INTRODUCTION

Pursuant to the Higher Education Act of 1965, as amended by the Campus Security Act; (Pub. L. 101-542), Stevenson University provides a detailed report on campus safety policies and procedures, including policies for crime statistics concerning campus crime, to all current students and employees. In addition, Stevenson University provides notice of the Annual Security and Fire Safety Report to prospective students and prospective employees. This notice includes a brief description of what the report contains, the direct web address for accessing the report and how to request a paper copy of the report.

This report is prepared by Stevenson University’s Security Office in partnership with the University’s Office of Student Affairs, Facilities Department, Human Resources Office, Admissions Office (Undergraduate), Admissions (Graduate/ Professional Studies and Accelerated), and the Office of Marketing and Digital Communications.

The Stevenson University Annual Security and Fire Safety Report is available on the Stevenson University website at http://www.stevenson.edu. The report is accessible by going to the bottom of any Stevenson University web page and clicking on “Annual Security & Fire Safety Report”. In addition, the direct link to the University’s Annual Security and Fire Safety Report is www.stevenson.edu/clery. Copies of the Annual Security and Fire Safety Report can be printed from any computer on campus. If you wish a printed copy of the report, please contact the Director of Security, in the University’s Office of Security (443-352-4500), to make your request.

Federal Campus Sex Crimes Prevention Act of 2000 went into effect on 10/28/2002. The law requires institutions of higher education to issue a statement advising the campus community where law enforcement agency information provided by a State concerning registered sex offenders may be obtained. That information can be obtained from the on line sex offender registry for the State of Maryland: http://dpacs.maryland.gov/onlineservs/socem/default.shtml.

Stevenson University encourages all students and employees to promptly and accurately report all allegations of campus crime to the Stevenson University Security Office (Ratcliffe Community Center, Owings Mills Campus, 443-352-4500).
SAFETY ON CAMPUS

Stevenson University is committed to the safety and security of all members of the university community. If, however, you are confronted by a situation requiring assistance by the University’s Security Office, please follow these procedures:

In Emergency Situations
For crimes or accidents:
To report an emergency situation on the Owings Mills campus, contact Security by going to the nearest University telephone and dial “4500” or 443-352-4500 from your cellular device. If on the Greenspring campus, dial “0” from any University telephone which will connect you to a receptionist who will in turn, contact Security via two-way radio. University telephones are located throughout the campus and in staff and faculty offices. Additionally, emergency telephones are located throughout the campus buildings, in elevators and on the parking lots. In a life-threatening situation, immediately call “911” to contact the Baltimore County Police Department and then contact campus Security by dialing “0” on the nearest University telephone or extension 4500 or 443-352-4500.

For fires:
In case of fire, pull the nearest fire alarm and exit the building. Fire alarms are located throughout the campus. Once outside the building, immediately call 911 and Campus Security at X4500 or 443-352-4500. Emergency phones are located throughout the campuses, in the parking lot area or, on the Owings Mills campus, on the quad side of the residential buildings.

Suspicious Persons:
Any suspicious person observed on campus should be reported to Security immediately by dialing “0” on the nearest University telephone or X4500. Security can also be contacted at 443-352-4500.

Security Department
Campus Security Personnel
Whenever the Greenspring campus is open, members of the Security department will be on campus and in radio communication with the administration and the University receptionist. The Owings Mills campus is staffed with security officers 24 hours a day, 7 days a week. Most Security personnel at the University are either active, off-duty or retired Police Officers, Firefighters, Correctional Officers or security personnel trained by the Maryland State Police, Baltimore County Police or Fire Department, etc. The Security department has a close cooperative relationship with the Baltimore County Police Department, where it refers all law enforcement functions and crimes for appropriate action. Stevenson University has a Memorandum of Understanding (MOU) with the Baltimore County Police Department designed to coordinate efforts and foster a cooperative working relationship. Stevenson University Security Officers have no enforcement/arrest authority and its members are not required to carry firearms. Stevenson University’s Security Department’s jurisdiction is limited to the Greenspring and Owings Mills campuses of Stevenson University and certain non-campus property as appropriate.

It should be noted that in the case of an emergency when on campus, off-duty police officers are authorized to carry weapons and make arrests within the scope of their sworn duty under federal, state or local regulations and their law enforcement powers. Only Security Officers authorized by Federal, State and/or local laws are permitted to
carry concealed weapons and any use or display must be within the University or Federal, State or local regulations.

**Security Services**
In addition to patrolling the University campuses and responding to emergencies, the Security department offers the following services:

- Administer Emergency First Aid
- Provide student/faculty/staff escorts when requested
- Lock down the University in emergency situations
- Issue Stevenson University ID Cards
- Deliver emergency messages to students
- Jump start dead batteries
- Open locked cars
- Manage lost and found property
- Assist in out of gas situations
- Assist with flat tires

On the Greenspring campus, Stevenson University’s Security Officers monitor the facilities by regularly patrolling the campus on foot. Stevenson Security is present on campus at all times when the Greenspring campus is open.

The exterior doors to all the residence halls are locked 24 hours a day, 7 days a week. Residents of the building gain access to their specific building through the use of their Stevenson University student ID Card, known on campus as the SUOne card. In addition, Stevenson University employs contract Security Officers from 8:00 p.m. – 4:00 a.m. for additional security in the suite style residence halls that house the first year residents and the majority of the sophomore residents. These contract Security Officers are utilized seven days a week during the fall and spring semesters. At present, Stevenson University does not utilize contract Security Officers in the apartment style residence halls. Finally, the use of closed circuit televisions are widely used on the Owings Mills campus. Security can be contacted at 443-352-4500 or x4500 to facilitate authorized after-hours access when notified in advance.

**Campus Facilities Inspection and Maintenance**
Lighting is provided throughout campus via our Facilities department. Members of facilities and security make frequent inspections of campus lighting and other items in need of repair throughout their tour of duty. Items discovered are reported to personnel listed on the facilities request form. Members of the Stevenson community may also report outages and other items of repair through Stevenson University’s SUNow Portal, by clicking on the “Need Help” tab on the navigation menu and submitting a facilities request. In an emergency, contact the security office (443-352-4500) and an officer will respond and will work with other departments to resolve the issue. Campus Facilities employees also make regular inspections of the buildings and grounds to remove any hazards and to promote safety.

**Security and Crime Awareness Programs**
In addition to the publication of this yearly report, the University is involved with a variety of education awareness and prevention programs to educate members of the University campus regarding security and crime prevention, which may include:
1. Timely alert warnings on campus crimes and incidents using:
   a. Campus wide e-mail
   b. SUAlert system - Stevenson University students, faculty, and staff are encouraged to sign up for SUAlert in order to receive emergency text alerts. This service is available at no cost. More information about SUAlert, including how to register, is available at: http://www.stevenson.edu/about/campus-services/alert/.
   c. Alertus Desktop – Alertus is a desktop notification system that is installed on all University owned networked computers.

2. A public daily crime log in compliance with the Student Right to Know Act:
   The daily crime log is maintained in the Security Office in the Ratcliffe Community Center on the Owings Mills campus. The daily crime log shall be available to the public for inspection during regular University business hours. The log contains statistics related to all reported crimes to Stevenson University’s Security Office and includes the following information: the nature of the crime, the date and time the crime occurred, the general location of the crime, and the disposition of the complaint (if known).

3. Making presentations at orientation.

4. Special presentations on topics of interest in cooperation with the Dean of Students and the Student Government Association.

5. One-on-one discussion sessions with a member of the Security staff or the University’s counselor at the request of any student.

6. Distribution by both electronic and print media of literature on contemporary issues affecting the campus community.

7. Periodic lectures, presentations, and workshops by qualified professionals.

8. Security will conduct unannounced fire/emergency evacuation drills once each semester.
REPORTING CRIMES

Campus Crime
Pursuant to the Federal Campus Security Act, the University has prepared this Annual Security and Fire Safety Report. For additional information on how to report a crime on campus, please see the “Safety on Campus” section of this report.

Crime in the Area Surrounding the Campus
If a crime occurs in the vicinity surrounding the campus, which is threatening to members of the University community, the University will notify the campus community of the situation so that precautions can be taken.

Reporting Emergency or Life-Threatening Situations
Immediately call “911” to contact the Baltimore County Police Department.

Reporting a Crime in a Non-Emergency Situation
Call the Baltimore County Police Department at 410-887-2222.

Reporting Crimes on a Voluntary, Confidential Basis
Victims or witnesses may report crimes on a voluntary, confidential basis to Stevenson University’s mental health counselors located in the Wellness Center on the Owings Mills Campus (443-352-4200). In addition, victims or witnesses may report information using Stevenson University’s anonymous tip-line at 443-334-2630.

Professional and Pastoral Counselors
Stevenson University has no policy or procedures that encourages professional and pastoral counselors to inform the persons they are counseling of any procedures to report crimes on a voluntary, confidential basis for inclusion in the annual disclosure of crime statistics. Pastoral and professional counselors who receive confidential reports of crime are not required to report these crimes to the Stevenson University Security Office for inclusion into the annual disclosure of crime statistics or for the purpose of a timely warning.

These positions are defined as follows:
Professional Counselor: A person whose official responsibilities include providing mental health counseling to members of the institution’s community and who is functioning within the scope of his or her license or certification.

Pastoral Counselor: A person who is associated with a religious order or denomination, is recognized by that religious order or denomination as someone who provides confidential counseling, and is functioning within the scope of that recognition as a pastoral counselor. (Stevenson University does not have staff members who are considered pastoral counselors.)

Campus Security Authorities
Stevenson University encourages all students and employees to report all allegations of campus crime to the Stevenson University Security Office (Ratcliffe Community Center, Owings Mills Campus, 443-352-4500). However, Stevenson University is aware that, in some instances, individuals may choose to file a report with others on campus. For this reason, the Clery Act requires all colleges to collect crime reports from a variety of individuals and organizations that the
Clery Act has termed “campus security authorities”.

“Campus security authorities” is a Clery Act-specific term whose role is to report to Stevenson University’s Security Office allegations of Clery Act crimes that are reported to them in their capacity as a Campus Security Authority. Campus Security Authorities (CSAs) are individuals who have significant responsibility for student and campus activities. CSAs encompass four groups of individuals and organizations associated with an institution. The four groups designated by the Clery Act, and the associated CSAs at Stevenson University within each group, are as follows:

a. A campus police department or a campus security department of an institution. The CSAs at Stevenson University within this category are:

1. All members of the Stevenson University Security Office

b. Any individual or individuals who have responsibility for campus security but who do not constitute a campus police department or a campus security department (e.g. an individual who is responsible for monitoring the entrance into institutional property). The CSAs at Stevenson University within this category are:

1. All members of the Stevenson University Transportation Department
2. All private contract security officers who work in the residence halls and at the gatehouse on the Owings Mills campus
3. All off-duty law enforcement officers hired to perform security services for the University

c. Any individual or organization specified in an institution’s statement of campus security policy as an individual or organization to which students and employees should report criminal offenses. The CSAs at Stevenson University within this category are:

1. Vice President, Student Affairs
2. Dean of Students
3. Title IX Coordinator
4. Vice President, Human Resources
5. All members of the President’s Cabinet

d. An official of an institution who has significant responsibility for student and campus activities, including, but not limited to, student housing, student discipline and campus judicial proceedings. The CSAs at Stevenson University within this category are:

1. All professional members of the Office of Student Affairs (except for the University’s professional counselors and health providers in the Wellness Center who are exempt from this reporting requirement)
2. Athletic Director
3. All athletic coaches
4. All advisors to a Stevenson University club or organization
5. All Resident Assistants

As noted earlier, Campus Security Authorities are responsible for reporting allegations of Clery Act crimes that are reported to them in their capacity as a CSA to the Stevenson University Security Office. CSAs are not responsible for determining authoritatively whether a crime took place nor should they try to apprehend the alleged perpetrator of a crime. These are the responsibilities of the
Stevenson University Security Office and the Baltimore County Police Department.

Stevenson will contact CSAs at the end of each academic semester and direct them to provide a statement confirming instances of criminal reports that may have been made to them.

**Crimes Involving Student Organizations at Off-Campus Locations**
Stevenson University Security has a close cooperative relationship with the Baltimore County Police Department, where it refers all law enforcement functions and crimes for appropriate action. Stevenson University has no off-campus locations of student organizations officially recognized by the institution. As a result, the monitoring and recording of such locations through local police agencies is not applicable. Crimes committed at off campus facilities under the control of the University shall be disclosed in our statistics if they come to the attention of Stevenson University’s Security Office.

**Notification of Disciplinary Outcome regarding Crimes of Violence Resulting from a University Disciplinary Hearing:**
The University will, upon written request, disclose to the alleged victim of a crime of violence (as that term is defined in Section 16 of Title 18, United States Code) or any non-forcible sex offense, the results of any college disciplinary proceeding against a student who is the alleged perpetrator of such crime or offense. If the alleged victim is deceased as a result of such crime or offense, the next of kin of such victim will be treated as the alleged victim for the purpose of this policy.
UNIVERSITY ’S GENERAL POLICY FOR CRIME PREVENTION

Students, faculty and staff are encouraged to be responsible for their own security and the security of others on campus. Each member of the campus community is encouraged to assist Security in eliminating the opportunity for a crime to be committed. Some crime prevention tips:

1. Lock your car doors when you are in your car and when you park it.
2. Keep car windows closed while driving your motor vehicle.
3. Do not walk alone on campus at night.
4. In the evenings, park in a well-lighted area, in a lot close to your destination.
5. Do not leave purses or backpacks unattended.

In the Residence Halls:

1. Lock the doors to your room when leaving even for short periods of time.
2. Do not leave notes on your doors indicating you are not in or how long you will be away.
3. Secure all money and valuables in your room or office.
4. Do not prop the entrance or exit doors to the residence halls. This type of action endangers all and is a serious offense.
DRUG AND ALCOHOL POLICY

Standards of Conduct Regarding Unauthorized Drugs
The Stevenson University community affirms unauthorized drug use to be contrary to the goals of the University. The use, possession (including constructive possession), manufacture, distribution and solicitation of controlled dangerous substances, drug paraphernalia, look-alike drugs, unauthorized legal drugs, man-made or naturally occurring substances or inhalants used for the purpose of altering behaviors, mood, or for changing the brain or nervous system, and over-the-counter drugs/medications or prescription drugs in excess of the recommended or prescribed dosage(s) is strictly prohibited on Stevenson University property, Stevenson sponsored travel, or in connection with any program or activity sponsored or endorsed by Stevenson University.

Standard Sanctions for Unauthorized Drugs
Violations of the University’s Drug Policy are considered serious and may result in suspension, dismissal or expulsion from the University. Students who are found to be distributing drugs will be expelled from the University. Students who are found in possession of large quantities of drugs may also be expelled from the University as the large quantity, by itself, may be viewed as intent to distribute.

Standards of Conduct Regarding Alcohol
The health and safety of members of the Stevenson University community are the primary concerns of the University. It is the University’s policy to uphold the alcohol laws of the state of Maryland. Possession and consumption of alcoholic beverages is permitted only by those who are at least 21 years of age. Alcoholic beverages are not to be furnished to or consumed by minors. Members of the Stevenson community and guests are expected to accept responsibility for their actions, to obey the law and to police their own behavior. Individuals who violate the law, in addition to being subject to criminal penalties, will be subject to University disciplinary measures. These specific policies that follow apply to Stevenson University events both on and off campus.

1. Except as permitted by the following paragraphs, the possession, use or distribution of alcohol by students, faculty, staff, and guests on university property or in connection with any University activity is strictly forbidden.
2. All University-sponsored events where alcohol is served, either on or off campus, must be approved by the Vice President, Student Affairs or Chief of Staff in the President’s office 30 days prior to the event. The Event Application Request for Service of Alcoholic Beverages will serve as a formal application for approval.
   a. All individuals attending the event must be of legal drinking age. Student organizations may request an exception to this guideline if the primary purpose of the event is other than a social drinking party and the majority of the guests are of legal drinking age.
   b. The organization’s adviser or an alternative faculty/staff member must be present for the duration of the event.
   c. Security must be present for the duration of the event.
3. Alcohol may only be served by a licensed caterer trained to serve alcohol. Caterers must provide proof of license and training certification to the University prior to the event. A list of approved caterers is included with the Event Application Request for Service of Alcoholic Beverages.
4. Proper proof of age must be provided to the server.
5. Kegs, multi-litter containers and pitchers used for the serving of alcohol are not allowed at student-sponsored events.
6. At events where alcohol is served, substantial food and non-alcoholic drinks must be provided. During late night events, the service of alcohol will stop one hour prior to the ending time of the event.
7. It is recognized that this document cannot address, in specific fashion, all possible social situations that may occur. Where these procedures are not specific on a particular point, individual and organizational hosts are expected to conduct their social events and themselves in the spirit of social responsibility consistent with these procedures.

