

General Disclosure for Programs Meeting Licensure or Certification Requirements

PROGRAM: Clinical Psychology, Psy.D.

As set out in the 1 November 2019 Final Rules in the Federal Register, the U.S. Department of Education requires that all institutions make public information regarding a program's ability to meet the licensure requirements for a particular state.

The programs customarily leading to licensure at Stevenson University have been designed to meet the licensure/certification requirements in Maryland as well as prepare students to apply for licensure exams in the State of Maryland. Students who intend to return or move to any state other than Maryland are advised to review the professional licensure disclosures pertaining to their program.

The chart below provides professional licensure disclosure information for the Stevenson University Doctor of Psychology Degree in Clinical Psychology. Please note that states may also require candidates for licensure to complete supervised clinical experiences and/or pass standardized examinations following completion of the doctoral degree in order to meet licensure requirements; this disclosure refers only to each state's doctoral training program requirements. Students should use the State Licensing Board links below and/or the [Association of State and Provincial Psychology Board's PSYBook](#) to identify any additional requirements for licensure in the state(s) in which they plan to practice. Please direct questions to Dr. Meredith C. Durmowicz, Senior Associate Vice President for Academic Affairs & Research.

“Does Not Meet” is a **temporary status** and is used here to identify states that require applicants for licensure to have graduated from an APA-accredited program. The SU program has been designed to align with APA standards; however, program accreditation is a multi-year process that requires cohort enrollment and progression through the program before application is made to APA. The program anticipates submitting its initial accreditation self-study to APA in Fall 2023. This table and the program website will be updated to reflect program accreditation status as the process is underway.

State	Meets Licensure Requirements	Does Not Meet Licensure Requirements	State Licensing Board
Alabama	X		Alabama State Licensing Board
Alaska	X		Alaska State Licensing Board
Arizona	X		Arizona State Licensing Board
Arkansas	X *		Arkansas State Licensing Board
California	X **		California State Licensing Board
Colorado	X		Colorado State Licensing Board
Connecticut	X		Connecticut State Licensing Board
Delaware	X		Delaware State Licensing Board

Washington	X		Washington State Licensing Board
Washington, D.C.		X	Washington DC Licensing Board
West Virginia	X		West Virginia State Licensing Board
Wisconsin	X		Wisconsin State Licensing Board
Wyoming	X		Wyoming State Licensing Board

* Applicants for licensure in Arkansas must complete the predoctoral internship in a multidisciplinary training setting (i.e., “contribution of at least 2 other disciplines whose expertise is germane into the evaluation and intervention decisions”) in order to meet licensing requirements.

** Applicants for licensure in California must complete coursework/training in “human sexuality (10 contact hours); course in alcoholism/chemical dependency detection and treatment (1 semester/quarter); child abuse assessment (7 hours); spousal/partner abuse, detection and intervention strategies (15 contact hours); aging and long-term care (10 contact hours); suicide risk assessment and intervention (6 hours)” prior to licensure. These can be completed outside of the doctoral program.

*** Applicants for licensure in Michigan must complete training in human trafficking before applying for licensure, but this can be completed as a CE program or via scholarly article self-study rather than as part of a doctoral training program (for more information on this requirement, please see [MI Administrative Rule 338.2525](#)).

*** Applicants for licensure in Virginia will be required to hold a doctorate in clinical or counseling psychology from a professional psychology program in a regionally accredited university that was accredited at the time the applicant graduated from the program by the APA, CPA, or an accrediting body acceptable to the board beginning May 24, 2028; APA approval is not required prior to this date.
