

## SU Campus COVID-19 Update – Friday, October 30, 2020

To the Stevenson Campus Community:

With today's Campus COVID-19 Update we are launching a new format for our biweekly report on campus testing and cases. The update will now be available as a dashboard on the Stevenson website at:

### Campus COVID-19 Dashboard – Fall 2020

<https://www.stevenson.edu/COVIDdashboard>

The dashboard will also be accessible via links on the [Keep Stevenson Safe](#) and [Fall 2020 Plan](#) web pages. The data on the dashboard will be updated biweekly. Data posted today is current as of Thursday, October 29, 2020.

### Hygiene Habits for Cold, Flu, and COVID

We are in the midst of the cold and flu season, and encourage everyone to practice proper [Hand Washing](#) and [Cough and Sneeze Etiquette](#) and avoid touching your face. In addition to masking, physical distancing, and avoiding crowds and gatherings, the health and hygiene habits of thorough hand washing and sanitizing, covering coughs and sneezes, and not touching your face do help to prevent the transmission of COVID-19 as well as colds and flus.

### Daily Symptom Monitoring

We urge all students to use their online [Student Symptom Tracker](#) daily, ideally each morning before you start the day. The Symptom Tracker is available via the Wellness Center Patient Portal at <https://stevenson.medicatconnect.com/>. It is easy to use on your cell phone and helps you quickly screen yourself for symptoms of COVID-19.

Students who have symptoms that have been associated with COVID-19 should immediately contact the SU Wellness Center at 443-352-4200 or [wellness@stevenson.edu](mailto:wellness@stevenson.edu) to speak with a health provider. As a reminder, these symptoms include:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle aches or body aches
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea
- Vomiting
- Diarrhea

**Remember:** *If you are sick, do not assume your symptoms are just a cold or flu. Stay home or in your room, do not go to class or activities, and contact the Wellness Center to get the help and guidance to protect your health and that of others. Sick employees should also stay home and contact their supervisor.*

We thank everyone in our Stevenson community for their ongoing commitment to the health and hygiene habits that minimize the impact of COVID on our campus and help [Keep Stevenson Safe](#).

Sincerely,

Antionette J. Marbray  
Vice President and Chief Compliance Officer, COVID Operations

John Buettner  
VP, Marketing & Digital Communications