Rules Specifically Applicable to University Housing
Residents of legal drinking age may drink alcohol in their residence hall apartment or suite only if they are not in the presence of residents or guests who are under 21 years of age. Absolutely no alcohol is permitted in any shared space in a residence hall room/suite/apartment where underage students reside. Alcohol may not be served or consumed in any common areas of the University’s residential facilities including but not limited to hallways, lounges, quad areas, and parking lots. Guests are expected to abide by the University’s rules while visiting SU housing. Students may be held responsible for the conduct of their guests. The Residence Life staff will confiscate or require underage residents to dispose of alcohol they observe being brought or having been brought into the residences and to stop consumption of alcoholic beverages in all common areas. Kegs, beer balls, and other multi-litter containers are not permitted in SU residence halls. The Residence Life staff will inform students of University policy, clarify if they are violating the University’s policy, and counsel them regarding the consequences of their behavior, both in terms of health and safety risks and legal consequences. Students in violation of the housing agreement or University policy will be held accountable. The Residence Life staff is to report offenders to the Assistant Vice President, Student Affairs & Conduct. The students involved will meet with the Assistant Vice President, Student Affairs & Conduct or a professional Residence Life staff member to determine appropriate sanctions if warranted. Any student failing to meet with a Residence Life staff member will be subject to termination of the housing contract for failure to comply with directions of a University official.

Standard Sanctions for Alcohol Violations
First time violators may be subject to:
- Formal warning
- $100 fine and/or discipline service
- Participation in an alcohol education program designated by the University

Second time violators may be subject to:
- $150 fine and/or discipline services
- Housing probation
- Parental notification (official warning letter sent to the student with a copy mailed to the student’s parents/guardians)
- Participation in an alcohol education program or referral for treatment designated by the University

Students with subsequent alcohol violations will generally be subject to one or more of the following:
- Increased fine, referral for treatment, removal from residence, and termination of the students’ Housing Contract and/or suspension and/or expulsion from the University
**Reporting Use and Misuse**

Each member of the Stevenson community is advised to report all suspicions of unlawful possession, use or distribution of illicit drugs or alcohol or of alcohol abuse to Stevenson University’s Security Office in the Ratcliffe Community Center on the Owings Mills campus or by calling 443-352-4500.

**Alcohol and Drug Education**

Stevenson provides alcohol and drug education to all new students through new student orientation and through the students’ required completion of the online educational program [MyStudentBody.com](http://MyStudentBody.com). MyStudentBody.com, which is a required component of the Stevenson University health profile, focuses on three areas: alcohol, drugs and sexual violence.

Each year, Stevenson participates in the National Alcohol Screening Day (NASD) held in April. Wellness Center health professionals are available to students who participate to provide confidential counseling and health services and to offer referrals to off-campus providers as needed. In spring 2019, 260 forms were completed by Stevenson students and educational materials were provided to participants. This event was a collaboration between the Wellness Center and the Student Government Association.

Throughout the academic year, Stevenson strives to offer programming and awareness campaigns on the topics of substance abuse. For example, in February, 2019 the Vice President, Student Affairs sent a message to all students alerting them of the health risks associated with “edibles” laced with “K2” or “Spice”. While we have not encountered any incidents on the Stevenson University campus, we were aware of other colleges where students became ill after ingesting edibles found to be laced with “K2” or “Spice”. In April, 2019 a representative from MADD along with a representative from the Baltimore County DUI Task Force delivered a presentation on campus regarding the lasting and long-term effects of substance impaired driving. Also in April, 2019 representatives from the Baltimore County Health Department delivered a presentation on heroin and opioid abuse.

Stevenson University’s Office of Residence Life, in collaboration with the Wellness Center, provides alcohol education to students who are found responsible for violating the University’s Alcohol Policy. Stevenson University utilizes the *Informed Choices Alcohol Education* Workshop for students found responsible for a first-time alcohol violation. *Informed Choices* is an interactive, discussion based workshop designed to empower students to make the best-informed decisions about alcohol consumption. The goal of the program is to further educate students on the impact alcohol has on their own bodies and in their communities, both on and off-campus. In addition, one-on-one education is provided when students violate the University’s alcohol policy a second time as well as in cases of significant first-time alcohol violations.

Students who violate Stevenson University’s drug policy, and who are permitted to remain enrolled at the University, are typically required to participate in a University sponsored drug education class facilitated by the Office of Residence Life. This class is an interactive workshop designed to help students understand the risks associated with illegal drugs and empower them to make the best-informed decisions they can make surrounding the use or abuse of illegal drugs. The goal of the program is to educate students on how drugs impact their mind, body and community as well as the impact it can have on their potential career prospects. If students continue to violate Stevenson University’s drug policy, they may be referred for education and treatment from a University approved off-campus provider or be removed from housing or suspended/expelled from the University.
Stevenson has a Substance Awareness Task Force (SATF) that meets on a monthly basis. The task force includes faculty, staff, and students. The mission of the task force is to support and promote healthy & safe life choices for all faculty, staff & students of the Stevenson community through educational resources, alternative programming and positive reinforcement. Several of the programs that are described above were developed because of the efforts of the SATF. Further, the SATF recently developed a “Stevenson Cares” campaign. The purpose of this campaign is to help provide resources for students who are in need of assistance as a result of issues such as drugs and alcohol, sexual assault, or mental health. Clings have been placed in the stalls of public bathrooms on the Owings Mills campus with important emergency contact information for students and employees who may be experiencing personal struggles, including contact information for Maryland’s Helpline (formerly Maryland Crisis Hotline). More information related to the Maryland Helpline is available [here](#) or by calling 211.

Employees may access alcohol and drug education and addiction resources through ComPsych, Stevenson University’s Employee Assistance Program, by calling 800-327-1850.

For more complete information related to alcohol and drug education, please refer to Stevenson University’s comprehensive drug and alcohol abuse prevention program. This program contains, among other things, additional information related to alcohol and drug education, including alcohol and other drug programs available to students and employees. Stevenson University’s drug and alcohol abuse prevention program is available at [www.stevenson.edu/alcohol-drugs](http://www.stevenson.edu/alcohol-drugs) as well as in Appendix A of this document.

**Legal Sanctions Under State and Federal Law**

It is the policy of Stevenson University to uphold state and federal laws with regards to alcohol and other drug violations. Students who violate Stevenson University’s drug and alcohol policy are referred to the University’s Student Conduct Office. Violations of this policy may also be referred to appropriate law enforcement agencies. Employees who violate Stevenson University’s drug and alcohol policy are referred to the University’s Human Resources Office and are subject to disciplinary actions up to and including termination of employment and/or referral for prosecution as appropriate.

Sanctioning guidelines for the state of Maryland may be found by accessing the following link provided by the Maryland State Commission on Criminal Sentencing Policy (MSCCSP): [http://msccsp.org/Files/Guidelines/offensetable.pdf](http://msccsp.org/Files/Guidelines/offensetable.pdf). Specific information related to alcoholic beverages may be found on page 2 of the MSCCSP document. Information related to CDS & paraphernalia may be found beginning on page 8. Finally, information related to Prescription Drugs and Other Substances may be found on page 41.

For more complete information related to legal sanctions under federal, state and local law, please refer to Stevenson University’s comprehensive drug and alcohol abuse prevention program. Stevenson University’s drug and alcohol abuse prevention program is available at [www.stevenson.edu/alcohol-drugs](http://www.stevenson.edu/alcohol-drugs) as well as in Appendix A of this document.
Policies, Procedures, and Programs: Dating Violence, Domestic Violence, Sexual Assault and Stalking

Stevenson University’s Sexual Misconduct Policy can be found online at www.stevenson.edu/sexualmisconduct

Stevenson University believes that members of the Stevenson University community have the right to be free from acts of sexual misconduct, domestic and/or dating violence, and stalking. The University is committed to providing a safe and non-discriminatory learning and working environment. Accordingly, by this Policy, all members of the Stevenson community and all visitors, regardless of sex, gender, sexual orientation, gender identity, or gender expression are advised that any sexual misconduct by any student, employee, or third party is prohibited. Any attempt to commit sexual misconduct, or to assist or willfully encourage any such act, is a violation of this Policy. Sexual misconduct is contrary to the basic values of Stevenson, which include promoting a sense of community, fostering learning, instilling integrity, and achieving excellence. Stevenson is committed to providing prompt and equitable resolution of all complaints of sexual misconduct.

Stevenson University’s Sexual Misconduct Policy applies to all complaints of sexual misconduct in Stevenson’s education programs and activities. Stevenson also prohibits sexual misconduct by all third parties on Stevenson’s campuses and during Stevenson activities. This Policy also applies to sexual misconduct that occurs off campus among members of our community and will be addressed in the same manner as if the incident occurred on campus.

Educational Programs and Campaigns

Stevenson University is committed to educating the campus community on the topics addressed in its Sexual Misconduct Policy. The goal of Stevenson’s educational programs is to promote awareness and to educate students and employees about preventing dating violence, domestic violence, sexual assault and stalking. Stevenson offers primary prevention and awareness programs for all incoming students and new employees as well as ongoing prevention and awareness programs for students and employees. A description of these programs at Stevenson University is provided below.

Stevenson University prohibits dating violence, domestic violence, sexual assault and stalking as they are defined for purposes of the Clery Act. The Clery Act defines these terms as follows:

**Dating Violence:** violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship shall be determined based on the reporting party’s statement and with consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved in the relationship. For the purposes of this definition:

- dating violence includes, but is not limited to, sexual or physical abuse or the threat of such abuse.
- dating violence does not include acts covered under the definition of domestic violence.
Domestic Violence: a felony or misdemeanor crime of violence committed:
▪ by a current or former spouse or intimate partner of the victim
▪ by a person with whom the victim shares a child in common
▪ by a person who is cohabitating with, or has cohabitated with, the victim as a spouse or intimate partner.
▪ by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred;
▪ by any other person against an adult or youth victim who is protected from that person’s acts under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred.

Stalking: engaging in a course of conduct directed at a specific person that would cause a reasonable person to:
▪ fear for the person’s safety or the safety of others; or
▪ suffer substantial emotional distress

Sexual Assault: an offense that meets the definition of Rape, Fondling, Incest, or Statutory Rape as used in the FBI’s UCR program and included in Appendix A of 34 CFR Part 668.

Primary Prevention and Awareness Programs for All Incoming Students and New Employees
All new students (residential and commuter) are required to successfully complete the Essentials course within MyStudentBody.com as part of the Stevenson University health profile. MyStudentBody’s Essentials course is an online prevention education course intended for incoming students. It covers the three most significant behavioral risks new college students face: alcohol, illicit and prescription drugs, and sexual violence. The sexual violence component covers such concepts as identifying an act of sexual violence, bystander intervention, and resources for seeking help. The alcohol education component engages students on the realities of college life and drinking. Finally, the Essentials course provides comprehensive education on illicit and prescription drug use.

In addition, Stevenson routinely offers several programs during New Student Orientation in August. During the most recent New Student Orientation in August, 2019, Stevenson University’s Assistant Vice President, Student Affairs & Conduct delivered a presentation on Title IX. This presentation addressed Stevenson’s Sexual Misconduct Policy, victim’s resources, bystander intervention, and procedures to follow in cases of alleged sexual violence. Stevenson University also hosted Dr. Joni Frater and Esther Lastique who delivered their presentation Sex Ed Boot Camp. This program empowers students to make better decisions about their sexuality and also addresses, among other topics, Title IX and violence prevention.

As of July 1, 2017, all new employees are required to complete the following programs created by United Educators: Mosaic: Preventing Harassment Together (Faculty and Staff Version); Mosaic: Prevent Sexual Violence; and Protecting Children: Shine a Light. These trainings must be completed by new employees within their first thirty days of employment. These trainings are all required as part of Stevenson University’s commitment to promoting a safe learning and working environment and one that is free from discrimination on the basis of gender.
Ongoing Prevention and Awareness Programs for Students and Employees

Stevenson University is committed to providing ongoing prevention and awareness programs for both students and employees. The goal of these programs is to promote awareness and to educate students and employees about preventing dating violence, domestic violence, sexual assault and stalking. In addition, these programs are also intended to promote awareness of the services that Stevenson has available to address these issues.

With regards to students, Stevenson University’s Assistant Vice President Student Affairs & Conduct routinely delivers presentations related to the University’s Sexual Misconduct Policy to various groups on campus such as resident assistants and student athletes.

For the fourth consecutive year, Stevenson has placed magnets on the refrigerators located inside each of the rooms in the University’s residence halls. These magnets, which are also made available to commuter students, provide on-campus and off-campus resources available to members of the University community who may have experienced sexual violence or who may know someone who has experienced sexual violence. The magnets also clearly distinguish between confidential and non-confidential resources. In addition, all residential students received a brochure upon moving onto campus detailing resources for victims of sexual assault, relationship violence, and stalking.

During 2018-2019 academic year, the University developed a poster campaign by which we placed clings in the restrooms of Rockland Hall identifying on-campus and off-campus resources for students and employees who may be experiencing (or who may know someone who may be experiencing) issues related to sexual assault and/or other topics that may be impacting members of our community. This campaign, titled Stevenson Cares, was expanded this current academic year and we now have clings in every public restroom on the Owings Mills Campus.

Throughout the spring 2019 semester, 270 student athletes and new fraternity members participated in the One Love Foundation’s Escalation Workshop. The One Love Foundation describes the Escalation Workshop as a powerful, film-based workshop that opens people’s eyes to the warning signs of relationship abuse. In addition, in April 2019, members of the Stevenson University Football team along with members of the Phi Mu Delta fraternity participated in Greater Baltimore Medical Center’s (GBMC) 4th annual Walk a Mile in Their Shoes event in Towson, MD. This event encourages dialogue and shows support for those impacted by sexual violence and domestic abuse. The students raised almost $2,000 by helping to sell concessions during the Stevenson Mustang Classic lacrosse tournament and hosting an online fundraiser. In addition, each student also paid a $15 registration fee which ultimately made their contributions closer to $3,000. Also in April, 2019, Stevenson University hosted a representative from TurnAround, Inc. who delivered a presentation on healthy relationships.

Regarding employees, at the beginning of the fall 2019 semester, Stevenson’s Title IX Coordinator distributed the same magnets we placed in the residence halls to employees at the opening of faculty staff meeting in August. Stevenson’s Title IX Office also offers on-going workshops for employees throughout the academic year.

Resources pertaining to sexual assault prevention, risk reduction, sexual assault response, and other related topics may be found on Stevenson University’s website at www.stevenson.edu/sexualmisconduct.
**Bystander Intervention Programs**

Bystander intervention is defined as safe and positive options that may be carried out by an individual or individuals to prevent harm or intervene where there is a risk of dating violence, domestic violence, sexual assault or stalking. Bystander intervention includes recognizing situations of potential harm, understanding institutional structures and cultural conditions that facilitate violence, overcoming barriers to intervening, identifying safe and effective options, and taking action to intervene.

Stevenson University provides bystander intervention as part of the primary prevention and awareness campaigns noted above. Specifically, with regards to new students, this topic is addressed in the MyStudentBody course that is described above in the section on primary prevention programs. Bystander intervention is then reinforced in the other educational programs and trainings conducted by Stevenson University.

During New Student Orientation in August, 2019 new students participated in a bystander intervention training that was facilitated by Stevenson’s student orientation leaders. The student leaders were trained by TurnAround, Inc. prior to New Student Orientation. The training the student leaders received included them having the opportunity to observe TurnAround, Inc. facilitate the bystander training to new students on Stevenson’s football team.

