

General Disclosure for Programs Meeting Licensure or Certification Requirements

PROGRAM: Medical Laboratory Science, B.S.

As set out in the 1 November 2019 Final Rules in the Federal Register, the U.S. Department of Education requires that all institutions make public information regarding a program's ability to meet the licensure requirements for a particular state.

The programs customarily leading to licensure at Stevenson University have been designed to meet the licensure/certification requirements in Maryland as well as prepare students to apply for licensure exams in the State of Maryland. Students who intend to return or move to any state other than Maryland are advised to review the professional licensure disclosures pertaining to their program.

The chart below provides professional licensure disclosure information for the Stevenson University Bachelor of Science Degree in Medical Laboratory Science. Please direct questions to Dr. Meredith Durmowicz, Dean, School of Nursing and Health Professions.

Stevenson University's Bachelor of Science in Medical Laboratory Science program prepares students to be certified to sit for the national ASCP-BOC exam. Some states may require additional licensure. Specific certification and licensure information can be found at the [American Society for Clinical Pathology Board of Certification](#) website.

| State | Meets Licensure Requirements | Does Not Meet Licensure Requirements | Not Determined |
|-------------|------------------------------|--------------------------------------|----------------|
| Alabama | X | | |
| Alaska | X | | |
| Arizona | X | | |
| Arkansas | X | | |
| California | X | | |
| Colorado | X | | |
