.S., University of Cincinnati

Sheila Pearlman (2010)
Adjunct Professor, Developmental Studies
B.S., Temple University;
M.A., CAGS, University of Pennsylvania;
Ph.D., University of Rochester

Christopher Peirce (2011)
Adjunct Instructor, Information Systems
B.S., M.S., University of Phoenix

Gary S. Pedroni (2000)
Adjunct Professor, English
B.A., M.Ed., Harvard University

Robert P. Pelton (2000)
Professor, Education
B.S., M.S., State University of New York, Cortland;
Ed.D., Nova Southeastern University

Bernard Penner (2009)
Adjunct Professor, Law
B.A., University of Maryland, Baltimore County;
M.A., Towson University;
J.D., University of Maryland School of Law

Meghan Pennini (2011)
Adjunct Professor, Biology
B.S., University of Maryland, College Park;
Ph.D., Case Western Reserve University

Mikhail Petukhov (2012)
Adjunct Instructor, English
B.A., Millersville University of Pennsylvania;
M.A., Towson University

Susan Phillips (2012)
Adjunct Instructor, Religion
B.A., Sacramento State College;
M.A., United Theological Seminary of the Twin Cities

David Pietropaoli (2007)
Adjunct Professor, Philosophy and History
STL, STD, Gregorian University, Rome;
B.A., University of Maryland, Baltimore County

Barbara Pivonski (2011)
Adjunct Instructor, Education
B.S., Towson University;
M.Ed., Loyola University Maryland

Dixie Poe, RN (2008)
Adjunct Professor, Nursing
BSN, Medical College of Georgia;
MSN, Bowie State University;
MGA, University of Maryland University College

Morris A. Pondfield (2001)
Adjunct Professor, Information Systems
B.A., University of Maryland, College Park;
M.I.M., American Graduate School of International Management;
M.S., University of Maryland University College

Laura Pope (2008)
Adjunct Instructor, Management
B.A., Goucher College;
M.A., St. Mary’s University

Gary Popoli (2010)
Adjunct Professor, Psychology
B.A., M.A., Loyola University Maryland;
Ph.D., University of Maryland, College Park

Barry W. Powell (2010)
Adjunct Professor, Criminal Justice
A.A., Community College of Baltimore
B.S., M.P.A., J.D., University of Baltimore;

Veronica Powell (2011)
Adjunct Professor, Psychology and Sociology
B.S., University of Central Texas;
M.A., University of Maryland, College Park;
Ph.D., Capella University

David Preston (2014)
Adjunct Professor, Mathematics
B.S., Clarion State College;
M.S., Ohio University;
M.S., Ph.D., University of Maryland, College Park

Edward Priola (2011)
Adjunct Instructor, Business Communication
B.A., State University of New York;
M.A., Bowie State University

Colleen A. Pullis (2007)
Adjunct Professor, English
B.A., Colgate University;
M.A., Binghamton University;
Ph.D., The University of Georgia

George "Tim" Puls (2010)
Assistant Coach, Men’s Lacrosse and Adjunct Instructor, Physical Education
B.A., University of Maryland, Baltimore County

Shelley Pumphrey (2012)
Adjunct Instructor, Philosophy
B.A., University of Maryland;
MAS, The Johns Hopkins University
Valsamma Punnoose, RN (2009)  
*Adjunct Instructor, Nursing*  
B.S., The College of Nursing, New Delhi, India;  
M.S., Catholic University  

Jignasa Rami (2012)  
*Adjunct Instructor, Developmental Studies*  
B.S., Saurashtra University, Rajkot India;  
M.S., University of Baroda, Vadodara India  

Joseph V. Rampolla (2005)  
*Adjunct Instructor, Information Systems*  
B.S., Loyola College in Maryland  

Caroline Rankin (2010)  
*Adjunct Professor, Business Communication*  
B.A., M.A., The Ohio State University;  
Ph.D., University of Texas at Austin  

Lynnett Redhead (2011)  
*Adjunct Instructor, Forensic Science*  
B.S., University of the West Indies;  
M.S., Towson University  

Christopher Llewellyn Reed (2006)  
*Chair and Professor, Film and Moving Image*  
B.A., Harvard University;  
M.A., Yale University;  
M.F.A., Tisch School of the Arts, New York University  

Richard Reilly (2014)  
*Adjunct Professor, Biology*  
B.S., University of Virginia;  
Ph.D., University of South Carolina  

Christin Reuter (2011)  
*Adjunct Instructor, Medical Technology*  
B.S., Stevenson University  

Justin Reynolds (2014)  
*Adjunct Instructor, Criminal Justice*  
A.A., B.S., University of Maryland, European Division;  
M.S., The Johns Hopkins University  

Jacob Rhoads (2014)  
*Adjunct Professor, Art*  
B.A., Grinnell College;  
M.T.S., Harvard Divinity School;  
M.F.A., Maryland Institute College of Art  