Also, Stevenson University’s Security Office actively promotes the “see something, say something” campaign through presentations and promotional materials throughout the Stevenson community.

In addition, in order to encourage the reporting of dating violence, domestic violence, sexual assault, and stalking, Stevenson University has the following provision within its Sexual Misconduct Policy:

**Student Amnesty Policy and Bystander Intervention.** Stevenson University is committed to the safety and well-being of all of its students. As such, Stevenson has a variety of policies in place to help enhance the safety of the campus community. Stevenson encourages the reporting of sexual misconduct. Sometimes, students may be reluctant to come forward and report an incident of sexual misconduct, or serve as a witness, because they are concerned that they may be charged with violating other campus polices, such as Stevenson’s alcohol or drug policy. Therefore, for students who report an incident of sexual misconduct or who serve as witnesses to an incident of sexual misconduct, the University will not institute disciplinary sanctions for his or her own personal consumption of drugs or alcohol related to the incident as long as any such violations did not place the health or safety of any other person at risk. Stevenson may pursue other educational remedies regarding the use of alcohol and illegal drugs in order to protect the health and well-being of the student.

Finally, MyStudentBody offers several strategies surrounding bystander intervention, some of which are provided below:

When a friend or someone you know is in an abusive relationship, there are several things you can do to step in and help:
● **Listen to your friend, and don’t gossip about what you hear.** Tell your friend you care, and let him or her confide in you.

● **Believe the story told to you.** Don’t blame your friend for what’s happening or question the events that took place. Don’t underestimate what he or she is going through.

● **Make it clear that your friend doesn’t deserve to be abused.** Focus on your friend’s strengths. You might recall the good times you’ve shared together. The abuser has probably told your friend that he or she is “worthless,” a bad student, or a bad partner. Your friend may have lost all self-confidence and believe that “there really is something wrong with me.” Be emotionally supportive. Offer reminders of the person’s skills and accomplishments. We all deserve a life free of violence. Tell your friend that.

● **Gather information.** Gather phone numbers and services that can help your friend. Contact your on-campus resources or contact a local crisis center (such as TurnAround, Inc.) that assists victims of domestic violence and ask for advice to help your friend. You could even go with your friend to one of these centers, if he or she is afraid to go alone.

● **Let the person make his or her own decisions.** If your friend decides to leave the relationship, help your friend figure out a “safety plan” by calling a crisis center hotline. These centers can help with exploring options and making a plan to be as safe as possible. Victims of abuse may face greater risk when they try to end the relationship. An abusive person who feels out of control may become dangerous.

When you’re a bystander witnessing abuse or a sexual assault on campus, know that it’s a community problem and everyone plays a role in ending it. Here’s what you can do to help:

● Don’t intervene alone if it’s unsafe; call 911 or Stevenson University Security at 443-352-4500 or find someone to help.

● Do something about a situation that could lead to sexual violence before it happens. Speak up and express your concerns.

● If you think a friend’s actions are unwanted, harassing, or abusive, talk about it with your friend in a caring and concerned way.

● Save emergency numbers in your cell phone such as Stevenson University Security at 443-352-4500.

● Realize that abusive behaviors can come from anyone, and don’t condone or minimize them coming from anyone.

When you encounter sexual violence at Stevenson University, you have a choice whether or not to do something. You have the right to define your own boundaries. You could speak out against something you find offensive, or you could praise someone’s decision to avoid a potentially harmful situation. Whatever it is, you can make a difference, because bystander intervention is everyone’s responsibility.

**Information on Risk Reductions**

Stevenson University provides risk reductions as part of the primary prevention and awareness campaigns noted above. Specifically, with regards to new students, this topic is addressed in the MyStudentBody course that is described above in the section on primary prevention programs. Risk reductions is then reinforced in the other educational programs and trainings conducted by Stevenson University.
MyStudentBody offers several strategies regarding risk reductions, some of which are provided below. Stevenson University wishes to emphasize that these strategies are in no way meant to blame the victim. It is not the victim’s fault if someone commits an act of violence against them. The sole responsibility is with the person who chooses to rape, abuse, assault, or otherwise harm another person.

- Call 911 or Stevenson University Security (443-352-4500) if you are in immediate danger.
- Avoid dangerous situations and always be aware of your surroundings. Knowing where you are and who is around you may help you find a way out of a bad situation. Avoid isolated areas to the extent practical, as it’s harder to get help if no one is around.
- Walk with purpose and act like you know where you’re going, even if you’re unsure of your direction.
- Trust your instincts if a situation or place feels unsafe or uncomfortable. Leave as quickly as is practical.
- Try not to load yourself down with packages or bags. This can make you look more vulnerable.
- Carry your cell phone, charged, with you when you go out. You may also want to carry a rechargeable power-cell in your bag or backpack to make sure you can use your phone all day even if you can’t plug into an outlet.
- Always have a plan for getting home—and a backup plan in case there’s an issue. For example, if you’re relying on someone else for a ride to a party, make sure to carry cab fare and have the number of a reliable taxi service in your phone, in case you need to go home separately.
- Avoid putting headphones or earbuds in both ears. You should be able to hear what is around you, especially if you’re walking alone.

Here are things anyone can do to assist a person in danger of assault:

- Ask if the person needs help. Before stepping in, check to see what the risk is to yourself. If it means putting yourself in danger, call 911.
- Stay with the person. If you stick around, you are considered a witness. The perpetrator is less likely to do anything if someone is witnessing the scene.
- If you know the perpetrator, tell him or her to back off, that it’s a bad idea, and to leave the potential victim alone.

Information about Sexual Assault, Domestic Violence, Dating Violence, and Stalking in the State of Maryland

As required by the Clery Act, below are the definitions of sexual assault, domestic violence, dating violence, stalking, and consent within the state of Maryland. These definitions are provided to the community for educational and awareness purposes. Students and employees should keep in mind, however, that Stevenson University has its own definitions for these terms and it is these definitions that are used in the application of Stevenson University’s Sexual Misconduct Policy. For specific information regarding how Stevenson University defines these terms, please see www.stevenson.edu/sexualmisconduct.

Sexual Assault Definition in the State of Maryland

There is no definition of the term “Sexual Assault” in the local jurisdiction. Maryland does, however, have laws pertaining to rape in the first and second degree as well as different classifications of sexual offenses. Rape is defined in the state of Maryland as vaginal intercourse
with another involving force or the threat of force without the consent of the other. Beginning on October 1, 2017, a new law, **SB 271**, took effect. This law established that evidence of physical resistance by a victim is not required to prove that a sexual crime was committed. Changes to Maryland’s sexual offenses laws also took effect on October 1, 2017 as a result of **HB 647**. This law reclassified criminal conduct previously classified as sexual offense in the first degree and sexual offense in the second degree as rape in the first degree and rape in the second degree. For complete information on these laws, please refer to the links provided above as well as the following link provided by the Maryland Coalition Against Sexual Assault (MCASA): [https://www.mcasa.org/law-public-policy/maryland-law-regulations/](https://www.mcasa.org/law-public-policy/maryland-law-regulations/). This website describes in detail Maryland’s laws and regulations involving sexual crimes.

**Domestic Violence Definition in the State of Maryland**  
(Source: [http://www.courts.state.md.us/legalhelp/domesticviolence.html](http://www.courts.state.md.us/legalhelp/domesticviolence.html))

Maryland law defines domestic violence “abuse” as the occurrence of one or more of the following acts between “family or household members”:

- Assault
- An act that places a person in fear of imminent serious bodily harm
- An act that causes serious bodily harm
- Rape or sexual offense
- Attempt rape or sexual offense
- Stalking
- False imprisonment, such as interference with freedom, physically keeping you from leaving your home or kidnapping you.

**Dating Violence Definition in the State of Maryland**

There is no definition of the term “Dating Violence” in the local jurisdiction.

**Stalking Definition in the State of Maryland**  
(Source: Md. Criminal law Code Ann. § 3-801)

Stalking is defined as a course of conduct that includes approaching or pursuing another where:

1. the person intends to place or knows or reasonably should have known the conduct would place another in reasonable fear:
   
   (i) 1. of serious bodily injury;  
   2. of an assault in any degree;  
   3. of rape or sexual offense as defined by §§3-303 through 3-308 of this title or attempted rape or sexual offense in any degree;  
   4. of false imprisonment; or  
   5. of death; or  
   (ii) that a third person likely will suffer any of the acts listed in item (i) of this item; or

2. the person intends to cause or knows or reasonably should have known that the conduct would cause serious emotional distress to another.

**Consent Definition in the State of Maryland**

There is no definition of the term “Consent” in the local jurisdiction.
Consent Definition at Stevenson University
Consent is an affirmative decision to engage in mutually acceptable sexual activity given by clearly and mutually understandable words or actions that create a knowing, willing, voluntary, and active agreement by all parties regarding the conditions of sexual activity. The consent must be present and ongoing. Consent is active, not passive. Silence or an absence of resistance cannot be interpreted as consent. Consent to engage in sexual activity with one person does not imply consent to engage in sexual activity with another. Consent to sexual activity may be withdrawn at any time provided that the withdrawal of consent is communicated in clearly understandable words or actions. If consent is withdrawn, all sexual activity must immediately cease.

In the absence of mutually understandable words or actions (an agreement on what is to be done, where, with whom, when, and how), it is the responsibility of the initiator (the person who wants to engage in the specific sexual activity) to make sure that he or she has consent from the potential partner(s). Coercion, force, or threat of either invalidates consent.

Someone is not giving consent if they are: saying “no” or “stop”, crying, moving away, pushing the other(s) away, unengaged, intoxicated, drugged/high, asleep, unconscious, physically or psychologically pressured or forced, intimidated, coerced, manipulated, has a mental or physical impairment that would raise doubt about the capacity to give consent, beaten, threatened, or confined.

Furthermore, a current or previous dating or sexual relationship is not sufficient to constitute consent. Consent to one form of sexual activity does not imply consent to other forms of sexual activity. Being intoxicated does not diminish one’s responsibility to obtain consent. Silence, previous sexual relationships, and/or a current relationship with the initiator (or anyone else) may not be taken to imply consent. In the State of Maryland, an individual cannot legally give consent if person is incapacitated due to alcohol or drugs, or under the age of 16.
PROCEDURES VICTIMS SHOULD FOLLOW IN THE CASE OF ALLEGED DATING VIOLENCE, DOMESTIC VIOLENCE, SEXUAL ASSAULT OR STALKING

Victims of sexual assault, relationship violence (including domestic violence and dating violence), or stalking are strongly encouraged to do the following:

Immediately after an assault, the victim is strongly encouraged to do the following:

A. Get out of physical danger. The victim should go to a safe place, call a friend, family member, the room of the Resident Assistant, or the Wellness Center (if during weekday business hours). The victim also may choose to call 911 or refer to other sources of support described in the University’s Sexual Misconduct Policy.

B. Report the assault to Stevenson University Security. Campus Security contact information is as follows:

1. Owings Mills Campus: Ratcliffe Community Center, Front Entrance, (100 Campus Circle, Owings Mills, MD 21117); phone number: 443-352-4500.

2. Greenspring Campus: phone numbers: 410-486-7000 (during standard business hours; ask for Security); 443-352-4500 (available 24 hours).

The victim also will be advised of their right to file a complaint with the police and to seek a Protective/Peace Order from the local court. The Director of Security or the Security Shift Supervisor can assist in contacting the police or pursuing a Peace Order. Filing a report with Stevenson does not prevent filing a police report or seeking a Peace Order.

C. Preserve physical evidence. If there has been a sexual assault, removal of clothes or bathing or cleaning up in any way may destroy essential evidence. Therefore, to preserve evidence, the victim should not shower, bathe, go to the bathroom, douche, smoke, eat, drink or brush teeth or hair, or change clothes or bedding before going to the hospital or medical facility. Save all clothing worn at the time of the assault; if the victim has changed clothes, do not wash them and bring them to the hospital or medical facility. Do not disturb anything in the area where the assault occurred.

D. Preserve important information. Write down as much as can be remembered about the circumstances of the assault, including a physical description of the assailant. If the alleged perpetrator was unknown to the victim, try to remember any helpful details that may lead to his or her identification, such as scars or other marks, jewelry, dress, language, approximate height and weight in comparison to that of the victim, vehicle description, and tag number. Write these down as soon as possible, and include the date and time of writing.

E. Obtain medical attention and forensic examinations. Victims may receive care at a local hospital, urgent care facility, or through their personal physician, and can obtain a free exam to preserve forensic evidence.

1. Medical Care. Students may also seek medical care and make confidential reports at the Stevenson University Wellness Center (443-352-4200). The Wellness
Center is open Monday through Friday, 9:00 a.m. – 5:00 p.m. with extended hours until 7:00 p.m. on Tuesday and Wednesday. A nurse practitioner or physician will conduct an examination for physical injuries, discuss emergency contraception, and test for STIs. No fees will be charged by the Wellness Center. The Wellness Center will not perform a forensic examination or evidence collection. When a complainant makes a report of sexual misconduct to a doctor, nurse or counselor in the Wellness Center, the report is kept confidential and will not be disclosed unless directed otherwise.

2. Sexual Assault Forensic Exam. If there has been a sexual assault, the victim is strongly encouraged to immediately get a free Sexual Assault Forensic Exam (S.A.F.E.) at the Greater Baltimore Medical Center in Towson (6701 North Charles Street, Towson, Maryland 21204, 443-849-3323 or 443-849-2226) or another similar facility, no later than five (5) days after the assault. Campus Security will coordinate transportation to the hospital for the S.A.F.E. examination, if requested. In addition, the Greater Baltimore Medical Center’s S.A.F.E. program provides free cab vouchers to and from their hospital. Please contact Campus Security at 443-352-4500 or the Wellness Center at 443-352-4200 to obtain a voucher. For more information about the S.A.F.E. examination, contact a Residence Life Staff Member or call TurnAround’s 24-hour hotline at 443-279-0379. Even if the victim is undecided whether to make a police report, evidence may still be collected in a S.A.F.E. examination, and it will be held under an anonymous name for at least 20 years, giving the victim an opportunity to decide.

F. Obtain Counseling and/or Other Advocacy Services. Mental Health Counselors and Health Care Professionals located in the Stevenson University Wellness Center (443-352-4200) are available to provide confidential counseling and support to student victims and can assist them in evaluating the options available. After normal business hours, students wishing to speak to a professional in the Wellness Center may do so by simply contacting Campus Security and requesting that a counselor from the Wellness Center contact them. Employees may contact ComPsych, the University’s Employee Assistance Program, at 800-327-1850.

Crisis counseling is also available from TurnAround, Inc., which provides counseling and support services to victims of domestic violence and sexual assault. Legal assistance and victim advocacy services may also be accessed by contacting the Sexual Assault Legal Institute (SALI) which is a program of the Maryland Coalition Against Sexual Assault (MCASA). Contact information for each organization is provided below:

G. Criminal complaint. A person who believes she or he is a victim of sexual violence may also contact law enforcement authorities and decide whether to file a criminal complaint. Law enforcement may be contacted by dialing 911 and an officer from the appropriate jurisdiction will respond and take a report detailing the circumstances of your allegation. Campus Security will
provide help to a victim in making this contact with law enforcement authorities if requested by the victim. The victim also has the right not to report the incident to criminal authorities. A law enforcement inquiry does not alter Stevenson’s obligation or commitment to conducting a prompt investigation. While Stevenson may temporarily delay its investigation while law enforcement authorities investigate, that investigation is a separate process. However, Stevenson will not wait until the outcome of a criminal proceeding to undertake an investigation and make a decision on the complaint. Stevenson will take appropriate interim steps during the law enforcement agency’s investigation to provide for the safety of the victim(s) and the school community.

Filing for Protective Orders or Peace Orders in the State of Maryland

Peace and Protective Orders are civil orders issued by a judge that order one person to refrain from committing certain acts against others. The relationship between the respondent (person alleged to have committed the prohibited act) and the petitioner (person seeking protection) determines the Petition to be filed. Protective Orders generally apply to people in domestic relationships. Peace Orders apply to other persons. You cannot qualify for both.

