- Temple University

### An Employer's Perspective:

Psychology majors need to possess excellent communication skills and the ability to analyze different theories and how they apply to everyday life. They must have an understanding of mental processes and human behavior, the ability to evaluate problems and make appropriate decisions, as well as the ability to observe, analyze and introspect. A psychology major must also have the desire to pursue further studies.

### Salaries:

Salaries are dependent upon the industry, level of position, and geographical region. A few good resources for researching salaries of specific jobs within various industries are [www.salary.com](http://www.salary.com) and [www.payscale.com](http://www.payscale.com).
