Transfer Plan  
 Carroll Community College  
 Biology AS to SU Biochemistry

This transfer plan is intended for students pursuing Biology AS at Carroll Community College who are interested in pursuing a BS in Biochemistry at Stevenson University. The equivalencies below demonstrate how a student can meet both the requirements of the associate degree and prepare for a seamless transfer to Stevenson. Stevenson participates in reverse transfer should students transfer after completing 15 credits at Carroll Community College but before completing the full associate degree. Any student who enters Stevenson with an A.A. or A.S. degree will have completed all general education requirements with the exception of composition II if not taken at the community college. Please note:

- Only courses that have course equivalencies are displayed. This guide does not show all transferable courses from this college. It also does not display all Stevenson University courses that will fulfill a specific requirement.
- Program requirements must be completed with a grade of C or better, and general education courses must be passed with a grade of D or better.
- Stevenson University will accept up to 70 credits from 2-year institutions. Up to 90 credits can be applied to degree requirements from a combination of 2-year institutions, 4-year institutions, and non-direct classroom instruction (including CLEP, AP, and other nationally recognized standardized examination scores). For additional information about credit transfer, please see: <http://www.stevenson.edu/admissions-aid/getting-started/transfer-students/transfer-credit-evaluation/>
- For scholarship information please see the “Paying for College” page on: <http://www.stevenson.edu/transfer>
- Transfer plans are intended to be used as planning tools. If you need additional assistance in selecting courses to take prior to transferring to Stevenson University, contact Stevenson Admissions at 443-352-4450.

### Remaining Courses to be taken at Stevenson

Students who complete the plan above including all recommended courses and earn the AS in Physical Sciences with the Chemistry Concentration will take the following courses at Stevenson to meet the BS in Chemistry requirements. Students who transfer before completing the associate degree may have more general education and program requirements to take and fewer free electives.

General Education Requirements (0 credits)

Major Requirements (38-41 credits)

BIOCH 327: Biochemistry, 3 credits  
 BIOCH 345L: Integrative Laboratory I, 2 credits  
 BIOCH 427: Advanced Biochemistry, 3 credits  
 CHEM 213: Digital Information Literacy for Chemistry, 1 credit  
 CHEM 313: Career Connections in Chemistry, 1 credit  
 PHYS 210: General Physics I, 4 credits  
 PHYS 211: General Physics II, 4 credits  
 SCI 215: Writing in the Sciences, 3 credits  
 Senior Capstone Experience, 5-9 credits  
 Group I Electives, 6-7 credits  
 Group II Elective, 2-8, credits

Additional credits needed: 23-26 credits of general electives (as needed to reach the mandatory 120 credits)

Total credits to be taken at SU: up to 60 credits