The below information is provided to help you understand the difference between a peace order and a protective order as well as the process for filing for one. Also, please keep in mind that Stevenson University’s Director of Security or a Security Shift Supervisor can assist you with both understanding your options and/or the process for pursuing a Peace Order or a Protective Order. If you wish to speak with either the Director of Security and/or Security Shift Supervisor, please call 443-352-4500 or go directly to the Security Office located in the Ratcliffe Community Center on the Owings Mills campus (100 Campus Circle, Owings Mills, MD 21117).

In order for Stevenson University to assist in ensuring compliance with either a peace or a protective order, upon receiving the peace or protective order, please bring a copy to Stevenson University’s Security office. If a student or an employee feels that a violation of the order has occurred, she/he should contact 911 and Stevenson University Security (443-352-4500) immediately.

Protective Orders

Protective Orders are civil orders issued by a judge that orders one person to refrain from committing certain acts against others. Maryland law defines domestic violence “abuse” as the occurrence of one or more of the following acts between “family or household members”: assault; an act that places a person in fear of imminent serious bodily harm; an act that causes serious bodily harm; rape or sexual offense; attempt rape or sexual offense; stalking; false imprisonment, such as interference with freedom, physically keeping you from leaving your home or kidnapping you.

You are eligible for a protective order if you and the alleged abuser:

- Are current or former spouses
- Have lived together in an intimate relationship for at least 90 days during the past year
- Are related by blood, marriage, or adoption
- Are in a parent-child, or stepparent-stepchild relationship and have resided together for at least 90 days during the past year
- Are in a caretaker-vulnerable adult relationship
- Are the parents of a child together
- Have had a sexual relationship within 1 year before the filing of the petition
Peace Orders
A Peace Order is a form of legal protection for anyone who is experiencing problems with an individual, including someone in a dating relationship, a neighbor, a stranger, or anyone else. The peace order enables an individual who wishes to be left alone to ask the Court for an order for the other person to stay away and refrain from any contact.

A Peace Order allows any person who has been subjected to abuse, harassment, stalking, trespass, or malicious destruction of property to seek relief from the court. Unlike protective orders, the nature of the relationship between the parties is not a factor when petitioning the court for a Peace Order. If an individual is entitled to relief in a protective order hearing they are not entitled to seek relief under the Peace Order Act.

For complete information on how to file for a peace or protective order, please see http://www.courts.state.md.us/courtforms/joint/ccdcdvpo001br.pdf. This link will take you to a brochure prepared by the Maryland Courts titled How to File for a Peace or Protective Order. For additional information regarding domestic violence as well as peace and protective orders, please see http://www.courts.state.md.us/legalhelp/domesticviolence.html. Finally, if you wish to speak with someone directly, you may contact the Maryland District Court in Towson, Maryland (120 E. Chesapeake Avenue, Towson, MD 21286) or by calling 410-512-2000.

Requesting a No-Contact Order from Stevenson University
Stevenson University is able to provide victims of sexual assault, relationship violence or stalking a no-contact order between the victim and the accused pending the institution’s disciplinary process. Requests for no-contact orders in this regard should be made to the Title IX Coordinator (443-334-2176 or titleix@stevenson.edu). Once issued, the no-contact order prohibits contact of any kind (e.g. in-person, phone calls, email, social media, via third party, etc.) between the victim and the accused. Complainants may also seek protective measures from outside law enforcement agencies as described above. If a student or an employee feels that a violation of this no-contact order has occurred, they should contact the Title IX Coordinator or Stevenson University Security (443-352-4500) immediately.

Legal Assistance
Legal assistance and victim advocacy services may be accessed by contacting the Sexual Assault Legal Institute (SALI) which is a program of the Maryland Coalition Against Sexual Assault (MCASA). Contact information for this organization is 877-496-7254 or 301-565-2277.

In accordance with Maryland Law, legal counsel paid for by the Maryland Higher Education Commission (MHEC) is available for a current or former student who makes a complaint on which a formal Title IX investigation is initiated, or a current or former student who responds to a complaint in which a Title IX investigation is initiated. In order to qualify, the party must have been enrolled as a student at Stevenson at the time of the incident that is the basis of the complaint.

MHEC has developed a list of attorneys and legal services programs willing to represent students on a pro bono basis or at fees equivalent to those paid to attorneys under civil legal services programs administered by the Maryland Legal Services Corporation (MLSC). A student may select an attorney from the list. A student may select and retain an attorney prior to the conclusion of the formal Title IX proceedings. If a student selects and retains an attorney who is not on the list, MHEC must pay fees to the attorney selected by the student that are equivalent to those paid to attorneys under civil legal services programs administered by MLSC. Further information is available on the MHEC website (http://www.mhec.maryland.gov/).
Reporting Violations under Stevenson University’s Sexual Misconduct Policy

A. Informal Resolution

1. In many instances, counseling, advice, or informal discussion may be useful in resolving concerns about allegations of discrimination prohibited by Title IX. Complainants who wish to resolve their concerns informally should bring them to the attention of the Title IX Coordinator. **Note: Informal resolution and/or mediation will not be used to resolve an allegation of sexual assault.**

2. The Title IX Coordinator, or designee, notifies the respondent of the full disclosure of allegations and the option to voluntarily participate in an informal process in an effort to reach a voluntary resolution.

3. If the complainant and the respondent both voluntarily agree in writing to participate in an informal process that does not involve a full investigation and findings after receiving a full disclosure of the allegations and their options for resolution, and if the Title IX Coordinator determines that a particular Title IX complaint is appropriate for such a process, the University may facilitate an informal resolution, including mediation, to assist the parties in reaching a voluntary resolution.

4. In working to informally resolve the matter, the Title IX Coordinator (or designee) or the Assistant Vice President, Student Affairs & Conduct (or designee) will interview the complainant and respondent. At any point, including while the informal process is ongoing the complainant may elect to end the informal process in favor of filing a formal complaint.

5. **Once a voluntary resolution is agreed upon by both parties the matter will be considered resolved with no further appeal.**

B. Formal Report of Sexual Misconduct. Reports of sexual misconduct should be made to the Title IX Coordinator or Stevenson’s Security Office. While there is no time limit for making such a report, the earlier the better, as important information or evidence may become unavailable due to delayed reporting. It is also recommended that a report be made by the complainant in **writing.** However, reports may also be made orally. The contact information for each of the above is as follows:

- **David Jordan**
  - VP Human Resources
  - Title IX Coordinator
  - Greenspring Campus
  - Manuszk Center 130
  - 443-334-2176
  - dcajordan@stevenson.edu
  - Security Office
  - Ratcliffe Community Center
  - Owings Mills Campus
  - 443-352-4500

All employees (e.g. faculty, staff, and resident assistants) to whom a report is made must then report the incident to the Title IX Coordinator, including identifying information about the parties involved.
C. Notice. Once a report of alleged sexual misconduct is made, the Title IX Coordinator (or designee) will contact the complainant to confirm that the report has been received, provide support, and ensure the complainant is made aware of various resources. Promptly after the University has determined that an investigation is to be undertaken, the complainant and respondent will be notified in writing that a complaint has been received by the University and will be investigated under this Policy.

D. Interim Measures. Stevenson will take measures it deems necessary in response to an allegation of sexual misconduct in order to protect students’ and employees’ rights and personal safety following receipt of the complaint, both during the investigatory period and following the investigation. For students, such measures include, but are not limited to, restrictions on contact between the parties, restrictions from being present on certain areas of the campus, removal or relocation from residence halls and residential areas of the campus, arranging for an escort while moving between classes, changes to class schedules, alteration in campus employment or work-study arrangements, leaves of absence from the University, special transportation measures, change in position or supervisor, providing counseling services, academic support services such as tutoring, interim suspension from campus pending the outcome of the investigation, and reporting the matter to the local police. For employees, some of these measures may also be appropriate. Requests for interim measures may be made to the Vice President, Human Resources/Title IX Coordinator or designee regardless of whether the victim chooses to report the crime to Campus Security or local law enforcement. Good faith efforts will be made to grant such requests if interim measures are reasonably available and appropriate and to limit any negative impact of such measures. However, Stevenson is obligated to comply with a student’s reasonable request for a residence hall and/or academic situation change following an alleged sex offense. Stevenson University will maintain as confidential any accommodations or protective measures provided to the victim, to the extent that maintaining such confidentiality would not impair the ability of the institution to provide the accommodations or protective measures. In doing so, the Title IX Coordinator will only disclose information that is necessary in order to provide the accommodation or protective measure in a timely manner. In addition, the Title IX Coordinator will inform the victim regarding what information, and with whom, will be shared.

E. Student Amnesty Policy and Bystander Intervention. Stevenson University is committed to the safety and well-being of all of its students. As such, Stevenson has a variety of policies in place to help enhance the safety of the campus community. Stevenson encourages the reporting of sexual misconduct. Sometimes, students may be reluctant to come forward and report an incident of sexual misconduct, or serve as a witness, because they are concerned that they may be charged with violating other campus polices, such as Stevenson’s alcohol or drug policy. Therefore, for students who report an incident of sexual misconduct or who serve as witnesses to an incident of sexual misconduct, the University will not institute disciplinary sanctions for his or her own personal consumption of drugs or alcohol related to the incident as long as any such violations did not place the health or safety of any other person at risk. Stevenson may pursue other educational remedies regarding the use of alcohol and illegal drugs in order to protect the health and well-being of the student.
F. **Criminal complaint.** As described in more detail above, a person who believes she or he is a victim of any type of sexual misconduct may also contact law enforcement authorities and decide whether to file a criminal complaint. The person also has the right not to report the incident to criminal authorities.

PROCEDURES STEVENSON UNIVERSITY WILL FOLLOW IN THE CASE OF ALLEGED DATING VIOLENCE, DOMESTIC VIOLENCE, SEXUAL ASSAULT OR STALKING

Confidentiality
Stevenson believes that confidentiality is an important element in its Sexual Misconduct Policy and that all parties should understand the different stages at which confidentiality issues arise and what are the rights and expectations.

A. **Confidential Report of Sexual Misconduct.** If a sexual assault or other form of sexual misconduct occurs, the student victim has the important option to make a confidential report to Stevenson’s Mental Health Counselors and Health Care Professionals located in the Wellness Center and the contact hours and information are described above. These reports will not be disclosed without the victim’s permission. Employees wishing to make a confidential report may contact ComPsych, the University’s Employee Assistance Program, at 800-327-1850.

B. **Confidentiality in Connection with the Report to the Title IX Coordinator and Others.** If a victim decides to pursue an informal or formal report to Stevenson other than to the Wellness Center as described above, it is his or her right to determine how to proceed, which may include asking for confidentiality or asking that the complaint not be pursued. Stevenson University will strive to maintain confidentiality.

While Stevenson will make good faith efforts to provide confidentiality to the parties in sexual misconduct matters, the University is not able to ensure total confidentiality. Stevenson will be as discreet as reasonably possible in conducting the investigation, limiting the disclosure of confidential information to individuals who are believed to have a legitimate basis for needing to have that information for that part of the investigation, or when Stevenson is required to respond to legal process, or when the University’s need to protect the safety of others outweighs confidentiality concerns. Any decision regarding the release of confidential information, and to whom, will be made by Stevenson University’s Title IX Coordinator (or designee) in consultation with the Director of Security (or designee).

Notification by a complainant seeking anonymity or confidentiality or does not want Stevenson to conduct an investigation greatly restricts the University in addressing the matters alleged, and Stevenson’s response will depend on the facts of the matter. In considering whether to honor a request for anonymity or confidentiality, Stevenson will weigh the request against Stevenson's obligation to provide a safe, non-discriminatory environment for all students and employees, including the complainant. Stevenson may determine that it will undertake an investigation when, in Stevenson’s judgment, that is necessary to protect the welfare of the University community.
Stevenson will inform complainant prior to starting any investigation. Stevenson is committed to taking ongoing steps to protect the complainant from retaliation or harm and to work with the complainant to make reasonable efforts to ensure their safety. If the University is required to notify the campus community of the assault, including recording the assault in the campus crime log or the Annual Security Report, no identifying information about the complainant (e.g. first name, last name, date of birth, home or other physical address, etc.) will be included, to the extent permissible by law. Parties are not restricted from discussing and sharing information related to the complaint with advisors that may support or assist them in presenting their case.

C. **Confidentiality in Connection with the Investigation and Resolution.** Stevenson recognizes that confidentiality is important in matters of alleged sexual misconduct. All individuals involved in an investigation conducted under this policy, including the complainant, the respondent, advisors, and witnesses, are asked to keep confidential any information learned in preparation for and during the investigation and appeal process.

**Investigations of Complaints of Sexual Misconduct**

Stevenson University is committed to providing a prompt, fair, equitable and impartial investigation and resolution to all reports of sexual misconduct. Regardless of how or when a report of sexual misconduct is made, except for confidential, privileged communications between the health practitioner and the complainant, and except when specific circumstances preclude an investigation, Stevenson will investigate to determine whether a violation of this policy occurred.

A. **Investigation.** The investigation of a report of sexual misconduct will begin promptly after the Title IX Coordinator (or designee) has received the complaint, and normally within five (5) business days after the Notice has been issued to the complainant and the respondent. The complainant and respondent will be promptly informed regarding who will be investigating the complaint and what to expect during the investigation process. The complainant and the respondent will also receive a copy of their respective rights and options from the Title IX Coordinator. These rights and options documents may also be found at [www.stevenson.edu/sexualmisconduct](http://www.stevenson.edu/sexualmisconduct). The Title IX Coordinator will appoint two trained investigators to investigate the complaint. The investigation will include interviewing the complainant(s), respondent(s), witness(es), and other relevant individuals. Both the complainant and the respondent may provide the investigators with the names of witnesses, documents, and other information. Relevant information and documentation, if any, will be obtained by the investigators. The interviews, meetings, and other proceedings are not electronically recorded by Stevenson and may not be recorded by others. All parties will be treated with dignity, respect, and sensitivity by officials of the University throughout the disciplinary proceedings.

B. **Assertions and Evidence.** The investigators will request the complainant describe in detail the assertions and provide pertinent witnesses, records, exhibits, and witness statements as evidence for consideration at the discretion of the investigators. The investigators will describe the allegations to the respondent and will request that the respondent respond in detail to the assertions and provide pertinent witnesses, records, exhibits, and witness statements as evidence for consideration at the discretion of the investigators. Each party will be given access to all relevant records, exhibits, and witness statements that will be considered as evidence by investigators in their investigation. However, the personal notes of investigators will not be released, nor will
private information disclosed by any party via the investigation that does not factor into the university’s decision-making process.

The complainant and the respondent are afforded equal procedural rights during the investigation. The investigators will exercise their discretion in deciding which other individuals identified as witnesses during the investigation should be interviewed. No expert witnesses shall be permitted. All investigatory interviews with the complainant, respondent, and witnesses shall be conducted in private with the pertinent investigators and/or other Stevenson administrators, if any, as determined by the investigators. The respondent will not be present for the complainant’s interviews; the complainant will not be present for the respondent’s interviews.

C. **Prior or Current Sexual Conduct.** The complainant’s prior sexual relationships or conduct are neither relevant nor admissible during the investigation and will not be considered, other than the prior sexual relationship or conduct with the respondent if the respondent alleges consent during the investigation. The fact that a complainant may currently have or had in the past a dating or sexual relationship with the respondent that was consensual is not sufficient by itself to constitute consent and does not preclude a determination that sexual misconduct occurred.

D. **Timeframes.** Stevenson strives to complete its investigations and resolve cases in a timely manner. Stevenson will make reasonable efforts to complete an investigation and decision within 60 to 90 days. The time period will be affected by unusual or unexpected circumstances, witness availability issues, and the extent of the investigation. In addition, if the investigation involves multiple incidents or multiple complainants or respondents, the investigation may take longer. If the Title IX Coordinator (or designee) determines that cause exists for an extension of time, Stevenson will issue an extension and will provide notice in writing to the complainant and the respondent.

E. **Advisors/Legal Counsel.** Complainants and respondents may be accompanied throughout the disciplinary proceedings, including the investigation and appeal process, by an advisor of their choice who agrees to keep the matter confidential. Advisors may include, but are not limited to, a licensed attorney, an advocate supervised by an attorney, or a trained advocate. The purpose of the advisor is to provide advice to the student or employee in a quiet manner that is not disruptive to the proceedings. The advisor may not provide verbal, written, or other input during meetings or interviews in the investigation or appeal process other than to the student or employee being advised. An advisor cannot serve as a witness on the same complaint. Each party is limited to no more than two people at any hearing, meeting or interview during the disciplinary proceedings, including a personal supporter of the student’s choice and/or an advisor as described above.