Betty Ann Rigney (2005)  
*Adjunct Professor, Psychology*  
B.S., Towson University;  
M.A., Loyola College in Maryland;  
Ph.D., University of Maryland, Baltimore County  

Josie Mae Rigney (2011)  
*Adjunct Instructor, Developmental Studies*  
B.A., North Park University;  
M.A.T., University of Maryland, Baltimore County  

Kevin Rivera (2009)  
*Adjunct Professor, Forensic Studies*  
B.S., Park University;  
M.S., Norwich University  

Marsha Roach (2006)  
*Education Supervisor II and Adjunct Professor, Education*  
B.S., M.S., Towson University;  
Ed.D., Nova University  

Darryl Roberts, RN (2011)  
*Adjunct Professor, Nursing*  
A.S., Essex Community College;  
BSN, M.S., University of Maryland, Baltimore;  
Ph.D., University of Maryland, Baltimore County  

Louise H. “Chris” Roberts (1982)  
*Program Coordinator and Professor, Theatre*  
A.A., Villa Julie College;  
B.S., M.F.A., Towson University;  
M.I.A., The Johns Hopkins University  

Nicole Roberts (2012)  
*Adjunct Professor, Film and Moving Image*  
B.S., Northwestern University;  
M.F.A., Columbia University  

Michael Robinson (2009)  
*Program Coordinator and Adjunct Professor, Cyber Forensics*  
B.S., Drexel University;  
M.S., University of Maryland University College;  
M.S., Stevenson University  

Robert Robinson (2011)  
*Adjunct Instructor, English*  
B.S., M.S., Towson University  

Joseph Rosalski (2011)  
*Adjunct Instructor, History*  
B.A., University of Baltimore;  
M.A., University of Maryland, Baltimore County  

John Rosicky (2012)  
*Chair and Professor, Human Services*  
B.S., Brown University  

Ellen M. Roskes (1996)  
*Associate Dean and Chair, Chemistry and Mathematics and Professor, Chemistry*  
B.A., M.A., Ph.D., The Johns Hopkins University  

Mary Elizabeth “Chip” Rouse (1984)  
*Chair and Associate Professor, Business Communication*  
B.A., Western Maryland College;  
M.Ed., Loyola College in Maryland;  
M.A., University of Maryland, College Park  

Lori L. Rubeling (1997)  
*Professor, Art*  
B.F.A., Corcoran School of Art;  
M.A., St. John’s College  

Laurie Rubin (2013)  
*Adjunct Professor, Forensic Studies*  
B.S., M.S., University of Maryland, Baltimore  

Matthew Russell (2013)  
*Head Coach, Tennis and Adjunct Instructor, Physical Education*  

Keith S. Safford (2007)  
*Adjunct Instructor, Information Systems*  
B.S., University of Kansas, Lawrence;  
M.E.S., Loyola College in Maryland  

James "Jim" G. Salvucci (2001)  
*Dean, School of Humanities and Social Science and Professor, English*  
B.A., Bard College;  
M.A., Queens College, The City University of New York;  
Ph.D., University of Toronto  

Monibo Sam (2010)  
*Assistant Professor, Sociology*  
B.Sc., M.Sc., University of Port Harcourt;  
Ph.D., University of Connecticut  

Mark Sanders (2011)  
*Adjunct Instructor, Developmental Studies*  
A.A.S., Norwalk State Technical Institute;  
B.A., Loyola University Maryland;  
M.S., National Louis University  

James Sanford (2011)  
*Adjunct Instructor, Business and Technology Management*  
A.A.S., York College;  
B.S., Albright College;  
M.S., Stevenson University  

Patricia Santos-Ciminera (2011)  
*Adjunct Professor, Biology*  
M.S., Amazonas Federal University, Brazil;  
Ph.D., Uniformed Services University
Sidra A. Saulnas (1994)  
Assistant Professor, Information Systems  
B.A., Dickinson College;  
B.S., Stevenson University;  
M.S., University of Baltimore  

Adjunct Professor, Developmental Studies  
B.S., University of Illinois;  
M.A., DePaul University;  
M.A., Cambridge College  

Sarah Sauthoff (2012)  
Adjunct Instructor, Biology  
B.S., Stevenson University  

Lisa Scarbath (2009)  
Adjunct Professor, Law  
B.A., University of Delaware;  
J.D., University of Baltimore  

Mary K. Scheffenacker (2014)  
Adjunct Instructor, Developmental Studies  
B.S., Towson University  

Howard Schindler (2002)  
Adjunct Professor, Physics and Chemistry  
A.A.S., B.S., State University of New York, Cortland;  
M.S., The Johns Hopkins University  

Lauren Schiszik (2011)  
Adjunct Instructor, History  
B.A., Earlham College;  
M.A., University of Maryland, College Park  

Carol Schmidhauser (1997)  
Instructor, Biology  
B.S., University of Rochester;  
M.S., Clemson University  

Jennifer Schneider (2011)  
Adjunct Instructor, Forensic Studies  
B.S., M.S., Stevenson University  

