

## Immunization Information for Students and their Medical Providers

Stevenson University follows the guidelines set by the Centers for Disease Control and the State of Maryland for immunization requirements and recommendations. Proof of the following immunizations is required prior to the beginning of classes. Please update immunizations when necessary to meet our college requirements. Failure to do so can result in inability to register for future classes and/or removal from campus housing.

### REQUIRED IMMUNIZATIONS

<b>Meningitis ACWY (MCV4)</b>	<p>All students residing in Stevenson University student housing are required to be immunized against Meningitis strains ACWY, otherwise known as MCV4. Commuter students wishing to reduce their risk of meningitis can also choose to be vaccinated. <b>(Health-General Article 18-102(b) Annotated Code of Maryland 10.06.05 Meningococcal Vaccination Requirements for Students in Institutions of Higher Education). If the primary dose of meningitis was administered before the 16<sup>th</sup> birthday, a booster will be required before enrollment in college.</b></p> <p><b>*Required for students residing on campus</b>  <b>*Recommended for commuter students</b></p>
<b>Measles, Mumps, Rubella</b>	<p>Two doses of MMR at least 28 days apart <u>after</u> 12 months of age or written documentation of positive immune titer.</p> <p><b>*University policy requires 2 doses</b>  <b>*Copy of lab results must be attached if submitting a titer</b></p>
<b>Varicella</b>	<p>Two doses of varicella vaccine, disease documented by physician, or written documentation of positive immune titer required.</p> <p><b>*University policy requires 2 doses</b>  <b>*Copy of lab results must be attached if submitting a titer</b></p>
<b>Tuberculosis Screening</b> <b>*Determine if required</b>	<p>All students must complete the <b>Tuberculosis Risk Assessment questions on the Student Health Form</b>. If a student answers “yes” to any of the questions, they are required to have a tuberculosis (PPD) screening test.</p> <p><b>*Proof required</b></p>

### RECOMMENDED IMMUNIZATIONS

<b>Meningitis B (Trumenba®/Bexsero®)</b>	<p><b>DOES NOT REPLACE NEED FOR MCV4 VACCINE!</b>  Recommended for residential students.</p>
<b>Tetanus-Diphtheria</b>	<p>Primary series completed. Preferably Tdap.  <b>*Booster required every 10 years</b></p>
<b>Quadrivalent Human Papillomavirus Vaccine (HPV)</b>	<p>Recommended for both male and female college students 11-26 years of age.</p>
<b>Hepatitis B</b>	<p><b>Strongly recommended</b> for all students.  <b>*Copy of lab results must be attached if submitting a titer</b></p>