In accordance with Maryland Law (and as described above), legal counsel paid for by the Maryland Higher Education Commission (MHEC) is available for a current or former student who makes a complaint on which a formal Title IX investigation is initiated, or a current or former student who responds to a complaint in which a Title IX investigation is initiated. In order to qualify, the party must have been enrolled as a student at Stevenson at the time of the incident that is the basis of the complaint.
MHEC has developed a list of attorneys and legal services programs willing to represent students on a pro bono basis or at fees equivalent to those paid to attorneys under civil legal services programs administered by the Maryland Legal Services Corporation (MLSC). A student may select an attorney from the list. A student may select and retain an attorney prior to the conclusion of the formal Title IX proceedings. If a student selects and retains an attorney who is not on the list, MHEC must pay fees to the attorney selected by the student that are equivalent to those paid to attorneys under civil legal services programs administered by MLSC. Further information is available on the MHEC website (http://www.mhec.maryland.gov/).

F. Preservation of Evidence. The Title IX Coordinator and/or investigators will request that the complainant, the respondent, any witnesses and the University preserve all relevant evidence, including paper documents, email and other electronically stored information, text messages, voicemail messages, photos, and postings on social media.

Resolution and Discipline

A. Written Decision. Upon completion of the investigation, the investigators will prepare a written investigative report. The investigators’ decision will be based on whether it is “more likely than not” (preponderance of the evidence) that the University’s policy was violated. The investigators’ report will include a summary of the facts, findings, and recommended sanctions. The investigation may result in one of two outcomes set forth in a written decision:

   (1) a decision that the respondent did not violate this policy; or
   (2) a decision that the respondent violated this policy.

B. When a Student is the Respondent. When the respondent is a student, the investigators will provide the written decision and recommended sanctions to the Dean of Students (or designee). The Dean of Students (or designee) will make a decision regarding the discipline or remedial action to be imposed in consultation with the Title IX Coordinator. The discipline or remedial action will be based upon the nature and severity of the offense, disciplinary history of the respondent, the impact of the conduct on the complainant and the community, whether the respondent is likely to engage in the conduct in the future, providing a remedy for any effects on a complainant or any other members of the community, and other mitigating or aggravating factors. Drug use or alcohol use are not mitigating factors. Discipline for students found responsible for any type of sexual misconduct violation (including dating violence, domestic violence, sexual assault, or stalking) may include, but is not limited to, verbal or written warnings; loss of rights or privileges; requirement to attend coaching or training sessions or to receive counseling or other support; changes to the respondent’s living arrangements; and academic, social or other probation, suspension, or expulsion from activities, residence halls, academic classes, programs, schools, or the University. Suspensions typically range in length from one semester to four years. Students seeking reinstatement following a suspension typically will meet with the AVP of Student Affairs and Conduct and must have demonstrated compliance with any/all sanctions that were issued at the time they were found responsible before a determination on their reinstatement is made. The Dean of Students (or designee) will provide the complainant and the respondent with written notification of the outcome of the University’s investigation which will be given at the same time and shall be delivered in the same
manner. The notification will include (1) whether or not the respondent violated this policy, and (2) if the finding is that the respondent violated this policy, a summary of the manner in which it was violated, and a description of the sanctions or discipline that the respondent has received or will receive to the extent that they pertain to the complainant.

**When a Faculty or Staff Member is a Respondent.** When the respondent is a faculty or staff member of Stevenson, the written decision will be sent by the investigators to the appropriate administrator (the “Administrator”) as determined by the Title IX Coordinator for a decision regarding the discipline or remedial action to be imposed. In consultation with the Title IX Coordinator, the Administrator will make a decision regarding the discipline, sanctions and/ remedial actions to be imposed, based on applicable University policy. Discipline for faculty and staff found responsible for any type of sexual misconduct violation (including dating violence, domestic violence, sexual assault or stalking) may include but is not limited to written warnings, probation, demotion, suspension, or termination of employment. The Administrator will provide the complainant and the respondent with written notification of the outcome of the University’s investigation, if any discipline will be imposed, which will be given at the same time and shall be delivered in the same manner. The notification will include (1) whether or not the respondent violated this policy, and (2) if the finding is that the respondent violated this policy, a summary of the manner in which it was violated, and a description of the sanctions or discipline that the respondent has received or will receive to the extent that they pertain to the complainant.

**Appeals**

**A. Written Appeal.** Written appeals are permitted only as set forth in this section. The appeal may be submitted by the complainant or the respondent or both. Students may appeal the decision and/or sanction to the Vice President, Student Affairs. Faculty members may appeal the decision and/or sanction to the Executive Vice President, Academic Affairs. Staff members may appeal the decision and/or sanction to the Vice President with whom the staff member ultimately reports. If the staff member ultimately reports to the Vice President, Human Resources, an appeal may be made to the Executive Vice President, Academic Affairs. The administrator authorized in this section to decide the appeal is referred to herein as the “appeals official.” The appeal request must be in writing and made within seven calendar (7) days of notification of the decision. For the purposes of this section, the date of notification shall be the date of the letter of notification.

**B. Grounds for Appeal.** There is a presumption that the decision and any sanction or discipline were made properly, and the sole grounds for appeal that will be considered are: (1) A procedural error that significantly impacted the final decision; (2) Previously unavailable, substantive and relevant information that could materially impact the final decision; and (3) The sanction or discipline imposed is substantially disproportionate for the facts of the case or the violation that was found to have occurred. The burden of proof during the appeal is on the party appealing.

**C. Notice.** Upon receipt of the appeal, the appeals official shall notify the other party, in writing, informing that party of their right to respond in writing within seven (7) calendar days, and shall provide a copy of the appeal to the other party.
D. Decision. The appeals official will review the written decision and any responses made by the parties, and may exercise the discretion to request further information or documents from the parties and/or the person who issued the original decision and/or to meet with the parties. If the appeals official elects to meet with the complainant or respondent, a meeting will be held with each separately. A complainant or respondent who is invited to meet with the appeals official in connection with the appeal may bring an advisor as described above.

E. Final Determination. The decision of the appeals official shall be Stevenson University’s final determination regarding the decision and the sanction. There are no further appeals. The appeals official will provide the complainant and the respondent with written notification of the outcome of the appeal which will be given at the same time and shall be delivered in the same manner. This notification will include (1) whether or not the original decision was changed or upheld, and (2) if the original decision was changed, a description of the changes, including any sanctions or discipline that the respondent has received or will receive to the extent that they pertain to the complainant.

Training Received By University Officials Who Conduct Sexual Misconduct Disciplinary Proceedings

Staff members of Stevenson University who are designated as investigators or otherwise involved in Stevenson University’s sexual misconduct proceedings receive training on an annual basis. In the past 12 months, staff members have participated in a variety of trainings, including the following:

- Drug Facilitated Sexual Assaults (presented by Marc LeBeau from the FBI)
- Supporting Survivors with Disabilities and Deaf Students (presented by VERA Institute of Justice)
- Trauma-Informed Sexual Assault Investigation (presented by Tom Tremblay)

In addition to the above, staff members also occasionally participate in webinars and other in-person trainings.

Provision of Written Explanations of the Student’s or Employee’s Rights, Options, Available Resources, and Accommodations

When a victim makes a report to Stevenson University related to any form of sexual misconduct, relationship violence, and/or stalking, Stevenson University will provide the victim with a written document that summarizes the following:

- Information regarding a Sexual Assault Forensic Exam and other medical services
- On-campus resources (both confidential and non-confidential resources)
- Off-campus resources (including 24 hour sexual violence hotline and legal assistance)
- Answers to frequently asked questions, including information regarding accommodations and medical options
- Reporting options
- Confidentiality

The brochure that is distributed to students is also accessible at www.stevenson.edu/sexualmisconduct. Victims may also access Stevenson University’s Sexual Misconduct Policy as well as related resources at the above website.
In addition to the above, Stevenson University also provides a document regarding the victim’s rights and options. This document provides the following information:

- options for filing a complaint with the police and/or seeking a peace or protective order
- availability of medical services, both on and off-campus
- availability of counseling and advocacy services, both on and off-campus
- the right to request accommodations from Stevenson University, including modification of living arrangements and changes in class assignment
- information related to Stevenson University’s disciplinary process
- information regarding confidentiality

**Summary of Resource Options for Victims of Dating Violence, Domestic Violence, Sexual Assault, or Stalking**

Throughout the above section on dating violence, domestic violence, sexual assault, and stalking, numerous resources, both on and off-campus, have been provided. The purpose of this section is to list these resources in a summary fashion.

**Protection Against Retaliation**  
Stevenson University considers retaliation against the complainant or others involved in the process to be as serious as an act of sexual misconduct. Retaliation of any kind against any person, who in good faith reports sexual misconduct, assists another in making a complaint, participates in an investigation, or provides information in connection with a complaint or investigation, is prohibited. Good faith initiation of a complaint of sexual misconduct will not adversely affect a complainant’s grades, class selection, or any other matter pertaining to student status, or in the case of employees, the individual’s employment, compensation, or work assignment. Any person who believes that he/she has been the victim of retaliation, or is aware of someone else who is the victim of retaliation, is encouraged to report this immediately to either the Title IX Coordinator (443-334-2176) or Stevenson’s Security Office (443-352-4500).
MISSING STUDENT NOTIFICATION POLICY

The purpose of this policy is to create procedures that define the University’s response to information that a student, who lives in Stevenson University’s residence halls, has been missing for 24 hours. These procedures have been created to be in compliance with the Higher Education Act (HEA) regulations.

Registering a Missing Student Emergency Contact

Each student living in an on campus student housing facility, regardless of age, has the option to register a confidential contact person (or persons) to be notified in the case that the student is determined to be missing. To protect confidentiality, only authorized campus officials and law enforcement officers in furtherance of a missing person investigation may have access to this information. An authorized University official will notify the student’s missing student emergency contact (or contacts) within 24 hours that the student is missing. Students living in Stevenson University residence halls will be contacted at the beginning of each semester via email informing them of their option to register missing student emergency contact information. However, residential students may enter this information at any time by logging onto WebXpress and accessing the “Students” tab. Within the “Students” tab, students will see an option for “Communication”. Under “Communication”, students will see a link called “Missing Student Emer Contacts”. Students should complete the form as directed. Finally, for students who choose not to enter specific missing student emergency contact information as directed above, existing emergency contacts will be used in the event they are reported missing.

How to Report a Missing Residential Student

A member of the campus community with reason to believe a residential student is missing must contact the Stevenson University security staff immediately at the Owings Mills Security Office in the Ratcliffe Community Center or by calling 443-352-4500. The Owings Mills Security Office is staffed 24 hours a day, 7 days a week, 365 days a year. Upon receipt of this information, the on-duty security staff will immediately notify the on-duty Resident Director and the Director of Security. The security staff will obtain all essential information concerning the missing student from the reporting person. This information should include a description of the clothing worn, the mental and physical condition of the student, type of vehicle, known associates of the student, and locations where the student may frequent. Additionally, Stevenson University security staff will obtain a copy of the student photograph and class schedule. The Vice President of Student Affairs and the Dean of Students will be notified by the security staff of the missing student’s status; they will assign the appropriate personnel to assist the security staff with the search for the missing student.

Procedures Stevenson University Will Follow if a Residential Student is Determined Missing for 24 Hours

Once a student has been determined to be missing for 24 hours, or sooner if credible information indicates the student is missing, Stevenson University will follow the procedures described below.

If it becomes apparent that the student is missing, the Baltimore County Police Department will be notified to take a missing person’s report and take responsibility for the investigation. Stevenson University security will notify the Baltimore County Police Department (BCPD) to conduct a missing person investigation within 24 hours that the student is missing, unless the BCPD was the
entity that made the determination that the student is missing. This notification to the BCPD will take place regardless of the student’s age and regardless of whether the student has identified a missing student emergency contact person.

An authorized University official will notify the student’s missing student emergency contact (or contacts) within 24 hours that the student is missing. If the student did not provide the University with a missing student emergency contact, existing emergency contacts will be used.

Finally, students under the age of 18, and who are not emancipated, will have their parents or guardian notified within 24 hours of the determination that the student is missing, in addition to notifying any additional contact person(s) designated by the student.

**POLICY REGARDING EMERGENCY RESPONSE, TIMELY WARNING, AND EVACUATION PROCEDURES**

Stevenson University security staff will immediately notify Stevenson University Management upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students, faculty or staff on campus. Stevenson University Management will without delay, and taking into account the safety of the campus community, determine the content of the notification and initiate the notification system, unless the notification will, in the professional judgment of University management, compromise efforts to assist victims or to contain, respond to, or otherwise mitigate the emergency.

Upon receiving a report of a significant emergency, the on-duty security staff will immediately conduct an investigation to determine the accuracy of the information. Upon verification the security staff will call 911 to notify the Baltimore County Police or Fire Department of the nature of the emergency. The Director of Security (or designee) will be notified of the situation and the action taken to mitigate the situation. The Assistant Vice President of Facilities and Campus Services will be notified of the nature of the emergency and will advise the Executive Vice President and CFO who will inform the President. The Vice President of Marketing and Digital Communications (or designee) will activate the (E2 campus) SU Alert system and the desktop notification system (Alertus) with a short message alerting the campus community of the emergency situation and the action to be taken. Immediately following the campus alert, an email will be sent by the Vice President of Marketing and Digital Communications (or designee) to all members of the campus community with details of the emergency and any action that should be taken. The Office of Marketing and Digital Communications will draft and send a detailed message to the website, the SU Now Portal, and Stevenson Social Media as appropriate. They will implement the standard media plan for emergencies. The Office of Marketing and Digital Communications will continually update the website, SUNow Portal, and Stevenson University Social Media with additional information as the situation changes or is resolved. The CIO and/or the Director of Technical Services may be called upon to send out emergency communications in the event the Vice President of Marketing and Digital Communications (or designee) is unavailable.

Stevenson University’s Director of Security (or designee) will conduct an unannounced evacuation fire drill once a semester in all of the Academic and Residential buildings on both the Greenspring and Owings Mills campuses. The test will be documented with a description of the exercise and the date and time of the exercise.
Please see the “Security and Crime Awareness” section of this report for more information regarding SUAlert and Alertus, including information on how to register for these services.

Stevenson University’s Emergency Procedures are accessible at:
http://www.stevenson.edu/about/campus-services/campus-security/emergency/

**CAMPUS CRIME STATISTICS**

Pursuant to the Higher Education Act of 1965, as amended by the Campus Security Act (Pub. L. 101-542); Stevenson University provides a detailed report on campus safety policies and procedures including policies for crime prevention, drug, alcohol, sexual harassment and sexual assault, general information on campus safety, and statistics concerning campus crime, to all current students and employees, with copies available to all prospective students and employees, on request. The Baltimore County Police Department reports Clery crime statistics pertaining to Stevenson University’s Clery geography to the institution’s Security Department on an annual basis for inclusion in this report.

The Stevenson University Annual Security and Fire Safety Report is available on the Stevenson University website at [http://www.stevenson.edu](http://www.stevenson.edu). The report is accessible by going to the bottom of any Stevenson University webpage and clicking on “Annual Security & Fire Safety Report”. In addition, the direct link to the University’s Annual Security and Fire Safety Report is [www.stevenson.edu/clery](http://www.stevenson.edu/clery). Copies of the Annual Security and Fire Safety Report can be printed from any computer on campus. If you wish a printed copy of the report, please contact the Director of Security, in the University’s Office of Security (443-352-4500) to make your request.

A daily crime log is also maintained in the Security Office in the Ratcliffe Community Center on the Owings Mills campus. The daily crime log shall be available to the public for inspection during regular University business hours. The log contains statistics related to all reported crimes to Stevenson University’s Security Office and includes the following information: the nature of the crime, the date and time the crime occurred, the general location of the crime, and the disposition of the complaint (if known).