Jesse M. Schneider (2004)  
Adjunct Instructor, Mathematics and Developmental Studies  
B.S., M.S., Polytechnic Institute of New York  

Tonya Schneidereith, RN (2009)  
Assistant Professor, Nursing  
BSN, Florida State University;  
M.S., University of Pennsylvania;  
Ph.D., The Johns Hopkins University  

Inex Scholler-Jaquish, RN (2007)  
Professor, Nursing  
BSN, Arizona State University;  
M.A., University of California, Los Angeles;  
M.S., Loyola University Maryland;  
Ph.D., University of Maryland, College Park  

John Schott (2010)  
Adjunct Instructor, Information Systems  
A.A., Essex Community College;  
B.S., Towson University;  
M.S., Stevenson University  

Karl Schroeder (1999)  
Adjunct Instructor, Information Systems  
B.S., M.S., Virginia Polytechnic Institute and State University  

Elizabeth Schulman (2010)  
Adjunct Instructor, Physical Education  

Henry Schupple (2003)  
Adjunct Instructor, Geography  
B.S., M.A., Towson University  

David "Ryan" Schurtz (2011)  
Assistant Professor, Psychology  
B.S., M.A., Towson University;  
Ph.D., University of Kentucky  

Sarena R. Schwartz (2000)  
Adjunct Professor, Information Systems  
B.S., M.S., Stevenson University  

Catherine Scollick (2012)  
Adjunct Instructor, Biology  
B.S., Frostburg State University;  
M.S., The Johns Hopkins University  

Kelly M. Scott (2011)  
Adjunct Professor, Developmental Studies  
B.A., University of Maryland, Baltimore County;  
M.F.A., University of Baltimore  

Mary Scott (2013)  
Adjunct Instructor, Medical Technology  
B.S., Stevenson University  

Gregory N. Seltzer (1997)  
Adjunct Instructor, Human Services  
A.A., Essex Community College;  
B.A., University of Maryland, Baltimore County;  
M.A.R., Reformed Theological Seminary  

Marie Ann Sennett (2013)  
Adjunct Professor, Forensic Studies  
B.S.W., Kean University;  
J.D., Temple University  

Angela Setzer (2014)  
Adjunct Professor, Psychology  
B.A., Loyola University Maryland;  
M.A., Towson University;  
Ph.D., American University  

Johanna Seymour (2012)  
Adjunct Instructor, History  
B.A., Temple University;  
M.A., University of Maryland, Baltimore County  

Joseph Seymour (2013)  
Adjunct Instructor, History  
B.A., Pennsylvania State University;  
M.A., Temple University  

Hamin Shabazz (2010)  
Chair and Associate Professor, Criminal Justice  
B.S., Widener University;  
M.P.A., University of Michigan;

B.S., West Virginia Institute of Technology;  
M.S., Loyola College in Maryland  

Ronald L. Shaffer, Jr. (2007)  
Adjunct Instructor, Information Systems  
B.S., Strayer University;  
M.S., Capitol College  

Kathleen Shanks (2010)  
Adjunct Instructor, Biology  
B.S., Stevenson University  

Zachary Shanks (2011)  
Adjunct Instructor, Marching Band  

Alison Shao (2010)  
Adjunct Instructor, Biology  

Marina Shapiro (2012)  
Adjunct Instructor, Chemistry  
B.S., M.S., Towson University  

Vallory A. Shearer (1982)  
Assistant Professor, Mathematics  
B.S., Towson University;  
M.Ed., McDaniel College  

Brenda Shell-Eleazer (2011)  
Adjunct Instructor, Criminal Justice  
B.S., M.S., Coppin State University  

Zhia L. Sheppard (2006)  
Adjunct Professor, Law  
B.S., Villa Julie College;  
J.D., University of Baltimore
Nancy P. Sherman (2005)
Adjunct Instructor, GPS & Traditional Online
B.A., Towson University;
M.A., University of Maryland, College Park

Catherine Shiel (2008)
Adjunct Instructor, Education
B.S., Towson University

David Silverman (2013)
Adjunct Professor, Biology
B.S., Humboldt State University;
J.D., University of Baltimore;
M.D., Eastern Virginia Medical School

Zamira Simkins (2007)
Adjunct Professor, Economics
B.S., Kyrgyz-Russian Slavic University;
M.A., Missouri State University;
Ph.D., American University

Alyssa Simms-Clark (2012)
Adjunct Instructor, Developmental Studies
B.A., University of California, Berkeley;
M.Ed., Howard University

Leslie Simpson (2011)
Instructor, Fashion Design
B.A., Simmons College;
M.S., Philadelphia University

Edward Singleton (2009)
Adjunct Professor, Psychology
B.S., University of Maryland;
M.A., Loyola University Maryland;
Ph.D., Howard University

Callie Siskel (2014)
Adjunct Professor, English
B.A., Yale University;
M.F.A., The Johns Hopkins University

Mary Skipper (2008)
Adjunct Instructor, English