**HATE OFFENSES:** There were no reported hate offenses on either the Owings Mills or Greenspring campuses of Stevenson University in 2018, 2017 or 2016.

**Notes:**

*Disciplinary Referrals* – Referred for disciplinary action is defined as the referral of any person to any official who initiates a disciplinary action of which a record is kept and may, but does not have to, result in a sanction.

*Statistical Disclosures* – reported crimes may involve individuals not associated with the institution.

*Drug Abuse Violations* – Beginning on October 1, 2014, the state of Maryland decriminalized the possession of marijuana of less than 10 grams. However, in the year 2015, it remained a crime to be in possession of the paraphernalia used to consume marijuana. As of February 20, 2016, the state of Maryland decriminalized the possession of drug paraphernalia involving the use or possession of marijuana.

**HATE OFFENSES:** There were no reported hate offenses on either the Owings Mills or Greenspring campuses of Stevenson University in 2018, 2017 or 2016.

**Notes:**
The Greenspring Campus of Stevenson University does not have any residence halls located within its geography.

*Statistical Disclosures* – reported crimes may involve individuals not associated with the institution.

*Drug Abuse Violations* – Beginning on October 1, 2014, the state of Maryland decriminalized the possession of marijuana of less than 10 grams. However, in the year 2015, it remained a crime to be in possession of the paraphernalia used to consume marijuana. As of February 20, 2016, the state of Maryland decriminalized the possession of drug paraphernalia involving the use or possession of marijuana.
**STEVenson University**

**ANNUal Fire Safety Report**

**Introduction**
A fire is defined as any instance of open flame or other burning in a place not intended to contain the burning or in an uncontrolled manner.

All residence halls are equipped with fire sprinkler systems that are integrated with the fire alarm systems which are monitored 24 hours a day seven days a week by a central security monitoring center.

All fire systems in the residence halls are inspected and tested annually to insure safety and compliance with the Baltimore County fire code. In addition, the sprinkler systems within the residence halls are tested on a quarterly basis. The University maintains, repairs, upgrades, and installs equipment to provide optimum fire code standards as required by the Baltimore County Fire code. The systems are inspected by the Baltimore County Fire Department's Fire Marshall.

Fire drills are conducted in all residential buildings each semester by Stevenson University facilities staff, security staff, and residence life staff. The emergency exits from all residential buildings are clearly displayed as required by the Baltimore County Fire Code.

A fire log is maintained in the Security Office in the Ratcliffe Community Center on the Owings Mills campus. The log shall be available to the public for inspection during regular University business hours. The log will contain statistics related to any fire that occurred in a residence hall. The log will contain the nature, date, time and location of the fire. The log will be available upon request at the security office.

The University collects and reports to the Department of Education fires which occur in a residence hall facility on an annual basis. The information shall include unintentional fires, intentional fires, and undetermined fires. Arson is reported both as a statistic in this report as well as a crime statistic. The report shall also include any deaths, injuries requiring medical facility treatment, and the value of property damaged as a result of the fire.

**Policies on Portable Electrical Appliances, Smoking, and Open Flames in Residence Halls**
Stevenson University policy prohibits the usage of unsafe electrical equipment or open flames inside residence hall rooms. Smoking is prohibited in all residence hall facilities. Candles, cigarettes, cigars, incense, smoking paraphernalia or any other burning substances are prohibited in the housing complex. Residence hall staff will inspect each residence hall room at the beginning of each semester and periodically throughout the semester for violations of the fire safety rules and regulations.

For reasons of fire safety, all students living in Stevenson University’s residence hall are required to observe the following:

- All electrical appliances must carry the approval label of the Underwriters Laboratory.
- Use of multi-plug extension cords is limited to surge protector type devices only.
- Halogen lamps or light bulbs are not permitted in housing.
- Disconnection of smoke detectors or misuse of fire extinguishers is subject to disciplinary action, including termination of housing without refund.
• Any resident who pulls a false fire alarm or compromises other safety equipment may face immediate removal from housing/the University and/or criminal charges.

For your convenience and information, instructions for proper operation of appliances and mechanical equipment are available upon request from the Office of Residence Life.

**Procedures for Residence Hall Evacuation in the Case of Fire**
Whenever a fire is discovered, persons are directed to telephone the Owings Mills security emergency number 443-352-4500, or extension 4500, activate a fire alarm pull station, use the emergency blue light phone, or dial “911”. When a fire alarm sounds, everyone must evacuate the building immediately using the closest and safest evacuation routes. Do not use elevators. Do not stop and pick up personal belongings. Walk to safe areas as far away from the building as possible. Avoid roadways or driveways used by emergency vehicles. Notify staff or Security of anyone believed to be still in the building, particularly visitors and disabled individuals. Security will give the "all clear" signal to return to the building after all areas have been reported safe.

Beginning in August 2015, placards are located on the main door in each residence hall suite/apartment providing directions as to how to exit the building in case of fire.

Violations of fire evacuation procedures by individual students are referred to either the Director of Residence Life (or designee) or the Assistant Vice President, Student Affairs and Conduct. Failure to evacuate at the sound of the alarm or at the direction of University/Security/Emergency personnel may result in termination of the Residence Contract.

**Fire Safety Education and Training Programs**
All residence hall staff members are trained prior to the beginning of each semester by members of the Security and Facilities Offices in fire and safety procedures. Prior to the placement of new residence hall staff members in a residence hall mid semester, the staff member must complete the fire safety training.

All residents will receive training on the fire evacuation plan and fire safety program as part of their residence hall orientation. All resident students are required to adhere to the provisions of the housing contract.

In 2015, the Security Office created a training video on fire safety directed towards students living in Stevenson University’s residence halls. The video is accessible by clicking on the following link: [https://www.youtube.com/watch?v=EHuCDPbhbW0](https://www.youtube.com/watch?v=EHuCDPbhbW0)
**Reporting of Fires**
Whenever a fire is discovered, persons are directed to telephone the Owings Mills security emergency number 443-352-4500, or extension 4500, activate fire alarm pull station, use the emergency blue light phone, or dial “911”. Any of these notification processes will activate the university emergency response system. There will be immediate notification to the Assistant Vice President of Residence Life and the Director of Security or their designee by the security operations center for all injury related fires, death related fires, arsons or any property damage fires requiring relocation of residence hall students on an emergency basis.

Any reports of past fires should be directed to Campus Security in the Ratcliffe Community Center on the Owings Mills Campus or by calling them at 443-352-4500.

**Plans for Future Improvements in Fire Safety**
At the present time, the University has no plans for future improvements in fire safety.

I. Introduction

Stevenson University is an innovative, coeducational, independent institution offering undergraduate and graduate students a career-focused education marked by individualized attention, civility, and respect for difference. In order to achieve our mission, the health and safety of members of the Stevenson University community are of primary concern to the institution. The main goal of Stevenson’s drug and alcohol program is to help all members of the community understand the health risks associated with the abuse of alcohol and illicit drugs and to provide appropriate support and resources for those members who may be struggling with their own usage. In order to fulfill this primary goal, Stevenson strives to develop, articulate and enforce clear policies for students and employees. Further, the institution seeks to provide relevant and effective educational programs for members of the university community, particularly students, surrounding the impact of abusing alcohol and illicit drugs.

Stevenson’s drug and alcohol program is guided by the Drug-Free Schools and Communities Act (DFSCA), which requires that colleges develop a drug and alcohol abuse prevention program that includes (a) a written statement about its standards of conduct that prohibits the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees; (b) a written description of legal sanctions imposed under federal, state, and local laws for unlawful possession or distribution of illicit drugs and alcohol; (c) a description of the health risks associated with the use of illicit drugs and the abuse of alcohol; (d) a description of any drug or alcohol counseling, treatment, or rehabilitation or re-entry programs that are available to students and employees, and (e) a statement that the institution will impose disciplinary sanctions on students and employees for violations of the intuitions’ codes of conduct and a description of such sanctions. The drug and alcohol abuse prevention program must be distributed annually, in writing, to each employee and to each student who is taking one or more classes for any type of academic credit (except for continuing education units), regardless of the length of the student’s program of study.

On March 1, 2017, the Governor of Maryland declared a state of emergency in response to the opioid epidemic in Maryland. According to the 2018 Annual Report produced by Maryland’s Opioid Operational Command Center, there were 2,385 unintentional intoxication deaths from all types of drugs and alcohol in Maryland in 2018, which represents an increase of 4.5% as compared to 2017. Opioids accounted for 88.6% of all such fatalities. While Maryland has seen a decline in heroin related deaths for the second year in a row, fentanyl related deaths continue to rise.

As a result of these troubling statistics, Stevenson continues to devote a specific section of this document to heroin and opioid education. Stevenson requires full-time students to participate in heroin and opioid addiction and prevention awareness training during new student orientation. At our August 2019 new student orientation program, Mr. Tim Weber from the Kennedy Addiction Recovery Center delivered a presentation to new students. Mr. Weber delivered a similar presentation in both August and October of 2018. For those who are do not attend an in-person training program, Stevenson has created an online program that these students must complete. Further, medical professionals in the Wellness Center and all full-time Security Officers at Stevenson University have been trained on symptom recognition and medication administration procedures. In addition many of the part-time Security Officers have been trained as well and, in several cases, they received this training as part of their full-time work as firefighters and EMTs.
Finally, as part of our prevention efforts, we wish to highlight the institution’s Good Samaritan Policy. Under this policy, students who seek medical attention for themselves or their fellow students related to consumption of alcohol or other drugs will not be charged with a violation of Stevenson University policies and/or the Guidelines for Student Housing. Students, however, may be required at the discretion of the Dean of Students (or designee) to complete an alcohol assessment/alcohol education and/or a drug assessment/drug education program depending on the severity of the student’s situation.

II. Standards of Conduct Regarding Alcohol

The health and safety of members of the Stevenson University community are the primary concerns of the University. It is the University’s policy to uphold the alcohol laws of the state of Maryland. Possession and consumption of alcoholic beverages is permitted only by those who are at least 21 years of age. Alcoholic beverages are not to be furnished to or consumed by minors. Members of the Stevenson community and guests are expected to accept responsibility for their actions, to obey the law and to police their own behavior. Individuals who violate the law, in addition to being subject to criminal penalties, will be subject to University disciplinary measures. These specific policies that follow apply to Stevenson University events both on and off campus.

1. Except as permitted by the following paragraphs, the possession, use or distribution of alcohol by students, faculty, staff, and guests on university property or in connection with any University activity is strictly forbidden.

2. All University-sponsored events where alcohol is served, either on or off campus, must be approved by the Vice President, Student Affairs or Chief of Staff in the President’s office 30 days prior to the event. The Event Application Request for Service of Alcoholic Beverages will serve as a formal application for approval.
   a. All individuals attending the event must be of legal drinking age. Student organizations may request an exception to this guideline if the primary purpose of the event is other than a social drinking party and the majority of the guests are of legal drinking age.
   b. The organization’s adviser or an alternative faculty/staff member must be present for the duration of the event.
   c. Security must be present for the duration of the event.

3. Alcohol may only be served by a licensed caterer trained to serve alcohol. Caterers must provide proof of license and training certification to the University prior to the event. A list of approved caterers is included with the Event Application Request for Service of Alcoholic Beverages.

4. Proper proof of age must be provided to the server.

5. Kegs, multi-liter containers and pitchers used for the serving of alcohol are not allowed at student-sponsored events.

6. At events where alcohol is served, substantial food and non-alcoholic drinks must be provided. During late night events, the service of alcohol will stop one hour prior to the ending time of the event.

7. It is recognized that this document cannot address, in specific fashion, all possible social situations that may occur. Where these procedures are not specific on a particular point, individual and organizational hosts are expected to conduct their social events and themselves in the spirit of social responsibility consistent with these procedures.
Rules Specifically Applicable to University Housing

Residents of legal drinking age may drink alcohol in their residence hall apartment or suite only if they are not in the presence of residents or guests who are under 21 years of age. Absolutely no alcohol is permitted in any shared space in a residence hall room/suite/apartment where underage students reside. Alcohol may not be served or consumed in any common areas of the University’s residential facilities including but not limited to hallways, lounges, quad areas, and parking lots. Guests are expected to abide by the University’s rules while visiting SU housing. Students may be held responsible for the conduct of their guests. The Residence Life staff will confiscate or require underage residents to dispose of alcohol they observe being brought or having been brought into the residences and to stop consumption of alcoholic beverages in all common areas. Kegs, beer balls, and other multi-liter containers are not permitted in SU residence halls. The Residence Life staff will inform students of University policy, clarify if they are violating the University’s policy, and counsel them regarding the consequences of their behavior, both in terms of health and safety risks and legal consequences. Students in violation of the housing agreement or University policy will be held accountable. The Residence Life staff is to report offenders to the Assistant Vice President, Student Affairs & Conduct. The students involved will meet with the Assistant Vice President, Student Affairs & Conduct or a professional Residence Life staff member to determine appropriate sanctions if warranted. Any student failing to meet with a Residence Life staff member will be subject to termination of the housing contract for failure to comply with directions of a University official.

Standard Sanctions for Alcohol Violations

Students:
First time violators may be subject to:

- Formal warning
- $100 fine and/or discipline service
- Participation in an alcohol education program designated by the University

Second time violators may be subject to:

- $150 fine and/or discipline services
- Housing probation
- Parental notification (official warning letter sent to the student with a copy mailed to the student’s parents/guardians)
- Participation in an alcohol education program or referral for treatment designated by the University

Students with subsequent alcohol violations will generally be subject to one or more of the following:

- Increased fine, referral for treatment, removal from residence, and termination of the students’ Housing Contract and/or suspension and/or expulsion from the University

Employees

Employees who violate Stevenson University’s alcohol policy are referred to the University’s Human Resources Office and are subject to disciplinary actions up to and including termination of employment and/or referral for prosecution as appropriate.
Reporting Use and Misuse
Each member of the Stevenson community is advised to report all suspicions of unlawful possession, use or distribution of illicit drugs or alcohol or of alcohol abuse to Stevenson University’s Security Office in the Ratcliffe Community Center on the Owings Mills campus or by calling 443-352-4500.

III. Standards of Conduct Regarding Unauthorized Drugs
The Stevenson University community affirms unauthorized drug use to be contrary to the goals of the University. The use, possession (including constructive possession), manufacture, distribution and solicitation of controlled dangerous substances, drug paraphernalia, look-alike drugs, unauthorized legal drugs, man-made or naturally occurring substances or inhalants used for the purpose of altering behaviors, mood, or for changing the brain or nervous system, and over-the-counter drugs/medications or prescription drugs in excess of the recommended or prescribed dosage(s) is strictly prohibited on Stevenson University property, Stevenson sponsored travel, or in connection with any program or activity sponsored or endorsed by Stevenson University.

Standard Sanctions for Unauthorized Drugs
Students
Violations of the University’s Drug Policy are considered serious and may result in suspension, dismissal or expulsion from the University. Students who are found to be distributing drugs will be expelled from the University. Students who are found in possession of large quantities of drugs may also be expelled from the University as the large quantity, by itself, may be viewed as intent to distribute.

Employees
Employees who violate Stevenson University’s Drug Policy are referred to the University’s Human Resources Office and/or are subject to disciplinary actions up to and including termination of employment and referral for prosecution as appropriate.

Reporting Use and Misuse
Each member of the Stevenson community is advised to report all suspicions of unlawful possession, use or distribution of illicit drugs or alcohol or of alcohol abuse to Stevenson University’s Security Office in the Ratcliffe Community Center on the Owings Mills campus or by calling 443-352-4500.

IV. Good Samaritan Policy
Stevenson University is committed to the health and safety of its students and strives to maintain policies that support this commitment. In an effort to maintain the health and safety of the campus community, the University has instituted this Good Samaritan Policy. Under this policy, students who seek medical attention for themselves or their fellow students related to consumption of alcohol or other drugs will not be charged with a violation of Stevenson University policies and/or the Guidelines for Student Housing. Students, however, may be required at the discretion of the Dean of Students or designee to complete an alcohol assessment/alcohol education and/or a drug assessment/drug education program depending on the severity of the student’s situation.

Stevenson University prohibits the use of alcohol on campus for those under the legal drinking age of 21 and the use of unauthorized drugs. Alcoholic beverages are not to be furnished to, possessed or consumed by those less than 21 years of age. Students of legal drinking age may drink alcohol in their apartments/suites only if they are not in the presence of residents or guests who are under 21 years of age.
The University recognizes that due to these prohibitions, students may unwisely choose not to call for medical assistance when another student is experiencing alcohol intoxication or a potential overdose situation due to the sanctions that the University might impose upon them. Should a student become intoxicated or involved in a potential overdose situation, Stevenson University implores individuals, regardless of age, to seek medical assistance for themselves or others in an attempt to keep the campus community safe.

This Good Samaritan Policy applies only to those students who seek emergency medical assistance in connection with an alcohol or other drug related emergency and does not apply to individuals experiencing an alcohol or other drug emergency who are found by University personnel (e.g., Campus Security, Residence Life, University administrators). Similarly the Good Samaritan Policy only applies to alcohol and other drug related emergencies and does not apply to other unacceptable forms of behavior such as assault, property damage, or distribution of illegal substances. Likewise, the Good Samaritan Policy does not prevent action by police or other law enforcement personnel who are required to abide by Maryland State law.

Stevenson University students are expected to act responsibly. In cases where repetitive violations of Stevenson University’s policies and/or Guidelines for Student Housing occur, the Dean of Students or designee reserves the right to take judicial action on a case-by-case basis regardless of the manner in which the incident was reported.

V. Standards of Conduct Regarding Tobacco

Stevenson University is committed to a policy of creating a smoke-free environment in all its facilities and in providing a healthy, comfortable environment for students, faculty, staff, and guests. Smoking is not permitted in any building on the Greenspring or Owings Mills campuses. In order to create a healthier environment:

- All areas within 15 feet of building entrances are designated smoke-free zones.
- The space between the Dawson Academic Center and the Manuszak Center Buildings on the Greenspring Campus will be designated smoke-free due to the close proximity of these two buildings.
- Cigarette receptacles will be placed 15 feet from building entrances.
- Proper signage will be posted indicating “Smoke-Free Zones”.
- Enforcement will be by self-governance of the campus community.
- The Wellness Center is available to meet with students and discuss referrals to the Baltimore County Health Department for smoking reduction and cessation education classes.

VI. Legal Sanctions Under Federal, State and Local Laws

It is the policy of Stevenson University to uphold federal, state, and local laws with regards to alcohol and other drug violations. In addition to being subject to University disciplinary measures, individuals who violate the law are also subject to criminal penalties. Further detail regarding possible legal sanctions and penalties are described below.
Federal Trafficking Penalties
The below tables contain a description of federal penalties and sanctions for illegal trafficking and possession of a controlled substance. These charts were downloaded from https://www.dea.gov/pr/multimedia-library/publications/drug_of_abuse.pdf, pages 30-31, on July 30, 2018.

*The minimum sentence for a violation after two or more prior convictions for a felony drug offense have become final is a mandatory term of life imprisonment without release and a fine up to $20 million if an individual and $75 million if other than an individual.

**State of Maryland Penalties and Sanctions Relating to Alcoholic Beverages and Controlled Substances**

All members of the Stevenson University community are subject to the alcohol laws of the state of Maryland. A good source for reviewing Maryland’s underage drinking, fake ID, and impaired driving laws is Maryland’s Motor Vehicle Administration. For convenience, the following laws are highlighted below:

**Underage Drinking:** Under the laws of Maryland, no individual under the age of 21 may purchase, possess, or consume alcoholic beverages. Violators of this law face a fine of $500 for a first offense and $1,000 for second or subsequent offenses. If you are over 21 and knowingly furnish alcohol to a minor, you face a fine of up to $2,500 for a first violation and a fine of up to $5,000 for a second or subsequent violation.

**Fake ID Laws:** If you are under 21 and in possession of a fake ID, you face a fine of up to $500 and up to two months in prison. Twelve points will be assessed on your driving record and your
driver’s license may be suspended or revoked. If you are caught selling fake IDs, you face fines of up to $2,000 and up to two years in prison for each fake ID sold. You are also subject to prosecution for violating federal and homeland security laws.

**Impaired Driving:** The state of Maryland aggressively enforces impaired driving laws. The penalties for being found guilty of Driving Under the Influence of Alcohol (DUI) are a $1,000 fine and up to one year in jail. Also, twelve points will be assessed on your driving record and your license may be revoked for up to 6 months. The penalties for being convicted of Driving while Impaired by Alcohol (DWI) is a $500 fine and up to two months imprisonment. Also, eight points will be assessed on your driving record and you face a 6-month suspension of your license. The penalties of violating either law are higher for a second offense and they are substantially higher if you are transporting a minor at the time of the offense or for a third offense. For additional information regarding these laws, students and employees should refer to Maryland’s Motor Vehicle Administration.

All members of the Stevenson University community should be aware that important changes to Maryland’s drunk driving laws went into effect on October 1, 2016. On this date, The Drunk Driving Reduction Act of 2016 (also known as Noah’s Law) took effect. Noah’s Law significantly expands Maryland’s Ignition Interlock Program and also significantly increases driver license suspension periods for immediate Administrative chemical test failure and refusals. For additional information, students and employees should refer to Maryland’s Motor Vehicle Administration.

**Marijuana:** All members of the Stevenson University community should be aware that while the state of Maryland has decriminalized marijuana in amounts of less than 10 grams, the use of marijuana at Stevenson University remains a violation of Stevenson’s Policy Manual. Likewise, drug paraphernalia used to smoke marijuana is also a violation of Stevenson’s Policy Manual despite the fact that paraphernalia has been decriminalized in the state of Maryland.

Sanctioning guidelines for the state of Maryland, which were updated in November of 2018, may be found by accessing the following link provided by the Maryland State Commission on Criminal Sentencing Policy (MSCCSP): [http://msccsp.org/Files/Guidelines/offensetable.pdf](http://msccsp.org/Files/Guidelines/offensetable.pdf). Specific information related to alcoholic beverages may be found on page 2 of the MSCCSP document. Information related to CDS & paraphernalia may be found beginning on page 8. Finally, information related to Prescription Drugs and Other Substances may be found on page 41. For convenience, the below chart provides a summary of sanctioning guidelines for selected offenses. However, students and employees are encouraged to review all the relevant sanctioning guidelines in the MSCCSP document.

**Pertinent Baltimore County Maryland Code Provisions***

**Public Consumption of Alcoholic Beverages - § 17-1-103**

Students and employees should be aware that in Baltimore County, Maryland, a person may not possess an alcoholic beverage in an open container (1) On public property, property used by the public, or a highway; or (2) In a vehicle that is located on public property, property used by the public, or a highway. A person who violates this section is guilty of a misdemeanor. (1988 Code, § 20-2) (Bill No. 114-99, § 3, 7-1-2004)

**Synthetic Cannabinoid -§ 17-1-118**

"Synthetic cannabinoid" means a material, substance, compound, mixture or preparation in any form that would reasonably indicate under all circumstances to be synthetic marijuana, including but not limited to products known as Spice, K2, Scooby Snax, Potpourri, or any other name.
"Synthetic marijuana" means a psychoactive substance or compound created with man-made synthetic chemicals that, when consumed or ingested, mimics the intoxicating effects of marijuana THC, the psychoactive ingredient in the naturally grown marijuana plant.

A person may not purchase, use or possess a synthetic cannabinoid. A person may not distribute a substance: (i) That the person represents is any form of synthetic cannabinoid; (ii) That the person intends for use or distribution as a synthetic cannabinoid; or (iii) Under circumstances that one reasonably should know that the substance will be used or distributed for use as a synthetic cannabinoid.

A person who violates this section is guilty of a misdemeanor and on conviction is subject to a fine not exceeding $500 or imprisonment not exceeding 60 days or both. Property seized in connection with enforcement of this section is subject to forfeiture in accordance with the drug asset forfeiture statute set forth in §§ 12-101 - 12-505 of the Criminal Procedure Article of the Annotated Code of Maryland. (Bill No. 77-10, § 1, 11-19-2010; Bill No. 78-13, § 1, 3-13-2014)

*Each of the above laws do allow for certain exceptions, though these exceptions are limited and may not apply to most students and employees. Those who may wish to view these exceptions are encouraged to refer to the Baltimore County Code.

**VII. Drug Conviction and Financial Aid Eligibility**

Under the Higher Education Act, a student may become ineligible for federal student aid upon conviction of any offense involving the possession or sale of illegal drugs while receiving Title IV federal financial aid. Federal aid includes Federal Direct Loans, Federal Direct PLUS Loans, Federal Direct Graduate PLUS Loans, Federal Pell Grants, Federal Supplemental Educational Opportunity Grants, Federal Work-Study, and Perkins Loans.

**Penalties for Drug Convictions**

**Possession of Illegal Drugs**

- **First Offense:** Ineligible to receive aid for 1 year from the date of conviction
- **Second Offense:** Ineligible to receive aid for 2 years from the date of conviction
- **Third and Subsequent Offenses:** Indefinite ineligibility from the date of conviction

**Sale of Illegal Drugs**

- **First Offense:** Ineligible to receive aid for 2 years from the date of conviction
- **Second and Subsequent Offenses:** Indefinite ineligibility from the date of conviction

**How to Regain Eligibility**

A student can regain eligibility for federal student aid funds by successfully completing a drug rehabilitation program. To be sufficient to reinstate financial aid eligibility, the program must include at least 2 unannounced drug tests AND be recognized as a Federal, State, or local government agency program. A student will regain eligibility on the date of successfully completing the program.
Free Application for Federal Student Aid (FAFSA)
A question on the FAFSA form asks if the student has ever been convicted of a drug-related offense. Failure to answer this question will automatically disqualify the student from receiving Federal aid. Falsely answering this question, if discovered, could result in fines up to $20,000, imprisonment, or both.

Convictions During Enrollment
According to the United States Department of Education, if a student is convicted of a drug offense after receiving Federal aid, he or she must notify the Financial Aid Department student and will be ineligible for further aid and required to pay back all aid received after the conviction.

VIII. Health Risks Associated with the Abuse of Alcohol

The Substance Abuse and Mental Health Services Administration (SAMSHA) and The National Institute on Alcohol Abuse and Alcoholism (NIAAA) provide detailed information regarding the health risks associated with the abuse of alcohol. The information provided below was taken directly from their websites and was retrieved on August 30, 2019.

According to SAMSHA, excessive alcohol use can increase a person’s risk of developing serious health problems in addition to those issues associated with intoxication behaviors and alcohol withdrawal symptoms.

The NIAAA provides the following information on how alcohol can affect your body:

Brain: Alcohol interferes with the brain’s communication pathways, and can affect the way the brain looks and works. These disruptions can change mood and behavior, and make it harder to think clearly and move with coordination.

Heart: Drinking a lot over time or too much on a single occasion can damage the heart, causing problems including: cardiomyopathy (stretching and drooping of heart muscle); arrhythmias (irregular heart beat); stroke; and high blood pressure.

Liver: Heavy drinking takes a toll on the liver, and can lead to a variety of problems and liver inflammation including: steatosis, or fatty liver; alcoholic hepatitis; fibrosis; and cirrhosis.

Pancreas: Alcohol causes the pancreas to produce toxic substances that can eventually lead to pancreatitis, a dangerous inflammation and swelling of the blood vessels in the pancreas that prevents proper digestion.

Cancer: The NIAAA notes that based on extensive reviews of research studies, there is a strong scientific consensus of an association between alcohol drinking and several types of cancer, including the following: head and neck cancer, esophageal cancer, liver cancer, breast cancer, and colorectal cancer.

Immune System: Drinking too much can weaken your immune system, making your body a much easier target for disease. Drinking a lot on a single occasion slows your body’s ability to ward off infections – even up to 24 hours after getting drunk.

More information may be found at Alcohol & Your Health, which is provided by the National Institute on Alcohol Abuse and Alcoholism.
IX. Health Risks Associated with Heroin

On March 1, 2017, the Governor of Maryland, Larry Hogan, declared a state of emergency in response to the opioid epidemic in Maryland. While detailed information is provided below, interested readers can learn more about how the state of Maryland is combatting the heroin and opioid crisis by visiting http://beforeitstoolate.maryland.gov/.

Maryland's Crisis Hotline is available 24 hours/7 days a week to provide support, guidance and assistance on how to access Substance Use Disorder services, in addition to the current mental health crisis services provided by this hotline. Callers will also be given information about naloxone, recovery support and family services as available/appropriate in the individual's local area.

Naloxone is a life-saving medication that can quickly restore the breathing of a person experiencing an opioid overdose. Opioids are a group of drugs that include heroin and prescription medications like oxycodone, hydrocodone, morphine, fentanyl and methadone. Naloxone is available as a generic drug or under the brand names NARCAN® and EVZIO®. Anyone can get naloxone at a Maryland pharmacy without a prescription. More information regarding how to procure Naloxone from a pharmacy is available here.

For a step-by-step guide describing how to respond to an opioid overdose, click here.

What is Heroin?

The Center of Disease Control (CDC) and The National Institute on Drug Abuse (NIDA) provide substantial information regarding the health risks associated with the use of illicit drugs. The information provided below was taken directly from their websites and was retrieved on August 30, 2019.

According to the CDC, heroin is an illegal, highly addictive opioid drug. A heroin overdose can cause slow and shallow breathing, coma, and death. People often use heroin along with other drugs or alcohol. This practice is especially dangerous because it increases the risk of overdose. Heroin is typically injected but is also smoked and snorted. When people inject heroin, they are at risk of serious, long-term viral infections such as HIV, Hepatitis C, and Hepatitis B, as well as bacterial infections of the skin, bloodstream, and heart.

Important Points to Remember About Heroin (NIDA webpage entitled DrugFacts: Heroin)

- Heroin is an opioid drug made from morphine, a natural substance taken from the seed pod of various opium poppy plants.
- Heroin can be a white or brown powder, or a black sticky substance known as black tar heroin.
- People inject, snort, or smoke heroin. Some people mix heroin with crack cocaine, a practice called speedballing.
- Heroin enters the brain rapidly and binds to opioid receptors on cells located in many areas, especially those involved in feelings of pain and pleasure and in controlling heart rate, sleeping, and breathing.
- People who use heroin report feeling a "rush" (or euphoria). Other common effects include dry mouth, heavy feelings in the arms and legs, and clouded mental functioning.
- Long-term effects may include collapsed veins for people who inject the drug, infection of the heart lining and valves, abscesses, and lung complications.
- Research suggests that misuse of prescription opioid pain medicine is a risk factor for starting heroin use.
- A person can overdose on heroin. Naloxone is a medicine that can treat a heroin overdose when given right away, though more than one dose may be needed.
- Heroin is highly addictive. Withdrawal symptoms - which can begin as early as a few hours after the drug was last taken - include severe muscle and bone pain, sleep problems, diarrhea and vomiting, and severe heroin cravings.
- A range of treatments including medicines and behavioral therapies are effective in helping people stop heroin use. However, treatment plans should be individualized to meet the needs of the patient.

**X. Health Risks Associated with Prescription Opioids**

The Center for Disease Control and Prevention (CDC) provides substantial information regarding the misuse of prescription opioids. The information provided below was taken directly from their website and was retrieved on August 30, 2019.

Prescription opioids can be used to treat moderate-to-severe pain and are often prescribed following surgery or injury, or for health conditions such as cancer. In recent years, there has been a dramatic increase in the acceptance and use of prescription opioids for the treatment of chronic, non-cancer pain, such as back pain or osteoarthritis, despite serious risks and the lack of evidence about their long-term effectiveness.

Anyone who takes prescription opioids can become addicted to them. In fact, as many as one in four patients receiving long-term opioid therapy in a primary care setting struggles with opioid addiction. Once addicted, it can be hard to stop. In 2016, more than 11.5 million Americans reported misusing prescription opioids in the past year.

Taking too many prescription opioids can stop a person’s breathing—leading to death.

In addition to the serious risks of addiction, abuse, and overdose, the use of prescription opioids can have a number of side effects, even when taken as directed including, but not limited to, the following: constipation; nausea, vomiting, and dry mouth; sleepiness and dizziness; confusion; and depression.
XI. Health Risks Associated with Marijuana

The National Institute on Drug Abuse (NIDA) provides substantial information regarding marijuana. The information provided below was taken directly from the NIDA website and was retrieved on August 30, 2019.

Marijuana is the most commonly used illicit drug in the United States. Its use is widespread among young people. In 2015, more than 11 million young adults ages 18 to 25 used marijuana in the past year.

Short Term Effects of Marijuana Usage on the Brain:

THC acts on specific brain cell receptors that ordinarily react to natural THC-like chemicals. These natural chemicals play a role in normal brain development and function. Marijuana over-activates parts of the brain that contain the highest number of these receptors. This causes the "high" that people feel. Other effects include:

- altered senses (for example, seeing brighter colors)
- altered sense of time
- changes in mood
- impaired body movement
- difficulty with thinking and problem-solving
- impaired memory
- hallucinations (when taken in high doses)
- delusions (when taken in high doses)
- psychosis (when taken in high doses)

Long Term Effects of Marijuana Usage on the Brain:

Marijuana also affects brain development. When people begin using marijuana as teenagers, the drug may impair thinking, memory, and learning functions and affect how the brain builds connections between the areas necessary for these functions. Researchers are still studying how long marijuana's effects last and whether some changes may be permanent.

Physical Effects of Marijuana Usage:

- **Breathing problems.** Marijuana smoke irritates the lungs, and people who smoke marijuana frequently can have the same breathing problems as those who smoke tobacco. These problems include daily cough and phlegm, more frequent lung illness, and a higher risk of lung infections. Researchers so far haven’t found a higher risk for lung cancer in people who smoke marijuana.
- **Increased heart rate.** Marijuana raises heart rate for up to 3 hours after smoking. This effect may increase the chance of heart attack. Older people and those with heart problems may be at higher risk.
- **Problems with child development during and after pregnancy.** Marijuana use during pregnancy is linked to lower birth weight and increased risk of both brain and behavioral
problems in babies. If a pregnant woman uses marijuana, the drug may affect certain developing parts of the fetus’s brain.

**Mental Effects of Marijuana Usage:**

Long-term marijuana use has been linked to mental illness in some users, such as:

- temporary *hallucinations*
- temporary *paranoia*
- worsening symptoms in patients with *schizophrenia* – a severe mental disorder with symptoms such as hallucinations, paranoia, and disorganized thinking

**XII. Health Risks Associated with Prescription Drug Misuse & Abuse**

The [National Institute on Drug Abuse](https://www.drugabuse.gov) (NIDA) provides helpful and relevant information regarding prescription drug misuse and abuse. The information provided below was taken directly from the NIDA website and was retrieved on August 30, 2019.

According to the NIDA, the misuse of prescription drugs means taking a medication in a manner or dose other than prescribed; taking someone else’s prescription, even if for a legitimate medical complaint such as pain; or taking a medication to feel euphoria (i.e., to get high). The term *nonmedical use* of prescription drugs also refers to these categories of misuse. The three classes of medication most commonly misused are:

- opioids—usually prescribed to treat pain
- central nervous system [CNS] depressants (this category includes tranquilizers, sedatives, and hypnotics)—used to treat anxiety and sleep disorders
- stimulants—most often prescribed to treat attention-deficit hyperactivity disorder (ADHD)

Prescription drug misuse can have serious medical consequences. Increases in prescription drug misuse over the last 15 years are reflected in increased emergency room visits, overdose deaths associated with prescription drugs, and treatment admissions for prescription drug use disorders, the most severe form of which is an addiction. Overdose deaths involving prescription opioids were five times higher in 2016 than in 1999.

XIII. Health Risks Associated with the use of Tobacco Products

The Center for Disease Control provides substantial information regarding tobacco use. The information provided below was taken directly from their website and was retrieved on August 30, 2019.

According to the Center for Disease Control and Prevention (CDC)

- Smoking leads to disease and disability and harms nearly every organ of the body
- More than 16 million Americans are living with a disease caused by smoking.
- Smoking is the leading cause of preventable death
- Smoking causes cancer, heart disease, stroke, lung diseases, diabetes, and chronic obstructive pulmonary disease (COPD), which includes emphysema and chronic bronchitis.
- Many adult cigarette smokers want to quit smoking. Helpful information for those who wish to quit smoking may be found here.

XIV. Health Risks Associated with the use of Synthetic Cannabinoids

The National Institute on Drug Abuse (NIDA) provides helpful information regarding the adverse health risks associated with the use of synthetic cannabinoids. The information provided below was taken directly from the NIDA website and was retrieved on August 30, 2019.

Synthetic cannabinoids are human-made mind-altering chemicals that are either sprayed on dried, shredded plant material so they can be smoked or sold as liquids to be vaporized and inhaled in e-cigarettes and other devices. These products are also known as herbal or liquid incense.

These chemicals are called cannabinoids because they are similar to chemicals found in the marijuana plant. Because of this similarity, synthetic cannabinoids are sometimes misleadingly called "synthetic marijuana" (or "fake weed"), and they are often marketed as safe, legal alternatives to that drug. In fact, they are not safe and may affect the brain much more powerfully than marijuana; their actual effects can be unpredictable and, in some cases, more dangerous or even life-threatening.

People who have used synthetic cannabinoids and have been taken to emergency rooms have shown severe effects including: rapid heart rate; vomiting; violent behavior; and suicidal thoughts. Synthetic cannabinoids can also raise blood pressure and cause reduced blood supply to the heart, as well as kidney damage and seizures. Use of these drugs is associated with a rising number of deaths.

XV. Alcohol, Tobacco, and Other Drug Programs Available to Students & Employees

Students

Stevenson provides alcohol and drug education to all new students through new student orientation and through the students’ required completion of the online educational program MyStudentBody.com. MyStudentBody.com, which is a required component of the Stevenson University health profile, focuses on three areas: alcohol, drugs and sexual violence.

Each year, Stevenson participates in the National Alcohol Screening Day (NASD) held in April. Wellness Center health professionals are available to students who participate to provide confidential counseling and health services and to offer referrals to off-campus providers as needed. In 2019, 260 forms were completed by Stevenson students and educational materials were provided to participants. This event was a collaboration between the Wellness Center and the Student Government Association.

Throughout the academic year, Stevenson strives to offer programming and awareness campaigns on the topics of substance abuse. For example, in February, 2019 the Vice President, Student Affairs sent a message to all students alerting them of the health risks associated with “edibles” laced with “K2” or “Spice”. While we have not encountered any incidents on the Stevenson University campus, we were aware of other colleges where students became ill after ingesting edibles found to be laced with “K2” or “Spice”. In April, 2019 a representative from MADD along with a representative from the Baltimore County DUI Task Force delivered a presentation on campus regarding the lasting and long-term effects of substance impaired driving. Also in April, 2019 representatives from the Baltimore County Health Department delivered a presentation on heroin and opioid abuse.

Stevenson University’s Office of Residence Life, in collaboration with the Wellness Center, provides alcohol education to students who are found responsible for violating the University’s Alcohol Policy. Stevenson University utilizes the Informed Choices Alcohol Education Workshop for students found responsible for a first-time alcohol violation. Informed Choices is an interactive, discussion based workshop designed to empower students to make the best-informed decisions about alcohol consumption. The goal of the program is to further educate students on the impact alcohol has on their own bodies and in their communities, both on and off-campus. In addition, one-on-one education is provided when students violate the University’s alcohol policy a second time as well as in cases of significant first-time alcohol violations.

Students who violate Stevenson University’s drug policy, and who are permitted to remain enrolled at the University, are typically required to participate in a University sponsored drug education class facilitated by the Office of Residence Life. This class is an interactive workshop designed to help students understand the risks associated with illegal drugs and empower them to make the best-informed decisions they can make surrounding the use or abuse of illegal drugs. The goal of the program is to educate students on how drugs impact their mind, body and community as well as the impact it can have on their potential career prospects. If students continue to violate Stevenson University’s drug policy, they may be referred for education and treatment from a University approved off-campus provider or be removed from housing or suspended/expelled from the University.
Stevenson has a Substance Awareness Task Force (SATF) that meets on a monthly basis. The task force includes faculty, staff, and students. The mission of the task force is to support and promote healthy & safe life choices for all faculty, staff & students of the Stevenson community through educational resources, alternative programming and positive reinforcement. Several of the programs that are described above were developed because of the efforts of the SATF. Further, the SATF recently developed a “Stevenson Cares” campaign. The purpose of this campaign is to help provide resources for students who are in need of assistance as a result of issues such as drugs and alcohol, sexual assault, or mental health. Clings have been placed in the stalls of public bathrooms on the Owings Mills campus with important emergency contact information for students and employees who may be experiencing personal struggles, including contact information for Maryland’s Crisis Hotline (see below for more information on this hotline).

Finally, there are numerous off-campus resources that students may wish to explore, including those noted below. Students may wish to contact Stevenson University’s Wellness Center for assistance in evaluating these options.

1. SAMSHA, the Substance Abuse and Mental Health Services Administration, provides a Behavioral Health Treatment Services Locator, which is a confidential and anonymous source of information for persons seeking treatment facilities in the United States or U.S. Territories for substance abuse/addiction and/or mental health problems.

2. SAMSHA also offers free and confidential information in English and Spanish for individuals and family members facing substance abuse and mental health issues, 24 hours a day, 7 days a week. To access SAMHSA’s National Helpline, call 1-800-662-HELP (4357) or use 1-800-487-4889 (TTY).

3. Maryland’s Crisis Hotline is available 24 hours/7 days a week to provide support, guidance and assistance on how to access Substance Use Disorder services, in addition to the current mental health crisis services provided by this hotline. Callers will also be given information about naloxone, recovery support and family services as available/appropriate in the individual's local area. Call 211 and press 1 to access this crisis hotline.

4. Maryland’s Behavioral Health Administration offers valuable resources related to drug treatment and drug prevention.

5. For a free support and resource to stop smoking call 1-800-QUIT-NOW (1-800-784-8669) or visit smokefree.gov/.

Employees

Employees may access alcohol and drug education through GuidanceResources, Stevenson University’s Employee Assistance Program, by calling (800) 327-1850. For additional information, employees may contact the Office of Human Resources.

There are also numerous off-campus resources that employees may choose to explore, including those noted below.

1. SAMSHA, the Substance Abuse and Mental Health Services Administration, provides a Behavioral Health Treatment Services Locator, which is a confidential and anonymous source of information for persons seeking treatment facilities in the United States or U.S.
Territories for substance abuse/addiction and/or mental health problems.

2. SAMSHA also offers free and confidential information in English and Spanish for individuals and family members facing substance abuse and mental health issues, 24 hours a day, 7 days a week. To access SAMHSA’s National Helpline, call 1-800-662-HELP (4357) or use 1-800-487-4889 (TTY).

3. Maryland’s Crisis Hotline is available 24 hours/7 days a week to provide support, guidance and assistance on how to access Substance Use Disorder services, in addition to the current mental health crisis services provided by this hotline. Callers will also be given information about naloxone, recovery support and family services as available/appropriate in the individual's local area. Call 211 and press 1 to access this crisis hotline.

4. Maryland’s Behavioral Health Administration offers valuable resources related to drug treatment and drug prevention.

5. For a free support and resource to stop smoking call 1-800-QUIT-NOW (1-800-784-8669) or visit smokefree.gov/.

XVI. Distribution of the Annual Notification

Stevenson University’s Drug and Alcohol Prevention program will be distributed to the entire Stevenson University community (all students, faculty and staff) in accordance with the below procedures. Stevenson University’s Vice President for Student Affairs will be responsible for ensuring the timely distribution of the Drug and Alcohol Prevention program.

Students
1. At the beginning of the fall and spring semesters, the entire Drug and Alcohol Abuse Prevention program will be emailed to all students (undergraduate and graduate/accelerated) enrolled in the institution. This email will be sent on the first day of the third week of the fall and spring semesters in order to allow for the completion of the add/drop period and thus ensuring all enrolled students receive this notification.

2. At the beginning of each non-traditional academic term, a separate email will be sent to new students enrolled in each of these terms in order to ensure they receive the Drug and Alcohol Abuse Prevention program. Examples of non-traditional terms at Stevenson University currently consist of “8-week 1”, “8-week 2”, “5-week 2”, “Winterim” and the various summer terms. Students who are enrolled in “8-week 1” will be included in the email that will be sent the first day of the third week of the fall and spring semesters as described in number 1 above. Students enrolled in the other non-traditional terms, and who were not enrolled when the email was sent during the third week of the fall/spring semester, will receive an email that includes the entire Drug and Alcohol Abuse Prevention program. These emails will be sent two-days after the conclusion of the add-drop period for each of these terms. The Dean of Students will collaborate with the Registrar’s Office in order to produce an accurate list of students who should be included on these additional distributions.

3. A webpage has been created on Stevenson University’s external webpage at www.stevenson.edu and the internal portal page (SUNow Portal) detailing Stevenson University’s Drug and Alcohol Abuse Prevention program. The direct link to the page on the external website is:
Employees

1. At the beginning of the fall and spring semesters, the entire Drug and Alcohol Abuse Prevention program will be emailed to all employees employed at the institution. This email will be sent on the first day of the third week of the fall and spring semesters.

2. Employees will also receive information on where to access the Drug and Alcohol Abuse Prevention program and an overview of the program at their new employee orientation. By including this information in new employee orientation, Stevenson will ensure that employees who are hired at times following the distribution of the emails are informed of the Drug and Alcohol Abuse Prevention program.

3. A webpage has been created on Stevenson University’s external webpage at www.stevenson.edu and the internal portal page (SUNow Portal) detailing Stevenson University’s Drug and Alcohol Abuse Prevention program. The direct link to the page on the external website is: www.stevenson.edu/alcohol-drugs. These webpages have been created to facilitate ease of access. All e-mail notifications will provide a direct link to the external webpage: www.stevenson.edu/alcohol-drugs.

XVII. Biennial Review

Stevenson University is an innovative, coeducational, independent institution offering undergraduate and graduate students a career-focused education marked by individualized attention, civility, and respect for difference. In order to achieve our mission, the health and safety of members of the Stevenson University community are of primary concern to the institution. The primary goal of Stevenson’s drug and alcohol program is to help all members of the community understand the health risks associated with the abuse of alcohol and illicit drugs and to provide appropriate support and resources for those members who may be struggling with their own usage. In order to fulfill this primary goal, Stevenson strives to develop, articulate and enforce clear policies for students and employees. Further, the institution seeks to provide relevant and effective educational programs for members of the university community, particularly students, surrounding the impact of abusing alcohol and illicit drugs.

In accordance with the U.S. Department of Education’s Drug-Free School and Communities Act, combined with Stevenson’s primary interest in the safety of the members of the campus community, Stevenson University will complete a biennial review of its drug and alcohol abuse prevention program. The biennial review is conducted in order to: (a) Determine the DAAPP’s effectiveness and implement changes to the program if the changes are needed; (b) Determine the number of drug and alcohol-related violations and fatalities that occur on the institution’s campus (as defined in 20 U.S.C. § 1029(f)(6)), or as part of any of the institution’s activities and are reported to campus officials; (c) Determine the number and type of sanctions described above that are imposed by the institution as a result of drug and alcohol-related violations and fatalities on the institution’s campus or as part of any of the institution’s activities; and (d) Ensure that the sanctions required are consistently enforced. Therefore, in accordance with the U.S. Department of Education’s Drug-Free School and Communities Act Stevenson University has completed this biennial review of its drug and alcohol abuse prevention program.
The biennial review is conducted by the Office of Student Affairs in collaboration with Stevenson University’s Substance Awareness Task Force. The Substance Awareness Task Force is a committee chaired by Stevenson University’s Assistant Vice-President, Wellness Center. The selection of the AVP of the Wellness Center to chair this task force is purposeful, as she is both a registered nurse and a professional counselor. Further, as the leader of the Wellness Center, the AVP provides overall supervision to Stevenson’s mental health counselors and registered nurses. The membership of the Substance Awareness Task Force includes the following: Vice President, Student Affairs; Associate Vice President, Student Affairs & Dean of Students; Director of Security; Assistant Vice President for Student Affairs & Conduct; Nurse Practitioner, Wellness Center; and at least one representative from each of the following campus constituencies: Faculty, Athletics, Human Resources; Residence Life, and Student Government.
